Language, Context, and Text

This study deals with the linguistic study of texts as a way of understanding how language functions in its immensely varied range of social contexts. The authors adopt a functional approach to language, in which the different registers or functional varieties of a language are explained by reference to the different contexts in which they occur. Their analysis reveals how, on the one hand, each text is unique, while on the other, the way a text is organized and the kinds of coherence it displays are closely related to the place and the value that it has in its social and cultural environment.

Language, Context, and Text

Contributions in this book illustrate the many methods available for researching language in context and for the analysis of everyday text types. Each chapter highlights language as a resource for the expression of meanings—a social semiotic resource. Text analysis is used to reveal our capacity to formulate multiple meanings for participation in different social practices—in relationships, in work, in education and in leisure. The approach is applied in text-based teaching and in the critical analysis of public discourses. The texts come from different social spheres including banking, language classes, senate hearings, national tests and textbooks, and interior architecture. Text-based research makes a major contribution to Critical Discourse Analysis. The editors and authors of this book demonstrate the value of text analysis for awareness of the role of language for accountable citizenship and for teaching and learning. This book will be of interest to anyone researching in the fields of language learning and teaching, functional linguistics, multimodality, social semiotics, systemic functional linguistics, text-based teaching, and genre analysis, as well as literacy teachers and undergraduate and postgraduate students of linguistics, media and education.

Language, Context, and Text

Starting from the point of view that language is essentially a social phenomenon, this book explores the interconnectedness of linguistic and social matters in a wide variety of texts ranging from casual conversations to extracts from coursebooks. Kress demonstrates that, rather than being powerless in the face of a monolithic language system, the individual language user is constantly engaged in the processes of linguistic reconstitution and change.

Text-Based Research and Teaching

This volume signposts several paths of multimodality research and theory-building today. The chapters represent a cross-section of current perspectives on multimodal discourse with a special focus on theoretical and methodological issues (mode hierarchies, modelling semiotic resources as multiple semiotic systems, multimodal corpus annotation). In addition, it discusses a wide range of applications for multimodal description in fields like mathematics, entertainment, education, museum design, medicine and translation.

Linguistic Processes in Sociocultural Practice

Discourses of Southeast Asia presents the latest Southeast Asian research in Systemic Functional Linguistics (SFL). SFL provides a sophisticated social semiotic architecture for exploring meaning in languages and texts in the context of Southeast Asia. This edited volume examines the ideational, interpersonal and textual metafunctions in the domains of education, media, translation and language typology. It applies SFL in text analysis so as to be relevant to theory, research and professional practice. This book brings together 12 original chapters by both seasoned and emerging scholars. Their chapters study the 'native' languages of Southeast Asia: Indonesian, Malay, Tagalog, Thai and Vietnamese, and relatively newer languages in Southeast Asia: English and Mandarin. The chapters analyze a variety of texts, namely advertisements, classroom interactions, corporate reports, dramas, interviews, media reports, narratives, novels, textbooks and video clips. This volume captures the exciting and productive state of the art of SFL in Southeast Asia. It will be of particular interest to scholars trying to understand the application of SFL in this region.

Language as Social Semiotic

This collection of original articles covers a range of research connecting with the work of the eminent linguist Ruqaiya Hasan. It contains contributions from M.A.K. Halliday, G. Williams, D. Butt, D. Miller and M. Berry among others, an interview with Ruqaiya Hasan, and notes from the contributors about their connection with Ruqaiya Hasan's work.

Perspectives on Multimodality

As the basis of modern translations of the Scriptures, biblical Greek and lexicography are disciplines vital to our understanding of the original Christian message. This volume, which celebrates the career of Frederick W. Danker, presents the state of the art in Greek and biblical language studies. Amid the important topics of discussion are how one discovers the meaning of words, current tools available to students of language, and the approach being used in the latest New Testament and Septuagint Greek

dictionaries. Added features of this book include appendices listing current Greek-English dictionaries and grammars and current Greek dictionary and language projects as well as indexes of biblical references, Greek and Hebrew words, and grammatical terms.

Language as Social Semiotic

M.A.K Halliday's work has been hugely influential in linguistics and beyond since the 1960s. This is a collection of interviews with key figures in the generation of social semioticians who have taken Halliday's concept of social semiotics and developed it further in various directions, making their own original contributions to theory and practice. This book highlights their main lines of thought and considers how they relate to both the original concept of social semiotics and to each other. Key themes include: Linguistic studies, multilinguality and evolution of language; Text, discourse and classroom studies; Digital texts, computer communication and science teaching; Multimodal text- and discourse analysis; Education and literacy; Media work and visual and audio modes; Critical Discourse Analysis. Featuring interviews with leading figures from linguistics, education and communication studies, a framing introduction and concluding chapter summing up commonalities and differences, connections and conflicts and key themes, this is essential reading for any scholar or student working in the area of social semiotics and systemic functional linguistics. Additional video resources are available on the Routledge website. Featuring: Christian M.I.M. Matthiessen, Theo Van Leeuwen, James R. Martin, Jay Lemke, Gunther Kress

Discourses of Southeast Asia

The shift towards a sociolinguistic approach to the analysis of language in the last few decades has necessitated new definitions for a number of concepts that linguists have taken for granted for a long time. This volume attempts to demystify the important notions of 'text' and 'context' by providing clear definitions and examples within the assumptions of Systemic Functional (SF) linguistics. After a discussion of the role and significance of context by three eminent SF linguists in section one, the influence of context on text is dealt with in section two 'From Context to Language'. Section three 'From Language to Context' considers textual features and their relationship to contextual factors. All the contributors base their analyses on data collected from a variety of spoken and written registers of contemporary English.

Society in Language, Language in Society

The concept "context of situation" introduced by Malinowski some eighty years ago has now become an essential element of the vocabulary of any linguistic theory whose aim is to reveal the nature of language. With the abandonment of the spurious distinction between competence and performance, the process of language, i.e., language use, has claimed its rightful place in the study of language. The chapters of this book focus on the relations of context and text, conceptualising the latter as language operative in some recognizable social context. It is argued that context is not simply a backdrop for the occurrence of words; rather, it is an active element which on the one hand plays a crucial role in the progression of human discourse and on the other enters into and shapes the very nature of language as process and as system, furnishing the foundation for functionality in language. Acting as the interface between language and society, context analysis reveals the power of language for creating, maintaining and changing human relationships.

Biblical Greek Language and Lexicography

Gunther Kress, a pioneer in the field of multimodality and the co-author of the bestselling *Reading Images*, produces a comprehensive theoretical framework for the study of the topic providing sample analyses and suggestions for further reading.

Social Semiotics

This stimulating volume provides fresh perspectives on choice, a key notion in systemic functional linguistics. Bringing together a global team of well-established and up-and-coming systemic functional linguists, it shows how the different senses of choice as process and as product are interdependent, and how they operate at all levels of language. Taking an interdisciplinary approach, it covers a range of linguistic viewpoints, informed by evolutionary theory, psychology, sociology and neuroscience, to produce a complex but unifying account of the issues. This book offers a critical examination of choice

and is ideal for students and researchers working in all areas of functional linguistics as well as cognitive linguistics, second-language acquisition, neurolinguistics and sociolinguistics.

Text and Context in Functional Linguistics

This collection of original research highlights the legacy of Michael Toolan's pioneering contributions to the field of stylistics and in so doing provides a critical overview of the ways in which language, text, and context are analyzed in the field and its related disciplines. Featuring work from an international range of contributors, the book illustrates how the field of stylistics has evolved in the 25 years since the publication of Toolan's seminal *Language, Text and Context*, which laid the foundation for the analysis of the language and style in literary texts. The volume demonstrates how technological innovations and the development of new interdisciplinary methodologies, including those from corpus, cognitive, and multimodal stylistics, point to the greater degree of interplay between language, text, and context exemplified in current research and how this dynamic relationship can be understood by featuring examples from a variety of texts and media. Underscoring the significance of Michael Toolan's extensive work in the field in the evolution of literary linguistic research, this volume is key reading for students and researchers in stylistics, discourse studies, corpus linguistics, and interdisciplinary literary studies.

Context in the System and Process of Language

This two volume handbook provides a comprehensive examination of policy, practice, research and theory related to English Language Teaching in international contexts. More than 70 chapters highlight the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second language acquisition and pedagogy. The Handbook provides a unique resource for policy makers, educational administrators, and researchers concerned with meeting the increasing demand for effective English language teaching. It offers a strongly socio-cultural view of language learning and teaching. It is comprehensive and global in perspective with a range of fresh new voices in English language teaching research.

Multimodality

This book is intended as a systemic functional contribution to language typology both for those who would like to understand and describe particular languages against the background of generalizations about a wide range of languages and also for those who would like to develop typological accounts that are based on and embody descriptions of the systems of particular languages (rather than isolated constructions). The book is a unique contribution in at least two respects. On the one hand, it is the first book based on systemic functional theory that is specifically concerned with language typology. On the other hand, the book combines the particular with the general in the description of languages: it presents comparable sketches of particular languages while at the same time identifying generalizations based on the languages described here as well as on other languages. The volume explores eight languages, covering seven language families: French, German, Pitjantjatjara, Tagalog, Telugu, Vietnamese, Chinese, and Japanese.

Systemic Functional Linguistics

Each of the contributions in this volume expresses in some way the hope that it is possible to achieve an integrity of linguistics, understood as a science of man, in its psychological, sociological, pragmatic and cultural context. The first section focuses on the history of language study, the second section on the integrative description of facets of language, and the last section on the need for the study of language in context.

Rethinking Language, Text and Context

Presenting a field-defining overview of one of the most applicable linguistic theories available today, this Handbook surveys the key issues in the study of systemic functional linguistics (SFL), covering an impressive range of theoretical perspectives. Written by some of the world's foremost SFL scholars, including M. A. K. Halliday, the founder of SFL theory, the handbook covers topics ranging from the theory behind the model, discourse analysis within SFL, applied SFL, to SFL in relation to other subfields of linguistics such as intonation, typology, clinical linguistics and education. Chapters include discussion on the possible future directions in which research might be conducted and issues that can

be further investigated and resolved. Readers will be inspired to pursue the challenges raised within the volume, both theoretically and practically.

International Handbook of English Language Teaching

Distinguished contributors focus on the relationship between politics and religion, and on ordinary people's religious life. These topics are approached through empirical studies and theoretical discussions, and editor Pål Repstad demonstrates the need for a closer relationship between the two topics.

Language Typology

The Routledge Handbook of Systemic Functional Linguistics brings together internationally renowned scholars of systemic functional linguistics (SFL) to provide a space for critical examination of the key tenets underpinning SFL theory. Uniquely, it includes description of the three main strands within contemporary SFL scholarship: Halliday's Introduction to Functional Grammar, Martin's discourse semantics and Fawcett's Cardiff Grammar. In five sections and thirty-eight interdisciplinary chapters, this is the first handbook to cover the whole architecture of SFL theory, comprising: the ontology and epistemology of SFL; SFL as a clause grammar; lexicogrammar below the clause, and SFL's approach to constituency; SFL's vibrant theory of language above the clause; and SFL as a theory of praxis with real-world applications. With a wide range of language examples, a comprehensive editors' introduction and a section on further reading, The Routledge Handbook of Systemic Functional Linguistics is an essential resource for all those studying and researching SFL or functional grammar.

History and Perspectives of Language Study

The ten papers in this volume focus on Subject and Theme. Theme began its life as a semantic notion in the work of Vilém Mathesius, while Subject has traditionally been seen as just a syntactic entity. More recently two related perspectives on these concepts have attracted linguists' attention: the formal criteria for their recognition and the relations between the two concepts. Using the systemic functional model as their point of departure, the papers in the present volume consider the two notions in a wider context by relating them to the interpersonal and textual metafunctions of language. By contrast with the current linguistic approaches, the primary focus here is neither simply on formal recognition criteria nor on the relation of these elements to each other; instead, the notions of Subject and Theme are examined from the point of view of their function in the economy of discourse, with studies of their significance in English and French, as well as in a range of non-Indo-European languages. Definitions of the concepts are offered on the basis of their discourse functions, which are also important in selecting the formal recognition criteria and in understanding their mutually supportive role vis à vis each other. Most of the papers in the volume are a selection from presentations made at the 19th International Systemic Functional Congress at Macquarie University.

The Cambridge Handbook of Systemic Functional Linguistics

Provides a way of accounting for the relationship between language and a variety of social phenomena.

Political Religion, Everyday Religion: Sociological Trends

This book draws on visual data, ranging from advertisements to postage stamps to digital personal photography, to offer a complex interpretation of the different social functions realised by these texts as semiotic artefacts. Framed within the media environment of the city of Hong Kong, the study demonstrates the importance of social context to meaning making and social semiotic multimodal analysis. This book will be of interest to readers in the arts, humanities and social sciences, particularly within the fields of semiotics, visual studies, design studies, media and cultural studies, anthropology and sociology.

Language and Social Relations

In the social sciences and humanities, researchers often qualify the period in which we are living as 'late-modern', 'post-modern' or 'superdiverse'. These terms seek to capture changing conditions and priorities brought about by a new social order. This social order is characterized, among other traits, by an increased visibility of social, cultural and linguistic diversity, arising out of unprecedented migration and mobility patterns. It is also associated with the development of information and communication technologies, which in the digital era transform communication patterns, identities, relationships and possibilities for action. For education, these late-modern conditions create numerous interesting challenges, given that they are of course reflected in the classroom and other sites of learning. Conditions of 'superdiversity' mean that, in educational institutions, varied practices, linguistic repertoires, and symbolic resources come into contact, posing questions about how institutions and actors choose to deal with this diversity. Likewise, digital technologies with their possibilities for assembling and using multimodal texts in new ways transform the learning experience, redefining what counts as teaching, learning, knowledge, or assessment. By providing careful analyses of policies and interactions in superdiverse, technologically complex, educational contexts, the authors of this volume contribute something important: they give a shape – a semiotic form – to some of the issues raised by transnational migration, sociocultural diversity, and digital complexity. They construct a framework for reflecting about the new social order and its impact on education. They also reveal the kinds of new questions and new terrains that can and must be explored by linguistic research if it wants to stay relevant for education in these times of change.

Multimodal Communication

Most studies of the genre of Luke-Acts underestimate the role of literary divergence in genre analysis. This monograph will show how attention to literary divergence may bring resolution to the increasingly complex discussions of the genre(s) of Luke-Acts.

Using Analytical Frameworks for Classroom Research

This book focuses on ideology and its function in fictional discourse, exploring the link between textual ideologies and real ideologies in text-production environments. It attempts this through a specific focus on the social and linguistic elements that control the presence, the use, and the presentation of ideology, and also the way in which linguistic elements are controlled and manipulated by the collective consciousness of the text producer. This correlation between fictional discourse and ideology is revealed through a series of chapters that cover four closely interrelated areas, focusing specifically on Malaysian and Singaporean fiction. Firstly, the positioning of Malaysian and Singaporean literatures in English as individual literary traditions. This is to counter the non-recognition of Malaysian and Singaporean literatures as individual traditions in spite of five decades of independence. Secondly, establishing a contextual (socio-cultural and political) framework as a basis for discussion on real ideology, arguing that Malaysian and Singaporean writers have moved beyond the anti-western nationalistic stage and on to more personal and communal concerns such as race relations, identity and a sense of belonging. Thirdly, rationalising the social structures of ideology that are likely to be found in the Malaysian and Singaporean social milieus, especially location and text-specific social variables of ideology. Lastly, it seeks to reveal a linguistic-oriented approach for the study of textual ideologies and for linking textual ideologies to ideologies in the overall text production environment. The book ultimately shows the significant possibilities of systematic links between textual ideology, and the real ideology in the text production environment, through what can best be termed as ideological stylistics. In doing so, it aims to contribute significantly to studies of ideology in general and more specifically on ideology on Malaysian and Singaporean literatures in English.

Language and Education

This book focuses on how instruction affects English learners' use of Theme and thematic progression (thematic organization). While thematic organization in learner English has been extensively studied, little research has been done to investigate the effects of instruction on the use of Theme and thematic progression. Adopting a Systemic Functional Grammar approach, this study explores how a ten-week instruction on thematic organization affects Chinese college students' use of Theme and thematic progression by comparing their English essays before and after the instruction, with native-speaker essays as the research baseline. Second-language acquisition researchers, curriculum developers and foreign language teachers will find this book useful as it not only presents a clear and detailed

report of how Chinese college students learn to make better thematic choices, but also provides a well-developed instructional package on Theme and thematic progression.

Multilingualism and Multimodality

This book presents an analysis of Chinese grammar from a systemic functional perspective. Its main focus is the clausal grammar of Chinese, and Dr Li provides a thorough analysis of Chinese clauses according to their constituent parts. However, uniquely, the second half of the book extends this examination into an analysis of Chinese discourse and text analysis. Professor Halliday's foreword praises Eden Li's thorough analysis, and shows its relevance to the field of systemic functional linguistics in general. Systemic Functional Grammar of Chinese provides the reader with a general theoretical framework of grammar and discourse analysis from a systemic functional perspective.

History, Biography, and the Genre of Luke-Acts

This text aims to examine the nature of text and context, using theoretical models based in the framework of Systemic Functional Linguistics (SFL).

Ideological Stylistics and Fictional Discourse

The sociolinguistic turn of the 1960's has been remarkably successful: variability of language is no longer an issue open to debate. But studies of variation have by and large been restricted to the level of expression. This volume makes a contribution to a neglected area in sociolinguistics, namely variation at the level of meaning, i.e., semantic variation. The chapters in this volume discuss the results of an empirical research strongly supporting the view that systematic variation in the choice of semantic elements occurs across different social strata: mothers and their young children less than four years old showed a highly consistent, statistically significant, orientation to distinct styles of meaning, which correlated with their social positioning. The comparison of kindergarten teachers' ways of meaning with those of mothers', not surprisingly, reveal that teacher talk is an exaggerated version of middle class mothers' talk. Findings of this research are relevant to any serious discourse about equitable education.

Theme and Thematic Progression in Chinese College Students' English Essays

Discourse in English Language Education is designed to introduce students to the major concepts and issues in discourse analysis and its applications to language education, drawing on the key research from a range of approaches. This will be essential reading for upper undergraduates and postgraduates with interests in applied linguistics, TESOL and mother tongue language education.

A Systemic Functional Grammar of Chinese

The essays in this volume explore communication across cultures using an interdisciplinary approach to language teaching and learning, mediated by the growing field of educational linguistics. Topics include the use of English as a medium of wider communication and the growth of national varieties of English throughout the world. An international array of distinguished contributors includes scholars from China, Great Britain, Hong Kong, India, Israel, Nigeria, Singapore, Taiwan, Ukraine, and the United States. This collection suggests that language diversity is a unifying force in a globally interdependent world.

Text and Context in Functional Linguistics

Discourse in English Language Education introduces students to the major concepts and questions in Discourse Studies and their applications to language education. Each chapter draws on key research to examine critically a particular approach in the field, providing a review of important literature, examples to illustrate the principal issues concerned and an outline of the implications for their application to pedagogy. Features include: coverage of a broad range of approaches in the field, including Systemic Functional Linguistics and Register, Speech Acts, the Cooperative Principle and Politeness, Conversation Analysis, Genre Analysis, Critical Discourse Analysis and Corpus Linguistics analysis of a wide range of discourse examples that include casual conversation, newspapers, fiction, radio, classrooms, blogs and real-life learner texts a selection of illustrations and tables carefully chosen to enhance students' understanding of different concepts and approaches stimulating discussion questions at the end of each chapter, specially designed to foster critical thinking, reflection and engagement with the topics covered. Engaging, accessible and comprehensive, Discourse in English

Language Education richly demonstrates how Discourse Studies can inform the teaching of English and other languages, both as a foreign language and in the mother tongue. It will be essential reading for upper undergraduates and postgraduates with interests in Applied Linguistics, TESOL and Language Education.

Semantic Variation

This collection brings together innovative research from socially-oriented applied linguists working in sports. Drawing on contemporary approaches to applied linguistics, this book provides readers with in-depth analyses of examples of language-in-use in the context of sport, and interprets them through the lens of larger issues within sport culture and practice. With contributions from an international group of scholars, this an essential reference for scholars and researchers in applied linguistics, discourse analysis, sport communication, sport management, journalism and media studies.

Discourse in English Language Education

Ideology is so powerful it makes us believe that war is rational, despite both its brutal means and its devastating ends. The power of ideology comes from its intimate relation to language: ideology recruits all semiotic modalities, but language is its engine-room. Drawing on Halliday's linguistic theory – in particular, his account of the “semiotic big-bang” - this book explains the latent semiotic machinery of language on which ideology depends. The book illustrates the ideological power of language through a study of perhaps the most significant and consequential of our ideologies: those that enable us to legitimate, celebrate, even venerate war, at the same time that we abhor, denounce and proscribe violence. To do so, it makes use of large multi-register corpora (including the British National Corpus), and the reporting of the 2003 invasion of Iraq by Australian, US, European, and Asian news sources. Combining detailed text analysis with corpus linguistic methods, it provides an empirical analysis showing the astonishing reach of our ideologies of war and their profoundly covert and coercive power.

The World Doesn't Revolve Around You

Too Good To Be Used is the newest book by award-winning writer R. Lee Walker. The story is of a young female attorney that thought she was too good to be swindled. Della's romance involved national security matters and the realization of the Patriot Act. In this glamorous tale of greed and deceit, learn what happened to Della so it won't happen to you! R. Lee Walker is also the author of Paprika: Versions of Wisdom.

Are You Listening? Life Is Talking to You!

Are you over-scheduled, focused on the past, or over-emotional? It could be because you're just not paying attention. As a result, your life may feel like a stressful mystery, filled with frustration, confusion, self-doubt, worry, and fear. Wouldn't you rather live a fulfilled and exciting adventure filled with happiness? If you stop and listen, that life can be yours. Life talks to us in many ways—through our intuition, thoughts, bodies, emotions, instincts, animals, time, money, passion, love, and struggles. When we learn to listen, our lives become easier and profoundly more fulfilling. Qualified counsellor Phoebe Hutchison wants to help you live your best possible life. In this guide, she shares easy-to-use strategies to help you • increase your understanding of your life, circumstances, and issues; • improve your life through strategies to overcome negative thinking, depression, low self-esteem, anger, addiction, relationship and parenting problems, and more; • identify techniques to help you transcend your personal issues; • live in the present moment more often; and • interpret life's messages so that you

can live your best life. When you learn to acknowledge your power, understand life's unwritten rules, and use the tools you were born with, you can step out of one world and into another.

Traci paints such vivid images that you feel as if you are a member of her family. Get to know Traci, her husband and two kids in this collection of forty-five funny and touching stories. You'll relate to her struggles with motherhood, weight, marriage, and the challenge of juggling it all in today's modern world.

All That Shimmers

Sometimes all that shimmers...is the darker side of life When the only world he'd ever known changed, Eric Meyers had to change along with it. Now he needs to figure out his next steps, especially when it comes to Tagh. Things get even more confusing when he starts dreaming about a man he doesn't even know. Tagh's recovery from battle wounds isn't helped when he has to face Eric's continuing doubts. If that's not bad enough, he also has to deal with more of his kind turning up and what it all means. There are zoos out there filled with people, people who shouldn't even be there—people who need rescuing. Jory has been held captive in one of these hellholes for the last few years. His dreams of Eric, a man he's never met, give him hope that help is on the way, but the waiting is hard. To save the others, Jory stands up to their jailers. The only problem is that he is just one against the many. What fate brings together, let no person tear apart. But is the trio ready to face a future none of them had ever planned on? Between their enemies and their heavy responsibilities, Eric, Tagh and Jory have to work out more than their immense differences—they have to figure out if their very relationship is strong enough to survive whatever's coming next. Because come it will...

Winning the Fight to be Happy

Proven tactics for achieving happiness and peace of mind – from someone who has fought for them and won. Life doesn't make it easy for us to find happiness. Day after day, we are presented with a full spectrum of challenges, as well as anxiety, depression, and overall negativity. Before we know it, we fall into a tunnel, where we forget how to be positive and cannot see how to change and improve our lives. The good news, as the author of this book learned personally, is that we can fight against these challenges. Winning the Fight to be Happy teaches you strategies on how to overcome the forces that bring you down, and how to become a person through whom happiness flows freely. Each chapter discusses a different way to improve your life, on a constant course towards peace of mind and a positive perspective. Here are the tactics that will empower you to win the fight for being a happier person. A better life is something you deserve, and a happier life is something you can achieve. It all starts today, with You.

My Sister's Keeper

Anna is not sick, but she might as well be. By age 13, she has undergone countless surgeries, transfusions, and shots so that her older sister Kate can somehow fight the leukemia that has plagued her since childhood.

Gray Sin

—JOE— I was doing my job as a cop when I rescued Gracyn. But I should have known better than to bring her back to my cabin. Kingsbrier's princess has a reputation for getting whatever she wants. I'd never considered she'd be interested in someone as old as her father. I wasn't attracted to a younger woman until that night. Now I'm in bed with the devil, trying to keep my buddies from finding out that she's everything I ever wanted. —GRACYN— Joe was another one of my parents' friends not worth paying attention to until he saves me from myself. It was only supposed to be one sinful night. Now, I tempt fate each time I go back for more. I've fallen for a much older man and we're treading in gray waters. To keep him I'll have to come clean to my family. But does friendship eclipse love?

Fraudulently Ever After

She's cursed to live out romance tropes gone wrong. As a millionaire bad boy looking for a fake girlfriend, he is one. They're a disaster in the making...and each other's last hope. Tina I'm cursed. Yes, really. I broke a boy's heart because he wasn't romance hero material, and his nonna cursed me to live out my favorite plotlines...without the happy ending. Consider my track record: Second-chance romance? Turns out my old flame returned home to cook meth, not take care of his parents. Redeemed bad boy? He writes to me occasionally from prison. Billionaire businessman? Rory was my prince charming...right up until his ex-girlfriend showed up with a baby bump. My love life is a lost cause, but my friends claim they have a solution. They're convinced I can rip control from the curse by seeking out a trope situation instead of getting sucked into one. When I find Zachary Littlefield's ad seeking a fake girlfriend, I decide it's go-time. Because I am so immune to hot rich boys. Zach I'm the screw-up spare to my brother, the heir—the Littlefield who can never do anything right. Now my brother's making a huge mistake, and I'm expected to celebrate. Instead, I do what any half-intelligent man would: I hire a date to stir up trouble at his engagement party. Tina's not my type, but there's something about her... Maybe it's that she seems completely immune to my charm. I've never met a challenge I didn't want to screw up...or screw. **An interconnected standalone in the Bad Luck Club series**

Dirt

From New York Times bestselling author Cassia Leo comes an emotional romance about all-consuming love and family secrets. Jack and I had everything. Then in one brutal instant, the universe tilted on its side, discarding us into black nothingness. Now Jack is obsessed with revenge, and I'm desperate to leave the night of our anniversary behind me. When we're not fighting, the only way we communicate is in the bedroom. With nothing left to lose, I write a goodbye letter and head for my mother's empty house, three hours away from Jack, where I quickly meet a neighbor who helps me find a job. My new neighbor—handsome ex-soldier Isaac Evans—is complicated. Nevertheless, we form a fast friendship, bonding over a mutual desire to create something beautiful from the wreckage of our lives. But despite the distance between us, Jack and I are still trying to make things work—fighting and playing dirtier than ever. And he doesn't appreciate my new friendship with Isaac. Not one damn bit.

Love - The Key to Optimism

"Surrounded by the challenges of present-day life, mounting work-pressures, the rat race to clamber to the top, insecurities on all fronts – professional as well as personal, how does one stand up un-cowed, and come out a winner? What are the life skills required, not just to survive, but to succeed as well? Are the golden virtues of loyalty, responsibility, reliability, and humanity, still relevant? Do religion and spirituality have any role in this age of science and technology? How can one garner the strengths of technology, without becoming a slave to it? How can one strike a balance between work and life, and live life to the fullest extent? What is the worth of the support of family and friends, in this strife-filled arena of life? Read on to know about these and much more... For the storm-ravaged barge of life, tossed about by adversities, optimism is the buoy that will hold it anchored and safe... And love – charity, compassion, good-will and humaneness – is the Key to such Optimism. "

Cognitive Strategies for Suicide Prevention, Addiction And Anxiety

The author has been a psychiatrist for thirty-nine years and has worked with thousands of patients. His impression is that many of their problems have to do with the way they process or deal with information. Often, maladaptive pathways of thinking are employed to the person's detriment. When this occurs, it tends to be repeated again and again and becomes habitual. Eventually, symptoms such as anxiety,

depression, suicidal feelings and addiction are generated and become more and more problematic. In the author's experience, this can be interrupted by mentally training oneself to only travel down adaptive pathways of thinking. With this approach, old pathways of thinking are abandoned. There are a number of techniques that can be employed to establish and reinforce newer adaptive pathways of thinking. It's not for everybody and should not be used exclusively, but first and foremost among techniques is mindfulness. The author has seen it work again and again. Introduced to the world by Buddha for the purpose of enlightenment, nowadays it is used for mental health issues. The mindfulness here is different from the type taught in DBT. The author is not saying that DBT mindfulness doesn't work; it's just that he has seen better outcomes with the type he teaches. He learned the basics of it at IMS at Barre, Massachusetts, during various meditation retreats. Modern psychology does not address the invisible spiritual worlds that interface with the physical world. According to religious teachings, these worlds really exist and forces from them can influence our thinking. Reportedly, an archangel rebelled against God and was booted out of heaven. A third of the angels went down with him to earth. They seek to have us act in such a way so that when we die, they can claim our souls and torture us in hell. The present work at least addresses this issue. Likewise, energy medicine is discussed briefly.

Rizzard Of Oz 101

With rizz being the new popular term to describe picking up individuals, this book will show you to do just that. However, it will show you another meaning of rizz through self development. It will show you how to romantically charm your way to someone's heart using various methods and exploring many areas involving relationships, boosting your libido and love hormones. There are theories in the book that could be applied in real life and are essential for growth. The third section has short stories describing how rizz is formed. Take your power back

All the Worlds Between Us

Seventeen-year-old Quinn Hughes needs to be in top shape if she wants to medal at the swimming World Championships in ten months. This means no easy distractions, no matter how pretty they are. She's still piecing her confidence back together after not qualifying for the Olympics, her relationship with her twin brother is getting worse the more he hangs out with the popular kids, and then Kennedy Reed suddenly squeezes herself back into Quinn's life. The girl who was her best friend. The girl who gave Quinn her first kiss. The girl who hasn't spoken to her since. Soon, Quinn finds herself juggling her new girlfriend, training for the biggest competition of her life, and discovering she's not the only Hughes twin with a crush on Kennedy Reed. All these distractions are getting to her, and if she wants that medal she needs to find a way to stop drowning on dry land.

Spring Training Box Set

Spring Training follows the lives of three smokin' hot major league baseball players as they deal with the fame and reality of life and love. Catching Zia features the second baseman and his desire to meet a woman who isn't after him for his money or his celebrity status. Catching Lily features the pitcher and the woman who has haunted him since their chance meeting three months ago. Catching Ava features the third baseman as he meets the perfect sweet, innocent, younger woman while dealing with a family crisis.

Voices in the Desert

There exists in Canada a literature that was born in the 1970s at the hands of first-generation Canadians of Arabic descent; this literature shows the indelible marks of genius and has produced great works, in significant amounts. It has been produced in all genres and it covers styles ranging from the realist to the postmodernist. These works are written in French, English and Arabic, thereby fulfilling twice over the definition given by Deleuze and Guattari to minor literatures. It bears the indelible mark of exile and can presently join ranks with "other solitudes" Canada has come to acknowledge, admit and embrace. The authors included are Anne-Marie Alonzo, Andrée Dahan, Alba Farhoud, Yoland Geadah, Nadia Ghalem, Mona Latif Ghattas, Nadine Ltaif, Yamina Mouhoub and Rubba Nadda. -- back cover.

Tripartite Realms of Existence

In this light-hearted book the author channels a new perspective on the human dynamic. The source of this information comes from Philemon Rois who lives in the celestial realms. Some know him as Philemon who sits on the council of Sirius. Philemon has devoted his present life to the growth and development of the tripartite consciousness. Within this galaxy there are many forms of unfolding consciousness. All humankind is a tripartite being embodying the manifestation of a divine trinity. This books describes the basic structure of the tripartite life form and its major purposes as it unfolds within its various planes of existence. Through a cooperative effort Philemon and the author, who have walked a path together for many lifetimes, you are guided on an exploration of the key lessons available within the tripartite realms of existence. Here you will find simple and practical teachings that once learned

will allow you to begin the path of actualizing your true identity and gifting your presence as a Tripartite Creator God.

Army Brats: David, Pernilla and the Magic Dino Dragon

The young adult story "Army Brats: David, Pernilla and the Magic Dino Dragon" invites readers to explore 1969-70, a time of the first moon landing, an unpopular war, racial unrest and rapid social change. For many teenagers at the time, life revolved around rock and roll and sports, not video games, texting and social media. Fifteen-year-old David Stevenson must discover who objects to his interracial rock band and taboo romance before the person terrorizes these military brats again. A magic dino dragon that comes from Vietnam helps detect lies, locate missing people and objects, and assists with a larger mystery.

It's NOT a Holiday!

Professional tour leaders Andy N Robinson and Kirsty McGregor have spent over ten years leading group tours. In *It's NOT a Holiday!*, they bring this combined experience together into a 'must read' book for all adventure travellers. Fun and informative, *It's NOT a Holiday!*, will help you understand what group tours involve – the types of tour available, what happens on tour as well as offering advice to help you make the most of your time away. It introduces twenty stereotypical characters you will inevitably find on your own tour and how they cope with the delays, breakdowns, border closures and other hiccups that commonly occur on overland trips. The book highlights the A-Z of group travel through real stories and humorous anecdotes from their experience as professional tour leaders. *It's NOT a Holiday!* should be the first item you pack as you prepare for that organised tour of a lifetime

A Guide to the Recovery Toolbox

People in recovery often hear of the tools. What are they? When do I use them? How? This book is a reference guide to help answer these questions, with over 80 tools and a troubleshooting section. Written to be accessible not only to twelve-step programs (AA, NA, Alanon, CoDA, etc) but anyone who wants to learn, whether you're in recovery or not.

Attitude

This inspired collection of political cartoons laughs in the face of the mainstream political cartoons featured in daily newspapers that make lame jokes about the news while sucking up to the corporations that own them. This collection features the next generation of artists out to save the world: artists whose cartoons run in the hottest and most subversive alternative papers around the US. This collection includes hundreds of cartoons and interviews with over 20 of the best in young, alternative, really political comic art. In b/w throughout.

The Successor

A rich and powerful family, struck by tragedy, gathers in a lawyer's office to hear the announcements of their late father's will. Of the five candidates in the room, it seems perfectly obvious who will inherit the company and be named the sole successor of a substantial fortune. But instead of cheques, the potential heirs are each given envelopes. Instead of the keys to an empire, they are handed cryptic clues pertaining to a bizarre and twisted treasure hunt, designed by their father to test them. This trial of brotherhood and sisterhood will likely end in bloodshed. Travis Madden, a mathematical prodigy, did not expect to find himself caught up in a rat-race, but his expertise in codes and number patterns makes him the unlikely key to finding a dead man's lost fortune. Driven by the need to protect a young heiress from her murderous family, Travis must follow the clues and solve the puzzles before this dangerous game of greed and power consumes them all. There can only be one successor.

The truth is that we all have our own encounter with Jesus approaching. Are you ready for that day? Donna Geertson's encompassing book takes a look at each area of life and gives concrete ideas for bringing an eternal focus to everyday living. Ready and Waiting will encourage you to live purposefully and joyfully. Discover the hope that can be found in a life that is Ready and Waiting.

Poems, Pictures, Anecdotes & Antidotes

Poems, Pictures, Anecdotes & Antidotes Remember when I used to joke about writing a book one day? So there you have it, said day has come. Now the world gets to rejoice in this compiled and curated collection of content from my Instagram. I included many contextually related pictures as well, although I put the main focus on my writings. Often philosophical or wise, sometimes funny or ironic, other times poetic or just unemotional, objective and informative. With mindfulness and self-awareness. Poems: This chapter is especially for you if you like words and stuff. Please note my crafty description, indicating I know a lot about these things. I promise the following content will be way more literary than this. Anecdotes: In this chapter, you can find short stories, opinions and anecdotes of mine. Also, quotes by other wise people and my opinion on them. The wide variety of topics ranges from seemingly superficial nonsense to indispensable wisdom. From a mindful appreciation of nature and gratitude to be alive to carefree existence and relishing the present moment. This and more coming up next. Enjoy! Antidotes: The antidote to not knowing something is learning it. Regardless of whether you have ever even asked yourself any of these questions, I will answer them. In this chapter, you can find interesting, funny, useful, useless, trivial, profound, and other facts about life, earth, the universe, flora and fauna, people, language, etymology and other stuff related to my Instagram posts' pictures and/or directly copied from their caption texts. Bonus: The origin of spreadfire What's the story behind the name? This is the origin story of spreadfire. It's mostly about the birth of the name and only tangential about the person behind the pseudonym. Fear not for the messiah has come.

PROSPECTIVE ENDEAVOURS

Prospective Endeavours effectively reflects our deepest emotions. It is also the soul's voice, and it helps us communicate our emotions, feelings, views, and efforts. Many people seek solace in writing. The work of art portrays strong emotions or being in a terrible situation. Wonderful collection The colorful Co-authors developed the content. Whereas these poems imaginatively concentrate attention in language selection and organization to create a particular emotional reaction in terms of content, tone, and rhythm.

Never Get a Real Job

Young serial entrepreneur Scott Gerber is not the product of a wealthy family or storied entrepreneurial heritage. Nor is he the outcome of a traditional business school education or a corporate executive turned entrepreneur. Rather, he is a hard-working, self-taught 26-year-old hustler, rainmaker, and bootstrapper who has survived and thrived despite never having held the proverbial "real" job. In Never Get a "Real" Job: How to Dump Your Boss, Build a Business, and Not Go Broke, Gerber challenges the social conventions behind the "real" job and empowers young people to take control of their lives and dump their nine-to-fives—or their quest to attain them. Drawing upon case studies, experiences, and observations, Scott dissects failures, shares hard-learned lessons, and presents practical, affordable, and systematic action steps to building, managing, and marketing a successful business on a shoestring budget. The proven, no-b.s. methodology presented in Never Get a "Real"

Job teaches unemployed and underemployed Gen-Yers, aspiring small business owners, students, and recent college graduates how to quit 9-to-5s, become their own bosses, and achieve financial independence.

The Last Step

Many people wonder why they should kill themselves or give up on life. Why is it easier to be secluded than to live in a society? Why did those people who seemed so happy take their own lives? Why after a celebrity's suicide, the suicide rate especially among young people has a considerable increase? These are some questions that often go unanswered, or we are embarrassed to ask someone. Depression and suicide are public health problems and need to be faced and discussed seriously. And people affected by this evil need to be supported and helped. Nearly a million people take their own lives every year. And why don't we do anything? Why don't we take care of each other? Why do rulers often do not care about this evil that affects the population? In this book, we will approach these and many other issues involving this subject, which has become a taboo in society, however it has to be broken and overcome. Let's chat. Let's talk about depression and suicide.

Letters To Arden

Carmen wrote this letter with her hand on her pregnant belly and a million dreams in her head. Dear Arden Will you like to read like mummy? Will you be good at math like daddy? Your favourite colour? Your favourite hobby? Scrap-booking or sound engineering? Your taste of music? (Please don't like that doof doof music of daddy ;I) Will you be dark or fair? Shy? Popular? Short or tall? Will you talk a lot like mummy or be quiet like daddy? Will you like to dance? And how on earth am I going to convince you to eat your veggies when both daddy and I don't eat ours? Your favourite food? Athletic or poetic or both? You'll probably like singing... Whose eyes will you have? I hope you have daddy's long eye lashes. And will you be grumpy or full of jokes? Writing or drawing? I hope you are born knowing how to style your own hair (and mine) because girl, ma is clueless. Oh Arden I think of these things and it cheers me up, it keeps me going. You keep me going. Even on the worst day, you give me purpose in the best way...
