The Diary of a Young Girl

In July 1942, thirteen-year-old Anne Frank and her family, fleeing the occupation, went into hiding in an Amsterdam warehouse. Over the next two years Anne vividly describes in her diary the frustrations of living in such close quarters, and her thoughts, feelings and longings as she grows up. Her diary ends abruptly when, in August 1944, they were all betrayed. First published over sixty years ago, Anne Frank's Diary of a Young Girl has reached millions of young people throughout the world. BBC TV's major new dramatization brings her extraordinary writing to life in a way that will engage and inspire a whole new generation. 'One of the greatest books of the last century' - Guardian

Anne Frank

Shortly after her 13th birthday, Anne Frank and her family were forced into hiding. It was World War II and the German Nazis were rounding up Jewish people and either killing them or sending them to work in concentration camps. During her time in hiding, Anne wrote about her experiences in her diary. What was the fate of Anne and her family? What became of her diary? Find the answers to these questions and more in this fascinating biography.

And the Wolves Howled

"An extraordinary book... deserves to be taken seriously." – International Herald Tribune. "A very thought provoking read! Whether or not she was really Anne Frank in another life, I do not doubt Karlén's sincerity." – Rabbi Yonassan Gershom, author of *Beyond the Ashes* and *From Ashes to Healing*. For as long as she can remember, Barbro Karlén has harboured terrible memories of a previous existence on earth as the Jewish girl Anne Frank, author of the famous Diary. Until recently, she had kept this knowledge private. Now, prompted by a series of events which culminated in a struggle for her survival, she is ready to tell her amazing story. *And the Wolves Howled* is the autobiography of Barbro Karlén, from her early fame as a bestselling child literary sensation in her native Sweden, to her years as a policewoman and a successful dressage rider. But this is no ordinary life history. As the victim of discrimination, personal vendettas, media assassination, libel and attempted murder, Karlén is forced to fight for her very being. In the dramatic conclusion to her living nightmare, she is shown the karmic background to these events. She glimpses fragments of her former life, and begins to understand how forces of destiny reach over from the past into the present. With this knowledge she is finally free to be herself... *And the Wolves Howled* is the story of one woman's superhuman struggle for truth in the face of discrimination and lies.

The Life of Anne Frank

Anne Frank's story has been read by millions worldwide -- now this new book reveals the images behind her famous words. Will I ever be able to write something great, will I ever become a journalist or a writer? I hope so, oh, I hope so very much, because writing allows me to record everything, all my thoughts, ideals and fantasies. This is what Anne Frank confided in her diary on 5 April 1944. Her wish did come true, but she herself was never to know that. Anne died in March 1945 in Bergen-Belsen concentration camp. She was fifteen years old. This book tells the story of her life and shows it in the context of world events and World War Two. It answers the many questions that people ask. Where did Anne Frank come from? Why did she have to go into hiding? What did she write in her diary? How was she betrayed? What happened to her after she was arrested? How did her diary survive? It is illustrated with dozens of photographs of Anne, her family and friends.

The World of Anne Frank

Make The Diary of Anne Frank personally compelling and instructive for your students! This book brings the work to life by putting it in its historical context and providing relevant activities. Each reading is supported by vocabulary, comprehension, discussion, and writing activities.

Anne Frank: The Collected Works

Anne Frank's diary is one of the most recognised and widely read books of the Second World War. Hundreds of thousands of people visit the Anne Frank House on the Prinsengracht in Amsterdam each year to see the annexe where Anne and her family hid from the occupying forces, before eventually being deported to Auschwitz in 1944. Only Anne's father, Otto, survived the Holocaust. Anne Frank: The Collected Works includes each of the versions of Anne's world-famous diary including the 'A' and 'B' diaries now in continuous, readable form, and the definitive text ('D') edited by renowned translator and author Mirjam Pressler. For the first time readers have access to Anne's letters, personal reminiscences, daydreams, essays and notebook of favourite quotes. Also included are background essays by notable writers such as historian Gerhard Hirschfeld (University of Stuttgart) and Francine Prose (Bard College) on topics such as 'Anne Frank's Life', 'The History of the Frank Family' and 'The Publication History of Anne Frank's diary', as well as numerous photographs of the Franks and the other occupants of the annexe. Anne Frank was a Jewish teenage victim of the Holocaust and was made famous posthumously when her diary collections were published after her death at a Nazi concentration camp. Her frank, idealistic yet mature analyses of her reality hiding from Nazi persecution has endeared her to many children, teenagers and adults around the world. Created for children aged 10 and up, this movie based historical unit study is an excellent introduction to World War II and how the Frank family stood out as heroes during the Holocaust. Movies are an excellent introduction to history which is often depicted in a very dry and dull way through textbooks. This journal acts as a bridge between the movie and factual history, helping to answer the student's questions often brought up during and after the movie. This journal has been designed to provide a scaffolding for the student to conduct independent inquiry and research into Anne Frank and the Holocaust event, using the internet or reference books available at the library. The student will engage himself in finding out answers to his Whys, Whats, Hows, Whos, Wheres and Whens. Apart from historical study, the child can do movie study, book/movie comparison, character analyses, geographical study, as well as ethical social issues of that era (and much more!). Many notes and vocabulary pages have been inserted into the journal for the student to record his learning and use them to complete more than 20 research prompts and multimodal activities. The student can complete a few pages a week or use it every day on alternate weeks. The suggested FREE videos for viewing are given in the journal (alternatives are provided for older or younger viewers). If you wish to see some sample pages or purchase the PDF, they are available at www.learningandjournaling.com.

Describes the background in which Anne Frank's life and diary were set as she hid in an attic in Nazi-occupied Holland for two years.

Anne Frank's Diary Movie Based Unit Study | Learning Journal

The story of Anne Frank, her family and the famous diaries, told with the help of thousands of letters, documents and photographs recently discovered in an attic. Anne Frank wrote a diary from the age of 13 as she hid for over two years in the back of an Amsterdam warehouse escaping the horrors of Nazi occupation. An intimate record of tension and struggle, adolescence and confinement, anger and heartbreak, it is among the most enduring documents of the twentieth century, famed throughout the world. Since first publication in 1947, the diary has been read by tens of millions of people in many different translations. A bestseller in its 1952 and 1997 (definitive) editions, it remains a beloved and deeply admired testament to the indestructible nature of the human spirit. Recently discovered letters, documents and photographs of Anne and her family including letters from her, her father's letters from Auschwitz and his poignant descriptions of searching for his family after the war and his discovery of the diaries, have been made into a family saga by Mirjam Pressler, the editor of the definitive edition of the Diary. The book, which reads like a novel, an epic, fateful, family saga, recounts the story of Anne's family both before, during and after the war. It contrasts the normality of family life with the horrors of persecution, deportation and the concentration camps and through it we gain new insight into Anne and her iconic diary.

Few topics in modern history draw the attention that the Holocaust does. The Shoah has become synonymous with unspeakable atrocity and unbearable suffering. Yet it has also been used to teach tolerance, empathy, resistance, and hope. Understanding and Teaching the Holocaust provides a starting point for teachers in many disciplines to illuminate this crucial event in world history for students. Using a vast array of source materials—from literature and film to survivor testimonies and interviews—the contributors demonstrate how to guide students through these sensitive and painful subjects within their specific historical and social contexts. Each chapter provides pedagogical case studies for teaching content such as antisemitism, resistance and rescue, and the postwar lives of displaced persons. It will transform how students learn about the Holocaust and the circumstances surrounding it.

The Mystery of Easter Island

Heavily illustrated with a wealth of old photos, this book is a treasury of information on the most mysterious of islands, Easter Island (Rapa Nui).

The Mystery of Easter Island

The Acambaro collection comprises hundreds of clay figurines that are apparently thousands of years old; however, they depict such bizarre animals and scenes that most archaeologists dismiss them as an elaborate hoax. The collection shows humans interacting with dinosaurs and various other 'monsters' such as horned men. Both Hapgood and Earl Stanley Gardner were convinced that the figurines from Acambaro were authentic ancient artifacts that indicated that men and dinosaurs had cohabited together in the recent past, and that dinosaurs had not become extinct many millions of years ago as commonly thought. David Hatcher Childress writes a lengthy introduction concerning Acambaro, the latest testing, and other evidence of 'living' dinosaurs.

The Mystery of Easter Island

The reprint of Wilkin's classic book on the megaliths and mysteries of South America. This book predates Wilkin's book Secret Cities of Old South America published in 1952. Mysteries of Ancient South America was first published in 1947 and is considered a classic book of its kind. With diagrams, photographs and maps, Wilkins digs into old manuscripts and books to bring us some truly amazing stories of South America: a bizarre subterranean tunnel system; lost cities in the remote border jungles of Brazil; legends of Atlantis in South America; cataclysmic changes that shaped South America; and other strange stories from one of the world's greatest researchers.

Mystery in Acambaro

Hapgood's tour de force is back in print! This riveting account of how earth's poles have flipped positions many times is the culmination of Hapgood's extensive research of Antarctica, ancient maps and the geological record. This amazing book discusses the various pole shifts in earth's history -- occurring when earth's crust slips in the inner core -- and gives evidence for each one. It also predicts future pole shifts: a planetary alignment will cause the next one on 5 May 2000! Packed with illustrations, this book is the reference other books on the subject cite over and over again. With millennium madness in full swing, this is just the book to generate even more excitement at the unknown possibilities.

Mysteries of Ancient South America

What spooked the Allies in the closing months of the war? Why they were in such a panic to win quickly? Because they knew the Nazis were developing supermetals, electric guns, lasers, and ray weapons. Here are official, previously-suppressed reports of cold bombs, the red mercury bomb, oxygen bombs, fuel-air bombs, atomic bombs and rumors of the mysterious molecular bomb. The SS black alchemists delivered large mystery rockets with technology far beyond the V-2. They also invented the computer, magnetic tape and computer programs, refined crude oil using sound waves or produced gasoline for 11 cents per gallon as well as the synthetic penicillin substitute, 3065. Includes German experiments in time, sustained fusion reactions, zero point energy and travel in deep space.

The Path of the Pole

Pre-historic Native American legends tell of white men with beards landing on the shores of the New World, bringing knowledge of science, engineering, and laws, and more. This work introduces readers to the mysterious heritage of South and Central American civilisation.

Hitler's Suppressed and Still-Secret Weapons, Science and Technology

While the government wants you to think that aliens are buzzing military bases, this book presents the overwhelming evidence that most "nuts and bolts" UFOs are made on earth and piloted by earthlings. This important book reveals the secret technologies German scientists captured at the end of World War II were working on, and takes us right up to today's state-of-the-art flying machines

The Mystery of Easter Island

Technology of the Gods lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our "modern" level of advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.

In Search of Quetzalcoatl

Go behind the scenes into little-known corners of the public record and discover how corporate America has worked hand-in-glove with the Pentagon for decades -- dreaming about, planning, and actually constructing secret underground bases. And newly-uncovered information indicates that the strangeness continues with bizarre, high-tech gadgets like portable, hand-held surgical lasers and injectable electronic IDs as small as a grain of rice!

Man-Made UFOs

Excerpt from The Mystery of Easter Island: The Story of an Expedition In dealing with the main topic of the work, an endeavour has been made to give some idea of the problem of Easter Island as the Expedition found it, and also of its work there. With regard to this part, some appeal is necessary to the understanding kind ness of the reader, for it has not been an easy tale to tell, nor one which could be straightforwardly recounted. The story of Easter is as yet a tangled skein. The dim past, to which the megalithic works bear witness - the island as the early voyagers found it - its more recent history and present state, all of these are intermingled threads, none of which can be followed without reference to the remaining clues. For those who would have preferred more scientific and fewer personal details, I can only humbly say wait, there is another volume in prospect with descriptions and dimensions of some two hundred and sixty burial-places on the island, thousands of measurements of statues, and other really absorbing matter. The numerical statements in the present book, dealing with archaeological remains, must be considered approximate till it has been possible to go again through the large collection of notes. It is fairly obvious why the writing of this story has fallen to the share of the sole feminine member of the Expedition. I had also, what was, in spite of all things, the good fortune to be fourteen weeks longer on the island than my husband. They were fat weeks too, when the first lean ones, with their inevitable difficulties, were past and the unsettlement towards the end had not arrived. He has, I need hardly say, given me every assistance with this wwork. Generally speaking, all things which it is possible to touch and handle, buildings, weapons, and orna ments, were in his department while things of a less tangible description, such as religion, history, and folk-lore fell to my lot. Those who know him will recognise his touches throughout, and the account of the last part of the voyage, after my return to England, has been written by him. Technology of the Gods

Long out-of-print, Cramp's 1966 classic book on flying saucer propulsion and suppressed technology is available again. Cramp wrote *Space, Gravity and the Flying Saucer* in 1954 and was Vice-President of the British UFO Research Association (BUFORA). This is a highly technical look at the UFO phenomenon by a trained scientist. Cramp first introduces the idea of anti-gravity and introduces us to the various theories of gravitation. He then examines the technology necessary to build a flying saucer and examines in great detail the technical aspects of such a craft. Cramp's book is a wealth of material and diagrams on flying saucers, anti-gravity, suppressed technology, G-fields and UFOs.

Underground Bases and Tunnels

Takes us into the bizarre and often humorous lives of such people as Lady Blount, who was sure that the earth is flat, Cyrus Teed, who believed that the earth is a hollow shell with us in the inside; Edward Hine, who believed that the British are the lost Tribes of Israel; and Baron de Guldenstubbe, who was sure that statues wrote him letters. British writer and housewife Nesta Webster devoted her life to exposing international conspiracies, and Father O'Callaghan devoted his to opposing interest on loans. The extraordinary characters in this book were and in some cases still are wholehearted enthusiasts for the various causes and outrageous notions they adopted, and John Michell describes their adventures with spirit and compassion.

The Mystery of Easter Island

Atlantis! The legendary lost continent comes under the close scrutiny of archaeologist David Hatcher Childress. From Ireland to Turkey, Morocco to Eastern Europe, or remote islands of the Mediterranean and Atlantic, Childress takes the reader on an astonishing quest for mankind's past. Ancient technology, cataclysms, megalithic construction, lost civilisations, and devastating wars of the past are all explored in this amazing book. Childress challenges the sceptics and proves that great civilisations not only existed in the past but that the modern world and its problems are reflections of the ancient world of Atlantis.

The Mystery of Easter Island

From crop circles to Atlantis to nanotechnology, this book is an illustration-packed interpretation of ancient gateway stories of the Illuminati.

UFOs and Anti-Gravity

"Arktos is the first book ever written on the archetype of the Poles: celestial and terrestrial, North and South. It is a hair-raising voyage through cosmology, occultism and conspiracy theory leads to startling revelations about the secrets of the Poles. The author investigates legends of a Golden Age, which some claim ended in a prehistoric catastrophe, a shift in the earth's axis. This is examined in the light of the latest geological theories, as are predictions of a coming pole-shift. The perennial fascination of these ideas is shown to be part of a "polar tradition" of hidden wisdom. There are many recorded tales of an ancient race said to have lived in the Arctic regions, which later spread through the Northern Hemisphere. This supposedly "Aryan Race" entered the pantheon of Nazi Germany, with dreadful consequences. The author examines the origins of modern neo-Nazi ideology, its "polar" inspiration, and its links with other arcana, including the survival of Hitler, German bases in Antarctica, UFOS, the Hollow Earth, and the hidden kingdoms of Agartha and Shambhala. However, "Arktos" differs from most writings on these subjects in its responsible and scholarly treatment, and its extensive use of foreign-language sources."--Provided by publisher.

Eccentric Lives and Peculiar Notions

This text presents evidence for a new theory that the great stone spheres of Costa Rica and sighting stones throughout the Pacific were used to teach sea routes and constellation paths to navigators of the ancient world. It reveals substantial links between Meso-America and Egypt and the Middle East.

Lost Cities of Atlantis, Ancient Europe & the Mediterranean

Join Childress as he discovers forbidden cities in the Empty Quarter of Arabia, 'Atlantean' ruins in Egypt and the Kalahari desert; a mysterious, ancient empire in the Sahara; and more. This is an extraordinary life on the road: across war torn countries Childress searches for King Solomon's Mines, living dinosaurs, the Ark of the Covenant and the solutions to the fantastic mysteries of the past.

Oracle of the Illuminati

Underground author George Piccard on the politics of LSD, mind control, and Kennedy's involvement with Area 51 and UFOs. Reveals JFK's LSD experiences with Mary Pinchot-Meyer. The plot thickens with an ever expanding web of CIA involvement, from underground bases with UFOs seen by JFK and Marilyn Monroe (among others) to a vaster conspiracy that affects every government agency from NASA to the Justice Department. This may have been the reason that Marilyn Monroe and actress/columnist Dorothy Killgallen were both murdered. Focussing on the bizarre side of history, Liquid Conspiracy takes the reader on a psychedelic tour de force.

Arktos

In 1976, Scottish engineer Stan Hall organised a landmark expedition to the caves of the Tayos Indians in Ecuador, involving a dozen institutions, joint Special Forces, and astronaut professor Neil Armstrong as Honorary President and participant. Hall was driven by curiosity about Erich von Daniken's report of a Metal Library allegedly found in the caves by investigator Juan Moricz in the mid-1960s (published in von Daniken's 1972 blockbuster Gold of the Gods). This idea was considered unorthodox in the absence of any ancient written script in South America. In Hall's odyssey into the heart of global enigmas he researches: the origins of mankind; Atlantis; Ptolemy's lost city of Cattigara; and, the sudden rise and fall of wonder civilisations. This journey ended with his identification of Atlantis and Cattigara, and the entrance to the Metal Library along the Pastaza River in Ecuador. Imagination, action and danger combine explosively in the story of this spectacular British-Ecuadorian expedition to the Tayos Caves of Ecuador.

Lost Cities of North & Central America

Easter Island is one of the most remote locations on earth. Located over two thousand miles off the coast of Chile, the Rapa Nui people live isolated from the rest of the world. The inhabitants, who had settled on the island at some point between 300 and 1200 A.D., had developed their own unique culture, language, mythology, art and sculpture. Europeans had first stumbled upon the island and its inhabitants in 1722, yet even by the early twentieth century little was known or understood about Rapa Nui. Katherine Routledge, a British archaeologist and anthropologist, decided to organize an expedition to the island and record the fascinating way of life and beliefs of the Rapa Nui. With support from the British Association for the Advancement of Science, the British Museum and the Royal Geographical Society, and a crew borrowed from the Royal Navy, Routledge and her husband set out on their ship, the *Mana*, on 25th March 1913. Routledge in her book, *The Mystery of Easter Island*, documents all the aspects of this lengthy expedition, including the year-long journey travelling across the Atlantic, visiting Madeira, Grand Canary, the Cape Verde Islands, Brazil, Argentina, sailing through the Strait of Magellan, and finally Chile before landing on Easter Island in March 1914. While on the island Routledge records in brilliant detail how the inhabitants lived, their oral history and legends that had been passed down through generations, their religious beliefs and cults prior to the emergence of Christianity on Easter Island, as well as the famous the prehistoric remains on the island including the huge numbers of Moai statues. The final section of the book covers the return section of the voyage, visiting Pitcairn Island, Tahiti, the Hawaiian islands, San Francisco, going through the Panama canal, Jamaica and various other Caribbean islands before finally finishing the journey in Southampton. Katherine Routledge published her survey of Easter Island 1919 as *The Mystery of Easter Island*, which became a popular travel book in the early twentieth century. She suffered from schizophrenia for most of her life and was eventually institutionalized in 1929 and she passed away there in 1935.

Beginnings

This fascinating book, first published in 1834 as *The Round Towers of Ireland or the Mysteries of Freemasonry, of Sabatism, and of Budhism*, was an instant sensation at the time, and was one of the first modern studies of Atlantis, Round Towers, pre-Christian Megalithic Architecture and Secret Societies. In addition to being a sourcebook on Atlantis Research, Druidic Culture and origins of modern Celtic Christianity, the book is a treasure trove of ancient esoteric lore and arcane knowledge of the past.

Includes: The History of the Tuatha-de-Danaans; The Round Towers and Megalithic Crosses of Ireland are pre-Christian; Ireland's strange connections with ancient India, Persia and China; Ancient Secret Societies and Ireland; Ancient Egyptians and Ireland; Pre-Christian Messiahs, Mithraism, and Ireland; The Connections Between Atlantis and Ireland.

Stonehenge and the Great Pyramid

The most amazing treasure book ever written, giving the locations of well over 100 fabulous fortunes waiting to be found in the ore-rich Southwest. Thomas Penfield has done years of exhaustive research for Dig Here! and has accomplished the Herculean task of separating fact from fiction. For the first time lost treasure stories of the Southwest are stripped bare of their legends and lies. Each treasure account is preceded by the approximate location, estimated total value - and authentication. Reading sources for each account are also included so you can do additional research on the intriguing stories of these treasures. Dig Here! is overflowing with lore, spellbinding backgrounds, driving Western drama - and exciting, reliable facts.

In Secret Tibet

Easter Island is famous for its 887 monumental statues. Nobody really knows who made those statues, or how or why. New Theories are being advanced, new studies made and new books published about this all the time. It is the only book that adequately explains how the giant statues were created and how they were transported. Basically, the statues were cut from the lips of the three volcanoes on the island. This still does not answer the question of how they were brought down to the water's edge.

The Mystery of Easter Island

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Hesperides Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Round Towers of Atlantis

First published in 1935, this rare and unusual travel book takes us into the virtually unknown world of Mongolia, a country that only now, after 70 years, is finally opening up to the west. Haslund, a Danish-Swedish explorer, takes us to the lost city of Karakota in the Gobi desert. We meet the Bodgo Gegen, a god-king in Mongolia similar to the Dalai Lama of Tibet. We meet Dambin Jansang, the dreaded warlord of the 'Black Gobi'. There is even material on the Hi-mori, an 'airhorse' that flies through the air (similar to a Vimana) and carries with it the sacred stone of Chintamani. Aside from the esoteric and mystical material, there is plenty of just plain adventure.

Dig Here!
