This is the extended edition of Mahatma Gandhi's original and unabridged autobiography titled *The Story of My Experiments with Truth*, completed with a foreword from The Gandhi Research Foundation. *The Story of My Experiments with Truth* is the autobiography of Mohandas K. Gandhi, covering his life from early childhood through to 1921. It was written and published in his journal, *Navjivan* from 1925 to 1929. It was initiated at the insistence of Swami Anand and other close co-workers of Gandhi, who encouraged him to explain the background of his public campaigns. *The Story of My Experiments with Truth* is the personal account of the life of the man who freed India from colonization through the Satyagraha - nonviolent protest - movement. His early boyhood life, legal studies, purification, and ultimate salvation of his homeland is carefully recounted in this inspiring and critical work of insurmountable importance. In 1999, the book was designated as one of the "100 Best Spiritual Books of the 20th Century" by a committee of global spiritual and religious authorities.

The Story of My Experiments with Truth

The Story of My Experiments with Truth is the autobiography of Mahatma Gandhi, covering his life from early childhood through to 1921. Starting with his birth and parentage, Gandhi has given reminiscences of childhood, child marriage, relation with his wife and parents, experiences at the school, his study tour to London, efforts to be like the English gentleman, experiments in dietetics, his going to South Africa, his experiences of colour prejudice, his quest for dharma, social work in Africa, return to India, his slow and steady work for political awakening and social activities.

Mahatma Gandhi Words of Wisdom

Mohandas Gandhi was the preeminent leader of the Indian independence movement in British-ruled India. Employing nonviolent civil disobedience, Gandhi led India to independence and inspired movements for civil rights and freedom across the world. The honorific Mahatma (Sanskrit: "high-souled," "venerable")-applied to him first in 1914 in South Africa, -is now used worldwide. He is also called Bapu (Gujarati: endearment for "father," "papa") in India. In common parlance in India he is often called Gandhiji. He is unofficially called the Father of the Nation. Born and raised in a Hindu merchant caste family in coastal Gujarat, western India, and trained in law at the Inner Temple, London, Gandhi first employed nonviolent civil disobedience as an expatriate lawyer in South Africa, in the resident Indian community's struggle for civil rights. After his return to India in 1915, he set about organising peasants, farmers, and urban labourers to protest against excessive land-tax and discrimination. Assuming leadership of the Indian National Congress in 1921, Gandhi led nationwide campaigns for easing poverty, expanding women's rights, building religious and ethnic amity, ending untouchability, but above all for achieving Swaraj or self-rule. Gandhi famously led Indians in challenging the British-imposed salt tax with the 400 km (250 mi) Dandi Salt March in 1930, and later in calling for the British to Quit India in 1942. He was imprisoned for many years, upon many occasions, in both South Africa and India. Gandhi attempted to practise nonviolence and truth in all situations, and advocated that others do the same. He lived modestly in a self-sufficient residential community and wore the traditional Indian dhoti and shawl, woven with yarn hand-spun on a charkha. He ate simple vegetarian food, and also undertook long fasts as a means of both self-purification and social protest. Gandhi's vision of an independent India based on religious pluralism, however, was challenged in the early 1940s by a new Muslim nationalism which was demanding a separate Muslim homeland carved out of India. Eventually, in August 1947, Britain granted independence, but the British Indian Empire was partitioned into two dominions, a Hindu-majority India and Muslim Pakistan. As many displaced Hindus, Muslims, and Sikhs made their way to their new lands, religious violence broke out, especially in the Punjab and Bengal. Eschewing the official celebration of independence in Delhi, Gandhi visited the affected areas, attempting to provide solace. In the months following, he undertook several fasts unto death to promote religious harmony. The last of these, undertaken on 12 January 1948 at age 78, also had the indirect goal of pressuring India to pay out some cash assets owed to Pakistan. Some Indians thought Gandhi was too accommodating. Nathuram Godse, a Hindu nationalist, assassinated Gandhi on 30 January 1948 by firing three bullets into his chest at point-blank range. His birthday, 2 October, is commemorated as Gandhi Jayanti, a national holiday, and world-wide as the International Day of Nonviolence.

Documentary about deceased photojournalist Tim Hetherington directed by Sebastian Junger. Together with his friend and long-term collaborator Sebastian, Tim travelled the world documenting conflicts in Afghanistan, Liberia and Libya, among other locations. Best known for their 2010 film 'Restrepo' which was nominated for an Academy Award, the two strived to capture the humanity within conflict situations and with their images they focused on the individuals involved and their experiences of the violence surrounding them. Unfortunately, in 2011 Tim was killed by a mortar blast and this film is a tribute and celebration of the legacy he has left behind and includes interviews with those who knew him best.

Mahatma Gandhi At Work

Originally published in 1931, this book forms the third volume of the series, following on from Mahatma Gandhi: His Own Story, and relates in his own words Mahatma Gandhi's epic struggle in the Transvaal to set right the wrongs which had been done to the Indian Community. There he first proved to the world the practical success of his own original method, called Satyagraha, or Truth Force, whereby the evils of the world may be righted without recourse to the false arbitrament of war.

Mahatma Gandhi - His Life, Writings, and Speeches

"It is only India that knows how to honour greatness in rags" said a friend to me one day as we watched Mahatma Gandhi cleaving his way through the surging enthusiasm of a vast assembly at Lucknow last year. For, surely the sudden appearance of Saint Francis of Assisi in his tattered robe in the fashionable purlieus of London or Milan, Paris or Petrograd to-day were scarcely more disconcerting or incongruous than the presence of this strange man with his bare feet and coarse garments, his tranquil eyes, and calm, kind smile that disclaims even while it acknowledges a homage that emperors cannot buy. But India, though she shifts and enlarges her circumference age after age keeps true to her spiritual center and retains her spiritual vision undimmed and eager to acclaim her saints. Let us not follow the conventional mode of the world and wait for a man to be dead to canonize him; but rather let our critical judgment confirm the unerring instinct of the people that recognize in Mahatma Gandhi a lineal descendant of those great sons of compassion who became the servants of humanity-Gautama Buddha, Chaitanya, Ramanuja, Ramakrishna. He lacks, may be, the breadth and height and ecstasy of their mystical attainment: but he is not less than theirs in his intensity of love, his sincerity of service and a lofty simplicity of life which is the austere flower of renunciation and self-sacrifice." - Mrs. Sarojini Naidu.

The Moral and Political Writings of Mahatma Gandhi: Truth and non-violence

Although Gandhi's books were few, his innumerable articles and extensive correspondence eventually filled the pages of his ninety-volume Collected Works, published by the Indian Government after his death. Drawn from the Collected Works, this second of three volumes presents Gandhi's seminal writings in a coherent and compact form. Volume II, which brings together Gandhi's most important writings on truth, non-violence, and human nature, offers readers a fuller and more discerning appreciation of this great man's contribution to 20th-century thought.

The Essential Gandhi

Gandhi's thoughts on such topics as civil disobedience, non-violence, liberty, socialism and communism, and how to enjoy jail.

All Men are Brothers

The book is an honest commentary on the 'Father of The Nation' – Mahatma Gandhi. Written by well known French philosopher Romain Rolland, the book is an attempt to shed light on Gandhi's life, his ideals and philosophy. The author has probed and shown spiritual greatness of Gandhiji. The book explains in detail about his Non-violence strategy, his ethical approach to politics and religion as well as willingness to make sacrifices for truth. To portray an honest account of Gandhi's life, Romain Rolland has also added criticism that he received from eminent personalities like Rabindranath Tagore and Andrews.

Mahatma Gandhi

The Material of this Autobiography, which Mahatma Gandhi has called The Story of My Experiments with Truth, was first dictated by him in his own mother-tongue to one of his fellow political prisoners during long imprisonment in the years 1922-24. It was afterward continued in a serial form, as a feature of his Gujarati paper, called Navajivan, and translated into English by his intimate friends, Mahadev Desai and Pyarelal Nair, receiving at the same time his own careful revision. Miss Slade, who is known in Mr. Gandhi's Asram as Mirabehn, also assisted in shaping its final English form. The whole series of short chapters has now been published by the Navajivan Press at Ahmedabad in two large volumes, containing over twelve hundred octavo pages. Another book of equal importance has been

used, wherein Mahatma Gandhi describes personally his own (Soul-Force) in South Africa, and the translation has been made by Valji Govindji Desai. Its Indian publisher is Mr. S. Ganesan, Triplicane, Madras, India. When we turn to the three volumes and try to gain the clue to Mahatma Gandhi's estimate of human conduct, it will be found to entre in three cardinal virtues, current in all his writings. These are Truth, Loving-kindness, and inner purity. Since this book was compiled and edited the Indian situation has become very grave indeed.

Mahatma Gandhi : His Own Story

"My Life is My Message" "You may be sure I am living now just the way I wish to live. What I might have done at the beginning, had I more light, I am doing now in the evening of my life, at the end of my career, building from the bottom up. study my way of living here, study my surroundings, if you wish to know what I am. Village improvement is the only foundation on which conditions in India can be permanently ameliorated." M. K. Gandhi

Famous Speeches by Mahatma Gandhi

The grandson of Mahatma Gandhi shares ten vital and extraordinary life lessons imparted by the iconic philosopher and peace advocate, sharing Gandhi's particular insights into how emotions like anger can be guiltless motivational tools if properly used for good purposes.

The Gift of Anger

Famous for his successful leadership of non-violent Nationalist resistance to British Imperial rule in India, Mohandas K. Gandhi is one of the most iconic figures of the twentieth century. All Men Are Brothers brings together some of his most important writings in a single volume. As well as Gandhi's inspiring articulation of his philosophy of non-violent resistance and his thoughts on religion and theology, the book also includes reflections on topics ranging from politics, education, women's rights and technology as well as meditations on his own life. -- From product description.

All Men are Brothers

Biography of Mahatma Gandhi History is filled with unlikely heroes, and the child who was born on October 2, 1869, in India to a local politician and his fourth wife would rank among those who, it seemed, were destined to be ordinary. But in India, October 2 is now a holiday as the nation celebrates the birth of the man who led his country to freedom. Of course, not only was the birth of Mohandas Karamchand Gandhi unlikely to have been an indication of greatness but as India itself had been under British rule for centuries, the juxtaposition of that birth with Indian independence would have been inconceivable when he was born. Mohandas K. Gandhi, the Mahatma, the father of Indian independence, remains an enigma despite the fact that virtually everyone knows who he was. He lived with a politically active father and a religiously devout mother, but as a child, he displayed no particular brilliance. He went to school and gave no indication of academic promise. He studied law in England, did well, and returned to India where his law practice eventually failed. When he accepted a job in South Africa, it was because he had no other prospects. But it was in South Africa that the politics and religion of his upbringing blended together to transform him into a charismatic leader who supported the oppressed and the downtrodden. It was, in fact, in South Africa where he learned that, although he considered himself a citizen of the British Empire, the color of his skin meant that, to those in power, he was a second-class member of society. Refusing to accept this, Gandhi labored for over 20 years to bring justice to the Indian community in South Africa. And when he returned home, he did so as a political leader determined to fight for independence from Great Britain with the most unlikely weapon of all: nonviolence. Arrested and imprisoned numerous times, Gandhi was not defeated by the punishment that the authorities inflicted upon him because his lifestyle embraced asceticism and self-discipline. What could prison do to a man who fasted and prayed and was so committed to his beliefs that he would not strike out at his enemies? But for all of Gandhi's successes, he did not get the united India that he wanted; the partitioning of the country into Hindu India and Muslim Pakistan was a grave disappointment to Gandhi, who treasured religious tolerance and diversity and wanted his nation to mirror the spiritual culture he sought. After his assassination, others took up the banner of nonviolent protest that he employed, bringing freedom to the downtrodden and justice to the subjugated. Mahatma Gandhi: A Passionate Peacemaker

Ahimsa is the highest ideal. It is meant for the brave, never for the cowardly. --- The Charkha is intended to realise the essential and living oneness of interest among India's myriads. --- It does not require money to be neat, clean and dignified. --- Cow-protection to me is one of the most wonderful phenomena in the human evolution. --- A student's life has been rightly likened to the life of a sanyasi. He must be the embodiment of simple living and high thinking. He must be discipline incarnate. His pleasure is derived from his studies. --- Eating for the sake of pleasure is a sin like animal indulgence for the sake of it. uvu I must fight unto death the unholy attempt to impose British methods and British institutions on India. uvu The real meaning of economic equality is 'to each according to his need'. --- Khadi is the sun of the village solar system. --- Knowledge without devotion will be like a misfire. --- Nature care implies that the treatment should be the cheapest and the simplest possible. --- Without prayer there is no inward peace. --- Let there be no distinction between rich and poor, high and low. --- All our national schools ought to be converted into factories of our national ammunition, namely, constructive work. —Quotes from this book

Mahatma Gandhi

M.K. GANDHI -- THE MAHATMA There is a famous saying, "Some people are born great, some achieve greatness, and some people are thrust upon greatness!" The first category of people are those born as the children of kings and monarchs. I believe that the second category constitute people like Gandhiji, who achieve greatness through their precious life by upholding their precious principles in life, without jettisoning them while sailing through the rough sea of life. Certainly there were his fore runners to him in the annals of the history, like Abraham Lincoln, Martin Luther King Jr. etc. But Gandhiji became a "Mahatma" not only by his martyrdom, but by establishing himself as a living legend as an apostle of peace and nonviolence. Before starting his experiments with Truth, he was an ordinary young man with strong sexual appetite and violent temper. And in his boyhood, he was just an ordinary boy, fragile, timid and even a coward who was afraid even to enter into another room of his own house without the company of others. But at the same time, he had enough mischief like eating meat flouting the custom of his caste, smoking and stealing money from his house to indulge in such hateful and forbidden activities. He did not like any sports activities and did not mingle with his colleagues whom he was afraid to face for fear of taunting remarks from them. But the great transformation of his personality from trembling timidity to a most courageous man occurred in a single incident when he was pushed out of the first class compartment at Maritzburg railway station, for being a colored coolie barrister. This humiliation hurt his self respect and made him a great crusader of civil rights. He later told, "I cannot conceive of a greater loss than the loss of one's self respect." This fiery awareness of self respect was the only capital he possessed in his life. It urged him to fight relentlessly against injustice and inhuman discrimination. Even after becoming a famous and respectable civil rights activist, no body attributed any greatness to him until 1930. The world came to know him when he successfully launched the "Salt Satyagraha". It catapulted him to the status of a unique world leader who could shake the great British Empire by a pinch of salt and proved to the world that nonviolent satyagraha can conquer the mightiest force. He became the Time magazine's "Man of the Year" He was nominated five times for Nobel Prize. Gandhiji's life and teachings have inspired many great leaders like Dr. Martin Luther King, Nelson Mandela, Aung San Suu kyí etc. It is said that it was Rabindranath Tagore called him, "Mahatma" for the first time. In the eyes of millions across the world Gandhiji is now a "Mahatma". He is also recognized as India's "Father of Nation". Thousands of books have been written about him by great writers. He is now one of the most universally recognized person on earth. But he was a man of flesh and blood and that is the main reason why millions liked him and even loved him. His ordinary life, turned extraordinary through self purification by his persistent pursuit for truth. His life was an inspiration for innumerable works of art and literature. There is even a cult movement known as "Gandhism" to venerate Gandhiji and make him a religious icon. But he had never projected himself as a godly incarnation like many do in India. Rather he said, "There is no such thing as Gandhism" and I do not want to leave any sect after me. I do not claim to have originated any new principle or doctrine. I have simply tried in my own way to apply the eternal truths to our daily life and problems. The options I have formed and the conclusions I have arrived at are not final. I may change them tomorrow. I have nothing new to teach the world. Truth and nonviolence are as old as the hills." This kind of humility is another mark of a great soul!

Mahatma Gandhi at Work

With a brief sketch of the non-co-operation movement.

The Collected Works of Mahatma Gandhi (May-August 1924)

Mahatma Gandhi discusses his ongoing campaign for the independence of India from the British Empire, and details how principles of non-violence and non-cooperation can be used to achieve this goal. Many of Gandhi's principles were developed early in his activism, and reflected in writings. The philosophy of non-violent resistance to the rule of the British are clearly expressed in this book. Gandhi's disdain for the caste system - whereby members of lower castes in India were marginalized and mistreated - is also detailed. He suggests that rather than Indians oppress one another, they turn to the goal of ending the British oppression, that all Indians may be elevated through such efforts. Writing in 1922, Gandhi makes frequent references to the political events of the era. World War One was still in recent memory, and the postwar treaties and agreements in Europe and elsewhere are considered

important by Gandhi, who notes upheavals ongoing in Turkey and elsewhere. The author's earlier life, wherein he served as a lawyer in South Africa, is also referenced - the help of friends from that nation is gratefully acknowledged. Other traits characteristic of Gandhi's activism are also present. A chapter is devoted to stressing the need for unity between Muslim and Hindu Indians; while the vision of 'Swaraj' - a free India prospering without the oversight or influence of the British - is detailed. As early as 1922, Gandhi was concerned with establishing the finer details of an independent India, and confident that his non-violent strategies would succeed.

Mahatma Gandhi -- the Known and the Unknown

Mohandas Karamchand Gandhi was the preeminent leader and freedom fighter of Indian nationalism in British-ruled India. Employing nonviolent civil disobedience, Gandhi led India to independence and inspired movements for civil rights and freedom across the world. The honorific Mahatma is now used worldwide. ""It is not my purpose to attempt a real autobiography. I simply want to tell the story of my numerous experiments with truth, and as my life consists of nothing but those experiments, it is true that the story will take the shape of an autobiography."" The Story of My Experiments with Truth, the autobiography of Mahatma Gandhi, is a very popular and influential book. It covers the period from his birth (1869) to the year 1921, describing his childhood, his school days, his early marriage, his journeys abroad, his legal studies and practise. In the last chapter, he noted, ""My life from this point onward has been so public that there is hardly anything about it that people do not know..."" In the year 1942, he played a key role in launching the Quit India movement, which was intended at forcing the British to leave the nation. As a result of launching this movement, he was thrown in prison and remained there for several years, due to other political offenses allegedly committed by him. At all times, he practised satyagraha, which is the teaching of non-violence. As the British rule ended, he was saddened by India's partition, and tried his best to bring peace among the Sikhs and Muslims. On the 30th of January, 1948, Mahatma Gandhi was shot dead by a Hindu nationalist, for allegedly being highly concerned about the nation's Muslim population.

The Teachings of Gandhi

More than half a century after his death, Mahatma Gandhi continues to inspire millions throughout the world. Yet modern India, most strikingly in its decision to join the nuclear arms race, seems to have abandoned much of his nonviolent vision. Inspired by recent events in India, Stanley Wolpert offers this subtle and profound biography of India's "Great Soul." Wolpert compellingly chronicles the life of Mahatma Gandhi from his early days as a child of privilege to his humble rise to power and his assassination at the hands of a man of his own faith. This trajectory, like that of Christ, was the result of Gandhi's passion: his conscious courting of suffering as the means to reach divine truth. From his early campaigns to stop discrimination in South Africa to his leadership of a people's revolution to end the British imperial domination of India, Gandhi emerges as a man of inner conflicts obscured by his political genius and moral vision. Influenced early on by nonviolent teachings in Hinduism, Jainism, Christianity, and Buddhism, he came to insist on the primacy of love for one's adversary in any conflict as the invincible power for change. His unyielding opposition to intolerance and oppression would inspire India like no leader since the Buddha--creating a legacy that would encourage Martin Luther King, Jr., Nelson Mandela, and other global leaders to demand a better world through peaceful civil disobedience. By boldly considering Gandhi the man, rather than the living god depicted by his disciples, Wolpert provides an unprecedented representation of Gandhi's personality and the profound complexities that compelled his actions and brought freedom to India.
