Endangered Species

Tough, likable park ranger Anna Pigeon is back in another high-spirited outdoors adventure/mystery. Anna has been assigned a three-week posting on Georgia's isolated Cumberland Island. Despite the breathtaking natural setting, Anna finds time weighing heavily as she works tedious fire pre-suppression duty. Her boring routine is shattered when a sudden plane crash in the inland palmetto thickets calls her and the other members of the fire crew to action. When Anna and the crew investigate, they discover the plane was sabotaged. Suspicions smolder over the accident which killed both the pilot and his passenger, Cumberland's lone law enforcement ranger. Even the usually unflappable Anna is shocked by the desperate cold-bloodedness of the crime. Will protecting the island come at a price even Anna is unwilling to pay?

Endangered Species (Anna Pigeon Mysteries, Book 5)

Anna Pigeon uncovers shady dealings, possible sabotage and murder... On a remote island, Anna Pigeon faces more than just isolation in *Endangered Species*, the gripping crime novel from Nevada Barr. Perfect for fans of Sue Grafton and Paul Doiron. 'Nevada Barr's mysteries keep getting better and better' - Susan Isaacs In the midst of a dangerously dry season, national park ranger Anna Pigeon has been posted to Cumberland Island off the Georgia coast for a monotonous, twenty-one-day fire watch. But her boredom is short-lived, for this remote and marshy place is a breeding ground to more than just the imperilled Loggerhead turtle; it also spawns eccentricity and secrets, greed, suspicion... and murder. A small plane crashes into the palmetto thickets nearby. Anna and her crew arrive in time to control the blaze, but too late to save the pilot and his passenger, Cumberland's sole law enforcement ranger. When the cause of the 'accident' is determined to be sabotage, Anna becomes entangled in an investigation that threatens to upset the very delicate balance of this fragile ecological preserve. For she is precariously close to exposing dark, clandestine crimes, both old and new, that someone has worked very diligently to conceal... and which makes Anna Pigeon the most endangered creature on the island. What readers are saying about *Endangered Species*: 'Full of suspense [and] once started, difficult to put down... first class' 'Nevada Barr never fails to keep me riveted to the page' 'Nevada Barr's storytelling skills and rich prose teleport you right into the middle of the park, the story, and the mind of her heroine Anna Pigeon'

Liberty Falling

Anna Pigeon is in Manhattan to look after her hospitalized sister, and explores the Statue of Liberty in her spare time. But when a teenage girl falls to her death from Liberty's ledge, Anna wonders if the suicide was actually a homicide-and begins an investigation that puts her in the line of fire.

Ill Wind

Lately, visitors to Mesa Verde have been bringing home more than photos--they're also carrying a strange, deadly disease. And once it strikes, park ranger Anna Pigeon must find the very human source of the evil wind.

Winter Study (Anna Pigeon Mysteries, Book 14)

A beautiful, idyllic refuge becomes a place of danger beyond the ordinary... In Nevada Barr's *Winter Study*, Anna Pigeon finds trouble brewing amongst a pack of wolves. Perfect for fans of Sue Grafton and Janet Evanovich. 'Strong, evocative writing... frigid winds blow through *Winter Study* as the suspense heats up' - South Florida Sun-Sentinel It is January, and Park Ranger Anna Pigeon is sent to Isle Royale in Lake Superior to learn about managing and understanding wolves, as her home base of Rocky Mountain National Park might soon have its own pack of the magnificent, much maligned animals. She's lodging in the island's bunkhouse with the famed wolf study team, along with two scientists from Homeland Security, who are assessing the study with an eye to opening the park in the winters - an act that would effectively bring an end to the fifty-year project. However, soon after Anna's arrival, the wolf packs under observation begin to behave in peculiar ways... What readers are saying about *Winter Study*: 'Plenty of thrills and chills in *Winter Study*. You may want to get under a blanket to read it' 'An engrossing adventure tale' 'This was an exceptionally enjoyable book - absolutely riveting'

Mountain of Bones

Environmental crime novel featuring US park ranger Anna Pigeon, last seen sleuthing in *À superior death*. Amidst opposition to development in Colorado's National Park, Anna finds herself rooting out a park ranger murderer.
