The Sacred Foundations of Justice in Islam

This is the definitive introduction to the writings of 'Ali, who was the son-in-law to the Prophet Muhammad, the fourth caliph to Sunni Muslims, and the central figure in Shi'a Islam. Two essays in this anthology won awards at the International Congress on Iman 'Ali, Tehran, 2001. Seyyed Hossein Nasr, pronounced them, among the best writings on this extraordinary figure in Western languages and are obligatory reading for anyone interested in 'Ali.

Justice and Remembrance

Ali b. Abi Talib, son-in-law and cousin of the Prophet Muhammad, first Shi'i imam and fourth caliph, is a monumental figure within the Islamic tradition. But despite the immense importance of Imam Ali, there is a dearth of literature in Western languages about his life and thought. This book - the first serious engagement in English with the intellectual principles underpinning his teachings - is therefore a welcome and valuable addition to the sources available. It consists of three parts. Part one introduces the person of Ali in a general manner, and focuses particularly on the spiritual and ethical content of his teachings. Part two evaluates Ali's 'sacred conception of justice'. Part three addresses the theme of spiritual realization through the remembrance of God, the central mystical practice of the Sufis. Justice and Remembrance will be of great value to students and scholars of Islamic thought, as well as to those interested in the relationship between spirituality and ethics.

"Ali b. Abi Talib, son-in-law and cousin of the Prophet Muhammad, first Shi'i imam and fourth caliph, is a monumental figure within the Islamic tradition. But despite the immense importance of Ali, there is a dearth of literature in Western languages about his life and thought. This book - the first serious engagement in English with the intellectual principles underpinning his teachings - is therefore a welcome and valuable addition to the sources available. It consists of three parts. Part one introduces the person of Ali in a general manner, and focuses particularly on the spiritual and ethical content of

his teachings. Part two evaluates Ali's 'sacred conception of justice'. Part three addresses the theme of spiritual realization through the remembrance of God, the central mystical practice of the Sufis. Justice and Remembrance will be of great value to students and scholars of Islamic thought, as well as to those interested in the relationship between spirituality and ethics."--Bloomsbury Publishing.

American Book Publishing Record

More than ever, there is an urgent need to rediscover timeless and objective principles in order to confront the issues of our times. In this collection of thirty remarkable essays, Lakhani summons us to rediscover the sacred worldview of Tradition, governed by truth, virtue, and beauty, as he addresses some of the most pressing issues today, including fundamentalism, gender and sexuality, religious diversity and pluralism, faith and science, and the problem of evil.

The Timeless Relevance of Traditional Wisdom

I want to begin by congratulating my colleagues at the helm of the American Journal of Islam and Society (AJIS), as well as readers and contributors, that the journal is now finally SCOPUS-indexed. Consistently in circulation since its establishment in 1984, AJIS is now an open-access, biannual, double-blind peer-reviewed and interdisciplinary journal with global reach. Its newly acquired formal status speaks to its consistently high standards of scholarship and invites an ever-larger group of aspiring and senior scholars to publish their finest work on a variety of areas in Islamic thought and society. The issue of the American Journal of Islam and Society comprises four contributions, each exploring a different way in which Islam and society interact. Wardah AlKatiri proposes an Islamic vision to address the world's deteriorating environmental prospects; Yousef Wahb addresses the challenge of upholding Islamic communal norms in North America; Sami al-Daghistani aspires to put the field of Islamic economics into conversation with classical Islamic ethics and spirituality; and Tabinda Khan addresses a theoretical lacuna in Western political scientists' study of Islamism. Ovamir Anjum Editor

American Journal of Islam and Society (AJIS) - Volume 39 Issues 3-4

The sermons, sayings and documents from the Nahj al-Balagha (the writings of Ali ibn Abi-Talib -- one of the prophet Muhammad's closest disciples) are now collected in one concise volume. These documents cover topics including Conduct of Rule in Islam, which details the Islamic beliefs about justice and governance; Morality and Conduct of Life in Islam, which describes the spiritual and ethical values embraced by Islam; and Religion and State, which provides the reader with Islam's presiding beliefs regarding political philosophies throughout the ages. For scholars of Islam and those less well-versed in the religion's foundations, this guide is an excellent primer on Ali bin Abi-Talib's place in Islamic history.

The Political and Moral Vision of Islam

Shi'i Ismaili Muslims are unique in following for centuries a living, hereditary Imam (spiritual leader), whom they believe to be directly descended from the Prophet Muhammad. The Imam's duty has been to guide his community on the basis of Islamic principles adapted to the needs of the time. In this insightful book, M. Ali Lakhani examines how the ideas and actions of the current Ismaili Imam, and fourth Aga Khan, Prince Karim al-Husseini, provide an Islamic response to the challenges that face Muslims in the modern era. Prince Karim's programmes, implemented mainly through the broad institutional framework of the Aga Khan Development Network, are aimed at improving the quality of human life among the disadvantaged, regardless of their religion or ethnicity. Addressing global issues ranging from healthcare and education to culture and civil society, the Aga Khan's initiatives are founded on core Islamic principles and values. This book is the first to provide an extensive survey of the Aga Khan's aspirations, showing how the values of integrity and dignity are at the forefront of his work, with the traditional Muslim concepts of cosmopolitanism and social justice guiding his response to the stark challenges of the modern age. At a time when criticisms and misrepresentation surrounding Islam abound, Faith and Ethics explores the religion's universal principles and values, which the author holds to be central to the spiritual and ethical issues facing both Muslims and non-Muslims in the rapidly changing modern world. The book will be of special interest to scholars researching Islam, Muslim faith and ethics and the Ismailis, and to general readers wanting a deeper understanding of Islam.

Faith and Ethics

A Treasury of Virtues is a collection of sayings, sermons, and teachings attributed to 'Ali ibn Abi Talib (d. 40 H/661 AD), the cousin and son-in-law of the Prophet Muhammad, the first Shia Imam and the fourth Sunni Caliph. An acknowledged master of Arabic eloquence and a sage of Islamic wisdom, 'Ali was renowned for his eloquence: his words were collected, quoted, and studied over the centuries, and extensively anthologized, excerpted, and interpreted. Of the many compilations of 'Ali's words, A Treasury of Virtues, compiled by the Fatimid Shafi'i judge al-Quda'i (d. 454 H/1062 AD), arguably possesses the broadest compass of genres and the largest variety of themes. Included are aphorisms, proverbs, sermons, speeches, homilies, prayers, letters, dialogues, and verse, all of which provide instruction on how to be a morally upstanding human being. The shorter compilation included here, One Hundred Proverbs, is attributed to the eminent writer al-Jahiz (d. 255 H/869 AD). This volume presents the first English translation of both of these important collections.

A Treasury of Virtues

In our day, which is characterized by a great misunderstanding of Islam, this work outlines the ideal of an Islamic society at the time of the Prophet Muhammad.

The Path of Muhammad

This book is based on a series of 30 lectures delivered by the author on Islamic Ethics in Qum in winter 2012. The series was delivered as a course for a correspondence degree on the subject. Each lecture was around 25 minutes and was recorded in a studio. Thanks to God, the series has been used by correspondence students from the academic year 2012-2013 till now. Due to the importance of the subject on the one hand, and need for more texts on the subject in English on the other, it was decided to publish it as a book as well. After preparing the transcripts, the text was edited and references were added. Some parts which were more philosophical were removed. We are now pleased to present this humble book to our dear readers. It is hoped that they will find it useful for their study of Islamic morals and find it of help in their personal moral development. At the same time, I admit that 6 more work needs to be done on this in order to make it more precise and concise.

Lessons on Islamic Morals

Highly-acclaimed discussion of the Islamic path for the physical, moral and spiritual progress of man. "The ideas are very profound and very true." -- Count Tolstoy, Russia

Teachings of Islam

This book contains one hundred narrations based on the chains of transmission that are accepted by the General Population, about the merits of the commander of the Believers, Ali b. Abi Talib, and his sons, the Imams. This book specifically has had a great impact in the Muslim world because the author has carefully selected the sources from Sunni books, thereby eliminating any question of impartiality. Those who study the history of Islam find that occasionally, paid writers try to create doubt in the peoples' hearts with their poisonous books. It is our scholars who fight them with precious and authentic publications, such as this one, which is void of any personal opinion. There are two editions of this book. The first is in the library of Sayyid Mucnaf Al-Khkn r+, and the second one is in the library of yatull h Sayyid Al-Mar'ash+ Al-Najaf+.

100 Virtues of Ali ibn Abi Talib

Imam Ali ibn Abi Talib is one of the most revered and respected figures in Islamic history. His words are enshrined everywhere from works of religious scholarship to publications of the United Nations. Early in the 11th century, the Muslim scholar Al-Shareef Al-Radi collected the sermons, sayings, and letters of Imam Ali and published them in the book "The Peak of Eloquence." Ayatollah Chamseddine's work - "The Course of History: A Study in the Peak of Eloquence" - is a study of Imam Ali's method and discourse. The book takes a look into Imam Ali's brilliant use of history in his engagement with society, as a statesman, spiritual leader, and private citizen.

The Course of History

A Treasury of Virtues is a collection of sayings, sermons, and teachings attributed to 'Ali ibn Abi Talib (d. 40/661), the cousin and son-in-law of the Prophet Muhammad, the first Shia Imam and the fourth Sunni Caliph. An acknowledged master of Arabic eloquence and a sage of Islamic wisdom, 'Ali

was renowned for his eloquence: his words were collected, quoted, and studied over the centuries, and extensively anthologized, excerpted, and interpreted. Of the many compilations of 'Ali's words, A Treasury of Virtues, compiled by the Fatimid Shafi'i judge al-Quda'i (d. 454/1062), arguably possesses the broadest compass of genres and the largest variety of themes. Included are aphorisms, proverbs, sermons, speeches, homilies, prayers, letters, dialogues, and verse, all of which provide instruction on how to be a morally upstanding human being. The shorter compilation included here, One Hundred Proverbs, is attributed to the eminent writer al-Jahiz (d. 255/869). This volume presents the first English translation of both of these important collections. An English-only edition.

A Treasury of Virtues

The Voice of Human Justice is an English translation of Sautu'l 'Ad lati'l Insaniyah (The Voice of Human Justice) in Arabic by George Jordac, a Christian author from Lebanon. The book is a biography of Ali ibn Abi Talib. The contents of the book were drawn from the Nahj al-Balagha of Ali.

The Voice of Human Justice

This book sets the scene for a compelling story of an Imam who earned Prophet Muhammad's complete trust and exclusive attention from an early age. Eloquent in speech, gallant in battle and wise in counsel--that is Ali b. Abi Talib, the highly praised by the Quran and the Prophet (peace be upon him and his family). Admired by Eastern and Western thinkers like Thomas Carlyle who described the Imam as, 'a noble-minded creature as he shows himself, now and always afterwards; full of affection, of fiery daring. Something chivalrous in him: brave as a lion; yet with a grace, a truth and affection worthy of Christian knighthood. Touching on one of the gravest issues of our time--terrorism--this book can prove exceedingly useful to readers of all faiths, particularly Muslims, who may understand from Ali himself the true meaning of jihad as a way to defend peace and develop societies; not an excuse to promote fear, ignorance and destruction. In the classical tapestry of this book, we will also introduce Ali's views on matters of love, remembrance, justice, freedom and knowledge, which truly reflect the prophetic character of this grand figure. The intention is to paint an evocative portrait of Ali as one of history's most charismatic personalities. Each chapter is replete with drama, history and words of wisdom from Ali, extracted from his sermons and letters in the famous book, Peak of Eloquence or Nahj al-Balagha. The majority of hadiths have been carefully selected from mainstream scholars such as Bukhari, Muslim, Ahmad ibn Hanbal, Tirmidhi and many others who did not necessarily share the same faith as Ali's, yet appreciated his passion for humanity. M. K. Zeineddine is a writer with keen interest in the sublime teachings of Prophet Muhammad and his People of the House (ahl al-bayt). Given his extensive research, the author is of the strong opinion that Islam is a religion of peace, love and tolerance despite what has been unjustly campaigned against it throughout the centuries. The remarkable virtues of ahl al-bayt, with Ali b. Abi Talib being a prominent figure, stand a clear proof of that.

Ali B. ABI Talib

book praising the prince of the believers Imam Ali ibn Abi Taleb (a.s.) and describing his justice written by a lebanese christian , George Jordac.

The Life and Teachings of Muhammad

"Justice stands as the crown jewel of the Islamic moral universe. Qur'anic referenes to justice are more frequent than those to the prophets of Islam. It is justice, rather than jihad or "holy war" of the Western imagination, that defines the centrist Islam of the Qur'an. Justice in midstream Islam is at once "one and many," to borrow a formulation of Islamic mystics. Justice is one as the core Islamic value and many in the particular struggles for social justice it inspires. Abu Dharr al Ghifari, the beloved 7th century companion of the Prophet Muhammd, authored several hundred prophetic traditions and fought for the rights of the poor. Abu Dharr modeled the combination of scholarship and activism that characterizes Islamic intellectuals. Struggles for social justice waged in Egypt, Turkey, Iran, and beyond evoke the Prophet's companion as exemplar. The excesses of extremist thinking and the blinding glare of the violence it fosters may threaten to overwhelm the faith. Invariably, however, Islamic intellectuals step forward to restore moderation. Centrist Islam today is winning adherents at a pace that outstrips all other faiths. Individual chapters focus on the contributors to this Awakening, including the Egyptian Shaikh Muhammad al Ghazalli, the Turkish scholar Sa'id Nursi, the Lebanese Grand Ayatollah Muhammad Fadlallah, the martyred Iraqi Grand Ayatollah Baqir al Sadra, the Iranian intellectual Ali Sheriati, and

the American athlete and Muslim convert Muhammad Ali. Their stories explain how an awakened Islam has today become a global phenomenon"--

The Voice of Human Justice (Sautu'l 'Adalati'l Insaniyah)

This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization (www.shia.es) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! In addition, For a complete list of our published books please refer to our website (www.shia.es) or send us an email to info@shia.es

Justice in Islam

Meant for the general reader, this book gives a historical expose of the Western definitions of justice - mainly economic and social justice - from Plato to the modern day and compares it with the Islamic concept of justice. He draws upon the fundamental and central concepts of the Quran to the permanence and universality of that concept. He shows that the combination of adl (justice), qist (equity) and mizan (balance) goes towards creating that notion in comparison to the shifting definition of the Western conception which depends on which ideology is dominant.

The Voice of Human Justice (Sautu'l 'Adalati'l Insaniyah)

This book explains a perspective on the system of justice that emerges in Islam if rules are followed and how the Islamic system is differentiated from the conventional thinking on justice. It examines conceptions of justice from the Enlightenment to Bentham to Rawls to contemporary philosophers including Sen, Cohen, Nussbaum, and Pogge. The authors present the views of twentieth century Muslim thinkers on justice who see Muslims upholding rituals but not living according to Qur'anic rules. It provides empirical surveys of the current state of justice in Muslim countries analyzing the economic, social, and political state of affairs. The authors conclude by assessing the state of justice-injustice in Muslim countries and highlighting areas in need of attention for justice to prevail.

Justice

The present book is an English translation of Sautu'l Adalati'l Insaniyah, the biography of the Imam Ali, written in Arabic by George Jordac, a renowned Christian author of Lebanon. It has gained much popularity in the Arab and the Muslim world. Many Muslim and non-Muslim scholars have paid it glowing tributes.

The Life and Teachings of Mohammed

'Ali ibn Abi Talib is unparalleled in Islam. He was the Prophet Muhammad's cousin and son-in-law, the first Shi'i Imam and the fourth of the Rashidun Caliphs. Sunni and Shi'i Muslims alike hold 'Ali in the highest regard owing to his status as a spiritual teacher and his strength as a warrior. According to the mystical tradition of Islam, 'Ali is the embodiment of 'the perfect human being' (al-insan al-kamil). Reza Shah-Kazemi here draws on the insights of the Sufi masters Ibn 'Arabi and Rumi to look beyond the biographical details of 'Ali's life to reflect on the spiritual significance of his actions and teachings. In the spirit of ta'wil or esoteric interpretation, the author identifies how 'Ali's inner spiritual principles can be regarded as transcending the boundaries of time, space, religion and culture. For Shah-Kazemi, it is this mystical interpretation of 'Ali that invites a new, much deeper understanding of his personality and contemporary relevance, outside the confines of history. The book offers vivid examples of 'Ali's conduct and persona--on the battlefield, from the pulpit of the mosque, and in his private teachings to the mystics--exploring the ways in which his actions embodied his principles. An accessible and concise guide, this book is relevant to all those with an interest in the life of 'Ali, Islamic spirituality, religious practice, and the philosophy of religion.

Conceptions of Justice from Islam to the Present

Dispensing Justice is designed to serve as a sourcebook of Islamic judicial practice and qadi judgments from the rise of Islam to modern times, drawing upon court records and qadi court records, in addition to literary sources. The volume fills a large gap in Islamic legal history. "Dispensing Justice" is designed to serve as a source book of Islamic judicial practice from the rise of Islam to modern times, drawing upon legal documents, qadi court records, archival materials and literary sources. The volume fills a large gap in our understanding of Islamic legal history. (modified by Powers).

Voice of Human Justice

On »Al+ ibn Ab+ l lib, ca. 600-661, 4th Caliph of Islam.

Imam 'Ali

Justice rather than the jihad or ""holy war"" of the Western imagination defines the Islam of the Qur'an and explains the global appeal of Islam's quest for the righteous community. For centuries, Abu Dharr al Ghifari, the seventh-century companion of the Prophet Muhammad, has provided a human face for Islamic justice as the core value of the faith. In this study of justice in Islam, Raymond Baker focuses on the influence of Abu Dharr, and the work of major intellectuals who have contributed to the Islamic Awakening.

Dispensing Justice in Islam

This historical narrative of Imam Ali ibn Abi Talib, tells the tale of his timeless character that transcends history, religions, and nations. From before his birth to the final moments of his life, Ali's story renews within us the hope we all need. The lessons of his life's journey illuminate a deeper understanding of what it means to endure the darkest times, to persevere, and to rise to a purpose greater than ourselves. Embodying the definition of patience itself, Ali is the compass, the lighthouse, to guide us in navigating the world around us, and the universe within. The gateway to God's beloved Muhammad, Ali is the answer to the wandering heart and the seeker of all that is true. Ali, is 'the elixir of love'.

The Voice of Human Justice (Sautu'l Adalatil Insaniyah)

This book discusses the judiciary of Commander of the Faithful Ali ibn Abu Talib (as) (600-601 - 661 A.D.) who ruled the Islamic world for a short period of time prior to his martyrdom at the hands of a Kharijite. It cites a number of incidents which posed challenges to him in his capacity as the then supreme ruler. These incidents shed light on the Imam's deep wisdom, discretion and ability to delve deeply into the human nature and uncover its mysteries. This book is divided into two parts: The first part discusses how the Imam judged some challenging cases, deriving his decisions from the Holy Qur'an and the Sunnah of the Prophet (P). The second part contains selected Sayings of the Imam (as) which serve as guides to the exemplary Muslim personality and goes beyond that to explore the human nature at large. These are adages, wise sayings, precious pieces of wisdom which portray how a true Muslim, actually any human being, ought to be. We think this book appeals not only to university law or theology students and professors but also to the average reader who is curious about Islam's concept of the just ruler.

A Critical Examination of the Life and Teachings of Mohammed

Majid Khadduri, one of the world's preeminent authorities on Islamic justice and jurisprudence, presents his extensive study and reflection on Islamic political, legal, ethical, and social philosophy. This book is both a magisterial historical synthesis and an illumination of the beliefs and practices of modern Islam. (World Religion)

Ali the Manifesting Imam

This Book is a Must read to every Muslim and non-Muslim to learn more about a man who not only lived his life to better Islam, but to better humanity also. He was not an Imam just for Shia Muslims, but for all of mankind. He is undoubtedly the best human being to have ever lived after Prophet Muhammad (saw) with such an elevated status that the angels themselves know of his status. This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization

(www.shia.es) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Peak of Eloquence

"This is volume one of a total of three volumes of Nahjul-Bal gha, the path, way, method... of eloquence, is the compilation of sermons, letters and axioms of Al+ ibn Abk T lib, cousin and son-in-law of the Prophet of Islam, which were compiled by Shar+f al-Ra +. The book provides you with details about the author, the compiler and the book itself, and you will see that it contains an ocean of knowledge and wisdom. There is so much history in this book, it takes you back to the very first Islamic century and enables you to "live" the events that shaped the Muslims' lives for all time to come." --Amazon.com.

The Muslim Brotherhood in the Obama Administration

While Americans focus on terrorism, a more insidious Islamist threat lurks. It is the agenda of sharia, Islam's authoritarian legal and political system. The global Islamist movement aims, in the words of the Muslim Brotherhood, to destroy the West by sabotaging it from within. Its principal strategy is not mass murder but the exploitation of Western freedoms and the insinuation of sharia principles into Western legal systems. Because those principles are hostile to our core liberties, sharias advance gradually undermines our culture. In this Broadside, Andrew C. McCarthy shows how the sharia agenda has found a friend in the Obama administration. President Obama is actively abetting the Islamist platform: promoting sharia in his foreign policy, easing enforcement of laws that stop Islamic "charities" from diverting funds to jihadist terror, and even sponsoring a United Nations resolution that under the guise of insulating Islam from criticism would stifle First Amendment rights.

How Obama Embraces Islam's Sharia Agenda

Full constitutional rights for foreign Islamic terrorist detainees. Apologies to the Muslim world for American 'misdeeds,' and promises to make amends even if the security of the American people is placed in peril. Welcoming radical Muslim sympathizers into high positions of authority. Abridging freedom of expression. And much, much more. Lethal Engagement documents how in these and other ways President Barack Hussein Obama has forsaken the oath of office he took to 'preserve, protect, and defend the Constitution of the United States.' Lethal Engagement exposes how radical Muslims are re-branding their barbaric ideology to fool their gullible audience in the West and how they play the racism victim card, all with President Obama's help. Lethal Engagement systematically lays out the dangerous entanglement of Obama with the United Nations, which radical Muslims are manipulating to promulgate international law to their liking, and how his nomination of more activist judges willing to throw away the Constitution allows radical Muslims to subvert American law. Lethal Engagement also reveals the radical Muslim plan to destroy the value of the dollar and use the United Nations to replace it with a new global reserve currency, all helped along by the Obama administration's disastrous economic policies. After connecting all these dots, Joseph Klein explains the steps 'we the people' must take to rescue our country.

Lethal Engagement

While Americans focus on terrorism, a more insidious Islamist threat to our way of life lurks. It is the agenda of sharia, Islam's authoritarian legal and political system. The global Islamist movement aims, in the words of the international Muslim Brotherhood, to destroy the West by sabotaging it from within. Its principal strategy is not mass-murder but the exploitation of Western freedoms and the insinuation of sharia principles into Western legal systems. Because those principles are hostile to our core liberties - indeed, hostile even to the bedrock premise that people are free to govern themselves as they see fit - sharia's advance gradually undermines our culture. The sharia agenda has found a friend in the Obama administration, which has embraced its vanguard, including the Brotherhood and

the Organization of the Islamic Conference. President Obama is actively abetting the Islamist platform: promoting sharia in his foreign policy, easing enforcement of laws that stop Islamic “charities” from diverting funds to jihadist terror, and even sponsoring a United Nations resolution that - under the guise of insulating Islam from criticism - would stifle First Amendment rights.

How Obama Embraces Islam's Sharia Agenda

Warning! This is a summary, intended to rebut, with over 700 total pages, *A Promised Land*, the top-selling non-fiction book in 2020. This book is not to replace Obama's memoir, but to bury it. Obama's time in prep school showed more passion for his jump-shot and partying than studying. We experience his college years under the admitted influence of Marxism, and into Harvard Law and the alleged arrangement to become the President of the Law Review-- which would launch his political career via *The NY Times*. We sample his rapid rise to the Senate, and then the Presidency, under the tutelage of Chicago's Deep State professionals like David Axelrod and Valerie Jarrett. Favored candidates, even incumbents, step aside or hand him their campaign, and dirt leaked from sealed court documents buries his opponents. His path to the Presidency miraculously cleared, he finds the keynote tossed at his feet by John Kerry at the DNC to make him famous. John Kerry's staff infuses his campaign. John McCain ensures Obama's success. Obama spends more than all other previous Presidents combined, and harms America in doing so. Obama reveals compromising situations and connections, arousing more suspicion. Brief and interspersed negative comments, clearly marked in Section One, catalyze a full-throttle rebuttal in Section Two. Obama not only left out key facts, like that his family had strong communist ties, or that he governed under the influence of Zbigniew Brzezinski, Iranian Islamist Valerie Jarrett, and Jesse Jackson. Obama, according to Pulitzer-prize-winning author Seymore Hersh, lied about his alleged killing of Osama bin Laden for a boost in the polls. The Rebuttal proves itself to be well-documented and bulletproof. Obama, and his arranged mate and children, proved not to be what they seem.

Summary & Rebuttal: *A Promised Land*: Barack Obama

On Feb. 11, 2011, Pres. Hosni Mubarak resigned after 29 years in power. For 18 days, a popular peaceful uprising spread across Egypt and ultimately forced Mubarak to cede power to the military. Contents of this report: (1) The Jan. 25 Revolution in Egypt: Latest Developments, U.S. Foreign Policy, and Issues for the 112th Congress: The People's Revolution: A Timeline; The U.S. Response: "Orderly Transition"

Egypt

I wrote this book for you. You are worried, Is Obama really a Muslim? What is happening to this country? I answer, Yes he is. He is destroying America. You exclaim, Surely not deliberately? I answer, Obama is waging a Stealth Jihad on this country. Read this book. You will see for yourself. You ask, How can you know? You're just a foreigner. I reply, I watched as Socialists destroyed Sri Lanka. Also, since I graduated with honors from Columbia Law School, I can explain clearly how Shariah is diametrically opposed to our Constitution. Islam is not a religion, but a political/ military/religious ideology that seeks to conquer America, just as it has conquered Europe. You complain, This book is too long. It is long because there is so much the media has hidden. You need to read the book and inform yourself. Then, liberal intellectuals cannot deceive you any more. You are afraid, The Media says I should not read this book because you are a racist, full of hate and an Islamophobe. I can only tell you, God gave me the courage to write this book. I know He will give you the courage to read it.

9/11, Stealth Jihad and Obama

Arab Fall

The Global Obama examines the president's image in five continents and more than twenty countries. It is the first book to look at Barack Obama's presidency and analyze how Obama and America are viewed by publics, governments, and political commentators around world. The author of *Barack Obama in Hawaii and Indonesia: The Making of a Global President* (Top 10 Black History Book) scaled the globe to gather opinions – cultural, historical, and political analyses – about Obama's leadership style. Writers, journalists, psychologists, consultants, and social scientists present their views on Obama's leadership,

popularity, and many of the global challenges that still remain unresolved. As a progress report, this is the first book that tries to grasp 'the Obama phenomenon' in totality, as perceived by populations around the world with special focus on America's leadership in the 21st Century.

The Global Obama

This book is about documenting the transformation of the United States under the Obama policies, and the ideological premises of that transformation. The book makes clear that policy considerations under Obama were defined in terms of his ideological disposition instead of what is necessarily in the best interest of the country. His left wing disposition left little room for cost-benefit analysis and for policies emerging from a true national dialogue. Obama Care was made into law without a single Republican vote. Much of the proposed legislations passed by the House of Representative were shelved by the Democrat Senate. Race relations became worse under his administration as he preferred to interfere in every case involving African- Americans while ignoring compelling facts. His decision on the Keystone Pipeline is illustrative of an appeasement policy for the left instead of one that produces jobs and energy independence for the United States. The book synthesizes the ideological foundation of numerous policies that were driven by President Obama's extreme liberalism in order to keep the base of the Democratic Party and major liberal donors in toe. Many of his policy choices were achieved by extraconstitutional methods such as Executive Orders and congressional paralysis instituted by Harry Reid. Meanwhile, the ranks of the poor, the underemployed, the too-discouraged to seek employment and those receiving food stamps rose at historical levels. Despite the most optimistic promises President Obama made, the US recovery continued anemic. The book will provoke much discussion, and perhaps strong disagreements and perhaps applause. It should, therefore, contribute to the vibrancy of our democracy and to the solidity of our constitution.

The New Arab Revolt: What Happened, What It Means, and What Comes Next

Hamas is a Palestinian Islamist military and sociopolitical movement that grew out of the Muslim Brotherhood. The U.S., Israel, the EU, and Canada consider Hamas a terrorist org. This report provides background info. on Hamas, or the Islamic Resistance Movement, and U.S. policy towards it. It also includes info. and analysis on: (1) the threats Hamas currently poses to U.S. interests; (2) how Hamas compares with other Middle East terrorist groups; (3) Hamas's ideology and policies; (4) its leadership and org., and (5) its sources of assistance. Finally, the report discusses various legislative and oversight options related to foreign aid strategies, financial sanctions, and regional and international political approaches. A print on demand report.

The Ideologue

The Gadfly Report by R. C. Whittaker What do you do when you are witness to a country headed toward a rapid state of decline? R.C. Whittaker was inspired to arouse the citizens of the United States from complacency by revealing the current activities, trends, and beliefs of our President Barack Obama and his administration; beliefs that may alarm those who respect and seek to uphold traditional Christian values, the Constitution of the United States, and a capitalistic society. Whittaker explores President Obama's controversial relationship with the Muslim Brotherhood, the erosion of our Fourth Amendment rights, and the notorious Agenda 21, among many others. His thoughtful observations and assessments of the actions of the Obama Administration, backed by statistical data, provide plenty of food for thought for readers who have long suspected President Obama and our current administration are failing to uphold our Constitution, our Judeo-Christian values, and our very way of life. Whittaker's reflections on everything from same-sex marriage and illegal aliens to the role that violence plays in today's society and the separation of church and state seek to encourage thought, examination, discussion and, ultimately, a call to action. About the Author R.C. Whittaker resides in Providence Forge, Virginia, with Carole, his wife of fifty-one years. R.C. served in the United States Army Corps of Engineers from 1959 to 1962 and later worked in Washington, D.C. for the United States Intelligence Department. He is passionate about a smaller, less-intrusive government; fiscal responsibility; a well-financed military; and capitalist economy. The Gadfly Report serves as a letter to his fellow citizens.

Hamas

"An incisive evaluation of foreign policy and the meaning of power in the Obama era"--

The Gadfly Report

Argues that President Obama's recent actions prove his anti-colonialist roots and predicts how much worse America is because of President Obama's second term. By the best-selling author of *The Roots of Obama's Rage*. Reprint.

The Obama Doctrine

My Brother's Keeper tells the behind-the-scenes story of how the American President and the Israeli Prime Minister clashed about peace, war, and the future of the region. Barack Obama and Benjamin Netanyahu viewed the world—and especially the Middle East—differently. The US president wanted to end what he saw as America's perpetual war against the Muslim and Arab worlds, use diplomacy to bring about a Palestinian state coexisting peacefully with Israel, and apply his signature foreign policy vision to reward the Islamic Republic of Iran in exchange for the scaling back of their nuclear pursuits. The Israeli premier wanted his country to thrive without the senseless bloodshed of terror and violence, and he was determined to protect the Jewish state from threats of annihilation by a member of the axis of evil that would one day be armed with nuclear weapons. Netanyahu wanted peace for peace, as well as the acceptance of Israel as a full-fledged part of the Middle East. In 2014, during a pivotal summer of terrorist violence, a war in Gaza, and the advancement of a nuclear deal with Iran, the two men clashed, threatening the US-Israeli strategic alliance and the future of the region. The Middle East would never be the same.

Obama's America

Exposing the moral and strategic deficits of the Obama, Clinton and Kerry approach to world affairs, *A Perilous Path* takes a close look at American history, while at the same time providing fresh, thought-provoking analysis. It calls for renewal of the best American foreign policy traditions, which emphasize “peace through strength” and human rights. Anne R. Pierce tells the fascinating story of Obama administration foreign policy and illustrates its disturbing consequences. She shows that President Obama and his Secretaries of State expended more effort in improving relations with dictatorships than in strengthening ties with democracies or encouraging ideas of freedom. With meticulous research, Pierce documents the administration's decisions and discusses its worldview. She reveals vital information regarding Hillary Clinton's tenure as Secretary of State, providing a cautionary account of what we can expect from a Clinton presidency. Whoever becomes president, *A Perilous Path* offers a moral and strategic compass for both policymakers and the public. *A Perilous Path* will make a substantial contribution to the discussion about America's proper role in the world. This book is a must read for everyone concerned about the current state of the world, and interested in charting a better course.

My Brother's Keeper

"The volume includes seminal pieces from *Foreign Affairs*, *ForeignAffairs.com*, and *CFR.org*. In addition, major public statements by Barack Obama, Hillary Rodham Clinton, Hosni Mubarak, Muammar al-Qaddafi, and others are joined by Egyptian opposition writings and relevant primary source documents."--Page 4 of cover.

A Perilous Path

Frank de Varona is an educator, historian, journalist, and internationally known expert on politics, economics, foreign affairs, and national security issues. He has written 22 books, including five on President Barack Obama. At the age of 17, he participated in the Bay of Pigs invasion of Cuba. After the defeat, he was sentenced to 30 years in prison and served two years. After his liberation, he came to the United States and received three college degrees. He worked in the Miami-Dade County Public Schools for 37 years serving as social studies teacher; assistant principal; principal of three schools; region director; and region, associate, and deputy superintendent of schools. Frank de Varona was associate professor of social studies at Florida International University for seven years. He lives in Miami with his wife, Dr. Haydee Prado, a psychologist. He has a daughter, Irene, and a grandson, Danny. This book discusses the reasons why the House of Representatives needs to impeach Obama and why the Department of Justice needs to indict Hillary Clinton for their Middle Eastern gunrunning operation in Libya and Syria, the Benghazi cover-up, and other crimes. It explains the history and the infiltration of the Muslim Brotherhood in the government. The history of the Islamic State and the

biography of its caliph al-Baghdadi and the details of all the jihadist attacks from the one in Paris to the one in San Bernardino are covered. The book points out Obama's no-win strategy to defeat ISIS and the ongoing Christian genocide. The Armenian genocide is covered as well. The author reveals the Saudi Arabia and Iran attacks of 9/11 and its cover-up. He exposes the increasing Islamization of America and why radical mosques must be shut down. The author presents the real Obama, who has been associated his entire life with Marxists, socialists, and radicals. The author provides an account of Obama's connections with his racist and unpatriotic pastor, Jeremiah Wright, and his friendship with the terrorist Bill Ayers, members of the Brotherhood, and with many criminals, including Tony Rezco. The author makes known the multitude of scandals that have marked Obama's life before and after his election as president. He explains that Obama is the first Marxist and hidden radical Muslim elected to the White House in history. The author denounces the disastrous agreement with Iran and explains the criticism of others, including Israeli Prime Minister Benjamin Netanyahu. He covers the many scandals of the Clinton Foundation and Hillary Clinton's email scandal. The author writes about Obama's disdain towards the Judeo Christian values that make our nation great and his war against religion and Christianity. He discusses Malik Obama's jihadist ties. Lastly, the author offers specific recommendations to rescue the nation from tyranny and the road ahead for Republicans to keep the House and Senate and winning the White House in 2016."

The New Arab Revolt

The Muslim Brotherhood and the West is the first comprehensive history of the relationship between the world's largest Islamist movement and the Western powers that have dominated the Middle East for the past century: Britain and the United States. In the decades since the Brotherhood emerged in Egypt in the 1920s, the movement's notion of "the West" has remained central to its worldview and a key driver of its behavior. From its founding, the Brotherhood stood opposed to the British Empire and Western cultural influence more broadly. As British power gave way to American, the Brotherhood's leaders, committed to a vision of more authentic Islamic societies, oscillated between anxiety or paranoia about the West and the need to engage with it. Western officials, for their part, struggled to understand the Brotherhood, unsure whether to shun the movement as one of dangerous "fanatics" or to embrace it as a moderate and inevitable part of the region's political scene. Too often, diplomats failed to view the movement on its own terms, preferring to impose their own external agendas and obsessions. Martyn Frampton reveals the history of this complex and charged relationship down to the eve of the Arab Spring. Drawing on extensive archival research in London and Washington and the Brotherhood's writings in Arabic and English, he provides the most authoritative assessment to date of a relationship that is both vital in itself and crucial to navigating one of the world's most turbulent regions.

Obama, Hillary Clinton, and Radical Islam

The Muslim Brotherhood, or Ikhwan, has engaged in terrorism, assassinations, and anti-Western, anti-Semitic rhetoric and violence for almost a century—yet few Americans realize how powerful they really are. While we focus on al Qaeda, Hamas, and Hezbollah, it's actually the Muslim Brotherhood, the world's oldest, most influential, and most anti-American Islamist group, that has become the preeminent voice and power in the Muslim world. Hiding behind a cloak of respectability and expensive Western suits, the Muslim Brotherhood is installing vehemently anti-American governments and power structures throughout the Middle East and the world, as we sit back and cheer for the "democracy" of the Arab Spring. In his new book, *The Brotherhood: America's Next Great Enemy*, Erick Stakelbeck teaches us the frightening truth about this dangerous group, from his first-hand experiences investigating the Brotherhood for eleven years, interviewing its members and visiting its mosques and enclaves. In *The Brotherhood*, Stakelbeck: Reveals how the Obama administration has put the Brotherhood on the threshold of power at every turn Examines the alarming ramifications for America, Europe and Israel of the Brotherhood's rapid rise Warns against the West's—particularly the Left's—shortsighted, naïve and deadly embrace of the Ikhwan and Traces the group from its violent roots to its current strategy of "stealth jihad" With Middle Eastern unrest only growing hotter, and saber-rattling at the West only growing louder, the Muslim Brotherhood's growing global clout will remain on the front burner of American national security challenges. Revealing and disconcerting, *The Brotherhood* is a must-read for every American hoping to remain in a free America.

The Muslim Brotherhood and the West

This book examines US foreign policy and global standing in the 21st Century. The United States is the most powerful actor in world politics today. Against this backdrop, the present volume examines how the foreign policies pursued by Presidents' George W. Bush and Barack Obama have affected elite and public perceptions of the United States. By examining America's standing from the perspective of different actors from across various regions, including China, Russia, Latin America and the Middle East, while also assessing how these perceptions interact with America's own policies, this book presents a fresh interpretation of America's global standing. In doing so, the volume evaluates how these perceptions affect the realities of US power, and what impact this has on moulding US foreign policy and the policies of other global powers. A number of books address the question of which grand strategy the United States should adopt and the issue of whether or not America is in relative decline as a world power. However, the debate on these issues has largely been set against the policies of the Bush administration. By contrast, this volume argues that while Obama has raised the popularity of America since the low reached by Bush, America's credibility and overall standing have actually been damaged further under President Obama. This book will be of much interest to students of US foreign policy, US national security, strategic studies, Middle Eastern politics, international relations and security studies generally.

The Brotherhood

Prime Crimes gives a detailed account of the treason committed in Libya by the Obama Administration, and includes the Strategic Goals of the Muslim Brotherhood for the United States, a Congressional letter to the director of National Intelligence concerning the influence of the Muslim Brotherhood on the White House, and a disclosure of the communications from Benghazi, including pleas from Ambassador Stevens for additional security help that went completely ignored by Obama. The state department disclosure is attached for easy reference. An alarming and compelling book. Prime Crimes documents the greatest acts of treason in America's history. A must read.

US Foreign Policy and Global Standing in the 21st Century

Conquest, Famine, War, Death – the four horsemen are coming, in the form of the national debt, widespread dependence on government, turmoil in the Middle East, and the expansion of the bureaucratic state. In Obama's Four Horsemen, syndicated columnist David Harsanyi takes a provocative look at how the Obama Administration allowed four big problems to mushroom into looming disasters we can no longer avoid or postpone. In his famous conversational, fact-driven, and humorous tone, Harsanyi argues that President Obama's handling of both domestic and foreign crises has set the stage for a disaster of Biblical proportions. Under Obama, America has become a land of more dependence, more hand-outs, more federal programs, and more government agencies. The great danger is that Americans have gotten used to it. Many people today expect, as a matter of fact, that the government will hand them health insurance, student loans, birth control, and anything else they might need or desire – while they are increasingly numb to the pernicious creep of the bureaucratic state and the alarming escalation of unsustainable spending and debt. Meanwhile, powerful forces abroad seek to destroy American and Western culture while Obama has sat on his thumbs and looked the other way, tossing out politically correct platitudes when asked about his response to their open threats and aggression. America is facing a time of great upheaval, domestic and global – Obama's Four Horseman is a provocative expose on how we got here, and a chilling prediction of what's to come.

Prime Crimes - Treason in Libya

Drawing on the political theology of Reinhold Niebuhr, described by Barack Obama as 'one of my favourite philosophers', this book assesses the challenges facing the President during his first term. It evaluates his success in adhering to Niebuhr's path of 'Christian realism' when faced with the pragmatic demands of domestic and foreign affairs. In 2008 Candidate Obama used the ideas of 'Hope' and 'Change' to inspire voters and secure the presidency. Obama promised change not only regarding America's policies, but even more fundamentally in the nation's political culture. Holder and Josephson describe the foundations of President Obama's Christian faith and the extent to which it has shaped his approach to politics. Their book explores Obama's journey of faith in the context of a broadly Augustinian understanding of faith and politics, examines the tensions between Christian realism and pragmatic progressivism, explains why a Christian realist interpretation is essential to understanding Obama's presidency, and applies this model of understanding to considerations of foreign and domestic policy. By combining this theological and political analysis the book offers a special opportunity to

reflect on the relationship between Christian faith and statesmanship, reflections that are missing from current popular discussions of the Obama presidency. Through consideration of Niebuhr's models of the prophet and the statesman, and the more popular alternative of the political evangelist, Holder and Josephson are better able to explain the president's successes and his failures, and to unveil the Augustinian limits of the political life.

Obama's Four Horsemen

The threat of terrorism in America, the Obama administration assures us, is contained and controlled. Recent attempted attacks like the Times Square bombing, the "underwear bombing" on a flight over Detroit, and the attack on a Christmas tree lighting ceremony in Oregon were all isolated plots that failed anyway. In the words of Homeland Security secretary Janet Napolitano, "The system worked." Don't believe it. In , investigative reporter Erick Stakelbeck exposes the staggering truth about our national security: the Obama administration is concealing and whitewashing the enormous terrorist threat growing right here within America's borders. If you believe terrorism is only a problem for other countries, Stakelbeck's on-the-ground reporting will open your eyes. He has been inside America's radical mosques, visited U.S.-based Islamic enclaves, and learned about our enemies by going straight to the source—interviewing al-Qaeda-linked terrorists themselves.

The Irony of Barack Obama

Contents: (1) Syria 2000-2009: From Isolation to Engagement: A New U.S. Approach Toward Syria?; (2) Current Issues: 2008-2009 War in Gaza; A Syria-Israel Peace Deal; Syria's Role in Lebanon; Iraqi Refugees in Syria; Clandestine Nuclear Program and the IAEA Investigation; Relations with Iran; Syrian Support for Terrorist Activity; U.S. and Other Sanctions; The 2003 Syria Accountability Act; Financial Sanctions; Effect of U.S. Sanctions on Syria's Economy; (3) Syria's Need for Economic Growth and Reform; (4) Internal Political Scene: Pillars of the Regime; Alawite Sect; Ba'ath Party; Military and Security Establishment; Syrian Opposition; Syrian Muslim Brotherhood; Damascus Declaration; and Syrian Dissidents, Exiles, and Defectors Abroad.

The Terrorist Next Door

The book that was never supposed to be written - Unexpected Treason is a comprehensive academic analysis and political expose of the presidency of Barack Obama, that proves Obama is a radical Muslim and committed treason. Obama's policies of hope and change were a scam created to institute policies that intended to advance the interests of Iran, the Muslim Brotherhood, other Islamist organizations and states, and a future caliphate, that would eventually transition the United States and the West to a society dominated by Islam. This evaluation clearly shows that Obama was the largest single financier and enabler of Islamic terrorism the world has ever known, reversed centuries of American foreign policy, negated America's role as the world's sole superpower, weakened America at home and abroad, attempted to create the circumstances that would lead to Israel's demise, and advanced all these policies through the machinations of taqiyya, continual deception and lies. Through meticulous research starting before he became president, many truths and secrets have been revealed about Obama, which define his path to power, shed light on his motives and his decision making as president, and even reveal the truth surrounding al Qaeda's attack on the Benghazi consulate and the unbelievable events surrounding the death of Ambassador Stevens. Unexpected Treason will be an indispensable resource that will clarify the policies, events and circumstances surrounding the presidency of Barack Hussein Obama.

Syria

Ex-Navy SEAL sniper Scott Taylor served his country for eight years. Taylor finally came home after he was injured during Operation Iraqi Freedom. Years later, he became outraged when he discovered that the Obama administration was leaking sensitive intelligence information for political gain. Now Scott Taylor is speaking out. Having served as a sniper in the same region of Iraq as American Sniper author Chris Kyle, Taylor knows first-hand how high the stakes are. From the bungling of Benghazi to the rise of ISIS, the White House has betrayed the trust of American forces. It's time President Obama and his administration were finally held accountable.

Unexpected Treason

Politicians routinely wield raw political power to push through troubling legislation like the Affordable Care Act, in which the will of the people was ignored to satisfy an extreme minority. National debt is skyrocketing, the Islamic State has exploded, and in Benghazi, we saw the senseless murders of the U.S. ambassador in Libya and three other Americans all as a result of politics, incompetence, and lies. This is what life looks like under the presidency of Barack Obama. Bob Jack, however, isn't letting him get away with it: He tracks Obamas actions, policies, and the results of his ill-fated leadership in this detailed assessment of his tenure as the commander in chief. He contends that no political team has ever brought to America a more radical agenda of change, unabashed insensitivity, and glowing errors in judgment than this liberal, progressive, leftist ideological express called the Obama administration. With Irans global influence spreading, Russia bullying its neighbors, and radical terrorists threatening to enslave freedom-loving Americans, its time we make things right by taking A View from the Eagles Nest.

Trust Betrayed

In the wake of the news that the 9/11 hijackers had lived in Europe, journalist Ian Johnson wondered how such a radical group could sink roots into Western soil. Most accounts reached back twenty years, to U.S. support of Islamist fighters in Afghanistan. But Johnson dug deeper, to the start of the Cold War, uncovering the untold story of a group of ex-Soviet Muslims who had defected to Germany during World War II. There, they had been fashioned into a well-oiled anti-Soviet propaganda machine. As that war ended and the Cold War began, West German and U.S. intelligence agents vied for control of this influential group, and at the center of the covert tug of war was a quiet mosque in Munich—radical Islam's first beachhead in the West. Culled from an array of sources, including newly declassified documents, *A Mosque in Munich* interweaves the stories of several key players: a Nazi scholar turned postwar spymaster; key Muslim leaders across the globe, including members of the Muslim Brotherhood; and naïve CIA men eager to fight communism with a new weapon, Islam. A rare ground-level look at Cold War spying and a revelatory account of the West's first, disastrous encounter with radical Islam, *A Mosque in Munich* is as captivating as it is crucial to our understanding the mistakes we are still making in our relationship with Islamists today

A View from the Eagle's Nest

The first fundamental truth about the "Arab Spring" is that there never was one. The salient fact of the Middle East, the only one, is Islam. The Islam that shapes the Middle East inculcates in Muslims the self-perception that they are members of a civilization implacably hostile to the West. The United States is a competitor to be overcome, not the herald of a culture to be embraced. Is this self-perception based on objective truth? Does it reflect an accurate construction of Islam? It is over these questions that American officials and Western intellectuals obsess. Yet the questions are irrelevant. This is not a matter of right or wrong, of some posture or policy whose subtle tweaking or outright reversal would change the facts on the ground. This is simply, starkly, the way it is. Every human heart does not yearn for freedom. In the Islam of the Middle East, "freedom" means something very nearly the opposite of what the concept connotes to Westerners – it is the freedom that lies in total submission to Allah and His law. That law, sharia, is diametrically opposed to core components of freedom as understood in the West – beginning with the very idea that man is free to make law for himself, irrespective of what Allah has ordained. It is thus delusional to believe, as the West's Arab Spring fable insists, that the region teems with Jamal al-Madisons holding aloft the lamp of liberty. Do such revolutionary reformers exist? Of course they do . . . but in numbers barely enough to weave a fictional cover story. When push came to shove – and worse – the reformers were overwhelmed, swept away by a tide of Islamic supremacism, the dynamic, consequential mass movement that beckons endless winter. That is the real story of the Arab Spring – that, and the Pandora's Box that opens when an American administration aligns with that movement, whose stated goal is to destroy America.

A Mosque in Munich

A man with aspirations of being a world leader, Barack Obama, a man with many secrets of his own, set out to destroy the strongest power by bankrupting the nation, diminishing its military, and apologizing to all other countries for its arrogance. A man that has his own army and concentration camps ready at his whim for you. A man that could and should have brought unity between black and white America but his cause was to further his own agenda to take guns away from America and destroy its Second Amendment. Barack Obama, the man that said he was a Christian when everything he did pointed to

the fact that he is a Muslim. Barack Hussein Obama, the man who will go down in the annals of history known as a Muslim, a Luminati, a member of the New Black Panthers, a member of the gay community, and as the worst President the United States of America has ever elected.

Spring Fever

The New York Times bestselling author of *Shadow Warriors* investigates the tragedy of Benghazi to answer the questions: what really happened—and why? We know the Obama administration's story, of a demonstration caused by an Internet movie that went out of control. But what actually did happen in Benghazi on the night of September 11, 2012? *Dark Forces* is the story of clandestine arms deliveries by the United States and its allies to Libya that wound up in the hands of Islamist guerrillas. It's a story of a romantic diplomat, in love with the Middle East and with a mystical version of Islam. It's a story of bald-faced lies, heroic acts, and the deepest corruption. But *Dark Forces* is not only a retelling of events. It puts those events into the larger context of Obama administration policy toward the Middle East. It will examine the administration's record of systematically supporting Muslim Brotherhood and extremist groups in their efforts to overthrow pro-U.S. autocrats in Tunisia, Egypt, and Libya. It shows how President Obama's obsessive outreach to the leadership of the Islamic Republic of Iran led the Iranian regime to dismiss him as a weak, ineffective leader who would not fight back. And it shows why and how this deadly combination cost the lives of four Americans on Sept. 11, 2012.

Legacy

A poignant, deeply human portrait of Egypt during the Arab Spring, told through the lives of individuals. A FINANCIAL TIMES AND AN ECONOMIST BOOK OF THE YEAR 'This will be the must read on the destruction of Egypt's revolution and democratic moment' Sarah Leah Whitson, Middle East director of Human Rights Watch 'Sweeping, passionate ... An essential work of reportage for our time' Philip Gourevitch, author of *We Wish to Inform You That Tomorrow We Will Be Killed with Our Families* In 2011, Egyptians of all sects, ages and social classes shook off millennia of autocracy, then elected a Muslim Brother as president. New York Times correspondent David D. Kirkpatrick arrived in Egypt with his family less than six months before the uprising first broke out in 2011. As revolution and violence engulfed the country, he lived through Cairo's hopes and disappointments alongside the diverse population of his new city. *Into the Hands of the Soldiers* is a heartbreaking story with a simple message: the failings of decades of autocratic rule are the reason for the chaos we see across the Arab world. Understanding the story of what happened in those years can help readers make sense of everything taking place across the region today – from the terrorist attacks in North Sinai to the bedlam in Syria and Libya.

Dark Forces

This book discusses the reasons for the decline of America under Obama. The author presents the real Obama, who has been associated his entire life with Marxists, socialists, and radicals. The failure of the mainstream media in exposing Obama's radical past is discussed. The author provides an account of Obama's connections with his racist and unpatriotic pastor, Jeremiah Wright, his friendship with the unrepentant terrorist Bill Ayers and with criminals such as Tony Rezco. The author reveals the multitude of scandals that have marked Obama's life before and after his election as president. The scandals of the purchasing of his house in Chicago, Saudi Arabia's financing his Harvard education, the persecution by IRS, EPA, Labor Department, NLRB, and Justice Department of political opponents, the gun-running operation Fast and Furious, the NSA spying on Americans, the Benghazi affair, and many others. He points out that any of these recent scandals could result in impeachment charges on the president. The author explains that Obama is the first Marxist and hidden Muslim elected to the White House in the nation's history. The author tells about Obama's road towards a totalitarian socialist society and his disdain for the Judeo Christian values that made our nation great and his war against religion and Christianity. The book tells about Obama's desire to take away the sovereignty and the wealth of the nation through U.N. laws and treaties and the eventual establishment of a one world government. The author covers the misguided economic and foreign policies of the president who has placed our nation at risk of bankruptcy and seriously endangered our national security. The book covers the disastrous beginning of the first year of Obama's second term. It includes chapters on the unlawful Common Core, the infiltration of the Muslim Brotherhood and communists in the Obama administration, the history of the Muslim Brotherhood and its goal to destroy our nation and the West, Obama's multiple violations of the Constitution and electoral fraud in the two presidential elections. The author discusses the volatile situation in Egypt and Syria as well as the increasing threat of al-Qaeda,

China, Iran, North Korea, and Russia. The book covers the government shutdown and the disastrous implementation of ObamaCare. The author gives an account of the unlawful creation of the Federal Reserve Bank by a banking cartel and of the Bank for International Settlements, the central bank of all the private central banks which runs the world. He describes the New World Order and the powerful elite of the Bilderberg Group, Trilateral Commission, and Council of Foreign Relations which runs the United States and the world. Lastly, the author offers specific recommendations to rescue the nation from tyranny and the road ahead for winning the Senate in 2014 and the White House in 2016.

Into the Hands of the Soldiers

In response to the events of 9/11, the Bush administration launched a "war on terror" ushering in an era of anti-Muslim racism, or Islamophobia. However, 9/11 alone did not create Islamophobia. This book examines the current backlash within the context of Islamophobia's origins, in the historic relationship between East and West. Deepa Kumar is an associate professor of media studies and Middle East studies at Rutgers University and the author of *Outside the Box: Corporate Media, Globalization and the UPS Strike*. Kumar has contributed to numerous outlets including the BBC, USA Today, and the Philadelphia Inquirer.

America in Decline

The terror masters of ISIS are determined to get America's attention. They've humiliated the Iraqi Army we trained and seized territory in Iraq that we had secured at the cost of so many American lives. They've beheaded American journalists on camera in a direct challenge to the power and resolve of the United States. And now ISIS is calling for "city wolves" across the United States to act on their dedication to the Islamic State's blood-drenched ideology and murder innocent American citizens at random. Who is ISIS? Where did it come from, and what is driving its successful campaign of murder and conquest? Our government and our media alike seemed to be blindsided by the Islamic State's blitzkrieg-like advance, which forced American troops back into Iraq. ISIS has conquered a territory roughly the size of the state of Indiana, rules over eight million terrorized souls, and has even revived the practice of legal slavery. And yet the true motivations, inner workings, and future plans of this terror state and its mysterious caliph seem almost as obscure as when ISIS first burst onto the world scene. In *ISIS Exposed*, veteran investigative reporter Erick Stakelbeck gets inside the story of the new caliphate and reveals just how clear and present a threat it is.

Islamophobia and the Politics of Empire

In this series of fifteen essays with leading figures in the journalism and publishing fields, Aydogan Vatandas brings his unique investigative approach and perspective as a journalistic bridge-builder to explore the evolution of the media and the role it plays in global understanding as he seeks that middle meeting field of differing cultures and approaches.

ISIS Exposed

As a democracy, America offers its citizens a chance to change direction in both domestic and foreign policies with the election of a president or a Congress. Since 9/11, national security choices have become crucial to Americans as the country has been involved in wars overseas and terrorism has spread widely. Trump defeated ISIS, contained Iran, and brokered Middle East peace deals. The Obama administration brokered the Iran deal and partnered with the extremist Ikhwan. Do Americans want to return to the foreign policy of Obama via a Biden presidency? That's the choice. "I have interviewed Professor Walid Phares for more than a decade on the most critical national security and foreign policy issues facing America as well as on his role as an advisor to President Donald Trump and many other U.S. national leaders. Dr. Phares's books and expertise have often been predictive of world affairs. In his new book *The Choice*, he helps Americans understand the deep foreign policy differences between the candidates and what the election means for the future." —Raymond Arroyo, Fox News Contributor, New York Times bestselling author
