League of Strays

This suspenseful debut follows a group of teenage misfits in their delicious quest for revenge on those who have wronged them at their high school. When a mysterious note appears in Charlotte's mailbox inviting her to join the League of Strays, she's hopeful it will lead to making friends. What she discovers is a motley crew of loners and an alluring, manipulative ringleader named Kade. Kade convinces the

group that they need one another both for friendship and to get back at the classmates and teachers who have betrayed them. But Kade has a bigger agenda. In addition to vandalizing their school and causing fights between other students, Kade's real intention is a dangerous plot that will threaten lives and force Charlotte to choose between her loyalty to the League and her own conscience. Praise for *League of Strays* "A group of misfits is drawn together by a charismatic, sinister boy for friendship and revenge." —Kirkus Reviews "Readers may very well be drawn in by the suspense of the pranks, each more cringe worthy than the last." —Booklist "A solid psychological thriller, this novel will find a fan base with readers who enjoy their vigilante justice with a heavy helping of vengeance." —The Bulletin of the Center for Children's Books "This is a great book about the trials of high school. First loves, friends, enemies, bullying, difficult teachers, pushy parents, deciding your future, it's all here." —The Tulsa Examiner

The Strays Like Us

From the award-winning author of *The Patron Saint of Butterflies* and *The World from Up Here* comes a story of a girl who finds friendship where she least expects it. From the moment Fred (never Winifred!) spots a scruffy little mutt with sad eyes, she knows she's in big trouble. Toby's in bad shape, and Fred longs to rescue him from the old man with the mile-long mean streak who lives next door. But Margery -- the straight-talking woman who is fostering Fred -- says going over to their house is against the rules. And since Fred will only be around until her mother comes to grips with her dependence, Fred can't let herself care too deeply. Not about Toby or Margery or Delia, a new classmate whose insistent friendship surprises Fred at every turn. Because the more Fred lets this lovable band of misfits into her heart, the harder it'll be to leave them all behind. In this story of loss and love, acclaimed author Cecilia Galante examines life's difficult choices and how a girl plus the dog she loves can add up to finding family in the most unlikely places.

Strays

Sometimes, life becomes unleashed... Sixteen-year-old Iris Moody has a problem controlling her temper—but then, she has a lot to be angry about. Dead mother. Workaholic father. Dumped by her boyfriend. Failing English. When a note in Iris's journal is mistaken as a threat against her English teacher, she finds herself in trouble not only with school authorities but with the law. In addition to summer school, dog-phobic Iris is sentenced to an entire summer of community service, rehabilitating troubled dogs. Iris believes she is nothing like Roman, the three-legged pit bull who is struggling to overcome his own dark past, not to mention the other humans in the program. But when Roman's life is on the line, Iris learns that counting on the help of others may be the only way to save him. With sparkling prose and delightful humor, Jennifer Caloyeras's novel beautifully portrays the human-animal bond.

Drift: a Story of Waifs and Strays

Straying -- Biting -- Suffering -- Thinking -- Defecating.

Dogopolis

Sara and Anna Olson awaken each morning without the comfort of their parents' love. Orphaned at a young age, they've tried their best to find a sense of safety and security within the foster system. At nine and eleven, they know more about the world than children twice their age—and it's a knowledge they have paid dearly to earn. Inspired by true events, their story is one of survival, but it's also one of friendship, sisterhood, and hope. They must find the strength to face the world with courage and faith. Amid the tattered remains of their innocence, the sisters know that no matter what else life delivers, they can always count on each other. When their ever-shifting world is rocked by three wood-splintering knocks on the door one cold, autumn night, the sisters flee into the darkness, alone and terrified. What could drive them into the frigid night air? On that night, Sara makes a promise to her sister, one she spends her whole life trying to keep. But it may be a promise that is destined to be broken.

Strays and Other Stories

Winner of the Stella Prize for Fiction and the Tina Kane Emergent Writers Award. This is a story of the impact of loss, devotion and obsession, and the demise of one family.

Strays

When a house fire strikes and destroys the home of four Labrador retriever puppies, they suddenly become orphans on the unforgiving streets. Dazed and confused, and not nearly old enough to know anything about survival, they must learn the hard way the life of a stray. They must band together as a family in order to find food, shelter, and to protect each other from the harshness of street life. They must support one another through trial and tribulation, through hope and hardship, through loss and love; and all the while retain their faith that God has a plan for them. Their true purpose is out there, beyond the life of a stray, waiting to be discovered.

The Strays

'A real page-turner full of wartime friendships, hope and love' NetGalley reviewer ~~P~~On the Home Front, one girl is determined to make a difference.

The Strays

As American troops are being pulled out of Vietnam, young soldier Chuck goes AWOL when he learns that the Army intends to euthanize his companion, military working dog Ajax. Original.

Edie's Home for Strays

Now in Knopf Paperback, from the author of *Babe: The Gallant Pig*, comes the touching story of a "stray" old woman's amusing antics and the large, loving family that adopts her.

Strays

The author's father, Frederick George Snow (1909-1994), became a ward of the Church of England Society for Providing Homes for Waifs and Strays when he was four years old in 1913. He was sent from England to Canada as one of the "Home Children" when he was fifteen. This book contains the author's search for his father's identity and family in England as well as information on the British child emigration system between 1880 and 1930.

The Stray

Could life as a foster kid lead to unexpected benefits? A teenager's link to animals gives way to human connection in a smart, incisive new novel. (Age 14 and up) Sixteen-year-old Ted O'Connor's parents just died in a fiery car crash, and now he's stuck with a set of semi-psycho foster parents, two foster brothers -- Astin, the cocky gearhead, and C.W., the sometimes gangsta -- and an inner-city high school full of delinquents. He's having pretty much the worst year of his miserable life. Or so he thinks. Is it possible that becoming an orphan is not the worst thing that could have happened to him? Drawing on his trademark wit and sharp insight, master novelist Ron Koertge takes the lead with this smart, surprising story about a boy learning to run with a new pack.

Neither Waif Nor Stray

Awareness of the use of animals in human society in fields such as farming, biotechnology and sport is dogged by the lack of a clear and objective exposition of the issues involved and a sense of possible conflict between human and animal welfare. This text addresses these dilemmas - what is the actual scale of the animal welfare problem; where does responsibility begin; what positive steps are actually being taken to alleviate animal suffering; and can a rational and compelling argument be given for the importance of animal welfare. It therefore aims to offer a comprehensive guide to the uninformed as well as those who have knowledge of the issues but lack conviction.

Strays

Something doesn't smell right! None of the dogs know what happens behind that door at the end of the hallway. All they know is there's a punishment for sniffing around it. What secrets are hidden in the Master's Forbidden Room? Stray Dogs is one of the best ideas I've ever heard, made all the better by flawless execution and a mastery of tone. My new favorite book. — KYLE HIGGINS (RADIANT BLACK, Nightwing, Power Rangers)

The Strays & Ways of York

What would you do if you had to choose between your man and your cat? 'If you were an animal, what kind of animal would you be?' Milla asks her bestfriend Gabriel. Milla would be a cat and Gabriel a bird. That's no surprise, as Milla is a cat therapist. Gabriel is also in love with her. Unaware of this, Milla begins an affair with Josh, a dentist. All goes well until Milla adopts a stray cat, a spooky albino who starts to drive a wedge between her and Josh. When Milla finds she must choose between her man and her cat, the choice she makes has horrifying consequences. For the stray is no ordinary domestic pet, and Milla, it turns out, is no ordinary woman. Inexorably the disturbed workings of Milla's mind draws her into a strange world. Girl-meets-boy domesticity is replaced by the cold drip of animal fear. The unbelievable becomes reality. And the shocking, horrifying conclusion is the only escape.

Animal Welfare

After an abrupt move across the country to San Francisco, sixteen-year-old Livvy is shocked to find that her mother has lied to her. Instead of looking for work at a bakery, her mom is taking care of Adelle, Livvy's grandmother, who Livvy thought was long dead. Suffering from Alzheimer's, Adelle shouts out startling details, mistakes her own name, and seems to relive moments that may have taken place in a concentration camp. When Livvy and her new friend Franklin D. find journal entries from the Holocaust in Adelle's home, Livvy begins to suspect that her grandmother may have a shocking link to a notable figure -- Anne Frank.

Through the Eyes of Strays

When seventy-five-year-old Henny Hickathrift runs away from the old people's home, she meets five children and their parents who welcome her into their family.

Stray Dogs #2

Under the farmhouse, something rots. And no matter how well they're trained, dogs will be dogs. Now they've uncovered something that can't just be buried again.

Stray

A family befriends a stray dog, names him Willy, and decides to keep him.

Strays

"Finally, a book that deals with stray cats; a how-to guide to trapping and dealing with a stray cat. As a pet owner, animal lover and director of a humane organization that deals with stray cats every day, this book gives us one more tool to offer to people who want to help the thousands of strays that wander our streets. Bravo!" Joseph J. Sprague, Jr., Executive Director, Tree House Animal Foundation "Tamara Kreuz cares about the plight of stray and feral cats and gives practical ways to help them. Individuals and shelters can benefit from this book. If those who find stray animals can themselves set about to help by finding homes for domestic strays, or by creating safe havens for feral cats, this will make life a lot easier for shelter personnel, who are all too often overburdened by the number of animals they receive. We highly recommend The Stray Cat Handbook." Louise Holton and Becky Robinson, Co-founders, Alley Cat Allies: The National Feral Cat Network "This is a must read for those considering animal rescue work. The information and suggestions provided are first rate and are based on actual experiences." Linda A. Heller, Division Manager, Orange County Animal Services (Florida) A Howell Cat Book of Distinction

Once you step inside this place the world you once knew will be gone. Here your true colors will be shown for all to see before the dawn. What if there was a place filled with life, lights, music, dancing, fun, and even hope? The catch? Your identity has to remain a secret and you dressed incognito in a unique style. Join Connor on his journey in this short story as he discovers who he might truly be underneath and what exactly he was missing.
