The Daily Washington Law Reporter

The first biography of George Washington's extraordinary nephew, who inherited Mount Vernon and was Chief Justice John Marshall's right-hand man on the Supreme Court for nearly thirty years. George Washington's nephew and heir was a Supreme Court Justice for over thirty years and left an indelible mark on American law. Despite his remarkable life and notable lineage, he is unknown to most Americans because he cared more about establishing the rule of law than about personal glory. In *Washington's Heir*, Gerard N. Magliocca gives us the first published biography of Bushrod Washington, one of the most underrated Founding Fathers. Born in 1762, Justice Washington fought in the Revolutionary War, served in Virginia's ratifying convention for the Constitution, and was Chief Justice John Marshall's partner in establishing the authority of the Supreme Court. Though he could only see from one eye, Justice Washington wrote many landmark decisions defining the fundamental rights of citizens and the structure of the Constitution, including *Corfield v. Coryell*--an influential source for the Congress that proposed the Fourteenth Amendment. As George Washington's personal heir, Bushrod inherited both Mount Vernon and the family legacy of owning other people, one of whom was almost certainly his half-brother or nephew. Yet Justice Washington alone among the Founders was criticized by journalists for selling enslaved people and, in turn, issued a public defence of his actions that laid bare the hypocrisy and cruelty of slavery. An in-depth look at Justice Washington's extraordinary story that gives insight into his personal thoughts through his own secret journal, *Washington's Heir* sheds new light not only on George Washington, John Marshall, and the Constitution, but also on America's ongoing struggle to become a more perfect union.

The Washington Law Reporter

div When it was published twenty-five years ago, Catharine MacKinnon's pathbreaking work *Sexual Harassment of Working Women* had a major impact on the development of sexual harassment law. The U.S. Supreme Court accepted her theory of sexual harassment in 1986. Here MacKinnon collaborates with eminent authorities to appraise what has been accomplished in the field and what still needs to be done. An introductory essay by Reva Siegel considers how sexual harassment came to be regulated as sex discrimination. Contributors discuss how law can best address sexual harassment; the importance and definition of consent and unwelcomeness; issues of same-sex harassment; questions of institutional responsibility for sexual harassment in both employment and education settings; considerations of freedom of speech; effects of sexual harassment doctrine on gender and racial justice; and transnational approaches to the problem. An afterword by MacKinnon assesses the changes wrought by sexual harassment law in the past quarter century. /DIV

Cantwell v. Connecticut Majority Opinion, Justice Owen Roberts . I will be noted that the Act requires an application to the secretary of the public welfare council of the State that he is empowered to determine whether the cause is a religious one, and that the issue of a certificate depends upon his affirmative action... Such a censorship of religion as the means of determining its right to survive is a denial of liberty protected by the First Amendment and included in the liberty which is within the protection of the Fourteenth

Sherbert v. Verner Majority Opinion—Justice William Brennan *The ruling forces her to choose between following the precepts of her religion and forfeiting benefits, on the one hand, and abandoning one of the precepts of her religion in order to accept work, on the other hand. Governmental imposition of such a choice

Employment Division v. Smith Majority Opinion—Justice Antonin Scalia . may fairly be said that leaving accommodation to the political process will place at a relative disadvantage those religious practices that are not widely engaged in: but that unavoidable consequence of democratic government must be preferred to a system in which each conscience is a law unto itself or in which judges weigh the social importance of all laws against the centrality of all religious beliefs.

Dissenting Opinion—Justice Breyer . We all recognize that the First Amendment prohibits discrimination against religion. At the same time, our history and federal constitutional precedent reflect a

deep concern that state funding for religious teaching, by stirring fears of preference or in other ways, might fuel religious discord and division and thereby threaten religious freedom itself

WHAT IS THE ANSWER TO THAT QUESTIONS This is the court's holding The court affirms, reverses, and/or remands back to the lower court for further proceedings.
