Following Atticus

"In the mountains Atticus became more of what he'd always been, and I became less—less frantic, less stressed, less worried, and less harried. I felt comfortable letting him lead, and he seemed to know what I needed. He always chose the best route, if ever there was a question, and my only job was to follow." Middle-aged, overweight, and acrophobic newspaperman Tom Ryan and miniature schnauzer Atticus M. Finch are an unlikely pair of mountaineers, but after a close friend dies of cancer, the two pay tribute to her by attempting to climb all forty-eight of New Hampshire's four-thousand-foot peaks twice in one winter while raising money for charity. In a rare test of endurance, Tom and Atticus set out on an adventure of a lifetime that takes them across hundreds of miles and deep into an enchanting but dangerous winter wonderland. Little did they know that their most difficult test would lie ahead, after they returned home. . . . At the heart of this remarkable journey is an extraordinary relationship that blurs the line between man and dog, an indelible bond that began when Tom, following the advice of Atticus's breeder, carried the pup wherever he went for the first month of their life together. Following Atticus is ultimately a story of transformation: how a five-pound puppy pierced the heart of a tough-as-nails newspaperman, opening his eyes to the world's beauty and its possibilities. It was a change that led to a new life among the mountains; an unforgettable saga of adventure, friendship, and the unlikeliest of family; and an inspiring tale of finding love and discovering your true self.

Following Atticus

After a close friend died of cancer, middle-aged, overweight, acrophobic newspaperman Tom Ryan decided to pay tribute to her in a most unorthodox manner. Ryan and his friend, miniature schnauzer Atticus M. Finch, would attempt to climb all forty-eight of New Hampshire's four-thousand-foot peaks twice in one winter while raising money for charity. It was an adventure of a lifetime, leading them across hundreds of miles and deep into an enchanting but dangerous winter wonderland. At the heart of the amazing journey was the extraordinary relationship they shared, one that blurred the line between man and dog. Following Atticus is an unforgettable true saga of adventure, friendship, and the unlikeliest of family, as one remarkable animal opens the eyes and heart of a tough-as-nails newspaperman to the world's beauty and its possibilities.

Following Atticus

Following Atticus is Tom Ryan's moving true story, of a man and his remarkable dog. Tom Ryan is a middle-aged, overweight, no-nonsense newspaper editor. But when Atticus M. Finch, a Miniature Schnauzer, arrives, he is forced to question everything about his life. Wanting to raise money in memory of a friend who died of cancer, Tom decides that they will both climb 48 of New Hampshire's mountains during a single winter - twice. What awaits the pair is the adventure of a lifetime. In an enchanting but dangerous winter wonderland, they face raging blizzards, frostbite and storms. It is a rare test of endurance that soon becomes a soul-searching journey. And then, within a month of returning home, tragedy strikes. Atticus goes blind, and the blood tests suggest something even worse. Now facing an even greater challenge, Tom and Atticus undertake a journey through darkness and into light. For anyone that loved Marley and Me, Following Atticus by Tom Ryan is a heartwarming story of friendship, selflessness, redemption -- and above all, love. Tom Ryan worked as an editor until 2007, when he decided to sell his newspaper move to the White Mountains of New Hampshire. He started climbing in memory of a friend who died of cancer, and in the last five years has climbed an incredible four hundred and fifty 4,000-foot peaks.

Will's Red Coat

A true story of acceptance, perseverance, and the possibility of love and redemption as evocative, charming, and powerful as the New York Times bestseller Following Atticus. From the author of

Following Atticus, an international bestseller that has inspired hundreds of thousands of people around the world, comes the moving true story of a despondent and broken old dog and the man who gave him a second chance. Drawn by a fateful online post, Tom Ryan, with the help of his canine hiking partner, Atticus M. Finch, adopts Will, an elderly, deaf, and nearly blind soul. Long neglected and filled with anger and pain, Will finds himself in a curious world unlike any he has ever known. Tom hopes to give Will a place to die with dignity surrounded by the natural beauty of the White Mountains of his New Hampshire home. But when he witnesses Will's fear and lack of trust, Tom realizes that his task entails so much more. With endless patience and the same meditative empathy Tom has nurtured in his relationship with Atticus, Will eventually begins to thrive. Soon, an angry, hurt, depressed, and near-death Will has transformed into a happy, frolicking fellow with a puppy-like zest for discovery, inspiring hundreds of thousands of people with his courage, resilience, and renewed heart. Will lived for two more years - to the ripe old age of 17 - and helped Tom understand a great deal about aging, how to live a full life and make the best of our days. Will's Red Coat is a real-life fairy tale of promises kept and a life-changing, inviolable bond between friends. Heartbreaking, uplifting, and ultimately unforgettable, it honours the possibility held in all of us, at any stage of life.

It's Just a Dog

Charlie Keefe is a world famous dog painter. Unfortunately, Charlie's beloved muse, Pete, his fun-loving Jack Russell terrier, has just died and he's totally devastated by the loss of his furry best friend. After months of grieving, Charlie reluctantly agrees to foster a new puppy from the local shelter, a cute King Charles Cavalier named Brownie. Charlie falls head over heels for this new puppy as well as being attracted to Janelle Jordan, the head hound at the dog rescue. Complications arise when the ghost of Pete appears one night to haunt him and Brownie setting off a bizarre chain of events that throws Charlie's life, career and entire belief system into chaos.

The Dog That Talked to God

A wonderfully quirky, heart-breaking, heart-warming and thought-provoking story of a woman's dog who not only talks to her, he talks to God. Recently widowed Mary Fassler has no choice except to believe Rufus, the miniature schnauzer, who claims to speak to the Divine. The question is: Will Mary follow the dog's advice, and leave everything she knows and loves? Is this at the urging of God? Or is it something else? Will Mary risk it all or ignore the urgings of her own heart? "I loved this story. Quirky and unusual, this unique tale wove a spell around me and drew me in. It wasn't what I expected at all, and when I turned the last page, it left me wanting more." - Ane Mulligan, Sr. Editor of Novel Rocket "The Dog That Talked to God is a moving and powerful read, inspirational long after the last page has been turned." - New York Journal of Books

Way to Go

Seventeen-year-old Danny feels like he has nothing figured out, not his future plans, not relationships, not even his own sexuality, but a visit from a cool city girl might change his summer and his entire life.

Nala's World

****THE SUNDAY TIMES BESTSELLER**** 'As a chronicle of an extraordinary friendship between man and animal, and its unexpected consequences, it's entirely delightful' DAILY MAIL 'This uplifting retelling of their adventures together proves a welcome tonic' THE SUN 'Heartwarming and utterly charming' GUARDIAN 'A heart-warming and captivating travelogue' THE i 'A gorgeous book about their adventures, complete with photos that will melt your heart' Lorraine Kelly, ITV *** Instagram phenomenon @1bike1world Dean Nicholson reveals the full story of his life-changing friendship with rescue cat Nala and their inspiring adventures together on a bike journey around the world. When 30-year-old Dean Nicholson set off from Scotland to cycle around the world, his aim was to learn as much as he could about our troubled planet. But he hadn't bargained on the lessons he'd learn from his unlikely companion. Three months after leaving home, on a remote road in the mountains between Montenegro and Bosnia, he came across an abandoned kitten. Something about the piercing eyes and plaintive meowing of the bedraggled little cat proved irresistible. He couldn't leave her to her fate, so he put her on his bike and then, with the help of local vets, nursed her back to health. Soon on his travels with the cat he named Nala, they forged an unbreakable bond - both curious, independent, resilient and adventurous. The video of how they met has had 20 million views and their Instagram has grown to almost 750k followers - and still counting! Experiencing the kindness of strangers, visiting

refugee camps, rescuing animals through Europe and Asia, Dean and Nala have already learned that the unexpected can be pretty amazing. Together with Garry Jenkins, writer with James Bowen of the bestselling *A Street Cat Named Bob*, Dean shares the extraordinary tale of his and Nala's inspiring and heart-warming adventure together.

The Other End of the Leash

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Words from the Wild

Inspired by New Hampshire Public Television's award-winning series *Windows to the Wild*

Going Home

In this invaluable guide and touchstone, New York Times bestselling author Jon Katz addresses the difficult but necessary topic of saying goodbye to a beloved pet. Drawing on personal experiences, stories from fellow pet owners, and philosophical reflections, Katz provides support for those in mourning. By allowing ourselves to grieve honestly and openly, he posits, we can in time celebrate the dogs, cats, and other creatures that have so enriched us. Katz compels us to consider if we gave our pets good lives, if we were their advocates in times of need, and if we used our best judgments in the end. In dealing with these issues, we can alleviate guilt, let go, and help others who are undergoing similar passages. By honoring the animals that have graced our lives, we reveal their truly timeless gifts: unwavering companionship and undying love. With a brand-new Foreword by the author.

The Mockingbird Next Door

To Kill a Mockingbird by Harper Lee is one of the best loved novels of the twentieth century. But for the last fifty years, the novel's celebrated author, Harper Lee, has said almost nothing on the record. Journalists have trekked to her hometown of Monroeville, Alabama, where Harper Lee, known to her friends as Nelle, has lived with her sister, Alice, for decades, trying and failing to get an interview with the author. But in 2001, the Lee sisters opened their door to Chicago Tribune journalist Marja Mills. It was the beginning of a long conversation—and a great friendship. In 2004, with the Lees' blessing, Mills moved into the house next door to the sisters. She spent the next eighteen months there, sharing coffee at McDonalds and trips to the Laundromat with Nelle, feeding the ducks and going out for catfish supper with the sisters, and exploring all over lower Alabama with the Lees' inner circle of friends. Nelle shared her love of history, literature, and the Southern way of life with Mills, as well as her keen sense of how journalism should be practiced. As the sisters decided to let Mills tell their story, Nelle helped make sure she was getting the story—and the South—right. Alice, the keeper of the Lee family history, shared the stories of their family. The Mockingbird Next Door is the story of Mills's friendship with the Lee sisters. It is a testament to the great intelligence, sharp wit, and tremendous storytelling power of these two women, especially that of Nelle. Mills was given a rare opportunity to know Nelle Harper Lee, to be part of the Lees' life in Alabama, and to hear them reflect on their upbringing, their corner of the Deep South, how To Kill a Mockingbird affected their lives, and why Nelle Harper Lee chose to never write another novel.

The Particulars of Peter

From one of the Internet's most original voices, an utterly charming, big-hearted, and witty (Jami Attenberg) journey through the odd corners of obsessive dog ownership and the author's own infatuation with her perfect dog Peter, now in paperback. The author met Peter in the spring of 2017. He -- calm, puppy-eyed, with the heart of a poet and the soul of, also, a poet -- came to her first as a foster. He was unable to stay with his previously assigned foster for reasons that are none of your business, but which we will tell you were related to frequent urination. The rescue needed someone free of the sort of responsibilities that would force her to regularly leave the house for either work or socializing, and a writer was the natural choice. Thus began a love story for the ages. The Particulars of Peter is a funny exploration of the joy found in loving a dog so much it makes you feel like you're going to combust, and the author's potentially codependent relationship with her own sweet dog, Peter. Readers will follow Peter and his owner to Woofstock, the largest outdoor festival for dogs in North America, and accompany them to lessons in Canine Freestyle, a sport where dogs perform a routine set to music, creating the illusion that they're dancing with their owners. From learning about Peter's DNA, to seeing if dogs can sense the presence of ghosts, The Particulars of Peter will give readers a smart, entertaining respite from the harsh world of humans into the funny little world of dogs. Readers will accompany this lovable duo through exciting trips, lessons, quiet moments of connection, and probably a failure or two. By fusing memoir and infotainment, The Particulars of Peter promises to refresh the perennially popular dog lit category in a scrumptiously bighearted barnstormer of a book.

Where You'll Find Me

On Feb. 15, 2015, Kate Matrosova, an avid mountaineer, set off before sunrise for a traverse of the Northern Presidential Range in New Hampshire's White Mountains. Late the following day, rescuers carried her frozen body out of the mountains. What went wrong? Where You'll Find Me offers possible answers to that question.

The Girl Explorers

Never tell a woman where she doesn't belong. In 1932, Roy Chapman Andrews, president of the men-only Explorers Club, boldly stated to hundreds of female students at Barnard College that "women are not adapted to exploration," and that women and exploration do not mix. He obviously didn't know a thing about either... The Girl Explorers is the inspirational and untold story of the founding of the Society of Women Geographers—an organization of adventurous female world explorers—and how key members served as early advocates for human rights and paved the way for today's women scientists by scaling mountains, exploring the high seas, flying across the Atlantic, and recording the world through film, sculpture, and literature. Follow in the footsteps of these rebellious women as they travel the globe in search of new species, widen the understanding of hidden cultures, and

break records in spades. For these women dared to go where no woman—or man—had gone before, achieving the unthinkable and breaking through barriers to allow future generations to carry on their important and inspiring work. *The Girl Explorers* is an inspiring examination of forgotten women from history, perfect for fans of bestselling narrative history books like *The Radium Girls*, *The Woman Who Smashed Codes*, and *Rise of the Rocket Girls*.

501 Critical Reading Questions

Presents five hundred-one critical reading questions to prepare for the SAT I and other tests and includes skill builders on different subject matter such as U.S. history and politics, arts and humanities, health and medicine, literature and music, sports, science, and social studies.

The Rosie Project

Don Tillman, professor of genetics, has never been on a second date. He is a man who can count all his friends on the fingers of one hand, whose lifelong difficulty with social rituals has convinced him that he is simply not wired for romance. So when an acquaintance informs him that he would make a "wonderful" husband, his first reaction is shock. Yet he must concede to the statistical probability that there is someone for everyone, and he embarks upon *The Wife Project*. In the orderly, evidence-based manner with which he approaches all things, Don sets out to find the perfect partner. He sets up a project designed to find him the perfect wife, starting with a questionnaire that has to be adjusted a little as he goes along. She will be punctual and logical, most definitely not a barmaid, a smoker, a drinker, or a late-arriver. Then he meets Rosie Jarman, who is everything he's not looking for in a wife. Rosie is all these things. She is also beguiling, fiery, intelligent, and on a quest of her own. She is looking for her biological father, a search that a certain DNA expert might be able to help her with. Don's Wife Project takes a back burner to the Father Project and an unlikely relationship blooms, forcing the scientifically minded geneticist to confront the spontaneous whirlwind that is Rosie, and the realization that love is not always what looks good on paper

The Football Girl

For every athlete or sports fanatic who knows she's just as good as the guys. This is for fans of *The Running Dream* by Wendelin Van Draanen, *Grace, Gold, and Glory* by Gabrielle Douglass and *Breakaway: Beyond the Goal* by Alex Morgan. The summer before Caleb and Tessa enter high school, friendship has blossomed into a relationship . . . and their playful sports days are coming to an end. Caleb is getting ready to try out for the football team, and Tessa is training for cross-country. But all their structured plans derail in the final flag game when they lose. Tessa doesn't want to end her career as a loser. She really enjoys playing, and if she's being honest, she likes it even more than running cross-country. So what if she decided to play football instead? What would happen between her and Caleb? Or between her two best friends, who are counting on her to try out for cross-country with them? And will her parents be upset that she's decided to take her hobby to the next level? This summer Caleb and Tessa figure out just what it means to be a boyfriend, girlfriend, teammate, best friend, and someone worth cheering for. "A great next choice for readers who have enjoyed Catherine Gilbert Murdock's *Dairy Queen* and Miranda Kenneally's *Catching Jordan*."—SLJ "Fast-paced football action, realistic family drama, and sweet romance...[will have] readers looking for girl-powered sports stories...find[ing] plenty to like."—Booklist "Tessa's ferocious competitiveness is appealing."—Kirkus Reviews "[The Football Girl] serve[s] to illuminate the appropriately complicated emotions both of a young romance and of pursuing a dream. Heldring writes with insight and restraint."—The Horn Book

A Taxonomy of Love

A YA romance—with a sparkling commercial voice and a dash of science—that explores a relationship over six years. The moment Spencer meets Hope the summer before seventh grade, it's something at first sight. The pair become fast friends, climbing trees and planning world travels. After years of being outshone by his older brother and teased because of his Tourette syndrome, Spencer finally feels like he belongs. But as Hope and Spencer get older and life gets messier, the clear label of “friend” gets messier, too. Through sibling feuds and family tragedies, new relationships and broken hearts, the two grow together and apart, and Spencer, an aspiring scientist, tries to map it all out using his trusty system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn't always fit into easy-to-manage boxes, and it's this messy complexity that makes life so rich and beautiful.

Unlost

'Gail writes with humour, heart and passion.' Giovanna Fletcher, Sunday Times #1 bestselling author. Gail Muller was told she'd be wheelchair bound by the age of forty. At forty-one, she embarked on one of the world's toughest treks - The Appalachian Trail. An inspiring, uplifting and moving account of one woman's incredible journey into the unknown and how she reclaimed herself in the process. As Gail took her first steps on the 2,200-mile trek through the wilderness of the USA, she had no idea what lay ahead of her, but she knew she felt burnout from city life, lost and broken - ready to heal a mind and body that she had battled with for so long. From the resilience-building mountain climbs, painful injuries and harsh reality of braving the raw elements, to the unexpected friendships forged with other hikers and the kindness of strangers offering food and shelter - with every step, Gail started to let go of a past dominated by chronic pain and reconnected with herself in a way she'd never been able to before. A love letter to the healing power of the wild outdoors and an incredible testament to the strength of the human spirit, Gail's story is for anyone who has ever felt stuck in a rut, lost or scared. She shows us that even in our darkest times, it's possible to find our inner grit, face our fears and feel hopeful. Essential reading for fans of Cheryl Strayed's *Wild* and Elizabeth Gilbert's *Eat, Pray, Love*.

Life and Literature

Reproduction of the original: Life and Literature by J. Purver Richardson

The Story of Rose

From the acclaimed author of *A Good Dog*, *Dog Days*, and *Going Home* comes this eBook original—a poignant memoir that celebrates Jon Katz's beloved border collie, Rose, and their transformative years together on Bedlam Farm. “I like to say you get the dog you need,” Jon Katz writes, “and I don't think any human ever needed a dog more than I needed Rose in the fall of 2003.” That year, Katz embarked on a quixotic quest, moving from the suburbs of New Jersey to a sprawling farm in upstate New York to pursue his dream of becoming a writer. And by his side was Rose, his unswervingly loyal and unflappable new dog. Whether herding sheep on the rolling hillsides, rounding up the neighbors' stray cows, or rescuing lambs on a freezing winter night, Rose had a nimble mind and a great love for work. Never wanting to be coddled, she watched over Bedlam Farm with singular focus and efficiency, protecting Katz and his menagerie from wild coyotes and menacing storms. Yet Rose saved Katz in more ways than he ever imagined. As he struggled to manage the farm's daily dramas—and continued to seek his true sense of purpose—Rose connected him to his deeper humanity and a more authentic life. With warmth, insight, and emotional honesty, Jon Katz has written a joyful remembrance of a one-of-a-kind dog. *The Story of Rose* reaffirms the profound bond people share with their pets, and the ways that animals indelibly shape our lives. “Jon Katz understands dogs as few others do, intuitively and unburdened by sentimentality. . . . With wisdom and grace, he unlocks the canine soul and the complicated wonders that lie within and offers powerful insights.”—John Grogan, author of *Marley & Me*. Includes moving excerpts from *Going Home*, and from Jon Katz's upcoming short-story collection, *Dancing Dogs*.

The Namesake

A young man born of Indian parents in America struggles with issues of identity from his teens to his thirties.

Keep This to Yourself

It's been a year since the Catalog Killer terrorized the sleepy seaside town of Camera Cove, killing four people before disappearing without a trace. Like everyone else in town, eighteen-year-old Mac Bell is trying to put that horrible summer behind him--easier said than done since Mac's best friend Connor was the murderer's final victim. But when he finds a cryptic message from Connor, he's drawn back into the search for the killer--who might not have been a random drifter after all. Now nobody--friends, neighbors, or even the sexy stranger with his own connection to the case--is beyond suspicion. Sensing that someone is following his every move, Mac struggles to come to terms with his true feelings towards Connor while scrambling to uncover the truth.

The Art of Raising a Puppy

Includes "puppy aptitude test."

Southern Literature from 1579-1895

Life in the twenty-first century is designed for comfort--just look around. We have upgrades for everything--airfare, tickets to the big game, and even our phones. But what's the real cost of comfort?

Chosen Suffering: Becoming Elite In Life And Leadership

What if when you died, no one would ever know you were all that stood between man and the enemy? When Jonathan Tibbs awakes in a puddle of his own blood, there isn't a scratch on him to explain it. In the weeks to follow, he comes to find he's been drafted for a war with a violent otherworldly species. A war that only he can remember. Now, the man Jonathan imagined himself becoming is no longer the man who can endure his future. The first installment in this science fiction action adventure series, *The Never Hero* is a gritty and honest look at the psychological journey of a man forced to forge himself into a weapon. Abandoned with little guidance, and at the mercy of a bargain struck far outside his reach, Jonathan races to unlock the means to surmount the odds, and understand the mystery behind a conflict raging outside of time and memory. In the end, the real question is what Jonathan is willing to become to save a planet that will never see his sacrifice.

The Never Hero

'A wonderful book.' - Temple Grandin, author of *Animals in Translation* Understand what your canine best friend is thinking with this New York Times bestselling handbook. An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to 'talk' from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella 'spoke' her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their best four-legged friend. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* is the indispensable dog book for you and your puppy pal.

How Stella Learned to Talk

Nassim Nicholas Taleb, the bestselling author of *The Black Swan* and one of the foremost thinkers of our time, reveals how to thrive in an uncertain world. Just as human bones get stronger when subjected to stress and tension, many things in life benefit from stress, disorder, volatility, and turmoil. What Taleb has identified and calls *antifragile* are things that not only gain from chaos but need it in order to survive and flourish. In *The Black Swan*, Taleb showed us that highly improbable and unpredictable events underlie almost everything about our world. Here Taleb stands uncertainty on its head, making it desirable, even necessary. The *antifragile* is beyond the resilient or robust. The resilient resists shocks and stays the same; the *antifragile* gets better and better. What's more, the *antifragile* is immune to prediction errors and protected from adverse events. Why is the city-state better than the nation-state, why is debt bad for you, and why is what we call "efficient" not efficient at all? Why do government responses and social policies protect the strong and hurt the weak? Why should you write your resignation letter before starting on the job? How did the sinking of the Titanic save lives? The book spans innovation

by trial and error, life decisions, politics, urban planning, war, personal finance, economic systems and medicine, drawing on modern street wisdom and ancient sources. Antifragile is a blueprint for living in a Black Swan world. Erudite, witty, and iconoclastic, Taleb's message is revolutionary: the antifragile, and only the antifragile, will make it. Nassim Nicholas Taleb has devoted his life to problems of uncertainty, probability, and knowledge and has led three careers around this focus, as a businessman-trader, a philosophical essayist, and an academic researcher. Although he now spends most of his time working in intense seclusion in his study, in the manner of independent scholars, he is currently Distinguished Professor of Risk Engineering at New York University's Polytechnic Institute. His main subject matter is "decision making under opacity," that is, a map and a protocol on how we should live in a world we don't understand. His books *Fooled by Randomness* and *The Black Swan* have been published in thirty-three languages. Taleb believes that prizes, honorary degrees, awards, and ceremonialism debase knowledge by turning it into a spectator sport.

Antifragile

The 25th Anniversary ebook, now with more than 50 images. 'Touching the Void' is the tale of two mountaineer's harrowing ordeal in the Peruvian Andes. In the summer of 1985, two young, headstrong mountaineers set off to conquer an unclimbed route. They had triumphantly reached the summit, when a horrific accident mid-descent forced one friend to leave another for dead. Ambition, morality, fear and camaraderie are explored in this electronic edition of the mountaineering classic, with never before seen colour photographs taken during the trip itself.

Touching the Void

Collects color kitten photos that went head-to-head in cuteness battles on the Web site Kittenwar.com, revealing the victors, analyzing selected battles, and also presenting such tools as the Kittenological Personality Test and a "cuteography" chart.

Kittenwar

The star of *The Incredible Dr. Pol* shares his amusing, and often poignant, tales from his four decades as a vet in rural Michigan. Dr. Jan Pol is not your typical veterinarian. Born and raised the Netherlands on a dairy farm, he is the star of Nat Geo Wild's hit show *The Incredible Dr. Pol* and has been treating animals in rural Michigan since the 1970s. Dr. Pol's more than 20,000 patients have ranged from white mice to 2600-pound horses and everything in between. From the time he was twelve years old and helped deliver a litter of piglets on his family's farm to the incredible moments captured on his hit TV show, Dr. Pol has amassed a wealth of stories of what it's like caring for this menagerie of animals. He shares his own story of growing up surrounded by animals, training to be a vet in the Netherlands, and moving to Michigan to open his first practice in a pre fab house. He has established himself as an empathetic yet no-nonsense vet who isn't afraid to make the difficult decisions in order to do what's best for his patients—and their hard-working owners. A sick pet can bring heartache, but a sick cow or horse could threaten the very livelihood of a farmer whose modest profits are dependent on healthy livestock. Reminiscent of the classic books of James Herriot, *Never Turn Your Back on an Angus Cow* is a charming, fascinating, and funny memoir that will delight animal lovers everywhere.

Never Turn Your Back on an Angus Cow

In 2002, Levin and his twin sons, Dan and Noah, took their terminally ill cat to the Ardmore Animal Hospital outside Philadelphia to have the beloved pet put to sleep. What would begin as a terrible day suddenly got brighter as the ugliest dog they had ever seen--one who was missing an ear and had half his face covered in scar tissue--ran up to them and captured their hearts.

Oogy

These ardent, even obsessed, poems about erotic passion are among the brightest jewels in the crown of Latin literature. Written by Propertius, Rome's greatest poet of love, who was born around 50 b.c., a contemporary of Ovid, these elegies tell of Propertius' tormented relationship with a woman he calls "Cynthia." Their connection was sometimes blissful, more often agonizing, but as the poet came to recognize, it went beyond pride or shame to become the defining event of his life. Whether or not it was Propertius' explicit intention, these elegies extend our ideas of desire, and of the human condition itself.

Propertius in Love

Chaser has a way with words. She knows over a thousand of them—more than any other animal of any species except humans. In addition to common nouns like house, ball, and tree, she has memorized the names of more than one thousand toys and can retrieve any of them on command. Based on that learning, she and her owner and trainer, retired psychologist John Pilley, have moved on to further impressive feats, demonstrating her ability to understand sentences with multiple elements of grammar and to learn new behaviors by imitation. John's ingenuity and tenacity as a researcher are as impressive as Chaser's accomplishments. His groundbreaking approach has opened the door to a new understanding of animal intelligence, one that requires us to reconsider what actually goes on in a dog's mind. Chaser's achievements reveal her use of deductive reasoning and complex problem-solving skills to address novel challenges. Yet astonishingly, Chaser isn't unique. John's training methods can be adopted by any dog lover. Through the poignant story of how he trained Chaser, raised her as a member of the Pilley family, and proved her abilities to the scientific community, he reveals the positive impact of incorporating learning into play and more effectively channeling a dog's natural drives. John's work with Chaser offers a fresh perspective on what's possible in the relationship between a dog and a human. His story points us toward a new way of relating to our canine companions that takes into account our evolving understanding of the way animals and humans learn.

Chaser

The New York Times bestselling author of *Secret Service Dogs* and *Soldier Dogs* delivers the incredible, true story of K-9 Marine hero Lucca, and the handlers who fought alongside her through two bloody wars in Iraq and Afghanistan. "Maria Goodavage knocks it out of the park in this fast paced, spell binding page turner" --John W. Pilley, co-author of *Chaser: Unlocking the Genius of the Dog Who Knows a Thousand Words* Maria Goodavage takes readers into the life of Lucca K458, a decorated and highly skilled military working dog. An extraordinary bond develops between Lucca and Marine Corps dog handlers Chris Willingham and Juan Rodriguez, in what would become a legendary 400-mission career. A specialized search dog, Lucca belongs to an elite group trained to work off-leash at long distances from her handler to sniff out deadly explosives. She served alongside both Special Forces and regular infantry, and became so sought-after that platoons frequently requested her by name. Here, in gritty detail, is the gripping account of Lucca's adventures on and off the battlefields, including tense, lifesaving explosives finds and rooftop firefights, as well as the bravery of fellow handlers and dogs they served with. Ultimately we see how the bond between Lucca and her handlers overcame the endless brutalities of war and the traumas such violence can inflict. *Top Dog* is a portrait of modern warfare with a heartwarming and inspiring conclusion that will touch dog lovers and the toughest military readers.

Top Dog

Photographer Seth Casteel's underwater photographs of dogs and babies have captivated an international audience. Now, Seth has found the perfect way to capture our other best friends: cats! A beautiful, funny gift book with more than 80 previously unpublished photographs, *Pounce* reveals adorable cats and kittens as they pounce and jump through the air, arms outstretched - all in Casteel's signature up-close, mid-action style.

Pounce

Fully train your dog in just six weeks with this revolutionary new method. The Monks of New Skete, long-time breeders of German shepherds and renowned trainers of all breeds and mixes, have codeveloped a successful new training technique. They and Marc Goldberg, who pioneered the approach, offer you and your canine companion a way forward using a game-changing tool: the invisible leash or electronic collar. Now in paperback, *The Art of Training Your Dog* presents their compassionate, efficient system along with helpful advice on choosing the best collar. At the right moment, using a light touch—that many humans can't even feel—strategically refocuses your dog's attention. This method helps you create effortless teaching moments that tie into your dog's pack instincts and help strengthen your bond with your dog. In as little as six weeks, your pup can master good leash manners; obey basic commands, such as sit, down, and stay; stop problematic behaviors; and play safely off leash with consistent recall.

The Art of Training Your Dog: How to Gently Teach Good Behavior Using an E-Collar

Just as there are predictable seasons of the year, there are also common passages in life through which we all pass. Each season has its own beauty and its own danger; its own challenges and rewards.

There are tasks we must master in each season if we are to move successfully to the next. We need a Guide to help us navigate these seasons. We need someone who has walked the path ahead of us, who knows where the landmines are, and who can lead us safely to our final destination. We need the One who has ordained all our days before there was ever one of them (Psalm 139:16). We need Jesus, the One who knows us intimately and loves us unconditionally.
