The Island Race

"Of the forty pieces in this volume, twelve were published in 1897 under the title of 'Admirals All ...' -- p. [vi].

The Island Race

Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

The Island Race

Rooted in a period of vigorous exploration and colonialism, this innovative study takes the idea of the English as an 'Island Race' and shows how this concept is key to understanding British imperial history in the eighteenth century.

The Island Race

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. The Island Race

The former hostage, John McCarthy and the comedian, Sandi Toksvig team up for an attempt to sail round Britain in three months. This book and the TV series it accompanies, reveals what it means to sail on British seas, it also affords an insight into John's reacquaintance with his native country.

The Island Race

This book is a beautiful and dramatic collection of Celtic praise, compiled by Church of Scotland minister and Gaelic scholar Alistair Maclean, which was first published in 1937. It comprises over one hundred prayers, poems, sayings, and praises from the Christian tradition of the author's native Hebrides.

The Island Race

This Island Race tells of the lifelong feuds and personal animosities, the fear, jealousies and suspicion that have riddled British cycling for 135 years, from the days of the penny-farthing. It could almost be a crime novel. But this is British cycling - seen from the inside.

The island race

The British Isles has never before and will, most likely, never again host the number of top-quality races that took place on its roads in 2014. The Tour de France start in Yorkshire will remain etched on the memories of the millions of spectators who lined every roadside inch of the Grand Départ. Two days in the county produced some of the most spectacular imagery ever seen on a Tour, and Rouleur photographers were there to capture the wonderful scenes. The Giro D'Italia started in Belfast before wending its way down to Dublin, another Grand Tour to delight in. The Woman's Tour hit our roads for the

first time and was a huge success immediately. The RideLondon-Surrey Classic drew thousands onto the streets of London and the Home County, both spectating and riding. We also celebrate the best of traditional races held on our shores: CiCLE Classic's gruelling off-road experience; the Lincoln GP and its brutal cobbled climb into the city; the national road championships and its annual battle to decide who will wear the red, white and blue; and the 25-mile time-trial championships, a strangely anachronistic event in the modern cycling world. Each race has its own delights, quirks and characters. Rouleur's renowned photographers and writers record them all. Featuring contributions from Ned Boulting, Timm K  lln, Jack Thurston, Robert Wyatt, Ian Cleverly, Richard Williams and Geoff Waugh.

The Island Race

Rooted in a period of vigorous exploration and colonialism, *The Island Race: Englishness, empire and gender in the eighteenth century* is an innovative study of the issues of nation, gender and identity. Wilson bases her analysis on a wide range of case studies drawn both from Britain and across the Atlantic and Pacific worlds. Creating a colourful and original colonial landscape, she considers topics such as: * sodomy * theatre * masculinity * the symbolism of Britannia * the role of women in war. Wilson shows the far-reaching implications that colonial power and expansion had upon the English people's sense of self, and argues that the vaunted singularity of English culture was in fact constituted by the bodies, practices and exchanges of peoples across the globe. Theoretically rigorous and highly readable, *The Island Race* will become a seminal text for understanding the pressing issues that it confronts.

Island Race

'Oh what a wonderful, heart breaking, stunning, beautiful story. This touched my heart, made me cry. Beautifully written. A masterpiece.' NetGalley reviewer St Lucia, 28 July 1961. The day my father and mother boarded a ship called the Carlotta C. The day my story began, the day my truth started to disappear... When Yvette receives a call saying her estranged father, Joe, is fighting for his life in hospital, she rushes to his side. She's determined to have him back in her life and to forgive him for walking out on her and her mother so many years ago. But when she arrives she doesn't find the larger-than-life father she remembers. Joe seems broken; haunted by the past. So, when he begs

Yvette to help him find the truth, she knows she must... Since stepping off the ship that brought him with Yvette's mother, Doli, from the sunny, picturesque island of St. Lucia, with its tranquil Caribbean seas and air fragrant with the scent of tropical fruits, to start new lives in a cold and unwelcoming Britain, Joe has carried a dark secret. For years, he's believed he might have killed a man on the ship. A man who had had feelings for Doli too. A man who could perhaps help Yvette answer questions she didn't even know needed answering. When she asks her mother for help with tracking him down, Doli is uncharacteristically quiet. Yvette wonders if finding the truth might break their relationship, but she can't stop; daren't let her papa down. As she sorts through old passports and shipping records, Yvette knows she has to unravel this secret history of love and betrayal, loyalty and sacrifice. Will uncovering the truth tear their fragile family apart or bring them back together? A heart-stopping debut novel about family, identity, secrets, lies, and the journeys that define us. Perfect for fans of *Small Island* and *Girl, Woman, Other*. Readers are loving *This Other Island*: 'A beautiful debut... I was immediately swept up in the story and was totally captivated... There is so much to love about this book, it's heart-breaking at times, uplifting at others, and just so beautifully written. A stunning read about family, about home and about love, I enjoyed it from start to finish and didn't want it to end.' Sibbz Reads 'What a beautiful book! I enjoyed the heck outta this one! The writing was flawless. Characters amazing! I loved the setting! I just absolutely adored this one.' Goodreads reviewer 'A powerfully written and deeply affecting debut novel about love, family and identity readers won't forget in a hurry... A heart-wrenching and beautifully layered page-turner that is thought-provoking, immensely emotional and highly charged... Will break readers' hearts and have them crying their eyes out.' Bookish Jottings 'This Other Island is a beautiful debut novel – masterfully written and enchanting... Brought me to tears.' Goodreads reviewer, 5 stars 'Fascinating... A beautiful story that captures your attention and your heart from beginning to end.' Victoria Wilks 'An emotional rollercoaster... Thought provoking... There were times where I laughed, others where I was quite shocked and others where I was tearful so this is definitely a roller coaster ride of thoughts and emotions... Overall an emotionally charged novel that will keep you hooked throughout.' Bookworm86

The Island Race

Although eugenics is now widely discredited, some groups and individuals claim a new scientific basis for old racist assumptions. Pondering the continuing influence of racist research and thought, despite all evidence to the contrary, Robert Sussman explains why—when it comes to race—too many people still mistake bigotry for science.

The Island Race

This book revolutionises our understanding of race. Building upon the insight that races are products of culture rather than biology, Colin Kidd demonstrates that the Bible - the key text in Western culture - has left a vivid imprint on modern racial theories and prejudices. Fixing his attention on the changing relationship between race and theology in the Protestant Atlantic world between 1600 and 2000 Kidd shows that, while the Bible itself is colour-blind, its interpreters have imported racial significance into the scriptures. Kidd's study probes the theological anxieties which lurked behind the confident facade of white racial supremacy in the age of empire and race slavery, as well as the ways in which racist ideas left their mark upon new forms of religiosity. This is essential reading for anyone interested in the histories of race or religion.

The island race

This is the first book to examine Britain's geopolitical identity and how it is expressed in foreign policy discourse. It demonstrates how British imperial thought, related to its island status, has remained important for British Members of Parliament in their debates of contemporary issues. It presents an exciting and provocative new reading of modern British foreign policy that decentres traditional notions of rationalism and pragmatism by foregrounding the much-neglected aspects of identity and geopolitical space. As British foreign policy-makers wrestle with how to define Britishness outside of the EU, this analysis provides a fresh perspective. It presents a much-needed historical contextualisation of

long-standing concepts such as insularity from Europe and a universal aspect on world affairs. This book will be highly relevant for students, researchers and professionals that are seeking to understand British foreign policy. It will be of interest to those researching and working within geopolitics, identity, sociology, foreign policy analysis and international relations.

The Island Race. (An Abridgement by Timothy Baker of the Four Volumes of A History of the English-speaking Peoples.- Reissued.).

The Isle of Man TT - the world's most dangerous race - as seen through the eyes of Cummins, Martin, McGuinness and Dunlop. THAT NEAR DEATH THING is a life-affirming journey to the heart of the world's most dangerous race. The Isle of Man TT is a throwback to a maverick era that existed before PR platitudes and PC attitudes. WILLIAM HILL SPORTS BOOK OF THE YEAR-shortlisted author Rick Broadbent gets inside the helmets of four leading motorcycle racers as they battle fear, fire and family tragedy for a gritty sort of glory. Guy Martin is a tea-drinking truck mechanic and TV eccentric who 'sucks the rabbits out of hedges', but must now deal with the flipside of fame; Conor Cummins is the local hero facing a race against time as he battles depression and a broken body after falling down the mountain; John McGuinness is the living legend fending off the ravages of middle-age for one last hurrah; Michael Dunlop is the wild child living with one of the most remarkable legacies in sport. They tell their astonishing stories in a book that provides the most rounded, intimate, behind-the-scenes account yet of the last great race. Rick Broadbent has delivered the final word on the Isle of Man TT, one that really gets to grips with an event that continually pulls unsung riders and fans back year after year to witness That Near Death Thing.

Hebridean Altars

A child is kidnapped with consequences that extend across worlds... A writer reaches into the past to discover the truth about a possible murder...
