The Tale of Master Egor

Goncharov's novels have been popular in Russia since their publication, and Oblomov, the central character of his most famous novel, has become the prototype of a fat and lazy man. Milton Ehre offers new interpretations of the complex personality of Goncharov and shows how in many ways Oblomov was a self-portrait of his creator. The introductory chapter neither idealizes Goncharov nor glosses over his weaknesses but shows a sensitive understanding of this major nineteenth-century Russian writer. The author goes beyond the standard critical clichés about Goncharov to a contemporary reading of his entire artistic production. Proceeding from the assumption that meanings in art are intimately related to forms, he discusses Goncharov's works with close attention to style, structure, and distinctions of genre, to arrive at an understanding of Goncharov's themes and his view of experience. Milton Ehre's extensive knowledge of the Russian literature on Goncharov and his own literary sensitivity combine to provide a new understanding of Goncharov and his novels. Originally published in 1974. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Tale of Master Egor

A wildly prolific director, actor, and writer, Vasilii Shukshin (1929-74) reached more Soviets in more media than perhaps any other artist in the post-Stalinist USSR. This first English-language study of Shukshin and his work is thus a portrait of the culture of Soviet Russia after Stalin. John Givens begins with Shukshin's position between cultural realms and social strata: his abandoned peasant heritage in Siberia as the son of a purged kulak on the one hand and his life as a successful artist in Moscow on the other. Givens shows how this clash of cultures and identities was both a burden and the driving force of Shukshin's art and how it represents a central dichotomy between rural and urban culture in Soviet Russia. This work provides new terms for rereading the culture of Shukshin's time- terms that take up notions of demographic displacement, class difference, and blurred boundaries among genres, audiences, and arts.

The Friend of the Family

Russian rural women have been depicted as victims of oppressive patriarchy, celebrated as symbols of inherent female strength, and extolled as the original source of a great world culture. Throughout the years of collectivization, industrialization, and World War II, women played major roles in the evolution of the Russian village. But how do they see themselves? What do their stories, songs, and customs reveal about their values, desires, and motivations? Based upon nearly three decades of fieldwork, from 1983 to 2010, *The Worlds of Russian Rural Women* follows three generations of Russian women and shows how they alternately preserve, discard, and rework the cultural traditions of their forebears to suit changing needs and self-conceptions. In a major contribution to the study of folklore, Laura J. Olson and Svetlana Adonyeva document the ways that women's tales of traditional practices associated with marriage, childbirth, and death reflect both upholding and transgression of social norms. Their romance songs, satirical ditties, and healing and harmful magic reveal the complexity of power relations in the Russian villages.

The Master

In Edgar Allan Poe's "The Masque of the Red Death\

Oblomov and his Creator

This book proposes that the idea of the Jews in European cultures has little to do with actual Jews, but rather is derived from the conception of Jews as Christianity's paradigmatic Other, eternally reenacting their morally ambiguous New Testament role as the Christ-bearing and -killing chosen people of God. Through new readings of canonical Russian literary texts by Gogol, Turgenev, Chekhov, Babel, and others, the author argues that these European writers—Christian, secular, and Jewish—based their representation of Jews on the Christian exegetical tradition of anti-Judaism. Indeed, Livak disputes the classification of some Jewish writers as belonging to "Jewish literature," arguing that such an approach obscures these writers' debt to European literary traditions and their ambivalence about their Jewishness. This work seeks to move the study of Russian literature, and Russian-Jewish literature in particular, down a new path. It will stir up controversy around Christian-Jewish cultural interaction; the representation of otherness in European arts and folklore; modern Jewish experience; and Russian literature and culture.

Tales of the Master

"the Steppe and other Stories", a collection is among the first of Chekhov's works to be published in a serious literary journal. The majority of tales in this collection focus on the issues faced by privileged class. The narration shows that the author never left his roots, being the son of an unsuccessful provincial grocer greatly influenced his writings. Interesting!

The Master

"New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries, and covering the period from 1850 to the present, *New Makers* includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. With its global reach, *New Makers of Modern Culture* provides a multi-voiced witness of the contemporary thinking world. The

entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms."--Publisher's description

The Master

New Makers of Modern Culture will be widely acquired by both higher education and public libraries. Bibliographies are attached to entries and there is thorough cross- referencing.

Master

Christian mission involves God, the missionary, and the other, the recipient of mission. This book argues for the centrality of this other in the practice of mission. The other as child of God is presented, not as an empty vessel waiting to be filled, but as the one who draws near to the missionary. Both are sent by God, and together they enter into the journey towards God. Drawing on Scripture, contemporary missiology, and phenomenology, the book argues for the importance of this often neglected other and demonstrates through historical case studies involving Saint Ignatius of Loyola, William Carey, and Saint Innocent of Alaska that the recognition of the gift of the other has always been present in Christian mission and can continue to inspire.

A Grand Master's Tale

This is the first book to explore the phenomenon of glamour and celebrity in contemporary Russian culture, ranging across media forms, disciplinary boundaries and modes of inquiry, with particular emphasis on the media personality. The book demonstrates how the process of 'celebrification' in Russia coincides with the dizzying pace of social change and economic transformation, the latter enabling an unprecedented fascination with glamour and its requisite extravagance; how in the 1990s and 2000s, celebrities - such as film or television stars - moved away from their home medium to become celebrities straddling various media; and how celebrity is a symbol manipulated by the dominant culture and embraced by the masses. It examines the primacy of the visual in celebrity construction and its dominance over the verbal, alongside the interdisciplinary, cross-media, post-Soviet landscape of today's fame culture. Taking into account both general tendencies and individual celebrities, including pop-diva Alla Pugacheva and ex-President and current Prime Minister Vladimir Putin, the book analyses the internal dynamics of the institutions involved in the production, marketing, and maintenance of celebrities, as well as the larger cultural context and the imperatives that drive Russian society's romance with glamour and celebrity.

The Worlds of Russian Village Women

Maxim Gorky was dubbed the father of socialist realism in the Soviet period, but he had forged his career as an internationally known novelist and dramatist some three or more decades earlier. Posing questions that Soviet critics found difficult to confront, the author examines the effects of exile and religion on the content and form of the plays as well as the role played by women, and the personal and political implications of motherhood. All sixteen of Gorky's published plays are covered, and the book explores whether this body of work has themes and styles to unify it. While conflict is central to the core political themes and also infiltrates many aspects of the dramatic style (cartoonish and grotesque), other less expected themes and styles emerge. Viewing the post-revolutionary plays as a development of earlier work leads to a question rarely posed: are the plays written by Gorky in the process of defining the new Party-inspired socialist realism in fact less about socialist realist issues of conformity, and more about Gorky's own painful life experience? And what is equally under the microscope is a search for the monumental style frequently associated with socialist realist theatre: the proposed origins of the spatial grandeur in Gorky's plays come as a surprise.

The Masque of the Red Death

Russian and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein, Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky, and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit, but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational (Eurasian) character: while Russian cinema was the largest, other national cinemas such as Georgian, Kazakh, and Ukrainian played a decisive role for Soviet cinema as a whole. The Historical Dictionary

of Russian and Soviet Cinema provides a rich tapestry of factual information, together with detailed critical assessments of individual artistic accomplishments. This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology, an introduction, and a bibliography. The dictionary section has over 600 cross-referenced entries on directors, performers, cinematographers, composers, designers, producers, and studios. This book is an excellent access point for students, researchers, and anyone wanting to know more about Russian and Soviet Cinema.

The Jewish Persona in the European Imagination

Kate Blackwell is the symbol of success—a beautiful woman who has parlayed her inheritance into an international conglomerate. Now, celebrating her 90th birthday, Kate surveys the family she has manipulated, dominated, and loved: the fair and the grotesque, the mad and the mild, the good and the evil—her winnings in life.

One Day in the Life of Ivan Denisovich

A Library Journal Best Book of 2015 A NPR Great Read of 2015 The Internet in Russia is either the most efficient totalitarian tool or the device by which totalitarianism will be overthrown. Perhaps both. On the eighth floor of an ordinary-looking building in an otherwise residential district of southwest Moscow, in a room occupied by the Federal Security Service (FSB), is a box the size of a VHS player marked SORM. The Russian government's front line in the battle for the future of the Internet, SORM is the world's most intrusive listening device, monitoring e-mails, Internet usage, Skype, and all social networks. But for every hacker subcontracted by the FSB to interfere with Russia's antagonists abroad -- such as those who, in a massive denial-of-service attack, overwhelmed the entire Internet in neighboring Estonia -- there is a radical or an opportunist who is using the web to chip away at the power of the state at home. Drawing from scores of interviews personally conducted with numerous prominent officials in the Ministry of Communications and web-savvy activists challenging the state, Andrei Soldatov and Irina Borogan peel back the history of advanced surveillance systems in Russia. From research laboratories in Soviet-era labor camps, to the legalization of government monitoring of all telephone and Internet communications in the 1990s, to the present day, their incisive and alarming investigation into the Kremlin's massive online-surveillance state exposes just how easily a free global exchange can be coerced into becoming a tool of repression and geopolitical warfare. Dissidents, oligarchs, and some of the world's most dangerous hackers collide in the uniquely Russian virtual world of The Red Web.

The Firebird and the Fox

In 1992, a group of talented young people decided to investigate the mysterious Patomskiy crater in the middle of Siberia, on the border between Russian main gold mining area and diamond fields. They planned to have it easy, but the post-USSR reality brought quite unexpected turn of events. More about Patomskiy crater on www.nicksamoylov.com

The Living Age

Semyon is disturbed. He has woken up in the living room with blood on his shirt, an angry wife and no idea where he was the night before. After waking to find his boots and overcoat damp on several mornings in a row, Semyon realises his excursions are a nightly occurrence.

The great master of farce turns to an exclusive island retreat for a comedy of mislaid identities, unruly passions, and demented, delicious disorder On the private Greek island of Skios, the high-paying guests of a world-renowned foundation prepare for the annual keynote address, to be given this year by Dr. Norman Wilfred, an eminent authority on the scientific organization of science. He turns out to be surprisingly youthful, handsome, and charming—quite unlike his reputation as dry and intimidating. Everyone is soon eating out of his hands. So, even sooner, is Nikki, the foundation's attractive and efficient organizer. Meanwhile, in a remote villa at the other end of the island, Nikki's old friend Georgie has rashly agreed to spend a furtive horizontal weekend with a notorious schemer, who has characteristically failed to turn up. Trapped there with her instead is a pompous, balding individual called Dr. Norman Wilfred, who has lost his whereabouts, his luggage, his temper, and increasingly all sense of reality—indeed, everything he possesses other than the text of a well-traveled lecture on the scientific organization of science. In a spiraling farce about upright academics, gilded captains of

industry, ambitious climbers, and dotty philanthropists, Michael Frayn, the farceur "by whom all others must be measured" (CurtainUp), tells a story of personal and professional disintegration, probing his eternal theme of how we know what we know even as he delivers us to the outer limits of hilarity.
