A Witches' Bible

"A great reference that explains the ins and outs of one of the oldest recognized traditions in Wicca . . . a marvelous find" (Hermetic Library). Everything is here in this most comprehensive and revealing work on the principles, rituals and beliefs of modern witchcraft, including: The Sabbats, Casting & Banishing the Magic Circle, The Complete Book of Shadows, The Great Rite, Initiation Rites, Consecration Rites, Spells, Witches' Tools, Witchcraft & Sex, Running a Coven, Clairvoyance, and Astral Projection. A Witches' Bible is part of The Paranormal, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft. "A very good overview and outline of how formal covens work, the structure behind them and a basic framework for these Rites within Gardnerian Wicca . . . this book alone can help those interested in this Path in completely avoiding the mass produced, watered down dreck that passes for mainstream witchcraft books." —ombre-portee.com

The Witches' Way

The most comprehensive and revealing work on the practices, rituals and beliefs of modern witchcraft since Gerald Gardner's influential but unpublished 'Book of Shadows' triggered the revival movement in the 1950s. The authors explain what Gardner's text actually was, how he used it, and, as far as possible, what his sources were. The book goes on to give in full the first, second and third degree initiation rites, the consecration rites, and the many non-ritual passages of the 'Book of Shadows'. The rest of the book explains what the Craft is all about, covering everything from the rationale of witchcraft to reincarnation; from ethics to sex; from symbolism to spells; from astral projection to psychic healing; from clairvoyance to witchcraft's place in today's world.

Spells and How They Work

The ethical way to perform healing spells, love spells, weather spells, sex magic, and more—from the authors of *A Witches' Bible*. This book covers all aspects of spell-making—including psychic self-defense, sex magic, cabalistic magic, and talismans. There is a generous collection of actual spells, past and present, drawn from history, literature, folklore, old grimoires, and the years of experience of the authors, respected Wiccans and leaders in the pagan world. *Spells and How They Work* is part of *The Paranormal*, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

A Witches' Bible

Dramatic rituals for the seasonal ceremonies and festivals linked with the waxing and waning of the natural year.

Eight Sabbats for Witches, and Rites for Birth, Marriage, and Death

From the best-known authors on witchcraft, a three-part reference for discovering and celebrating the Female Principle of Divinity. *The Witches' Goddess* is of great practical value in discovering and celebrating the transforming energy of the Female Principle of Divinity. A companion to *The Witches' God*, this is an important, three-part work by the Farrars, providing an in-depth exploration of the Goddess in her many aspects at a time when Western Culture is awakening to the influence of Feminine Divinity, both individually and collectively. In part one, they outline the numerous faces of the Goddess: her presence throughout history, her Earth and Moon symbolism, her Madonna and Magdalene disguises, her revelation in Woman, and her influence today. In part two, they examine thirteen goddesses from history, including Ishtar, Isis, Hecate, and Aphrodite, and offer rituals for invoking them. Part three is a comprehensive dictionary of more than 1,000 goddesses from cultures all over the world and throughout time. Each section features helpful line drawings, diagrams, and photographic illustrations. *The Witches' Goddess* is part of *The Paranormal*, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

The Witches' Goddess

Winner at the 2012 International Latino Book Awards. An entertaining and bewitchingly illustrated guide that will delight those who dare to venture into the mysterious witches world. Three days ago, my brother and I received the most mysterious letter from Aunt Amarga: "Dear niece and nephew, There's not much time left... Do you want to learn everything you've ever wanted to know but have never before known because nobody has ever known? In short: Do you want to know if witches really exist?" Being a witch is hard work, especially because they have to keep it a secret all the time! Being evil, flying in those impossible broomsticks, mixing all kind of plants together to create the perfect evil potions and spells... it is an enduring task! Aunt Amarga is a witch, and probably the only one left. That is why she decides to share this *Witches Handbook* with her nephews, so that all the all-time secrets of witches don't go along with her! Readers of all ages will laugh along as they learn everything about the magic world of witches. Read the first pages right here:

Witches Handbook

From the best-known authors on witchcraft, a three-part reference for discovering and celebrating the Masculine Principle of Divinity. A companion to the Farrars' *The Witches' Goddess*, this volume documents the ancient balance between God and Goddess. In part one, they explore the numerous faces of God throughout history: the Anti-God, the Son/Lover God, the Vegetation God, the War God, and more. In part two, they examine twelve gods from history and feature an invoking ritual for each god. Finally, part three offers a comprehensive dictionary with over 1,000 gods from cultures all over the world and throughout time. With over 30,000 copies sold, this title is likely to become the standard work on the masculine god aspect. *The Witches' God* is part of *The Paranormal*, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

The Witches' God

Behind-the-scenes description of what witches really do. It describes the ancient rituals in a candid and comprehensive way as seen through the eyes of a practicing witch and member of an active coven. In this account, the author explores the fundamental beliefs and symbology of Witchcraft, presenting the time-honored texts of its rituals and invocations, and describing exactly what happens as his own coven's esbats (meetings), sabbats (festivals), and handfasting (marriage) ceremonies. Stewart Farrar also outlines the way witches raise and apply psychic power to release the forces of healing and protection, etc.

What Witches Do

Cunningham's classic introduction to Wicca is about how to live life magically, spiritually, and wholly attuned with nature. It is a book of sense and common sense, not only about magick, but about religion and one of the most critical issues of today: how to achieve the much needed and wholesome relationship with our Earth. Cunningham presents Wicca as it is today: a gentle, Earth-oriented religion dedicated to the Goddess and God. Wicca also includes Scott Cunningham's own Book of Shadows and updated appendices of periodicals and occult suppliers.

The Inner Mysteries

This book combines the powerful, seductive allure of casting real spells with pragmatic, down-to-earth, do-it-yourself guidance.

A Witches Bible

The Paranormal, the new ebook series from F+W Media International Ltd, resurrecting rare titles, classic publications and out-of-print texts, as well as new ebook titles on the supernatural -- other-worldly books for the digital age. The series includes a range of paranormal subjects from angels, fairies and UFOs to near-death experiences, vampires, ghosts and witchcraft. Everything is here in this most comprehensive and revealing work on the principles, rituals and beliefs of modern witchcraft, including: The Sabbats, Casting and Banishing the Magic Circle, The Complete Book of Shadows, The Great Rite, Initiation Rites, Consecration Rites, Spells, Witches' Tools, Witchcraft and Sex, Running a Coven, Clairvoyance, and Astral Projection.

Real Witches' Book of Spells and Rituals

Written to fill an existing gap in the current available knowledge on trance, prophesy, deity-possession, and mediumship within the neo-Pagan and Wiccan communities, *Lifting the Veil* was developed from Janet Farrar and Gavin Bone's personal work and public workshops on trance-prophesy and ecstatic ritual over the last 20 years. The book covers the history and modern practice of trance as well as the methods of practice, including ecstatic ritual, drawing down the moon, sex magic, and working with the spirits of the dead. It also explores the Four Keys, which include the importance of understanding mythical cosmology and psychology, understanding the role of energy in trance, the nature of spirits and deity, and understanding what trance is and the techniques involved. Because trance-prophesy is a very subjective process, the book includes descriptions of the personal experiences of others and transcriptions from several independent sessions by modern seers and priestesses.

A Witches' Bible

A guide to psychic self-defense and protection magick that includes instruction on forming protection shields, creating protection spells and rituals, and connecting with guardian spirits, angels, power animals, and patron deities.

Lifting the Veil

High Priestess is a fascinating account of a witch's life as a High Priestess of the Great Goddess. Patricia verifies the Craft's system of Degrees by providing proof of their usage in ancient times and gives startling evidence concerning the long-standing enigma of how Alex Sanders obtained the Book of Shadows, which he incorporated into his own brand of witchcraft. One of the most interesting parts of the book is her recollections of her friendships with occultists and witches such as William Gray, R. J. Stewart, Ray Bone, Ruth Wynn-Owen, and, of course, Gerald Gardner.

The Witch's Shield

There are no short-cuts to becoming a Witch. Traditionally, students take a year and a day to prepare for their initiation into the Craft. Based on this age-old custom, *Wicca: A Year and a Day* is a one-of-a-kind daily guide that introduces Witchcraft over a 366-day cycle. Ideal for solitary students, this intensive study course teaches the core content of Wiccan practice: the tides of time, the wonders of the seasons, the ways of herbs and magic, the mysticism of the Old Ones, and the inner disciplines of seers and sages. Daily lessons include exercises, Wiccan theology and lore, and discussions relating to circle work, magical correspondences, holidays, deities, tools, healing, and divination.

High Priestess

America's most renowned Wiccan shares the beliefs and practices of this sacred feminine spirituality in an introductory book. Welcome to the oldest spiritual tradition in the world. One of the first Wiccan Priestesses to 'come out of the broom closet,' Phyllis Curott has forever changed the perception of Wicca in the Western world. In this book, Phyllis re-introduces the life-sustaining wisdom and techniques that will connect you to the Divine and to the love, abundance and spiritual wisdom of Mother Earth. You'll learn how to: attune your body, mind and spirit to Nature's rhythms to create a life of harmony, peace and fulfillment enter spirit realms and work with spirit guides, power animals and spirits of place for guidance and healing cast gorgeous spells and create sacred spaces and altars to nourish your soul practice empowering lunar and Sabbat rites to experience divine communion embody your spirit, empower your purpose and manifest your gifts This engaging and inspiring book will open your heart, your mind and your spirit to the Sacred around and within you. It's time to awaken your life to its divine magic!

Wicca: A Year and a Day

The Classic Study of the Occult Reintroduced in a 50th Anniversary Edition *The Black Arts* is a fascinating and wonderfully readable exploration of the practice, theory, and underlying rationale of magick and occultism in all its branches, including witchcraft, spells, numerology, astrology, alchemy, kabbalah, tarot, charms, and summoning and control of spirits. This edition features a 50th anniversary introduction by historian of alternative spirituality Mitch Horowitz, who frames the book for a new generation of readers.

Wicca Made Easy

A bewitching and authoritative historical overview of magic in the British Isles, from the ancient peoples of Britain to the rich and cosmopolitan landscape of contemporary paganism. "An absolute must for anyone interested in the development of paganism in the modern world. I cannot recommend this book enough."—Janet Farrar, coauthor of *A Witches' Bible* "At last, we have a history of British Paganism written from the inside, by somebody who not only has a good knowledge of the sources, but explicitly understands how Pagans and magicians think."—Ronald Hutton, author of *The Triumph of the Moon* and *The Witch* What do we mean by "paganism"—druids, witches, and occult rituals? Healing charms and forbidden knowledge? *Miracles of Our Own Making* is a historical overview of pagan magic in the British Isles, from the ancient peoples of Britain to the rich and cosmopolitan landscape of contemporary paganism. Exploring the beliefs of the druids, Anglo-Saxons, and Vikings, as well as Elizabethan Court alchemy and witch trials, we encounter grimoires, ceremonial magic, and the Romantic revival of arcane deities. The influential and well-known—the Golden Dawn, Wicca, and figures such as Aleister Crowley—are considered alongside the everyday "cunning folk" who formed the magical fabric of previous centuries. Ranging widely across literature, art, science, and beyond, Liz Williams debunks many of the prevailing myths surrounding magical practice, past and present, while offering a rigorously researched and highly accessible account of what it means to be a pagan today.

Magus leaves circle by the doorway, goes to Postulant, and says, "Since there is no other brother here, I must be thy sponsor, as well as priest. I am about to give you a warning. If you are still of the same mind, answer it with these words: 'Perfect Love and Perfect Trust.'" Placing the point of the sword to

the Postulant's breast, he says, "O thou who standeth on the threshold between the pleasant world of men and the domains of the Dread Lords of the Outer Spaces, hast thou the courage to make the Assay? For I tell thee verily, it were better to rush on my weapon and perish miserably than to make the attempt with fear in thy heart." Postulant: "I have two Passwords: Perfect Love and Perfect Trust." Magus drops the sword point, saying, "All who approach with perfect love and perfect trust are doubly welcome." Going around behind her, he blindfolds her, then putting his left arm around her waist and his right arm around her neck, he pulls her head back, says, "I give you the 3rd password, a Kiss to pass through this dread Door," and pushes her forward with his body, through the doorway and into the circle. Once inside, he releases her saying, "This is the way all are first brought into the circle." Magus closes the doorway by drawing the point of the sword across it three times, joining all three circles, saying, "Aglá, Azoth, Adonai," then drawing three pentacles to seal it. Magus guides Postulant to south of altar, and whispers, "Now there is the Ordeal." Taking a short piece of cord from the altar, he ties it around her right ankle, saying, "Feet neither bound nor free." Taking a longer cord, he ties her hands together behind her back, then pulls them up, so that the arms form a triangle, and ties the cord around her neck, leaving the end dangling down in front as a Cable Tow. With the Cable Tow in his left hand and the sword in his right hand, the Magus leads her sunwise around the circle to the east, where he salutes with the sword and proclaims, "Take heed, O Lords of the Watchtowers of the East, (name), properly prepared, will be made a Priestess and a Witch." Magus leads her similarly to the south, west, and north, making the proclamation at each quarter. , clasping Postulant around the waist with his left arm, and holding the sword erect in his right hand, he makes her circumambulate three times around the circle with a half-running, half-dancing step. He halts her at the south of the altar, and strikes eleven knells on the bell.

Updated Framework for Estimated Unmet Need for HIV Primary Care - Updated Framework for Estimated Unmet Need for HIV Primary Care by Ryan White HIV/AIDS Program TargetHIV 350 views 3 years ago 1 hour, 17 minutes - Introduction to the updated Unmet Need Framework for Ryan White **HIV/AIDS**, Program (RWHAP) Part A and B recipients.

Training Objectives • Discuss the background of the Unmet Need requirement and how the new Methodology was selected • Highlight changes to the Unmet Need Framework • Identify key compo-

nents of the required estimates and analyses • Discuss how RWHAP Part A and Part B recipients can prepare for implementation • Discuss available tools and TA resources

Metrics for Measuring Unmet Need: Original • Unmet Need for HIV primary medical care-no evidence of any of the following three markers of HIV primary medical care during a defined 12-month time frame

Unmet Need Reporting Over Time RWHAP Part A and B recipients were required to provide formal estimates in FY 2005 applications • 2016: RWHAP Part A recipients required to include methodology based upon the HIV care continuum . In care' was defined as having two or more of the following indicators, each at least three months apart over a calendar year: Documented medical visit: VL test; or CD4 test • Estimates of Unmet Need increased using this new definition

Reporting Unmet Need Estimates and Analyses HRSAHAB FY 2022 Submission Requirements • Beginning in FY 2022, RWHAP Part A and Part B recipients will be required to submit Unmet Need estimates as part of the application in response to the Notice of Funding Opportunity (NOFO) - Required Reporting Templates will be submitted as

PTEP Input and Moving Forward with Revising the Methodology • HRSA HAB convened a Program Technical Expert Panel (PTEP) in 2017 for the purposes of - Obtaining input on utility of past & possible future Unmet

Completed systematic review of historical models and approaches for estimating Unmet Need for HIV primary medical care

Unmet Need Framework What's Different from the Original Methodology • HIV surveillance data uses people living with diagnosed HIV infection does not separate HIV non-AIDS and AIDS • 5-year recent cohort utilized for population size rather than all people with HIV Adds elements for late diagnoses and in care, not virally suppressed

Optional Calculation Tables Overview . There are two optional calculation tables for use with HIV surveillance data - Table 1A-Late diagnoses, Population Size, Care Patterns

Updated Unmet Need Framework Enhanced Estimates and Analyse • Meets the minimum Unmet Need requirement and includes additional analyses and estimates • Uses HIV surveillance and RWHAP data . Can be completed using linked databases . Includes the three main components for the required estimates plus - Unmet Need for RWHAP clients

Collaboration between RWHAP Part A and Part B . What is the current access to HIV surveillance data? - Is client-level data available or only aggregate data? - How much lead time does the HIV surveillance program

SAS program (analytic software) is being developed by CDC to help jurisdictions analyze their HIV surveillance data - Unmet need estimates require use of HIV surveillance data - CDC routinely develops SAS programs for HIV surveillance

Poll #3: Unmet Need On the basis of today's training, which of the following best reflects immediate next steps for Unmet Need (choose all that apply) Review the materials on the TargetHIV website and identify

Implementation/ Jurisdiction Specifics Please type responses in the chat: . What are your main challenges in completing the Unmet Need estimates? • What existing resources are available to help you meet these challenges? What new resources will you need?
