Dilated Cardiomyopathy linked to diet
Not commonly diagnosed except certain breeds, Dobermans
primary genetic
it contains potassium replacing what is lost with diuretics
Carnitine 50-100mg/kg twice daily esp Boxers, Cocker Spaniels
Both taurine and carnitine need to be given for 3-4 months
Coenzyme Q10 5mg/10lbs twice daily
very helpful for people with Cardiomyopathy
difficult disease to treat, especially if genetic, better response if linked to food.

Rupert Spira: Non-Dualism, God, & Death - Rupert Spira: Non-Dualism, God, & Death by Theories of Everything with Curt Jaimungal 223,488 views 2 years ago 4 hours, 44 minutes - THANK YOU: Cooper Sheehan and Henry Hoffman-Bakoussis for formatting the audience questions. TIMESTAMPS: 00:00:00 ...

Introduction

Overview of non-dualism

Experience vs consciousness vs awareness

In ignorance, I am something. In understanding, I am nothing. I love, I am everything.

Discovering "you" by taking off your thoughts and perceptions

Meditative exercise to see union between the self and the world

Can you be aware of not being aware?

Why can there only be "one" consciousness?

Consciousness as fundamental. Not matter

Why does infinite consciousness need to become finite?

There no real "things"

Definition of enlightenment

Are atheists / materialists lying when they say they have peace?

It's okay for your body's pain to not have caught up to your mind's peace

The nature of consciousness is happiness

Logos

Donald Hoffman and Bernardo Kastrup

Psychedelics

Consciousness as "love" requires subtlety to understand

Love, truth, and beauty are the same, but depend on the path one takes

Psychological suffering is veiled happiness

Some truths will break you at your core

New age is missing the malicious element of humanity

Rupert's distinctive manner of speech

Does infinite consciousness "speak" to us?

Why does suffering exist? Why does it have to be so drastic?

"Overlapping consciousness" and the objective world

Materialists don't disagree with non-dualism

Curt's "fractal" theory of reality and the extremization of a parameter unifying with its opposite

Iain McGilchrist, the bihemispheric model, and fractals

On death, and continuing on

Science 2.0 ("abhiagnosis" as Curt calls it)

[Hubur Galula] Does Rupert still get overwhelmed with emotions / attached to objects or people?

Functional vs dysfunctional attachments (co-dependence)

[Inannahimsey] Rupert, is there any emotion that isn't valid?

[Rebecca Briggs] Ego and shadow work in the non-dual recognition tradition?

Why are we separate at all? Why are these truths something we have realize?

Descartes was wrong, or right?

The East vs The West (the East was first to non-dualism)

Rupert Spira interprets the Prodigal son with non-dualism

Prayer in the West vs meditation in the East

Does infinite consciousness suffer? Does it lack?

No background necessary to realize the insights of non-dualism

[DIYCraftq] What happens when you die in your model vs. Rupert Sheldrake's model?

Where to find out more about Rupert Spira

The Austro-Prussian War

It is very evident that all the major powers were readily prepared for it. Germany attempted first to invade France through Belgium and Luxembourg which forced Belgium to defend itself though it had wanted to remain neutral which encouraged British involvement. Germany surrounded by enemies wanted to achieve victory as quickly as possible though fighting on two fronts. Things initially were going well for Germany but at the first battle of the Marne they were prevented from reaching Paris very quickly though violence continued territorially. It stagnated as both sides dug into defensive positions across the entire border leading to the infamous trench warfare. Germany's colonies in Asia poorly prepared for war quickly fell to Japan and British forces from Australia and New Zealand. However, the African colonies war raged on a war that was supposed to be over by Christmas with a glorious German victory was now clearly going to drag on into 1915. Germany was strained not only by fighting on two fronts.

The allies initiated one final push against Germany and though the central powers fought fiercely by November 11th the war was over. Germany had to surrender despite the fact that the war lasted only four years. It was essentially the most destructive conflict in human history up to that point. Estimates vary but perhaps around 18 million people were killed with the subsequent Treaty of Versailles in June of 1919 the Austrian and Ottoman empires were completely dissolved and broken up into multiple other states. Germany too would have to make serious concessions. Firstly its overseas colonies were annexed by Britain and France. Its mainland territory was divided into new nations or given to France. The army was drastically reduced in size and accepted responsibility for the war and was expected to pay reparations.

It had been the most destructive conflict in world history and remains so to this day with 60 million people or around 3 percent of the world's population having been killed including 7 million Germans. Following the war German territory was divided among the allies. Poland was permanently given many of the areas of the historic Russian Empire. The militarism of Prussia was seen as the driving force of the German militarism which had caused the world wars and in fact Hitler had idolized Friedrich the Great. Thus it was seen as wise to stamp out its image. Russia occupied the east of the nation as well as territory near the city of Königsburg. The French occupied the southwest.
