An Italian Family History

An Italian Family History is the story of the Baccigaluppi, Lagomarsino, Zuchelli, Prosser and Bonadiman families as they made their way from an impoverished 19th century Europe to a new world. We follow their journey at a time of great change throughout the world. The home they left behind was a land unified by language, divided between the French and Austrian Governments, as well as the Kingdom of Sardinia. They arrived to find the United State divided by Civil War. These were people of big dreams who strove to make more out of life. Early pioneers, these families can be traced back to the early Italian settlements of Nevada, San Antonio, Los Angeles, and Colma.

The House that Giacomo Built

In addition to being a compelling family story, the book also vividly shows how extended families, like the one established by Giacomo and Maria, seem to defy the widely held beliefs concerning the alleged disintegrative effects of industrialism and consequent prosperity on family organisation.

The Family in Italy from Antiquity to the Present

This uniquely comprehensive study of the Italian family first conceptualizes family structure as a complex topic involving historical, political, economic, sociological, and psychological variables. It relates national and regional statistics to information from two families comprised of some one hundred fifty households. Esposito supports the hypothesis that at least from the late eighteen hundreds to the early nineteen eighties the Italian family was extended. The extendedness of the Italian family affected not only the economics and politics of Italy, but also the migration and assimilation of Italians into host countries.

Nonno, Tell us a Story by Pietrantonio Lombardi is a delightful memoir of a young boy's life begun in the postwar Molise region of Italy and transformed when he immigrates to the United States just as he reaches adolescence. Real life episodes, from the town of Pagliarone/Villa San Michele to the city of Denver, are set against a backdrop of Italy's history, art, folklore, and sports world. Often poignant and more often humorous, this portrait of family love throughout its struggles and successes in two worlds is as different from other books of this type as are the people who live and write about them. If you love Italian as well as Italian- American culture, this is a must read that will be hard to put down

Contains four maps, 25 photos.

A vividly human presentation of the Italian migration to America. Real people appear here, with ordeals and hopes, successes and failures, in all of the circumstances envisioned by the marriage vows. Unions, churches, the rackets, the press, even ideals and ideologies come into focus on this meticulously comprehensive canvas."--The New Republic "Yans-McLaughlin has demonstrated effectively that

Buffalo's Italian families did not disintegrate or experience major transformations under the pressure of immigration and life in a radically different environment. . . . points the way for further significant study of immigrant families."-John Briggs, International Migration Review "Methodologically speaking, Yans-McLaughlin's most important conclusion is that quantification is not enough. Statistics, she insists, can give us only the form of group structures; they do not assist the historian in penetrating to the cultural content of those structures. . . . Her book's great strength is its intelligent and painstaking analysis of the key institution of the family among Italian immigrants."--New York Historical Society Quarterly.

Italian Family Matters examines the debates and political priorities that led to significant changes in the law and its relation to women and the family in postwar Italy. Informed by the feminist debates on these issues, it shows that both the need for and the limits to the demand for equality before the law can be used to show what a different ordering of the relations between the sexes could mean.

A major bestseller in Italy, Paul Ginsborg's account of this most recent and dynamic period in Italy's history is essential reading for anyone wishing to understand contemporary Italy. Ginsborg chronicles a period that witnessed a radical transformation in the country's social, economic and political landscape, creating a fascinating and definitive account of how Italy has coped or failed to cope as it moves from one century to the next. With particular emphasis on its role in Italian life, work and culture Ginsborg shows how smaller families, longer lives and greater generation crossover have had significant effects on Italian society. Ginsborg looks at the 2000 elections, the influence of the Mafia, the decline of both Communism and Catholicism, and the change in national identity. This is modern history at its best.

Five years after her return home from Auschwitz, Piera Sonnino found the courage to tell the story of the extermination of her parents, three brothers, and two sisters by the Nazis. Discovered in 2005 in Italy and first published in English in 2006, this poignant and extraordinarily well-written account is strikingly accurate in bringing to life the methodical and relentless erosion of the freedoms and human dignity of the Italian Jews, from Mussolini's racial laws of 1938 to the institutionalized horror of Auschwitz. Through Sonnino's words, memory has the power to disarm these unspeakable evils, in This Has Happened.

It’s a story that will have kids asking their parents and grandparents: Where did we come from? How did our family make the journey all the way to America? “A shovel is just a shovel, but in Dan Yaccarino’s hands it becomes a way to dig deep into the past and honor all those who helped make us who we are.” —Eric Rohmann, winner of the Caldecott Medal for *My Friend Rabbit* “All the Way to America is a charmer. The book deals with both a reconstruction of Tuscan family books’ evolution and persistency, and several aspects of social history: reading and private libraries, domestic devotion, the memory of historical events. Starting with the Renaissance, the investigation broadens to the 17th-18th centuries and other forms of memory: private diaries and autobiographies. A final section is dedicated to the issue of memory in the egodocuments of early modern Europe.

How to Survive an Italian Family

Sometime in the 1950s, Emiko Davies' nonno-in-law began the tradition of ringing in the new year with tortellini al sugo. He served it along with spumante and a round of tombola, and sparked a trend; up until the 1970s, you could find tortellini at midnight on New Year's Eve in the bars around the Tuscan town of Fucecchio.

This is just one of the heirloom dishes in this collection, for which Emiko Davies has gathered some of her favourite family recipes. They trace generations that span the length of Italy, from the Mediterranean port city of Taranto in the southern heel of Puglia to elegant Turin, the city of aperitif and Italian cafe culture in the far north and, finally, back to Tuscany, which Emiko calls home.

Tortellini at Midnight is a book rich with nostalgia, with fresh, comforting food and stunning photography. It is a book that is good for the soul.

SECOND EDITION -- February 2018 -- Preface to the Second Edition: Since its original publication, I have been extremely gratified by the positive reception the book has received not only from the Italian-American Community but also from the general public. In this, its second edition, I have expanded the original book by adding more stories taken from my parents' memoirs and new stories about growing up in College Point and living in Italy. With a view to making it a more complete resource for Americans with an Italian heritage, I have also further explored Italian-American history, traditions, folklore, and culture. Description of the First Edition: "To know who you are, you need to know from whence you came." This book contains the stories of three generations of Italian-Americans. It represents over one hundred and fifty years of family history. It traces the trials, tribulations, and triumphs of the Baratta family from Padula and the Visco family from Vico Equense, both of whom settled in Manhattan and

subsequently moved to Brooklyn, Queens, and Long Island. The stories, which were taken from family memoirs and transcripts, are told by those who lived them in their own words and are placed in historical context. The book also includes the memoirs of the author which describe growing up in College Point N.Y. in the 40s, 50s, and 60s, going to medical school in Italy and living in that country, finding his roots in his ancestral Italian hometowns, and practicing cardiology in New York City. Profusely illustrated, with maps and photographs on almost every page, this reader-friendly 434-page book, which was five years in the making, is a celebration of Italian-American culture. It explores Italian-American history, traditions, folklore, customs, music, food, values, and humor. The book also contains Italian proverbs and features recipes from Padula and Vico Equense. Please scroll up and buy the book. Enjoy, recall, and relive, depending on your age, the joys of growing up Italian-American in the 40s, 50s, and 60s, try the recipes, and journey with the Viscos and the Barattas as they emigrated from Italy in the early 1900s and made something of themselves and their children in America.

Susan Gabori has woven the narrative of each character in the Pace family from interviews she conducted with Italian immigrants and their families to present an illuminating picture of people who, faced with a seemingly insensitive environment, must find a way to survive without sacrificing their dignity and pride. Each person finds a different way to hold on to some of the old while adapting to the new. With *In Search of Paradise* Gabori promotes a deeper understanding of and respect for the immigrant experience. The characters given a voice are Vincenzo, the father, Teresa, his wife, and their children, Franco, Roberto, Angelina, and Michele. Separated by Vincenzo's search for work in Libya and later by World War II, when the children are sent to a fascist school in Northern Italy and Vincenzo is sent to fight the British in Africa, they attempt to retain the bonds of family and culture. Reunited after the war, the economic climate in Italy forces Vincenzo and Franco to leave for Canada in 1950 in search of a better future. They are eventually joined by the rest of the family in Toronto.

Growing Up Italian-american

For almost four decades, from 1890 to 1924, many European immigrants came to the Gogebic Iron Range of Michigan and Wisconsin to work in the iron mines, farm, and to establish businesses. Among them was a sizable group of Italian immigrants from various regions and provinces of Italy. This book is a history of a particular group of Italian immigrants that came from the Asiago Plateau in northern Italy. Their lives and experiences are given meaning in this book, bringing their families, friends and the general public, knowledge of their origins and background in northern Italy and the contributions they made on the Gogebic Iron Range. A thirty year research project, this book is a resource of information for families of the Asiago Plateau immigrants throughout the United States who wish to do historical or genealogical work. Furthermore, this book is a link with the people of the Asiago Plateau today and hopefully will be an aid for them to discover their

Adventures of a Chinese-Korean Orphan

The Adventures of a Chinese Korean Orphan: A Mystical Thriller - This 397 page of Mary's memoir starts out telling of her physical life, but it is not too long before it she explains of her mystical spiritual journey and experience. Before Mary's Spiritual Master dies, He appoints a successor. The successor recognizes Mary's true identity in the Spiritual Realms. The successor and legions of negative forces deploy every means to keep Mary from coming to her own awareness. The Adventures of a Chinese Korean Orphan: A Mystical Thriller describes how Positive Powers use the conduit Mary to express their insights, and manifest their vision of reality on Earth. Mary is saved from death by them. The reader will come to understand and be inspired about their own true identity. Mary's life is unusual right from the beginning years as she experiences at the young age of two or three of being trapped in her body and vows to herself that this life would be her last being confined to a physical body. Mary's first Spiritual experience or vision was at the age of 4 or 5, a vision which she never forgot and what it meant. She experienced devastating loneliness when her mother left her at Angella Orphanage in 1964. Even after she was adopted and brought to America and there was plenty of food, clothes and a warm shelter, Mary could not take life at face value. She was compelled to know why she existed and what was the true meaning of life. As a teenager, after much seeking, she found a Spiritual Path that promised all the answers if she would attend to the disciplines and devote herself wholeheartedly with faith to the Spiritual Master. She had wonderful and profound experiences until her Master passed away and he left a successor to take his place. Her experiences spiraled down hill during the successor's reign. She was severely attacked on the physic-mental level first by him, and then a host of other entities of a very negative nature. Mary experienced hell. It was because she experienced such intense, painful attacks by the negative powers that caused her and her Master to ascend to the furthest reaches of the Universes. Then Mary experienced consciousness and energies of the most profound, pure and good vibrations and visions. She experiences her Oneness with all life and Universes, planets, suns, and all good beings. She has direct perception and communications Mother Nature and with her Ancient Ancestors, the Chinese Empresses and feels the beautiful presences of the Imperial China and what the true purpose was for having Imperial China. She realizes that Goddess Kuan Yin was always with her and she was a conduit for that Divine Intelligence. Mary experiences as what she describes as God Realization, or Totality. Her writings describe what the ultimate truth is based on her experiences and what is the final frontier of those who seek ultimate truth. Is it to claim one is God? She describes what the true meaning of Surrender is in the final stages. She describes the obstacles of the mind and ego. She concludes the book with a series of poems of insights which was inspired by the higher consciousness and energies. She has also displays some of her divine visionary paintings in the art gallery section. The book is a wealth of inspiration and wisdom. The book will send the reader on an emotional roller coaster. It is a real page turner.

Returned and Reborn: A Tale of a Korean Orphan Boy

My name is Orphan. My father planted the seed of love in my Korean mother but regretted it. When I turned four, she handed me to an orphanage that sent children to America, with my photo, birth certificate, and her note: "Son, your father was a great man doing great things for Koreans, but I can't keep you. Please forgive me..." *Returned and Reborn: A Tale of a Korean Orphan Boy* is a man's journey of self-discovery; from a nameless boy whose American adoptive parents used him and other "adopted" boys as free laborers, to a man of purpose and goals after returning to his birth nation. He reunites with his mom--a former student of the college his priest father had founded and served as dean--who is now dying from toxic chemicals the U.S. Military disposed of in the Korean waterways. Following a tragic accident, he accepts a divine invitation.

Now Jia must leave the village where her family has been sent as punishment to carve a path for herself. Her journey takes her first to Pyongyang, and finally to Shenyang in northeast China. Along the way, she falls in love with a soldier, befriends beggars, is kidnapped, beaten, and sold, negotiates Chinese culture, and learns to balance cruel necessity with the possibilities of kindness and love. Korean War Comic Books

Comic books have presented fictional and fact-based stories of the Korean War, as it was being fought and afterward. Comparing these comics with events that inspired them offers a deeper understanding of the comics industry, America's "forgotten war," and the anti-comics movement, championed by psychiatrist Fredric Wertham, who criticized their brutalization of the imagination. Comics--both newsstand offerings and government propaganda--used fictions to justify the unpopular war as necessary and moral. This book examines the dramatization of events and issues, including the war's origins, germ warfare, brainwashing, Cold War espionage, the nuclear threat, African Americans in the military, mistreatment of POWs, and atrocities.

Chinese Eyes

An adopted Korean girl gets a lesson in how unimportant it is that some people think she is different.

Hollywood Asian

From silent films to television programs, Hollywood has employed actors of various ethnicities to represent "Oriental" characters, from Caucasian stars like Loretta Young made up in yellow-face to Korean American pioneer Philip Ahn, whose more than 200 screen performances included roles as sadistic Japanese military officers in World War II movies and a wronged Chinese merchant in the TV show Bonanza. The first book-length study of Korean identities in American cinema and television, *Hollywood Asian* investigates the career of Ahn (1905-1978), a pioneering Asian American screen icon and son of celebrated Korean nationalist An Ch'ang-ho. In this groundbreaking scholarly study, Hye Seung Chung examines Ahn's career to suggest new theoretical paradigms for addressing cross-ethnic performance and Asian American spectatorship. Incorporating original material from a wide range of sources, including U.S. government and Hollywood screen archives, Chung's work offers a provocative and original contribution to cinema studies, cultural studies, and Asian American as well as Korean history.

North Korean Graphic Novels

Graphic novels (kurimchaek) are a major art form in North Korea, produced by agents of the regime to set out its vision in a range of important areas. This book provides an analysis of North Korean graphic novels, discussing the ideals they promote and the tensions within those ideals, and examining the reception of graphic novels in North Korea and by North Korean refugees in South Korea. Particular themes considered include the ideal family and how the regime promotes this; patriotism, and its conflict with class identities; and the portrayal of the Korean War – "The Fatherland Liberation War"

Reading in Asian Languages

Reading in Asian Languages is rich with information about how literacy works in the non-alphabetic writing systems (Chinese, Japanese, Korean) used by hundreds of millions of people and refutes

the common Western belief that such systems are hard to learn or to use. The contributors share a comprehensive view of reading as construction of meaning which they show is fully applicable to character-based reading. The book explains how and why non-alphabetic writing works well for its users; provides explanations for why it is no more difficult for children to learn than are alphabetic writing systems where they are used; and demonstrates in a number of ways that there is a single process of making sense of written language regardless of the orthography. Unique in its perspective and offering practical theory-based methodology for the teaching of literacy in Chinese, Japanese, and Korean to first and second language learners, it is a useful resource for teachers of increasingly popular courses in these languages in North America as well as for teachers and researchers in Asia. It will stimulate innovation in both research and instruction.

Letters from Prague

Eleanor M. Wheeler, a correspondent for the Religious News Service, wrote letters from Prague to her friends in the USA from 1947 to 1957. Her husband, George Shaw Wheeler, was a colonel in the US Army and the chief of the de-Nazification section of the Manpower Division of the Office of the Military Government (OMGUS). While in Germany in 1946, Wheeler's contract was not renewed, mainly due to suspicions that he was disloyal to the US government and had connections to the communist movement. Afterwards the entire family moved to Prague, where in 1951 they applied for political asylum. The correspondence depicts ten years of life in Czechoslovakia—from the rise of communism through high Stalinism to the de-Stalinization of the country—from the perspective of pro-Communist-minded Americans. Thematically, the correspondence covers a wide range of political, cultural, and social topics, including the Cold War, the Korean War, the role of Christians in mediating dialogue between East and West, McCarthyism, and topics focused on the internal politics of Czechoslovakia.

Double Luck

When Lu Chi Fa's parents died in 1944, he was only three years old. The timing of the tragedy could not have been worse-- it was a time of political turmoil and severe hardship in China. Few people willingly took in orphans, and Chi Fa's extended family was no exception. The young boy was shuffled from one house to another as his relatives turned him away, one by one. Even his loving sister was forbidden by her husband to take him under her roof. Chi fa was always hungry, often cold, and frequently beaten. But through all his struggles, he held onto his sister's hopeful words: "You are lucky, Chi Fa. Good fortune will find you." This stirring memoir of a painful childhood tells a story of resilience and courage, and attests to the power of even small acts of kindness.

The Chinese Orphan

The son of an influential father who runs an orphan work camp, Pak Jun Do rises to prominence using instinctive talents and eventually becomes a professional kidnapper and romantic rival to Kim Jong Il. Citizens of our beloved Democratic Republic of North Korea! Imagine the life of an orphan boy plucked from nowhere to be trained as a tunnel assassin, a kidnapper, a spy. He has no father but the State, no sweetheart but Sun Moon, the greatest opera star who ever lived, whose face is tattooed on his chest. Imagine he lives in our very own country, a model of exemplary Communism. A nation that is the envy of the world, especially the Americans. Where the only stories people need to hear are those blasting out of loudspeakers to the glory of our dear Leader, Kim Jong il. Citizens! Who is this individual? What is his story? Pak Jun Do is his name: wrestler of sharks, envoy to Texan barbecues, imposter extraordinaire, whose tale has only come to light through the talents and stamina of our most patriotic interrogators.

The Orphan Master's Son

"The Orphans of Shao" consists of case studies that exemplify more than 35-year long-lasting policy in China, the One-Child Policy. Due to the effect that the National Law has created, Mr. Pang exposed the corrupted adoption system in China. The farmers in many villages are forced to fines that they cannot afford to pay so the officials take their children away. The officials then sell the children for a low price to government orphanages. The orphanages then put these children up for international adoptions and collect the high-priced fees for these adoptions. The international adoptions are usually in Europe and in the United States. These families that adopted these children truly believe that the children are orphans. After their children were kidnapped by the officials, the parents embarked on a

long and draining odyssey to recover them. After searching fruitlessly for many years, the heartbroken and desperate parents were on the verge of losing all hope. At that time an investigative reporter discovered new leads for them. The reporter published an exclusive report exposing the kidnapping of their children by the Family Planning officials. Women's Rights in China (NGO organization) is very fortunate to gain Mr. Pang's copyrights to publish his book in the United States in English. Mr. Pang has suffered many murderous threats due to his work on this book. It is our hope that we can bring one journalist's hard work to fruition as well as the whole truth behind how the government implements the One-Child Policy in China. The product of this book is the result of many volunteers' hard work. Publish Date: 10/22/2014 Also you can order the book in the below link on WRIC's website, Crchina.org. http://crchina.org/?page_id=6858.

Korean Survey

Since 1784, when the American ship Empress of China arrived in Guangzhou, Chinese-American relations have experienced advances and setbacks. As the Chinese economy rapidly expands, China assumes a more dominant position in world politics, and continued fruitful relations with the United States are a primary concern for both nations in the twenty-first century. This encyclopedia contains more than 400 descriptive entries of important events, issues, personalities, controversies, treaties, agreements, organizations and alliances in the history of Sino-American relations, from Chinese and American perspectives. Also included are maps, a chronology, a list of acronyms, and three appendices (American chiefs on missions to China, Chinese chiefs on missions to the United States, and the correspondence of Wade-Giles to Pinyin).

The Orphans of Shao

The author shares the story of her four years as a volunteer at an orphanage in rural China, the one-child policy that created hundreds of abandoned infants, and the children she came to know, love, and care for.

Encyclopedia of Chinese-American Relations

Mia goes back to the country of her birth to search for details about her birth parents. What begins as a simple tour of the Chinese orphanage where she spent her first few years quickly becomes complicated. Chinese officials struggle to keep the truth of her heritage buried. Mia battles the forces stacked against her and faces mystery, danger, a dash of romance and finally a conclusion that will change her life.

Vincent Cheng examines why we still cling to notions of authenticity in an increasingly globalized world that has exploded notions of authentic essences & absolute differences. Just why do we become so exercised over a perceived loss of authentic cultural identity?.

Inauthentic

DUTY, HONOR and ADVENTURE by Dr. Ralph H. Herron [-----]

Literature of Travel and Exploration

A PART OF THE RIBBON is an action adventure story that takes the reader on an exciting journey through Korean history, from its fabled birth, over 3,000 years ago to modern times. Told through the eyes of six-year-old Charlotte and her thirteen-year-old brother Jeffrey, it provides a first-hand look at the evolution of the Korean culture, language and customs. Here is a fun way for children to learn about the customs and culture of Korea. It allows the child to see history as a participant, not as a passive observer.

Catalog of Copyright Entries

Thomas Singer presents a unique collection which examines cultural complexes in four parts of East Asia: China, Japan, Korea, and Taiwan. From ancestor worship in China to the "kimchi bitch" meme of South Korea, the wounded feminine in Taiwan and hikikomori in Japan, the contributors take a Jungian lens to aspects of culture and shine a light on themes including gender, archetypes, consciousness, social roles, and political relations. This insightful and timely book will be essential reading for academics and students of Jungian and post-Jungian ideas, politics, sociology, and Asian studies. It will also be of great interest to Jungian analysts in practice and in training.

Literature of Travel and Exploration: A to F

While American images of China have been characterized by a fluctuating love/hate relationship, many educated urban Chinese youths also retained ambivalent feelings toward the United States in the early decades of the 20th century. The years between the end of the Second World War and the outbreak of the Korean War represented a significant period in Sino-American relations. This study places the shifting perceptions of the United States among an important political group—young, volatile, and politically active urban Chinese—into historical perspective through the examination of the origin, development, and eruption of their anti-American sentiment. These feelings would prove to be a liability to the Chinese Nationalist cause and would ultimately assist in easing the way of the Communists into urban China. In the immediate post-World War II period, American influence and presence in China reached an unprecedented peak. However, American political, military, and economic activities largely failed to generate Chinese good will; instead, such actions produced political antipathy toward the United States. The sojourn of American GIs in urban China, for example, would serve as a critical factor in arousing nationalist fervor. The Chinese Communist Party would capitalize on this groundswell and push it to the foreground during open hostilities with the United States after the outbreak of the Korean War.

Writing Women in Korea explores the connections among translation, new forms of writing, and new representations of women in Korea from the early 1900s to the late 1930s. It examines shifts in the way translators handled material pertaining to women, the work of women translators of the time, and the relationship between translation and the original works of early twentieth-century Korean women writers. The book opens with an outline of the Chosôn period (1392-1910), when a vernacular writing system was invented, making it possible to translate texts into Korean--in particular, Chinese writings reinforcing official ideals of feminine behavior aimed at women. The legends of European heroines and foreign literary works (such as those by Ibsen) translated at the beginning of the twentieth century helped spur the creation of the New Woman (Sin Yôsong) ideal for educated women of the 1920s and 1930s. The role of women translators is explored, as well as the scope of their work and the constraints they faced as translators. Finally, the author relates the writing of Kim Myông-Sun, Pak Hwa-Sông, and Mo Yun-Suk to new trends imported into Korea through translation. She argues that these women

deserve recognition for not only their creation of new forms of writing, but also their contributions to Korea's emerging sense of herself as a modern and independent nation.

Cultural Complexes in China, Japan, Korea, and Taiwan

The Korean experience changed the way Americans viewed war. The lack of a clear-cut victory inspired filmmakers to try to make sense of fighting another country's civil war and risking American lives for an unpopular cause. This filmography details more than 90 English-language films. Each entry includes complete cast and credit listings, a plot synopsis, evaluation, review snippets, and notice of video availability. This book places each film in its historical context, assesses the essential truthfulness of each film and evaluates its entertainment value, and discusses how—and why—Korean War films differ from other Hollywood war genres. Four appendices list the films by chronology; production company and studio; level of historical accuracy; and subject and theme. Additional appendices list films with incidental references to the Korean War; documentaries on the Korean War; and South Korean films about the war. Photographs, a bibliography, and an index are included.

When Ansgar and Kristine lost their Wisconsin farmstead to foreclosure in April of 1935, Albert Victor Ravenholt, the oldest of nine surviving children, stepped up and provided the family with invaluable resources. This biography tells the story of Albert's remarkable life beginning on a small Wisconsin dairy farm, to his travels abroad and his work as a writer and foreign correspondent in the Orient. *West over the Seas to the Orient* begins as Albert emerges from his boyhood a stellar student, and it details the journey of his fascinating career—attending Grand View College in Des Moines, Iowa; working as a steward at the New York World's Fair; becoming chief cook on the MS *Agra*, a Swedish vessel bound for the Orient; working as a convoy leader for Red Cross trucks hauling medical supplies from Lashio on the Burma Road; and becoming a United Press war correspondent for China/Burma/India. Containing a detailed family history, many photographs, and copies of Albert's publications, this biography tells the story of a man who applied his remarkable talents to help the Ravenholt family escape poverty; a man who guided, intervened, and supported the developmental activities of his siblings.

It's no secret that tens of thousands of Chinese children have been adopted by American parents and that Western aid organizations have invested in helping orphans in China—but why have Chinese authorities allowed this exchange, and what does it reveal about processes of globalization? Countries that allow their vulnerable children to be cared for by outsiders are typically viewed as weaker global players. However, Leslie K. Wang argues that China has turned this notion on its head by outsourcing the care of its unwanted children to attract foreign resources and secure closer ties with Western nations. She demonstrates the two main ways that this "outsourced intimacy" operates as an ongoing transnational exchange: first, through the exportation of mostly healthy girls into Western homes via adoption, and second, through the subsequent importation of first-world actors, resources, and practices into orphanages to care for the mostly special needs youth left behind. *Outsourced Children* reveals the different care standards offered in Chinese state-run orphanages that were aided by Western humanitarian organizations. Wang explains how such transnational partnerships place

marginalized children squarely at the intersection of public and private spheres, state and civil society, and local and global agendas. While Western societies view childhood as an innocent time, unaffected by politics, this book explores how children both symbolize and influence national futures.
