Paris Hilton

Paris Hilton was born into the life of luxury, and right from the start she embraced life and everything it had to offer her. Growing up in a fancy hotel with maids, butlers and posh surroundings, Hilton wanted her own identity and she struggled to find it. Photographers began to notice the tall blonde with the piercing blue eyes who started showing up at all the best parties with her equally beautiful sister. Paris was eventually appearing in magazines everywhere. She was becoming a fashion icon. Modeling jobs soon followed, but Paris's true desire was to be an actress. She was used to getting what she wanted and movie offers began coming in. Paris discovered that you can make your own destiny with a little hard work and a whole lot of dazzle. Book jacket.

Paris Hilton

This revealing portrait of the real Paris Hilton gets underneath the hype and hate, the glamour and greed. Unlike other biographies that range from the exposé to the gushing, *Paris Hilton: A Biography* is both detailed and objective. It covers Paris's checkered family history, her privileged yet surprisingly unassuming upbringing, and her explosion with sister Nicky as "It Girls" on the international social scene. Readers will learn how her family influenced her, why she made the decision to step into the limelight, and why she continues today, despite her many critics and setbacks. Each chapter of the biography provides an in-depth view of a specific aspect of Paris's life: her relationship with men and the media, how she turned herself around emotionally and projected a new image, and what makes her such a smart businesswoman. The book also looks at darker moments, including the sex tape, her jail time, and her publicity faux pas. In the end, readers will understand what makes this complex young woman tick—and have a better sense of what it is like to walk a mile in her Manolo Blahniks.

Ke\$ha

Colorful, outspoken, unique—these are just three of the words that come to mind when one thinks of Ke\$ha. Her music is as original as she is. It is almost impossible to hear one of Ke\$ha's songs without moving along to the beat. But what is the story behind this outrageous artist? Where did she come from? What inspires her to write such catchy, honest lyrics? You may be shocked to learn that this talented rap artist was an honors student in high school. She also likes listening to country music in her spare time. In fact, many things about Ke\$ha will probably surprise you. Find out what makes her "Tik" in this colorful biography.

School Library Journal

She is a member of a large and happy family, but isn't in a hurry to build her own one. She has more than 35 pets, but has no children. She has standard body, so used it in Model business. Her face is rather pretty, than beautiful, but this is the face of world-famous brands. She is brunette and has brown eyes, but dies blond and wears blue lenses. She is American, but her ethnicity includes Irish, Italian, Norwegian, German, French and possibly Swiss. Her awful behavior caused the lost of a heritage of 60 million, but she earned near 10 millions herself in 2013. Paris Whitney Hilton is model and actress, singer and writer, fashion designer and perfumer, celebrity and DJ. The word "jetsetter" explains her better. Whoever was she with a different name? Celebrity Biographies - The Incredible Life of Paris Hilton - Famous Stars

Ever wondered how Angelina Jolie and Paris Hilton rose to stardom? Often described for her big sexy plump lips, beautiful blue eyes and to die for cheek bones, Angelina Jolie became famous after her decision to play the video game, Lara Croft, in the movie *Lara Croft: Tomb Raider* in 2001. In 2005 she became even more famous when she and the famous actor Brad Pitt announced their relationship. Their pictures were in almost every magazine covers. The subject of intense media and public fascination, Paris Hilton is one of the most-discussed celebrities of her generation. From the teenage party girl who was "famous for being famous," she has blossomed into an actress, pop star, and successful businesswoman. Paris's story takes readers behind the scenes of the most exclusive fashion shows, premieres, and parties. This revealing portrait covers the strings of famous men she has dated, including Leonardo DiCaprio and Backstreet Boy Nick Carter. Her list of friends is just as star-studded, including Britney Spears, Lindsay Lohan, and her *The Simple Life* costar Nicole Ritchie. Lifting the lid on the controversies that have plagued her life, the book tells for the first time the full story of the sex-tape saga and her 2007 imprisonment. Defying her critics, Paris emerged from jail with a fresh sense of perspective and renewed energy. *Paris Hilton: Life on the Edge* offers unique insight into her complex character and shows that jail was the making and not the breaking of her.

And that in itself is pretty incredible when you think about how much pop sensation Usher has accomplished in just a few short years. Born to a humble lifestyle in Chattanooga, Tennessee, in 1978, Usher has taken the world by storm in just one decade. Starting out as a teen sensation, Usher graduated to a few movie and soap opera roles before getting back to the rhythm and blues music he is best known for. By 2004, Usher's recording "Confessions" was number one for a total of 28 weeks, a new record! He also won several Grammy

awards and other music accolades so that music critics and fans alike are ready to crown him the next "King of Pop." Book jacket.

The Hiltons is a sweeping saga of the success-and excess-of an iconic American family. Demanding and enigmatic, patriarch Conrad Hilton's visionary ideas and unyielding will established the model for the modern luxury hotel industry. But outside the boardroom, Conrad struggled with emotional detachment, failed marriages, and conflicted Catholicism. Then there were his children: Playboy Nicky Hilton's tragic alcoholism and marriage to Elizabeth Taylor was the stuff of tabloid legend. Barron Hilton, on the other hand, deftly handled his father's legacy, carrying the Hilton brand triumphantly into the new millennium. Eric, raised apart from his older brothers, accepted his supporting role in the Hilton dynasty with calm and quiet-a stark contrast to the boys' much younger half-sister Francesca, whose battle for recognition led her into courtrooms and conflict. The cast of supporting players includes the inimitable Zsa Zsa Gabor, who was married to Conrad briefly and remained a thorn in his side for decades, and a host of other Hollywood and business luminaries with whom the Hiltons crossed paths and swords over the years.

Fortunately, she grew up in New York City, a place offering everything from free concerts in Central Park to the background music of street and subway performers. She had the chance to take advantage of the culture the city provided as well as its quality education. At 12 years old, she auditioned and was accepted to the Professional Performing Arts School. For Alicia, the school was an artistic playground. Soon, she was on her way to her first recording contract.
