The Curious Case of the Clockwork Man

Mark Hodder's second Burton & Swinburne steampunk adventure, following the acclaimed *The Strange Affair of Spring Heeled Jack*, is filled with eccentric steam-driven technology, grotesque characters, and a deepening mystery. When a clockwork-powered man of brass is found abandoned in Trafalgar Square, Burton and his assistant, the wayward poet Algernon Swinburne, find themselves on the trail of the stolen Garnier Collection--black diamonds rumored to be fragments of the Lemurian Eye of Naga, a meteorite that fell to Earth in prehistoric times. From a haunted mansion to the Bedlam madhouse, from South America to Australia, from séances to a secret labyrinth, Burton struggles with shadowy opponents and his own inner demons. Can the king's agent expose a plot that threatens to rip the British Empire apart, leading to an international conflict the like of which the world has never seen? And what part does the clockwork man have to play? From the Trade Paperback edition.

The Curious Case of the Clockwork Man

1862: Albertian Britain is in the grip of conflicting forces. Engineers transform the landscape with bigger, faster, noisier and dirtier technological wonders; Eugenicists develop specialist animals to provide unpaid labour; Libertines oppose restrictive and unjust laws and flood the country with propaganda demanding a society based on beauty and creativity; while The Rakes push the boundaries of human behaviour to the limits with magic, sexuality, drugs and anarchy. "Sir Richard Francis Burton and poet Algernon Swinburne's investigation into a theft of black diamonds, ultimately embroiling them in the affairs of a dubious claimant, supposedly the heir of a cursed estate...is deliciously entertaining." -- Steampunk Scholar

The Curious Case of the Clockwork Man

When Burton and Swinburne discover an abandoned brass man in Trafalgar Square, they find themselves on the trail of stolen black diamonds and embroiled in a plot involving the Tichborne Claimant and mysterious steam wraiths.

The Strange Affair of Spring Heeled Jack

London, 1861. Sir Richard Francis Burton - explorer, linguist, scholar, and swordsman; his reputation tarnished; his career in tatters; his former partner missing and probably dead. Algernon Charles Swinburne - unsuccessful poet and follower of de Sade, for whom pain is pleasure, and brandy is ruin! Their investigations lead them to one of the defining events of the age, and the terrifying possibility that the world they inhabit shouldn't exist at all!

Expedition to the Mountains of the Moon

It is 1863, but not the one it should be. Time has veered wildly off course, and now the first moves are being made that will lead to a devastating world war and the fall of the British Empire. Caught in a tangled web of cause, effect, and inevitability, little does Burton realize that the stakes are far higher than even he suspects. A final confrontation comes in the mist-shrouded Mountains of the Moon, in war-torn Africa of 1914, and in Green Park, London, where, in the year 1840, Burton must face the man responsible for altering time: Spring Heeled Jack! Burton and Swinburne's third adventure is filled with eccentric steam-driven technology, grotesque characters, and bizarre events, completing the three-volume story arc begun in *The Strange Affair of Spring Heeled Jack* and *The Curious Case of the Clockwork Man*. From the Trade Paperback edition.

He has never gone further than the end of the road on his own, but when he finds a neighbour's dog murdered he sets out on a terrifying journey which will turn his whole world upside down.

The Return of the Discontinued Man

Philip K. Dick Award-winning author Mark Hodder continues his Burton & Swinburne Adventures in an electrifying tale in which the future and the past collide and the world itself may be altered forever... Years ago, a madman from the future assassinated the beloved Queen Victoria which inadvertently sparked the explosion of scientific and industrial advancement that thrust England into a technological age beyond anything ever imagined. And the effects of that event are about to be felt more than ever. When a renowned scientist attempts to experiment on the assassin's time-travelling suit, he unleashes a wave of chaos and conflicting timelines, resulting in blood red snow falling from the sky, and the adventurer Sir Richard Burton being tormented by jarring visions of alternate realities that are somehow both unavoidable and yet changeable. Time and reality may have just reached their breaking point. But most disturbing of all, the legendary Spring Heeled Jack has returned in several different places at the same time! These numerous "Jacks" are all very confused, very irritable, and very dangerous... And they are all looking for Sir Richard Burton.

Hinges Book One: Clockwork City

New to the city of Cobble, Orio must depend on help wherever she can find it, but her assigned familiar Bauble has other interests. And as the two explore the walls of their city, they find that they are not the only new arrivals.

The Clockwork Universe

In a world of chaos and disease, one group of driven, idiosyncratic geniuses envisioned a universe that ran like clockwork. They were the Royal Society, the men who made the modern world. At the end of the seventeenth century, sickness was divine punishment, astronomy and astrology were indistinguishable, and the world's most brilliant, ambitious, and curious scientists were tormented by contradiction. They believed in angels, devils, and alchemy yet also believed that the universe followed precise mathematical laws that were as intricate and perfectly regulated as the mechanisms of a great clock. The Clockwork Universe captures these monolithic thinkers as they wrestled with nature's most sweeping mysteries. Award-winning writer Edward Dolnick illuminates the fascinating personalities of Newton, Leibniz, Kepler, and others, and vividly animates their momentous struggle during an era when little was known and everything was new—battles of will, faith, and intellect that would change the course of history itself.

A Clockwork Heart

The honeymoon is over... A plague of clockwork zombies is afflicting London, and as more people mysteriously disappear, so grows the panic. For Eleanor Chance, she is still figuring out her abilities as the oracle, and how to keep the dark designs of the Shadow realm at bay. But then Marsh, her newly-wed husband, is abducted. Can she save him from the fate of a clockwork heart before it's too late? Book two in The Chronicles of Light and Shadow series, from the award-winning author of *A Conspiracy of Alchemists*.

The Secret of Abdu El Yezdi

Philip K. Dick Award-winning author Mark Hodder continues his Burton & Swinburne Adventures with a steampunk adventure set in an alternate England teetering on the edge of annihilation... After barely surviving his discovery of the source of the Nile, explorer Sir Richard Burton returns home to fame, glory, and a knighthood from his highness King George V. But he also receives another title King's Agent...for Burton may be the only man who can save England from doom. Once he is brought into the king's service, Sir Richard is trusted with a shocking truth: ever since the assassination of Queen Victoria, those in power have been guided and advised by a spirit Abdu El Yezdi whose wisdom has brought about incredible progress and prosperity. Unfortunately, the voice of El Yezdi has fallen silent just as a controversial alliance is about to be formed with the Central German Confederation. More suspicious still are the disappearances of a number of England's most brilliant thinkers and builders, with no clue as to who is responsible. Now, aided by his own circle of unlikely and unconventional allies—including the devilishly lewd poet Algernon Swinburne—Sir Richard must delve into the darkest reaches of both the mystical and machine worlds if England is to survive a coming storm unlike anything ever imagined...

Clockwork Angels

The Inexplicables

Adventures await Rector “Wreck ‘em” Sherman. About to turn eighteen, he’s facing ejection from the orphanage that passed for home. He should also choose a trade, but work is scarce in steam-powered Seattle. And Rector has more unconventional plans. He’s started dealing in sap, a yellow narcotic produced by rebels and outlaws within the city’s toxic walled enclave. What’s worse, he’s been sampling his wares. Other problems include being haunted by an old friend with a grudge. The pressure builds until he sneaks behind the wall himself, seeking both (un)gainful employment and excitement. As rumoured, he finds a terrifying host of the hungry undead, and then there’s the monster. Rector’s certain that his attacker wasn’t human, or undead. But he’s going to need more proof than his own addled word to expose it. His new mission becomes a compulsion when others witness the creature’s destructiveness, and give it a name. The Inexplicables. Praise for the series: ‘Everything you’d want ... pure mad adventure’ Cory Doctorow, ‘Adventure of rollicking pace and sweeping proportions’ Scott Westerfeld, ‘Cherie Priest is the high priestess of steampunk’ The Seattle Times

The Rise of the Automated Aristocrats

Burton and Swinburne return for their final thrilling adventure! Sir Richard Francis Burton’s expedition has returned from the future, bringing with it knowledge of technologies which must remain secret for history to follow its natural course. Betrayed by one of their own, Burton and Swinburne watch in horror as the Empire’s elite use this knowledge to secure their positions for all eternity, branding any who oppose them as enemies of the State. Can their band of hunted revolutionaries overthrow the ultimate automated autocrat – their King?

The Clockwork Dagger

Full of magic, mystery, and romance, an enchanting steampunk fantasy debut in the bestselling vein of Trudi Canavan and Gail Carriger. Orphaned as a child, Octavia Leander was doomed to grow up on the streets until Miss Percival saved her and taught her to become a medician. Gifted with incredible powers, the young healer is about to embark on her first mission, visiting suffering cities in the far reaches of the war-scarred realm. But the airship on which she is traveling is plagued by a series of strange and disturbing occurrences, including murder, and Octavia herself is threatened. Suddenly, she is caught up in a flurry of intrigue: the dashing attractive steward may be one of the infamous Clockwork Daggers—the Queen’s spies and assassins—and her cabin-mate harbors disturbing secrets. But the danger is only beginning, for Octavia discovers that the deadly conspiracy aboard the airship may reach the crown itself.

The Girl and the Clockwork Cat

Feisty teenage thief Maeko and her maybe-more-than-friend Chaff have scraped out an existence in Victorian London’s gritty streets, but after a near-disasterous heist leads her to a mysterious clockwork cat and two dead bodies, she’s thrust into a murder mystery that may cost her everything she holds dear. Her only allies are Chaff, the cat, and Ash, the son of the only murder suspect, who offers her enough money to finally get off the streets if she’ll help him find the real killer. What starts as a simple search ultimately reveals a conspiracy stretching across the entire city. And as Maeko and Chaff discover feelings for each other neither was prepared to admit, she’s forced to choose whether she’ll stay with him or finally escape the life of a street rat. But with danger closing in around them, the only way any of them will get out of this alive is if all of them work together.

Holding the Man

The mid-seventies – and satin baggies and chunky platforms reigned supreme. Jethro Tull did battle with glam-rock for the airwaves. At an all-boys Catholic school in Melbourne, Timothy Conigrave fell wildly and sweetly in love with the captain of the football team. So began a relationship that was to last for 15 years, a love affair that weathered disapproval, separation and, ultimately death. Holding the Man recreates that relationship. With honesty and insight it explores the highs and lows of any partnership: the intimacy, constraints, temptations. And the strength of heart both men had to find when they tested

positive to HIV. This is a book as refreshing and uplifting as it is moving; a funny and sad and celebratory account of growing up gay.

A Clockwork Orange

In this nightmare vision of a not-too-distant future, fifteen-year-old Alex and his three friends rob, rape, torture and murder - for fun. Alex is jailed for his vicious crimes and the State undertakes to reform him - but how and at what cost?

His Clockwork Canary

History is repeating itself. For ambitious engineer Simon Darcy, winning Queen Victoria's competition to recover lost inventions of historical significance is a matter of pride—and redemption. After all, it was Simon's failed monorail project that left his family destitute, and winning the tournament would surely restore the Darcys' reputation. Simon sets his sights high, targeting no less than the infamous time-travel device that forever changed the world by transporting scientists, engineers, and artists from the twentieth century. The Mod technology was banned and supposedly destroyed, but Simon is sure he can re-create it. His daring plan draws the attention of Willie G., the Clockwork Canary, London's sensationalist reporter. Simon soon discovers that Willie is a male guise for Wilhemina Goodenough, the love of his youth, who left him jilted and bitter. He questions her motives even as he falls prey to her unique charm. As the attraction between the two reignites, Simon realizes that this vixen from his past has secrets that could be the key to his future...as long as he can put their history behind him.

Some fifty years later, society is based on magic use and Wyrdrune, a young New York City warlock kicked out of school for casting spells without a license, reads about an auction of artifacts unearthed in the Euphrates Valley. But at the same time, a streetwise cat burglar known as Kira also tries to steal the stones and the two barely manage to escape together with the loot. Neither of them has much use for the other, but all they have to do is fence the stones and split the take. The only problem is, the runestones won't stay fenced. They keep magically returning to the thieves. Now, hunted by the authorities, by thugs employed by dealers in stolen goods who think the pair have cheated them, and by a mysterious international hitman known only by the name of Morpheus, the thieves have only one place left to run -- the home of Wyrdrune's old professor, Merlin, who is the first to realize that the runestones are a key to an immensely powerful and dangerous spell dating back before the dawn of human civilization. And as if that were not frightening enough, the runestones are alive....

Strange Highways

One wrong turn changes everything... Strange Highways is a brilliant collection of dark and suspense-filled short stories from the international bestselling author Dean Koontz. Perfect for fans of Stephen King and Richard Laymon. One rain-swept Sunday night when he was twenty years old, on his way back to college after a weekend with his family, Joey Shannon took the wrong highway - and from that moment, nothing ever went right for him again. Now, exactly twenty years later, on another rain-swept night, Joey finds himself at the same crossroads, looking down the road never taken. Which is odd. Because that road no longer exists. A superhighway replaced it nearly twenty years ago, and the old state route - which had crossed a web of perpetually burning, abandoned coal mines - was condemned as too dangerous and was torn up. But now the highway is exactly as it was on that long-ago night, and when Joey turns on to it, he begins an eerie, terrifying journey toward a truth so dark and stunning that it will change everything he believes about himself, his past, and the nature of life... The first of thirteen short stories sets the pace for a thrilling read. What readers are saying about Strange Highways: 'One of the most thought provoking, terrifying yet enjoyable books I have ever read' 'Each story is as compelling and equally disturbing as the next' 'Great stories from when Dean Koontz was at the peak of his powers. There's suspense, horror, and a great atmosphere of something nasty lurking in the cubby holes of your mind'

Strange Affair

When he receives a disturbing call from his brother Roy, Inspector Banks heads off to London to search him out. Meanwhile, DI Annie Cabbot is called to a murder scene on a quiet road. A Spot of Bother

'A painful funny humane novel: beautifully written, addictively readable and so confident' The Times Discover this brilliantly comic and moving bestselling novel by the award-winning author of *The Curious Incident of the Dog in the Night-Time* and *The Porpoise*. At fifty-seven, George is settling down to a comfortable retirement, building a shed in his garden, reading historical novels, listening to a bit of light jazz. Then Katie, his tempestuous daughter, announces that she is getting remarried, to Ray. The family is not pleased, as her brother Jamie observes, Ray has 'strangler's hands'. Katie can't decide if she loves Ray, or loves the way he cares for her son Jacob, and her mother Jean is a bit put out by the way the wedding planning gets in the way of her affair with one of her husband's former colleagues. And the tidy and pleasant life Jamie has created crumbles when he fails to invite his lover, Tony, to the dreaded nuptials. Unnoticed in the uproar, George discovers a sinister lesion on his hip, and quietly begins to lose his mind.

Uprooted

Who, or what, is the Green Man, and why is this medieval image so present in our precarious modern times? An encounter with the Green Man at an ancient Herefordshire church in the wake of catastrophic weather leads Nina Lyon into an exploration of how the foliate heads of Norman stonemasons have evolved into today's cult symbols. The Green Man's association with the pantheistic beliefs of Celtic Christianity and with contemporary neo-paganism, with the shamanic traditions of the Anglo-Saxons and as a figurehead for ecological movements, sees various paths crossing into a picture that reveals the hidden meanings of twenty-first-century Britain. Against a shifting backdrop of mountains, forests, rivers and stone circles, a cult of the Green Man emerges, manifesting itself in unexpected ways. Priests and philosophers, artists and shamans, morris dancers, folklorists and musicians offer stories about what the Green Man might mean and how he came into being. Meanwhile, in the woods, strange things are happening, from an overgrown Welsh railway line to leafy London suburbia. *Uprooted* is a timely, beautifully written and joyfully provocative account of this most enduring and recognisable of Britain's folk images.
