Storyselling for Financial Advisors

Put the power of story telling into selling financial products. The authors explain the process of making these intuitive connections, then translate their findings into understandable and practical strategies that any financial professional can use. They present actual stories, including many by Warren Buffet, one of the greatest "storysellors" of all time.

Storyselling for Financial Advisors

Learn what makes a client trust you to be their financial advisor. Put the power of story telling into selling financial products. The authors explain the process of making these intuitive connections, then translate their findings into understandable and practical strategies that any financial professional can use. They present actual stories, including many by Warren Buffet, one of the greatest "storysellors" of all time. These actual stories can help financial pros tap into the "gut reaction" of different types of clients. the book also includes special topics on communicating to women, the 50+ market, and the affluent.

Ineffective Habits of Financial Advisors (and the Disciplines to Break Them)

A how to guide to avoiding the mistakes ineffective financial advisors most often make Based on a 15-year consulting program that author Steve Moore has led for financial advisors, Ineffective Habits of Financial Advisors (and the Disciplines to Break Them): A Framework for Avoiding the Mistakes Everyone Else Makes details proven techniques which allow advisors to transform their business into an elite practice: business analysis, strategic vision, exceptional client service, and acquiring high net

worth clients. Told through the story of a purely fictional and completely average financial advisor, each chapter begins with an ineffective habit that is then countered with a discipline that improves business results and adds value. The book Details a step-by-step strategy for working through current clients, rather than relying on cold calling to form new relationships Includes anecdotes collected through both personal experience and stories relayed to him by clients and colleagues Provides question and answer segments, examples, and homework assignments Ineffective Habits of Financial Advisors (and the Disciplines to Break Them shows you how to deliver exceptional service while generating higher revenue per client.

The Million-Dollar Financial Advisor

Based on interviews with fifteen top financial advisors, each doing several million dollars' worth of business every year, this priceless tool contains universal principles to guide both veteran and new financial professionals to immediate success. The Million-Dollar Financial Advisor distills these success principles into thirteen distinct step-by-step lessons that teach readers how to build and focus on client relationships, have a top advisor mindset, develop a long-term approach, and much more. The book also features two complete case studies, featuring a "best of the best" advisor whose incredible success showcases the power of all the book's principles working together in concert, and an account of a remarkable and inspiring career turn around that demonstrates it's never too late to reinvent yourself. Brimming with practical advice from author David J. Mullen and expert insights from his interview subjects, The Million-Dollar Financial Advisor equips any financial advisor to succeed-- regardless of market conditions.

Life Centered Financial Planning

Bring your financial planning to life by bringing life to your financial planning. Life-Centered Financial Planning: How to Deliver Value That Will Never Be Undervalued shows financial planners and advisors how to radically improve the service they provide to their clients by tying their decisions and strategies to their clients' life events, stages, and goals. Written by distinguished financial professionals Mitch Anthony and Paul Armson, Life-Centered Financial Planning provides readers with practical advice and concrete strategies to revolutionize their organization and client service by:

- Focusing on what matters most to clients, rather than maximizing assets under management or pushing products
- Understanding that a strong financial plan means more than simply accumulating as much money as possible
- Building a business model that is good for everyone involved: the financial advisor, clients, and the organization
- Moving from being a commodity to being your client's trusted advisor

The book is perfect for any financial planner or advisor who wishes to adapt to the radical redefinition of financial services taking place today.

Serious Money

With this latest edition of The New Retirementality, readers will quickly discover how to achieve the freedom to pursue their retirement goals?at their own pace, on their own terms?regardless of their age. Most people won't experience the same retirement that their parents did, nor do they necessarily want to. Page by page, top financial planner Mitch Anthony reveals how new opportunities will enable individuals to create tailor-made retirements. He includes new research and studies to back his insights and introduces readers to important concepts such as "wealthcare" and "return on life." Filled with engaging anecdotes and inspirational suggestions, this book will motivate readers to rethink the way they retire.

The New Retirementality

Whether you're already well-to-do or just beginning to build a nest egg, this book will help you to make smart financial choices based on what's important to you ...

Values-based Financial Planning

The Supernova Model is a client service, client acquisition, and practice management model that drives an explosive acceleration in revenue and client satisfaction by capitalizing upon the 80/20 Rule. First implemented by financial advisors at Merrill Lynch—under the leadership of author Rob Knapp—it has grown increasingly popular within the financial services industry. The Supernova Advisor skillfully

outlines this proven model and reveals how it can be used to create an exceptional experience for your clients, while significantly growing your business.

The Supernova Advisor

Joe Girard was an example of a young man with perseverance and determination. Joe began his working career as a shoeshine boy. He moved on to be a newsboy for the Detroit Free Press at nine years old, then a dishwasher, a delivery boy, stove assembler, and home building contractor. He was thrown out of high school, fired from more than forty jobs, and lasted only ninety-seven days in the U.S. Army. Some said that Joe was doomed for failure. He proved them wrong. When Joe started his job as a salesman with a Chevrolet agency in Eastpointe, Michigan, he finally found his niche. Before leaving Chevrolet, Joe sold enough cars to put him in the Guinness Book of World Records as 'the world's greatest salesman' for twelve consecutive years. Here, he shares his winning techniques in this step-by-step book, including how to:

- o Read a customer like a book and keep that customer for life
- o Convince people reluctant to buy by selling them the right way
- o Develop priceless information from a two-minute phone call
- o Make word-of-mouth your most successful tool

Informative, entertaining, and inspiring, **HOW TO SELL ANYTHING TO ANYBODY** is a timeless classic and an indispensable tool for anyone new to the sales market.

How to Sell Anything to Anybody

Have you dreamt of becoming the Ultimate Financial Advisor but don't know where to start? This book by Bryan Sweet, Brittany Anderson & Draye Redfern reveals the 12 pillars that are necessary to set you up for success and help you grow your financial advisory business exponentially. Not only will you uncover the strategies, marketing, systems needed to be successful, but you will also learn how to build your dream team along with the step-by-step path to actually implement all of your best ideas into your practice to reach your ultimate goals as a financial advisor.

The Ultimate Financial Advisor

If you're an advisor, whether you need a push or not, and regardless if you're new or old to the business, this guide will help add instant value to your practice. Using the proven method author David J. Mullen Jr. has taught at Merrill Lynch and is famous for in the industry, **The Million-Dollar Financial Services Practice** guides aspiring brokers on their journey toward building a lucrative financial services practice. Templates, scripts, letters, and tried-and-true market action plans work together to give you the skills you need to get the appointment, convert prospects to clients, build relationships, retain clients, use niche marketing successfully, and increase the products and services each client uses. In **The Million-Dollar Financial Services Practice**, you will gain insight into practical areas often overlooked by other industry guides, including: how to work in teams, how to train sales associates, and how to handle and overcome rejection. Updated with new strategies for acquiring affluent clients, the second edition of **The Million-Dollar Financial Services Practice** includes tips on offering wealth management services, using social media, leveraging alumni marketing, and targeting successful referrers as clients to help today's financial service professionals become top producers.

The Million Dollar Financial Services Practice

Selling is as old as civilization itself. Put in the simplest of terms, selling is the exchange of goods and services for something of value. To financial advisors, however, the sale is often seen in a negative light, and many cringe at the word "sell." Interestingly, the same advisors who shy away from the concept of selling are often those who find themselves selling every single day! Sometimes they're even participating in the selling process multiple times throughout the day--and they may not realize it. Asking for client referrals, developing strategic alliances, seeking and talking with new prospects are all obvious parts of the selling process, but selling happens every time you remind a client why it's a good choice to do business with you, too. The fact is that most CFAs(R), CFPs(R), CPAs, and other professionals did not obtain these titles because deep down they really wanted to be in sales. Most times, their interests tend more toward data, analysis, and more solitary orientations. Selling is probably the last thing those who entered these fields were thinking of doing. They may not have considered the "people" aspect of their chosen profession; the aspect that involves sales. For this reason, and some others, turning into a salesperson seems like a negative, degrading thing. Many advisors will conjure up the picture of the slimy used-car sales guy. It's time to recognize selling as the valuable activity that it is. It is a way to: Let people know who you are and what you do well. Get your message out to those

who need it. Promote your planning process, wealth management services, or investment expertise. Use your relationship skills to close new business. Take your business to the next level. If you want to grow your business, the bottom line is that you--or someone on your team--need to sell, and to sell well. This book will offer guidance on how you can sell in a comfortable and effective manner.

The Pocket Guide to Sales for Financial Advisors

Why do some teachers thrive under pressure while others quit? What kinds of skills can empower teachers to effectively deal with the challenges they face both in and out of school? The Teacher's Ultimate Stress Mastery Guide shows teachers how to build resilience and emotional strength to prevent stress and burnout as well as the negative emotions that may result. Rich with examples, easy-to-understand concepts, and simple behavioral tips, this book explains how stress affects your optimism and teaching effectiveness. In an easygoing and witty voice, Jack Singer, PhD, presents:

- Action plans for mastering the different types of stress in your life
- Success stories and experiences from teachers who have conquered stress
- Strategies and examples based on cognitive and resiliency theories used by psychologists and counselors

Don't let the challenges of the job weigh you down! This blueprint for success can help you achieve personal and professional goals, tackle daily challenges, and reignite your passion for teaching.

The Excellent Investment Advisor

This insightful book shows salespeople how to meet the needs of affluent clients from the initial contact, to the sales presentation, to providing the level of service and quality they expect, to securing them as long-term customers. Based on extensive research of the buying patterns and expectations of the wealthy, this step-by-step sales guide reveals the secrets of attracting and keeping wealthy clients for life, boosting sales and repeat business. *The Art of Selling to the Affluent* is also a crash course in the world of the wealthy, giving you the understanding you need to satisfy and retain these profitable top-dollar clients.

The Psychology of Selling

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

The Art of Selling to the Affluent

How does money figure into a happy life? In *The Geometry of Wealth*, behavioral finance expert Brian Portnoy delivers an inspired answer, building on the critical distinction between being rich and being wealthy. While one is an unsatisfying treadmill, the other is the ability to underwrite a meaningful life, however one chooses to define that. Truly viewed, wealth is funded contentment. At the heart of this groundbreaking perspective, Portnoy takes readers on a journey toward wealth, informed by disciplines ranging from ancient history to modern neuroscience. He contends that tackling the big questions about a joyful life and tending to financial decisions are complementary, not separate, tasks. These big questions include: • How is the human brain wired for two distinct experiences of happiness? And why can money "buy" one but not the other? • What are the touchstones of a meaningful life, and are they affordable? • Why is market savvy among the least important sources of wealth but self-awareness is among the most? • How does one strike a balance between striving for more while being content with enough? This journey memorably contours along three basic shapes: A circle, triangle and square help us to visualize how we adapt to evolving circumstances, set clear priorities, and find empowerment in simplicity. In this accessible and entertaining book, Portnoy reveals that true wealth is achievable for many - including those who despair it is out of reach - but only in the context of a life in which purpose and practice are thoughtfully calibrated.

Increase Profits, Be more Organized, attract a Higher Quality & Quantity of Referrals, Run Your Business so That It Doesn't Run You, Take Your Business to the Next Level... With Breakthrough Business Development! Breakthrough Business Development shows you how to attract and keep great clients, while running a profitable and efficient business. It helps every knowledge-for-profit professional to maximize your most valuable client relationships, and to develop a personalized business development plan to mine the untapped potential in your business. Praise for the Pareto System, Featured in Breakthrough Business Development. "I am just beside myself on the results gathered so far from instituting the Pareto System. I use an agenda for meetings now and have formulated a standard package given to new clients. Already I have sent out twenty thank-you cards to new referrals. I even got a referral from a referral if that makes sense. Some clients didn't know that I was still expanding my business. I am also finding advocates that I didn't classify as such. Opening twenty accounts in this short time span is amazing but already I have another ten leads in the pipeline. You guys were right, it does work." "We have been building client relationships for 45 years... Pareto Systems successfully helped us to pause and then guided us through the process of defining the appropriate business structure and systems which will strengthen and enhance our best client relationships. We are now focusing on a comprehensive, systematized program for select clients. The results have been amazing-client satisfaction is way up and so are revenues."

The Geometry of Wealth

Part manual, part memoir and part call to action, this book demonstrates why the core skill needed by leaders in the next decade and into the future will be authentic and effective communication. Communications based on character, integrity and values will be critical in helping leaders navigate the two mega trends of accelerated technological change and increasing demands for social change. This book is the first to marry practical advice on deepening communication skills with insight from a coaching and cognitive point of view into what techniques works and why, and to pull together the wider societal issues and the operating context for leaders. Counter-intuitive and written to provoke thought and awareness, the author looks at the psychological and emotional effects of our communications and what leaders can do to inspire and engage, guiding them through three sections: • A framework for effective communications • A toolkit, detailing what good looks like in practical situations • The authentic leader, an exploration of the changing communications landscape and why a different kind of leadership is needed C-suite executives, leaders about to take that last step into the C-suite or millennial leaders about to enter the boardroom will value this book as an advisory guide, as a handbook to be used in internal coaching and training sessions and as a manual and aide memoir for themselves.

101 Advisor Solutions: A Financial Advisor's Guide to Strategies that Educate, Motivate and Inspire is a must read for any financial advisor looking for tools, techniques, strategies and real world solutions to conquering common challenges! This book is designed to help you build a better business...one solution at a time.

A Leader's Guide to Storytelling

Drawing upon Howard Lashner's more than two decades of success in the financial services industry, 10 Common Mistakes Financial Advisors Make & Simple Ideas to Avoid Them demonstrates that what many advisors consider standard operating procedures are really missed opportunities to build better, longer-lasting client relationships. Using real-world client experiences, as well as his own, Lashner focuses on eliminating mistakes that keep financial advisors from delivering the highest-level client experience possible, and from expanding their business and client roster. The result is his philosophy on how to work with clients, and a plan of action you can implement to create a personalized client experience.

101 Advisor Solutions: A Financial Advisor's Guide to Strategies that Educate, Motivate and Inspire!

How did an American immigrant without a college education go from Venice Beach t-shirt vendor to television's most successful producer? How did a timid pastor's son surmount a paralysing fear of public speaking to sell out Yankee Stadium, twice? How did the city of Tokyo create a PowerPoint stunning enough to win them the chance to host the Olympics? They told brilliant stories. Whether your goal is to sell, educate, fundraise or entertain, your story is your most valuable asset: 'a strategic

tool with irresistible power', according to the New York Times. A well-told story hits you like a punch to the gut; it triggers the light-bulb moment, the 'aha' that illuminates the path to innovation. Radical transformation can occur in an instant, with a single sentence; The Storyteller's Secret teaches you how to craft your most powerful delivery ever. In his hugely attended Talk Like TED events, bestselling author and communications guru Carmine Gallo found, again and again, that audiences wanted to discover the keys to telling a powerful story. The Storyteller's Secret unlocks the answer in fifty lessons from visionary leaders - each of whom cites storytelling as a crucial ingredient in success. A good story can spark action and passion; it can revolutionise the way people think and spur them to chase their dreams. Isn't it time you shared yours? PRAISE FOR CARMINE GALLO "For years I've come to trust Carmine Gallo's sage wisdom on learning to be a better communicator and I've made his book, Talk Like TED, required reading for my staff." Brigadier General Kenneth E. Todorov, USAF (Ret) "In The Storyteller's Secret, Carmine Gallo not only gives you the tactical steps to sharing your ideas, he also digs into the psychology of storytelling to explain why the stories we tell ourselves are the most important and empowering ones of all." 10 Common Mistakes Financial Advisors Make and Simple Ideas to Avoid Them

A simple guide to a smarter strategy for the individual investor A Wealth of Common Sense sheds a refreshing light on investing, and shows you how a simplicity-based framework can lead to better investment decisions. The financial market is a complex system, but that doesn't mean it requires a complex strategy; in fact, this false premise is the driving force behind many investors' market "mistakes." Information is important, but understanding and perspective are the keys to better decision-making. This book describes the proper way to view the markets and your portfolio, and show you the simple strategies that make investing more profitable, less confusing, and less time-consuming. Without the burden of short-term performance benchmarks, individual investors have the advantage of focusing on the long view, and the freedom to construct the kind of portfolio that will serve their investment goals best. This book proves how complex strategies essentially waste these advantages, and provides an alternative game plan for those ready to simplify. Complexity is often used as a mechanism for talking investors into unnecessary purchases, when all most need is a deeper understanding of conventional options. This book explains which issues you actually should pay attention to, and which ones are simply used for an illusion of intelligence and control. Keep up with—or beat—professional money managers Exploit stock market volatility to your utmost advantage Learn where advisors and consultants fit into smart strategy Build a portfolio that makes sense for your particular situation You don't have to outsmart the market if you can simply outperform it. Cut through the confusion and noise and focus on what actually matters. A Wealth of Common Sense clears the air, and gives you the insight you need to become a smarter, more successful investor.

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

A Wealth of Common Sense

NEW YORK TIMES BESTSELLER For the first time ever, an international coalition of leading researchers, scientists and policymakers has come together to offer a set of realistic and bold solutions to climate change. All of the techniques described here - some well-known, some you may have never heard of - are economically viable, and communities throughout the world are already enacting them. From revolutionizing how we produce and consume food to educating girls in lower-income countries, these are all solutions which, if deployed collectively on a global scale over the next thirty years, could not just slow the earth's warming, but reach drawdown: the point when greenhouse gasses in the atmosphere peak and begin to decline. So what are we waiting for?

Equity Storytelling

Is Wall Street bad for Main Street America? "A well-told exploration of why our current economy is leaving too many behind." —The New York Times In looking at the forces that shaped the 2016 presidential election, one thing is clear: much of the population believes that our economic system is rigged to enrich the privileged elites at the expense of hard-working Americans. This is a belief held equally on both sides of political spectrum, and it seems only to be gaining momentum. A key reason, says Financial Times columnist Rana Foroohar, is the fact that Wall Street is no longer supporting Main Street businesses that create the jobs for the middle and working class. She draws on in-depth reporting and interviews at the highest rungs of business and government to show how the "financialization of America"—the phenomenon by which finance and its way of thinking have come to dominate every corner of business—is threatening the American Dream. Now updated with new material explaining how our corrupted financial system propelled Donald Trump to power, *Makers and Takers* explores the confluence of forces that has led American businesses to favor balance-sheet engineering over the actual kind, greed over growth, and short-term profits over putting people to work. From the cozy relationship between Wall Street and Washington, to a tax code designed to benefit wealthy individuals and corporations, to forty years of bad policy decisions, she shows why so many Americans have lost trust in the system, and why it matters urgently to us all. Through colorful stories of both "Takers," those stifling job creation while lining their own pockets, and "Makers," businesses serving the real economy, Foroohar shows how we can reverse these trends for a better path forward.
