Sammy Keyes and the Sisters of Mercy

Sometimes it's hard to tell the saints from the sinners... Sammy was supposed to be in church to get out of trouble, not into more. But while she's at St. Mary's working off some school detention time, a valuable cross goes missing and Sammy becomes the prime suspect. She knows she's innocent, and also what it feels like to lose something important. Her treasured catcher's mitt has been stolen--heartless Heather must have taken it to throw Sammy off her game in the upcoming softball play-offs. Trouble is, it's working. Sammy needs that glove back. Throw in nuns in feather boas, a homeless girl in high-tops, a carrot-chomping dog, and a safe that needs cracking, and you've got just another week in the life of Sammy Keyes. Praise for the Sammy Keyes series: "Sammy Keyes is feisty, fearless, and funny. A top-notch investigator!" —New York Times bestselling author Sue Grafton "The sleuth delights from start to finish. Keep your binoculars trained on Sammy Keyes." —Publishers Weekly "Sammy Keyes is the hottest sleuth to appear in children's books since Nancy Drew."—The Boston Globe

After a dog she is watching disappears from a city parade and the owner receives a ransom note, thirteen-year-old Sammy must use her detective skill to solve the mystery.

Sammy Keyes and the Runaway Elf

"The most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review What Sammy should have done was put the binoculars down and call 911. What she does instead is tighten up the focus on her right eye to get a better look. There's something very familiar about this thief. But when Sammy eventually spills her story to Officer Borsch, he doesn't believe her. He treats her like some snot-nosed little kid. Well, Sammy's not going to stand for that. She's a snot-nosed seventh grader now, and she knows what she saw. And somehow she's going to prove it. The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each

mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

Sammy Keyes and the Hotel Thief

"The hottest sleuth to appear in children's books since Nancy Drew" (The Boston Globe) is back! Don't miss the eighth book in the series that's been described as "a combination of Carl Hiaasen's *Flush* and Janet Evanovich's *Stephanie Plum* books" (School Library Journal) and hailed as "nonstop whodunits" (Kirkus Reviews)! The artsy crowd thinks Sammy Keyes has a lot of nerve showing up at a fancy reception in high-tops. But when she tackles a robber who's brandishing a gun with one hand and pulling paintings from the wall with the other, they're glad she has nerve. Or are they? Sammy may have stopped one criminal, but the real crime at this show has yet to be discovered. The real crime is more subtle, more artful, than anything Sammy's ever seen. Who knew art could be so dangerous? Praise for the Sammy Keyes series: "If Kinsey Millhone ever hires a junior partner, Sammy Keyes will be the first candidate on the list. She's feisty, fearless, and funny. A top-notch investigator!" —New York Times bestselling author Sue Grafton "The sleuth delights from start to finish. A stash of easy money makes for some hard choices for Sammy Keyes. "An exceptionally good entry in an already remarkable series."--Booklist Sammy Keyes has three wads of cold hard cash in her hot little hands. An old guy gave them to her. Well, actually, he told her to throw them away. With his last dying breath. Which he was taking because Sammy had just scared the life right out of him. So . . . she's got to get this man some help. She's got to do it without being seen herself. And she's got to figure out how to stash that cash. (Aw, c'mon! You'd keep the money too, right?) But it turns out other people are after that money--and now they're after her. Crooks Sammy can handle. The thing that's scaring her to death is Brandon's pool party--and the thought that her crush Casey will be there...

Sammy Keyes and the Cold Hard Cash

"The most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review The bad news: Sammy's made a deadly mistake. The good news: No one knows she did it. The delicious dilemma: Everyone thinks her archenemy Heather is to blame. Now Heather is in a major jam, and in some ways it's only fair—Heather has pinned more than a few crimes on Sammy. Besides, there are distractions galore to keep Sammy from confessing. Like the end of the school year. And the Farewell Dance. Especially the dance, since she's going with Heather's (dreamy) brother Casey. But Sammy knows the truth has an uncanny way of resurfacing, and when it does, the stench can be more vile than the junior high cafeteria. The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

Sammy knew that getting to know her new rockstar dad on a cruise would be a little uncomfortable. . . . But when the heiress to a perfume empire disappears from the ship, it turns out everyone's in for a rocky ride. In this penultimate book in the Sammy Keyes mystery series, Wendelin Van Draanen pays homage to the mystery genre. This book is a classic locked-room whodunnit—Sammy Keyes style. The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

Sammy Keyes and the Killer Cruise

In 1968, during Albert Lepard's fifth escape from a life sentence at Parchman Penitentiary, he kidnapped Lovejoy Boteler, then eighteen years old, from his family's farm in Grenada, Mississippi. Three decades later, still beset by half-buried memories of that time, Boteler began researching his kidnapper's nefarious, sordid life to discover how and why this terrifying abduction occurred. *Crooked Snake: The Life and Crimes of Albert Lepard* is the true story of Lepard, sentenced to life in Parchman for the murder of seventy-four-year-old Mary Young in 1959. During the course of his sentence, Lepard escaped from prison six times in fourteen years. In *Crooked Snake*, Boteler pieces together the story of this cold-blooded murderer's life using both historical records and personal interviews—over seventy in all—with ex-convicts who gravitated to and ran with Lepard, the family members who fed and sheltered the fugitive during his escapes, the law officers who hunted him, and the regular folks who were victimized in his terrible wake. Throughout *Crooked Snake*, Boteler reveals his kidnapper's hardscrabble childhood and tracks his whereabouts before his incarceration and during his jailbreaks. Lepard's escapes take him to Florida, Michigan, Kansas, California, and Mexico. *Crooked Snake* captures a slice of history and a landscape that is fast disappearing. These vignettes describe Mississippi's countryside and spirit, ranging from sharecropper family gatherings in Attala County's Seneasha Valley to the twenty-thousand-acre Parchman farm and its borderlands teeming with alligator, panther, bear, and wild boar.

Crooked Snake

The final mystery starring Sammy Keyes: "the most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review
Sammy doesn't go looking for trouble, but she seems to find it everywhere. She's forever sniffing out clues and chasing down bad guys—and driving her friends a little nuts. She's gone up against thieves and counterfeiters and gangsters and blackmailers and murderers, and always stayed one step ahead. Until now. Last night, one of the bad guys caught up. Last night, someone followed Sammy up the fire escape and pushed her from the third story. Now she's in the hospital, out cold. And her friends are left with the questions Sammy's always been so good at answering: Why? How? But most of all . . . WHO? In this emotional conclusion to her beloved long-running series, Wendelin Van Draanen shows just how many lives one nosy girl can touch and pays tribute to a life well sleuthed. Praise for Sammy Keyes: "If Kinsey Millhone ever hires a junior partner, Sammy Keyes will be the first candidate on the list. She's feisty, fearless, and funny. A top-notch investigator!" —Sue Grafton
"Sammy's brave, resourceful, observant and a loyal friend, but this girl sleuth is no well-mannered Nancy Drew. She's endearingly hot-tempered, nosy, and not always obedient—in short, she's someone I want to read about again." —Margaret Maron

I remembered his words when I was in doubt and darkness myself. I know you could if you only would." Holmes was accessible upon the side of flattery, and also, to do him justice, upon the side of kindness. The two forces made him lay down his gum-brush with a sigh of resignation and push back his chair. "Well, well, Mrs. Warren, let us hear about it, then. You don't object to tobacco, I take it? Thank you, Watson--the matches! You are uneasy, as I understand, because your new lodger remains in his rooms and you cannot see him. Why, bless you, Mrs. Warren, if I were your lodger you often would not see me for weeks on end." "No doubt, sir; but this is different. It frightens me, Mr. Holmes. I can't sleep for fright. To hear his quick step moving here and moving there from early morning to late at night, and yet never to catch so much as a glimpse of him--it's more than I can stand. My husband is as nervous over it as I am, but he is out at his work all day, while I get no rest from it. What is he hiding for? What has he done? Except for the girl, I am all alone in the house with him, and it's more than my nerves can stand." Holmes leaned forward and laid his long, thin fingers upon the woman's shoulder. He had an almost hypnotic power of soothing when he wished. The scared look faded from her eyes, and her agitated features smoothed into their usual commonplace. She sat down in the chair which he had indicated. "If I take it up I must understand every detail," said he. "Take time to consider. The smallest point may be the most essential. You say that the man came ten days ago and paid you for a fortnight's board and lodging?" "He asked my terms, sir. I said fifty shillings a week. There is a small sitting-room and bedroom, and all complete, at the top of the house." "Well?" "He said, 'I'll

Arthur Conan Doyle was born the third of ten siblings on 22 May 1859 in Edinburgh, Scotland. His father, Charles Altamont Doyle, was born in England of Irish descent, and his mother, born Mary Foley, was Irish. They were married in 1855. Although he is now referred to as "Conan Doyle," the origin of this compound surname (if that is how he meant it to be understood) is uncertain. His baptism record in the registry of St Mary's Cathedral in Edinburgh gives 'Arthur Ignatius Conan' as his Christian name, and simply 'Doyle' as his surname. It also names Michael Conan as his godfather. At the age of nine Conan Doyle was sent to the Roman Catholic Jesuit preparatory school, Hodder Place, Stonyhurst. He then went on to Stonyhurst College, leaving in Arthur Conan Doyle was born the third of ten siblings on 22 May 1859 in Edinburgh, Scotland. He then went on to Stonyhurst College, leaving in 1875. From 1876 to 1881 he studied medicine at the University of Edinburgh. This required that he provide periodic medical assistance in the towns of Aston (now a district of Birmingham) and Sheffield. While studying, Conan Doyle began writing short stories. His first published story appeared in "Chambers's Edinburgh Journal" before he was 20. Following his graduation, he was employed as a ship's doctor on the SS Mayumba during a voyage to the West African coast. He completed his doctorate on the subject of *tabes dorsalis* in 1885. In 1885 Conan Doyle married Louisa (or Louise) Hawkins, known as "Touie." She suffered from tuberculosis and died on 4 July 1906. The following year he married Jean Elizabeth Leckie, whom he had first met and fallen in love with in 1897. Due to his sense of loyalty he had maintained a purely platonic relationship with Jean while his first wife was alive. Jean died in London on 27 June 1940. Conan Doyle fathered five children. Two with his first wife-Mary Louise (28 January 1889 - 12 June 1976), and Arthur Alleyne Kingsley, known as Kingsley (15 November 1892 - 28 October 1918). With his second wife he had three children-Denis Percy Stewart (17 March 1909 - 9 March 1955), second husband in 1936 of Georgian Princess Nina Mdivani (circa 1910 - 19 February 1987; former sister-in-law of Barbara Hutton); Adrian Malcolm (19 November 1910-3 June 1970) and Jean Lena Annette (21 December 1912-18 November 1997). Conan Doyle was found clutching his chest in the hall of Windlesham, his house in Crowborough, East Sussex, on 7 July 1930. He had died of a heart attack at age 71. His last words were directed toward his wife: "You are wonderful." The epitaph on his gravestone in the churchyard at Minstead in the New Forest, Hampshire, reads: STEEL TRUE BLADE STRAIGHT ARTHUR CONAN DOYLE KNIGHT PATRIOT, PHYSICIAN & MAN OF LETTERS Conan Doyle's house, Undershaw, located in Hindhead, south of London, where he had lived for a decade, had been a hotel and restaurant between 1924 and 2004. It now stands empty while conservationists and Conan Doyle fans fight to preserve it. A statue honours Conan Doyle at Crowborough Cross in Crowborough, where Conan Doyle lived for 23 years. There is also a statue of Sherlock Holmes in Picardy Place, Edinburgh, close to the house where Conan Doyle was born.

The Return of Sherlock Holmes Book Summary: The Case Book of Sherlock Holmes has twelve stories of the adventures of Holmes and Watson, mostly in their later years. The stories were published in different magazines at different times and were later compiled in the The Case-Book of Sherlock Holmes in 1927. The Adventure of the Mazarin Stone Watson is shown in Holmes's quarters by Billy, a young help. They discuss Holmes' new case of finding the Mazarin stone and the two men who may have possibly stolen it, Count Sylvius and Sam Merton. Count Sylvius is clever and cunning, while Sam is just the loyal muscle-man. Holmes fears that the two might be planning to kill him by shooting him thorough his window and so has a very life-likemwax effigy of him installed in his window. Holmes comes and updats Watson on the new facts of the case. Billy, soon after, comes and informs of Count Sylvius requesting a visit. Holmes and Watson hide in the bedroom as Count is shown into the living room. Holmes gives a note to the Watson with instructions for Scotland Yard and asks him to leave immediately. The count tries to strike on the effigy misunderstanding it to be Holmes when Holmes goes out to meet him. Holmes informs the count of his knowledge about his criminal activities and the witnesses he has, who will implicate the Count. He asks them to surrender the stone or be arrested. He also calls Sam Merton and ask the two men to discuss their situation. Once he leaves, the two men decide to give a false confession to Holmes while deciding to smuggle the diamond, which was in the pocket of the count at the moment, to Amsterdam. Holmes, who had been hiding in the plain sight by impersonating the effigy, catches them red-handed and hands them to the waiting police. Lord Cantlemere comes soon after and Holmes pranks him by placing the diamond in the pocket of a sceptical Lord Cantlemere. Lord Cantlemere is joyous and leaves with the prize. The Problem of the Thor Bridge Holmes is engaged by a Neil Gibson, the Gold King, a ruthless businessman popular for his violent and aggressive nature, for acqutting his governess Miss Grace Dunbar from the charge of murder of his wife. The wife was found dead at the mouth of the Thor

bridge with a bullet shot to her head, and a revolver was found upon investigation in the wardrobe of the governess. The manager of the client comes before the client himself and describes Gibson's violent ways. Holmes successfully deduces of an infatuation between the businessman and the governess and chides him for his lust. The businessman confesses of having feelings for the Dunbar, as he had nothing in common with his wife whom he married in an impulse for her sheer beauty, but mentions that Dunbar was against an illicit relationship and only helped him be a bit more humane. He also suspects that the murder was an accident as his wife was mentally unstable. Holmes reaches Winchester and examines the murder scene, he notices a chip in the firm and strong parapet. He also learns of a note by Dunbar clutched by the deceased, which he finds suspicious. He meets Dunbar and learns of the wife's jealousy. She asked Dunbar, in a note which she asked to be burned, to come to Thor Bridge. Dunbar replies via a note, which was later recovered from the wife. When she goes to meet her, the wife retaliates with curses and Dunbar rushes back. The next morning, the wife is found dead. On the way back, Holmes asks for Watson's revolver and uses a stone to weigh it down while holding it. When he drops the revolver, it is sucked into the lake a chip is formed on the parapet. Holmes surmises that the wife committed suicide in the same manner to implicate Dunbar, and used a copy of the revolver as a murder weapon which she had placed earlier in the day in her wardrobe. The Adventure of the Creeping Man Watson is called upon by Holmes, and he is somewhat annoyed at this. When he reaches Holmes, he finds him deep in thought over a case. His client, Mr. Bennet, comes and explains the condition of his future father-in-law Professor Pressbury, to whom he is also the secretary. The professor is a man of sharp wit and a good reputation. However, he fell in love with a much younger girl who won't accept his proposal given his age. The professor then disappears on a foreign journey, to Prague which his household learns through some other source. The professor gets mysterious after this journey. He asks the secretary to not open any letters with a cross marked on them, or to touch a particular wooden box he had brought from his travels. He is also bitten by his much-loved dog twice. He grows more violent and is observed to crawl like an animal by Bennet or climb like a monkey on the walls by Edith, Professor's daughter, in night. Holmes and Watson go to Camford and test Professor's memory which they find sharp as he is able to recall not calling them to him, rather violently. Holmes deduces from the pattern of the Professor's ravings and from an address he secretly corresponds to, that he is administering a drug, possibly to become young so as to marry the girl he fancies, that leaves him violent and animal-like. When they arrive nine days later as was the Professor's pattern, they secretly watch him perform eccentricities like a monkey and provoke his dog in biting him almost fatally. They discover that box, with empty vials and a letter from Lowenstein on the drugs and its side-effects which led to the incident. The Adventure of the Sussex Vampire Holmes receives a letter from a law firm about a case concerning vampires. He is sceptical when he reads another letter, that is from the client himself who was suggested Holmes by the law firm. Robert Ferguson married for the second time to a beautiful Peruvian woman, who seemed to have taken a dislike to his son by first wife, Jack, who is also a cripple, and has assaulted him twice. She has also been witnessed to suck blood from her baby of a few months by the baby's governess. After Ferguson catches her in the act, she confines to her rooms and Ferguson seeks Holmes' help. He comes with them to Lemberley and finds Jack over-attached to his father. He also observes a physical ailment in the dog which he is informed appeared lately. Watson attends the wife after her faithful maid complains of her mistress' ailment and finds the wife in throes of delirium out of anxiety. Holmes examines the baby's wounds while Jack is present in the room and notices the look of loathing on Jack's face. He writes his deductions and sends them to the wife who then agrees to see them. Holmes breaks in front of them that Jack had been poisoning the baby, which he tested on the dog previously which led to its paralysis, out of jealousy. The act on the part of the wife was meant to suck poison out of the baby's body. Holmes leaves the couple to sort their differences after suggesting a long voyage for Jack. The Adventure of the Three Garridebs Watson is informed by Holmes of a fortune if he can find a man with the name of Garrideb. Watson finds one Nathan Garrideb in the phone book, while another one, John Garrideb visits them and is annoyed of their involvement in his matters. He informs them of an American Alexander Garrideb, with a large fortune and no heirs, had divided his property in three parts and would give each part only to a Garrideb, given that all three are present. Nathan involves Holmes in hopes to find the third Garrideb. When John leaves, Holmes tells Watson that his story is false and they visit Nathan who is devoted to his personal museum of strange artifacts of all kinds. John comes suddenly and informs Nathan of the existence of a Howard Garrideb and asks him to meet Howard. Holmes deduces that John is lying but lets Nathan go anyway. He does some research and gets to know that a forger Prescott used to live in Nathan's apartment before being shot by Killer Evans who has been disguising himself as John Garrideb. Holmes and Watson wait for Evans in Nathan's apartment after Nathan leaves and discover Evans arriving and opening a gap in the floor. The three men have an altercation in which Watson is slightly injured and it is

discovered that Prescott's machinery and counterfeit notes were under Nathan's apartment.....

About the Author: Arthur Conan Doyle was born on 22 May 1859 in Edinburgh into a prosperous Irish family. He trained as a doctor, gaining his degree from Edinburgh University in 1881. He worked as a surgeon on a whaling boat and also as a medical officer on a steamer travelling between Liverpool and West Africa. He then settled in Portsmouth on the English south coast and divided his time between medicine and writing. Sherlock Holmes made his first appearance in 'A Study of Scarlet', published in 'Beeton's Christmas Annual' in 1887. Its success encouraged Conan Doyle to write more stories involving Holmes but, in 1893, Conan Doyle killed off Holmes, hoping to concentrate on more serious writing. A public outcry later made him resurrect Holmes. In addition, Conan Doyle wrote a number of other novels, including 'The Lost World' and various non-fictional works. These included a pamphlet justifying Britain's involvement in the Boer War, for which he was knighted and histories of the Boer War and World War One, in which his son, brother and two of his nephews were killed. Conan Doyle also twice ran unsuccessfully for parliament. In later life he became very interested in spiritualism.

"Well, Mrs. Warren, I cannot see that you have any particular cause for uneasiness, nor do I understand why I, whose time is of some value, should interfere in the matter. I really have other things to engage me." So spoke Sherlock Holmes and turned back to the great scrapbook in which he was arranging and indexing some of his recent material. But the landlady had the pertinacity and also the cunning of her sex. She held her ground firmly. "You arranged an affair for a lodger of mine last year," she said--"Mr. Fairdale Hobbs." "Ah, yes--a simple matter." "But he would never cease talking of it--your kindness, sir, and the way in which you brought light into the darkness. I remembered his words when I was in doubt and darkness myself. I know you could if you only would." Holmes was accessible upon the side of flattery, and also, to do him justice, upon the side of kindness. The two forces made him lay down his gum-brush with a sigh of resignation and push back his chair.

The Return of Sherlock Holmes Book Summary: The Adventure of the Empty House Holmes dramatically returns from the dead, or from being presumed dead. He's not a zombie. He and Watson reunite to take down a would-be assassin of Holmes, and murderer of Ronald Adair, Colonel Moran. With Moran in jail Holmes can now safely return to London and resume his detective business. The Adventure of the Norwood Builder A young man named John Hector McFarlane is falsely accused of murdering Jonas Oldacre. Despite his protestations of innocence, there's no evidence to be found in his defense. Until Holmes takes the case, of course. By using some forensic science and staging a fake fire, Holmes is able to flush Oldacre out of hiding. Oldacre tried to revenge himself upon McFarlane's parents by faking his death and framing McFarlane. The Adventure of Dancing Men This one is not nearly as fun as it sounds, alas. Watson and Holmes do not go clubbing. They do, however, stop a man from stalking a woman. Hilton Cubitt hires Holmes to help him find out who has been sending him weird encoded messages that are freaking out his wife. Holmes cracks the code, but arrives too late to prevent the death of Hilton and the attempted suicide of his wife. Who sent the messages and killed Hilton? It was Mrs. Cubitt's ex-boyfriend, a criminal from Chicago who wanted to win her back. He goes to jail and Elsie Cubitt recovers from her suicide attempt. The Adventure of the Solitary Cyclist A woman named Violet Smith has had some weird things happen to her lately, and she hires Holmes and Watson to get to the bottom of things. Violet recently came in contact with two friends of her deceased uncle. One of the men, Mr. Woodley, is sleazy; the other, Mr. Carruthers, hires Violet as a governess and then proposes to her. Poor Violet is already engaged and wants them to leave her alone. She also has a strange guy following her on her bike when she rides to the train-station after work. Holmes connects it all together and arrives in time to save Violet after she's kidnapped by Mr. Woodley. Turns out Violet inherited a lot of money from her dead uncle and Woodley wanted to marry her so he could get it. Carruthers was in on the scheme, but ended up genuinely falling for Violet. He was also the mystery biker who tried to protect her from Woodley. The Adventure of the Priory School A young heir goes missing from a fancy boarding school, and the head of the school hires Holmes and Watson to find him. During their search they find a missing professor dead and fear for the boy's safety. Their search leads them back around to the boy's own father, the Duke of Holderness, and his secretary James Wilder. When confronted, the Duke makes a shocking confession. James Wilder is no secretary at all, but the Duke's illegitimate son. The supposed secretary hired a man named Reuben Hayes, to help him kidnap his younger half-brother in an effort to force his dad into making him a legitimate heir. The young boy is recovered safely and is reunited with his parents. The Adventure of Black Peter A ship captain named Peter Carey is found dead, stabbed through with a harpoon. Ouch. A police inspector named Stanley Hopkins brings Holmes the case; Hopkins is being mentored by Holmes. Peter Carey was an abusive jerk, so it's not surprising that he has enemies; but his murder is a total mystery. After a stakeout, Holmes, Watson, and Hopkins catch a guy named Neligan returning to the scene of the crime to retrieve some incriminating evidence. He swears he didn't kill Peter though and Holmes believes him. After some more investigating, Holmes catches the real killer: Peter's old first mate, Patrick Cains, who was trying to get in on a financial scheme that Peter had going. The Adventure of Charles Augustus Milverton Milverton is a notorious blackmailer who has ruined lots of people and caused many more grief. Holmes is hired by a lady who is being blackmailed by Milverton, and Holmes is determined to stop this guy once and for all. But Milverton is very crafty and Holmes can't get anything on him. Finally, Holmes and Watson break into Milverton's house in an effort to get the incriminating letters back for their client. While there, they end up witnessing Milverton's murder by an angry mystery woman. The two hide what they know from the cops and never reveal the identity of Milverton's killer. The Adventure of the Six Napoleons No, Napoleon wasn't cloned here. Though that would be pretty awesome/weird. There's someone going around London busting statues of Napoleon. But what starts off as a weird nuisance quickly turns deadly after a statue owner finds a dead guy on his doorstep and a broken statue outside. Holmes figures out that the statues were all made by the same person, and he connects the dots back to an Italian named Beppo, who hid something in one of the statues. After catching Beppo, Holmes buys the last Napoleon statue and busts it open himself, revealing a famous pearl hidden inside. The Adventure of the Three Students While doing some research in a university town, a professor approaches Holmes and Watson for help. The professor is going to administer a scholarship exam in Greek the next day, and he says that someone has broken into his rooms and seen – maybe even copied – the exam. It's a cheating scandal! Holmes narrows down the suspects to three students who live nearby. He stages a trap for Gilchrist, the least likely suspect. Gilchrist confesses and says he's leaving school to get a job. Scandal averted. The Adventure of the Golden Pince-Nez First up, pince-nez are a type of glasses popular in the nineteenth century. They just sit on the nose and don't

have any earpieces. Check out a picture [here](#). In this story Stanley Hopkins once again calls Holmes and Watson in on a baffling case. A young guy named Willoughby Smith, an assistant to a Professor Coram, has been murdered. Anyone could have entered the house, killed him, and run away. A pair of glasses are found on the body. After realizing that the killer needed glasses, Holmes puts other clues together and figures out that the murderer is still in the house. He finds her, a Russian woman named Anna. Anna is married to Professor Coram, also Russian, who betrayed his friends and fled the country. Anna came here to find evidence to free one of her friends from jail in Russia. She killed Willoughby by accident. After her confession she dies from a poison capsule that she took earlier. The Adventure of the Missing Three-Quarter A young rugby player named Cyril Overton barges in on Holmes and Watson and asks for help finding his missing teammate before their big game. The missing teammate is Godfrey Staunton and he disappeared with an older guy after sending a mysterious telegram. Holmes tracks him to a nearby area but is stonewalled by a Dr. Armstrong, who is protecting Staunton. Holmes finally figures out his location and discovers that Staunton was secretly married, and that his wife had fallen ill and recently died. Dr. Armstrong was a friend and tried to protect the young couple from scrutiny. Holmes and Watson leave the grieving Godfrey in peace and return home. The Adventure of the Abbey Grange Stanley Hopkins returns again and gets Holmes and Watson to help him out on a home invasion/murder case. A woman named Mary Frasier, wife of Sir Eustace Brackenstall, witnessed her husband's murder. She says a gang of men broke into their home, killed her husband, tied her up, and stole some silver dishes. It all seems like a clear-cut case, but Holmes's gut tells him otherwise. After some digging he realizes Mary Frasier is lying and confronts her with evidence that a man named Jack Crocker was involved. Jack confesses all. Turns out Sir Eustace was an abusive husband and that Jack and Mary were really in love. Jack came to see Mary and was confronted by Sir Eustace, whom he killed in self-defense. Afterwards, Jack, Mary, and her maid Theresa covered up the crime. Holmes agrees that Jack was justified and lets him go without reporting it to the police. The Adventure of the Second Stain Watson and Holmes are hired by the Prime Minister, Lord Bellingham, and the European Secretary, Trelawney Hope, to help recover a stolen political document. If the document gets into the wrong hands, it could spark a war. Holmes and Watson track the document to a spy named Eduardo Lucas, who has recently been murdered by his wife, who actually was married to one of his assumed identities. After some digging, Holmes realizes that Trelawney Hope's wife has the letter. She was being blackmailed and delivered the letter to Eduardo, not realizing the trouble she would cause. After his murder she stole the letter back. Holmes quickly puts it back where it belongs, and the crisis is averted. About the Author: Arthur Conan Doyle was born on 22 May 1859 in Edinburgh into a prosperous Irish family. He trained as a doctor, gaining his degree from Edinburgh University in 1881. He worked as a surgeon on a whaling boat and also as a medical officer on a steamer travelling between Liverpool and West Africa. He then settled in Portsmouth on the English south coast and divided his time between medicine and writing. Sherlock Holmes made his first appearance in 'A Study of Scarlet', published in 'Beeton's Christmas Annual' in 1887. Its success encouraged Conan Doyle to write more stories involving Holmes but, in 1893, Conan Doyle killed off Holmes, hoping to concentrate on more serious writing. A public outcry later made him resurrect Holmes. In addition, Conan Doyle wrote a number of other novels, including 'The Lost World' and various non-fictional works. These included a pamphlet justifying Britain's involvement in the Boer War, for which he was knighted and histories of the Boer War and World War One, in which his son, brother and two of his nephews were killed. Conan Doyle also twice ran unsuccessfully for parliament. In later life he became very interested in spiritualism.

The Adventure of the Red Circle and the Adventure of Wisteria Lodge

The Adventure of the Red Circle: Would you rent a room to a suspicious tenant who disappeared behind his door and never re-emerged? Sounds pretty suspicious, right? But, that's exactly the scenario we have in Sir Arthur Conan Doyle's "The Adventure of the Red Circle." We have one landlady, a lodger who demands the utmost privacy and a strange ring of criminal behavior just outside the door. The Adventure of Wisteria Lodge: The plot is set in motion when a man named John Scott Eccles requests the help of the brilliant consulting detective Sherlock Holmes. Eccles spent the night at Wisteria Lodge, the Surrey home of Mr. Aloysius Garcia. Eccles woke up in the morning to find that Garcia and his

two servants had vanished. Shortly after he arrives at Holmes' apartment, two police officers question Eccles regarding the murder of Aloysius Garcia. However, the two policemen readily believe Eccles when he says he knows nothing about the man's death. Holmes and his friend Dr. Watson travel to Surrey to continue the investigation.

The Return of Sherlock Holmes Book Summary : The action takes place in March 1897. Sherlock Holmes has been ordered to take a vacation for his health. He and his friend Dr. John Watson rent a cottage on the coast of Cornwall. Holmes enjoys learning about the ancient history of the area. For that reason, he makes the acquaintance of the local clergyman Mr. Roundhay, an amateur archaeologist. Mr. Roundhay rents two rooms at his vicarage, a living room and a bedroom directly above it, to Mortimer Tregennis, a man who is wealthy enough to not have to work. Mortimer Tregennis' sister Brenda and two brothers George and Owen live in a cottage nearby. Mortimer Tregennis says that the separation in his family was caused by a dispute he had with his sister and brothers about money and property several years earlier. However, he claims that the disagreement has now been forgotten, that they are friends again and that he visits them regularly. Mr. Roundhay and Mortimer Tregennis arrive at Holmes' and Watson's cottage early one morning with some startling news. Brenda Tregennis has been found dead and the two brothers George and Owen have gone mad. Mortimer Tregennis says that he went to see his sister and brothers the previous evening and that they played cards together. The evening was cold and damp and, for that reason, there was a fire in the fireplace. Mortimer Tregennis left at around ten o'clock. In the morning, Mortimer Tregennis went out early for a stroll and saw the doctor's carriage heading towards the home of his sister and brothers. In the cottage, Mortimer Tregennis saw his sister and brothers still at the same places at the table which they had been at the night before with the playing cards still in front of them. However, Brenda was dead and George and Owen were speaking nonsense and singing snatches of songs. They all had looks of terror on their faces. Although the window had been opened by the housekeeper Mrs. Porter, the room was very stuffy. It is revealed that Mrs. Porter fainted when she first entered the room. The doctor also nearly fainted and had to sit down in a chair. Holmes and Watson are shown the body of Brenda Tregennis. 1910 illustration by Gilbert Holiday. Holmes and Watson go to the cottage. A carriage taking the insane George and Owen Tregennis to an asylum passes them on the way. While walking up the sandy path towards the cottage, Holmes appears to clumsily knock over a watering can. Holmes and Watson are shown the body of Brenda Tregennis, which has been moved to her bedroom. Holmes carefully examines the room where she died, including the ashes in the fireplace. He determines that the incident must have happened shortly after Mortimer Tregennis left. He later reveals to Watson that he deliberately knocked over the watering can in order to see what Mortimer Tregennis' footprints looked like. He could then compare them with footprints which were left on the sandy path on the previous rainy evening. Holmes did not notice footprints belonging to anyone other than Mortimer Tregennis left the night before. When they return from a walk, Holmes and Watson find the famous explorer Dr. Leon Sterndale waiting for them at their cottage. Dr. Leon Sterndale is known to be a frequent visitor to that part of Cornwall. Holmes and Watson have seen him a few times but have not spoken to him before. Dr. Sterndale says that he has become good friends with the Tregennis family and that he is distantly related to them. He says that he had gone to Plymouth, intending to take a boat to Africa, but returned when he received a telegram from Mr. Roundhay telling him the awful news. Consequently, he has missed his boat and some of his luggage has already been sent on to Africa, although this does not seem to trouble him very much. Dr. Leon Sterndale asks Holmes if he can offer any explanation for the crime. When Holmes says that he cannot, the explorer leaves angrily. Shortly afterwards, Sherlock Holmes leaves too and does not return for several hours. When he comes back, he finds a telegram from Dr. Sterndale's hotel in Plymouth, the name of which he got from Mr. Roundhay. The telegram confirms that the explorer had recently stayed there and that some of his luggage has been sent on to Africa.....
