The Age of Innocence

Romance about three wealthy New Yorkers caught in tragic love triangle. Ironically-titled story chronicles grandeur and hypocrisy of high society in the 1870's.

The Age of Innocence

The Age of Innocence marks the pinnacle of Edith Wharton's career as one of the finest American novelists of her era. The narrative follows Newland Archer, of upper-crust 1870s New York, whose passion for the mysterious Countess Ellen Olenska leads him to question the very foundations of his way of life. Written in the aftermath of World War I, the novel explores the psychological and cultural paradoxes of desire in a world undergoing unprecedented transformations. This edition includes a critical introduction and a range of appendices that contextualize the novel in terms of its modernist themes and tensions.

The Age of Innocence

It Was Going to Be The Perfect Wedding - Until He Showed Up... The Age of Innocence centers on an upper-class couple's impending marriage, and the introduction of the bride's cousin, plagued by scandal, whose presence threatens their happiness. Though the novel questions the assumptions and morals of 1870s New York society, it never develops into an outright condemnation of the institution. The novel is noted for Wharton's attention to detail and its accurate portrayal of how the 19th-century East Coast American upper class lived, and the social tragedy of its plot. Wharton was 58 years old at publication; she had lived in that world and had seen it change dramatically by the end of World War I. The Age of Innocence was a softer and more gentle work than The House of Mirth, set in the time of her childhood. Wharton wrote, ""I found a momentary escape in going back to my childish memories of a long-vanished America..." Get Your Copy Now.

The Age of Innocence

"As the scion of one of New York's leading families, Newland Archer has been born into a life of sumptuous privilege and strict duty. Sensitive and intelligent, he respects the rigid social codes of his class, and is thankful that his forthcoming marriage to May Welland is to 'one of his own kind'. But the arrival of the Countess Olenska, a free spirit who breathes clouds of European sophistication, makes him question the path on which his upbringing has set him. As his fascination with her grows he discovers how difficult it is to escape the bounds of the society that has shaped him. Wharton's Pulitzer Prize-winning novel is at once a poignant story of frustrated love and an extraordinarily vivid, delightfully satirical portrait of a vanished world."--Publisher's website.

The Age of Innocence

The Age of Innocence

Edith Wharton's most famous novel, written immediately after the end of the First World War, is a brilliantly realized anatomy of New York society in the 1870s. The charming Newland Archer is content to live within its constraints until he meets Ellen Olenska, whose arrival threatens his impending marriage as well as his comfortable future. - ;"They lived in a kind of hieroglyphic world, where the real thing was never said or done or even thought, but only represented by a set of arbitrary signs." Edith Wharton's most famous novel, written immediately after the end of the First World War, is a brilliantly realized anatomy of New York society in the 1870s, the world in which she grew up, and from which she spent her life escaping. Newland Archer, Wharton's protagonist, charming, tactful, enlightened, is a thorough product of this society; he accepts its standards and abides by its rules but he also recognizes its limitations. His engagement to the impeccable May Welland assures him of a safe and conventional future, until the arrival of May's cousin Ellen Olenska puts all his plans in jeopardy. Independent, free-thinking, scandalously separated from her husband, Ellen forces Archer to question the values and assumptions of his narrow world. As their love for each other grows, Archer has to decide where his ultimate loyalty lies. -

The Age of Innocence

Engaged to the docile May Welland, Newland Archer falls madly in love with the nonconformist Countess Olenska, an older woman with a reputation, but his allegiance to the social code of their set makes their love an impossibility.

The Age of Innocence is a 1993 American historical romantic drama film directed by Martin Scorsese. The screenplay, an adaptation of the 1920 novel *The Age of Innocence* by Edith Wharton, was written by Scorsese and Jay Cocks. The film stars Daniel Day-Lewis, Michelle Pfeiffer, Winona Ryder and Miriam Margolyes, and was released by Columbia Pictures. The film recounts the courtship and marriage of Newland Archer (Day-Lewis), a wealthy New York society attorney, to May Welland (Ryder); Archer then encounters and legally represents Countess Olenska (Pfeiffer) prior to unexpected romantic entanglements. The Age of Innocence was released theatrically on October 1, 1993 by Columbia Pictures. It received critical acclaim, winning the Academy Award for Best Costume Design, and being nominated for Best Actress in a Supporting Role (Winona Ryder), Best Adapted Screenplay, Best Original Score and Best Art Direction.[2] However, it was a box office failure, grossing \$32.3 million against a \$34 million budget. Scorsese dedicated the film to his father, Luciano Charles Scorsese, who had died the month before the film was released. Luciano and his wife, Catherine Scorsese, had small cameo appearances in the film.

The Touchstone

This book contains Edith Wharton's first novella and the second book she ever wrote, 'The Touchstone'. This narrative follows Stephen Glennard, a young man whose destitution leads him into a dubious money-making scheme which he embarks on so that he can afford to marry the woman he loves. After seeing an advertisement seeking any papers or correspondences related to a recently deceased author that he had been in communication with, he snaps up the opportunity. A tale of how social strata, money, and self-deprecation can impact love, 'The Touchstone' is well worth a read and is not to be missed by fans and collectors of Wharton's prolific work. This classic text has been chosen for its immense literary value, and we are proud to republish it here, complete with a new introductory biography of the author. Edith Wharton was a Pulitzer Prize-winning American novelist, short story writer, and designer.

The Age of Innocence

The return of the beautiful Countess Olenska into the rigidly conventional society of New York sends reverberations throughout the upper reaches of society. Newland Archer, an eligible young man of the establishment is about to announce his engagement to May Welland, a pretty ingénue, when May's cousin, Countess Olenska, is introduced into their circle. The Countess brings with her an aura of European sophistication and a hint of scandal, having left her husband and claimed her independence. Her sorrowful eyes, her tragic worldliness and her air of unapproachability attract the sensitive Newland and, almost against their will, a passionate bond develops between them. But Archer's life has no place for passion and, with society on the side of May and all she stands for, he finds himself drawn into a bitter conflict between love and duty.

The Age of Innocence

The Age of Innocence: Large Print Pulitzer Prize for Fiction 1921 by Edith Wharton The Age of Innocence centers on one society couple's impending marriage and the introduction of a scandalous woman whose presence threatens their happiness. Though the novel questions the assumptions and mores of turn of the century New York society, it never devolves into an outright condemnation of the institution. In fact, Wharton considered this novel an "apology" for the earlier, more brutal and critical, "The House of Mirth." Not to be overlooked is the author's attention to detailing the charms and customs of this caste. The novel is lauded for its accurate portrayal of how the nineteenth-century East Coast American upper class lived and this combined with the social tragedy earned Wharton a Pulitzer - the first Pulitzer awarded to a woman.

Ibiza, 1960: on the beautiful Mediterranean island, the high-rise resorts are still decades away. By chance, Damien Enright, twenty-one-years old and Irish, arrives there with his wife and two children

and finds a handful of down-at-heel foreign Bohemians leading wild, hedonistic lives. He and his wife get involved; their marriage quickly breaks down and he spends two heartbroken years in London before returning to Ibiza with a new partner and another child. They take LSD and inspired by dreams of a brave new world, cross to the remote island of Formentera to lead alternative lives. This is a decade before Howard Marks became Mr. Nice: the embryonic drug culture in the west motivated not by profit but by idealism. Sometimes, that early search for freedom ventured not just beyond the mind but beyond the law. To sustain their families on Formentera, Enright and two desperado pals head to London in a beat-up car and do some risky travellers cheque scams. Then, restless and unsure of his love for his partner, he makes a hair-raising trek to Turkey in the depths of winter to find hashish for the group. Things go badly awry and he finds himself a fugitive, at the mercy of unreliable friends. Part road story, drug story, love story, *Dope in the Age of Innocence* is fundamentally a parable about drug enlightenment, the loss and rediscovery of love and the tempering of innocence.

The Age of Innocence Illustrated

Winner of the 1921 Pulitzer Prize, *The Age of Innocence* is Edith Wharton's masterful portrait of desire and betrayal during the sumptuous Golden Age of Old New York, a time when society people "dreaded scandal more than disease." This is Newland Archer's world as he prepares to marry the beautiful but conventional May Welland. But when the mysterious Countess Ellen Olenska returns to New York after a disastrous marriage, Archer falls deeply in love with her. Torn between duty and passion, Archer struggles to make a decision that will either courageously define his life-or mercilessly destroy it. *The Age of Innocence* centers on an upper-class couple's impending marriage, and the introduction of the bride's cousin, plagued by scandal, whose presence threatens their happiness. Though the novel questions the assumptions and morals of 1870s New York society, it never develops into an outright condemnation of the institution. The novel is noted for Wharton's attention to detail and its accurate portrayal of how the 19th-century East Coast American upper class lived, as well as for the social tragedy of its plot. Wharton was 58 years old at publication; she had lived in that world and had seen it change dramatically by the end of World War I. The title is an ironic comment on the polished outward manners of New York society when compared to its inward machinations. It is believed to have been drawn from the popular painting *A Little Girl* by Sir Joshua Reynolds that later became known as *The Age of Innocence* and was widely reproduced as the commercial face of childhood in the later half of the 18th century. The title, while ironic, was not as caustic as the title of the story featured in *The House of Mirth*, which Wharton had published in 1905.

After publishing articles in leading American journals for over two decades, Kishore Mahbubani was described as "an Asian Toynbee, preoccupied with the rise and fall of civilizations" by *The Economist*. Trained in philosophy in North America and Asia, and well-experienced in real politik as a diplomat on the world stage, Mahbubani has unusual insight into America's ever more troubled relationship with the rest of the world. In *Beyond the Age of Innocence* Mahbubani reveals to us the America that Asia and the rest of the world see. We are a country that has given hope to billions by creating a society where destiny is not determined at birth. After the Second World War, we created a global order which allowed many nations to flourish. But when the Cold War ended, America made a terrible mistake. We started behaving like a normal country, ignoring the plight of others, indifferent to the consequences of our decisions on others. America was imprudent in its policy towards two large masses of mankind: the Chinese and Muslim populations. Guantanamo damaged our moral authority, but Abu Ghraib, paradoxically, may have demonstrated the accountability of American institutions. Still, disillusionment with America has spread to all corners. To allow any lasting gap between America and the world, Mahbubani argues, would be a colossal strategic mistake for America and a huge loss to the world. But there is still time for the US to change course; and in this thought-provoking, visionary book, Mahbubani shows us how.

Later that year, it was released as a book by D. Appleton & Company. Wharton wrote the book in her 50s, after she had established herself as a strong author, with publishers clamoring for her work

A New York Times Book Review Notable Book • Finalist for the Pulitzer Prize for Fiction • Longlisted for the Women's Prize for Fiction "Easily the funniest book I've read this year." —GQ "Masterly funny debut novel . . . Erudite but never pretentious, The Idiot will make you crave more books by Batuman." —Sloane Crosley, Vanity Fair A portrait of the artist as a young woman. A novel about not just discovering but inventing oneself. The year is 1995, and email is new. Selin, the daughter of Turkish immigrants, arrives for her freshman year at Harvard. She signs up for classes in subjects she has never heard of, befriends her charismatic and worldly Serbian classmate, Svetlana, and, almost by accident, begins corresponding with Ivan, an older mathematics student from Hungary. Selin may have barely spoken to Ivan, but with each email they exchange, the act of writing seems to take on new and increasingly mysterious meanings. At the end of the school year, Ivan goes to Budapest for the summer, and Selin heads to the Hungarian countryside, to teach English in a program run by one of Ivan's friends. On the way, she spends two weeks visiting Paris with Svetlana. Selin's summer in Europe does not resonate with anything she has previously heard about the typical experiences of American college students, or indeed of any other kinds of people. For Selin, this is a journey further inside herself: a coming to grips with the ineffable and exhilarating confusion of first love, and with the growing consciousness that she is doomed to become a writer. With superlative emotional and intellectual sensitivity, mordant wit, and pitch-perfect style, Batuman dramatizes the uncertainty of life on the cusp of adulthood. Her prose is a rare and inimitable combination of tenderness and wisdom; its logic as natural and inscrutable as that of memory itself. The Idiot is a heroic yet self-effacing reckoning with the terror and joy of becoming a person in a world that is as intoxicating as it is disquieting. Batuman's fiction is unguarded against both life's affronts and its beauty--and has at its command the complete range of thinking and feeling which they entail. Ashes of Innocence

He was fighting for his country in a far-off land, hoping to make his home a safer place for his family. However, the danger was not where he thought it would be. He had no clue that it would be stalking the streets of Birmingham, looking for easy pickings. It never entered his head that two young boys could tear his world apart, taking what he loved most. Returning from conflict, John is plunged into his own dark war, trying to keep his family from falling apart. Twelve years later, his life has become bearable, the monotony keeping him on track. But just as things start to look up, shadowy figures from his past threaten to bring it all crashing down once more. Taking the one thing worth fighting for.

Innocence & Ashes

His cage set me free. All I've ever wanted is freedom. From my parents. From my inevitable future. From him. But when Vincent took me captive, he showed me the truth: what it means to crush every restraint, to crave pain, to surrender to desire. Now, Vincent hates me. After what happened, I don't blame him. He's obsessed with destroying me until I'm nothing but ashes. But then everything changes. A killer is hunting people like me. Vincent gives me a gun and warns me that I must be ready to use it. Who is my greatest danger? A killer, or the man I love? Author's Note: Innocence & Ashes is the second book in The Art of Ruin Duet. The story continues from the first book, finishes with a happily-ever-after, and features dark and uncomfortable themes. If you are easily disturbed, do not read this book.

The Ashes of Innocence

Excerpt from *Beauty for Ashes, or the Old and the New Doctrine, Concerning the State of Infants After Death, Contrasted* And we are taught that man was originally made in the image and likeness of this One Good. There fore all the finite expressions of this Good, are always pleasing to men in the degree that their moral integ rity has been preserved, or the lovely image of their Maker been retained. They interest and attract every mind, from which the native hues of innocence have not faded or been blotted out. And yet the interest which most men feel in the beautiful, the good, and the true, is often enhanced by contrast with their opposites. Beauty never appears so attractive, as when exhibited along with deformity. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Shroud of Innocence

In life, we'll go through suffering and sorrow. We did not choose to be born and thus, we're tossed into this world. I am certain there is such a thing as justice. However, justice in the hands of imperfect beings is not just. We made this world what it is and we as people do all we could, which is our utmost best to do right. Unfortunately, doing right is usually far from our grasp. Pain comes like a thief in night, taking away our innocence. The world spins out of control, people pitted against each other and those whose hearts are soft and gentle, they suffer most of all. The anguish and misery soaks our heart and sinks into our veins. We become troubled, burdened beyond belief and feel we are to blame... To be Continued...

The Ashes of an Oak

This WWII history examines an early British commando raid on Nazi occupied France through extensive interviews with survivors from both sides. On March 28th, 1942, a combined force of British Commandos and Royal Navy disembarked for the Atlantic coast of Nazi-occupied France. Their mission, Operation Chariot, was a daring amphibious attack on a fortified drydock in the port of Saint-Nazaire. The obsolete destroyer HMS Campbeltown was packed with delayed-action explosives and rammed into the gates of Normandie Dock. Though the dock was destroyed, the underequipped raiding party faced an overwhelming counter-attack. Though the St. Nazaire raid was a significant event in the evolution of special warfare tactics, it has not been studied in detail. Historian James Dorrian draws on interviews with more than a hundred survivors, both British and German, to present this remarkable account. Storming St. Nazaire covers all aspects of the engagement, including the final ironic incident that resulted in more German casualties than the main battle itself.

Out of the Ashes

For Ijeoma, it's an ordinary afternoon. She's curled up in a comfy chair, reading a novel, and enjoying her time off from school. Then her mother storms into the room and asks a question that will change the teenage girl's life forever: "Are you a witch?" Dumbfounded by the ridiculous charge, Ijeoma further learns that her classmate, a beautiful young girl named Adaugo, is dead. But before she died, Adaugo confessed to being a witch, and claimed that Ijeoma was one, as well. Ijeoma vehemently denies this charge, but her mother does not believe her. Worse, neither does her beloved father. Their entire Nigerian village soon hears of the charge, and Ijeoma is judged accordingly. Helpless, vulnerable, naïve, and inexperienced, Ijeoma is abandoned by her loved ones and forced to face the indignities of those who want her punished. But in the midst of the ashes of her life, Ijeoma clings to her faith and determines to discover the truth behind the deceit. Intense and thought-provoking, *A Cry of Innocence* reveals the tragic consequences suffered by those falsely accused and serves as a stark reminder of society's responsibility to the truth.

From the Ashes of 1947

The PRICE OF INNOCENCE is a thought-provoking mystery thriller. It has been said that the sword of justice has no scabbard. Unfortunately, true justice is obscure. Legal systems can merely offer an opportunity for justice. No system designed by man can ever guarantee it. Sadly, the legal systems designed to protect us can be distorted and corrupted by malevolent human beings who misuse it not only to perpetrate the worst injustices, but also to create the illusion that they, the bad guys, hold the moral high ground. The PRICE OF INNOCENCE is the story of a prominent respectable man falsely accused of a monstrous crime by a group that calls itself Traction. Traction claims to be governed by a fearsome "green lady" who came from another universe. She allegedly possesses bizarre powers. Traction's purpose is to spread fear and destroy this man and others like him in order to annihilate the economic, legal and social system that they represent so that Traction can exhume wealth and power

from the ashes of anarchy. There are a precious few willing to recognize the seriousness of their threat or to challenge it. Murdock McCabe, a station chief for Veritus Investigations International, wades into the maelstrom. He learns to his dismay that even innocence exacts its penalty.

Storming St. Nazaire

With her K-9 Dante, Kristin Brann is investigating a series of suspicious fires. It's not an easy job, the clues tend to burn up with everything else, and interviews only prove no one knows anything, has seen anything, or heard anything. Thinking it will help the public come forward with information, the Mayor offers a reward, but that only overloads Kristin with suspects, just as the commissioner imposes a forty-eight hour deadline, make an arrest, or else. Once on the trail, Kristin matches wits with the elusive arsonist, but soon realizes she's become both hunter and prey. As the public, media, and politicians scream for results, Kristin's under fire to stop the blazes before another property, or worse, another life, goes up in smoke.

The Ashes

This book describes in detail the dark places where my addiction took me and how, with the willingness and desire to change, I was able to rise from the ashes and find that somewhat and every elusive peace of mind. It tells the story of addiction and just how cunning and powerful the disease is, and the path of destruction that follows. It tells the story of how addiction is a family disease and how so many lives are affected, not just the life of the addict. It is my hope that people reading this book will come to see that anything is possible in life, once you stop living your life based on others expectations for you - nothing good ever comes from this.

Incinerated Innocence

The Mall, VE night 1945: the sky is glittering with fireworks and searchlights as jubilant Londoners celebrate the end the Second World War. Yet for some the waiting is not over. Julia Gillingham's husband, Anthony, has been missing since 1943. A doctor with the army in North Africa, he was captured, taken to prison camp, escaped – and disappeared. Julia has steadfastly refused to believe him dead, and her strength is rewarded when she finally learns that he has survived and is working with refugees in Italy. She leaves her promising career at the London Bar to help prepare the prosecution case in the war-crimes trial against Marshal Kesselring in Venice, so that she can join Anthony there and – she believes – rediscover happiness with him. The war has not damaged Venice itself – unlike the rest of the shattered Continent – but as she learns her way about its ravishing, sinister streets, Julia finds that all her old certainties have been destroyed. As she and Anthony struggle to rebuild a new love on the foundations of the old and secure the future that the war so nearly denied them, they are faced with one difficult decision after another – until, at last, Julia is confronted with the hardest choice of all. In *Never Such Innocence* Daphne Wright brings to life one of her most engaging, warm-hearted heroines, in a compelling tale of love, honour, danger and ultimate triumph. Julia's story is interwoven with a haunting depiction of the struggle to rebuild Europe amid the Nazis' legacy of devastation and suffering – a hard time, yet a time of hope, a time for living and forgiving. *Never Such Innocence* is the second book in the *Threaded Dances* series. Beauty for Ashes

The 1916 silent film *Cenere* (Ashes) features the great Italian actress Eleonora Duse (1858–1924) in her only cinematic role. In her meditative approach to her craft, she reprised for the screen all the “mother roles” she had created for the theater. Marking the film's 100th anniversary, this collection of essays brings together for the first time in English a range of scholarship. The difficulties involved in the making of the film are explored—Duse's perfectionism was too advanced for the Italian movie industry of the 1910s. Her work is discussed within the creative, political and historical context of the silent movie industry as it developed in wartime Italy.

But I can have only one. There are two sides to this tale. I'm here to tell you mine. If you think this story is about a cheater, you couldn't be more wrong.

It is 1940, the time of the Phoney War. Britain stands alone with German invaders waiting across the Channel and an anxious population preparing for the bloody battle ahead. In an isolated girls' boarding school, sixteen-year-old Judy Randall watches the coming of war with a mixture of fascination and fear. She is a misfit in an institution that prizes conformity; a Catholic with Jewish heritage at a time when anti-Semitism is still commonplace. Most inconveniently of all, she is autistic, and her behavior is misunderstood as merely eccentric and insolent. Bored and frustrated by her inability to help the war effort, Judy becomes obsessed with the idea that her hated headmistress is a Nazi, and she goes to increasingly reckless lengths to prove her theory. In the meantime, the adults of the school busy themselves with planning how best to protect the children in their care if occupying forces overrun the country. For teacher John Peterson, who has seen armed conflict before, his own agonizing history forces him to consider what sacrifices he might have to make if the horrors of the war overtake them all. *A Most Dangerous Innocence* offers a glimpse into the early days of the Second World War, seen from a sleepy corner of Britain. It is also a meditation on childhood guilt, innocence, loyalty, and the courage to stand alone.

The Proving Ground

Beauty For Ashes tells the dark secret of an 11 year old girl being betrayed by those who were entrusted to love and care for her, but instead rob her of her innocence, self worth and self respect that led to a life of drugs, promiscuity and a string of bad relationships. Until one day she came face-to-face with Redemption.

When Ashes Fall

From the author of the acclaimed *Blood Water Paint*, a new contemporary YA novel in prose and verse about a girl struggling with guilt and a desire for revenge after her sister's rapist escapes with no prison time. Em Morales's older sister was raped by another student after a frat party. A jury eventually found the rapist guilty on all counts--a remarkable verdict that Em felt more than a little responsible for, since she was her sister's strongest advocate on social media during the trial. Her passion and outspokenness helped dissuade the DA from settling for a plea deal. Em's family would have real justice. But the victory is short-lived. In a matter of minutes, justice vanishes as the judge turns the Morales family's world upside down again by sentencing the rapist to no prison time. While her family is stunned, Em is literally sick with rage and guilt. To make matters worse, a news clip of her saying that the sentence makes her want to learn "how to use a sword" goes viral. From this low point, Em must

find a new reason to go on and help her family heal, and she finds it in the unlikely form of the story of a fifteenth-century French noblewoman, Marguerite de Bressieux, who is legendary as an avenging knight for rape victims. *We Are the Ashes, We Are the Fire* is a searing and nuanced portrait of a young woman torn between a persistent desire for revenge and a burning need for hope.

Beauty for Ashes from Pain and Shame to Purpose and Power

"At last, she arrives at the fatal end of the plank . . . and, with her hands crossed over her chest, falls straight downward, suspended for a moment in the air before being devoured by the burning pit that awaits her. . . ." This grisly 1829 account by Pierre Dubois demonstrates the usual European response to the Hindu custom of sati sacrificing themselves on the funeral pyres of their husbands—horror and revulsion. Yet to those of the Hindu faith, not least the satis themselves, this act signals the sati's sacredness and spiritual power. *Ashes of Immortality* attempts to see the satis through Hindu eyes, providing an extensive experiential and psychoanalytic account of ritual self-sacrifice and self-mutilation in South Asia. Based on fifteen years of fieldwork in northern India, where the state-banned practice of sati reemerged in the 1970s, as well as extensive textual analysis, Weinberger-Thomas constructs a radically new interpretation of sati. She shows that their self-immolation transcends gender, caste and class, region and history, representing for the Hindus a path to immortality.

No Doubt of Innocence

No Doubt of Innocence is a true story of Grady Gibson, an innocent man in prison since 1987. It is the chilling story of what happens when lawmen and prosecutors deliberately set out to frame two innocent men.

The Cardiff Five

This fresh edition of Satish Sekar's classic work brings events up to date as at 2017 and includes matters that the author was prevented from publishing sooner. Among other things it deals with the collapse of the 2011 trial of police officers and others concerning the original miscarriage of justice in this case and in a new Epilogue calls for a Truth and Justice Commission. The author shows how this extreme miscarriage of justice destroyed families, divided communities and undermined confidence in the criminal justice system. The book takes the reader from the sadistic killing of Lynette White in Cardiff in 1988, via the subsequent investigation and trial to the aftermath of the folding of the 2011 trial over 'lost' documents that later materialised. But above all it deals with the hard scientific facts of the first vindication case of the DNA-age.

Laws of evidence in the UK. Standards of proof, reasonable doubt and protection from wrongful conviction after ACTSA

Essay from the year 2016 in the subject Law - Criminal process, Criminology, Law Enforcement, grade: A, , course: Laws of evidence, language: English, abstract: This discussion will concentrate on the 'cornerstone principles' of the right to a fair trial, namely: the presumption of innocence and the standard of proof beyond reasonable doubt, in relation to prevention of wrongful conviction. It will be argued in accordance with Sundby that these procedural features undeniably benefit the accused in the usual criminal procedure, as they operate to prevent wrongful conviction. However, despite the importance of these integral principles in criminal law, following the September 11th attacks on the Twin Towers, the presumed threat to national security was so significant that it was able to outweigh the importance of these principles and their function to protect accused persons from wrongful conviction. In counteracting terrorism, a 'dual system' of criminal justice developed under the Anti-terrorism, Crime and Security Act (2001), as suspects were presumed guilty and the standard of proof was altered. The modification of these principles reveal protection from wrongful conviction was outweighed by security concerns.

The Presumption of Innocence

The presumption of innocence is universally recognized as a fundamental human right and a core principle in the administration of criminal justice. Nonetheless, statutes creating criminal offences regularly depart from the presumption of innocence by requiring defendants to prove specific matters in order to avoid conviction. Legislatures and courts seek to justify this departure by asserting that the reversal of the burden of proof is necessary to meet the community interest in prosecuting serious crime and maintaining workable criminal sanctions. This book investigates the supposed justifications for limitation of the presumption of innocence. It does so through a comprehensive analysis of the history, rationale and scope of the presumption of innocence. It is argued that the values underlying the presumption of innocence are of such fundamental importance to individual liberty that they cannot be sacrificed on the altar of community interest. In particular, it is argued that a test of 'proportionality', which seeks to weigh individual rights against the community interest, is inappropriate in the context of the presumption of innocence and that courts ought instead to focus on whether an impugned measure threatens the values which the presumption is designed to protect. The book undertakes a complete and systematic review of the United Kingdom and Strasbourg authority on the presumption of innocence. It also draws upon extensive references to comparative material, both judicial and academic, from the United States, Canada and South Africa.

Songs of Innocence and Songs of Experience

The Songs of Innocence shows how the human spirit blossoms when allowed its own free movement. The Songs of Experience shows how the human spirit withers after it has been suppressed and forced to conform to rules and doctrines. "There was no doubt that this poor man was mad, but there is something in the madness of this man which interests me more than the sanity of Lord Byron and Walter Scott." -William Wordsworth

Taming the Presumption of Innocence

Taming the Presumption of Innocence provides a comprehensive account of the presumption of innocence in criminal law and procedure. It maintains that the presumption is a vital component of the proof structure of criminal trials.

Beyond a Shadow of a Doubt

Had Mason Chase gone to sleep that night he might be dead. The fact that he didn't might make him wish he was dead. With his family gruesomely murdered around him in their comfortable suburban home, he is arrested, charged and convicted of a crime he claims he did not commit. In fact there is evidence - strong evidence- to suggest that Mason's claims of innocence are in fact true. But a Texas

jury decides against him, finding him guilty and sentences him to death by lethal injection. For close to a decade and a half, Mason sits on Texas death row while Rob Gilmore, his lawyer, and others work to get him set free. At times, mason comes within hours of his death. Not until Rob is killed in a traffic accident does the lawyer's wife discover Rob's secret - a secret that will aide in releasing Mason Chase of incarceration and freeing him from the looming death sentence that crowds him like an angry shadow. Rob's wife, a lawyer for the county, also discovers her own boss' culpability in the botched conviction. She turns to the aid of a Houston law firm, who specialize in cases like Mason's. The evidence is presented to a U.S. Federal Judge who frees Mason and gets him removed from prison and away from the horror of death row. Months pass, Mason Chase decides to sue the county, its DA, lead investigator and criminal lab for damages and restitution for his wrongful conviction. Carol Gilmore, Rob's wife, now in private practice, leads the case and wins a huge multi-million dollar settlement for Mason, only to have the U.S. Supreme Court eventually rule against him. Mason is left with nothing. Again a victim. After a few months, three justices who sit on the highest bench in the land disappear. (They happen to be the three that were the lead advocates that Mason's case was without merit.) There are no leads. There is no evidence. There is nothing to go on. The FBI is baffled until a freak traffic incident on a lonely Texas highway, just north of the Mexican border leads authorities to believe that the killer of the three Supreme Court justices is residing just on the other side of the Rio Grande. A former Texas Ranger, Lucky Drake, is asked to snoop around in the desert of Northern Mexico, to see if he can "unofficially" sniff out anything like clues to the deaths of the three. He, in fact, uncovers the real killer: Jimmy McDermit, a man who has long been suspected as being the actual killer of the Chase family. But Lucky also discovers, that Jimmy seems to be taking is directions from a doctor in a small Mexican village. As he gets closer to the two, who are deep in conversation, Lucky discovers his camera lens is focused on, not a doctor, but Mason Chase. We have come full circle.

The American Digest

This book considers how legislatures have undermined the presumption of innocence and how courts have largely accepted it. It argues criminal law needs to return to notions of moral comfort as the basis for determining whether a person is guilty, and only impose criminal sanctions when there is sufficient, moral blame.

Presumption of Innocence in Peril

The gospels and ancient historians agree: Jesus was sentenced to death by Pontius Pilate, the Roman imperial prefect in Jerusalem. To this day, Christians of all churches confess that Jesus died 'under Pontius Pilate'. But what exactly does that mean? Within decades of Jesus' death, Christians began suggesting that it was the Judaeen authorities who had crucified Jesus--a notion later echoed in the Qur'an. In the third century, one philosopher raised the notion that, although Pilate had condemned Jesus, he'd done so justly; this idea survives in one of the main strands of modern New Testament criticism. So what is the truth of the matter? And what is the history of that truth? David Lloyd Dusenbury reveals Pilate's 'innocence' as not only a neglected theological question, but a recurring theme in the history of European political thought. He argues that Jesus' interrogation by Pilate, and Augustine of Hippo's North African sermon on that trial, led to the concept of secularity and the logic of tolerance emerging in early modern Europe. Without the Roman trial of Jesus, and the arguments over Pilate's innocence, the history of empire--from the first century to the twenty-first--would have been radically different.

In Spite of Innocence

The exoneration of more than two hundred and fifty people who have been wrongfully convicted makes it clear that America's criminal justice system isn't foolproof. It's important to understand the causes of wrongful conviction in order to find solutions to this growing problem. Edited by one of the nation's leading legal scholars and two of her top students, this collection of essays examines critical issues, including • what American justice in the age of innocence looks like; • how to implement procedural mechanisms to ensure the integrity of the judicial system while safeguarding the public; • whether or not the legal system is doing a good enough job uncovering wrongful convictions. This anthology provides insightful lessons based on cutting-edge research and legal analysis. Wrongful convictions are not

a foregone conclusion, but the justice system must break free from a pattern of punishing innocent people and go after the true culprits. Written for judges, lawyers and scholars alike, *American Justice in the Age of Innocence* educates the public and helps current prisoners who are innocent contest their wrongful convictions.

Reports of Cases Argued and Determined in the Supreme Court of Alabama

Whenever a miscarriage of justice hits the headlines, it is tempting to dismiss it as an anomaly – a minor hiccup in an otherwise healthy judicial system. Yet the cases of injustice that feature in this book reveal that they are not just minor hiccups, but symptoms of a chronic illness plaguing the British legal system. Massive underfunding, catastrophic failures in policing and shoddy legal representation have all contributed to a deepening crisis – one that the watchdog set up for the very purpose of investigating miscarriages of justice has done precious little to remedy. Indeed, little has changed since the 'bad old days' of the Guildford Four and Birmingham Six. Award winning journalist Jon Robins lifts the lid on Britain's legal scandals and exposes the disturbing complacency that has led to many innocent people being deemed guilty, either in the eyes of the law or in the court of public opinion.

Report of Cases Argued and Determined in the Supreme Court of Alabama

The notion that an individual accused of a crime is presumed innocent until proven guilty is one of the cornerstones of the American criminal justice system. However, the presumption of innocence creates a number of practical and theoretical issues, particularly regarding pre-trial and post-trial processes. In *Taming the Presumption of Innocence*, Richard L. Lippke argues that the presumption of innocence should be contained to the criminal trial. Beyond the realm of the trial, legal professionals, investigators, and the general public should carry out their respective roles in the criminal justice process without making any presumptions about guilt or innocence whatsoever. Rather than eschewing the significance of the presumption of innocence, the book defends its role within its proper context, the criminal trial. According to Lippke, other aspects of the criminal justice system such as investigation, lawmaking, and treatment of ex-offenders should be conducted in such a way that reflects the fallibility and unpredictability of the system without involving the issue of presumed guilt or innocence. Lippke dispels the idea that the presumption of innocence can be used to remedy some of the current issues in the practice of criminal justice, and instead proposes engaging in deeper, more substantive reforms of the American criminal justice system. The first monograph dedicated exclusively to the presumption of innocence, *Taming the Presumption of Innocence* will be an ideal text for students and scholars of criminology, criminal justice, and legal theory.

American Justice in the Age of Innocence

The right to be presumed innocent until proven guilty has been described as the 'golden thread' running through the web of English criminal law and a "fundamental postulate" of Irish criminal law which enjoys constitutional protection. Reflecting on the bail laws in the O'Callaghan case, Walsh J. described the presumption as a 'very real thing and not simply a procedural rule taking effect only at the trial'. The purpose of this book is to consider whether the reality matches the rhetoric surrounding this central precept of our criminal law and to consider its efficacy in the light of recent or proposed legislative innovations. Considerable space is devoted to the anti-crime package introduced by the government in the period of heightened concern about crime which followed the murder of journalist Veronica Guerin. Described by the Bar Council as "the most radical single package of alterations to Irish criminal law and procedure ever put together," the effect of the package was an amendment of the bail laws and the introduction of preventative detention; a curtailment of the right to silence for those charged with serious drugs offences and the introduction of a novel civil forfeiture process to facilitate the seizure of the proceeds of crime, a development which arguably circumvents the presumption. Given these

developments, the question posed in the book is whether we can lay claim to a presumption that is more than merely theoretical or illusory.

Public Health Papers and Reports

Innocent graphically documents forty-two recent criminal cases to find evidence of shocking miscarriages of justice, especially in murder cases. Based upon interviews with more than 200 people and reviews of hundreds internal case files, court records, smoking-gun memoranda, and other documents, Scott Christianson gets inside the legal cases, revealing the mistakes, abuses, and underlying factors that led to miscarriages of justice, while also describing how determined prisoners, post-conviction attorneys, advocates, and journalists struggle against tremendous odds to try to win their exonerations. The result is a powerful work that recounts the human costs of a criminal justice system gone awry, and shows us how wrongful convictions can—and do—happen everywhere.

Innocent: a Tale of Modern Life

The presumption of innocence is widely accepted as a fundamental principle of criminal justice. This work is an attempt to secure consensus, and to present some constructive solutions to the various theoretical and practical problems which exist in respect of the presumption of innocence.

The old by-road went rambling down into a dell of deep green shadow. It was a reprobate of a road,-a vagrant of the land,-having long ago wandered out of straight and even courses and taken to meandering aimlessly into many ruts and furrows under arching trees, which in wet weather poured their weight of dripping rain upon it and made it little more than a mud pool. Between straggling bushes of elder and hazel, blackberry and thorn, it made its solitary shambling way, so sunken into itself with long disuse that neither to the right nor to the left of it could anything be seen of the surrounding country. Hidden behind the intervening foliage on either hand were rich pastures and ploughed fields, but with these the old road had nothing in common.

This collection approaches the deconstruction of American "childhood" from a wide variety of critical, interdisciplinary lenses and gestures toward the construction of a more realistic, twenty-first century definition of "childhood"--one which is defined by the real-life struggles of childhood and not by romanticized notions of "innocence."

Executed: But was James Hanratty Innocent?

Elizabeth Bowen was a prolific writer; her publishing career spanned five decades and during this time she wrote ten novels, over one hundred short stories and countless reviews and journal articles. While earlier novels are now acknowledged as Modernist texts, her later novels can be read through the lens of postmodernism; they can be considered variously as romantic fiction, marriage novels, war time spy thrillers and psychological drama but, throughout her novels, she consistently questioned notions of identity, sexuality and the loss of innocence. *A World of Lost Innocence: The Fiction of Elizabeth Bowen* offers a reading of Elizabeth Bowen's fiction which focuses specifically on this loss, foregrounding the psychological conflicts experienced by her protagonists. It examines the subject not only across the range of her fiction, but also in relation to her unfolding narrative structures through a chronologically based discussion of her novels and selected short stories, interwoven with biographical information and drawing on unpublished letters. This book investigates the dominant kinds of innocence that Bowen represents throughout her fiction: the innocence attributed to childhood, sexual innocence and sexual morality, and political innocence, and argues that the transition from innocence to experience plays an important role in the epistemological journey faced both by Bowen's characters and her readers.

Taming the Presumption of Innocence

Innocent? Or...not? After spending the first twenty-one years of her life tucked away in the country, studious Rowena Riverstone can't wait to experience London for the first time. She especially looks forward to meeting many of the forward-thinking gentlemen whose opinions she has followed in the papers for years. But it is the mysterious and dashing Noel Paxton who stirs her senses, even as she mistrusts his motives in befriending her, a bespectacled bluestocking spinster. In his quest to expose a dangerous spy and traitor, Noel has taken on the persona of the legendary Saint of Seven Dials. When he meets Miss Riverstone, he is first distracted, then fascinated, for she is clearly more than she appears on the surface—but what? Merely a highly educated—and opinionated—innocent, or the very traitor he seeks? Finding out promises to be both dangerous and delicious. But will his heart be at even greater risk than his life?

The Presumption of Innocence in Irish Criminal Law

One afternoon, a twelve-year-old girl goes missing near her village. The local police tell her mother and the villagers she has been taken by a wild animal. Five years later, young government employee Amantle Bokaa finds a box bearing the label 'Neo Kakang; CRB 45/94'. It contains evidence of human involvement in the affair. So begins an illegal and undercover struggle for justice and retribution. Botswanan High Court Judge Unity Dow's second novel is a gripping story of how groups of 'little people' come together to identify the prime suspects' the 'big men' who are beneath contempt, but above the law.

Thus to Innocence

Tom McCabe knows the recent string of executions across campus is his fault. He and two friends accidentally killed Nico Ruiz, a fellow college student. It's a clear case of self-defense, except Nico was running drugs for the region's largest gang, the Black Thorns. Rather than take their chances with small town police and risk brutal retribution at the hands of the gang, they bury Nico's body, destroy the drugs, and let the rain wash away the evidence. For all intents and purposes, Nico has completely disappeared. And that's a problem. To the small town of Pendra, Virginia, a missing college student is big news. Big enough to launch a national media frenzy and a citywide manhunt. As Tom tries to misguide the police, the Black Thorns begin a manhunt of their own. They're executing anyone connected to Nico, searching for their drugs. And that search has led them to Tom. Just as his accomplices start to crack up. **THUS TO INNOCENCE** is about shame, revenge, and what it means to be innocent.

Rudnick Book Prize presented by the New England American Studies Association 2012 Runner-Up, John Hope Franklin Publication Prize presented by the American Studies Association 2012 Honorable Mention, Distinguished Book Award presented by the Society for the Study of American Women Writers Part of the American Literatures Initiative Series Beginning in the mid nineteenth century in America, childhood became synonymous with innocence--a reversal of the previously-dominant Calvinist belief that children were depraved, sinful creatures. As the idea of childhood innocence took hold, it became racialized: popular culture constructed white children as innocent and vulnerable while excluding black youth from these qualities. Actors, writers, and visual artists then began pairing white children with African American adults and children, thus transferring the quality of innocence

to a variety of racial-political projects--a dynamic that Robin Bernstein calls "racial innocence." This phenomenon informed racial formation from the mid nineteenth century through the early twentieth. *Racial Innocence* takes up a rich archive including books, toys, theatrical props, and domestic knickknacks which Bernstein analyzes as "scriptive things" that invite or prompt historically-located practices while allowing for resistance and social improvisation. Integrating performance studies with literary and visual analysis, Bernstein offers singular readings of theatrical productions from blackface minstrelsy to *Uncle Tom's Cabin* to *The Wonderful Wizard of Oz*; literary works by Joel Chandler Harris, Harriet Wilson, and Frances Hodgson Burnett; material culture including Topsy pincushions, *Uncle Tom and Little Eva* handkerchiefs, and Raggedy Ann dolls; and visual texts ranging from fine portraiture to advertisements for lard substitute. Throughout, Bernstein shows how "innocence" gradually became the exclusive province of white children--until the Civil Rights Movement succeeded not only in legally desegregating public spaces, but in culturally desegregating the concept of childhood itself. Racial Innocence

The seventeenth-century poet and divine Thomas Traherne finds innocence in every stage of existence. He finds it in the chaos at the origins of creation as well as in the blessed order of Eden. He finds it in the activities of grace and the hope of glory, but also in the trials of misery and even in the abyss of the Fall. *Boundless Innocence* in Thomas Traherne's *Poetic Theology* traces innocence through Traherne's works as it transgresses the boundaries of the estates of the soul. Using grammatical and literary categories it explores various aspects of his poetic theology of innocence, uncovering the boundless desire which is embodied in the yearning cry: 'Were all Men Wise and Innocent...' Recovering and reinterpreting a key but increasingly neglected theme in Traherne's poetic theology, this book addresses fundamental misconceptions of the meaning of innocence in his work. Through a contextual and theological approach, it indicates the unexplored richness, complexity and diversity of this theme in the history of literature and theology.

Boundless Innocence in Thomas Traherne's Poetic Theology

Though there was already talk of the erection, in remote metropolitan distances "above the Forties," of a new Opera House which should compete in costliness and splendour with those of the great European capitals, the world of fashion was still content to reassemble every winter in the shabby red and gold boxes of the sociable old Academy. Conservatives cherished it for being small and inconvenient, and thus keeping out the "new people" whom New York was beginning to dread and yet be drawn to; and the sentimental clung to it for its historic associations, and the musical for its excellent acoustics, always so problematic a quality in halls built for the hearing of music.

The Age of Innocence

The alienated modern-day man, made into a machine, has lost meaning. We have lost the poetry and music of meaning. We have lost the songs of Orpheus. Therefore, let us examine some of the songs and music of the modern day man! But, first, let us create a philosophical context for our discussion.

The Unpoetic Song of Science: A Christian Essay on Innocence

This volume brings together leading experts on the investigation, litigation and scholarly analysis of innocence cases in America, from legal, political and ethical perspectives. The contributors consider the challenges faced by the exoneration movement, causes of wrongful convictions, problems associated with investigating, proving, and defining 'innocence', and theories of reform. These issues are investigated from a multi-disciplinary perspective and with the aim of improving the American criminal justice system when it is faced with its most harrowing sight: an innocent defendant.

Controversies in Innocence Cases in America

Somewhere in this book, Wharton observes that clever liars always come up with good stories to back up their fabrications, but that really clever liars don't bother to explain anything at all. This is the kind of insight that makes *The Age of Innocence* so indispensable. Wharton's story of the upper classes of Old New York, and Newland Archer's impossible love for the disgraced Countess Olenska, is a perfectly wrought book about an era when upper-class culture in the U.S. was still a mixture of American and European extracts, and when society had rules as rigid as any in history. On a January evening of the

early seventies, Christine Nilsson was singing in Faust at the Academy of Music in New York. Though there was already talk of the erection, in remote metropolitan distances "above the Forties," of a new Opera House which should compete in costliness and splendour with those of the great European capitals, the world of fashion was still content to reassemble every winter in the shabby red and gold boxes of the sociable old Academy. Conservatives cherished it for being small and inconvenient, and thus keeping out the "new people" whom New York was beginning to dread and yet be drawn to; and the sentimental clung to it for its historic associations, and the musical for its excellent acoustics, always so problematic a quality in halls built for the hearing of music. It was Madame Nilsson's first appearance that winter, and what the daily press had already learned to describe as "an exceptionally brilliant audience" had gathered to hear her, transported through the slippery, snowy streets in private broughams, in the spacious family landau, or in the humbler but more convenient "Brown coupe." To come to the Opera in a Brown coupe was almost as honourable a way of arriving as in one's own carriage; and departure by the same means had the immense advantage of enabling one (with a playful allusion to democratic principles) to scramble into the first Brown conveyance in the line, instead of waiting till the cold-and-gin congested nose of one's own coachman gleamed under the portico of the Academy. It was one of the great livery-stableman's most masterly intuitions to have discovered that Americans want to get away from amusement even more quickly than they want to get to it. When Newland Archer opened the door at the back of the club box the curtain had just gone up on the garden scene. There was no reason why the young man should not have come earlier, for he had dined at seven, alone with his mother and sister, and had lingered afterward over a cigar in the Gothic library with glazed black-walnut bookcases and finial-topped chairs which was the only room in the house where Mrs. Archer allowed smoking. But, in the first place, New York was a metropolis, and perfectly aware that in metropolises it was "not the thing" to arrive early at the opera; and what was or was not "the thing" played a part as important in Newland Archer's New York as the inscrutable totem terrors that had ruled the destinies of his forefathers thousands of years ago. The second reason for his delay was a personal one. He had dawdled over his cigar because he was at heart a dilettante, and thinking over a pleasure to come often gave him a subtler satisfaction than its realisation. This was especially the case when the pleasure was a delicate one, as his pleasures mostly were; and on this occasion the moment he looked forward to was so rare and exquisite in quality that well, if he had timed his arrival in accord with the prima donna's stage-manager he could not have entered the Academy at a more significant moment than just as she was singing: "He loves me-he loves me not-HE LOVES ME!-" and sprinkling the falling daisy petals with notes as clear as dew.

The Innocence Protection Act of 2002

In this study Heather Gorman analyzes Luke's portrayal of Jesus' death in light of the ancient rhetorical tradition, particularly the progymnasmata and the rhetorical handbooks. In addition to providing a detailed, up-to-date exegetical study of Luke 22:66--23:49, she argues three things. First, through the strategic placement of rhetorical figures and the use of common topics associated with refutation and confirmation, Luke structures his passion narrative as a debate about Jesus' innocence, which suggests that one of Luke's primary concerns is to portray Jesus as politically innocent. Second, ancient examples of synkrisis suggest that part of the purpose of Luke's characterization of Jesus in the passion narrative, especially when set in parallel to Paul and Stephen in Acts, was to set up Jesus as a model for his followers lest they face similar persecution or death. Third, Luke's special material and his variations from Mark are explicable in terms of ancient compositional techniques, especially paraphrase and narration, and thus recourse to a special Passion Source is unnecessary.

The Age of Innocence

On a January evening of the early seventies, Christine Nilsson was singing in Faust at the Academy of Music in New York. Though there was already talk of the erection, in remote metropolitan distances "above the Forties," of a new Opera House which should compete in costliness and splendour with those of the great European capitals, the world of fashion was still content to reassemble every winter in the shabby red and gold boxes of the sociable old Academy. Conservatives cherished it for being small and inconvenient, and thus keeping out the "new people" whom New York was beginning to dread and yet be drawn to; and the sentimental clung to it for its historic associations, and the musical for its excellent acoustics, always so problematic a quality in halls built for the hearing of music

The Age of Innocence

When children of color enter their classrooms each year, many often encounter low expectations, disconnection, and other barriers to their success. In *The Innocent Classroom*, Alexis Pate traces the roots of these disparities to pervasive negative stereotypes, which children are made aware of before they even walk through the school door. The cumulative weight of these stereotypes eventually takes shape as guilt, which inhibits students' engagement, learning, and relationships and hurts their prospects for the future. If guilt is the primary barrier for children of color in the classroom, then the solution, according to Pate, is to create an Innocent Classroom that neutralizes students' guilt and restores their innocence. To do so, readers will embark on a relationship "construction project" in which they will deepen their understanding of how children of color are burdened with guilt; discover students' "good," or the motivation behind their behaviors, and develop strategic responses to that good; and nurture, protect, and advocate for students' innocence. Ultimately, students will reclaim their innocence and begin to make choices that will lead to their success. Teachers will renew their commitment to their students. And the current ineffective system can give way to one that reflects a more enlightened understanding of who our children are—and what they are capable of.

Stolen Innocence

"Joanna Picciotto's *Labors of Innocence in Early Modern England* is a splendid study of the origins, development, and eventual decline of the Experimentalist tradition in seventeenth- and early eighteenth-century English letters. In tracing out the arc of this intellectual and professional trajectory, Picciotto engages productively with the crucial religious, socio-economic, philosophical, and literary movements associated with the ongoing labors of the 'innocent eye'."---Eileen Reeves, Princeton University --

The Innocent Classroom

A fierce national outcry for righteously waging war has long dominated American culture. From at least the wildly popular Spanish-American War and the US military invasion of the Philippines that infuriated Mark Twain, right up to the current Global War on Terrorism, this is a deadly, dark current coursing throughout American history. Meanwhile, dissenting analyses of the "patriotic gore" have until recently been paid scant attention in the popular media. Delving into this history, this probing collection of essays explores ways in which "the compulsive redeployment of innocence" in the launching, cheering, and retelling of America's wars "endlessly defers a national reckoning," as the editors astutely state in their introduction. The works in this collection reflect an effort to add more voices where they are desperately needed.

Labors of Innocence in Early Modern England

This is a literary-critical analysis of the myth of Cain and Abel, masterfully related in Genesis 4 by the Yahwist, probably the greatest storyteller in the Hebrew Bible. The Yahwist narrates the initial slaughter of one human being by another, and strikingly, it is described as fratricidal. The book explores the anthropological, theological, and psychological dimensions of this universal myth and shows the readers such a vivid and intense story that one feels like will never get to the bottom of it. Thus, after a deep reading, this well known story is much more than what could seem at first sight; it can be said to be the portrait of human that is always torn between the innocence of Eden and its denial; between what is considered 'doing well' and 'not doing well'.

Innocence and Loss

Taming the Presumption of Innocence provides a comprehensive account of the presumption of innocence in criminal law and procedure. It maintains that the presumption is a vital component of the proof structure of criminal trials.

Onslaught against Innocence

On a January evening of the early seventies, Christine Nilsson was singing in Faust at the Academy of Music in New York. Though there was already talk of the erection, in remote metropolitan distances "above the Forties," of a new Opera House which should compete in costliness and splendour with those of the great European capitals, the world of fashion was still content to reassemble every winter in the shabby red and gold boxes of the sociable old Academy. Conservatives cherished it for being small and inconvenient, and thus keeping out the "new people" whom New York was beginning to dread and yet be drawn to; and the sentimental clung to it for its historic associations, and the musical for its excellent acoustics, always so problematic a quality in halls built for the hearing of music. It was Madame Nilsson's first appearance that winter, and what the daily press had already learned to describe as "an exceptionally brilliant audience" had gathered to hear her, transported through the slippery, snowy streets in private broughams, in the spacious family landau, or in the humbler but more convenient "Brown coupe." To come to the Opera in a Brown coupe was almost as honourable a way of arriving as in one's own carriage; and departure by the same means had the immense advantage of enabling one (with a playful allusion to democratic principles) to scramble into the first Brown conveyance in the line, instead of waiting till the cold-and-gin congested nose of one's own coachman gleamed under the portico of the Academy. It was one of the great livery-stableman's most masterly intuitions to have discovered that Americans want to get away from amusement even more quickly than they want to get to it.

Taming the Presumption of Innocence

In an ideal world, our beliefs would satisfy norms of truth and rationality, as well as foster the acquisition, retention, and use of other relevant information. In reality, we have limited cognitive capacities and are subject to motivational biases on an everyday basis. We may also experience impairments in perception, memory, learning, and reasoning in the course of our lives. Such limitations and impairments give rise to distorted memory beliefs, confabulated explanations, and beliefs that are elaborated delusional, motivated delusional, or optimistically biased. In this book, Lisa Bortolotti argues that some irrational beliefs qualify as epistemically innocent, where, in some contexts, the adoption, maintenance, or reporting of the beliefs delivers significant epistemic benefits that could not be easily attained otherwise. Epistemic innocence does not imply that the epistemic benefits of the irrational belief outweigh its epistemic costs, yet it clarifies the relationship between the epistemic and psychological effects of irrational beliefs on agency. It is misleading to assume that epistemic rationality and psychological adaptiveness always go hand-in-hand, but also that there is a straight-forward trade-off between them. Rather, epistemic irrationality can lead to psychological adaptiveness, which in turn can support the attainment of epistemic goals. Recognising the circumstances in which irrational beliefs enhance or restore epistemic performance informs our mutual interactions and enables us to take measures to reduce their irrationality without undermining the conditions for epistemic success.

THE AGE OF INNOCENCE Annotated and Illustrated Book

With its specific focus on the connections between politics, travel, and travel writing, Not So Innocent Abroad offers a fresh approach to the study of travel literature. The authors make clear that travel and travel writing are never an "innocent" enterprise; rather, journeying always occurs within political systems, and travel writing either reflects the traveler's political stance, includes political aspects of foreign cultures, or directly or indirectly influences political decisions. In contrast to most scholarly publications that primarily focus on travel literature of former colonial nations, this volume includes

a broader range of travelogues depicting cultures worldwide, spanning from the eighteenth to the twenty-first century. It thus offers with its comparative approach not only a geographically wide selection but also an historical dimension to the political aspects of travel writing. Although most travel literature generally has followed the Horatian principle to instruct and delight the armchair traveler, the authors of this volume clearly address the broader political implications of travel and travel writing within networks of “naked” politics, such as international or interior conflicts, emigration laws, or national propaganda. They also reveal how insidiously political messages are dissimulated through travel writing.

The Age of Innocence Illustrated

The political dynamics that shape the Innocence Movement Since 1989, more than 3000 people are known to have been exonerated after being wrongly convicted in the United States. Each one of these cases represents a gross miscarriage of justice; they are stories of lives upended by a criminal legal system gone awry. Yet, this number just scratches the surface and does not capture the full breadth of wrongful convictions, which may well number in the tens of thousands. The Politics of Innocence explores the political dynamics that have shaped the proliferation of innocence-related policies across the United States and the ways in which wrongful convictions affect public opinion about the criminal legal system. Although some have suggested that this issue transcends ideological divisions, the authors argue that public opinion and the policies that address wrongful convictions are a product of the political landscape. Using original data, the authors show how political ideology influences awareness of the issue, affects support for policy reform, and, in particular electoral contexts, influences state policy adoption. The Politics of Innocence is a moving and data-driven account of wrongful convictions.

Songs of Innocence and Experience: Large Print William Blake And, sitting down before the heat of day, She took me on her lap and kissed me, And, pointing to the East, began to say: 'Look on the rising sun: there God does live, And gives His light, and gives His heat away, And flowers and trees and beasts and men receive Comfort in morning, joy in the noonday. 'And we are put on earth a little space, That we may learn to bear the beams of love; And these black bodies and this sunburnt face Are but a cloud, and like a shady grove. 'For, when our souls have learned the heat to bear, The cloud will vanish, we shall hear His voice, Saying, "Come out from the grove, my love and care, And round my golden tent like lambs rejoice.'" Thus did my mother say, and kissed me, And thus I say to little English boy. When I from black, and he from white cloud free, And round the tent of God like lambs we joy, I'll shade him from the heat till he can bear To lean in joy upon our Father's We are delighted to publish this classic book as part of our extensive Classic Library collection. The Innocence of Guilt

Blake wanted to show "two different states of the soul" in his songs. He sees in the child a sign of uncorrupted potential, in which evil does not yet exist. Evil is only created by the suppression of the human spirit. Thus, in these poems there is also repeated criticism of social conditions and of established, institutionalized Christianity. Blake sees the task of the prophetic artist precisely in providing this criticism with clear-sightedness. Gröls Classics - English Edition

Heaven and Hell

DNA exonerations have shattered confidence in the criminal justice system by exposing how often we have convicted the innocent and let the guilty walk free. In this unsettling analysis, Garrett examines what went wrong in the cases of the first 250 people exonerated by DNA testing, and proposes systemic reforms.

The State of Innocence, and Fall of Man

"Providing the first fundamental reform of its kind for the adversarial legal system, The Plea of Innocence introduces a new method through which to free innocent people from prison, a search for truth through the discovery of exonerating facts"--

Protecting the Innocent

From the polling place to the pulpit, *The Romance of Innocent Sexuality* investigates the passions that are enacted in debates about same-sex marriage. In a critique that is at once humorous and unrelenting, Geoffrey Rees argues that sexual desire is fundamentally a desire to make sense of oneself as a whole person. Through a constructive engagement with the writings of Saint Augustine on original sin, Rees turns on its head the conventional wisdom regarding the goodness of sexual relationship, arguing that sin, not innocence, is the starting point in pursuing justice in sexual ethics. To that end Rees boldly reclaims the wisdom of the most disreputable teachings of the Augustinian tradition: that original sin is a literal inheritance of all humanity of the singular disobedience of Adam and Eve in Eden, and the inherent sinfulness of all human sexuality. This work also engages theological readings of nineteenth-century fiction and literary readings of contemporary theological writings. In so doing Rees shows that debates about same-sex marriage are so compelling because the participants are all telling a common story in which they seek to establish the innocence of their own preferred forms of self-understanding as defined against some other persons' sinful selves. In contrast to this, Rees argues for the acceptance of responsibility for the sinful exclusions that make possible finding the meaning of embodied personal identity through marriage between any two persons.

The Politics of Innocence

Three girls from a tough council estate in the north of England have very different lives. When a violent attack brings them together in a way they could not have foreseen, how far would they go? Would they stand together? Would they kill for one another? Would they prove to be not so innocent?

Politics of Innocence

Based on thorough ethnographic fieldwork in a refugee camp in Tanzania this book provides a rich account of the benevolent 'disciplining mechanisms' of humanitarian agencies, led by the UNHCR, and of the situated, dynamic, indeterminate, and fluid nature of identity (re)construction in the camp. While the refugees are expected to behave as innocent, helpless victims, the question of victimhood among Burundian Hutu is increasingly challenged, following the 1993 massacres in Burundi and the Rwandan genocide. The book explores how different groups within the camp apply different strategies to cope with these issues and how the question of innocence and victimhood is itself imbued with ambiguity, as young men struggle to recuperate their masculinity and their political subjectivity.

Ashenden

Ashenden, Or The British Agent is founded on Maugham's experiences in the English Intelligence Department during World War I, but rearranged for the purposes of fiction. Instead of one story from start to finish, the chapters contain individual stories involving many different characters. All of the people whom Ashenden meet during his travels have their own reason for being involved in the spy game, and each are more complex than they first look.

The Sun King

Washington Post columnist David Ignatius is one of the most highly regarded writers in the capital, an influential journalist and acclaimed novelist with a keen eye for the subtleties of power and politics. In *The Sun King*, Ignatius has written a love story for our time, a spellbinding portrait of the collision of ambition and sexual desire. Sandy Galvin is a billionaire with a rare talent for taking risks and making people happy. Galvin arrives in a Washington suffering under a cloud of righteous misery and proceeds to turn the place upside down. He buys the city's most powerful newspaper, *The Washington Sun and Tribune*, and wields it like a sword, but in his path stands his old Harvard flame, Candace Ridgway, a beautiful and icy journalist known to her colleagues as the Mistress of Fact. Their fateful encounter, tangled in the mysteries of their past, is narrated by David Cantor, an acid-tongued reporter and Jerry Springer devotee who is drawn inexorably into the Sun King's orbit and is transformed by this unpredictable man. In this wise and poignant novel, love is the final frontier for a generation of baby boomers at midlife—still young enough to reach for their dreams but old enough to glimpse the prospect of loss. *The Sun King* can light up a room, but can he melt the worldly bonds that constrain the Mistress of Fact? In *The Sun King*, David Ignatius proves with perceptive wit and haunting power that the phrase "Washington love story" isn't an oxymoron.

Last Days of the Condor

Secret Service agent Clint Hill reveals the stories behind the iconic images of the five tragic days surrounding President John F. Kennedy's assassination in this 60th anniversary edition of the New York Times bestseller. On November 22, 1963, three shots were fired in Dallas, President John F. Kennedy was assassinated, and the world stopped for four days. For an entire generation, it was the

end of an age of innocence. That evening, a photo ran on the front pages of newspapers across the world, showing a Secret Service agent jumping on the back of the presidential limousine in a desperate attempt to protect the President and Mrs. Kennedy. That agent was Clint Hill. Now Hill commemorates the sixtieth anniversary of the tragedy with this stunning book containing more than 150 photos, each accompanied by his incomparable insider account of those terrible days. A story that has taken Hill half a century to tell, this is a “riveting, stunning narrative” (Herald & Review, Illinois) of personal and historical scope. Besides the unbearable grief of a nation and the monumental consequences of the event, the death of JFK was a personal blow to a man sworn to protect the first family, and who knew, from the moment the shots rang out in Dallas, that nothing would ever be the same.

Five Days in November

The shocking true story of international intrigue —“a highly detailed, engrossing work” (Kirkus Reviews)—involving the 1993 murder of CIA officer Freddie Woodruff by KGB agents and the extensive cover-up that followed in Washington and in Moscow. “In a post-truth era, we need a lot more fearless writers like Michael Pullara” (Robert Baer, author of *See No Evil*). On August 8, 1993, a single bullet to the head killed Freddie Woodruff, the Central Intelligence Agency’s station chief in the former Soviet Republic of Georgia. Within hours, police had a suspect—a vodka-soaked village bumpkin named Anzor Sharmaidze. A tidy explanation quickly followed: It was a tragic accident. US diplomats hailed Georgia’s swift work, and both countries breathed a sigh of relief. Yet the bullet that killed Woodruff was never found and key witnesses have since retracted their testimony, saying they were beaten and forced to identify Sharmaidze. But if he didn’t do it, who did? Those who don’t buy the official explanation think the answer lies in the spy games that played out on Russia’s frontier following the 1991 collapse of the Soviet Union. Woodruff was an early actor in a dangerous drama. American spies were moving into newborn nations previously dominated by Soviet intelligence. Russia’s security apparatus, resentful and demoralized, was in turmoil, its nominal loyalty to a pro-Western course set by President Boris Yeltsin, shredded by hardline spooks and generals who viewed the Americans as a menace. At the time when Woodruff was stationed there, Georgia was a den of intrigue. It had a big Russian military base and was awash with former and not-so-former Soviet agents. Shortly before Woodruff was shot, veteran CIA officer Aldrich Ames—who would soon be unmasked as a KGB mole—visited him on agency business. In short order, Woodruff would be dead and Ames, in prison for life. Buckle up, because *The Spy Who Was Left Behind* reveals the full-throttle, little-known thrilling tale.

New York Times bestselling author Daniel Suarez delivers an exhilarating sci-fi thriller exploring a potential future where CRISPR genetic editing allows the human species to control evolution itself. On a crowded train platform, Interpol agent Kenneth Durand feels the sting of a needle—and his

transformation begins... In 2045 Kenneth Durand leads Interpol's most effective team against genetic crime, hunting down black market labs that perform "vanity edits" on human embryos for a price. These illegal procedures augment embryos in ways that are rapidly accelerating human evolution—preying on human-trafficking victims to experiment and advance their technology. With the worlds of genetic crime and human trafficking converging, Durand and his fellow Interpol agents discover that one figure looms behind it all: Marcus Demang Wyckes, leader of a powerful and sophisticated cartel known as the Huli jing. But the Huli jing have identified Durand, too. After being forcibly dosed with a radical new change agent, Durand wakes from a coma weeks later to find he's been genetically transformed into someone else—his most wanted suspect: Wyckes. Now a fugitive, pursued through the genetic underworld by his former colleagues and the police, Durand is determined to restore his original DNA by locating the source of the mysterious—and highly valuable—change agent. But Durand hasn't anticipated just how difficult locating his enemy will be. With the technology to genetically edit the living, Wyckes and his Huli jing could be anyone and everyone—and they have plans to undermine identity itself.

Our Endless Numbered Days

A groundbreaking exposé of how our legal system makes it nearly impossible to overturn wrongful convictions Thousands of innocent people are behind bars in the United States. But proving their innocence and winning their release is nearly impossible. In *Barred*, legal scholar Daniel S. Medwed argues that our justice system's stringent procedural rules are largely to blame for the ongoing punishment of the innocent. Those rules guarantee criminal defendants just one opportunity to appeal their convictions directly to a higher court. Afterward, the wrongfully convicted can pursue only a few narrow remedies. Even when there is strong evidence of a miscarriage of justice, rigid guidelines, bias, and deference toward lower courts all too often prevent exoneration. Offering clear explanations of legal procedures alongside heart-wrenching stories of their devastating impact, *Barred* exposes how the system is stacked against the innocent and makes a powerful call for change.

In David Ignatius's gripping new novel, spies don't bother to steal information...they change it, permanently and invisibly. Graham Weber has been the director of the CIA for less than a week when a Swiss kid in a dirty T-shirt walks into the American consulate in Hamburg and says the agency has been hacked, and he has a list of agents' names to prove it. This is the moment a CIA director most dreads. Weber turns to a charismatic (and unstable) young man named James Morris who runs the Internet Operations Center. He's the CIA's in-house geek. Weber launches Morris on a mole hunt unlike anything in spy fiction—one that takes the reader into the hacker underground of Europe and America and ends up in a landscape of paranoia and betrayal. Like the new world of cyber-espionage from which it's drawn, *The Director* is a maze of deception and double dealing, about a world where everything is written in zeroes and ones and nothing can be trusted. The CIA has belatedly discovered that this is not your father's Cold War, and Weber must play catch-up, against the clock and an unknown enemy, in a game he does not yet understand.

Tower of Secrets

The status of the United States as a world power, and the nature of power itself, are at a historic turning point. It is essential that we understand and adapt to the new security environment in which we find ourselves. Two of the most respected figures in American foreign policy are Zbigniew Brzezinski and Brent Scowcroft -- both former National Security Advisors under markedly different administrations. In *America and the World* they dissect, in spontaneous and unscripted conversations moderated by David Ignatius, the most significant foreign policy challenges facing the U.S.: the Middle East, Russia, China, Europe, the Developing World, the changing nature of power in a globalized world, and what Brzezinski has called the "global political awakening." While one author is a Republican and the other a Democrat, they broadly agree on the need to adapt to a new international environment. Where they disagree, their exchanges are always both deeply informed and provocative. *America and the World* will define the center of responsible opinion on American foreign policy at a time when the nation's decisions could determine how long it remains a superpower.

America and the World

A "masterful . . . brilliantly constructed novel" of love and chaos in 1950s Vietnam (Zadie Smith, *The Guardian*). It's 1955 and British journalist Thomas Fowler has been in Vietnam for two years covering the insurgency against French colonial rule. But it's not just a political tangle that's kept him tethered to the country. There's also his lover, Phuong, a young Vietnamese woman who clings to Fowler for protection. Then comes Alden Pyle, an idealistic American working in service of the CIA. Devotedly, disastrously patriotic, he believes neither communism nor colonialism is what's best for Southeast Asia, but rather a "Third Force": American democracy by any means necessary. His ideas of conquest include Phuong, to whom he promises a sweet life in the states. But as Pyle's blind moral conviction wreaks havoc upon innocent lives, it's ultimately his romantic compulsions that will play a role in his own undoing. Although criticized upon publication as anti-American, Graham Greene's "complex but compelling story of intrigue and counter-intrigue" would, in a few short years, prove prescient in its own condemnation of American interventionism (*The New York Times*).
