A complete guide to understanding, designing, and deploying Layer 2 VPN technologies and pseudowire emulation applications Evaluate market drivers for Layer 2 VPNs Understand the architectural frame-work and choices for Layer 2 VPNs, including AToM and L2TPv3 Grasp the essentials of Layer 2 LAN and WAN technologies Examine the theoretical and operational details of MPLS and LDP as they pertain to AToM Understand the theoretical and operational details of Layer 2 protocols over L2TPv3 in IP networks Learn about Layer 2 VPN bridged and routed interworking and Layer 2 local switching Understand the operation and application of Virtual Private LAN Services (VPLS) Learn about foundation and advanced AToM and L2TPv3 topics through an extensive collection of case studies The historical disconnect between legacy Layer 2 and Layer 3 VPN solutions has forced service providers to build, operate, and maintain separate infrastructures to accommodate various VPN access technologies. This costly proposition, however, is no longer necessary. As part of its new Unified VPN Suite, Cisco Systems® now offers next-generation Layer 2 VPN services like Layer 2 Tunneling Protocol version 3 (L2TPv3) and Any Transport over MPLS (AToM) that enable service providers to offer Frame Relay, ATM, Ethernet, and leased-line services over a common IP/MPLS core network. By unifying multiple network layers and providing an integrated set of software services and management tools over this infrastructure, the Cisco® Layer 2 VPN solution enables established carriers, IP-oriented ISP/CLECs, and large enterprise customers (LECs) to reach a broader set of potential VPN customers and offer truly global VPNs. Layer 2 VPN Architectures is a comprehensive guide to consolidating network infrastructures and extending VPN services. The book opens by discussing Layer 2 VPN applications utilizing both AToM and L2TPv3 protocols and comparing Layer 3 versus Layer 2 provider-provisioned VPNs. In addition to describing the concepts related to Layer 2 VPNs, this book provides an extensive collection of case studies that show you how these technologies and architectures work. The case studies include both AToM and L2TPv3 and reveal real-world service provider and enterprise design problems and solutions with hands-on configuration examples and implementation details. The case studies include all Layer 2 technologies transported using AToM and L2TPv3 pseudowires, including Ethernet, Ethernet VLAN, HDLC, PPP, Frame Relay, ATM AAL5 and ATM cells, and advanced topics relevant to Layer 2 VPN deployment, such as QoS and scalability.

Abundant Thinking and the Million Dollar Mindset

Those that think positively are abundant thinkers. This type of person is often more fulfilled, confident, and friendly than other type of thinker known as scarcity. A abundant thinker is driven, but not self absorbed. They set goals for themselves and set about planning and working to achieve these goals, but they do not step on others to speed up the process. They are always considerate and show compassion for others. An abundant thinker never doubts themselves or the choices that they are making. Being an abundant thinker and having a positive mindset create a mental state that focuses on opportunity and success.

Don't choose mediocre if you can choose amazing, exhilarating, and adventurous. Most importantly, don't choose mediocre if you can choose free! Your life is there to grabbed and to be lived! I want to show you how. I want to help you dig deep and remove the chains that have anchored you in mediocrity. I want to liberate you from a life of living paycheck to paycheck. I want to pick the lock that keeps you from doing what you love, instead of having to go to a job that you hate. Would you work a split second at your job if money were out of the equation? Probably not. These chains are meant to be broken! Quick disclaimer. There will not be any short cuts to riches. There is no such thing. If you were hoping to get some quick fix, please go and watch some motivational YouTube videos. Or go and pay a lot of money to some guy claiming that he will make you rich in no time. Anyone who promises you overnight wealth is stealing your money. I am

here to show you the long road, the journey, the path that will give you infinite possibilities. You will not be reliant on anything to make money. Once you adopt the millionaire mindset that I am going to show you, you will see opportunity everywhere!

Making a Million

Do you want to make a million dollars? Perfect! This book will teach you how. Becoming a millionaire starts with acquiring the right mindset-A Millionaires Mindset! In this book, you'll learn how to get the right mindset by taking actions necessary to become a millionaire. Most people think in reverse. They think they must first acquire a millionaire mindset before they can start becoming a millionaire. Actually, you should be doing certain million dollar producing activities and the mindset will quickly come. You have to experience making a million dollars to have the millionaire mindset. No worries, this book will teach you what to do and how to do it and even give you the reasons why to put things into perspective for you. Every millionaire I know (myself included) started with a business. The only exception to this is someone who is so penny pinching that they finally saved a million dollars but guess what: They were old when they finally did and by then were so impoverished mindset-wise, they couldn't enjoy the money and when they died they left it to someone who likely blew through it. If you want to be a millionaire it is probably best to focus on becoming one now; not later. The power of 'now' cannot be underscored enough. If you want to make a million dollars and have an abundance of money coming in year-after-year then start right away so you can enjoy the millionaire lifestyle. I was always driven and motivated to make money. I grew up in a household where nobody knew the value of a dollar earned, let alone a dollar earned by the efforts of someone else, i.e. leverage. My family members blew through saving like there would be no tomorrow. They always bought 'things' that devalued and which would never put money back into their bank account. Sadly, my mom and dad earned around \$150,000 per year, back in the 70's, 80's and 90's (this was a lot of money back then, and still is today for most people; depending of course on when you are reading this book). When you don't own assets, i.e. things that make you money perpetually, then you are really losing out on the money game. The easiest way to put it is like this: Poor people buy stuff, i.e. things that clutter up their homes, lives, etc., but which don't make them any money whatsoever (e.g., a new desk, a microwave, makeup, fancy smartphones, boats, surfboards, expensive overvalued automobiles, etc.); rich people buy assets, i.e. things that continue to make them money (e.g., stocks, real estate, businesses, etc.). If you want to be rich you must start buying things that make you money. You have to adjust your mindset so you do this instinctively. You must make buying assets a habit. You must if you want to be a millionaire sooner rather than later. This book is going to teach you how to think like a millionaire as you start to make your first million. I am revealing my exact secret to making a million dollars. The mindset will come as a result of taking massive action. You have to be mentally ready to embark on this journey or else you'll stay poor the until you are ready. Be decisive! Become a millionaire. Let's learn how now! Grab Your Copy Now!

Secrets of the Millionaire Mindset & Wealth Growing Strategies

Wealthy people will tell you that it is not very difficult to be wealthy. Because, as the Bible says, "As a man thinketh, so is he." We can achieve almost anything when our subconscious thoughts match our conscious thoughts. Only consciously thinking about wealth will not attract wealth if subconsciously we are opposing wealth or are afraid of wealth at some degree. Repeating affirmations helps change the subconscious thought pattern. Sometimes there may be some obstacles to overcome, like releasing some thought blocking money concerns about acquiring more money. But affirmations is the easiest way to reprogram the subconscious. Affirmations for wealth will reprogram your mind about wealth. The right money mind-set, as well as the financially savvy habits that go with it. "The primary difference between the wealthy and the rest of us is that they're in control of their money, they don't let money control them. They have taken the time to learn how to work successfully with money, and as a result,

they are the captain of their ship. If you want to create a million-dollar business, you must first cultivate a millionaire mindset. What that means is that you must already be, in your thinking, a million-dollar business owner where a million-dollar cash flow is normal for you. Millionaire business owners focus on doing great things, not creating great businesses. They pour their heart and soul into leaving a legacy of great causes they are passionate about. To do that, you must have firmly fixed in your mind the core purpose for your business. Make sure it is bigger than your own self. Remember: It's not about making money; it's about making our world a better place for you and others to live in. Look for inspiration, not products. What inspires you? Inspiration, rather than looking outward for products or services you think will line your pockets, million-dollar returns will flow to you. Know that thoughts become things. The Law of Attraction states that what you think about comes about. That's because your thoughts attract and magnetize other thoughts like them. Therefore, whatever you think about, that is what you will multiply in your business. Your business is a mirror of your own inner thinking.

Millionaire Mindset is the secret to changing your fortune. It's how you're going from mediocre performance to great richness. You must first learn how to think, sound and behave like a millionaire in order to become a millionaire. If that mentality is reached, you'll have access to the world's riches. If you want to be rich; have a fortune of one million dollars and feel financially free then you should start with the millionaire mindset. Like so many others in the world, I've been brought up with the message: ' Get a good job, work hard, and you're going to be able to live a modest to decent life.' My fiancée and I had decent work and we saved a fair amount of money and we lived well. But when we started thinking about how we wanted to live, and the life we wanted for our future kids, and how we wanted to live in retirement, we began to realize that we would have to work very hard to save a lot of money. And even then we have not been able to live the way we wanted. I knew that there was a safer way out. I was sure people were living a lot easier. And I wanted more than they would offer the usual schedule. I decided to have the financial freedom. The basic lesson of this law, is to be dedicated if you want to be a millionaire. When you just have hopes and aspirations, you're never really going to be motivated to make the kind of improvements that you need to get the kind of life you want. If you want to earn millions, you need the skills to earn millions, too. It has got to be worth it. You need to invest in improving yourself to become worth it and you need to spend real dollars and you take it seriously. Firstly, I want to give a major congratulations to you for buying my book, you earned a round of applause, you're finally on your way to financial independence. As humans, we all know that money is necessary in order to be able to do some important things in life, such as purchasing a car, paying for your wedding ring, buying a home, paying for college, buying a gift for a loved one etc. The reality is that not everyone believes that

money is necessary, and in some instances some people think that money is not at all very important, that happiness and peace of mind are more important than wealth and riches. Okay, this book has not been produced to challenge views and values, but like the famous quote, "whatever you want to believe is true." You are champion of your own way of thought. The fact is, your values, attitude and character are a vital part of what defines your level of success. All you need within your reach to become effective is already. It is up to you now to be ready and open-minded to try new things to attain your goals. You're going to have to break some habits; you're going to have to cut off some mates, you're going to have to be showing great discipline and character. Both these are already instilled into your instinct; you just have to reach out and start using them to your advantages. Your subconscious mind must be channeled in such a way as to constantly draw your mind to riches and positivity, or you won't see results. Wealth should not be confused with money making or earning a decent profit and vice versa. When you earn a decent income every year and waste it all, you're not getting richer. You're living up just high. You have to realize, to become a millionaire, that making money is different from creating wealth. Within a short time, you can expend all of your money or profits but you can't spend property. Wealth is built up, diversified and sustainable, not profits. Wealth can be transferred from generation to generation, so short-term wealth or profits won't last long, you guessed right.

The Millionaire Mind

The New York Times bestseller that gives "readers with an entrepreneurial turn of mind . . . road maps on how millionaires found their niches" (USA Today). The author of the blockbuster bestseller *The Millionaire Next Door: The Surprising Secrets of America's Wealthy* shows how self-made millionaires have surmounted shortcomings such as average intelligence by carefully choosing their careers, taking calculated risks, and living balanced lifestyles while maintaining their integrity. Dr. Thomas J. Stanley also builds on his research from *The Millionaire Next Door* and takes us further into the psyche of the American millionaire. Stanley focuses in on the top one percent of households in America and tells us the motor behind the engine; what makes them tick. His findings on how these families reached such financial success are based on in-depth surveys and interviews with more than thirteen hundred millionaires. "A very good book that deserves to be well read." —The Wall Street Journal "Worth every cent . . . It's an inspiration for anyone who has ever been told that he wasn't smart enough or good enough." —Associated Press "A high IQ isn't necessarily an indicator of financial success . . . Stanley tells us that the typical millionaire had an average GPA and frugal spending habits—but good interpersonal skills." —Entertainment Weekly "Ideas bigger than the next buck." —Orlando Sentinel

Every time you make a step forward that seems financially promising, the car breaks down, the deal falls through, or something else happens to get you right back where you started. Have you ever felt like you can't get past a certain income level no matter what you do? In the book Secrets of Successful Selling, the author uses the example of a real salesman who always made nearly the same exact amount of money every year. Whether he was given a more lucrative territory, a more challenging territory, whether commissions were increased, or decreased, he always managed to make the same amount of money regardless of changes in outside conditions. Why? The way he thought about himself (whether consciously or unconsciously) was the reason for his stagnation. He thought of himself as the kind of person who made that particular amount of money, so his actions always found a way to subconsciously align with his thoughts.
