The Living Reality of Being

The Living Reality of Being is a sampling of my Book of Life from age 4 to 85 years. These writings are my own experiences that have been lived out day by day. They are written in order as given to me and are not mind-controlled, but Spirit-given to me alone. My life is not my own for it belongs to God. As He has given to me, I share with those who read these pages one by one. This is the second in a series of three books which chronicle my progression from duality to oneness in God.

Deeper Insights Into the Living Reality of Being

This is the third in a series of three books which chronicles my life experiences in being brought from duality into oneness in God. Beginning chronologically where the second book ends, it includes new insights and experiences on my journey from deception as Eve to the birthing of the Son as Mary and from glory to glory on into the fullness of God. The cover photo of the two converging train tracks symbolizes my growth from natural to spiritual the two coming together to form one in newness of life.

The Reality of Being

An important book on liberating ourselves from the state of "waking sleep" in which we live our lives, as taught by one of the most influential spiritual teachers of the 20th century As the closest pupil of the charismatic spiritual master G. I. Gurdjieff (1866–1949), Jeanne de Salzmann was charged with carrying on his teachings of spiritual transformation. Known as the Fourth Way or "The Work," Gurdjieff's system was based on teachings of the East that he adapted for modern life in the West. Now, some twenty years after de Salzmann's death, the notebooks that she filled with her insights over a forty-year period (and intended to publish) have been translated and edited by a small group of her family and followers. The result is this long-awaited guide to Gurdjieff's teaching, describing the routes to be traveled and the landmarks encountered along the way. Organized according to themes, the chapters touch on all the important concepts and practices of the Work, including: • Awakening from the sleep of identification with the ordinary level of being • Self-observation and self-remembering • Conscious effort and voluntary suffering • Understanding symbolic concepts like the Enneagram • The Gurdjieff Movements, bodily exercises that provide training in Presence and the awareness of subtle energies • The necessity of a "school," meaning the collective practice of the teaching in a group Madame de Salzmann brings to the Work her own strong, direct language and personal journey in learning to live that knowledge of a higher level of being, which, she insists, "you have to see for yourself" on a level beyond theory and concept. De Salzmann consistently refused to discuss the teaching in terms of ideas, for this Fourth Way is to be experienced, not simply thought or believed.

The Story Between Us

This book is a map of the 3 'worlds' that make up our reality - Physical, Stories and Being, and a guide to navigate between them. The book uses simple language and doesn't require knowledge or beliefs, yet it's not meant for everyone, only for those who want to 'see' and be 'seen' beyond the masks of personality. 'Who am I?' describes the path to knowing yourself, healing and releasing your past to enter the world of being, and what you gain and lose by the exchange. 'Who are you?' describes the shared dance of 'seeing' and knowing another, and how to link as independent beings, and 'Who are we?' is a 'language' of sharing being in a group for those who can no longer belong. If you have no choice and simply 'must know', then read it, and breathe: -)

Living in Transit: Youth, Nomads and Reality

Living in Transit: being in motion is an actual condition. Movement is real. Moreover, it is essential because it concerns kinetic events. We can insistently perceive that everything changes and moves. All living beings undergo experiences revealing flows, adaptations, and becomings. Quotidian experiences testify to that. Directly or indirectly, we face reality's movements all the time. Atoms move. Planets move. Animals move. Rivers move. Trees move. Technology moves. Economy moves. The State moves. And people move. The ontological assertion that reality is all about beings in motion has an anthropological side that must be considered. We indeed live in times highly defined by movement and change. As we have said, everything moves. It is inevitable to perceive and face movement and change. For that reason, it is essential to ethically assess our human role in changing living scenarios and dynamic beings.

Living Reality

After thirty years of seeking liberation, James Braha had nearly given up on finding fulfilment. His mind began to change, however, when he encountered the Hindu/Vedic philosophy of non-duality. Upon reading Sailor Bob Adamson's book *Whats Wrong with Right Now Unless You Think About It?* James immediately invited Bob to come from Australia to share his knowledge with Americans. For five glorious weeks in the summer of 2004, Bob and his wife stayed with the Braha family at their home in Florida. Spiritual talk with arguably the greatest non-duality teacher alive continued from morning till night, as James' dearest friends and spiritualists from around the country joined the investigations into the truth of reality versus the illusion of appearance. This is a story of liberation, friendship, humour, and love, as Sailor Bob takes spiritual aspirants beyond the need for help, just as Nisargadatta Maharaj did for him thirty years ago. It is one of the warmest, most heartfelt treatises on non-duality ever written.

Living with Reality

Many of us know we need to change, but how do we do it? Spiritual teacher and intuitive counselor Beth Maynard Green offers a thorough, compassionate, and practical guide to personal and collective transformation. This step-by-step handbook gives solutions for overcoming ego domination, becoming happier and more relaxed, and achieving higher consciousness. It blends new and old wisdom in ways that are fresh yet familiar. In Section 1 of *Living with Reality*, Maynard Green shares original insights into who we are and includes the genesis of the ego, the development of our personalities from birth, the roles of fear and pain, and the causes of addiction. Section 2 provides a program for change and discusses • challenging yet commonsense paradigms • clear explanations of our habitual behavior patterns and ways to break them • practices that make us more relaxed, happy, and supportive to our world • self-help exercises, including detailed questions for self-reflection • techniques to access higher consciousness. Practical and powerful, *Living with Reality* is a manual for living and a vehicle for both group and individual study and transformation. Read it! Live it!

Representation and Reality in Humans, Other Living Organisms and Intelligent Machines

This book enriches our views on representation and deepens our understanding of its different aspects. It arises out of several years of dialog between the editors and the authors, an interdisciplinary team of highly experienced researchers, and it reflects the best contemporary view of representation and reality in humans, other living beings, and intelligent machines. Structured into parts on the cognitive, computational, natural sciences, philosophical, logical, and machine perspectives, a theme of the field and the book is building and presenting networks, and the editors hope that the contributed chapters will spur understanding and collaboration between researchers in domains such as computer science, philosophy, logic, systems theory, engineering, psychology, sociology, anthropology, neuroscience, linguistics, and synthetic biology.

The Holy Word for Morning Revival — Living in the Reality of the Body of Christ by Keeping the Principles of the Body

This book is intended as an aid to believers in developing a daily time of morning revival with the Lord in His word. At the same time, it provides a limited review of the International Chinese-speaking Conference held in Anaheim, California, February 15-17, 2019. The subject of the conference was "Living in the Reality of the Body of Christ by Keeping the Principles of the Body." Through intimate contact with the Lord in His word, the believers can be constituted with life and truth and thereby equipped to prophesy in the meetings of the church unto the building up of the Body of Christ.

Being You

A BOOK OF THE YEAR GUARDIAN , THE ECONOMIST, NEW STATESMAN, FINANCIAL TIMES, BLOOMBERG Anil Seth's radical new theory of consciousness challenges our understanding of perception and reality, doing for brain science what Dawkins did for evolutionary biology. 'A brilliant beast of a book.' DAVID BYRNE 'Hugely important.' JIM AL-KHALILI 'Masterly . . . An exhilarating book: a vast-ranging, phenomenal achievement that will undoubtedly become a seminal text.' GAIA VINCE, GUARDIAN Being You is not as simple as it sounds. Somehow, within each of our brains, billions of neurons work to create our conscious experience. How does this happen? Why do we experience life in the first person? After over twenty years researching the brain, world-renowned neuroscientist Anil Seth puts forward a radical new theory of consciousness and self. His unique theory of what it means to 'be you' challenges our understanding of perception and reality and it turns what you thought you knew about yourself on its head. 'Seth thinks clearly and sharply on one of the hardest problems of science and philosophy, cutting through weeds with a scientist's mind and a storyteller's skill.' ADAM RUTHERFORD 'A page-turner and a mind-blower . . . Beautifully written, crystal clear, deeply insightful.' DAVID EAGLEMAN 'If you read one book about consciousness, it must be Seth's. JULIAN BAGGINI, WALL STREET JOURNAL 'Gripping.' ALEX GARLAND 'I loved it.' MICHAEL POLLAN 'Fascinating.' FINANCIAL TIMES 'Awe-inspiring.' NEW STATESMAN 'Brilliant.' CLAIRE TOMALIN, NEW YORK TIMES

Living an Extraordinary Life in an Ordinary Reality

There is good news! More and more of us are hearing the inward calling spoken by the still, small voice beckoning us back home. The more of us who join the ranks, the quicker and more wholesomely we will demonstrate spiritual Truth. Each inward jewel of Wisdom we discern is a pearl of great price, costing nothing less than a full commitment to a better way—a simple but radical way of witnessing inner Truth. Unquestionably, the more we adhere to the practice of The Inward Journey, the more we demonstrate being extraordinary in what has become a rather ordinary reality, no matter what outer appearance and authority say to us.

Bending Reality

Bending Reality is the innovative process used by billionaires, tech leaders, and the world's most successful people to make the impossible . . . probable. Victoria Song teaches readers how to unlock the hidden power within their bodies to get what they want. After achieving success but lacking fulfillment as a student at Yale University and Harvard Business School, and then as a Forbes 30 Under 30 Venture Capitalist, Victoria set off on an unusual quest to study, train, and work with more than 24 of the best coaches, therapists, and healers in the world. She then deployed the skills and tools she'd learned with a diverse group of the world's highest performers. Through it all, she's discovered the codes that enable her clients to bend reality toward the directions they want. By accessing this extraordinary ability, Victoria's clients have sold a company for 4 billion dollars, grown revenue 1,000% during a pandemic, and pivoted to design a more effective COVID-19 vaccine. Victoria reveals the meta-framework behind peak performance, self-development, therapy, and meditation that is accessible for all. Whether you've studied these areas closely or this is the first book you've read on this topic, you'll have a front row seat to how the world's elite use this knowledge to achieve more while doing less. Reality of Spirituality in Kalyug

Reality of spirituality in kalyug is a book that determines the true meaning of spirituality. It raises doubt on the so called blind faith coming from historical times which has created uncomfortable lives for millions of people. We all are becoming so addicted to superstition and miracles that we don't want to see the real picture of the kalyug. We still believe in the acts of mythical times besides knowing

that the world today is different from the world in Mythical times. The God who should be remembered for humanity is worshiped for materialistic things. We are blindly walking on the well established fake path laid down for us by today's spiritual mentors. In the era of urbanisation we have betrayed not only ourselves but our God too. Religion is used for politics and politics is played for God. The world is running in the search for God, to worship, to love and also to gain material pleasures. But is our approach right? Are the teachings we follow right and authentic Is there any God at all This book will compel you to question the religion, the being, the nature and the self. The things we know and the things we believe are different from the things that exist as truth and in this book of mine you will have the chance to explore the same. This book not only discloses the myths we are living with but also the wrong teachings which are taught to us by spiritual mentors. We are mind washed so deeply that we feel that every action will make us a sinner. The book showcases the true reality of spirituality in kalyug and will provoke you to question spirituality, reality and even yourself. This book is dedicated to my family and all the readers of Real world. I express my heartfelt gratitude to my readers and friends who believed in me and have always encouraged me to write. Regards. Pulkit Mohan Singla. Guest Author - Dr. Prerna Singla Foreword By - Yogesh Mohan Singla

Living Theodrama

A fresh, creative introduction to theological ethics. Offering an imaginative approach through dialogue with theatrical theory and practice, Vander Lugt demonstrates a new way to integrate actor-oriented and action-oriented approaches to Christian ethics within a comprehensive theodramatic model. This model affirms that life is a drama performed in the company of God and others, providing rich metaphors for relating theology to everyday formation and performance in this drama. This book contains not only a fruitful exchange between theological ethics and theatre, but it also presents a promising method for interdisciplinary dialogue between theology and the arts that will be valuable for students and practitioners across many different fields.

Living in the Shadow of Reality

Westerners often make the mistake of discounting the spiritual aspects of life as “not real”, imaginary, a mere reflection of what is experienced in the “real world” (by which they usually mean, the physical world that we experience with our five senses). Many claim that the concept of angels and demons are creations of our imagination, that God or the gods of other religions are mere projections that we create for ourselves. The argument goes like this: Humans look at physical reality and then create/imagine a shadow world, the spirit world, based upon our experience of ‘real life’. But what if the opposite is true? What if what we are experiencing with our five senses is really just a reflection in a pond? What if the “real” begins with the spiritual and then is reflected into the physical? If this hypothesis is true, if indeed what we see happening around us in the physical world begins in the spiritual world and is only later manifested where we can perceive it with our five senses, then that has profound implications for us in a practical sense. If true, this would mean that individual crimes, acts of evil and aggression, and perhaps even larger events, armed conflicts, terrorist strikes or man-made catastrophes that occur in our physical world might be avoided altogether...if we can stop them at the spiritual level. Likewise, what if good might blossom in our physical world as a result of intervention at the spiritual level? It certainly seems that we have evidence for both, in human experience and in the scriptures. Join Dr. Silas Gaines as he walks his readers through a scriptural, historical and personal journey to identify spiritual laws and principles that govern our current reality. Gaines aids us in highlighting spiritual laws woven into the Created Order of which we are often dangerously ignorant, and which often hold the keys to humanity flourishing in God's plans and purposes. Gaines invites us to join in a journey that will open our eyes to new realities around us, and empower us to walk into our God-given destinies, impacting people and the world around us as we were born to do.

Reality+

From one of our leading thinkers, a dazzling philosophical journey through virtual worlds In the coming decades, the technology that enables virtual and augmented reality will improve beyond recognition. Within a century, world-renowned philosopher David J. Chalmers predicts, we will have virtual worlds that are impossible to distinguish from non-virtual worlds. But is virtual reality just escapism? In a highly original work of 'technophilosophy', Chalmers argues categorically, no: virtual reality is genuine reality. Virtual worlds are not second-class worlds. We can live a meaningful life in virtual reality - and increasingly, we will. What is reality, anyway? How can we lead a good life? Is there a god? How do

we know there's an external world - and how do we know we're not living in a computer simulation? In Reality+, Chalmers conducts a grand tour of philosophy, using cutting-edge technology to provide invigorating new answers to age-old questions. Drawing on examples from pop culture, literature and film that help bring philosophical issues to life, Reality+ is a mind-bending journey through virtual worlds, illuminating the nature of reality and our place within it.

The award-winning Manual For Living: REALITY, A User's Guide to the Meaning of Life, is the first book in the Manual For Living Series, and is a genuine user's guide to the meaning of life, and will change the way you see the world. Its straightforward guidance and practical wisdom will help you remain true to your path and purpose in life. A powerful, life-altering book to help you reconnect to your truth and your reason for being. Find True Fulfillment and Lasting Happiness Overcome Your Fear of Death Learn How to Fully Experience Life Reconnect With Your Inner Truth Discover Your True Purpose Chernoff writes, "We each have a path and purpose in life, a destiny as unique as our own fingerprints, yet we often live lives of petty obscurity and quiet desperation, ignoring our truth. It is our prerogative to find our purpose and fulfill it. The loss of a life is not as devastating as the loss what could have been, of the dreams left unfulfilled and passions undiscovered."

Manual for Living

The author of this book challenges the contemporary view of God and suffering. Calling upon scripture, and the philosophical and theological tradition of the Fathers and Aquinas, he advocates the incarnational truth that the Son of God actually does experience human living, including suffering.

The Living Age

What-The-What Is Going On At Church Have you ever been in a room and everyone is smiling but you're not. You feel as though something is missing and wrong? Today people are esteeming culture, tradition, and ethnicity above the Church with lukewarm standards and dismissal of any Scripture that requires humility, meekness, and change in character and behavior. The Church is missing accountability for Righteous living. You know there is confusion when people try to make Christianity synonymous with other religions. People are trying to merge Christianity with other ideologies and beliefs, in order to substantiate lifestyle choices, root comes from the pit of Hell. Christianity is unique and set apart from all other faiths and religions. Christianity has the GODhead; a personal Saviour, Jesus Christ (fully GOD and fully human), the indwelling power of the Holy Spirit inside of Christian-Believers, and GOD the Father who is the mastermind over all things living and non-living. The GODhead is all power, all present, and all knowing. As Christian-Believers, we must come out of complacency to be an example of Jesus Christ to the world because people are lost. They need to know about the path of Christianity to the GODhead. Christianity is the way to bring order to all of this chaos and show the right path to everlasting life. I pray that this book will bring you to the Cross and strengthen your walk in Christianity. Motivate yourself to put Faith N Motion and begin to show What-The-What you are doing by Faith because without Faith it is impossible to please GOD. This book is written by Faith.

Does God Suffer?

Annotation If religion is not about God, then what on earth is it about? Loyal Rue contends that religion is a series of strategies that aims to influence human nature so that we might think, feel, and act in ways that are good for us, both individually and collectively.

The Reality of Christianity: Being a Christian-Believer

"The traditional model of how the universe and life came about has some very serious gaps in it which many scientists of all persuasions tend to ignore. In my view, the idea of a physical reality being created out of nothing is a bizarre notion. Instead, I suggest that in contrast to an understanding of the world in which the evolution of Homo sapiens is almost incidental to 'the way things really are', knowledge is always the product of a living entity and its perceived environment. This means that awareness, thinking and knowing things are not just the prerogative of human beings, but of all beings, whether they are micro-organisms or plants, trees, insects, fish or mammals. My conclusion is that all living beings have the ability not only to grow, metabolise nutrients and reproduce, but also to know the appropriate responses to problematic situations. We are all 'knowing beings' within our own reality"--Back cover.

Religion is Not about God

The 99 essays in *Living in the Now* provide practical wisdom that will help you live in this world as the spiritual being that you are. They can be read in any order and used in daily contemplation. They address many questions raised by the spiritual search, offering insight on fear, anger, happiness, aging, boredom, desire, patience, faith, forgiveness, acceptance, commitment, love, purpose, meaning, fulfillment, meditation, being present, quieting the mind, letting go of the past, healing conditioning, dealing with emotions, trusting life, trusting your Heart, and many other deep subjects. These essays will help you become more present and aware of your true nature and feel more loving, happy, grateful, and at peace.

Knowing Being

If we see ourselves as Earth rather than Earth as existing for us our perspective is transformed. A variety of religious, philosophical, cultural, and political self-perceptions that dominate our sense of human identity are deeply challenged by this shift in perspective. John Locke's doctrine of Earth as human "property" has been central to current presuppositions about our selves: justified on the grounds of our possessing unique, divinely bestowed, rational abilities. But today, the effects of that doctrine on Earth's resource base and on its other-than-human creatures directly challenge such assumptions. At the same time contemporary scientific findings about the evolution of earthly life demonstrate that while we belong to Earth and nowhere else, Earth does not belong to us. Exploring this role reversal raises fundamental questions about current theological, philosophical, scientific, and economic presuppositions that underpin the "business as usual" viewpoint and human-centered aims of contemporary policies and lifestyles. It takes us beyond hierarchical Christian and philosophical doctrines toward a deeper, Earth-focused and peace-based understanding of what it means to be human today.

Eclectic Magazine, and Monthly Edition of the Living Age

This is a philosophical account of the nature, role and variety of existential feelings in psychiatric illness and in everyday life. The book includes feelings of familiarity, unfamiliarity, estrangement, isolation, emptiness and belonging.

Living in the Now

Living Magically is a book that has changed countless lives. In this lively and inspiring guide to the tools and techniques of metaphysics, Gill Edwards outlines a spiritually-based psychology for the times that we live in. Taking a practical self-help approach, *Living Magically* will help you to: Rediscover your inner wisdom; Break through your fears, blockages and limitations; Let go of the past and reach for the future; Grow through love and joy, rather than pain and struggle; Heal your inner child; 'Listen to the whispers' from your Higher Self; Make your dreams come true

What is Reality?

All Groan Up: Searching for Self, Faith, and A Freaking Job! is the story of the GenY/Millennial generation told through the individual story of author Paul Angone. It's a story of struggle, hope, failure, and doubts in the twilight zone of growing up and being grown, connecting with his twentysomething post-college audience with raw honesty, humor, and hope.

The Philosophical Basis of Theism

Transurfing Reality was one of the top non-fiction bestsellers in the world in 2005 and 2006. Unknown till now in the West, the series has sold over 1,300,000 copies in Russia in three years. This translation (by Natasha Micharina) describes a new way of looking at reality, indeed of creating it. It provides a scientific explanation of the laws that help you do this, building up a scientific model, speaking in detail about particular rules to follow and giving important how-to tips, illustrated with examples. The author introduces a system of specific terms, notions, and metaphors, which together make a truly convincing, thought-provoking theory of creating your own life. "You are ruled by circumstances and it will always be like that until you learn how to manage your reality," says the author. Bringing together the cutting edge of modern science and philosophical teaching, the book's style is popular-scientific, metaphorical and conversational. Books in the series: Reality Transurfing 1: The Space of Variations; Reality Transurfing 2: A Rustle of Morning Stars; Reality Transurfing 3: Forward to the Past; Reality Transurfing 4: Ruling Reality; Reality Transurfing 5: Apples Fall to the Sky

Exploring Earthiness

The Reality Dysfunction by Peter F. Hamilton is the first in a sweeping galactic series, The Night's Dawn trilogy, from the master of space opera. In AD 2600, the human race is finally realizing its potential. The galaxy's colonized planets host a multitude of diverse cultures. Genetic engineering has defeated disease and produced extraordinary space-born creatures. Huge fleets of sentient trader starships thrive, living on the wealth created by industrializing entire star systems. And throughout inhabited space, the Confederation Navy keeps the peace. Then something goes catastrophically wrong. On a primitive colony planet, a renegade criminal encounters an utterly alien entity. And this unintended meeting triggers the release of those that should never see the light, threatening everything we've become. An extinct race named this phenomenon 'the Reality Dysfunction'. It is a nightmare that has haunted us since the dawn of time. The Reality Dysfunction is followed by The Neutronium Alchemist and The Naked God.

The Sunday at Home

One of the most significant philosophical texts by W.W. Atkinson, Mastery of Being: A Study of the Ultimate Principle of Reality and the Practical Application Thereof breaks into three parts the principles of reality, including atoms, the spirit, and physical manifestation. He uses theories and popularly accepted ideology to prove that reality is true, and uses his ideology to describe how we can apply reality to life, and become "masters of being." American writer WILLIAM WALKER ATKINSON (1862-1932) was editor of the popular magazine New Thought from 1901 to 1905, and editor of the journal Advanced Thought from 1916 to 1919. He authored dozens of New Thought books under numerous pseudonyms, including "Yogi," some of which are likely still unknown today.

Feelings of Being

Living a Royal Reality is not about living a fairytale life or pretending that life is perfect. The fact is, for many of us, our reality has truly been scarred by our life's experiences and choices. This book was written to empower and enlighten women that through the blood of Jesus Christ, we are Royalties (co-heirs with Christ, Daughters of the King, Chosen by God, Living by Grace). As Royalties, we have access and dominion over everything that JESUS CHRIST has dominion over, which includes our realities. These also include strongholds, fear, sickness, depression, brokenness, poverty, rape, abuse, abandonment etc. As women, these are only a few of the 'realities' we deal with daily. As Royalties, we have been given authority to live as more than conquerors, overcomers and true victors over these 'realities'. This book will enlighten and inspire you to: - Be the best you God has called you to be - Be confident in your true identity - Discover and know your worth - Live a purpose-driven life - Be set apart and adopt God's standards - Prepare for eternity

Living Magically

Much evidence strongly indicates that bodily death is not the end of your life, but rather an entry point into the next phase of forever. This evidence, combined with a highly probable emergence of spirit communication technology as early as 2018, will very likely create a major shift in the human experience. Our goal is to provide an evidence-based integrative foundation for expanding your awareness of the greater reality, the 99.9 percent of life that cannot be perceived by your five senses. We hope to prepare you and as many people as possible to realize that life is eternal. From that perspective, you can perhaps best choose how to live, treat others and enjoy greater reality living. What is the greater

reality? The greater reality is that 99.9 percent of what actually exists and cannot be perceived by your senses. It is nonetheless very real. It is a scientific fact that your five senses, as amazing as they are, detect much less than 1 percent of reality. Because so much of reality escapes the senses, you likely have viewed life as if through a tiny pinhole and then wondered why things don't make sense. Our perspectives are based on contemporary knowledge and understandings from scientific, clinical and empirical evidence. A greater reality perspective indicates, with varying degrees of certainty that you: Are an eternal being of consciousness. Do not 'lose' loved ones who have passed on but do reunite with them when you change worlds. Can enjoy a continued although different relationship with those who have dropped their physical body. Encounter not just one, but many life experiences throughout eternity. Are one with the One and an integral part of Life Source Receive assistance and guidance - synchronistic signs for example - from sources described as angels, guides, master teachers, higher energies and the Light. Create how heavenly or hellish your life feels - whether on earth or elsewhere - by your predominant thoughts, words and deeds. Are interconnected with other people, animals, nature and all of life. Have special purposes for experiencing being on this planet now. None of the above is apparent when you rely on just your five senses per se. All of the above are essential understandings for having a joyful, peaceful and meaningful human experience. What is greater reality living? The term greater reality living describes how you might choose to live as you expand your awareness of reality. How would you live and treat others if you deeply knew that, for the list above, statements (a) and (b) have a 99.9 percent certainty of being true and the others are quite probably true? Five keys to greater reality living - Learn, Internalize, Vitalize, Enjoy, Serve - can be remembered by the acronym LIVES: 1. Learn the evidence that your consciousness survives bodily death. 2. Internalize the great news that you are a forever being. 3. Vitalize yourself holistically. 4. Enjoy the many benefits of greater reality living. 5. Serve others to help them and yourself - and make the world a better place. We offer insights, resources and hope for those who are searching and suffering, particularly if you are: Grieving the passing of a loved one, especially a child. Fearing your own bodily death. Struggling with the suicide of a loved one. Experiencing the process of dying. Suffering with difficulties such as failed relationships, physical or mental illness, broken dreams, financial loss, lack of purpose or addicted loved ones. Considering the ending of your earthly experience through suicide. Mourning the passing of a beloved pet. Wrestling with past religious teachings that don't make sense to you now. Searching for sensible answers to your biggest questions and challenges. Wanting to transform yourself and our planet for the better. Our understandings and LIVES strategies, when applied regularly over time, can greatly assist these and other challenges.
