Li Yang acknowledges the darkness in China but expresses the experience of God's victory amid that darkness.

Li Yang shares that he became a believer 10 years ago during a business trip, and his entire family came to Christ afterward.

Li Yang explains the challenges of sharing the Gospel in China, where the government treats those spreading the Gospel as criminals, aiming to control the number of Christians.

Li Yang recounts the recent persecution of a friend who was taken by the Chinese police, questioned, and severely beaten for spreading the Gospel.

Due to restrictions on public meetings, Li Yang describes how their ministry takes place in the buildings where they live, with believers gathering in homes in the evenings.

Li Yang highlights the lack of awareness about Christ among people on the streets and the challenges of ministering in a context where no one in their families is a believer.

Despite the fearful darkness, Li Yang expresses his confidence that God will overcome, and he is determined to share the Gospel despite the risks.

Li Yang describes his approach to ministry, visiting neighbors, listening, sharing in their lives, and telling the story of Jesus Christ when he gets the chance.

Li Yang shares the discovery of another home church meeting in the same building, which humbled them and highlighted God's work in their midst.

Li Yang emphasizes that despite the darkness and persecution, the Holy Spirit is moving in China, preparing the hearts of people.

Li Yang expresses his commitment to sharing the love of Jesus Christ every day, even if it means going to prison, confident that no one can have victory over God.

Difficulties Felt by Anglicans in Catholic Teaching Considered

Edward Norman, a vocal critic within the Church of England, laments the lack of authority in today's Church.

Anglican Difficulties

In *Mary's Bodily Assumption*, Matthew Levering presents a contemporary explanation and defense of the Catholic doctrine of Mary's bodily Assumption. He asks: How does the Church justify a doctrine that does not have explicit biblical or first-century historical evidence to support it? With the goal of exploring this question more deeply, he divides his discussion into two sections, one historical and the other systematic. Levering's historical section aims to retrieve the rich Mariological doctrine of the mid-twentieth century. He introduces the development of Mariology in Catholic Magisterial documents, focusing on Pope Pius XII's encyclical *Munificentissimus Deus* of 1950, in which the bodily Assumption of Mary was dogmatically defined, and two later Magisterial documents, Vatican II's *Lumen Gentium* and Pope John Paul II's *Redemptoris Mater*. Levering addresses the work of the neo-scholastic theologians Joseph Duhr, Alois Janssens, and Réginald Garrigou-Lagrange before turning to the great theologians of the *nouvelle théologie*—Karl Rahner, Hans Urs von Balthasar, Louis Bouyer, Joseph

Ratzinger—and their emphasis on biblical typology. Using John Henry Newman as a guide, Levering organizes his systematic section by the three pillars of the doctrine on which Mary's Assumption rests: biblical typology, the Church as authoritative interpreter of divine revelation under the guidance of the Holy Spirit, and the fittingness of Mary's Assumption in relation to the other mysteries of faith. Levering's ecumenical contribution is a significant engagement with Protestant biblical scholars and theologians; it is also a reclamation of Mariology as a central topic in Catholic theology.

Mary's Bodily Assumption

This volume of essays, sponsored by the Newman Association of America, serves to identify, preserve, and promote the legacy of John Henry Newman. It argues that eleven major elements of Newman's life and work speak to us today, and, in fact, are very important resources for believers in their confrontation with the challenges of an increasingly secular world. They also resonate loudly to a church in crisis both internally and externally in its confrontation with that world. Ten authors, included among them some of the world's most noted Newman scholars, as well as several emerging ones, address various aspects of Newman's legacy on a host of subjects. These include the nature and challenges of faith both for believers and contemporary "nones" with no religious affiliations, an analysis of what and how we know things, particularly bearing on religious matters, the experience of conversions, the place and meaning of relationships in our search for God, especially those of family, home, and friendships, the indispensable role of the church in our drive for holiness, the nature and importance of education and its personal dimension, and the correct application of history in studying and learning from Newman's legacy. Those who have questions and who think about these subjects, academics and non-academics alike, will find much to ponder in these essays.

The Nature of Conscience and Its Religious Significance with a Special Reference to John Henry Newman

Is unity of knowledge possible? Is it desirable? Two rival visions clash. One seeks a single way of explaining everything known and knowable about ourselves and the universe. The other champions diverse modes of understanding served by disparate kinds of evidence. Contrary views pit science against the arts and humanities. Scientists generally laud and seek convergence. Artists and humanists deplore amalgamation as a threat to humane values. These opposing perspectives flamed into hostility in the 1950s "Two Cultures" clash. They culminate today in new efforts to conjoin insights into physical nature and human culture, and new fears lest such syntheses submerge what the arts and humanities most value. This book, stemming from David Lowenthal's inaugural Stockholm Archipelago Lectures, explores the Two Cultures quarrel's underlying ideologies. Lowenthal shows how ingrained bias toward unity or diversity shapes major issues in education, religion, genetics, race relations, heritage governance, and environmental policy. Aimed at a general academic audience, *Quest for the Unity of Knowledge* especially targets those in conservation, ecology, history of ideas, museology, and heritage studies.

Saint John Henry Newman

This volume and its predecessor work, *The Influence of Rhetoric in the Shaping of Great Britain*, constitute the first comprehensive history of public speaking in the British Isles, including full consideration of preaching and religious changes, the growth and influence of parliament, social and labor problems, intellectual controversies, the rights of Ireland and Scotland, and the struggle to attain equality for women.

Athenaeum and Literary Chronicle

Enlightened Oxford aims to discern, establish, and clarify the multiplicity of connections between the University of Oxford, its members, and the world outside; to offer readers a fresh, contextualised sense of the University's role in the state, in society, and in relation to other institutions between the Williamite Revolution and the first decade of the nineteenth century, the era loosely describable (though not without much qualification) as England's ancien regime. Nigel Aston asks where Oxford fitted in to the broader social and cultural picture of the time, locating the University's importance in Church and state, and pondering its place as an institution that upheld religious entitlement in an ever-shifting intellectual world where national and confessional boundaries were under scrutiny. *Enlightened Oxford* is less an inside history than a consideration of an institutional presence and its place in the life of the country and further afield. While admitting the degree of corporate inertia to be found in the University, there

was internal scope for members so inclined to be creative in their teaching, open new research lines, and be unapologetic Whigs rather than unrepentant Tories. For if Oxford was a seat of learning rooted in its past - and with an increasing antiquarian awareness of its inheritance - yet it had a surprising capacity for adaptation, a scope for intellectual and political pluralism that was not incompatible with enlightened values.

The Athenaeum

In addition to current definitions, provides an historical treatment to words and idioms included.

Quest for the Unity of Knowledge

Organised religion played such a central part in Victorian life that it is impossible to understand this era without some reference to it. Yet the question, which worried the Victorians, still remains, how religious was the mass of Victorian society? Recent scholarship has challenged the orthodoxy that the working classes, and the working classes of large urban centres in particular, were irreligious. Yet Liverpool, with its large migratory population, including Roman Catholics from Ireland and Nonconformists from Wales and Scotland, appeared to offer unpromising ground for the Anglican Church to sow its seed. Within the city, Liverpool's notorious slums seemed to offer the most barren ground of all. What strategies did the Anglican clergy employ to make their churches work at a grassroots level? How could they overcome the problems they faced, which ranged from the hostility of the local community to severe financial constraints? How helpful was the advice dispensed by Church handbooks in dealing with these challenges? More important, is it now possible to estimate the success in gaining not only worshippers, but a wider penumbra of working class adherents to church-based activities? Some of Liverpool's more aristocratic churches were overwhelmed by the encroaching city slums, and the reaction of at least one clergyman was to retreat within his vicarage, and 'shut up shop'. However, other clergy set about energetically working the slums. Largely Oxbridge men, with a very different background in social and educational terms to their flock, they made surprising progress. By drawing upon a variety of local sources, including many hitherto unused, this book contends that it is possible to evaluate the success of the Anglican Church in the slums. The Church had successes not only to be judged solely by the number of working class worshippers, but also by the uses the local community made of rites of passage, philanthropic activities and the clubs and societies offered by the Anglican Church in Liverpool. This book is aimed at readers interested in researching family and local history as well as those following wider national trends in religious history.

The Athenæum

This uniquely comprehensive reference work provides a global account of the history, expansion, diversity, and contemporary issues facing the Anglican Communion, the worldwide body that includes all followers of the Anglican faith. An insightful and wide-ranging treatment of this dynamic global faith, offering unrivalled coverage of its historical development, and the religious and ethical questions affecting the church today. Explores every aspect of this vibrant religious community— from analyzing its instruments of Unity, to its central role in interfaith communication. Spans the Anglican Communion's long history through to 21st century debates within the church on such issues as sexual-orientation of clergy, and the pastoral role of women. Features a substantial articles on the Church's 44 provinces, including a brief history of each. Brings together a distinguished and international team of contributors, including some of the world's leading Anglican commentators.

The Living Church

The Methodists and Revolutionary America is the first in-depth narrative of the origins of American Methodism, one of the most significant popular movements in American history. Placing Methodism's rise in the ideological context of the American Revolution and the complex social setting of the greater Middle Atlantic where it was first introduced, Dee Andrews argues that this new religion provided an alternative to the exclusionary politics of Revolutionary America. With its call to missionary preaching, its enthusiastic revivals, and its prolific religious societies, Methodism competed with republicanism for a place at the center of American culture. Based on rare archival sources and a wealth of Wesleyan literature, this book examines all aspects of the early movement. From Methodism's Wesleyan beginnings to the prominence of women in local societies, the construction of African Methodism, the diverse social profile of Methodist men, and contests over the movement's future, Andrews charts Methodism's metamorphosis from a British missionary organization to a fully Americanized church.

Weaving together narrative and analysis, Andrews explains Methodism's extraordinary popular appeal in rich and compelling new detail.

Public Speaking in the Reshaping of Great Britain

A weekly review of politics, literature, theology, and art.

Apologia Pro Vita Sua

The Age of Improvement has long established itself as a classic of modern historical writing. Widely read and quoted it has had a unique influence on teaching and research. This second edition draws on the great volume of new research - produced by Lord Briggs amongst others, since its original publication. The book stresses both the underlying unity and the rich variety of the age, and raises fundamental issues about a period of crucial change in British history - industrialisation, war, constitutional change and the attitudes of politicians towards it, political development, and, not least, society and culture. In the background are the new economic powers based on the development of a coal and iron technology; in the foreground, new social and political problems and new ways of tackling them. The author also discusses perceptions of, and reactions to, changing circumstances, the influence of religion and science on national life, and changing styles in art and literature. The story ends, not with a full stop but with a question mark. Could improvement be maintained? Could balance and progress continue to be reconciled?

Enlightened Oxford

The work of the Anglican–Roman Catholic International Commission (ARCIC), now in its third phase, is of immense ecumenical significance. This volume brings together for the first time the five Agreed Statements of ARCIC II. It offers critical analyses of their contexts and of responses made, together with resources to promote the reception of ARCIC II's work by the Anglican Communion and the Catholic Church. Looking towards a Church fully reconciled also looks forward, anticipating what it will mean to live in a fully reconciled Church. Its editors trust that such reflection on the ARCIC heritage will serve the mission of God through the reconciled people of God, walking ever more closely together.
