Reefer Madness

From the author of Fast Food Nation, Eric Schlosser's Reefer Madness: and Other Tales from the American Underground follows the money to uncover made the country rich: porn, pot and exploitation. In three linked essays, Eric Schlosser uncovers how dirty dealings and secret vices are part of a global black market on which we all depend. Reefer Madness traces the history of the contemporary 'war on drugs' from its origins in Reagan's social conservatism through to its profound impact on civil society, creating a justice system that punishes marijuana offences more harshly than rape and murder. An Empire of the Obscene tells the story of Reuben Sturman, the billionaire 'Walt Disney of porn' who most effectively exploited economies of scale to create a business that now saturates America and the world with graphic sexual imagery. In the Strawberry Fields shows how public demand for a soft red fruit is causing mass migration from Central America and changing California's political economy forever. 'An amazing secret history of America's favourite vices' Independent 'A shocking journey through the underside of the world's mightiest economy' The Times 'Schlosser tells us things we already suspect to be true, but don't dare think about' Daily Telegraph 'Superb ... mind-blowing ... quite simply the non-fiction book of the year' The List Eric Schlosser is an author and investigative journalist based in New York. His first book, Fast Food Nation, was a major international bestseller. His work has appeared in the Atlantic Monthly, Rolling Stone and the Guardian.

Reefer Madness

New York Times Bestseller: The shadowy world of “off the books” businesses—from marijuana to migrant workers—brought to life by the author of Fast Food Nation. America’s black market is much larger than we realize, and it affects us all deeply, whether or not we smoke pot, rent a risqué video, or pay our kids’ nannies in cash. In Reefer Madness, the award-winning investigative journalist Eric Schlosser turns his exacting eye to the underbelly of American capitalism and its far-reaching influence on our society. Exposing three American mainstays—pot, porn, and illegal immigrants—Schlosser

shows how the black market has burgeoned over the past several decades. He also draws compelling parallels between underground and overground: how tycoons and gangsters rise and fall, how new technology shapes a market, how government intervention can reinvigorate black markets as well as mainstream ones, and how big business learns—and profits—from the underground. “Captivating . . . Compelling tales of crime and punishment as well as an illuminating glimpse at the inner workings of the underground economy. The book revolves around two figures: Mark Young of Indiana, who was sentenced to life in prison without parole for his relatively minor role in a marijuana deal; and Reuben Sturman, an enigmatic Ohio man who built and controlled a formidable pornography distribution empire before finally being convicted of tax evasion. . . . Schlosser unravels an American society that has ‘become alienated and at odds with itself.’ Like *Fast Food Nation*, this is an eye-opening book, offering the same high level of reporting and research.” —Publishers Weekly

Reefer Madness

Eric Schlosser explores three of the most prominent and least understood features of globalization; drugs, pornography and migrant labour. *Reefer Madness* traces the history of the contemporary war on drugs from its origins in Reagan's social conservatism through to its profound impact on America's civil society and on the country's relations with the wider world. *An Empire of the Obscene* tells the story of Reuben Sturman, who most effectively exploited economies of scale to create a business that now saturates America and the world with graphic sexual imagery. *In the Strawberry Fields* shows how public demand for a soft red fruit is causing mass migration from Central America and changing California's political economy forever.

Readings in Caribbean History and Culture

This book introduces the scholarly work of a number of new researchers working on the history and culture of the Caribbean. The eleven essays in this book cover topical themes and issues relating to those two subject areas, and specifically address the topics of colonialism, slavery, the Christianizing and moralizing missions, education, art history, and musical culture in the form of Reggae and its interactions with politics.

Hollywood and the Mob

From its earliest days, the Mafia has sought to make a fast buck from the American film industry. Stories of intimidation, threats and violence mingle with those of glamour and excess. In this stunning story of infamy and ballsy enterprise, Tim Adler tells the secret history of Al Capone, Sam Giancana and John Gotti's attempts to infiltrate the studio lots. However, although they have controlled the moguls and the money, the Mob learned how to be cool from classic films like *The Godfather* and characters like Tony Soprano, leaving them forever intertwined in both fact and fiction.

The Readers' Advisory Guide to Nonfiction

Navigating what she calls the "extravagantly rich world of nonfiction," renowned readers' advisor (RA) Wyatt builds readers' advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library's entire collection. She focuses on eight popular categories: history, true crime, true adventure, science, memoir, food/cooking, travel, and sports. Within each, she explains the scope, popularity, style, major authors and works, and the subject's position in readers' advisory interviews. Wyatt addresses who is reading nonfiction and why, while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next. In easy-to-follow steps, Wyatt Explains the hows and whys of offering fiction and nonfiction suggestions together Illustrates ways to get up to speed fast in nonfiction Shows how to lead readers to a variety of books using her "read-around" and "reading map" strategies Provides tools to build nonfiction subject guides for the collection This hands-on guide includes nonfiction bibliography, key authors, benchmark books with annotations, and core collections. It is destined to become the nonfiction 'bible' for readers' advisory and collection development, helping librarians, library workers, and patrons select great reading from the entire library collection!

In the Shadow of the Bomb

Detective McNulty applies bite marks to a deceased man's body with a set of dentures in *The Wire*, illustrating how officialdom deals in falsehood. Dr. Strangelove lovingly describes the "doomsday

machine” as being free from “human meddling,” while it destroys the world, highlighting the absurdity of placing systems above any moral considerations. In *Crash*, Ballard survives a car accident only to be cared for by a paternal technology that tends only to his physical needs—a life of technical certitude bereft of beauty. The Cold War, with its promise of imminent and purposeless doom, profoundly shaped the post-modern world in ways that are not yet appreciated. This study examines the Cold War zeitgeist and its aftermath as shown in fiction, film and television.

Global Geopolitics

Employing thematic investigation and illustrated through case studies, Dodds explores how global politics is imagined and practised by countries such as the US and other organisations including Greenpeace, the IMF and CNN International. In addition, the author discusses how issues such as environmental degradation, terror networks, anti-globalisation protests and North-South relations challenge, consolidate and subvert the existing international political system.

100 Must-read Life-Changing Books

Novels which transform our ideas about human possibilities, biographies which celebrate the achievements of extraordinary individuals, polemical works of non-fiction which oblige us to alter our views of the world or of human society: all of us can remember reading at least one book which made us think about the world anew. Here, the author of the popular Bloomsbury Good Reading Guide, selects the very best books which may or may not have changed the world, but which have certainly changed the lives of thousands of people who have read them. Some examples of titles included: Maya Angelou, *I Know Why the Caged Bird Sings* - a poignant recording of the author's triumph over the obstacles of being black and poor in a racist society. Paulo Coelho, *The Alchemist*. Santiago's meeting with the alchemist opens his eyes to the true values of life, love and suffering. The Diary of Anne Frank Half a century later the story of a teenager coming to maturity in the most terrible of circumstances remains profoundly moving. Kahlil Gibran, *The Prophet* Gibran's poetic essays reveal his thoughts on everything in life from love and marriage to the enigmas of birth and death. Robert M. Pirsig, *Zen and the Art of Motorcycle Maintenance* Pirsig's narrator creates a philosophical masterpiece that has the power to change lives.

Globalization

In the first edition, the themes of hope, optimism, and progress of neoliberalism were examined in Asia and America. The second edition, *Globalization: Power, Authority, and Legitimacy in Late Modernity*, analyses the new pessimism that has descended on the globalised world. The America that was once the bastion of hope, optimism and progress is now showing clear signs of a superpower in decline. The first sign of the American decline since 1941 in Pearl Harbour was the destruction of the World Trade Center in New York City on 11 September 2001. The other signs are the Vietnamisation of Iraq, a nuclear stand-off with North Korea, increasing trade imbalances with China and India, a stalemate with terrorists in Afghanistan, the challenge of European protectionism, a belligerent politics in the Middle East, overt American dependence on fossil fuels, and the mushrooming of various subprime crises into an escalating global recession. This second edition incorporates the latest developments in terms of culture, wealth and terrorism around the world and provides possible solutions to salvage the American Dream.

The Politics of Childhoods Real and Imagined

The second volume of Priscilla Alderson's popular and renowned book *Childhoods Real and Imagined* relates dialectical critical realism to childhood. By demonstrating their relevance and value to each other, Alderson presents a practical introductory guide for applying critical realism to research about children and young people. Each chapter summarises key themes from several academic disciplines and policy areas, ranging from climate change and social justice between generations, to neoliberalism, social reform and imagining utopias. Children's and adults' views and experiences are reviewed, and whereas the first volume deals with more personal and local aspects of childhood, this volume widens the scope into debates about global politics, which so seldom mention children. Each chapter demonstrates how children and young people are an integral part of the whole of society and are often especially affected by policies and events. This book is written for everyone who is researching, studying or teaching about childhood, or who cares for and works with children and young people, as well as those interested in critical realist approaches.

Borders and Borderlands in Contemporary Culture

It is entirely appropriate that this book should be produced in Dundalk. Located on the Northern rim of the Irish Pale, this town has straddled a border for centuries. Over the past thirty years, it has come to be closely identified with violent Republicanism both by the Unionist community in Northern Ireland and by Constitutional Nationalists in the South. Against such a hostile background academics attached to the Institute of Technology there have bravely confronted and interrogated these processes which have so blighted the history not only of Dundalk but of places and spaces throughout the world similarly located. In a wide-ranging series of articles, perhaps the strongest message to emerge is that of border as limitation. The notion of border as a liminal space where worlds converge, new realities emerge and transcendence is possible rarely surfaces. Instead, the border as a physical manifestation of divisiveness is repeatedly explored. In a passionate statement of solidarity with the Palestinians, Lavalette describes the construction of the apartheid wall: "The wall is eight feet high and has a watchtower every three hundred metres. Although there are no maps, it is thought it could end up being close to one thousand kilometres in length by the time it is completed" (p. 18). Yndigegn shows how spatial borders gradually become mental borders such that, as visual borders disappear, new invisible borders appear (p. 33). The article explores the dualism of borders—simultaneously protecting those inside from external threats while also preventing those inside from reaching or engaging with the outside world. Ni Eigeartaigh takes up the duality theme in the exploration of individualism as a process either of liberation or one of alienation. Taking the title from an aphorism of Kafka's "My Prison Cell, My Fortress", she explores a view of contemporary society as repressive, and of its inhabitants as complicit in the repression. Drawing on a wide span of literature and disciplines, she teases through the paradox of contemporary society that the freedom gained from the liberation of the individual from communal obligations and repression has resulted in a loss of identity and an overwhelming sense of isolation and powerlessness. She concludes that in the "absence of a restrictive system of social control, the individual is forced to take responsibility for his own actions.... It is to avoid this responsibility that many... choose the security of the prison cell above the hardship of the outside world." Her paper does not go on to look at the potential role of the State or of fundamentalist movements in playing on the fear and disconnectedness of the citizenry as an equally likely outcome to that of a stronger capability for personal responsibility. One could argue for instance that the European Fascist movement and the Nationalist movement of the early- to mid-twentieth century were both based precisely on the dislocation at personal and social level resulting from the breakdown of pre-industrial communitarian ties. While there is no attempt in the book to elucidate any particular developmental relationship between the different contributors, two broad themes may be detected—a concern with borders as socio-political and geographical constructs on the one hand and a concern with the formation of identity in the individual's relationship to the wider society on the other. Some light is cast on the latter issue by de Gregorio-Godeo who posits discourse as a core concept in identity formation. This leads to the conclusion that individual identity, in this case individualism, is in fact socially constructed in a "dialectical interplay between the discursive and the social identities included—so that they are mutually shaped by each other" (p.93). Using critical discourse analysis, he goes on to explore changing notions of masculinity as evidenced in the Health sections of men's magazines.

Drugs in Society

This work focuses on the many critical areas of America's drug problem, providing a foundation for rational decision making within this complex and multidisciplinary field. Broken up into three sections, Understanding the Problem, Gangs and Drugs, and Fighting Back, topics covered include the business of drugs and the role of organized crime in the drug trade, drug legalization and decriminalization, legal and law enforcement strategies, an analysis of the socialization process of drug use and abuse, and a historical discussion of drug abuse that puts the contemporary drug problem into perspective.

Postmodernity's Transcending

Postmodernity's Transcending: Devaluing God in one way undertakes a history of the concept of the aesthetic sublime; in another it is an exploration of the limits of theological thinking, where theology is understood either as a practice arising from faith or from thinking. By examining concepts like soul, experience, analogy and truth, the author issues a provocative challenge to much contemporary Christian theology to return to a more serious engagement with philosophy. Hemming explores the confrontation with God and the gods to be found in Protagoras, Plato, Aristotle, Aquinas, Hegel, Nietzsche, Heidegger and Derrida, often offering innovative readings of these thinkers sharply at odds with accounts to be found elsewhere.

Drug Nation

Humans have been using psychoactive (mind-altering) drugs since ancient times, and barely a day goes by without a drug related issue reaching the headlines. This book provides an accessible and lucid introduction to some of the main health and social issues related to illicit drugs and their use.

The Ecologist

In the first popular social history of marijuana use in America--beginning with the hemp-farming of George Washington--Sloman traces the fascinating story of America's love/hate relationship with the resilient weed.

'Sitting not far below my feet, there was a thermonuclear warhead about twenty times more powerful than the bomb that destroyed Hiroshima, all set and ready to go. The only sound was the sound of the wind.' Seventy years after the bombing of Hiroshima, Eric Schlosser's powerful, chilling piece of journalism exposes today's deadly nuclear age. Originally published in the New Yorker and now expanded, this terrifying true account of the 2012 break-in at a high-security weapons complex in Tennessee is a masterly work of reportage. 'Schlosser's reportage is as good as it gets' GQ

Reefer Madness

It also takes a look at the effects on the environment and the highly topical issue of obesity. His work has appeared in 'Atlantic Monthly', 'Rolling Stone' and the Guardian. CHEW ON THIS is his first book for children.

Gods of Metal

How porno chic became porno hell. In the early 1970s, outrageous claims were made of a new blood-spattered cinematic extreme. This was the legend of the 'snuff movie', which promoted the inhuman notion that a woman had been murdered to satisfy the sexual appetite of a jaded public. The story was produced by a kind of madness incarnate, but it reflected the desperation of America in cultural turmoil. 'Snuff' was a backlash against the naïve liberalism of the counterculture, embraced by people who preferred to believe the worst about their society. Once unleashed the concept was embraced and manipulated by the tabloid media and a variety of political and social crusaders, each

using it to further their own cause. Brutal, evil, ghastly beyond belief, snuff became an iconic urban legend. This book is the true, startling and hideously exploitative history of that legend and how it was created. SNUFF—THE BLOODIEST THING THAT EVER HAPPENED IN FRONT OF A CAMERA!

Chew on This

Reefer Madness, a classic in the annals of hemp literature, is the popular social history of marijuana use in America. Beginning with the hemp farming of George Washington, author Larry "Ratso" Sloman traces the fascinating story of our nation's love-hate relationship with the resilient weed we know as marijuana. Herein we find antiheroes such as Allen Ginsberg, Robert Mitchum (the first Hollywood actor busted for pot), Louis Armstrong (who smoked pot every day), the Beatles, and more rascals standing up for, supporting, smoking, and politicizing the bounties of marijuana. With a new afterword by Michael Simmons, who has written for Rolling Stone, LA Weekly, and High Times, on the progress of the hemp movement and the importance of medical marijuana, Reefer Madness is a classic that goes on.

The Bloodiest Thing That Ever Happened In Front Of A Camera

This innovative new book recognises that, while criminal justice studies is a core component of all criminology/criminal justice undergraduate degrees, it can be a confusing, overwhelming and a relatively dry topic despite its importance. Taking an original approach, this book sets out a series of ten key dilemmas - presented as debates - designed to provide students with a clear framework within which to develop their knowledge and analysis in a way that is both effective and an enjoyable learning experience. It is also designed for use by lecturers, who can structure a core unit of their courses around it. Debates in Criminal Justice provides a new and dynamic framework for learning, making considerable use of the other already available academic key texts, press articles, web sources and more.

A Cannabis Reader

"This is a book that should be read by anyone interested in class, inequality, poverty and politics. Actually, probably more importantly it should be read by people who think that those things do not matter! It provides a wonderful summation of the huge amount of work on these topics that now exists and it also offers its own distinctive perspectives on a set of issues that are - despite the claims of some influential commentators - still central to the sociological enterprise and, indeed to political life." - Roger Burrows, University of York "A clear and compelling analysis of the dynamics of social and spatial inequality in an era of globalisation. This is an invaluable resource for students and scholars in sociology, human geography and the social sciences more generally." - Gary Bridge, University of Bristol With the declining attention paid to social class in sociology, how can we analyze continuing and pervasive socio-economic inequality? What is the impact of recent developments in sociology on how we should understand disadvantage? Moving beyond the traditional dichotomies of social theory, this book brings the study of social stratification and inequality into the 21st century. Starting with the widely agreed 'fact' that the world is becoming more unequal, this book brings together the 'identity of displacement' in sociology and the 'spaces of flow' of geography to show how place has become an increasingly important focus for understanding new trends in social inequality.

Reefer Madness

This unique book argues against the ideas of entrepreneurship that prevail in much of business practice as well as in popular and academic representations of the entrepreneur. The authors demonstrate how conceptual and political problems with entrepreneurship work and how they are interconnected. Building on recent critical studies of entrepreneurship, they ask what lies behind the friendly face of the entrepreneur.

New Statesman

This book contains a collection of cutting-edge chapters that explore various connections between urban living, sexuality and sexual desire around the world. The key themes featured address a number of topical issues including: the controversies and debates raging around the evolution, defining patterns and appropriate regulation of commercial sex zones and markets in the urban landscape how gay public spaces, districts and 'gay villages' emerged and developed in various towns and cities around the

world how changing attitudes to, and the usage of urban sexual spaces, as depicted in iconic television series such as *Sex and the City* and *Queer as Folk*, reflect the reality of working women's or gay men's changing life experiences. With detailed case studies, and a strong interdisciplinary appeal, this book will be a valuable reference for postgraduates and advanced students in the fields of cultural studies as well as human, urban and social geography. This book was previously published as a special issue of the journal *Urban Studies*.

Debates in Criminal Justice

An intrepid investigation of the criminal world of wildlife trafficking--the poachers, the traders, and the customers--and of those fighting against it Journalist Rachel Nuwer plunges the reader into the underground of global wildlife trafficking, a topic she has been investigating for nearly a decade. Our insatiable demand for animals -- for jewelry, pets, medicine, meat, trophies, and fur -- is driving a worldwide poaching epidemic, threatening the continued existence of countless species. Illegal wildlife trade now ranks among the largest contraband industries in the world, yet compared to drug, arms, or human trafficking, the wildlife crisis has received scant attention and support, leaving it up to passionate individuals fighting on the ground to try to ensure that elephants, tigers, rhinos, and more are still around for future generations. As *Reefer Madness* (Schlosser) took us into the drug market, or Susan Orlean descended into the swampy obsessions of *The Orchid Thief*, Nuwer--an award-winning science journalist with a background in ecology--takes readers on a narrative journey to the front lines of the trade: to killing fields in Africa, traditional medicine black markets in China, and wild meat restaurants in Vietnam. Through exhaustive first-hand reporting that took her to ten countries, Nuwer explores the forces currently driving demand for animals and their parts; the toll that demand is extracting on species across the planet; and the conservationists, rangers, and activists who believe it is not too late to stop the impending extinctions. More than a depressing list of statistics, *Poached* is the story of the people who believe this is a battle that can be won, that our animals are not beyond salvation.

Understanding Social Inequality

Books on business, management, and the economy tend to be very serious--sometimes to the point of being unreadably dull. But the real world of business isn't just about the serious; it's filled with frivolities, playfulness, excess, and pure pataphysics. This collection of essays by Professor Alf Rehn explores the other side of economics in a celebration of the silly, the stupid and the sometimes seriously unreal. Rehn considers a wide range of subjects, including toys, really expensive hamburgers, copycat entrepreneurs, cartoons, and dressing up for the office. As with so many things in life, the seriousness of the subject matter depends entirely on perspective. One person's frivolity is another's professional business interest. Rather than making the frivolous serious, take a serious approach to frivolity and rediscover the fun and the fabulousness of our economic world. It all adds up to a lot of Frivolous Business.

Unmasking the Entrepreneur

The gripping story of the rise of early drug culture in America, from the author of the acclaimed *Can't Find My Way Home* With an intricate storyline that unites engaging characters and themes and reads like a novel, *Bop Apocalypse* details the rise of early drug culture in America by weaving together the disparate elements that formed this new and revolutionary segment of the American social fabric. Drawing upon his rich decades of writing experience, master storyteller Martin Torgoff connects the birth of jazz in New Orleans, the first drug laws, Louis Armstrong, Mezz Mezzrow, Harry Anslinger and the Federal Bureau of Narcotics, swing, Lester Young, Billie Holiday, the Savoy Ballroom, *Reefer Madness*, Charlie Parker, the birth of bebop, the rise of the Beat Generation, and the coming of heroin to Harlem. Aficionados of jazz, the Beats, counterculture, and drug history will all find much to enjoy here, with a cast of characters that includes vivid and memorable depictions of Billie Holiday, Miles

Davis, John Coltrane, Jackie McLean, Allen Ginsberg, William S. Burroughs, Jack Kerouac, Herbert Huncke, Terry Southern, and countless others. *Bop Apocalypse* is also a living history that teaches us much about the conflicts and questions surrounding drugs today, casting many contemporary issues in a new light by connecting them back to the events of this transformative era. At a time when marijuana legalization is rapidly becoming a reality, it takes us back to the advent of marijuana prohibition, when the templates of modern drug law, policy, and culture were first established, along with the concomitant racial stereotypes. As a new opioid epidemic sweeps through white working- and middle-class communities, it brings us back to when heroin first arrived on the streets of Harlem in the 1940s. And as we debate and grapple with the gross racial disparities of mass incarceration, it puts into sharp and provocative focus the racism at the very roots of our drug war. Having spent a lifetime at the nexus of drugs and music, Torgoff reveals material never before disclosed and offers new insights, crafting and contextualizing *Bop Apocalypse* into a truly novel contribution to our understanding of jazz, race, literature, drug culture, and American social and cultural history.

Poached

From famed investigative journalist Eric Schlosser, author of *Fast Food Nation*, comes *Command and Control* a ground-breaking account of the management of nuclear weapons. A groundbreaking account of accidents, near-misses, extraordinary heroism and technological breakthroughs, *Command and Control* explores the dilemma that has existed since the dawn of the nuclear age: how do you deploy weapons of mass destruction without being destroyed by them? Schlosser reveals that this question has never been resolved, and while other headlines dominate the news, nuclear weapons still pose a grave risk to mankind. At the heart of *Command and Control* lies the story of an accident at a missile silo in rural Arkansas, where a handful of men struggled to prevent the explosion of a ballistic missile carrying the most powerful nuclear warhead ever built by the United States. Schlosser interweaves this minute-by-minute account with a historical narrative that spans more than fifty years. It depicts the urgent effort by American scientists, policymakers, and military officers to ensure that nuclear weapons can't be stolen, sabotaged, used without permission, or detonated inadvertently. Looking at the Cold War from a new perspective, Schlosser offers history from the ground up, telling the stories of bomber pilots, missile commanders, maintenance crews, and other ordinary servicemen who risked their lives to avert a nuclear holocaust. Drawing on recently declassified documents and interviews with men who designed and routinely handled nuclear weapons, *Command and Control* takes readers into a terrifying but fascinating world that, until now, has been largely hidden from view. It reveals how even the most brilliant of minds can offer us only the illusion of control. Audacious, gripping and unforgettable, *Command and Control* is a tour de force of investigative journalism. Eric Schlosser is the author of *Fast Food Nation* and *Reefer Madness*, as well as the co-author of a children's book, *Chew on This*. His work has appeared in the *Atlantic Monthly*, the *New Yorker*, the *Nation*, and *Vanity Fair*. Two of his plays, *Americans* (2003) and *We the People* (2007), have been produced in London. 'A work with the multi-layered density of an ambitiously conceived novel' John Lloyd, *Financial Times* 'Command and Control is how non-fiction should be written ... By a miracle of information management, Schlosser has synthesized a huge archive of material, including government reports, scientific papers, and a substantial historical and polemical literature on nukes, and transformed it into a crisp narrative covering more than fifty years of scientific and political change. And he has interwoven that narrative with a hair-raising, minute-by-minute account of an accident at a Titan II missile silo in Arkansas, in 1980, which he renders in the manner of a techno-thriller' *New Yorker* 'The strength of Schlosser's writing derives from his ability to carry a wealth of startling detail on a confident narrative path' Ed Pilkington, *Guardian* 'Disquieting but riveting ... fascinating ... Schlosser's readers (and he deserves a great many) will be struck by how frequently the people he cites attribute the absence of accidental explosions and nuclear war to divine intervention or sheer luck rather than to human wisdom and skill. Whatever was responsible, we will clearly need many more of it in the years to come' Walter Russell Mead, *New York Times*

Frivolous Business

Can't Find My Way Home is a history of illicit drug use in America in the second half of the twentieth century and a personal journey through the drug experience. It's the remarkable story of how America

got high, the epic tale of how the American Century transformed into the Great Stoned Age. Martin Torgoff begins with the avant-garde worlds of bebop jazz and the emerging Beat writers, who embraced the consciousness-altering properties of marijuana and other underground drugs. These musicians and writers midwived the age of marijuana in the 1960s even as Timothy Leary and Richard Alpert (later Ram Dass) discovered the power of LSD, ushering in the psychedelic era. While President John Kennedy proclaimed a New Frontier and NASA journeyed to the moon, millions of young Americans began discovering their own new frontiers on a voyage to inner space. What had been the province of a fringe avant-garde only a decade earlier became a mass movement that affected and altered mainstream America. And so America sped through the century, dropping acid and eating magic mushrooms at home, shooting heroin and ingesting amphetamines in Vietnam, snorting cocaine in the disco era, smoking crack cocaine in the devastated inner cities of the 1980s, discovering MDMA (Ecstasy) in the rave culture of the 1990s. *Can't Find My Way Home* tells this extraordinary story by weaving together first-person accounts and historical background into a narrative vast in scope yet rich in intimate detail. Among those who describe their experiments with consciousness are Allen Ginsberg, Timothy Leary, Robert Stone, Wavy Gravy, Grace Slick, Oliver Stone, Peter Coyote, David Crosby, and many others from Haight Ashbury to Studio 54 to housing projects and rave warehouses. But *Can't Find My Way Home* does not neglect the recovery movement, the war on drugs, and the ongoing debate over drug policy. And even as Martin Torgoff tells the story of his own addiction and recovery, he neither romanticizes nor demonizes drugs. If he finds them less dangerous than the moral crusaders say they are, he also finds them less benign than advocates insist. Illegal drugs changed the cultural landscape of America, and they continue to shape our country, with enormous consequences. This ambitious, fascinating book is the story of how that happened.

Bop Apocalypse

A wide-ranging, surprising, and eloquently argued book that offers a pragmatic and erudite look at the innate human inclination toward nepotism—from ancient Chinese clans to families like the Gores, Kennedys, and Bushes. • “Fascinating and well-researched.” —Walter Isaacson, #1 New York Times bestselling author of *The Code Breaker* and *Steve Jobs* Nepotism is one of those social habits we all claim to deplore in America; it offends our sense of fair play and our pride in living in a meritocracy. But somehow nepotism prevails; we all want to help our own and a quick glance around reveals any number of successful families whose sons and daughters have gone on to accomplish objectively great things, even if they got a little help from their parents. Bellow explores how nepotism has produced both positive and negative effects throughout history. As he argues, nepotism practiced badly or haphazardly is an embarrassment to all (including the incompetent beneficiary), but nepotism practiced well can satisfy a deep biological urge to provide for our children and even benefit society as a whole. *In Praise of Nepotism* is a judicious look at a controversial but timeless subject that has never been explored with such depth or candor, and a fascinating natural history of how families work.

Hollywood Y la Mafia

A look at the supercharged life of American drug smuggler Zachary Swan. “An extremely rare cut of dry wit, poetry, rock-hard fact and relentless insight” (Rolling Stone). Robbert Sabbag’s *Snowblind*, the true story of an American smuggler whose intricate, ingenious scams made him a legendary figure in the cocaine world of the late sixties and early seventies, is a modern classic. In this “witty, intelligent, fiercely stylish, drug-induced exemplary tale” (Los Angeles Times), Sabbag masterfully traces Zachary Swan’s Roman-candle career, from his first forays into smuggling marijuana to his jaunts to Colombia to buy pure cocaine, and his ever more elaborate plans to outwit the police and customs officials. Updated by the author, this captivating portrait of a dashing antihero and enthralling look at a turbulent age is

sure to reach a new generation of readers. "A flat-out ball buster. It moves like a threshing machine with a fuel tank of ether." —Hunter S. Thompson

Dalla Parte Del Buio

Seguito Della Rocca delle Ingrate. Era Parravicini, dirigente della Polizia Postale di Milano, e coinvolta suo malgrado, nelle indagini sul sequestro di due parlamentari e un Cardinale della Curia romana. Chiamata a svolgere il ruolo di ufficiale di collegamento fra la prefettura vaticana e gli investigatori italiani, non si limita a fare da semplice passacarte e avvia una sua indagine parallela. Intuisce, che le indagini sono di fatto finalizzate a coprire esecutori e mandanti. Il destino dei tre sequestrati, non interessa a nessuno. Nelle sue ricerche scopre che anche il Principe della Rocca delle Ingrate, fa di tutto per osteggiarla e tenerla lontana dalla verità. Qual è il ruolo di Ruggero in questa opaca vicenda e quali siano le reali motivazioni che lo spingono ad avversare l'unica donna che abbia mai amato? Questi e altri dubbi attraversano la mente del vice questore Era Parravicini. Diglielo da parte mia

Boca Grande è la capitale di un piccolo stato del Sud America, uno di quei paesi da un colpo di stato all'anno dove non cambia mai niente. Un giorno a Boca Grande arriva Charlotte Douglas, una donna nordamericana smarrita e magnetica. Nessuno sa chi sia, cosa cerchi o cosa ci faccia a Boca Grande. A raccontarci la sua storia è Grace Strasser-Mendana, donna fra le più in vista della città, appartenente a una delle cinque o sei famiglie solvibili del paese: «Lasciò un uomo, ne lasciò un secondo, tornò a viaggiare col primo, lo lasciò morire solo come un cane, perse una figlia a beneficio della storia, e un'altra a seguito di certe complicazioni. Poi arrivò a Boca Grande». In Diglielo da parte mia Joan Didion racconta la vita di Charlotte: una donna bella e di classe, ricca e affascinante, che in cuore non ha altro che confusione e vuoto: la vita le ha fatto delle promesse (una famiglia, l'amore, la serenità) ma lei le ha fraintese, ha perso delle persone care, si è trovata sola, e ora è arrivata a Boca Grande per dimenticare, accompagnata solo dal suo fascino. Pagina dopo pagina tocchiamo con mano la tristezza e il vuoto che abitano la sua anima ed è impossibile non riconoscere che sono gli stessi che tanto spesso abitano anche la nostra. Un libro straordinario fatto di corde sottili, che toccano il cuore andando oltre la trama, come musica: come se i drammi esistenziali di Richard Yeats incontrassero il più alto minimalismo di Carver, l'asciuttezza delle parole sposa il fuoco del vuoto e del dolore dei personaggi.

L'inizio del buio

Walter Veltroni denuncia la debolezza della politica di fronte al ricatto dell'opinione pubblica, il cedimento dell'etica e del pudore sotto i colpi della società delle immagini e della comunicazione totale, riportandoci con la memoria al giorno in cui il nostro sguardo perse l'innocenza. L'11 giugno del 1981, un grido disperato paralizza l'Italia davanti ai teleschermi. Alfredino Rampi, sei anni, è precipitato in un pozzo e sta chiamando disperatamente sua madre. Gli italiani ascoltano agghiacciati il suo lamento, mentre iniziano i tentativi di salvataggio: nessuno immagina che quello sarà soltanto il primo di tre lunghi giorni di agonia in diretta. In quelle stesse ore Roberto Peci viene sequestrato dalle BR, processato e condannato perché colpevole di essere il fratello del primo pentito brigatista. I cinquantaquattro giorni della sua prigionia, così come la sua esecuzione, verranno scrupolosamente documentati, con filmati e fotografie, dai suoi assassini. Due innocenti sotto l'occhio della telecamera, due pubbliche solitudini che ci ricordano come, molto spesso, è proprio quando si accendono i riflettori che ha inizio il buio.

Dopo la morte dell'io

Anna Dolfi insegna Letteratura italiana moderna e contemporanea all'Università di Firenze ed è socio dell'Accademia Nazionale dei Lincei. Tra i maggiori studiosi di Leopardi e di narrativa e poesia del Novecento, ha progettato e curato volumi di taglio comparatistico dedicati alle "Forme della soggettività" sulle tematiche del journal intime, della scrittura epistolare, di malinconia e malattia malinconica, di nevrosi e follia, di alterità e doppio nelle letterature moderne, e più recenti raccolte sulla saggistica degli scrittori, la riflessione filosofica nella narrativa, il non finito, il mito proustiano, le biblioteche reali e immaginarie, il rapporto tra letteratura e fotografia. Su Bassani, imprescindibile il suo Giorgio Bassani. Una scrittura della malinconia (Roma, Bulzoni, 2003). [Testo dell'editore].

ANNO 2022 L'ACCOGLIENZA DICIOTTESIMA PARTE

Antonio Giangrande, orgoglioso di essere diverso. ODIO OSTENTAZIONE, IMPOSIZIONE E MENTOGNA. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Tu esisti se la tv ti considera. La Tv esiste se tu la guardi. I Fatti son fatti oggettivi naturali e rimangono tali. Le Opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, diventano testimonianze. Ergo: Fatti. Con me le Opinioni cangianti e contrapposte diventano fatti. Con me la Cronaca diventa Storia. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Un anno dopo, Cronaca municipale triestina estesa da --- (etc.)

Forse era stata la solitudine, il senso di estraneità dovuto al trasferimento in una nuova realtà, o forse il desiderio di sfidare i limiti e i pregiudizi della gente a far avvicinare Noah a quella casa. «Lì ci vive una strega» dicevano alcuni. «No, un'assassina» sentenziavano altri e i rumori che spesso echeggiavano nell'aria circostante sembravano dar loro ragione. Dopo tutto Sottobosco gli era apparso fin dal suo arrivo come un paese immerso in una strana atmosfera, quasi incantata, o forse più propriamente avvolta in un sortilegio. Ma quando il ragazzino incontrò Bernadette per la prima volta ebbe un'impressione diversa: un'anima sola, tormentata, così diversa dagli altri... così simile a lui. Con una prosa agile ed evocativa L'odore del legno trasporta il lettore nelle atmosfere tipiche della letteratura horror e thriller affrontando temi delicati come quello dell'emarginazione, della diversità, della tensione tra omologazione e affermazione della propria identità, per raccontare la storia di una singolare amicizia, pilastro fondamentale nella crescita di ogni adolescente. Matilde Gasparini nasce il 26 maggio 2003 e cresce immersa nella natura delle campagne mantovane. Si appassiona sin da piccola alla letteratura e alla storia, manifestando un rapporto simbiotico con la natura e una irrefrenabile passione per la scrittura. Attualmente studia Lettere Classiche all'università di Bologna. L'odore del legno è la sua prima pubblicazione.

Lo spazio della luce

Misconosciuta ai mortali, una lotta per il potere si sta scatenando in un mondo di ombre e pericoli. Dopo secoli di stabilità, l'equilibrio all'interno delle corti fatate si è spezzato e l'erial, il re della Corte Oscura, si batte per salvaguardare i suoi sudditi, ribelli e vulnerabili. Se dovesse fallire, ne seguirebbero

spargimenti di sangue e crudeltà spietate. Leslie, a diciassette anni, non sa niente né delle fate né dei loro intrighi. D'improvviso si sente attratta da un tatuaggio incantato: capisce di doverlo avere a ogni costo, convinta che sia il simbolo tangibile di quel cambiamento che sta disperatamente cercando. Il tatuaggio in effetti porterà con sé molte trasformazioni, ma non del genere che lei immaginava: sono eventi sinistri e avvincenti, tutt'altro che simbolici. Avvenimenti che uniranno Leslie a Irial, attirandola sempre più in un universo fatato cui sembrerà incapace di resistere, scoprendosi impotente di fronte ai suoi pericoli. Dopo *Wicked Lovely*, Melissa Marr prosegue nel racconto delle avventure del Piccolo Popolo in una seducente storia di tentazioni e inganni: fino a un ultimo, imprevedibile gesto eroico.

L'odore del legno

“Pur confermando la potenzialità letteraria del primo libro, abbiamo trovato questo secondo ancora più intenso e ancor più ricco di descrizioni e approfondimenti psicologici. La drammaticità degli eventi e le tensioni emotive che si instaurano sono in qualche modo alleggerite da un linguaggio essenziale, semplice e diretto ma soprattutto coinvolgente per il lettore che riesce a percepire l'abbraccio della speranza, della commozione e della sensibilità, valori di cui ritengo abbiamo ancora oggi molto bisogno.” (A. Elia) Selma Dino Dino nasce a Tirana, Albania, nel 1954, figlia unica di una vecchia famiglia intellettuale non proprio ben vista dal regime comunista. I suoi non avevano appoggiato il sistema, in più, alcuni membri della parentela avevano espresso apertamente il loro dissenso. Con l'aiuto della famiglia e il sostegno degli amici riesce a laurearsi in medicina a Tirana. In seguito alla caduta del muro di Berlino accoglie con grande gioia l'invito dello zio e di sua moglie di raggiungerli a Milano. Qui, per lei e il marito, comincia un'altra vita, dapprima fatta di lavori saltuari e poi arricchita dalla laurea in medicina, che permette a entrambi di riprendere la tanto ambita attività di medici. Negli ultimi dieci anni Selma Dino in parte si è dedicata alla scrittura di questa saga, di cui ora i lettori hanno in mano il secondo volume. Provate a leggere questa storia. Vi coinvolgerà, ne sono certa. Non è la mia vita, non è la vita di nessuno, ma quello che avrei voluto accadesse in quell'epoca buia... Volevo tante Ann pronte a ribellarsi, allora forse la vita del mio popolo avrebbe preso un'altra svolta.

Pochi mesi dopo la morte della madre, l'undicenne Vaelin Al Sorna viene portato da suo padre alla Casa del Sesto Ordine, una confraternita di guerrieri devoti alla Fede, che diventerà la sua nuova famiglia. Sulle prime il ragazzo si sente tradito dal proprio genitore, ma la sua tempra forte lo aiuta ad affrontare l'addestramento severo e le terribili prove a cui tutti i membri dell'Ordine vengono sottoposti. Ma per Vaelin e i suoi fratelli, diventati temibili guerrieri, il futuro ha in serbo molte battaglie in un Regno dilaniato da dissidi e il cui sovrano nutre mire di espansione. E tra segreti e complotti, il giovane dovrà fare i conti con la sua voce interiore, un canto misterioso che lo guida, lo avverte del pericolo, lo rende immune alla fatica, sensibile alle voci della foresta. Il canto è un dono del Buio, può ardere o spegnersi, non proviene da nessuna parte e non può essere insegnato: solo occorre affinarne il controllo, esercitarlo, perfezionarlo. Il canto è Vaelin stesso, il suo bisogno, la sua caccia. E presto gli rivelerà che la verità può tagliare più a fondo di ogni spada.

Lars Von Trier, l'estremo esteta

Dopo millenni di lotta, le forze delle Tenebre e della Luce hanno deciso di stringere il patto di non prevalere mai l'una sull'altra. Custodi sono gli Altri: streghe, maghi, mutantropi, demoni e vampiri, votati a sorvegliare la notte se appartenenti alla Luce, o il giorno, se adepti delle Tenebre.

Teatri Di Guerra E Azioni Di Pace

Questo libro, che raccoglie alcuni tra i testi più significativi di Mario Mazzeo (1945-2001), contribuisce a colmare una lacuna non solo editoriale ma culturale. La vita quotidiana di chi non vede costituisce infatti ancora un mistero. Verso la minorazione visiva persiste un pietismo emozionato che finisce per mettere in ombra l'identità della singola persona e, più in generale, una condizione variegata: l'esistenza dell'ipovedente è molto diversa da quella del cieco assoluto, i problemi del cieco nato non coincidono con le asperità della vita affrontate da chi ha perso la vista in età avanzata. Uno stile di scrittura lineare ma pungente aiuta a scoprire gli «orizzonti della cecità»: i piaceri e le difficoltà vissuti dal bam- bino non vedente nel rapporto con famiglia, scuola e città; gli stati d'ansia e le capacità educative di genitori spesso lasciati soli di fronte alla minorazione visiva; il disorientamento e le possibilità d'intervento di insegnanti ai quali spesso è affidato il destino sociale delle persone cieche, segnate a volte da disabilità aggiuntive. Grazie a una trentennale esperienza sul campo come psicologo e pedagogo, l'autore offre un ritratto della cecità rigoroso e ricco di sfumature. Il libro si conclude con una trentina di brevi storie che raccontano, in prima persona e in modo dissacrante, l'esperienza della minorazione visiva.

Delle guerre del Peloponneso

Una raccolta di saggi di dieci studiosi internazionali del Legendarium di J. R. R. Tolkien, focalizzata su Luce e Ombra. Tali fili conduttori della sua produzione letteraria sono qui presi in esame come temi universali da interpretarsi in molti sensi diversi – etico, filosofico, psicologico, spirituale, storico e biografico – con ulteriori approfondimenti sulle loro innumerevoli sfumature. Le principali opere del Professore (su tutte, Lo Hobbit, Il Signore degli Anelli e Il Silmarillion) vengono esaminate nei loro molteplici aspetti, in rapporto agli eventi della sua vita e tenendo presente la sua opinione, attraverso l'epistolario e il suo saggio Sulle fiabe. Grazie a queste penetranti e coinvolgenti riflessioni, emerge una vasta gamma di punti di vista sul suo intero opus, a conferma della sua altissima rilevanza per la storia della Letteratura, con l'ulteriore ricchezza offerta da alcune nuove intuizioni sullo spirito delle sue creazioni.

La vita italiana rivista illustrata

Forse l'ultimo del genere. Come foglie al vento, è l'espressione che più si adatta a questo nostro essere... > appunto. Qui l'autore si addentra dentro se stesso, muovendosi anche fuori al contempo, e stralci di passato rivivono come un tempo fissi nella memoria e rievocati e... Un po' qui, lì, al mare, dentro un rudere e poi in un altro, ed in montagna e tra le mura della propria stanza... ci sono tutti, gli ambienti idonei all'ascesa come la discesa. Prolisso, ossessionato, vivo... c'è la paura, il

tormen- to di sapere... la rassegnazione... il passato, come il presente racchiusi nel verbo. Un tentativo esasperato di racchiudere la vita in un flusso di parole, ed un prendere i cocci di noi per farne uno, e riscoprirci unici per quanto frammentati, contraddittori; ora qui, così, domani lì e così... Come foglie al vento, volubili, appunto, membri di questa natura, volubile a sua volta, folle se vogliamo e... e...

----- C'è anche come l'ossessione di sperimentarsi, e l'autore attraversa quelle vie buie, guardandole per poi risolversi verso la luce ed il solo Amore che davvero ci salva... Lasciando intatto tutto il resto come una visione comunque degna tra le altre, e non andando così ad annullare quelle vie quelle vie percorse... Riscoprendoci ancora così, non solo di bianco ma di più, la complessità di quest'uomo che si lascia attraversare, trascinare, fuorviare anche davanti all'illusione di una libertà senza eguali, come se non fossimo invece > ancora! Ed il sole come la luna non avessero voce in capitolo. L'autore chiaramente sta cercandosi e quando crede di averlo fatto si sente incompleto, ecco che l'altra voce parla e si smarrisce, interroga quella voce, si chiede chi è, chi deve essere, cosa significa... cercando di rappacificare le varie voci dentro, salvarsi dalla scissione che ci spiazza e come ci succhia l'anima nel tormento di voler essere altro da ciò che davvero ----- siamo. Un invito a guardarci dentro, nel profondo, l'autore lo fa non senza paura ed è evidente o forse... Dirsi comunque quella essere una visione e non necessa- riamente quella definitiva, e saper così anche prendere le distanze da quello che si vorrebbe assoluto. Non v'è assolutezza, tutto è traballante, soltanto l'Amore, l'Amore ci salva... Non poteva che chiudersi così il flusso altrimenti infinito... infinito. Prolisso, ossessionato, forse anche noioso, è lui ancora al centro, che si racconta, si sperimenta, si interroga, ha paura di non riuscire nell'impresa di dare una visione chiara a se stesso della vita, del senso, di ciò che siamo e qual debba essere la via da percorrere. Forse un turbine sconclusionato di parole che solo l'ultima salva a conclusione del flusso, come un amuleto, come una magia, l'Amore, ecco! L'Amore!
