In the Time of the Butterflies

Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is "beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo." (Concepción de León, New York Times) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters

have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. "Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas."—Francisco Cantú, *The New York Times Book Review* "This Julia Alvarez classic is a must-read for anyone of Latinx descent." —Popsugar.com "A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion." —People "Shimmering . . . Valuable and necessary." —Los Angeles Times "A magnificent treasure for all cultures and all time." —St. Petersburg Times "Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed."—Cosmopolitan.com

The Craftsman

Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. *The Craftsman* shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.

Practical Reason

This work by Pierre Bourdieu develops the anthropological theory which has formed the basis of his scientific research. It discusses the problems posed by "structuralist" philosophers in order to solve or dissolve them.

Angela's Ashes

The author recounts his childhood in Depression-era Brooklyn as the child of Irish immigrants who decide to return to worse poverty in Ireland when his infant sister dies. 40,000 first printing. \$35,000 ad/promo. First serial, *The New Yorker*.

Latin America's Political Economy of the Possible

This, says Santiso, is "the silent arrival of the political economy of the possible," which offers hope to a region exhausted by economic reform programs entailing macroeconomic shocks and countershocks."

Value Chain Finance

Value Chain Finance is a solution to such dilemmas.

Principles of Corporate Finance

Describes the theory and practice of corporate finance. The authors show how managers use financial theory to solve practical problems and as a way of learning how to respond to change by showing not just how but why companies and management act as they do. They bring fresh expertise and ideas to this textbook and partnership.

Dancing on My Grave

In this new and expanded edition of Chossudovskys international best-seller, the author outlines the contours of a New World Order which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalisation of poverty. This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically. In this new enlarged edition -- which includes ten new chapters and a new introduction -- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social programs and the devastation resulting from corporate downsizing and trade liberalisation. The book has been published in 11 languages. Over 100,000 copies sold world-wide.

The Globalization of Poverty and the New World Order

A highly insightful essay on the culture of dependency and its damaging effects on the moral fiber of society; from corporate welfare to affirmative action, the author takes on the culture of copping out. A book against depression, existential angst, cry-babies and whining "victims," either acting as a child in a candy store or as a martyr of one's own fears. Men against women, women against men, isn't it time to grow up and take charge of our own destiny?

The Temptation of Innocence

In this major work, Zygmunt Bauman seeks to classify the meanings of culture. He distinguishes between culture as a concept, culture as a structure and culture as praxis and analyzes the different ways in which culture has been used in each of these settings. For Bauman, culture is a living, changing aspect of human interaction which must be understood and studied as a universal of human life. At the heart of his approach is the proposition that culture is inherently ambivalent. With a major new introduction to this new edition, this classic work emerges as a crucial link in the development of Bauman's thought. By his own admission, it was the first of his books to grope towards a new kind of social theory, in contrast to the fals

Culture as Praxis

With the publication of *Pedagogy of the Oppressed*, Paulo Freire established himself as one of the most important and radical educational thinkers of his time. In *Pedagogy of Hope*, Freire revisits the themes of his masterpiece, the real world contexts that inspired them and their impact in that very world. Freire's abiding concern for social justice and education in the developing world remains as timely and as inspiring as ever, and is shaped by both his rigorous intellect and his boundless compassion. *Pedagogy of Hope* is a testimonial to the inner vitality of generations denied prosperity and to the often-silent, generous strength of millions throughout the world who refuse to let hope be extinguished. This edition includes a substantial new introduction by Henry A. Giroux, University Chair for Scholarship in the Public Interest and the Paulo Freire Distinguished Scholar in Critical Pedagogy at McMaster University, Canada. Translated by Robert R. Barr.

Pedagogy of Hope

We live in a world which no longer questions itself, which lives from one day to another managing successive crises and struggling to brace itself for new ones, without knowing where it is going and without trying to plan the itinerary. And everything important in our lives - livelihood, human bonds, partnerships, neighbourhood, goals worth pursuing and dangers to avoid - feels transient, precarious, vulnerable, insecure, uncertain, risky. Is there a connection between the shape of the world we inhabit and the way we live our lives? Exploring that connection, and finding out just how close it is, is the main concern of this book. What is at stake in this inquiry is the possibility of re-building the "private/public" space, where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves. Individual liberty can only be a product of collective work, it can only be collectively secured and guaranteed. And yet today we are moving towards a privatization of the means to secure individual liberty. If seen as a therapy for the present ills, this is bound to produce effects of a most sinister kind. The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten. The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today. This new book by Zygmunt Bauman - one of the

most original and creative thinkers of our time - will be of particular interest to students of sociology, politics and social and political theory.

Twenty Thousand Leagues Under the Sea

A graded reader for learners of English (EFL) Level 2 - A1/A2 Starter (2) Word count: 4,494 City Thrillers Series Book 5 Julie is on a business trip in Marrakech, Morocco. She buys a carpet at a market, but the carpet holds a terrible secret. Julie is in danger. Men are looking for her. The police don't believe her. She has to solve the problem alone. Can she do it? This fast-paced book takes you on a dangerous journey to the heart of Marrakech.

In Search of Politics

This is an extensively re-written second edition of a well regarded and much cited text on the issue of animal protection. It remains the only text to combine an examination of the philosophy and politics of the issue. Its central argument is that the philosophical debate is central to an understanding and evaluation of the substantive issues involving animals and the nature of the movement for change. The book has been thoroughly revised to include major theoretical and empirical developments. Specifically, the "second generation" of animal ethics literature is examined in detail, and attention is paid to the campaigns and public controversy over the export of live animals and the use of animals in research, the impact of genetic engineering on the welfare of animals and the latest developments in the controversy over hunting.

Murder in Marrakech

Visiting a young boy on earth, an extraterrestrial delivers an environmental message of hope from the stars.

The Human Condition

A reprint of the 1976 Macmillan edition. This fictional outline of a modern utopia has been a center of controversy ever since its publication in 1948. Set in the United States, it pictures a society in which human problems are solved by a scientific technology of human conduct.

Animals, Politics and Morality

NEW YORK TIMES BESTSELLER • More than 2.7 million copies sold! • “A deeply spiritual book [that] honors what is tough, smart and untamed in women.”—The Washington Post Book World Book club pick for Emma Watson’s *Our Shared Shelf* Within every woman there lives a powerful force, filled with good instincts, passionate creativity, and ageless knowing. She is the Wild Woman, who represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society’s attempt to “civilize” us into rigid roles has muffled the deep, life-giving messages of our own souls. In *Women Who Run with the Wolves*, Dr. Clarissa Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her against our deep psyches as one who is both magic and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul.

Walden Two

An intimate portrait of the lives and writings of the Brontë sisters, drawn from the objects they possessed. In this unique and lovingly detailed biography of a literary family that has enthralled readers for nearly two centuries, Victorian literature scholar Deborah Lutz illuminates the complex and

fascinating lives of the Brontës through the things they wore, stitched, wrote on, and inscribed. By unfolding the histories of the meaningful objects in their family home in Haworth, Lutz immerses readers in a nuanced re-creation of the sisters' daily lives while moving us chronologically forward through the major biographical events: the death of their mother and two sisters, the imaginary kingdoms of their childhood writing, their time as governesses, and their determined efforts to make a mark on the literary world. From the miniature books they made as children to the blackthorn walking sticks they carried on solitary hikes on the moors, each personal possession opens a window onto the sisters' world, their beloved fiction, and the Victorian era. A description of the brass collar worn by Emily's bull mastiff, Keeper, leads to a series of entertaining anecdotes about the influence of the family's dogs on their writing and about the relationship of Victorians to their pets in general. The sisters' portable writing desks prove to have played a crucial role in their writing lives: it was Charlotte's snooping in Emily's desk that led to the sisters' first publication in print, followed later by the publication of *Jane Eyre* and *Wuthering Heights*. Charlotte's letters provide insight into her relationships, both innocent and illicit, including her relationship with the older professor to whom she wrote passionately. And the bracelet Charlotte had made of Anne and Emily's intertwined hair bears witness to her profound grief after their deaths. Lutz captivantly shows the Brontës anew by bringing us deep inside the physical world in which they lived and from which their writings took inspiration.

The Experimental World Literacy Programme

After a series of sex scandals rocked the film industry in 1922, movie moguls hired Will Hays to clear the image of movies. Hays tried a variety of ways to regulate movies before adopting what became known as the production code. Written in 1930 by a St Louis priest, the code stipulated that movies stress proper behaviour, respect for government, and 'Christian values'. The Catholic Church reinforced these efforts by launching its Legion of Decency in 1934. Intended to force Hays and Hollywood to censor films, the Legion of Decency engineered the appointment of Joseph Breen as head of the Production Code Administration. For the next three decades, Breen, Hays, and the Catholic Legion of Decency virtually controlled the content of all Hollywood films.

The Brontë Cabinet: Three Lives in Nine Objects

A growing interest in all things Maya brings an increasing number of visitors to prehistoric Maya ruins and contemporary Maya communities in Guatemala, Belize, El Salvador, western Honduras, the Yucatán Peninsula, and the southern areas of Chiapas and Tabasco, Mexico. For these visitors and indeed everyone with an interest in the Maya, this field guide highlights nearly 100 species of plants and animals that were significant to the ancient Maya and that continue to inhabit the Maya region today. Drawing from the disciplines of biology, ecology, and anthropology, Victoria Schlesinger describes each plant or animal's habitat and natural history, identifying characteristics (also shown in a black-and-white drawing), and cultural significance to the ancient and contemporary Maya. An introductory section explains how to use the book and offers a concise overview of the history, lifeways, and cosmology of the ancient Maya. The concluding section describes the collapse of ancient Maya society and briefly traces the history of the Maya region from colonial times to the present.

With little fanfare and profound effect, "family values" have gone global, and the influence of the Christian Right is increasingly felt internationally. This is the first comprehensive study of the Christian Right's global reach and its impact on international law and politics. Doris Buss and Didi Herman explore tensions, contradictions, victories, and defeats for the Christian Right's global project, particularly in the United Nations. The authors consult Christian Right materials, from pamphlets to novels; conduct interviews with people in the movement; and provide a firsthand account of the World Congress of Families II in 1999, a key event in formulating Christian Right global policy and strategy. The result is a detailed look at a new global player--its campaigns against women's rights, population policy, and gay and lesbian rights; its efforts to build an alliance of orthodox faiths with non-Christians; and the tensions and strains as it seeks to negotiate a role for conservative Christianity in a changing global order.

Diagnostic procedures are emblematic of medical work. Scholars in the field of social studies of medicine identify diverse dimensions of diagnosis that point to controversies, processual qualities and contested evidence. In this anthology, diagnostic fluidity is seen to permeate diagnostic work in a wide range of contexts, from medical interactions in the clinic, domestic settings and other relations of affective work, to organizational structures, and in historical developments. The contributors demonstrate, each in their own way, how different agents 'do diagnosis', highlighting the multi-faceted elements of uncertainty and mutability integral to diagnostic work. At the same time, the contributors also show how in 'doing diagnosis' enactments of subjectivities, representations of cultural imaginaries, bodily processes, and socio-cultural changes contribute to configuring diagnostic fluidity in significant ways.

"This study uses household and individual-level data from the Demographic and Health Surveys (DHS) program to examine the prevalence and correlates of domestic violence and the health consequences of domestic violence for women and their children. Nationally representative data from nine countries - Cambodia (2000), Colombia (2000), the Dominican Republic (2002), Egypt (1995), Haiti (2000), India (1998-1999), Nicaragua (1998), Peru (2000), and Zambia (2001-2002) - are analyzed within a comparative framework to provide a multifaceted analysis of the phenomenon of domestic violence"--P. xv.

Treasure of the Castilian Or Spanish Language

The African slave trade, beginning in the fifteenth century, brought African languages into contact with Spanish and Portuguese, resulting in the Africans' gradual acquisition of these languages. In this 2004 book, John Lipski describes the major forms of Afro-Hispanic language found in the Iberian Peninsula and Latin America over the last 500 years. As well as discussing pronunciation, morphology and syntax, he separates legitimate forms of Afro-Hispanic expression from those that result from racist stereotyping, to assess how contact with the African diaspora has had a permanent impact on contemporary Spanish. A principal issue is the possibility that Spanish, in contact with speakers of African languages, may have creolized and restructured - in the Caribbean and perhaps elsewhere - permanently affecting regional and social varieties of Spanish today. The book is accompanied by the largest known anthology of primary Afro-Hispanic texts from Iberia, Latin America, and former Afro-Hispanic contacts in Africa and Asia.

Globalizing Family Values

First published in 2004. Dans quelle mesure le corps fait-il l'identité d'un être humain ? Et pour combien de temps si quelque chose survit de lui, après sa mort, ce n'est pas tout à fait son corps ? Dans toutes les cultures, il semble que l'humanité, sous des formes diverses, ait été amenée à imaginer l'être humain comme composé de deux parties : une partie périssable et une partie qui continue d'agir bien au-delà de la mort, même si elle n'est pas immortelle. Ces deux parties ne se réduisent pas nécessairement à un corps visible et à un animal double, invisible, mais qui meurt quand l'autre meurt. Chez les Maenge de Nouville-Guinée, l'individu a deux âmes, même s'il n'a qu'un seul corps. De nombreuses sociétés pensent qu'il faut plus de deux êtres humains pour faire un être humain. Il faut que l'esprit d'un ancêtre, ou l'action d'un dieu vienne sinon animer ce corps, du moins le rendre complet, le compléter. Chaque personne naît donc, s'étant inscrite en soi, formant comme une sorte d'intimité impersonnelle, un ensemble d'idées, d'images, de valeurs, par lesquelles l'ordre ou les désordres qui s'impriment dans son corps, règne dans sa société. Seize anthropologues et historiens ont exploré ces réalités culturelles dispersées dans l'espace et le temps.

A History of Afro-Hispanic Language

Central to the research that went into the preparation of this monograph is the relationship between economic development and equality. To determine and characterize that relationship Morris Singer focuses on the various components of equality at different stages of development. The author particularly explores the behavior of income distribution, together with its bearing on the components of aggregate demand. Mexico provided an excellent case to examine in depth because of its impressive growth and the fact that it experienced Latin America's first successful twentieth-century revolution. Although the Revolution of 1910 hastened social equality and introduced other changes that stimulated Mexico's economic growth, it could not prevent a serious increase in the inequality of income distribution. By the early 1960s the government found it necessary to rectify this increasing imbalance through a program of expenditures designed to counteract widespread poverty and weak aggregate demand. To ward off inflation, this program in turn could be implemented only by tax reform. In discussing the relationship between development and equality in its various dimensions, noneconomic as well as economic, this monograph points out that, at the time of this study, government policies in Mexico were dictated by an elite concerned primarily with the country's economic advancement. Singer concludes that if programs of government expenditure and tax reform succeed in remedying the inequalities of income distribution, this could gradually make possible the development of a more genuine political as well as economic democracy. This book reflects Singer's interest in the relationship between equality and development. It is the result of five months of intensive in-residence study in Mexico, financed in part by a grant from the Social Science Research Council.

The Mysterious Stranger and Other Stories

The Satirical and Bitter Side of Mark Twain "Man is made of dirt - I saw him made. I am not made of dirt. Man is a museum of diseases, a home of impurities; he comes to-day and is gone tomorrow; he begins as dirt and departs as stench; I am of the aristocracy of the Imperishables. And man has the Moral Sense. You understand? He has the Moral Sense. That would seem to be difference enough between us, all by itself." - Mark Twain, *The Mysterious Stranger*

The Mysterious Stranger and Other Stories is a collection of nine short stories meant to divulge the human's wicked nature. *The Mysterious Stranger* is more of a novella in which Satan observes - yet doesn't intervene - the human kind. He speaks of our precarious morality and fear and also about our innate compulsion of following the boldest and at the same time the most impulsive individual, thus acting more like sheep than wolves. MYSTERIOUS STRANGER

Yes, Austria was far from the world, and asleep, and our village was in the middle of that sleep, being in the middle of Austria. It drowsed in peace in the deep privacy of a hilly and woodsy solitude where news from the world hardly ever came to disturb its dreams, and was infinitely content. At its front flowed the tranquil river, its surface painted with cloud-forms and the reflections of drifting arks and stone-boats; behind it rose the woody steeps to the base of the lofty precipice; from the top of the precipice frowned a vast castle, its long stretch of towers and bastions mailed in vines; beyond the river, a league to the left, was a tumbled expanse of forest-clothed hills cloven by winding gorges where the sun never penetrated; and to the right a precipice overlooked the river, and between it and the hills just spoken of lay a far-reaching plain dotted with little homesteads nested among orchards and shade trees...FROM THE BOOK.

Eseldorf was a paradise for us boys. We were not overmuch pestered with schooling. Mainly we were trained to be good Christians; to revere the Virgin, the Church, and the saints above everything. Beyond these matters we were not required to know much; and, in fact, not allowed to. Knowledge was not good for the common people, and could make them discontented with the lot which God had appointed for them, and God would not endure discontentment with His plans. We had two priests. One of them, Father Adolf, was a very zealous and strenuous priest, much considered. There may have been better priests, in some ways, than Father Adolf, but there was never one in our commune who was held in more solemn and awful respect. This was because he had absolutely no fear of the Devil. He was the only Christian I have ever known of whom that could be truly said. People stood in deep dread of him on that account; for they thought that there must be something supernatural about him, else he could not be so bold and so confident. All men speak in bitter disapproval of the Devil, but they do it reverently, not flippantly; but Father Adolf's way was very different; he called him by every name he could lay his tongue to, and it made everyone shudder that heard him; and often he would even speak of him scornfully and scoffingly; then the people crossed themselves and went quickly out of his presence, fearing that something fearful might happen. Father Adolf had actually met Satan face to face more than once, and defied him. This was known to be so. Father Adolf said it himself. He never made any secret of it, but spoke it right out. And that he was speaking true there was proof in at least one instance, for on that occasion he quarreled with the enemy, and intrepidly threw his bottle at him; and there, upon the wall of his study,

The Mysterious Stranger is a novel attempted by the American author Mark Twain. He worked on it intermittently from 1897 through 1908. Twain wrote multiple versions of the story; each involves a supernatural character called "Satan" or "No. 44". All the versions remained unfinished (with the debatable exception of the last one, No. 44, the Mysterious Stranger).

The Mysterious Stranger and Other Stories

A long time ago, three kids meet a mysterious stranger near their village. With his strange powers and stories, he delights them. His name is Satan, yet he gains their trust. Can they trust him? Will his presence harm the kids? A dark story from Mark Twain with insightful views about religion, faith, and humanity that many will recognize as a precursor to "The Devil's Advocate: ""Strange, indeed, that you should not have suspected that your universe and its contents were only dreams, visions, fiction! Strange, because they are so frankly and hysterically insane..."

The Mysterious Stranger, and Other Stories (Annotated and Illustrated)

The Mysterious Stranger, published posthumously in 1916, belongs to Twain's "dark" period. At the time of composition, Twain had suffered a series of painful physical, economic, and emotional losses. In his chilling tale, a stranger named Satan visits an old Austrian town to convince the religious faithful that there is no God, and "nothing exists; all is a dream."

The Mysterious Stranger [and Other Stories] by Mark Twain [Pseud

Three of us boys were always together, and had been so from the cradle, being fond of one another from the beginning, and this affection deepened as the years went on-Nikolaus Bauman, son of the principal judge of the local court; Seppi Wohlmeyer, son of the keeper of the principal inn, the "Golden Stag," which had a nice garden, with shade trees reaching down to the riverside, and pleasure boats for hire; and I was the third-Theodor Fischer, son of the church organist, who was also leader of the village musicians, teacher of the violin, composer, tax-collector of the commune, sexton, and in other ways a useful citizen, and respected by all. We knew the hills and the woods as well as the birds knew them; for we were always roaming them when we had leisure-at least, when we were not swimming or boating or fishing, or playing on the ice or sliding down hill. And we had the run of the castle park, and very few had that. It was because we were pets of the oldest servingman in the castle-Felix Brandt; and often we went there, nights, to hear him talk about old times and strange things, and to smoke with him (he taught us that) and to drink coffee; for he had served in the wars, and was at the siege of Vienna; and there, when the Turks were defeated and driven away, among the captured things were bags of coffee, and the Turkish prisoner explained the character of it and how to make a pleasant drink out of it, and now he always kept coffee by him, to drink himself and also to astonish the ignorant with. When it stormed he kept us all night; and while it thundered and lightened outside he told us about ghosts and horrors of every kind, and of battles and murders and mutilations, and such things, and made it pleasant and cozy inside; and he told these things from his own experience largely. He had seen many ghosts in his time, and witches and enchanters, and once he was lost in a fierce storm at midnight in the mountains, and by the glare of the lightning had seen the Wild Huntsman rage on the blast with his specter dogs chasing after him through the driving cloud-rack. Also he had seen an incubus once, and several times he had seen the great bat that sucks the blood from the necks of people while they are asleep, fanning them softly with its wings and so keeping them drowsy till they die.

The Mysterious Stranger and Other Stories by Mark Twain

This volume spans the length of Mark Twain's career, and contains some of his most famous shorter works, which all centre on the subject of Money. 'The Celebrated jumping frog of Calaveras County' is the most perfect tall tale in the English language, three flawless pages about Jim Smiley and the bizarre sidelines he would investigate to win a bet, any bet, written in a miraculous mid-19th century California vernacular. If that isn't enough, Twain tops it with the best closing paragraph of any work I have ever read ever. 'The \$1,000,000 Bank note' is almost surreal, or Marxist, the story of a derelict made an unwitting guinea pig by two elderly millionaires, curious to see what would happen to an honest but poor man in the possession of such an impracticable note. The frightening fetishistic power of currency structures a somewhat creepily benevolent narrative, and the opening paragraphs audaciously cram a novel's worth of misfortune. I have taught this book at the college level for a few years now; it definitely sheds Twain's unfortunate Americana image, and it reveals the darker genius of this beloved author. Twain's greatest work, The Mysterious Stranger will enrage fundamentalist Christians, several of whom have dropped my course because of this novella. Asking people to think about what is real, what is behind existence, though, is no crime and should be inoffensive. Young people who are harmed by systematic thinking will react to this book like people being deprogrammed from a cult: they will hate it. But Twain, who was in anguish when he wrote this, had the honesty to ask difficult questions. Read The Mysterious Stranger as a guide to Twain's futuristic thinking, his tribute to the mind above all other things.

Behind The Mask is the newest addition to best-selling author Chaim Walder's popular series of stories for adults and teenagers. What was a beloved and respected teacher's secret to success? What do a mysterious stranger's Wednesday visits to the cemetery mean? Why would a loving father treat his only son so harshly in the classroom? How does a concerned grandmother teach her children to learn from history's mistakes? Plus 7 more gripping stories to absorb, learn from, and be inspired by. Behind The Mask will linger in your mind and heart long after you've turned the last page.

14 minutes, 47 seconds - Literary fiction, is known as one of the hardest genres to define, often
described as a "you'll know it when you see it" type of genre.

What is literary fiction?

Think carefully about form

Create a flawed character

Know what you want to say

Write reflectively

Be purposeful

Be specific in your themes

Don't overthink the prose

Create events that reveal character

Don't be afraid to be weird

Focus on writing an interesting story
