The Road

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

When rumors surface of a plot to murder the former Archangel of Persia, now lost in the Sleep of the Ancients, Naasir is dispatched to find him. For only he possesses the tracking skills required—those more common to predatory animals than to man. Enlisted to accompany Naasir, Andromeda, a young angelic scholar with dangerous secrets, is fascinated by his nature—at once playful and brilliant, sensual and brutal. As they race to find the Sleeping archangel before it's too late, Naasir will force her to question all she knows . . . and tempt her to walk into the magnificent, feral darkness of his world. But first they must survive an enemy vicious enough to shatter the greatest taboo of the angelic race and plunge the world into a screaming nightmare . . .

Borderline

Though he lives in the small town of Gentry, Mackie comes from a world of tunnels and black, murky water, a world of living dead girls ruled by a little tattooed princess. He is a replacement - left in the crib of a human baby sixteen years ago when it was stolen away by the fey. Now, because of fatal allergies to iron, blood and consecrated ground, Mackie is slowly dying in the human world. Mackie would give anything just to be normal, to live quietly amongst humans, practice his bass guitar and spend time with his crush, Tate. But when Tate's baby sister goes missing, Mackie is drawn irrevocably into the underworld of Gentry, known as Mayhem, where he must face down the dark creatures and find his rightful place - in our world, or theirs.

Sorcière - Intégrale 3 (Livre 7, 8 et 9)

Under their powerful yet infuriating guidance, I return to Otherworld to train at their academy and determine to which of the four faerie courts I belong. But there's something much more dangerous than the four fae vying for my attention. A strange dark magic looms on the horizon, the bloodthirsty courts are plotting for power, and changelings are dying. My only choice is to fight back and try not to lose my life...or my heart.

Behind her are Lancelot, trapped on the other side of the magical barrier they created to protect Camelot, and Arthur, who has been led away from his kingdom, chasing after false promises. But the greatest danger isn't what lies ahead of Guinevere—it's what's been buried inside her. Vowing to unravel the truth of her past with or without Merlin's help, Guinevere joins forces with the sorceress Morgana and her son, Mordred—and faces the confusing, forbidden feelings she still harbors for him. When Guinevere makes an agonizing discovery about who she is and how she came to be, she finds herself with an impossible choice: fix a terrible crime, or help prevent war. Guinevere is determined to set things right, whatever the cost. To defeat a rising evil. To remake a kingdom. To undo the mistakes of

the past...even if it means destroying herself. Guinevere has been a changeling, a witch, a queen—but what does it mean to be just a girl?

The Complete Concordance to Shakspeare

In this study, which is first of all a folk-lore study, we pursue principally an anthro-po-psychological method of interpreting the Celtic belief in fairies, though we do not hesitate now and then to call in the aid of philology; and we make good use of the evidence offered by mythologies, religions, metaphysics, and physical sciences.

The Secret Circle: The Initiation and The Captive Part I

A woman writer moves into a house she inherited from a poet in the hills of Arizona. The man died in mysterious circumstances and Maggie Black wants to find out why. So begins a terrifying introduction to the Indian spirits which roam the hills and feed on people's creative juices.

Night's Child

When eighteen year-old Chantal first encounters the half-starved tramp who calls himself Martin, she is touring Hungary with a circus company as one of the 'Flying Gallettis', and prefers to forget every detail of her unhappy early years in faraway England. But a train of events is started which will bring her inevitably back to her destiny and to the unravelling of many mysteries that surround her life. Who is this Martin, who speaks like an English gentleman and looks like a tinker? Why is he in Hungary at all? Whose powerful malice has pursued her since childhood, and why? Who indeed is she? In Chantal Madeleine Brent has created one of her most appealing characters. Red-haired and spirited, her wilfulness and courage win hearts and bring trouble upon her wherever she goes, but although she has driven herself unsparingly to attain a rare skill as a circus artist, her true ambition is to become a doctor (no mean aspiration at the beginning of this century). The story moves from the warm, bustling atmosphere of a travelling circus to the cold correctness of English country house society, and back again to Eastern Europe, before all the complex strands are finally unravelled. Packed with incident and excitement, Kirkby's Changeling represents Madeleine Brent at her very best.

Jane Eyre

An exploration of the different tenants of Fairyland from around the world—hobgoblins, sprites, bogeys, pixies, goblins, bonga, duende, elves, and more. While it's true that fairy folk love a good garden and take great pleasure in a tulip, there are dozens of beasts who fall under the fairy domain that are not quite as delightful as the quintessential flower fairy. This book is an exploration of the many things that go bump in the night near the fairy mound. Along with an exploration of folklore and historical literature, readers will delight in fairy tales that demonstrate everything from striking a bargain with a fairy to staving off changelings to laughing with the dwarves. Included are fairy tales and myths from Wales, Scotland, Ireland, and Scandinavia plus classic stories by Thomas Crofton Croker, Joseph Jacobs, Clara Stroebe, the Brothers Grimm, Hans Christian Andersen, Yei Theodora Ozaki, and others on goblins, trolls, gnomes, pookas, changelings, banshees, and more! Chapters include: A Fear of Little Men: Elves, Trolls, Leprechauns, Tree Spirits, Brownies, Coblyns, Dwarves, Goblins, Bonga, Trolls and Other Fairy Folk of Glen, Forests and Hearth The Hand That Rocks the Cradle: Changelings and Other Greedy Kidnappers of the Fairy Kingdom I'm Not Drunk, It's Just My Pooka: Tales of the Trickster Fairy and Its Wild Counterpart Is That All There Is? Fairies Who Give, or The Barter System Whoops, There It Is: How to Enter the Fairy Kingdom (or How Not To) If you think fairies are merely delicate beings who follow you about on gossamer wings, consider yourself warned! The kingdom of the fairy is one of vengeance, thievery, trickery, and wild creatures.
