come into the center of each petal on the flower

come in very lightly on the outer edges

apply the white to the centers

getting that outer edge of each petal

add some of this violet

add a little bit of color

start applying some of our second layer layers

add my second layer of mulberry

blend it in a little bit

create even more depth between each petal

add a little bit more of this violet in some areas

create that separation between the center

remove the color

leave a little tiny bit of white

color a little bit on my scratch paper

create a little more depth on these flowers

add a little bit of shadows
