The Young Colonists

An adventure of Dick Humphries whose family lives in Natal. He participates in British defeats and victories during the Zulu war and then becomes involved in the First Boer War.

The Young Colonists

About the Author- George Alfred Henty (8 December 1832 - 16 November 1902), was a prolific English novelist and a special correspondent. He is best known for his historical adventure stories that were popular in the late 19th century. His works include *The Dragon & The Raven* (1886), *For The Temple* (1888), *Under Drake's Flag* (1883) and *In Freedom's Cause* (1885). -Wikipedia

The Young Colonists

The country round Castleton, in Derbyshire, is greatly admired by summer tourists, for it lies in the wildest part of that county; but in winter the wind whistles sharply over the bleak hills-where there are no trees to break its violence, -the sheep huddle under the shelter of the roughly-built stone walls, and even lovers of the picturesque would at that season prefer a more level and wooded country. The farm

of Mr Humphreys was situated about a mile from Castleton. It consisted of 100 acres or so of good land in the bottom, and of five or six times as much upland grazing on the hills. Mr Humphreys owned as well as farmed his land, and so might have claimed, had he chosen, the title of gentleman-farmer; but he himself would have scoffed at such an idea. He was a hard-working, practical farmer, about over his ground from morning to night, save when the hounds met within easy distance in winter; then he would mount "Robin," who served alike as hunter, or hack, or to drive in the neat dog-cart to Buxton market; and, although there were many handsomer horses in the field, Mr Humphreys was seldom far off when the fox was killed

The Young Colonists

The late 1800s saw the imperialistic Scramble for Africa, in which European nations vied for control of regions of Africa. The efforts of the British to secure the southern tip of the continent led them into unfortunate wars with the Zulu and the Boers (descendants of Dutch farmers). In G.A. Henty's *The Young Colonists: A Story of the Zulu and Boer Wars*, the Humphreys family moves from Derbyshire in England to the Transvaal in South Africa in the hope that a change of climate will be good for the mother's health. Young Dick Humphreys and his friend Tom Jackson find that being colonists came with great risk. Join Dick and Tom as they seek to protect their family and fellow colonists as they vie for control with the Zulus and Boers. Alacritty Press is proud to reprint Henty's 1885 classic, *The Young Colonists*. The story is set in 19th century England and southern Africa.

The Young Colonists

Excerpt from *The Young Colonists* The country round Castleton, In Derbyshire, IS greatly admired by summer tourists, for it lies in the wildest 'part of that county; but in winter the wind whistles sharply over the bleak hills - where there are 116 trees to' break its violence the sheep huddle under the shelter of the roughly-built stone walls, and even lovers of the picturesque would at that season prefer 'a more level and wooded country. The Young Colonists (Classic Reprint)

"After having written upwards of fifty records of almost unbroken success to the British arms in almost all parts of the world, I have found it painful to describe these two campaigns in which we suffered defeat. I trust, however, that this story will prove of great interest to the reader because of the characteristic English pluck and daring of its hero." -G. A. Henty G. A. Henty, acclaimed for his action and adventure themed historical books, devoted "The Young Colonists" to the British-Boer war, one of the few battles where the British colonial army suffered defeat. The hero of the book is a courageous young man whose life is full of adventures. The Zulus had emerged in the 19th century as one of the most powerful tribes in Africa. Their territory lay on the eastern cost of southern Africa, adjacent to British-held Natal and the Dutch Boer republics. Peaceful relations prevailed for 30 years, until 1878, when the English sought territorial expansion. What was hoped to be a quick and painless conquest of Zululand turned lengthy and bloody. Dick Humphries, is full of pluck and daring, a young man whose family lives in Natal. Henty is critical of the British tactics and, in his own words, "found it painful to describe these two campaigns in which we suffered such defeat." Dick witnesses both British defeats and victories during these wars, camping on a ridge, and suffering much hunger and eventual captivity. After witnessing many disasters, Dick and his friends return to England in great dismay over the war's outcome. For over a century G.A. Henty's stories of adventure and exploration have enthralled readers of all ages. .As well as being a prolific writer of fiction, Henty was an acclaimed foreign and war correspondent, writing for "The Standard\

The Young Colonists

As a rule the minor wars in which this country has been from time to time engaged, have been remarkable both for the admirable way in which they were conducted and for the success that attended them. The two campaigns in South Africa, however, that followed each other with but a brief interval, were notable exceptions. In the Zulu War the blunder, made by the General in command, of dividing his army and marching away with the greater portion without troubling himself to keep up communication with the force left behind, brought about a serious disaster at Isandula. In the Boer War we also suffered two defeats, -one at Laing's Neck, the other at Majuba Hill, -and when at last a British force was assembled capable of retrieving these misfortunes, the English government decided not to fight, but to leave the Boers in possession of the Transvaal. This unfortunate surrender has, assuredly, brought about the troubled state of things now existing in South Africa Notice: This Book is published by Historical Books Limited (www.publicdomain.org.uk) as a Public Domain Book, if you have any inquiries, requests or need any help you can just send an email to publications@publicdomain.org.uk This book is found as a public domain and free book based on various online catalogs, if you think there are any problems regard copyright issues please contact us immediately via DMCA@publicdomain.org.uk

The Young Colonists: A Story of the Zulu and Boer Wars

As a rule the minor wars in which this country has been from time to time engaged, have been remarkable both for the admirable way in which they were conducted and for the success that attended them. The two campaigns in South Africa, however, that followed each other with but a brief interval, were notable exceptions. This unfortunate surrender has, assuredly, brought about the troubled state of things now existing in South Africa. After having written upwards of fifty records of almost unbroken success to the British arms in almost all parts of the world, I have found it painful to describe these two campaigns in which we suffered defeat. I trust, however, that this story will prove of great interest to the reader because of the characteristic English pluck and daring of its hero.

The Young Colonists

George Alfred Henty (8 December 1832 - 16 November 1902) was a prolific English novelist and war correspondent. He is best known for his historical adventure stories that were popular in the late 19th century. An adventure of Dick Humphries whose family lives in Natal. He participates in British defeats and victories during the Zulu war and then becomes involved in the First Boer War.

The Young Colonists

G. A. Henty was born in Trumpington, near Cambridge. He was a sickly child who had to spend long periods in bed. During his frequent illnesses he became an avid reader and developed a wide range of interests which he carried into adulthood. He attended Westminster School, London, and later Gonville and Caius College, Cambridge, where he was a keen sportsman. He left the university early without completing his degree to volunteer for the Army Hospital Commissariat when the Crimean War began. He was sent to the Crimea and while there he witnessed the appalling conditions under which the British soldier had to fight.

The Young Colonists

One day, as they were riding along, two Boers on horseback halted on an eminence near the road and addressed taunting remarks to them; they made no answer, but continued their way. They had not gone a hundred yards when one of the Boers deliberately took aim and fired at them; the ball passed between Dick and Mr Harvey and struck one of the natives walking just in front of them, killing him upon the spot. This was too much. Mr Harvey and the lads wheeled their horses, unslung their rifles, and fired at the Boers, who were galloping away. One of them at once dropped from his saddle, shot through the head; the other reeled, but, retaining his seat, galloped off at full speed.

Chapter One. The Young Colonists Introduced-Expectant Relatives-In Search of "Old Bolter"-A Dinner in the Bush-Bolter tries to Escape-Encounter Blacks-Bolter brought back-Sandy Macdougall. "I wonder what sort of fellows these English cousins of ours will turn out?" exclaimed Harry Berrington, as he rode up alongside his elder brother Paul. "Judging by their photographs, which Uncle Frank sent us out last year, I have an idea that they are mighty fine young gentlemen, who will be apt to turn up their noses at us colonial 'corn-stalks.'" "Hector and Reginald are good-looking fellows, I should think, and wear fine clothes but beyond that-whether they are dark or fair, have blue eyes and pink cheeks, or whether they can ride, and shoot, swim, and play cricket, or can only dance and sing, or draw, or suchlike girlish things-I have not the slightest notion," answered Paul. "We shall, however, soon know; for, according to the letter father got yesterday their ship ought to reach Moreton Bay in the course of three or four weeks; and I hope that I may have the chance of going down to Ipswich to meet them." "I don't think you will be so lucky," observed Harry. "I heard father say that he intended going himself, as he expected poor Aunt Augusta would require a good deal of attention, as she has been accustomed to live luxuriously, and has never done anything for herself. From a remark he made, I suspect that both the boys and girls have been brought up in the same fashion. Although they may get into our ways at last, they won't like our style of life at all when they first arrive." "They must learn to like it, somehow or other," observed Paul. "Poor Uncle Frank! I really pity him; he has lost nearly all his fortune; and to be obliged, at his time of life, to begin to work hard! And work hard he must, like the rest of us." "Yes, indeed; I have heard mother say that they lived in a large house in London, with butlers, footmen, housekeeper, nurses, and all sorts of servants; and had carriages and horses, and saw lots of company," said Harry. "They'll not have much of that out here; they will have to be their own servants, or consider themselves fortunate if they can hire an Irish girl, or get a black gin to do the rough work. We must try and help them, however, as much as we can, until they get accustomed to our ways," observed Paul. "And Mary, and Janet, and Lizzie will, I am sure, do their best to save them trouble." "Of course, we all will, in reality; but I don't think I shall be able to help laughing when I see the exquisite Mr Hector and his brother Reginald attempting to round up cattle, riding after stray horses, or milking cows. And there are two other boys-Edgar and Albert. I wonder what they will be like; they are about the same ages as Bob and Tommy, and if they are as great pickles they will manage to lead each other into all manner of scrapes; but we shall have rare fun with the girls if they have got any life in them." The two speakers were fine, active-looking lads, sons of Captain Hugh Berrington, who had settled in the colony of Queensland a short time before Paul, the eldest, was born....

The Young Colonists

As the 13 colonies grew, they prospered with new industries and trade. However, some of these trades, like tanning animal hides, were unpleasant. In fact, from slaves and indentured servants, to "mad hatters" and risk-taking whalers, jobs in the colonies could be downright horrible! Readers will delight in viewing the colonial world through a different lens while they continue to learn about life in early America. Enhanced by detailed images, the social studies content augments classroom learning through true—though sometimes disgusting—facts and examples of making a living in the 13 colonies.

The Young Berringtons the Boy Explorers

William Henry Giles Kingston (1814-1880), was a writer of tales for boys. He was born in London, but spent much of his youth in Oporto. His first book, *The Circassian Chief*, appeared in 1844. His first book for boys, *Peter the Whaler*, was published in 1851, and had such success that he retired from business and devoted himself entirely to the production of this kind of literature, in which his popularity was deservedly great; and during 30 years he wrote upwards of 130 tales, including *Digby Heathcote* (1860), *The Three Midshipmen* (1862), *The Three Lieutenants* (1874), *The Three Commanders* (1875) and *In the Rocky Mountains* (1878). He also conducted various papers, including *The Colonist*, and *Colonial Magazine* and *East India Review*. He was also interested in emigration, volunteering, and various philanthropic schemes. For services in negotiating a commercial treaty with Portugal he received a Portuguese knighthood, and for his literary labours a Government pension.

Manual of the Administration of the Madras Presidency

Excerpt from Standing Information Regarding the Official Administration of the Madras Presidency: In Each Department, in Illustration of the Yearly Administration Reports Prepared Under the Orders of Government Some of the notices in the following pages have been taken from that portion of the Madras Administration Reports for 1872-73 and 1875-76 which dealt with standing as opposed to current information regarding the different departments. The greater number of the notices, however, and those which seemed the most important, have been written specially for the present volume. The account of the method of official administration in the Native State of Travancore has been taken from a paper written by the late Dewan of Travancore; it is given here as throwing light on the British administration of the Western Coast, especially with regard to the land revenue question. This volume

does not attempt in any sense to be a Gazetteer of the Presidency; the few remarks, of that nature which will be found, have been introduced only because there is at present no Presidency Gazetteer, and because a certain amount of information as to the state of the country seemed necessary for a proper understanding of the official machinery. The information is not brought down later than the 31st March 1876; it was necessary to fix one date for the whole, and a later date than this could not have been taken with any prospect of securing accuracy. An interleaved edition is published for the use of certain offices; in this such corrections can be made as are necessitated either by changes in the administration or by the imperfections of the present work. With corrections of this nature, the volume may perhaps be serviceable for some little time to come. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Manual of the Administration of the Madras Presidency: Chapters 1-9, containing the principal articles of the Manual arranged so as to conform to the order of subjects in the yearly presidency report

Excerpt from Memorandum on the Progress of the Madras Presidency: During the Last Forty Years of British Administration In July 1890, Lord Connemara entrusted to me the task of examining whether the economic condition of the Madras Presidency has, on the whole, improved or deteriorated during the last 40 or 50 years of British administration and of writing a Memorandum on the subject. I was given to understand that the conclusions arrived at should be based not only on information officially on record but also on the results of independent inquiries. To ascertain whether any and what improvement has taken Place in the condition of the masses of the population, it was, of course, necessary that an idea should be formed as to their condition in the past, and, for this purpose, I had to collect and read up a great mass of old reports. This took up a deal of time, and I was able to write only the preliminary portion of this Memorandum before the end of 1890. The departure of Lord Connemara to England and pressure of other official work led to the preparation of this Memorandum being laid aside for some time, and I was able to resume the work only in the latter half of 1891. Since then I have been more or less engaged on it, but as the work has had to be carried on in addition to my other official duties, it has not been possible to finish it earlier. The interval, however, has been utilized for collecting information on such matters as prices of commodities, wages of labour, &c., in order that it might be used for testing information obtained from official sources.
