The Church at Home and Abroad, 1892, Vol. 12

Excerpt from The Church at Home and Abroad, 1892, Vol. 12: Published Monthly On Wednesday, May 11, a train of cars, one of which was filled with ministers, elders and women on their way to Port land, left St. Louis, westward bound. About seven o'clock the next morning, we crossed the Missouri into Kansas City, where we were to have three hours to see the sights of that slightly city beside its name-sake, separated from it only by the invisible state line between Missouri and Kansas. Thus what is naturally one city, already great and rapidly growing, is municipally two because it lies in two states. Let the two vie with each other in the strife of our times for more whole some municipal government, and let the churches provoke each other to wholesome emulation in city evangelization. The Church at Home and Abroad

When we think about religion and politics in the United States today, we think of conservative evangelicals. But for much of the twentieth century it was liberal Protestants who most profoundly shaped American politics. Leaders of this religious community wielded their influence to fight for social justice by lobbying for the New Deal, marching against segregation, and protesting the Vietnam War. Gene Zubovich shows that the important role of liberal Protestants in the battles over poverty, segregation, and U.S. foreign relations must be understood in a global context. Inspired by new transnational networks, ideas, and organizations, American liberal Protestants became some of the most important backers of the United Nations and early promoters of human rights. But they also saw local events from this global vantage point, concluding that a peaceful and just world order must begin at home. In the same way that the rise of the New Right cannot be understood apart from the mobilization of evangelicals, Zubovich shows that the rise of American liberalism in the twentieth century cannot be understood without a historical account of the global political mobilization of liberal Protestants.

The Rambler, a Catholic journal of home and foreign literature [&c.]. Vol.5-new [3rd] [Vol.11 of the new [2nd] ser. is imperf. Continued as The Home and foreign review].

The Church of the Nazarene embraces American attachments to democratic rule, individual initiative, efficiency, and a strong sense of responsibility as "a city on a hill." It is also present in more than 150 world areas. These attributes are reflected in the astounding story of one of the founders of the denomination, H. F. Reynolds, who has been long hidden in the shadow of his early colleague, Phineas Bresee. While the church points to Bresee as its founding father, Reynolds lived and served for an

additional two decades following Bresee's death, shaping the role of the General Superintendency, clarifying and expanding the church's Manual to meet the needs of the growing denomination, and establishing mission policies and practices that took it from a US church to a global presence. Reynolds maintained a lively devotion to Christ as he survived train wrecks, war, dread disease, and the sheer volume of meetings, correspondence, and explosive scandal that came with the nurturing of a new church. His vision and methods have profoundly influenced a denomination that does not know his name. This volume is designed to make the introduction.

The Rambler, a Catholic journal of home and foreign literature [&c.]. Vol.5-new [3rd] [Vol.11 of the new [2nd] ser. is imperf. Continued as The Home and foreign review].

From its very beginning, in June 1842, the Protestant Mission in Gabon included men and women of African descent--African Americans, Americo-Liberians, and West Africans--all teachers and advanced students from the Cape Palmas (Liberia) Mission, who transferred with the mission to its new location on the Gaboon estuary. All came voluntarily and wholeheartedly. They served as teachers, evangelists, preachers, and printers, building the early foundation of Christianity in Gabon. Many eventually returned to their homelands, but others stayed for the duration of their lives, assimilating into the local community. This book celebrates the contribution of persons of African descent who served with the mission from 1834 until 1891, a time of complex and controversial race relations in America, which seeped into mission relations overseas. Private missionary correspondence and journals reveal the interrelationships, roles, and contributions of these individuals, and also the underlying perceptions of nationality, race, and gender. One must grieve the injustices evident in the stories, yet marvel at the giftedness, faith, determination and commitment of those who served, often with no official recognition. I introduce you to Mr. B. V. R. James, Lavinia Sneed, Charity Sneed Menkel, Mary Harding, and others--may their stories inspire you!

The Church at Home and Abroad

This collection of annual reports provides a detailed record of the work done by the Presbyterian Church in the United States to spread the gospel to other countries. Readers will find accounts of missionaries at work in Asia, Africa, and the Middle East, as well as reflections on the challenges and triumphs of this important work. A valuable resource for scholars of religious studies, and for anyone interested in the history of Christian missions. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. The Church at Home and Abroad

'Simply a great work of reference. Future scholars will wonder how anybody managed without the Wellesley Index. It will quietly change the whole nature of Victorian studies.' Christopher Ricks, New Statesman
'It is now impossible to think of Victorian literary and historical studies without the benefit of it ... this is a very remarkable achievement indeed ... the complete set will be a monument to the Houghtons foresight, pertinacity and skill.' TLS

The Church at Home and Abroad

This collection of 15 essays provides a fully developed account of the domestic significance of foreign missions from the 19th century through the Vietnam War. U.S. and Canadian missions to China, South America, Africa, and the Middle East have, it shows, transformed the identity and purposes of their mother countries in important ways.

The Church at Home and Abroad

At Home and Abroad bridges the divide in the study of American religion, law, and politics between domestic and international, bringing together diverse authors to explore ties across conceptual and political boundaries. They examine the ideas, people, and institutions that provide links between domestic and foreign religious politics and policies.

The Journal of Arizona History
