Ridiculous 10 bar Sub. in B (this is gonna be a long exposition)

Ans. in T, CS in B (for the sake of keeping it simple, only real answer at the 5th will be explained in the lyrics)

Codetta/Mini-Episode/Retransition Section

Sub. in A, CS in T

Ans. in S, CS in A

End of Exposition, fragments presented

Episode: Sequence with sub. fragment that forms a canon at the 7th below (With S and B)

Deck the Halls quote, modulation to D Maj

Triple entry of modified sub. in A, T (augmentation), and B (technically not a true stretto)

For a 10 bar subject, metrically starting on a weaker beat makes the harmonic rhythm a bit wack (shorter subjects can be displaced easier)

Ans. in T, CS in A (Voice crossing frowned upon)

Episode: Sequence with diminution of sub. fragment

Inversion of Sub. (Parodying a Double Fugue Entry)

Intentional Parallel Fifths

Inv. Sub. in A, New CS in B, almost like a new double fugue exposition

I thought it would be funny to leap while the singer complains about said leaps (though in this case, those "random leaps" in A are part of the inverted sub.)

Inv. Sub. in S, New CS in A, but this exposition is thrown out of the window with what comes next!

I asked myself: how far can I take the idea of stretto? This was the result! Diminution of Sub. in T and B, Diminution of inverted Sub. in S and A.

S does augmentation/upward suspensions against the diminution stretto

Inv. of sub. fragment (bar 3 idea) in ascending stretto

Phrygian Cadence (Modal counterpoint reference!)

Bach Art of Fugue in Piano (hinted by S and B lyrics previously)

Bach Double Violin Concerto quotation

Art of Fugue against the original subject! (Start of "recapitulation" - parodies a double fugue where one combines the two previously heard themes, but in this case it's art of fugue, literally heard a few bars ago by a random piano solo haha)

Sub. in B, CS in A

CS intentionally enters in the "wrong" voice (S), Sub. in T (had to be modified as some notes are out of a standard tenor's range). Final entry of the recap is skipped.

Dominant Pedal with sub. + inverted sub. diminution in S

Crunchy suspensions!

Even crunchier suspensions!

Final entry of subject head (augmented version in A), + 4-3 suspension resolving to picardy in T
