Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

American Book Publishing Record

Excerpt from Safety First for Little Folks: First Steps in Civics This little book is, the author believes, fully in accord with the times in its aim and spirit, which is to further good citizenship; civic betterment; cleanliness; economy; the conservation of human life, happiness, and efficiency, both of one's self and of others; and to assist in reducing to some degree the terrible waste of life, limb, and effort resulting from thoughtlessness and carelessness. Child hood is the appropriate time for teaching the virtue of carefulness, thoughtfulness, helpfulness, and consideration for others. A reasonable care for one's own safety and well-being is an essential element for proper helpfulness to others. Any teaching of selfish disregard for the safety of others has been avoided. Thanks are due to the various municipal departments of New York City, to the Brooklyn Rapid Transit Co., to Walter H. Bennett, State Fire Marshal of Illinois, and to Dr. B. B. Mosher, of Brooklyn, for photographs used in the book. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. School Safety

The vast majority of our country is entirely unknown to us because we are banned from setting foot on it. By law of trespass, we are excluded from 92 per cent of the land and 97 per cent of its waterways, blocked by walls whose legitimacy is rarely questioned. But behind them lies a story of enclosure, exploitation and dispossession of public rights whose effects last to this day. The Book of Trespass takes us on a journey over the walls of England, into the thousands of square miles of rivers, woodland, lakes and meadows that are blocked from public access. By trespassing the land of the media magnates, Lords, politicians and private corporations that own England, Nick Hayes argues that the root of social inequality is the uneven distribution of land. Weaving together the stories of poachers, vagabonds, gypsies, witches, hippies, ravers, ramblers, migrants and protesters, and charting acts of civil disobedience that challenge orthodox power at its heart, The Book of Trespass will transform the way you see the land.

Safety First for Little Folks

A novel of the friendships and woes of two couples, which tells the story of their lives in lyrical, evocative prose by one of the finest American writers of the late 20th century. When two young couples meet for the first time during the Great Depression, they quickly find they have much in common: Charity Lang and Sally Morgan are both pregnant, while their husbands Sid and Larry both have jobs in the English department at the University of Wisconsin. Immediately a lifelong friendship is born, which becomes increasingly complex as they share decades of love, loyalty, vulnerability and conflict. Written from the perspective of the aging Larry Morgan, *Crossing to Safety* is a beautiful and deeply moving exploration of the struggle of four people to come to terms with the trials and tragedies of everyday life. With an introduction by Jane Smiley.

A RADIO 4 BOOK OF THE WEEK 'A love letter to police officers and the most vulnerable people they protect and serve' CHRISTIE WATSON, author of *THE LANGUAGE OF KINDNESS* 'Extraordinary . . . urgent and compelling. We all have lessons to learn from this book' SIMON MAYO There is much more to policing than tackling crime. Every one of us will need the help of an officer at some point in our lives, often when we're at our most vulnerable. Yet how much do we really know about the realities of policing? Using real life stories from his twenty-five years of service with the Metropolitan Police, John Sutherland invites us beyond the cordon tape to bear witness to all he has seen. In doing so, he offers a hopeful vision for how we can tackle some of the biggest challenges facing society today. Includes a new Afterword on policing during the Covid-19 pandemic

Crossing to Safety

This book is the first practical, hands-on guide that shows how leaders can build psychological safety in their organizations, creating an environment where employees feel included, fully engaged, and encouraged to contribute their best efforts and ideas. Perhaps the leader's most challenging task is to increase intellectual friction while decreasing social friction. When this doesn't happen and it becomes emotionally expensive to say what you truly think and feel, that lack of psychological safety triggers the self-censoring instinct, shuts down learning, and blocks collaboration and creativity. Timothy R. Clark, a

former CEO, Oxford-trained social scientist, and organizational consultant, provides a research-based framework to help leaders transform their organizations into sanctuaries of inclusion and incubators of innovation. When leaders cultivate psychological safety, teams and organizations progress through four successive stages. First, people feel included and accepted; then they feel safe to learn, contribute, and finally, challenge the status quo. Clark draws deeply on psychology, philosophy, social science, literature, and his own experiences to show how leaders can, and must, set the tone and model the ideal behaviors—as he says, “you either show the way or get in the way.” This thoughtful and pragmatic guide demonstrates that if you banish fear, install true performance-based accountability, and create a nurturing environment that allows people to be vulnerable as they learn and grow, they will perform beyond your expectations.

National Film Archive Catalogue: Non-fiction films

This powerful nonfiction picture book explores wildlife crossings around the world and how they are helping save thousands of animals every day. Around the world, bridges, tunnels, and highways are constantly being built to help people get from one place to another. But what happens when construction spreads over, under, across, and through animal habitats? Thankfully, groups of concerned citizens, scientists, engineers, and construction crews have come together to create wildlife crossings to help keep animals safe. From elk traversing a wildlife bridge across a Canadian interstate to titi monkeys using rope bridges over a Costa Rican road to salamanders creeping through tiny tunnels beneath a Massachusetts street, young readers are certain to be delighted and inspired by these ingenious solutions that are saving the lives of countless wild animals.

Cross-Pollination

The subjects of Salman Rushdie's collection of non-fiction range from The Wizard of Oz, U2, India and Indian writing, the death of Princess Diana, and football, to twentieth-century writers including Angela Carter, Arthur Miller, Edward Said, J. M. Coetzee and Arundhati Roy. In a central section, 'Messages from the Plague Years', Rushdie focuses on the fight against the Iranian fatwa, presenting texts both personal and political, which show for the first time how it was to live through those days. Rushdie's columns for the New York Times confront current issues - Kashmir, Northern Ireland, Kosovo, Islam and the West - as well as lighter topics such as reality TV, sport and sleaze. The book ends with the lectures that give it its title - Rushdie's exploration of the theme of frontiers: crossing them, breaking taboos, and - in the light of September 11 - the world of permeable frontiers in which we all live.

Continuous Provision - Personal and Thinking Skills

At the crossroads between international relations and anthropology, The Migrant Passage analyzes how people from El Salvador, Honduras, and Guatemala navigate the dangerous and uncertain

clandestine journey across Mexico to the United States. However much advance planning they do, they survive the journey through improvisation. Central American migrants improvise upon social roles and physical objects, leveraging them for new purposes along the way. Over time, the accumulation of individual journeys has cut a path across the socioeconomic and political landscape of Mexico, generating a social and material infrastructure that guides future passages and complicates borders. Tracing the survival strategies of migrants during the journey to the North, *The Migrant Passage* shows how their mobility reshapes the social landscape of Mexico, and the book explores the implications for the future of sovereignty and the nation-state. To trace the continuous renewal of the transit corridor, Noelle Brigden draws upon over two years of in-depth, multi-sited ethnographic fieldwork along human smuggling routes from Central America across Mexico and into the United States. In so doing, she shows the value of disciplinary and methodological border crossing between international relations and anthropology, to understand the relationships between human security, international borders, and clandestine transnationalism.

The 4 Stages of Psychological Safety

In a small town called Butcher's Crossing he meets a hunter with a story of a lost herd of buffalo in a remote Colorado valley, just waiting to be taken by a team of men brave and crazy enough to find them. Will makes up his mind to be one of those men, but the journey, the killing, harsh conditions and sheer hard luck will test his mind and body to their limits.

Crossings

Discover the amazing true story of P-22, the wild cougar living in Los Angeles, in this inspiring picture book. P-22, the famed "Hollywood Cougar," was born in a national park near Los Angeles, California. When it was time for him to leave home and stake a claim to his own territory, he embarked on a perilous journey—somehow crossing sixteen lanes of the world's worst traffic—to make his home in LA's Griffith Park, overlooking the famed Hollywood sign. But Griffith Park is a tiny territory for a mountain lion, and P-22's life has been filled with struggles. Residents of Los Angeles have embraced this brave cougar as their own and, along with the scientists monitoring P-22, raised money to build a wildlife bridge across Highway 101 to help cougars and other wildlife safely expand their territories and build new homes—ensuring their survival for years to come.
