This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria

for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

High School English Grammar & Composition is one of the most renowned reference guides to learn English Grammar in India. This is a part of the series of books by Wren and Martin, and it provides a comprehensive study of grammar. First published in 1935, this grammar book is now being used extensively in numerous schools across Pakistan, India, and Burma. This book has been divided into two sections, containing 84 chapters in total. The first part is about Grammar and the second part is about Composition. Some chapters include Synthesis of Sentences, Conjunctions, Direct and Indirect Speech, Comparison of Adverbs, and The Noun: Kinds of Nouns. The content of this book has been greatly influenced by The Manual of English Grammar and Composition authored by J. C. Nestfield. Through the course of this book, the authors have dealt with the very basics of grammar such as forming sentences, identifying subject and predicate, verbs, using adjectives as nouns, relative pronouns, and much more. The readers are also provided with insights into writing an essay, autobiographies, letters,

and stories. High School English Grammar & Composition contains numerous exercises on grammar and composition that will help the readers test themselves from every angle.

Monetary Theory and Public Policy

Grabbing the low-hanging fruit is no longer acceptable. ZICO Coconut Water founder Mark Rampolla argues that when you choose to reach higher, you can build an incredible business, be profitable, and maybe even change the world. In 2004, Mark Rampolla was successful by most standards. There was just one problem: He wasn't inspired in his job and believed he had something more to contribute to the world. When he asked himself, "What do I have to offer that will improve the world?" Rampolla realized that his big idea was hanging right overhead. From his time living in Central America, he and his family came to love drinking coconut water, just like the locals. But no one was really selling coconut water in the United States. So Rampolla chased a very ambitious goal: introducing coconut water to the American beverage market dominated by a few big players. He wasn't just starting a business; he was creating a whole new industry. ZICO Coconut Water brought a healthy beverage alternative to American consumers while also helping developing-world growers and suppliers profit from this resource. It was a win-win-win—good for Rampolla, his customers, and the world. So good, in fact, that in 2013 the Coca-Cola Company purchased ZICO and is scaling the brand around the globe. Rampolla wrote High-Hanging Fruit for others who want to succeed because of, not in spite of, their values. This book is for people who believe that it's their duty to reach higher than just the bottom line to build businesses driven by passion, purpose, and integrity. Above all, it's a call to arms for a new generation of entrepreneurs who want to disrupt the old model and do good by doing business.

India Since Independence

India's struggle for Independence by Bipin Chandra is your go to book for an in-depth and detailed overview on Indian independence movement . Indian freedom struggle is one of the most important parts of its history. A lot has been written and said about it, but there still remains a gap. Rarely do we get to hear accounts of the independence from the entire country and not just one region at one place. This book fits in perfectly in this gap and also provides a narration on the impact this movement had on the people. Bipin Chandra's book is a well-documented history of India's freedom struggle against the British rule. It is one of the most accurate books which have been painstakingly written after thorough research based on legal and valid verbal and written sources. It maps the first war of independence that started with Mangal Pandey's mutiny and witnessed the gallant effort of Sri Rani Laxmi Bai. Many of the pages of this book are dedicated to Mahatma Gandhi's non-cooperation and the civil disobedience movements. It contains detailed description of Subash Chandra Bose's weapon heavy tactics and his charisma. This book includes all the independence movements and fights, irrespective of their size and impact, covering India in its entirety. Although these movements varied in means and ideas, but they shared a common goal of independence. This book contains oral and written narratives from different parts of the country, making this book historically rich and diverse. The book captures the evolution of Indian independence struggle in full detail and leaves no chapter of this story untouched. This book is a good read for the students of Indian modern history and especially for students who are preparing for UPSC examination and have taken History as their subject.
