### Kinship Organisations and Group Marriage in Australia

Excerpt from Kinship Organisations and Group Marriage in Australia It is becoming an axiom in anthropology that what is needed is not discursive treatment of large subjects but the minute discussion of spécial themes, not a ranging at large over the peoples of the earth past and present, but a détailed examination of limited areas. This work I am undertaking for Australia, and in the present volume I deal briefly with some of the aspects of Australian kinship organisations, in the hope that a survey of our present knowledge may stimulate further research on the spot and help to throw more light on many difficult problems of primitive sociology. We have still much to learn of the relations of the central tribes and their organisations to the less elaborately studied Anula and Mara. I have therefore passed over the questions discussed by Dr Durkheim. We have still more to learn as to the descent of the totem, the relation of totem-kin, class and phratry, and the like; totemism is therefore treated only incidentally in the present work, and lack of knowledge compels me to pass over many other interesting questions. The present volume owes much to Mr Andrew Lang. About the Publisher Forgotten Books publishes

## Kinship Organisations and Group Marriage in Australi

In the debates which followed the publication of Darwin's book on the origin of species, Australian Aborigines were used as the ideal exemplars of early human forms by European scholars bent on discovering the origins of social institutions. The Aborigines have consequently featured as the crucial case-study for generations of social theorists, including Tylor, Frazer, Durkheim and Freud. Arguments about Aborigines reviews a range of controversies such as family life, religion and ritual, and land rights, which marked the formative period of British social anthropology. Professor Hiatt also examines how changes in Aboriginal practices have affected scholarly debate. This elegant 1996 book will provide a valuable introduction to aboriginal ethnography for students, scholars and the general reader. It is also a shrewd and stimulating history of the great debates of anthropology, seen through the prism of Aboriginal studies.

## Matrilineal Kinship

As increased access to employment and educational opportunities brought dramatic changes to women's lives, sociologists began to look at the effect of women's changing roles on their children and families. Based on empirical investigations and personal experience, the studies included in the volumes of The Sociology of Gender and the Family set of The International Library of Sociology set out to establish patterns and regularities in social behaviour, and to understand the social roles of kinship groups, mothers, wives, children and the elderly.

## Kamilaroi and Kurnai

The pioneering sociologist and author of The Seven Day Circle continues his analysis of time with this fascinating look at history as social construct. Who were the first people to inhabit North America? Does the West Bank belong to the Arabs or the Jews? Why are racists so obsessed with origins? Is a seventh cousin still a cousin? Why do some societies name their children after dead ancestors? As Eviatar Zerubavel demonstrates in Time Maps, we cannot answer burning questions such as these without a deeper understanding of how we envision the past. In a pioneering attempt to map the structure of collective memory, Zerubavel considers the cognitive patterns we use to organize the past and the

social grammar of conflicting interpretations of history. Drawing on fascinating examples that range from Hiroshima to the Holocaust, and from ancient Egypt to the former Yugoslavia, Zerubavel shows how we construct historical origins; how we tie discontinuous events together into stories; how we link families and entire nations through genealogies; and how we separate distinct historical periods from one another through watersheds, such as the invention of fire or the fall of the Berlin Wall. "Time Maps extends beyond all of the old clichés about linear, circular, and spiral patterns of historical process and provides us with models of the actual legends used to map history...brilliant and elegant."-Hayden White, University of California, Santa Cruz

### The History Of Human Marriage (6 Vols. Set)

This volume scrutinizes the questions of conceptualization, method and history in the fields of kinship, social anthropology and structuralism. It puts forward a radical revision of the conventional approaches and criteria. Exploring analysis and method in the disparity between relative age and kinship categories as means of social classification, the book makes theoretical readjustments, largely inspired by the precepts of Wittgenstein. Originally published in 1971.

### Arguments about Aborigines

The problem of the social forms of family life still presents some obscurities. What appears to be most urgently needed is a careful investigation of facts in all the different ethnographical areas. I propose in this study to undertake this task for Australia. I shall avoid making any hypothetical assumptions, or discussing general problems which refer to the origin or evolution of the family. I wish only to describe in correct terms and as thoroughly as possible all that refers to actual family life in Australia. In other words I intend to give in outline the social morphology of the Australian family. It may be well to show briefly the necessity for this task, which to some may appear superfluous, and to indicate the lines on which it will be attempted. In the first place there are some contradictions with regard to the problem of relationship or kinship in Australia, which can be reduced to the question: Is kinship in Australia exclusively individual; or is it exclusively group kinship (or tribal kinship, as it often is called); and, further, do these two forms exclude each other or do they perhaps exist side by side? When Howitt says: "The social unit is not the individual, but the group; the former merely takes the relationships of his group, which are of group to group," this obviously means that there is no individual relationship, consequently no individual family in Australia. It is important to note that the passage just quoted is placed in the chapter on Relationship in Howitt's chief work on Australia, and that consequently it refers to all the tribes described by the author, i. e. to the majority of the known Australian tribes. The same opinion that there is only group relationship and no individual family is supported by another passage, no less important and general, for it is placed at the conclusion of Howitt's article on the organization of the Australian tribes in general: "It has been shown that the fundamental idea in the conception of an Australian community is its division into two groups. The relationships which obtain between the members of them are also those of group to group." And again: "The unit of aboriginal society is, therefore, not the individual, but the group. It is the group which marries the group and which begets the group." There are also a few passages in Spencer and Gillen which deny the existence of the individual family, at least in some tribes.

### Cultures of the Pacific

R. H. Mathews (1841-1918) was an Australian-born surveyor and self-taught anthropologist. From 1893 until his death in 1918, he made it his mission to record all 'new and interesting facts' about Aboriginal Australia. Despite falling foul with some of the most powerful figures in British and Australian anthropology, Mathews published some 2200 pages of anthropological reportage in English, French and German. His legacy is an outstanding record of Aboriginal culture in the Federation period. This first edited collection of Mathews' writings represents the many facets of his research, ranging from kinship study to documentation of myth. It includes eleven articles translated from French or German that until now have been unavailable in English. Introduced and edited by Martin Thomas, who compellingly analyses the anthropologist, his milieu, and the intrigues that were so costly to his reputation, **CULTURE IN TRANSLATION** is essential reading on the history of cross-cultural research.

### Families and their Relatives

### Time Maps

Structural analysis of subsection system as opposition between six basic physical or temperamental qualities; constructs from this classification an Aboriginal World Order; material drawn from many areas, with an emphasis on north-west Australia; includes tribal index to contents.

### Kinship and Family Organization

Noted social scientist Eviatar Zerubavel casts a critical eye on how we trace our past-individually and collectively arguing that rather than simply find out who our ancestors are from genetics or history, we actually create the stories that make them our ancestors.

### Remarks and Inventions

The German missionary Carl Strehlow (1871-1922) had a deep ethnographic interest in Aboriginal Australian cosmology and social life which he documented in his 7 volume work *Die Aranda- und Loritja-Stämme in Zentral-Australien* that remains unpublished in English. In 1913, Marcel Mauss called his collection of sacred songs and myths, an Australian Rig Veda. This immensely rich corpus, based on a lifetime on the central Australian frontier, is barely known in the English-speaking world and is the last great body of early Australian ethnography that has not yet been built into the world of Australian anthropology and its intellectual history. The German psychological and hermeneutic traditions of anthropology that developed outside of a British-Australian intellectual world were alternatives to 19th century British scientism. The intellectual roots of early German anthropology reached back to Johann Gottfried Herder (1744-1803), the founder of German historical particularism, who rejected the concept of race as well as the French dogma of the uniform development of civilisation. Instead he recognised unique sets of values transmitted through history and maintained that cultures had to be viewed in terms of their own development and purpose. Thus, humanity was made up of a great diversity of ways of life, language being one of its main manifestations. It is this tradition that led to a concept of cultures in the plural.

### The Family Among the Australian Aborigines: A Sociological Study

The contributors to this book reveal different approaches to creating a colony. Using the rich collections of the Mitchell Library, the authors go beyond the traditional sources of history, highlighting the personal stories revealed through family letters, and creative interaction with the landscape through poetry and drawings.

### Official Year Book of the Commonwealth of Australia No. 3 - 1910

Presenting spectacular photographs of astronomical objects of the southern sky, all taken by author Stephen Chadwick, this book explores what peoples of the South Pacific see when they look up at the heavens and what they have done with this knowledge. From wives killing brothers to emus rising out of the desert and great canoes in the sky, this book offers the perfect blend of science, tradition and mythology to bring to life the most famous sights in the heavens above the southern hemisphere. The authors place this starlore in the context of contemporary understandings of astronomy. The night sky of southern societies is as rich in culture as it is in stars. Stories, myths and legends based on constellations, heavenly bodies and other night sky phenomena have played a fundamental role in shaping the culture of pre-modern civilizations throughout the world. Such starlore continues to influence societies throughout the Pacific to this day, with cultures throughout the region – from Australia and New Zealand in the south to New Guinea and Micronesia in the north - using traditional cosmology as a means of interpreting various aspects of everyday life.

#### Kamilaroi and Kurnai

" This volume is likely to prove indispensable to historians of anthropology in general and of British anthropology in particular. There are a wide range of historical skills on display, from traditional textual analysis to historical sociology of the most sophisticated sort, and there is a more or less thorough chronological coverage from the era of classical evolutionism virtually up to the present. One can only hope that historicizing anthropologists will sample some of these wares."—Journal of the History of the Behavioral Sciences

#### Names and Substance in the Australian Subsection System

Originally published in 1926, this book was written to provide an 'account of some of the ethnological conditions of the Southern New Hebrides'. A detailed bibliography is also included. This book will be of value to anyone with an interest in ethnology, anthropology and the South Pacific islands.

#### Ancestors and Relatives

The wide range of subjects examined includes: Incest, epistemology, linguistics, prescriptive alliance and methodology. Fieldwork from the following countries is drawn on: Burma, Sri Lanka, New Guinea, Australia, Africa and South America.

#### The Aranda's Pepa

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 edition. Excerpt: ...Cases may exist of tribes reckoning descent through the father in which no trace remains of reckoning through the mother. The mere existence of such cases is wholly insufficient to disprove a prior stage of mother-right, or even to shift the burden of proof."<sup>3</sup> I should have thought that the burden of proof lies on him who asserts the former existence of something which does not exist at present, and not on him who professes ignorance as regards the past; otherwise any fiction might claim to be true if it cannot be actually disproved. As regards the statement that cases where father-right betrays evidence of having been preceded by mother-right have been observed in every part of the world, I must confess that, although there are such cases, I only too often find the so-called evidence to consist of more or less arbitrary inferences drawn from customs which are interpreted as relics of earlier mother-right. And although it may be true that no conclusive evidence has been produced of a transition in the opposite direction, American ethnologists maintain that cases exist in which such a transition has taken place or in which a clan system with matrilineal descent has evolved where there was previously no clan organisation at all. 1 Hartland, *Primitive Paternity*, i. 256 sq. ## Elementary Structures Reconsidered

*Irregular Connections* traces the anthropological study of sex from the eighteenth century to the present, focusing primarily on social and cultural anthropology and the work done by researchers in North America and Great Britain. Andrew P. and Harriet D. Lyons argue that the sexuality of those whom anthropologists studied has been conscripted into Western discourses about sex, including debates about prostitution, homosexuality, divorce, premarital relations, and hierarchies of gender, class, and race. Because sex is the most private of activities and often carries a high emotional charge, it is peculiarly difficult to investigate. At times, such as the late 1920s and the last decade of the twentieth century, sexuality has been a central concern of anthropologists and focal in their theoretical formulations. At other times the study of sexuality has been marginalized. The anthropology of sex has sometimes been one of the main faces that anthropology presented to the public, often causing resentment within the discipline. Andrew P. Lyons is an associate professor of anthropology at Wilfrid Laurier University. Harriet D. Lyons is an associate professor of anthropology at the University of Waterloo.

## Functionalism Historicized

Australia is unique in the world for its diverse and interlocking systems of Indigenous social organisation. On no other continent do we see such an array of complex and contrasting social arrangements, coordinated through a principle of 'universal kinship' whereby two strangers meeting for the first time can recognise one another as kin. For some time, Australian kinship studies suffered from poor theorisation and insufficient aggregation of data. The large-scale AustKin project sought to redress these problems through the careful compilation of kinship information. Arising from the project, this book presents recent original research by a range of authors in the field on the kinship and social category systems in Australia. A number of the contributions focus on reconstructing how these systems originated and developed over time. Others are concerned with the relationship between kinship and land, the semantics of kin terms and the dynamics of kin interactions.

## A Double Life

There is no denying it: motherhood splits a woman's life forever, into a before and an after. To this doubled life Lisa Catherine Harper brings a wealth of feeling and a wry sense of humor, a will to understand the emotional and biological transformations that motherhood entails, and a narrative gift that any reader will enjoy. Harper documents her own journey across this great divide as a seasoned explorer might, observing, researching, relating anecdotes and critical information. From late-night Lindy Hop dancing to crippling sciatica, morning sickness to indulgent meals, graduate seminars to

sophisticated ultrasounds, Harper marries scientific details with intimate insights as she uncovers the fascinating strangeness of this remarkably familiar territory. Following Harper's first pregnancy from conception to her daughter's first word, *A Double Life* looks at how the biological facts of motherhood give rise to life-altering emotional and psychological changes. It shows us how motherhood transforms the female body, hijacks a woman's mind, and splits her life in two, creating an identity both brand new and as old as time. It charts the passage from individual to incubator, from pregnancy, labor, and nursing to language acquisition, from coupledness to the complex reality of family life. Harper's carefully researched story reminds us that motherhood's central joys are also its most essential transformations.

## Birth Writes

Edited by Carole Monnier Clark with Chelsie Anderson The idea for this book was born during long postpartum talks with newborn babies in arms and toddlers running wild at our feet. As we shared our own birth stories with each other it became clear that we wanted to hear more about other people's experiences, all kinds of experiences, and we felt that others would too. That's what we asked for and that's exactly what we got! Here you'll find tales about labour and delivery as varied as their authors. From natural births to hospital births, planned C-sections to home births, slow deliveries to speedy arrivals, twins born in the hospital and at home, birth in the wake of natural disaster, to the perfect birth plans that work out and those that don't. There's adventure in these pages; the adventure that comes along with welcoming new life into this world, which in turn fundamentally changes the life of those who welcome it.

## Anne Bancroft

"Mrs. Robinson, you're trying to seduce me. Aren't you?" These famous lines from *The Graduate* (1967) would forever link Anne Bancroft (1931--2005) to the groundbreaking film and confirm her status as a movie icon. Along with her portrayal of Annie Sullivan in the stage and film drama *The Miracle Worker*, this role was a highlight of a career that spanned a half-century and brought Bancroft an Oscar, two Tonys, and two Emmy awards. In the first biography to cover the entire scope of Bancroft's life and career, Douglass K. Daniel brings together interviews with dozens of her friends and colleagues, never-before-published family photos, and material from film and theater archives to present a portrait of an artist who raised the standards of acting for all those who followed. Daniel reveals how, from a young age, Bancroft was committed to challenging herself and strengthening her craft. Her talent (and good timing) led to a breakthrough role in *Two for the Seesaw*, which made her a Broadway star overnight. The role of Helen Keller's devoted teacher in the stage version of *The Miracle Worker* would follow, and Bancroft also starred in the movie adaptation of the play, which earned her an Academy Award. She went on to appear in dozens of film, theater, and television productions, including several movies directed or produced by her husband, Mel Brooks. *Anne Bancroft: A Life* offers new insights into the life and career of a determined actress who left an indelible mark on the film industry while remaining true to her art.

### Books That Cook

Organized like a cookbook, *Books that Cook: The Making of a Literary Meal* is a collection of American literature written on the theme of food: from an invocation to a final toast, from starters to desserts. All food literatures are indebted to the form and purpose of cookbooks, and each section begins with an excerpt from an influential American cookbook, progressing chronologically from the late 1700s through the present day, including such favorites as *American Cookery*, *the Joy of Cooking*, and *Mastering the Art of French Cooking*. The literary works within each section are an extension of these cookbooks, while the cookbook excerpts in turn become pieces of literature--forms of storytelling and memory-making all their own. Each section offers a delectable assortment of poetry, prose, and essays, and the selections all include at least one tempting recipe to entice readers to cook this book. Including writing from such notables as Maya Angelou, James Beard, Alice B. Toklas, Sherman Alexie, Nora Ephron, M.F.K. Fisher, and Alice Waters, among many others, *Books that Cook* reveals the range of ways authors incorporate recipes--whether the recipe flavors the story or the story serves to add spice to the recipe. *Books that Cook* is a collection to serve students and teachers of food studies as well as any epicure who enjoys a good meal alongside a good book.

### Strange Situation

A full-scale investigation of the controversial and often misunderstood science of attachment theory, inspired by the author's own experience as a parent and daughter. "A profound and beautiful work . . . searingly honest, brazenly fresh, and startlingly rich."—Andrew Solomon, author of *The Noonday Demon* When professional researcher and writer Bethany Saltman gave birth to her daughter, Azalea, she loved her deeply but felt as if something was missing. Looking back at her lonely childhood, dangerous teenage years, and love-addicted early adulthood, Saltman thought maybe she was broken. Then she discovered the science of attachment, the field of psychology that explores the question of why—from an evolutionary point of view—love exists between parents and children. Saltman went on a ten-year journey visiting labs, archives, and training sessions, while learning the meaning of "delight" from Mary Ainsworth, one of psychology's most important but unsung researchers, who died in 1999. Saltman went deep into the history and findings from Ainsworth's famous laboratory procedure, the Strange Situation, which, like an X-ray, is still used today by scientists around the world to catch a glimpse of the internal workings of attachment. In this simple twenty-minute procedure, a baby and a caregiver enter an ordinary room with two chairs and some toys. During a series of comings and goings, a trained observer studies the minutiae of the pair's back-and-forth with each other. Through the science of attachment, what Saltman discovered was a radical departure from everything she thought she knew—about love and about her own family, her story, and herself. She was far from broken—she saw that love is too powerful to ever break. *Strange Situation* is a scientific, lyrical, life-affirming exploration of love. Not only will readers be taken on an emotional ride through one mother's reckoning with her own past and her family's future, but they will also be given the tools with which to better understand their own life histories and their relationships today. Praise for *Strange Situation* "A fascinating deep

dive into attachment theory . . . Carefully researched and with copious endnotes, this is an excellent resource for anyone interested in child development.”—Publishers Weekly “Honest and complex . . . A thoughtful engagement with a topic that affects all parents.”—Kirkus Reviews

### The Language of Food: A Linguist Reads the Menu

A 2015 James Beard Award Finalist: "Eye-opening, insightful, and huge fun to read." —Bee Wilson, author of *Consider the Fork* Why do we eat toast for breakfast, and then toast to good health at dinner? What does the turkey we eat on Thanksgiving have to do with the country on the eastern Mediterranean? Can you figure out how much your dinner will cost by counting the words on the menu? In *The Language of Food*, Stanford University professor and MacArthur Fellow Dan Jurafsky peels away the mysteries from the foods we think we know. Thirteen chapters evoke the joy and discovery of reading a menu dotted with the sharp-eyed annotations of a linguist. Jurafsky points out the subtle meanings hidden in filler words like "rich" and "crispy," zeroes in on the metaphors and storytelling tropes we rely on in restaurant reviews, and charts a microuniverse of marketing language on the back of a bag of potato chips. The fascinating journey through *The Language of Food* uncovers a global atlas of culinary influences. With Jurafsky's insight, words like ketchup, macaron, and even salad become living fossils that contain the patterns of early global exploration that predate our modern fusion-filled world. From ancient recipes preserved in Sumerian song lyrics to colonial shipping routes that first connected East and West, Jurafsky paints a vibrant portrait of how our foods developed. A surprising history of culinary exchange—a sharing of ideas and culture as much as ingredients and flavors—lies just beneath the surface of our daily snacks, soups, and suppers. Engaging and informed, Jurafsky's unique study illuminates an extraordinary network of language, history, and food. The menu is yours to enjoy.

### Use Your Words

**USE YOUR WORDS** introduces the art of creative nonfiction to women who want to give written expression to their lives as mothers. Written by award-winning teacher and writer, Kate Hopper, this book will help women find the heart of their writing, learn to use motherhood as a lens through which to write the world, and turn their motherhood stories into art. Each chapter of **USE YOUR WORDS** focuses on an element of craft and contains a lecture, a published essay, and writing exercises that will serve as jumping-off points for the readers' own writing. Chapter topics include: the importance of using concrete details, an overview of creative nonfiction as a genre, character development, voice, humor, tense and writing the "hard stuff," reflection and back-story, structure, revision, and publishing. The content of each lecture is aligned with the essay/poem in that chapter to help readers more easily grasp the elements of craft being discussed. Together the chapters provide a unique opportunity for mother writers to learn

and grow as writers. *USE YOUR WORDS* takes the approach that creative writing can be taught, and this underscores each chapter. When students learn to read like writers, to notice how a piece is put together, and to question the choices a writer makes, they begin to think like writers. When they learn to ground their writing in concrete, sensory details and begin to understand how to create believable characters and realistic dialogue, their own writing improves. *USE YOUR WORDS* reflects Kate's style as a teacher, guiding the reader in a straightforward, nurturing, and passionate voice. As one student noted in a class evaluation: "Kate is a born writer and teacher, and her enthusiasm for essays about motherhood and for teaching the nuts and bolts of writing so that ordinary mothers have the tools to write their stories is a gift to the world. She is raising the value of motherhood in our society as she helps mothers build their confidence and strengthen their game as writers."

In August 1942, the Allies launched a raid against the German-held port of Dieppe on the French channel coast. It was largely a disaster, with the Canadian forces bearing the brunt of the catastrophe. However, it wasn't all a failure, and history has tended to overlook the role of 4 Commando, who, along with their US Ranger counter-parts, landed and successfully disabled the German guns threatening the rest of the landings. Their actions proved an excellent demonstration of the military adage "train hard, fight easy" and showed the advantage of proper operational planning and brilliant leadership. This controversial raid also included members of the Free French and it was the first time US land forces engaged the Germans on mainland Europe. Set in the context of the Dieppe raid as a whole, Will Fowler studies the contribution of No. 4 Commando and Operation Cauldron, and evaluates how and why they achieved their objectives in this daring Commando raid of World War II.

The definitive story of the international modeling business—and its evil twin, legalized flesh peddling—*Model* is a tale of beautiful women empowered and subjugated; of vast sums of money; of sex and drugs, obsession and tragic death; and of the most unholy combination in commerce: stunning young women and rich, lascivious men. Investigative journalist Michael Gross takes us into the private studios and hidden villas where models play and are preyed upon, and tears down modeling's carefully constructed façade of glamour to reveal the untold truths of an ugly trade.

"Behind every traditional type of cheese there is a fascinating story. By examining the role of the cheesemaker throughout world history and by understanding a few basic principles of cheese science and technology, we can see how different cheeses have been shaped by and tailored to their surrounding environment, as well as defined by their social and cultural context. *Cheese and Culture* endeavors to advance our appreciation of cheese origins by viewing human history through the eyes of a cheese scientist. There is also a larger story to be told, a grand narrative that binds all cheeses together into a single history that started with the discovery of cheese making and that is still unfolding to this day. This book reconstructs that 9000-year story based on the often fragmentary information that we have available. *Cheese and Culture* embarks on a journey that begins in the Neolithic Age and winds its way through the ensuing centuries to the present. This tour through cheese history intersects with some of the pivotal periods in human prehistory and ancient, classical, medieval, renaissance, and modern history that have shaped western civilization, for these periods also shaped the lives of cheesemakers and the diverse cheeses that they developed. The book offers a useful lens through which to view our twenty-first century attitudes toward cheese that we have inherited from our past, and our attitudes

about the food system more broadly. This refreshingly original book will appeal to anyone who loves history, food, and especially good cheese"--Provided by publisher.

In *An Extravagant Hunger*, time slows and is relished, and the turning points and casual strolls of M.F.K. Fisher's life are unwrapped and savored. From the Berengaria that washed her across the sea to France in 1929, to Le Paquis, the Swiss estate that later provided a backdrop for some of the most idyllic and fleeting moments of her life, the stories of Fisher's love for food and her love for family and men are meticulously researched and exquisitely captured in this book. Exploring Fisher's lonely and formative time in Europe with her first husband; her subsequent divorce and re-marriage to her creative sparkplug, Dillwyn Parrish, and his tragic suicide; and the child she carried from an unnamed father, the story of M.F.K. Fisher's life becomes as vibrant and passionate as her prolific words on wine and cuisine. Letters and journal entries piece together a dramatic life, but *An Extravagant Hunger* steps further, bridging the gaps between personal notes and her public persona, filling in the silences by offering an engaging and unprecedented depth of intuitive commentary. With a passion of her own, Anne Zimmerman is the careful witness, lingering beside M.F.K. Fisher through her most dramatic and productive years.

### Ultimate Food Journeys

From the author of the internationally acclaimed *Wintering: A Novel* of Sylvia Plath comes a funny, touching memoir of a crummy—and crumby—childhood. Growing up in the 1960s and '70s, Kate Moses was surrounded by sugar: Twinkies in the basement freezer, honey on the fried chicken, Baby Ruth bars in her father's sock drawer. But sweetness of the more intangible variety was harder to come by. Her parents were disastrously mismatched, far too preoccupied with their mutual misery to notice its effects on their kids. A frustrated artist, Kate's beautiful, capricious mother lived in a constant state of creative and marital emergency, enlisting Kate as her confidante—"We're the girls, we have to stick together"—and instructing her three children to refer to her in public as their babysitter. Kate's father was aloof, ambitious, and prone to blasts of withering abuse increasingly directed at the daughter who found herself standing between her embattled parents. Kate looked for comfort in the imaginary worlds of books and found refuge in the kitchen, where she taught herself to bake and entered the one realm where she was able to wield control. Telling her own story with the same lyricism, compassion, and eye for lush detail she brings to her fiction, coupled with the candor and humor she is known for in her personal essays, Kate Moses leavens each tale of her coming-of-age in *Cakewalk* with a recipe from her lifetime of confectionary obsession. There is the mysteriously erotic German Chocolate Cake implicated in a birds-and-bees speech when Kate was seven, the gingerbread people her mother baked for Christmas the year Kate officially realized she was fat, the chocolate chip cookies Kate used to curry favor during a hilariously gruesome adolescence, and the brownies she baked for her idol, the legendary M.F.K. Fisher, who pronounced them "delicious." Filled with the abundance and joy that were so lacking in Kate's youth, *Cakewalk* is a wise, loving tribute to life in all its sweetness as well as its bitterness and, ultimately, a recipe for forgiveness.

For Kate Hopper, pregnancy is downright unpleasant. She is tired and heavy and worried, and she wants her wine and caffeine back. But then, at a routine checkup, her doctor frowns at her chart and says, "I'm worried about a couple of things"—and unpleasant suddenly seems like paradise. What follows is a harrowing, poignant, and occasionally hysterical journey through premature motherhood, from the starting point of "leaking a little protein" to the early delivery of her tiny daughter because of severe preeclampsia and the beginning of a new chapter of frightful, lifelong love. Half a million babies are born prematurely in the United States every year—almost one every minute—each with a unique story, and Hopper eloquently gives a voice to what their parents share: the shock, the scares, the lonely nights in the neonatal intensive care unit, the fierce attention to detail that makes for sanity and craziness, the light of faith, the warmth of family, and the terrifying attachment. Through it all runs the power of words to connect us to one another, as Hopper draws on her gifts as a writer first to help her navigate this uncertain territory and then to tell her story. With candor, grace, and a healthy dose of humor, she takes us into the final weeks of her pregnancy, the this-was-not-part-of-the-plan first weeks of little Stella's life, and the isolated world she and her husband inhabited when they took their daughter home at the onset of a cold Minnesota winter. Finally, frankly, Hopper ventures into the complicated question of whether to have another child. Down-to-earth and honest about the hard realities of having a baby, as well as the true joys, *Ready for Air* is a testament to the strength of motherhood—and stories—to transform lives.

Scholars are however likely to meet with some criticism of Khilafat and these have been masterly classified into five categories by Maulana Sheikh Mubarak Ahmad, the former Missionary in Charge of the Ahmadiyya Muslim Mission in East Africa. In his speech delivered at the Annual Ahmadiyya Muslim gathering of 1976 held in Rabwah, Pakistan, the Maulana gave a rationale of these objections and I feel greatly pleased to write this foreword to its English rendering by Mr. Kabir Ahmad Bhatti

The 5 Unanswered Questions cuts through the official accounts and political "spin" to the questions that lie at the heart of this American tragedy.

In this provocative examination of collective identity in Jordan, Linda Layne challenges long-held Western assumptions that Arabs belong to easily recognizable corporate social groups. Who is a "true" Jordanian? Who is a "true" Bedouin? These questions, according to Layne, are examples of a kind of pigeonholing that has distorted the reality of Jordanian national politics. In developing an alternate

approach, she shows that the fluid social identities of Jordan emerge from an ongoing dialogue among tribespeople, members of the intelligentsia Hashemite rulers, and Western social scientists. Many commentators on social identity in the Middle East limit their studies to the village level, but Layne's goal is to discover how the identity-building processes of the locality and of the nation condition each other. She finds that the tribes create their own cultural "homes" through a dialogue with official nationalist rhetoric and Jordanian urbanites, while King Hussein, in turn, maintains the idea of the "homeland" in many ways that are powerfully influenced by the tribespeople. The identities so formed resemble the shifting, irregular shapes of postmodernist landscapes—but Hussein and the Jordanian people are also beginning to use a classically modernist linear narrative to describe themselves. Layne maintains, however, that even with this change Jordanian identities will remain resistant to all-or-nothing descriptions. Linda L. Layne is Alma and H. What happens to our pop culture when it meets another culture head-on—especially one that, according to some, is completely at odds with our own? In *The Sheikh's Batmobile*, pop culture commentator Richard Poplak sets out on an unusual two-year odyssey. His mission is to see what becomes of his and America's obsessions—pop songs and sitcoms, Hollywood movies and shoot-'em-up video games, muscle cars and punk music—when they make their way into the Muslim world. Over the course of

his journey, Poplak gets body-slammed by WWE fans in Afghanistan, hangs out with hip-hop artists in Palestine, headbangs to heavy metal in Cairo, discovers a world of extreme makeovers in Beirut, bowls with the chief of police in small-town Kazakhstan, and encounters a mysterious Texan who builds rocket-propelled Batmobiles for a clientele of sheikhs. With uproarious humor and keen cultural insight, Poplak asks some vital questions: How is American pop culture consumed and reinterpreted in the Islamic world? What does that say about how we are viewed by young Muslims? And can Homer Simpson bridge the divisions that are tearing our world apart?

### Al-Anbar Awakening

This book magnifies only one instance of Iran's geopolitical role in the Persian Gulf in the interim period between the British withdrawal of forces from, and the American arrival in that region. Two centuries of Pax-Britannica was the period of territorial organization of the region, which resulted in the creation of a number of small states or emirates defining territories and boundaries for which caused huge territorial complications with the older states of the region. Pax-Britannica was removed at the end of 1971 without settling these difficult issues. Yet, immediately after their departure from the Persian Gulf, Iran began the initiative of settling territorial differences among the littoral states. Negotiations for the delimitation of maritime boundaries in the Persian Gulf which started in 1968 with Saudi Arabia continued with each and every Arab state of the region and by the mid-1970s all maritime boundaries of Iran with her Arab neighbours were settled, including legal settlement of the issue of the islands extensively examined in this book. In 1975, the age-old Iran-Iraq territorial and boundary disputes were settled in Shatt al Arab, and in the same year Iran's initiative of settling territorial disputes went beyond the region of the Persian Gulf and the Shah quelled the fire of separatist movements in Dhufar of Oman as well as intervening in Egyptian Israeli disputes and settle their differences over the Sinai Peninsula. Israeli author, Samuel Segev admits in his 1981 publications on Israeli secret relations in the Middle East that "The Shah was the originator of the idea to mediate between Anwar Sadat and Golda Meir." Another instance of the Iranian endeavour to safeguard Arab territorial integrity was Iran's undertaking in eradication of threats to Oman's territorial integrity in the early 1970s. Within three years Iranian soldiers defended with their lives Oman's territorial integrity in Dhufar Province in the face of a fierce communist separatist movement that British forces could not eradicate in twelve years.

### Quarterly Statement

Emily Baker is in a heap of trouble. Her beloved horse farm is struggling financially, and she's just found out her late father sold her favorite horse to a sheikh from a country she's never heard of. The buyer, Zaman Abdul-Rahman is sexy as all get-out, the sort of man who makes a fling with a sheikh seem like a good idea. But Emily isn't looking for romance, and certainly not with the overbearing alpha male who shows up to take away her beloved and pregnant horse, Riah. Emily refuses to let him until Zaman makes her a generous offer: he's taking Riah, but he'll also buy another horse and bring Emily to Qadir for six months to train it for an important race. Despite her hesitation, Emily knows the influx of cash will be enough to save the farm. Before she knows it, she's traveling to the tiny kingdom and being seduced, not only by this beautiful foreign land but by Zaman, who's just too gorgeous to resist. Zaman isn't the sort of man to fall for a woman, especially one with such a fierce streak of independence. But he can't help being wildly attracted to the beautiful American, and he secretly admires her strength and intelligence. Emily will only be in Qadir for six months, so what's the problem with giving into their searing passion for a short fling? After all, he's an expert at not growing too attached to anyone. This time, though, things are different. Emily is different. Maddeningly hard-headed. Thoroughly lovely. And...pregnant with his child. At the news, Zaman's world shifts dramatically. His protective instincts kick into high gear—and end up pushing Emily away. It soon becomes clear, though, that the only race he wants to win is the one for Emily's heart...

#### Nunt în cer

"Here finally are Eliade's memoirs of the first thirty years of his life in Mac Linscott Rickett's crisp and lucid English translation. They present a fascinating account of the early development of a Renaissance talent, expressed in everything from daily and periodical journalism, realistic and fantastic fiction, and general nonfiction works to distinguished contributions to the history of religions. Autobiography follows an apparently amazingly candid report of this remarkable man's progression from a mischievous street urchin and literary prodigy, through his various love affairs, a decisive and traumatic Indian sojourn, and active, brilliant participation in pre-World War II Romanian cultural life."—Seymour Cain, *Religious Studies Review*

#### Changing Religious Worlds

Examines the concept of play in Western thought, with special emphasis on the relationship between aesthetics and ethics, and envisions literary discourse as contributing to an alternative mentality based on peace rather than power.

#### The Portugal Journal

Provides a coherent and defensible interpretation of Eliade's thought which allows less familiar readers to approach Eliade with a greater clarity and precision. Foreword by Mac Linscott Ricketts, a leading translator of Eliade's writings.

### Reversul istoriei. Eseu despre opera lui Mircea Eliade

Journal IV is the first publication, in a translation from the Romanian manuscript, of the journal that Mircea Eliade kept during the last seven years of his life. In this period, Eliade is ensconced as a famous scholar—his works are being translated into many languages and books about him arrive regularly in the mail. His encounters with scholars of like repute are recorded in the journal; after a party in Paris, Eliade shares a taxi with Claude Lévi-Strauss and inadvertently makes off with his raincoat. Running like a fault line through the peak of his success, however, is Eliade's painful awareness of his physical decline—failing vision, arthritic hands, and continual fatigue. Again and again he repeats how little time he has to finish the projects he is working on—his autobiography, the third and fourth volumes of his History of Religious Ideas, and the duties associated with his editorship of the Encyclopedia of Religion. He poignantly recounts the sharpest blow: the disorganization and eventual destruction by fire of his personal library. Within the scope of Journal IV Eliade and his world go to ruin. What does not decline is the vivid and persistent voice of Eliade the writer, an unbreaking voice that—with death only months away—plans a reply to critics, plots out an article, and ruminates on characters to people another novella.

### Imagination and Meaning

Religia a creat un paienjenis in care cu greu se mai disting contururile clare ale Evangheliei lui Hristos. Evanghelia pe care o propovăduim, adesea, nu se deosebeste cu nimic de basmul popular, in care omenirea ar putea fi asemanata cu frumoasa și - cel puțin aparent - nevinovata Ileana Cosanzeana, care, din nefericire, a căzut in mainile balaurului și a fost ferecată in castelul acestuia, după ziduri cu neputința de trecut și după zăbrele cu neputința de smuls. într-o astfel de Evanghelie, Fat-Frumosul din poveste este însuși Fiul lui Dumnezeu, care a venit să-și elibereze Mireasa din ghearele capcaunului, pentru ca apoi să Se căsătorească cu ea. Poate ne va surprinde faptul, dar, atunci când este vorba despre mântuire, nu Diavolul este problema noastră cea mai mare, ci Dumnezeu însuși. Pavel începe prezentarea Evangheliei lui Hristos cu această solemnă afirmație: "Mania lui Dumnezeu - nu mania Diavolului - se descoperă din cer împotriva oricărei necinstiri a lui Dumnezeu și împotriva oricărei nelegiuiri a oamenilor, care inaduse adevărul în neleguirea lor" (Rom. 1:18). Iată de ce, doar puterea lui Dumnezeu ne mai poate mântui. Or, această putere a lui Dumnezeu pentru mântuirea fiecăruia care crede este însăși Evanghelia lui Hristos. Dar oare care este Evanghelia lui Hristos? Unde începe? Unde se termină? Ce conține ea? Ce înseamnă a propovădui o Evanghelie curată și completă? În contextul tulburat în care ne aflăm, Epistola către Romani este o binevenită provocare de a redescoperi contururile clare ale Evangheliei, în lumina rădăcinilor ei vechi-testamentale.

## Nuntî în cer

Describes the Romanian period in the intellectual life of Mircea Eliade (1907-1986). Analyzes his involvement in Romania's social and political debates in the 1930s, and his changing attitudes toward fascism and antisemitism. Relates the influence exercised on Eliade by Nae Ionescu, after 1933 a strong supporter of the fascist Iron Guard. Pp. 727-741 present Ionescu's antisemitic preface to the 1934 novel by the Romanian Jewish writer Mihail Sebastian, "De doua mii de ani" ("For Two Thousand Years"), a literary depiction of the condition of a Jewish intellectual confronting antisemitism in Romania. Ionescu's preface, justifying antisemitism with theological arguments, provoked a passionate controversy in the Romanian and Jewish press. In his articles, Eliade contested some of Ionescu's arguments, but absolved him from charges of antisemitism. Discusses, also, on pp. 903-929, Eliade's xenophobic and pro-Iron Guard articles published in 1936-37, claiming, however, that he did not share the Guard's antisemitism.

## Nozze in cielo

Three novellas set in Romania. In "The Cape," a saboteur prints phony copies of the Romanian party organ, *Scinteia*, antedating them by three years. The secret police, highly agitated, deduce that a worldwide peace organization is sending coded messages through the paper, derived from the beatitudes. In "Youth Without Youth," an old man is struck by a bolt of lightning and becomes young again. Now endowed with a fantastic memory and comprehension, he receives "thought" messages from the supernatural. "Nineteen Roses" concerns the secretary of a famous writer who finds himself reliving an experience that happened to his employer 30 years ago. The writer disappears and is presumed dead, but is he?

## Romanian Books

Ionescu has compiled over 2,000 biographies of personalities with impact on Romania's scientific, literary, political, and social history. He includes updated information on areas that were previously censored: royalties, politicians, military leaders, and people in diaspora; he also provides an objective perspective on the Communist activists and leaders of the recent past.

## Didactica limbii i literaturii române

The *Facts On File Companion to the World Novel : 1900 to the Present* is a new two-volume reference guide featuring more than 600 entries on the world's greatest modern novels and novelists, including everything from acknowledged.

## Climatological Data for the United States by Sections

The *Dictionary of Modern American Philosophers* includes both academic and non-academic philosophers, and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields, before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings,

and suggestions for further reading. While all the major post-Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

Two persons from different backgrounds coming together in marriage can be challenging but if you are both able to talk to each other about your expectations these challenges can be navigated to produce a successful marriage. It is Veronica's firm belief that mistakes of other persons should be used to direct learning and that prevention is better than cure. "A Happy Marriage Takes Two" helps you both to begin the conversations that will set you on a path to your ideal marriage. You are guided through a number of activities which help you to shape the marriage you both desire. The activities address the major causes of divorce.

### It Takes One to Tango

With a focus on self-empowerment and resilience, this refreshing and witty relationship guide has a reassuring counterintuitive message for unhappy spouses: you only need one partner to initiate far-reaching positive change in a marriage. Conventional wisdom says that "it takes two" to turn a troubled marriage around and that both partners must have a shared commitment to change. So when couples can't agree on how—or whether—to make their marriage better, many give up or settle for a less-than-satisfying marriage (or think the only way out is divorce). Fortunately, there is an alternative. "What distinguishes Reilly's book is that she says a warring couple don't have to agree on the goal of staying together; it takes one person changing, not both, to make a marriage work" (The New York Times). Marriage and family therapist Winifred Reilly has this message for struggling partners: Take the lead. Doing so is effective—and powerful. Through Reilly's own story of reclaiming her now nearly forty-year marriage, along with anecdotes from many clients she's worked with, you'll learn how to:

- Focus on your own behaviors and change them in ways that make you feel good about yourself and your marriage
- Take a firm stand for what truly matters to you without arguing, cajoling, or resorting to threats
- Identify the "big picture" issues at the basis of your repetitive fights—and learn how to unhook from them
- Be less reactive, especially in the face of your spouse's provocations
- Develop the strength and stamina to be the sole agent of change

### How to Be a Good Wife and Keep Your Husband Happy

There's no question as to the importance of a man keeping his wife happy (AKA the "happy wife = happy life" (theory), but let's not forget that in marriage, it takes two to tango. We are only one half of the equation, and the person we married is the other half: our husbands. And in order to have a happy marriage, both sides of the equation need to be balanced. Oddly enough, in many cases of broken marriages, wives reported to have been taken completely by surprise. They never even suspected their husband to be unhappy until the day he asked for a divorce. It's important that you try to stay in tune with your husband's emotional wellbeing so as to avoid such a scenario. Taking care of our marriage is not merely about keeping our husbands happy, but it's also about keeping our family intact. When marriages are broken, children are also affected. This is yet another reason to keep your husband's happiness on your radar, and make sure you treat him as a priority. Of course being a good wife requires a lot of effort, especially the type of effort you must exert, for example, to hold your tongue or to change your way of thinking. But once you persevere and you begin to feel the positive changes take place in your marriage, chances are you will feel even more invigorated and energized than you've ever felt before. This book is for all the strong women out there who are willing to take the necessary steps for the betterment of their marriage and family, knowing that it may not always be easy. If you apply the principles divulged in this book, I guarantee that you will love being married again, and that your husband will feel like a very lucky man. Let's get started!

Spanning thirty years, this achingly honest story is about what it means for two people to spend a lifetime together -- and what makes a happy marriage. Yglesias's career as a novelist began in 1970 when he wrote an autobiographical novel at sixteen, hailed by critics for its stunning and revelatory depiction of adolescence. Bold, elegiac, and emotionally suspenseful, even though we know what happens, Yglesias's beautiful novel will break every reader's heart -- while encouraging all of us with its clear-eyed evocation of the enduring value of marriage.

### The Happy Marriage Mantra

They say two heads are better than one - but who are the great dynamic duos of history? In It Takes Two, Cathy Newman rewrites the history books to give a vibrant, feminist account of the extraordinary

moments when two people have paired up to innovate, explore, create and change the world. From married couples to sisters, rivals to unlikely friends, Newman tells stories reaching back to medieval history and out to all corners of the world. How did the queer women Katherine Harris Bradley and her niece Edith Emma Cooper dream up and share the literary pseudonym 'Michael Field' so that their writing could be published? How did Amelia Earhart and George 'Mr Earhart' Putnam forge a true marriage of equals and adventure? How did a pair of amateur astronomers in nineteenth century Tulse Hill, London, come together to prove the universe was expanding? Introducing the unacknowledged movers-and-shakers of the past alongside the real stories behind household names, Newman gives a triumphant and unexpected history both of the untold power of collaboration and of the frustrating way that that one half of the duo is often excluded the narrative.

## Best Advice on Starting a Happy Marriage

"One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. *A Love You Can Trust* shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. *A Love You Can Trust* guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

*Secrets of a Happy Marriage* says exactly what the title means: a marriage that is happy, and a marriage made in heaven. With divorce so rampant today, it is rare to find happily married couples with 50 years of love. The book begins with the six Greek words that define love. It moves to Joye's story in Jamaica, then Joe's story in beautiful Jamaica, then their marriage story in New York. Stories of the children at Harvard and Cornell Universities are also included. The adventures of Joe and Joye are highlighted as they travel to London, Scotland, Rome, South Africa. They topped off their travels with a cruise on the Queen Elizabeth, the world's most glamorous ship. The heart of the book focuses on one verse of scripture: "Husbands, love your wives just as Christ also loved the church and gave Himself for her" Eph.5:25. Joe's response to that command is "How can I, a sinful man, love my wife as Christ loved the church? That is a question that sincere men ask themselves. The answer you are seeking is in this book.

#### Marriage Takes More Than Love

When it first appeared in 1995, The Good Marriage became a best-seller. It offers timeless clues to the secret of happy, long-lasting marriages. Based on a groundbreaking study of fifty couples who consider themselves happily married, psychologist Judith Wallerstein presents the four basic types of marriage

— romantic, rescue, companionate, and traditional — and identifies nine developmental tasks that must be successfully undertaken in a “good marriage” — separation from the family of origin, up-and-down vicissitudes of early years, children, balance of work and home, dealing with infidelities, and more. The men and women Wallerstein interviewed readily admit that even the best relationship requires hard work and continuing negotiation, especially in the midst of societal pressures that can tear marriages apart. But they also convey an inspirational message, for almost all of them feel that their marriage is their single greatest accomplishment. The Good Marriage explains why, and its lively mix of storytelling and analysis will challenge every couple to think in a profoundly different way about the most important relationship in their lives. “Should be required reading for all who are interested in marriage.” — W. Walter Menninger “Should prove a lifesaver for many couples.” — Publishers Weekly “Will enrich the sparse literature on happy marriages.” — USA Today “One of the nice things about The Good Marriage is its modesty. It doesn’t pretend to offer a philosophy or even a lecture on marriage. It takes no position on the ideologically charged issues of women’s marital roles and status. Equally important, it ignores the two most common ways of talking about marriage — as a contract negotiated between two equal parties and as the pathway to individual fulfillment. For this reason it is refreshingly free of ‘rights’ talk and therapy talk. Indeed, Wallerstein places much more emphasis on the development of good judgment and a moral sense than on the acquisition of effective communication or negotiation skills.” — Barbara Dafoe Whitehead, The Atlantic “A lagniappe to enduring couplehood... The strength of this study is that Ms. Wallerstein, a gifted interviewer, persuades the couples to reveal their interior lives in rich, explicit detail.” — Susan Jacoby, The New York Times Book Review “Written in a masterful style that often reads like the best popular fiction... Wallerstein and Blakeslee again combine their substantial talents... deftly and entertainingly exploring the foundations of good marriages.” — Tara Aronson, San Francisco Examiner & Chronicle “Groundbreaking.” — Boston Globe “This is a wonderfully readable and immensely valuable book, full of wise and original insights about the many, many roads to marital happiness.” — Judith Viorst “With wisdom, humor, and sympathetic understanding, Judith Wallerstein helps us recognize and rediscover the good marriage... lucid, psychologically sophisticated, and generously wise.” — David Blankenhorn, Newsday “Historically informative as well as profoundly wise psychologically.” — Joan M. Erikson “For a long time, as a Rabbi, I’ve been using The Good Marriage, by the late Judith Wallerstein... in my pre-marital counseling. She provides... amazingly helpful insights [which] open up conversations and lead couples to think much more deeply about what they are getting themselves into — and what they might need to do to keep their marriages strong.” — Rabbi Carl M. Perkins “A welcome addition to the field of literature on contemporary marriage... The style [is] clear, concise, sensitive and, occasionally, personal. Her personal additions... add warmth, emotional consciousness, and greater insight into what makes individuals and couples happy in their relationships. This book has value for the many audiences interested in relational theory that want to approach relationships from a realistic and positive perspective.” — Nancy Williford, Clinical Social Work Journal “In The Good Marriage, Wallerstein’s new study of 50 married couples offers affirmation that the process of marriage itself presents a vehicle for transformation... A best-selling author, Wallerstein employs a thoughtful, nonaggressive style that appeals to the general public. Wallerstein has performed an invaluable service in The Good Marriage.” — Elizabeth M. Tully, M.D., Journal of Academy of Child and Adolescent Psychiatry “Solid... impressive... Those interested in social policy should be pleased that so well-respected a liberal academic as Ms. Wallerstein has written a book that celebrates marriage and points the way toward restructuring it.” — Wall Street Journal “With extraordinary skill and compassion Wallerstein and Blakeslee take us inside the lives of fifty American couples and find that a good marriage still provides the best framework for enduring love and intimacy.” — Sylvia Ann Hewlett “A very appealing book... clearly written and clearly thought out.” — Library Journal “Wallerstein’s major contribution is not about how and why love lasts, but about how and why love develops. It is in such a context, less idyllic, but more realistic, that the book will prove to be a lasting contribution.” — Readings: A Journal of Reviews and Commentary in Mental Health

For years, William Gouge's *Domestical Duties* has stood as the foremost Puritan treatment of Christian family life. Yet due to its size and antiquated expression, it has become almost unknown among current generations of believers. To help revive the usefulness of this classic book, Scott Brown and Joel R. Beeke divided Gouge's work into three manageable volumes, updated the language to modern standards, and have given it the title *Building a Godly Home*. In the second volume, *A Holy Vision for a Happy Marriage*, we find detailed counsel about the most important relationship in the family—husband and wife. Gouge carefully addresses what a fit marriage is and the proper way to enter into one. He then discusses the mutual duties married couples share in order for marriage to survive and thrive, as well as the duties specific to men and women respectively. Not only does he give detailed treatment of how these responsibilities are best expressed and too often hindered, but he also provides ample biblical motivation to set us on the right course. Christian husbands and wives will find much encouragement in this book.

### Building a Godly Home, Vol. 2

What effect does religion have on physical and mental health? In answering this question, this book reviews and discusses research on the relationship between religion and a variety of mental and physical health outcomes, including depression and anxiety; heart disease, stroke, and cancer; and health related behaviors such as smoking and substance abuse. The authors examine the positive and negative effects of religion on health throughout the life span, from childhood to old age. Based on their findings, they build theoretical models illustrating the behavioral, psychological, social, and physiological pathways through which religion may influence health. The authors also review research on the impact of religious affiliation, belief, and practice on the use of health services and compliance with medical treatment. In conclusion, they discuss the clinical relevance of their findings and make recommendations for future research priorities. Offering the first comprehensive examination of its

topic, this volume is an indispensable resource for research scientists, health professionals, public policy makers, and anyone interested in the relationship between religion and health.

### How to Have a Happy Marriage

Let's face it, men: We may not all think of ourselves as leaders, but we each want to be the kind of man people admire . . . strong, confident, and courageous. A man whose life really makes an impact; a man who is secure in himself and who takes good care of the people he loves. But a lot of us secretly don't believe we have what it takes to lead. If this sounds familiar, and you feel like you're holding back from the best life has to offer, best-selling author Bill Peel has good news: God has created and equipped you with specific gifts that will help you fulfill the plans He has for you as a man—and as a leader. In *What God Does When Men Lead*, Bill will show you how to discover your true power and potential, resulting in a richer family dynamic, a more rewarding work environment, a transformed church—in short, a deeper and more satisfying life than you've ever imagined.

### Happy Marriages and Strong Families

"Ben Jelloun is arguably Morocco's greatest living author, whose impressive body of work combines intellect and imagination in magical fusion." —The Guardian In *The Happy Marriage*, the internationally acclaimed Moroccan author Tahar Ben Jelloun tells the story of one couple—first from the husband's point of view, then from the wife's—just as legal reforms are about to change women's rights forever. The husband, a painter in Casablanca, has been paralyzed by a stroke at the very height of his career and becomes convinced that his marriage is the sole reason for his decline. Walled up within his illness and desperate to break free of a deeply destructive relationship, he finds escape in writing a secret book about his hellish marriage. When his wife finds it, she responds point by point with her own version of the facts, offering her own striking and incisive reinterpretation of their story. Who is right and who is wrong? A thorny issue in a society where marriage remains a sacrosanct institution, but where there's also a growing awareness of women's rights. And in their absorbing struggle, both sides of this modern marriage find out they may not be so enlightened after all.
