The History of the Church

Written by Eusebius, the bishop of Caesarea, "The History of the Church" is the pioneering 4th century work which details the chronological history of early Christianity from the time of Christ to Constantine. This monumental work of Christian history stands apart from other contemporary histories as the first full-length record of early Christianity from a Christian point of view. A fierce advocate for the Christian religion, Eusebius lived in Caesarea Maritima, a coastal city in modern day Israel, prior to and during the rule of Constantine. At the time of Eusebius' life his hometown had become a center of Christian learning, through the work of Christian theologian Origen, and his follower Pamphilus, Eusebius' own teacher. This made Eusebius an ideal candidate to make a record of Christianity's crucial first three hundred years. While sometimes criticized as biased and inaccurate "The History of the Church" nevertheless provides an indispensable perspective upon the foundations of the Christian church and religion. This edition is printed on premium acid-free paper and follows the translation of Arthur Cushman McGiffert.

A History of the Church in England

This authoritative account of the Church in England covers its history from earliest times to the late twentieth century. Includes chapters on the Roman, Celtic, Anglo-Saxon, Norman, and Medieval periods before a description of the Reformation and its effects, the Stuart period, and the Industrial Age, with a final chapter on the modern church through 1972.

The Church in History

A standard survey of the history of the Christian church from A.D. 33 to modern times, The Church in History by B. K. Kuiper has long been the textbook of choice for many secondary schools and Bible institutes, having sold well over 150,000 copies since first published more than a half century ago. Detailed and fact-filled yet balanced and readable, this volume offers a panoramic view of the church's growth worldwide throughout the past 2,000 years, including a comprehensive section on the church in the United States and Canada. With close to 300 photographs, maps, and timelines throughout and thought-provoking study questions at the end of each chapter, The Church in History is an excellent introductory resource for students or for anyone wanting to better understand the history of the church.

History of the Christian Church

Examines the early Christian community, Gnosticism, the Catholic Church, the influence of the Roman Empire, the Crusades, the Reformation, and modern Christianity.

The History of the Church from Christ to Constantine

An absorbing survey of the history of the Christian church from A.D. 33 to the present, including a comprehensive section on the church in the United States and Canada. An ideal text for secondary schools and Bible institutes.

An Introduction to the History of the Church of England

Church History, Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation. Looking closely at the integral link between the history of the world and that of the church, Church History paints a portrait of God's people within its setting of times, cultures, and events that both influenced and were influenced by the church. **FEATURES:** Maps, charts, and illustrations spanning the time from the first through the thirteenth centuries. Overviews of the Roman, Greek, and Jewish worlds and how they developed or declined. Insights into the church's relationship to the Roman Empire, with glimpses into pagan attitudes toward Christians. Explanations of the role of art, architecture, literature, and philosophy—both sacred and secular—in the Church. Details on the major theological controversies of the periods. Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church, even to the present day, as part of the greater narrative of the Bible. **AUTHOR'S PERSPECTIVE:** Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known. It's a human story of a divinely called people who wanted to live by a divine revelation. It's a story of how they succeeded and how they failed or fell short of their calling. From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther, the historical figures detailed are people who have struggled with the meaning of the greatest event in history—the coming of the Son of God—and with their role in that event and in the lives of God's people.

The Church in History

A comprehensive history of the Catholic Church from its beginnings in Jesus' ministry to its current status in an increasingly secular world.

The History of the Church of England, in the Colonies and Foreign Dependencies of the British Empire

Hardcover reprint of the original 1840 edition - beautifully bound in brown cloth covers featuring titles stamped in gold, 8vo - 6x9. No adjustments have been made to the original text, giving readers the full antiquarian experience. For quality purposes, all text and images are printed as black and white. This item is printed on demand. Book Information: Short, Thomas Vowler. a Sketch of The History of The Church of England To The Revolution, 1688. Indiana: Repressed Publishing LLC, 2012. Original Publishing: Short, Thomas Vowler. a Sketch of The History of The Church of England To The Revolution, 1688, . London: J.W. Parker, 1840. Subject: Church of England

Church History, Volume One: From Christ to the Pre-Reformation

This fascinating introduction to early Christianity sets it in the broader context of the political, social, & economic developments in the wider world. Direct quotations from primary sources accompany the narrative.

History of the Catholic Church

Church History, Volume Two chronicles the events, the triumphs, and the struggles of the Christian movement from the years leading up to the Reformation through the next five centuries to the present-day. Looking closely at the integral link between the history of the world and that of the church, Church History paints a portrait of God's people within the context of the times, cultures, and developments that both influenced and were influenced by the church. FEATURES: Maps, charts, and illustrations spanning the time from the thirteenth century to today. Explanations of all the major denominational movements, traditions, and schisms during and after the Reformation. Overviews of the Christian movement in Africa, eastern Europe, Asia, and Latin America to cover the scope of the ecumenical environment of the twenty-first century. Insights into the role and influence of politics, culture and societal norms, and technology on the Western church. Unbiased details on the major theological controversies and issues of each period. AUTHORS' PERSPECTIVE: Authors John D. Woodbridge and Frank A. James III wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known—as imperfect as it still is. It's a human story of a divinely called people who want to live by a divine revelation. It's a story of how they succeeded and how they failed and of how they are still trying to live out their calling. From the Reformation theologians in Europe to the revivalists, apologists, and Christian thinkers all over the world, the historical figures detailed are people who have struggled with the meaning of the greatest event in history—the coming of the Son of God—and with their role in that event and in the lives of God's people.

A Sketch of the History of the Church of England to the Revolution 1688

This is the SCM Core Text: "Modern Church History" provides an introduction to global Christianity from 1700 to the mid 20th C. The book aims to help students understand the processes, movements and individuals who have contributed to making the contemporary Christian landscape the shape it is in the 21st century. Theologically it takes a wide and inclusive approach to provide a balanced survey of Christianity in all its forms - Protestant, Catholic and Orthodox. Geographically it focuses on the Christian church in the UK, continental Europe and North America, and examines in each location the social movements, campaigns and campaigners, scientific and political challenges that have shaped the Christian Church throughout the period. Beginning with the reaction to Lutherism, it charts the rise of Pietism in Europe throughout the late 17th and early 18th centuries, the influence of John Wesley and the Methodists, in the UK and the 'Great Awakening' in North America. The early chapters summarize the developments within the Christian Church in the UK, with detailed coverage of the English, Scottish, Welsh and Northern Irish situations, throughout the 19th Century. This is followed by a summary of the various schools of thought to have developed through the 20th C, including the church's reaction to the 2 world wars in Europe, fundamentalism in the USA. The book also provides specific coverage of the religious situation in North America throughout the modern period covering the development of separate black churches, the 'New Evangelicalism'. It is suitable for level two as well as introductory

courses in modern church history or courses concerned with religion, culture and society in the 18th - 20th centuries

How to Read Church History: From the beginnings to the fifteenth century

Originally published: 1st ed. c2001, in series: The Didache series.

Church History, Volume Two: From Pre-Reformation to the Present Day

Allan Doig explores the Christian Church through the lens of twelve particular churches, looking at their history, archaeology, and how the buildings changed over time in response to developing usage and beliefs.

Modern Church History

The book retraces the history of the Church of England from the Henrician schism (1533–34) to the present day, and focuses on the complex relations between the Church and the State which, in the case of an established Church, are of paramount importance. Theological questions, and in particular the conflicting influences of Catholicism and Protestantism, in its various forms, are also examined. The religious settlement engineered by Elizabeth I and her advisers in the 16th century saved England from the atrocities of religious war. However, the countless theological battles and party feuds which have punctuated the history of the Church suggest that the Elizabethan settlement was not entirely successful. The Church of England today is a “broad Church”, hosting within its fold a wide range of traditions and beliefs. The coexistence between liberals and conservatives and, to a lesser extent, between Anglo-Catholics and Evangelicals, remains uneasy and the unity of the Church is fragile. The Church of England, whose increasingly vague doctrine and multifaceted liturgy can be baffling, is furthermore confronted with other pressing challenges, such as the rapidly growing secularization of British society and the issue of disestablishment, which are seriously undermining its role and influence as a national Church.

The History of the Christian Religion and Church During the Three First Centuries

The History of the Church through its Buildings takes the reader to meet people who lived through momentous religious changes in the very spaces where the story of the Church took shape. Buildings are about people, the people who conceived, designed, financed, and used them. Their stories become embedded in the very fabric itself, and as the fabric is changed through time in response to changing use, relationships, and beliefs, the architecture becomes the standing history of passing waves of humanity. This process takes on special significance in churches, where the arrangement of the space places members of the community in relationship with one another for the performance of the church's rites and ceremonies. Moreover, architectural forms and building materials can be used to establish relationships with other buildings in other places and other times. Coordinated systems of signs, symbols, and images proclaim beliefs and doctrine, and in a wider sense carry extended narratives of the people and their faith. Looking at the history of the church through its buildings allows us to establish a tangible connection to the lives of the people involved in some of the key moments and movements that shaped that history, and perhaps even a degree of intimacy with them. Standing in the same place where the worshippers of the past preached and taught, or in a space they built as a memorial, touching the stone they placed, or marking their final resting-place, holding a keepsake they treasured or seeing a relic they venerated, probably comes as close to a shared experience with these people as it is possible to come. Perhaps for a fleeting moment at such times their faces may come more clearly into focus...

The History of the Church

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

A History of the Church Through Its Buildings

Twenty Centuries of Catholic Christianity, John C. Dwyer. A history of the church from its beginnings to the present that reflects on successes and failures over the years.

A Short History of the Church of England

The text is intended to be helpful to a student with no history background. The book is divided into two parts. The first deals with theoretical issues such as the need for church history, how you write about God as a cause of events, and objectivity in historical research. The second is more practical in nature, and deals with the types and use of sources, documentation, and types of historical research. The appendices provide helpful information on terms, how to use church history in a local church, and how to write a local church history. --from publisher description

A History of the Church through its Buildings

Church history books must choose either brevity or thoroughness. A History of the Church does an excellent job combining both. Although it has been used as a college textbook, it also has been used successfully in local churches and personal study of church history as well.

A History of the Christian Church (1918)

Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Church History

This book provides a comprehensive history of the Christian church, from its earliest days up until the present. It is specifically intended for use by members of the clergy, but is accessible to anyone interested in the topic. Birkhaeuser covers a wide range of topics, including the origins of the church, the influence of various leaders and theologians, and the major events that have shaped the history of Christianity. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Doing Church History

Saints, Vol. 2: No Unhallowed Hand covers Church history from 1846 through 1893. Volume 2 narrates the Saints' expulsion from Nauvoo, their challenges in gathering to the western United States and their efforts to settle Utah's Wasatch Front. The second volume concludes with the dedication of the Salt Lake Temple.

A History of the Church

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

Leading Events in the History of the Church

Late nineteenth century historical work from a Professor of Ecclesiastical History, concerning the history of the Christian Church.

History of the Church, From Its First Establishment to Our Own Times. Designed for the Use of Eccles

Church History offers a unique contextual view of how the Christian church spread and developed. It did so, not in a vacuum, but in a setting of times, cultures, and events that both influenced and were influenced by the church. Church History looks closely at the integral link between the history of the world and that of the church. Volume One explores the development of the church from the days of Jesus to the years prior to the Reformation. Filled with maps, charts, and illustrations, it offers overviews of the Roman, Greek, and Jewish worlds; insights into the church's relationship to the Roman Empire, with glimpses into pagan attitudes toward Christians; the place of art and architecture, literature and philosophy, both sacred and secular; and much more, spanning the time from the first through the thirteenth centuries.

History of the Church in Africa

Bengt Sundkler's long-awaited book on African Christian churches will become the standard reference for the subject.

Materials for the History of the Church of Lancaster

This unique approach to understanding the history of the Anglican and Episcopal Churches was originally part of the 1979 Church's Teaching Series. Rather than writing a simple chronological history of the Church, John Booty, one of the premier experts in church history, explores the subject thematically. Booty addresses four major areas: ? the Church and its essential nature ? how a weak and faltering Church can be renewed and reformed ? how Christ, culture, church, and state relate to one another ? the Church's historical and current understanding of its mission Throughout, Booty concentrates not only on the history itself, but how that history relates to today's Church. Excellent for course work, or for lay study. John Booty taught Church History at Virginia Seminary and the Episcopal Theological School. He was also professor of Anglican Studies at The University of the South, where he served as Dean of the School of Theology. He currently resides in Center Sandwich, New Hampshire.

Saints: The Story of the Church of Jesus Christ in the Latter Days: Volume 2

In this fascinating survey, F. Donald Logan introduces the reader to the Christian church, from the conversion of the Celtic and Germanic peoples through to the discovery of the New World.

A Guide to the Study of Church History (1908)

The History of the Negro Church is a book by Carter Godwin Woodson. It presents a thorough summation of the birth of Christianity in the African-American community in the USA.

Die evangelischen Kirchenstellen in Württemberg

Württembergische Vierteljahrshefte für Landesgeschichte und Statistisches Handbuch für das Königreich Württemberg form special sections of the publication for the periods 1878-1890/91, and 1885-1900, respectively.

Das bestehende Recht der evangelischen Kirche im Königreiche Württemberg

Das Thema "Kirchliche Organisation" stellte sich bereits im Zusammenhang mit einer Intensivbefragung von evangelischen Pfarrern VOI' allem der württembergischen Landeskirche über "Berufsbild und Berufs wirklichkeit\

Das bestehende Recht der evangelischen Kirche im Königreiche Württemberg

English summary: Andreas Weiss does the first comparative study of the ecclesiastical laws of the Free Churches in Germany. In the course of this study he does a systematic review of the ecclesiastical law of the Evangelical-Lutheran Church in Wurttemberg, the Association of Mennonite Churches in Germany, the Union of Evangelical Free Churches (Baptists) in Germany and the United Methodist Church in Germany. German description: Andreas Weiss unternimmt einen ersten rechtsvergleichenden Vorstoss auf dem Gebiet des Kirchenrechts evangelischer Freikirchen in Deutschland. Damit einhergehend erforscht er das Kirchenrecht der Evangelischen Landeskirche in Wurttemberg (als landeskirchliches Vergleichsobjekt), der Arbeitsgemeinschaft Mennonitischer Gemeinden in Deutschland, des Bundes Evangelisch-Freikirchlicher Gemeinden in Deutschland und der Evangelisch-methodistischen Kirche und bereitet dieses systematisch auf. Der Autor behandelt Grundlagen, Mitgliedschaft und Mitarbeiter-schaft, Ordnung von Gottesdienst und Amtshandlungen, Einrichtungen und Werke, Finanzen, Zusammen-schlüsse sowie Rechtsetzung, Rechtsdurchsetzung und Rechtsschutz dieser Kirchen. Dabei vergleicht er die kirchenrechtlichen Institute auf der Mikroebene miteinander. Von dieser Grundlage ausgehend fuhr er abschliessend eine Makrovergleichung durch und zieht ein Fazit im Bezug auf das freikirchliche Recht.
