## Humankind

THE SUNDAY TIMES AND NEW YORK TIMES BESTSELLER A Guardian, Daily Telegraph, New Statesman and Daily Express Book of the Year 'Hugely, highly and happily recommended' Stephen Fry 'You should read Humankind. You'll learn a lot (I did) and you'll have good reason to feel better about the human race' Tim Harford 'The book we need right now' Daily Telegraph 'Made me see humanity from a fresh perspective' Yuval Noah Harari It's a belief that unites the left and right, psychologists and philosophers, writers and historians. It drives the headlines that surround us and the laws that touch our lives. From Machiavelli to Hobbes, Freud to Dawkins, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed by self-interest. Humankind makes a new argument: that it is realistic, as well as revolutionary, to assume that people are good. The instinct to cooperate rather than compete, trust rather than distrust, has an evolutionary basis going right back to the beginning of Homo sapiens. By thinking the worst of others, we bring out the worst in our politics and economics too. In this major book, internationally bestselling author Rutger Bregman takes some of the world's most famous studies and events and reframes them, providing a new perspective on the last 200,000 years of human history. From the real-life Lord of the Flies to the Blitz, a Siberian fox farm to an infamous New York murder, Stanley Milgram's Yale shock machine to the Stanford prison experiment, Bregman shows how believing in human kindness and altruism can be a new way to think – and act as the foundation for achieving true change in our society. It is time for a new view of human nature.

## The Pearl Sister

CeCe D'Aplièse has never felt she fitted in anywhere. Following the death of her father, the elusive billionaire Pa Salt - so-called by the six daughters he adopted from around the globe and named after the Seven Sisters star cluster - she finds herself at breaking point. Dropping out of art college, CeCe watches as Star, her beloved sister, distances herself to follow her new love, leaving her completely alone. In desperation, she decides to flee England and discover her past; the only clues she has are a black-and-white photograph and the name of a woman pioneer who lived in Australia over one hundred years ago. En-route to Sydney, CeCe heads to the one place she has ever felt close to being herself: the stunning beaches of Krabi, Thailand. Perfect for fans of the Nevermoor and His Dark Materials series. Ember St. George is a dragon. At least she was before her adoptive father—a powerful but accident-prone Magician—turned her into a human girl to save her life. The solution: ship Ember off to her aunt's research station in frigid Antarctica. Though eccentric Aunt Myra takes getting used to, Ember quickly feels at home in a land of ice storms, mischievous penguins, and twenty-four-hour nights. She even finds herself making friends with a girl genius called Nisha and a mysterious orphan named Moss. Then she discovers that Antarctica is home to the Winterglass Hunt, a yearly tradition in which rare ice dragons are hunted for their jeweled scales. Furious, Ember decides to join the hunt to sabotage it from the inside. But being an undercover dragon isn't easy—especially among dragon hunters. Can a twelve-year-old fire dragon survive the dangers that come her way in the Antarctic wilderness and protect the ice dragons from extinction?

## Regulating Unfair Banking Practices in Europe

Private persons often stand surety for a business debt incurred by family members, friends, or employers. These suretyships are commonly banking guarantees contracted by means of standard terms. Sometimes the guarantor signs the contract while he/she is not aware of the financial risk related to the guarantee. He or she may not even know what a suretyship is. But in other circumstances the guarantor may be well aware of the risk, but may nonetheless assume it because of strong emotional ties which exist between him/her and the main debtor. How, then, (if at all) does the law address the potential for 'unfairness' in such situations? Some systems choose to rely on objective criteria, such as identification of a manifest disproportion between the guaranteed amount and the surety's income and assets, while others are more open to subjective inquiry. The key point is variation. Different jurisdictions in Europe operate different models with different priorities. This book provides a comparative overview of the remedies against unfair obligations of non-professional guarantors available in 22 EU Member States, based on a questionnaire which has been completed by an expert in each particular jurisdiction and covering both legal rules and the economic context of different credit markets and banking practices.

## Mindfulness-Based Compassionate Living

Mindfulness involves learning to be more aware of life as it unfolds moment by moment, even if these moments bring us difficulty, pain or suffering. This is a challenge we will all face at some time in our lives, and which health professionals face every day in their work. The Mindfulness-Based Compassionate Living programme presents a new way of learning how to face the pressures of modern living by providing an antidote which teaches us how to cultivate kindness and compassion – starting with being kind to ourselves. Compassion involves both sensitivity to our own and others' suffering and the courage to deal with it. Integrating the work of experts in the field such as Paul Gilbert, Kristin Neff, Christopher Germer and Tara Brach, Erik van den Brink and Frits Koster have established an eight stage step-by-step compassion training programme, supported by practical exercises and free audio downloads, which builds on basic mindfulness skills. Grounded in ancient wisdom and modern science, they demonstrate how being compassionate shapes our minds and brains, and benefits our health and relationships. The programme will be helpful to many, including people with various types of chronic or recurring mental health problems, and can be an effective means of coping better with low self-esteem, self-reproach or shame, enabling participants to experience more warmth, safeness, acceptance and connection with themselves and others. Mindfulness-Based Compassionate Living will be an invaluable manual for mindfulness teachers, therapists and counsellors wishing to bring the 'care' back into healthcare, both for their clients and themselves. It can also be used as a self-help guide for personal practice.

He has a big future shaping the future' Observer 'A more politically radical Malcolm Gladwell' New York Times 'The Dutch wunderkind of new ideas' Guardian In Utopia for Realists, Rutger Bregman shows that we can construct a society with visionary ideas that are, in fact, wholly implementable. Every milestone of civilisation – from the end of slavery to the beginning of democracy – was once considered a utopian fantasy. New utopian ideas such as universal basic income and a fifteen-hour work week can become reality in our lifetime. From a Canadian city that once completely eradicated poverty, to Richard Nixon's near implementation of a basic income for millions of Americans, Bregman takes us on a journey through history, beyond the traditional left-right divides, as he introduces ideas whose time has come.

The Cut is a Brexit novel. The story offers a fictional response to a complex issue. It is also a plot-driven page-turner by one of the most exciting novelists in the country. Cairo Jukes, a boxer from Dudley, supports himself on zero-hour contracts. He has grown up among the canals – or the cuts – that web the Black Country like the open veins of an old industrial order. Then he meets Grace, a successful documentary film maker from London. The Cut will not put you at ease. It describes a relationship built on misunderstandings, intolerance and guilt – one where each side desires something that the other cannot give. 'Writing The Cut made me understand that we live in a country where we see prejudice in others but not in ourselves. This is a lesson that I, and my two characters Cairo and Grace, have tried to learn, with varying levels of success. It is a hard lesson for us all.' Anthony Cartwright: Why Peirene chose to commission this book: 'The result of the EU referendum shocked me. I realized that I had been living in one part of a divided country. What fears – and what hopes – drove my fellow citizens to vote for Brexit? I commissioned Anthony Cartwright to build a fictional bridge between the Britains that opposed each other on referendum day.' Meike Ziervogel, publisher at Peirene Press Praise for Anthony Cartwright: 'A writer with a wonderful ear ... and an unblinking sense of Britain as it is today. Anthony Cartwright's patient, attentive storytelling shines a glowing light on areas of our common experience that the English novel usually consigns to darkness.' Jonathan Coe 'A compelling protest against simple answers that lingers in the mind long after the final page.' Wyl Menmuir 'A bittersweet elegy to Britain's battered working classes.' Metro

'Challenging and disturbing, The Melting is an incredibly cruel fable about friendship and adolescence . . . Spit knows no fear. It is we, the readers, that are left trembling.' - Leïla Slimani, author of Lullaby Eva

can trace the route to Pim's farm with her eyes closed, even though she has not been to Bovenmeer for many years. There she grew up among the rape fields and dairy farms. There lies also the root of all their grief. Eva was one of three children born in her small Flemish town in 1988. Growing up alongside the boys Laurens and Pim, Eva sought refuge from her loveless family life in the company of her two friends. But with adolescence came a growing awareness of their burgeoning sexuality. Driven by their newly found desires, the children begin a game that will have serious and violent consequences for them all. Thirteen years after the summer she's tried for so long to forget, Eva is returning to her village. Everything fell apart that summer, but this time she'll be prepared. She has a large block of ice in her car boot and she's ready to settle the score . . . Part thriller, part coming-of-age novel, *The Melting* is an extraordinary and unsettling debut from Lize Spit, a reckoning with adolescent cruelty and the scars it leaves.

The new branch of science which will reveal how to avoid the rush hour, overcome cancer, and find the perfect date What do traffic jams, stock market crashes, and wars have in common? They are all explained using complexity, an unsolved puzzle that many researchers believe is the key to predicting - and ultimately solving - everything from terrorist attacks and pandemic viruses right down to rush hour traffic congestion. Complexity is considered by many to be the single most important scientific development since general relativity and promises to make sense of no less than the very heart of the Universe. Using it, scientists can find order emerging from seemingly random interactions of all kinds, from something as simple as flipping coins through to more challenging problems such as predicting shopping habits, the patterns in modern jazz, and the growth of cancer tumours.

### Sway

Beginning in the early years of this century, *Number 11* follows two friends, Alison and Rachel, as they come of age. As the narrative progresses from the aftermath of the Iraq War to the present day, its scope broadens to include others who are variously connected to these two girls: Alison's mother, a has-been singer, competes on a grisly reality TV show; Rachel's university mentor finally confronts her late husband's obsessive search for a German film he saw as a child; a young police constable investigates the seemingly unrelated deaths of two stand-up comedians; and a giant spider lurks in the darkness beneath one of London's most staggeringly expensive neighborhoods. Combining his signature humor, psychological insight and social commentary, Jonathan Coe holds up a disquieting, unforgiving mirror in which to reflect a world where the systems are broken and everyone can—and perhaps must—name his or her own price.

### Number 11

WINNER OF THE 2015 ENGLISH PEN AWARD LONGLISTED FOR THE 2017 INTERNATIONAL DUBLIN LITERARY AWARD LONGLISTED FOR THE 2015 GREGOR VON REZZORI AWARD A border town on the steppe. A small group of emaciated and feral refugees appears out of nowhere, spreading fear and panic in the town. When police commissioner Pontus Beg orders their arrest, evidence of a murder is found in their luggage. As he begins to unravel the history of their hellish journey, it becomes increasingly intertwined with the search for his own origins that he has embarked upon. Now he becomes the group's inquisitor ... and, finally, something like their saviour. Beg's likeability

as a character and his dry-eyed musings considering the nature of religion keep the reader pinned to the page from the start. At the same time, the apocalyptic atmosphere of the group's exodus across the steppes becomes increasingly vivid and laden with meaning as the novel proceeds, in seeming synchronicity with the development of Beg's character. With a rare blend of humour and wisdom, Tommy Wieringa links man's dark nature with the question of who we are and whether redemption is possible. PRAISE FOR TOMMY WIERINGA 'Quietly compelling ... Simply but intriguingly told.' The Sun Herald 'Poetic, ambitious ... The pricelessness of our common humanity is one of numerous heavyweight ideas Wieringa balances carefully on his novel's laden back ... Short, freighted words and sentences carry the novel's ambiguous, questing symbolism.' The Guardian

### A Practical Guide to Mindfulness-Based Compassionate Living

This book proposes a new approach to mindfulness-based interventions, presenting them not as individual, but as relational practices. In the last decades, mindfulness has exerted a growing influence on many fields of research and activity, but always as an individual practice. The authors in this volume believe that the strong development of mindfulness today implies considering a dialogue between this individualistic approach and the perspective of relational mindfulness based on social constructionism. The volume is organized in two parts. The first part focuses on the theoretical foundations of relational mindfulness. The second part presents possibilities of applications of relational mindfulness in clinical and organizational settings to promote mental health and personal development. Relational Mindfulness: Fundamentals and Applications will be of interest to a wide range of professionals interested in applying mindfulness-based interventions in mental health care and productive organizations, such as clinical and health psychologists, public health professionals and human resources analysts and consultants, among others. "It is true that the metaphor of mindfulness has been enormously fruitful in its invitation to innovate. By removing meditative practices from their ancient roots, practitioners were free to create practices especially relevant to context. (...) At the same time, there was also a recognizable loss in the profoundly rich heritage that was left behind. For many of us, the greatest loss resulted from the absorption of such practices into Western individualism. What had once been an orientation to practice emphasizing our fundamental inter-being, had become a gateway to silent separation. It is in this context that the present volume bursts into significance. With special appreciation to the editors of this book, we are treated to a multi-dimensional exploration into the relational dimensions of mindfulness practices. Bringing ideas, experience, and wisdom from across professions, and across continents the contributors open an exciting path to the future." - Excerpt from the Foreword by Kenneth J. Gergen

### These Are the Names

According to current thinking, anyone who fails to succeed must have something wrong with them. The pressure to achieve and be happy is taking a heavy toll, resulting in a warped view of the self, disorientation, and despair. People are lonelier than ever before. Today's pay-for-performance mentality is turning institutions such as schools, universities, and hospitals into businesses, while individuals are being made to think of themselves as one-person enterprises. Love is increasingly hard to find, and we struggle to lead meaningful lives. In *What about Me?*, Paul Verhaeghe's main concern is how social change has led to this psychic crisis and altered the way we think about ourselves. He investigates the effects of thirty years' acceptance of neo-liberalism, free-market forces, and privatisation, and the resulting relationship between our engineered society and individual identity. It turns out that who we are is, as always, determined by the context in which we live. From his clinical experience as a psychotherapist, Verhaeghe shows the profound impact that social change is having on mental health, even to the extent of affecting the nature of the disorders from which we suffer. But his book ends on a note of cautious optimism. We can once again become masters of our fate — if we accept the challenge.
