In Search of British Heroes

In search of British Heroes is the story of a quest; a journey into history and across contemporary Britain to discover the truth about five legendary figures. Boudica, Macbeth, King Harold, William Wallace better known as Braveheart and Robin Hood come to us as a mixture of fact and fiction. They are larger-than-life. Their lives and sometimes tragic deaths symbolise something greater than themselves. From the Roman invasion to the Age of Chivalry, they mark milestones in British history and the British Character. Tony Robinson sets out on a journey across the country to retrace the stories of the real people behind these legends, to find out where they lived, loved and fought. In going behind the official story, he not only uncovers even more remarkable facts about some of the greatest Britons who ever lived, but also shows them to be truly local heroes: legends who lived on our doorsteps, who have left their mark not only in the annals but beneath our factories, fields and schools. These heroes belong to a shared heritage and this is a shared journey. Maps and directions enable readers to make the quest with Tony as he burns away the mist of time to reveal the flesh-and-blood characters behind the ghosts

that still haunt every corner of our country and culture. In Search of British Heroes accompanies the television series Fact or Fiction produced by Spire Films for Channel 4.

Marvel Heroes Annual 2007

Fanner Marston was raised a slave as a child, became a petty street thief as a teen, and now masters his own craft and crew as a grown man. He's also gone completely mad. Driven by privation, with a vicious greed and slaving lust for power, Marston alone of forty men has survived the perilous trek through a blistering desert to the magical city of Parva, where legend says a secret awaits which will give him absolute control over the Universe. However, Marston finds the key to all power is not at all what he expected. . . .

The Great Secret (Stories from the Golden Age) (English and English Edition)

This book, written by a team of experts from many countries, provides a comprehensive account of the ways in which translation has brought the major literature of the world into English-speaking culture. Part I discusses theoretical issues and gives an overview of the history of translation into English. Part II, the bulk of the work, arranged by language of origin, offers critical discussions, with bibliographies, of the translation history of specific texts (e.g. the Koran, the Kalevala), authors (e.g. Lucretius, Dostoevsky), genres (e.g. Chinese poetry, twentieth-century Italian prose) and national literatures (e.g. Hungarian, Afrikaans).

The Rise of French Rugby

Superman uses his superpowers to rescue a train, a sinking yacht, and a burning building.

The Oxford Guide to Literature in English Translation

Having just been in a gilded cage, Flynn suddenly finds himself caught between an authoritarian regime and a rebel front. At first clearly on the side of the rebels, he soon has to decide between being human and being a human... "Bad Heroes" is set in the future. 2050 is far away and yet so close. Join Flynn now on his first and perhaps last journey to South America!

Superman to the Rescue!

In a nation still recovering from the nuclear tragedies of forty years earlier, Clyde is working a dead-end guaranteed job at a diner, and Moonis is incarcerated in a Labor Camp for the Malcontented. But when Moonis's sister, Cecily, goes missing, the old friends escape their prisons to search for her in post-fallout America. Moonis and Clyde follow Cecily's trail until it leads them into the atomic-ravaged heart of the Midwest, an outlaw territory of dark legends and darker truths where Cecily is being held captive by a brutal gang lord. But along with menace and death, this poisoned wasteland contains the possibility of a freedom beyond imagination--if only Moonis and Clyde, and the misfits who join their quest, can find the heroism to grab hold of it.

Bad Heroes

Peter Yearwood reconsiders the League of Nations, not as an attempt to realize an idea but as an element in the day-to-day conduct of Britain's foreign policy and domestic politics during the period 1914-25. He challenges the usual view that London reluctantly adopted the idea in response to pressure from Woodrow Wilson and from domestic public opinion, and that it was particularly wary of ideas of collective security. Instead he examines how London actively promoted the idea to manage Anglo-American relations in war and to provide the context for an enduring hegemonic partnership. The book breaks new ground in examining how London tried to use the League in the crises of the early 1920s: Armenia, Persia, Vilna, Upper Silesia, Albania, and Corfu. It shows how in the negotiations leading to the Draft Treaty of Mutual Assistance, the Geneva Protocol, and the Locarno accords, Robert Cecil, Ramsay MacDonald, and Austen Chamberlain tried to solve the Franco-German security question through the League. This involves a re-examination of how these leaders tried to use the League as an issue in British domestic politics and why it emerged as central to British foreign policy. Based on extensive, detailed archival research, this book provides a new and authoritative account of a largely misunderstood topic.

Guaranteed Heroes

Soldier Heroes explores the imagining of masculinities within adventure stories. Drawing on literary theory, cultural materialism and Kleinian psychoanalysis, it analyses modern British adventure heroes as historical forms of masculinity originating in the era of nineteenth-century popular imperialism, traces their subsequent transformations and examines the way these identities are internalized and lived by men and boys.

Guarantee of Peace

English Translation and Classical Reception is the first genuine cross-disciplinary study bringing English literary history to bear on questions about the reception of classical literary texts, and vice versa. The text draws on the author's exhaustive knowledge of the subject from the early Renaissance to the present. The first book-length study of English translation as a topic in classical reception Draws on the author's exhaustive knowledge of English literary translation from the early Renaissance to the present Argues for a remapping of English literary history which would take proper account of the currently neglected history of classical translation, from Chaucer to the present Offers a widely ranging chronological analysis of English translation from ancient literatures Previously little-known, unknown, and sometimes suppressed translated texts are recovered from manuscripts and explored in terms of their implications for English literary history and for the interpretation of classical literature

Soldier Heroes

This book is not a novel. It is perhaps one of the most challenging approaches that have been made in recent years on the sensitive subject of torture, as it is centered on the personal testimonies of actual torture victims as they were recorded by an antitorture doctor and a journalist who also is the author of this book. The book is an attempt to present both the current and timeless dimensions of torture across the world by recording testimonies of victims from the Middle East, Asia, North Africa, Europe, as well as North and South America. The issues of impunity, the transfer of torture methods, the legal framework and the international treaties, asylum, the war against terrorism, and the violation of human rights are only some of the issues that this book is attempting to present through testimonies and the recording of current affairs. From Afghanistan to Guantanamo Bay and from Iraq to the United States, the book is following step-by-step the events through testimonies, official records, and news reports, revealing that way the complete and true picture of human rights worldwide. For more information on the author and his work on human rights, please visit: <http://www.torturesurvivors.com/>

English Translation and Classical Reception

Ben: Do you ever worry you'll die without having left a mark? Tom: What about when you won that 3 a.m. break-dancing battle with the overweight Australian girl? Ben: It's not enough. I want to go down in history. Tom: You're called Ben Dirs. You will. Finely-tuned triathlete Tom Fordyce and hopeless smoker Ben Dirs have made a living blogging for the BBC about the triumphs and tribulations of sport at its highest level – but they will never be World Champions themselves. Well, unless they can find some really pointless sporting challenges... From the gripping slow-motion drama of the World Sauna Championships to the Cotswold Olympicks, in which 'competitors, wearing boots, attempt to kick each other,' We Could Be Heroes is a collection of brilliantly funny gonzo despatches from the frontline of sport. If you can race Ben Fogle up a Yorkshire hillside carrying a sack of coal, or kick the shin out of Rory McGrath, you could be the Champion of the World – and what's more, you'll have very, very sore shins, my son.

Shadows of Heroes

Marvel's powerful super women have never had a problem making a stand, and that sure is the case with this sensational collection of heroic standees! With nine sturdy pages filled with die-cut characters, you can assemble your own mighty A-Force! Whether your favorite is Captain Marvel, Ms. Marvel, Squirrel Girl, Hellcat, Gamora, Medusa, Silk or Spider-Woman (Jessica or Gwen), we've got you covered -and they're joined by plenty more of Marvel's most fantastic females, all depicted by some of the most talented artists in the Bullpen! Whether for play or display, your Women of Power standees are just waiting to be freed from the page. So make like She-Hulk, and get punching!

We Could Be Heroes

This book provides an in-depth review of machine translation by discussing in detail a particular method, called compositional translation, and a particular system, Rosetta, which is based on this method. The Rosetta project is a unique combination of fundamental research and large-scale implementation. The book covers all scientifically interesting results of the project, highlighting the advantages of designing a translation system based on a relation between reversible compositional grammars. The power of the method is illustrated by presenting elegant solutions to a number of well-known translation problems. The most outstanding characteristic of the book is that it provides a firm linguistic foundation for machine translation. For this purpose insights from Montague Grammar are integrated with ideas developed within the Chomskyan tradition, in a computationally feasible framework. Great care has been taken to introduce the basic concepts of the underlying disciplines to the uninitiated reader, which makes the book accessible to a wide audience, including linguists, computer scientists, logicians and translators.

Heroes of Power: The Women of Marvel

Francis is a World War II hero - or so everyone believes. Only Francis knows that the act of heroism that destroyed his face was a suicide attempt. Francis has one purpose in his life - to kill Larry La salle, the charismatic youth leader who raped Francis' girlfriend years before.

Journal of Education and School World

Hi - I'm Max, and I'm adopted. You may not know this but many famous and inspirational people were adopted too. Adopted Like Me introduces you to great musicians like Bo Diddley, politicians like Nelson Mandela, and stars like Marilyn Monroe. Meet these along with inventors, athletes, and a princess skilled in judo and fencing - all of them adopted like me. Read about these adoptees and you'll see that you can grow up to be just about anything you want to be! Fully illustrated in color, this book is for children aged 8+ who have been adopted, their parents, teachers and siblings.

Newman's revised Essay on the Development of Doctrine provides the starting point for this new and comprehensive survey, in which Peter Hinchliff discusses the ideas of wide range of theologians from the full spectrum of Christianity--from Roman Catholics through to theologians from the Churches of England and Scotland, and the Free Church--and their attempts to tackle these questions in the period leading up to the Great War.

Soldier Heroes

The crisis of distribution is one of the longest standing and most complicated issues facing human society. Imbued with social, political, historic, and cultural elements, it varies significantly across different countries as a result of all these factors. As an emerging economy which transferred from a planned to a market economy, China has experienced large distribution gaps since it implemented the Reform and Opening-up Policy in the early 1980s, requiring stronger economic law to mitigate and regulate the crisis of distribution. In this second volume, the author analyses crises of distribution from a theoretical perspective and proposes law and policy solutions. Believing that such crises are a collective result of systematic limitations, the author proposes a theoretical framework of "system–distribution–development" in order to resolve distribution problems and promote economic development. He argues that a crisis of distribution cannot be avoided without coordinated development of economic law and relevant constitutional, civil, and commercial law systems. In addition, it is necessary to differentiate the territories, industries, enterprises, and individuals that constitute such diverse systems. The book should be of keen interest to researchers and students of law, economics, and political science.

The Marvel Super Heroes Guide Book

Meet Sadio Mané - Ultimate Football Hero Sadio Mané is one of Liverpool FC's 'Fab Four'. Along with Mo Salah, Roberto Firmino and Xherdan Shakiri, Sadio's goals have helped make Liverpool the deadliest attacking team in the Premier League. Since he moved to the Premier League, Sadio has been setting the bar to new heights - from scoring the fastest hat-trick in history to becoming the most expensive African footballer ever. There is no stopping the Fab Four, and the sky is the limit for Sadio Mané. Ultimate Football Heroes is a series of biographies telling the life-stories of the biggest and best footballers in the world and their incredible journeys from childhood fan to super-star professional player. Written in fast-paced, action-packed style these books are perfect for all the family to collect and share.

The series A TEXTBOOK OF SOCIAL SCIENCES is a set of three books for Classes 6 to 8. It is aligned with National Education Policy, 2020 and is in accordance with National Curriculum Framework (NCF). Each book in the series is supported with Online Support, Teacher's Resource Book and E-book for teachers. Each book in the series is divided into three sections - History, Geography & Social and Political Life. Our attempt, in this series, is to capture the interest and arouse genuine curiosity in the learners through presentation of facts and concepts in a simple and lucid style, infused with numerous original illustrations and photographs. Utmost care has been taken to encapsulate in the series the key parameters laid down in National Education Policy (NEP) 2020. The NEP places the learner at the heart of the teaching-learning process. In recent years, there has been a paradigm shift towards designing a learner-centric curriculum that is based on an activity-based approach. There is also an equal emphasis on equipping young learners with essential twenty-first-century skills. The text as well as the exercises in the book promote the holistic development of the learners. Besides, there is a lot of emphasis on enhancing the creativity, critical thinking, and communication and collaboration skills of learners. Salient Features of the Course Books : • Learner-centred with a comprehensive approach • The content is written in a learner-friendly language. • Captivating photographs, illustrations and Maps • Know More gives interesting information related to the subject matter. • Key Terms give difficult words and their meanings. • Exercises includes various types of subjective and objective questions as well. These includes Assertion-Reason type questions, Case-Study based questions, Problem-Solving Skills based questions and questions based on Art integration. • Activities & Projects encourage student to explore wider horizons of knowledge. • Model Test Papers are included for the half-yearly and yearly examinations for practice. Salient Features of Online Support : • Animated Lessons to make the concepts crystal clear. • Interactive exercises to help students recall and recapitulate the main points. • eBooks for teachers. Salient Features of Teacher's Resource Books : • Plan to Achieve the Learning Objectives has been provided to guide the teachers in effective teaching. • Overview of the Lesson has been provided to help teachers easily recapitulate the finer points of the lesson. • Complete Answer Key of the course book. We hope the series A TEXTBOOK OF SOCIAL SCIENCES finds favour with teachers and students. Suggestions for improvement are welcome from teachers, students and other readers of the books. -Author

The Spirit of the English Magazines

The crisis of distribution is one of the longest standing and most complicated issues facing human society. Imbued with social, political, historic, and cultural elements, it varies significantly across different countries as a result of all these factors. As an emerging economy which transferred from a planned to a market economy, China has experienced large distribution gaps since it implemented the Reform and Opening-up Policy in the early 1980s, requiring stronger economic law to mitigate and regulate the crisis of distribution. In this two-volume set, the author analyzes distribution crises from a theoretical perspective and proposes law and policy solutions. In this first volume, he discusses the four main concepts and focus points of the crisis of distribution – distribution itself, the crises it faces, the rule of law, and development. Concentrating on the major distribution problems China faces in particular, the author proposes regulatory methods which can be used to overcome the distribution dilemma, such as tools from policy and economic law, and reiterates the significance of theory building in resolving the issues. The book should be of keen interest to researchers and students of law, economics, and political science.

The North British Review

Lacemaker Vivienne Rivard never imagined her craft could threaten her life. Yet in revolutionary France, it is a death sentence when the nobility, and those associated with them, are forced to the guillotine. Vivienne flees to Philadelphia but finds the same dangers lurking in the French Quarter, as revolutionary sympathizers threaten the life of a young boy left in her care, who some suspect to be the Dauphin. Can the French settlement, Azilum, offer permanent refuge? Militiaman Liam Delaney proudly served in the American Revolution, but now that the new government has imposed an oppressive tax that impacts his family, he barely recognizes the democracy he fought for. He wants only to cultivate the land of his hard-won farm near Azilum, but soon finds himself drawn into the escalating tension of the Whiskey Rebellion. When he meets a beautiful young Frenchwoman recently arrived from Paris, they will be drawn together in surprising ways to fight for the peace and safety for which they long.

Adopted Like Me

When Brendan Gallagher wrote a feature on the Telegraph's sports pages about his favorite sporting comic heroes, the response from readers was unprecedented: hundreds of e-mails from nostalgic readers. Now he has turned his research and enthusiasm into a unique celebration of these prodigious characters. He devotes separate chapters to the three greatest heroes: Wilson of the Wizard; Alf Tupper, the "Tough of the Track;" and Roy of the Rovers. Then he covers the best of the rest, including men like Skid Solo, Johnny Cougar, and Raven on the Wing. He also tells the story of the remarkable Gilbert Dalton, author of the Wilson stories, a writing machine who wrote millions of words in his lifetime and whose productivity put Dickens to shame, and has talked to the BBC's Stewart Storey for a modern (and entirely serious) analysis of some of Wilson's most amazing feats (like a three-minute mile). Here, then, are such truly extraordinary feats as bowling out Australia twice in a day with 120mph deliveries in a 1953 Ashes Test, a professional soccer player still playing in the top flight at the age of around 75, not to mention running 20 miles cross-country in two hours to warn the Duke of Wellington of Napoleon's advance.

God and History

After busy days flying around the world, chasing villains, and keeping people safe, DC's beloved super heroes need to go to sleep. Super heroes in training will definitely relate to this charming bedtime book. Like the other bestselling DC Super Heroes board books (*ABC 123*, *Colors and Shapes*, *Opposites*, *Busy Bodies*, *My First Book of Super Villains*, and *My First Book of Girl Power*), *Even Super Heroes Sleep* uses DC's classic art to illustrate fan favorite characters getting ready to re-charge. Batman knows his brain works best after he's gotten a good night's sleep (*Goodnight Gotham City!*). Green Lantern needs his Power Battery, and Superman's super-strength fizzles out at the end of the day.

Budding super heroes will appreciate that they, too need a good night's sleep if they're going to grow big and strong...

Mane (Ultimate Football Heroes) - Collect Them All!

This ambitious work is a multimedia, interdisciplinary study of Chinese modernity in the context of globalization from the late nineteenth century to the present. Sheldon Lu draws on Chinese literature, film, art, photography, and video to broadly map the emergence of modern China in relation to the capitalist world-system in the economic, social, and political realms. Central to his study is the investigation of biopower and body politics, namely, the experience of globalization on a personal level. Lu first outlines the trajectory of the body in modern Chinese literature by focusing on the adventures, pleasures, and sufferings of the male (and female) body in the writings of selected authors. He then turns to avant-garde and performance art, tackling the physical self more directly through a consideration of work that takes the body as its very theme, material, and medium. In an exploration of mass visual culture, Lu analyzes artistic reactions to the multiple, uneven effects of globalization and modernization on both the physical landscape of China and the interior psyche of its citizens. This is followed by an inquiry into contemporary Chinese urban space in popular cinema and experimental photography and art. Examples are offered that capture the daily lives of contemporary Chinese as they struggle to make the transition from the vanishing space of the socialist lifestyle to the new capitalist economy of commodities. Lu reexamines the history and implications of China's belated integration into the capitalist world system before closing with a postscript that traces the genealogy of the term "postsocialism" and points to the real relevance of the idea for the investigation of everyday life in China in the twenty-first century.
