Treatment Planning and ReAssessment to Enhance Mental Health - Treatment Planning and Re-Assessment to Enhance Mental Health by Doc Snipes 10,311 views 3 years ago 48 minutes - Treatment Planning, and ReAssessment to Enhance Mental Health with Dr. Dawn-Elise Snipes CEUs are available for this ...

Purpose To summarize the person's story Executive Summary for communication between providers To synthesize information to support the diagnosis and level of care Drive the treatment plan by identifying What the problems are as evidenced by How they are impacting the patient How we are attending to their physical, social

Parts of the IS & Reassessment A summary of the presenting problem and evidence of impairments The person's diagnosis and evidence Recommendations for treatment and defense using ASAM, LOCUS or CANS guidelines Current focus of treatment and how the person's current strengths and needs will be used

How is this impacting the person socially, emotionally, physically, occupationally? What is maintaining it? What strengths and supports are already there, and how can they be used? What level of care is recommended

Pitfalls In Writing Effective Plans & Reassessments Failing to use objective, measurable goals Not getting client feedback and buy.in

Purpose of Planning & Reassessment Planning Sets measurable et achievable targets Helps define the "whys" of interventions Increases efficacy through accomplishment Frequent Reassessment Identifies progress, hurdles and waning

Chapter 15: Treatment Planning

Treatment plans • Address the problems you have identified in the case conceptualization and clinical assessment. • Numerous good plans can be developed for any one

Theory-Based Treatment Plan Uses theory to create more clinically relevant treatment plans than the symptom model offers Limitations • Difficult to address diagnostic issues and clinical

Therapeutic Tasks Similar across theories The "training wheels" of the plan Typically not be included in plans you send to insurance companies or third-party payers •Formulaic One of the key places where therapists must adjust their approach to address diversity issues

Therapeutic Tasks Initial Phase Tasks 1. Establish a therapeutic relationship 2. Assess individual, family, and social dynamics 3. Develop treatment goals 4. identify needed referrals, crisis issues, etc. (case management) • Refer for medical/psychiatric evaluation • Connect with needed community resources • Rule out substance abuse, violence, and medical issues

Working Phase 1. Monitoring the working alliance 2. Monitoring client progress

Cite assessment, relationship building or intervention strategy from theory . Refer to specific client . Be specific about referrals, assessment instruments, etc.

Client Goals by Phase Initial Phase Client goals generally involve stabilizing crisis symptoms Working Phase Address the dynamics that create and/or sustain the symptoms and problems for which clients came to therapy "Goals that most interest third-party payers Closing Phase *Larger, more global issues that clients bring to therapy and/or move the client toward greater "health as defined by the therapist's theoretical perspective

Preparing to Write Goals • Complete case conceptualization and clinical assessment • Identify

themes (see goal writing worksheet) • Identify crises and presenting problems • Crises addressed in initial phase • Presenting problems in working phase • Identify long-term goals from your theory of choice • If applicable

GUIDELINES FOR WRITING INTERVENTIONS • Use specific interventions from chosen theory • Make interventions specific to client • Include exact language when possible

Considering the client's perspective is crucial to designing an effective plan. • Therapists should discuss the plan directly with clients • Ensure that there is a shared understanding about the goals, strategies for change, and outcomes. • Many agencies have moved to having clients sign the Faculty Introduction: Theory and Treatment Planning in Counseling and Psychotherapy - Faculty Introduction: Theory and Treatment Planning in Counseling and Psychotherapy by Diane R.
