How design authority leads to product safety liability - How design authority leads to product safety liability by Sofeast Ltd 47 views 2 years ago 42 minutes - IN THIS EPISODE... In this episode, 3 industry experts discuss who is **liable**, for **product safety**, issues, manufacturer or importer? Introduction.

When an American company, for example, works with a Chinese manufacturer to develop a new product, what do they expect the manufacturer to tell them?

Product liability laws in the US & EU.

How 'design authority' can be used to attribute liability.

Post-DFMEA liability.

Why letting your Chinese manufacturer 'help' develop a product could be a big mistake.

Compliance for medical devices/products.

Action items for companies who're designing a general consumer product to be manufactured in China.

Product safety. What do we need to consider?

Conclusion.

Wrapping up.

It is a process of managing the assets and liabilities of the credit union to meet the credit union's specific financial objectives while balancing risk with reward.

How we price our products is influenced by competitor rates.

Once the risk is known, the credit union must review the model reports to determine how the risk and the financial performance of the credit union is changing

The credit union must have a policy with risk limits and a system to identify and measure the risk.

The credit union will want to ensure that the process is working effectively through strong internal controls.
