Edogawa Ranpo (1894-1965) was a great admirer of Edgar Allan Poe and like Poe drew on his penchant for the grotesque and the bizarre to explore the boundaries of conventional thought. Best known as the founder of the modern Japanese detective novel, Ranpo wrote for a youthful audience, and a taste for playacting and theatre animates his stories. His writing is often associated with the era of *ero guro nansense* (erotic grotesque nonsense), which accompanied the rise of mass culture and mass media in urban Japan in the 1920s. Characterized by an almost lurid fascination with simulacra and illusion, the era's sensibility permeates Ranpo's first major work and one of his finest achievements, *Strange Tale of Panorama Island* (*Panoramato kidan*), published in 1926. Ranpo's panorama island is filled with cleverly designed optical illusions: a staircase rises into the sky; white feathered "birds" speak in women's voices and offer to serve as vehicles; clusters of naked men and women romp on slopes carpeted with rainbow-colored flowers. His fantastical utopia is filled with entrancing music and strange sweet odors, and nothing is ordinary, predictable, or boring. The novella reflected the new culture of mechanically produced simulated realities (movies, photographs, advertisements, stereoscopic and panoramic images) and focused on themes of the doppelganger and appropriated identities: its main character steals the identity of an acquaintance. The novella's utopian vision, argues translator Elaine Gerbert, mirrors the expansionist dreams that fed Japan's colonization of the Asian continent, its ending an eerie harbinger of the collapse of those dreams. Today just as a new generation of technologies is transforming the way we think—and becoming ever more invasive and pervasive—Ranpo's work is attracting a new generation of readers. In the past few decades his writing has inspired films, anime, plays, and manga, and many translations of his stories, essays, and novels have appeared, but to date no English-language translation of *Panoramato kidan* has been available. This volume, which includes a critical introduction and notes, fills that gap and uncovers for English-language readers an important new dimension of an ever stimulating, provocative talent.

There, in the presence of her inscrutable future husband, Ophelia slowly realizes that she is a pawn in a political game that will have far-reaching ramifications not only for her but for her entire world. The World of the Arks Long ago, following a cataclysm called the Rupture, the world was shattered into many floating celestial islands, now known as arks. The Magic Island

.0000000000Hans Christian Andersen was the profoundly imaginative writer and storyteller who revolutionized literature for children. He gave us the now standard versions of some traditional fairy tales - with an anarchic twist - but many of his most famous tales sprang directly from his imagination. The thirty stories here range from exuberant early works such as 'The Tinderbox' and 'The Emperor's New Clothes' through poignant masterpieces such as 'The Little Mermaid', 'The Little Match Girl' and 'The Ugly Duckling', to more subversive later tales such as 'The Ice Maiden' and 'The Dryad'. This is the classic translation by Jean Hersholt. Illustrated by various artists, with an Afterword by Ned Halley.

On a small island in a glacier-fed lake on Alaska's Kenai Peninsula, a marriage is unravelling. Gary, driven by thirty years of diverted plans, and Irene, haunted by a tragedy in her past, are trying to rebuild their life together. Following the outline of Gary's old dream, they're hauling logs out to Caribou Island in good weather and in terrible storms, in sickness and in health, to patch together the kind of cabin that drew them to Alaska in the first place. Across the water on the mainland, Irene and Gary's grown daughter, Rhoda is starting her own life. She fantasizes about the perfect wedding day, whilst her betrothed, Jim the dentist, wonders about the possibility of an altogether different future. From the author of the massively-acclaimed *Legend of a Suicide*, comes a devastating novel about a marriage, a couple blighted by past shadows and the weight of expectation, of themselves and of each other. Brilliantly drawn and fiercely honest in its depiction of love and disappointment, David Vann's first novel confirms him as one of America's most dazzling writers of fiction.

Rue is the only half-god, half-human there, where leaders protect their magical powers at all costs and thrive on human suffering. Miserable and desperate to see her sister on the anniversary of their mother's death, Rue breaks Ghizon's sacred Do Not Leave Law and returns to Houston, only to discover that Black kids are being forced into crime and violence. And her sister, Tasha, is in danger of falling sway to the very forces that claimed their mother's life. Worse still, evidence mounts that the evil plaguing East Row is the same one that lurks in Ghizon—an evil that will stop at nothing until it has stolen everything from her and everyone she loves. The Magic Island

Lloyd Jones' new novel is set mainly in a small village on Bougainville, a country torn apart by civil war. Matilda attends the school set up by Mr Watts, the only white man on the island. By his own admission he's not much of a teacher and proceeds to educate the children by reading them *Great Expectations*. Matilda falls in love with the novel, strongly identifying with Pip. The promise of the next chapter is what keeps her going; Pip's story protects her from the horror of what is happening around her - helicopters menacing the skies above the village and rebel raids on the ground. When the rebels visit the village searching for any remaining men to join their cause, they discover the name Pip written in the sand and instigate a search for him. When Pip can't be found the soldiers destroy the book. Mr Watts then encourages the children to retell the story from their memories. Then when the rebels invade the village, the teacher tells them a story which lasts seven nights, about a boy named Pip, and a convict . . .
