The Nineteenth-Century French Short Story

The 19th-Century French Short Story, by eminent scholar, Allan H. Pasco, seeks to offer a more comprehensive view of the definition, capabilities, and aims of short stories. The book examines general instances of the genre specifically in 19th-century France by recognizing their cultural context, demonstrating how close analysis of texts effectively communicates their artistry, and arguing for a distinction between middling and great short stories. Where previous studies have examined the writers of short stories individually, The 19th-Century French Short Story takes a broader lens to the subject, and looks at short story writers as they grapple with the artistic, ethical, and social concerns of their day. Making use of French short story masterpieces, with reinforcing comparisons to works from other traditions, this book offers the possibility of a more adequate appreciation of the under-valued short story genre.

My Uncle Jules and Other Stories/Mon oncle Jules et autres contes

Nineteenth-century French short stories were devoured by their readers with an insatiable appetite. A reading public that was itself expanding rapidly, as education and leisure opportunities grew, created an unprecedented demand for short fiction. Writers quickly responded to this; it was a lucrative market, and at the same time it offered the intrinsic artistic challenge of brevity. From Romanticism to Naturalism and beyond, novelists such as Balzac and Zola explored the potential of the short story as an alternative form to the novel in depicting modern life. The poetic intensity of 'contes fantastiques' in the manner of Poe's mysterious and cruel tales was championed by Baudelaire. Flaubert showed that short story fiction could be as serious as well as popular literary form. Specialists of the short story emerged, such as Mérimée and Maupassant.

From Balzac to Zola

When you want to read in both French and English, though, there's a great option: bilingual books! Reading bilingual books and inferring the vocabulary and grammar is a far superior method of language learning than traditional memorization. It is also much less painful. Short Stories by the Generation of 1898/Cuentos de la Generación de 1898

Henri RenE Albert Guy de Maupassant (1850 - 1893) was a popular 19th-century French writer, considered one of the fathers of the modern short story and arguably the world's best short story writer. Maupassant's stories are characterized by their clever plots, clear style and surprise endings. Many of the stories describe the futility of war and the innocent civilians who, caught in the conflict, emerge changed. But most of his stories deal with love, often focusing on themes of adultery and prostitution. No one was better than Maupassant at telling a really good story, and here is a collection of Guy de Maupassant's greatest tales all in one book.

Mexican Short Stories / Cuentos mexicanos

The 'Complete Works of Guy De Maupassant (A Bilingual Edition)' stands as a testament to the mastery of one of France's literary treasures. This compilation not only showcases Maupassant's keen eye for detail and narrative precision but also provides a bilingual avenue for readers to immerse themselves in his works as originally written. Organised with scholarly meticulousness, the collection incorporates a wide expanse of his oeuvre—from the darkest novellas to insightful travel sketches, illuminating the stylistic diversity and depth of his storytelling. This digital edition, with its reader-friendly formatting and the insightful introduction by Leo Tolstoy, offers a holistic approach to the richness of Maupassant's literary gifts, and situates him firmly within the pantheon of short story connoisseurs. Guy de Maupassant's legacy is closely entwined with the guidance of Gustave Flaubert, his mentor, whose influence is evident in Maupassant's commitment to the naturalist movement and the narrative brevity. His experiences as a soldier during the Franco-Prussian War and his bureaucratic career provided fertile ground for his fiction, which often delved into the complexities of social strata and the human psyche. The bilingual edition underscores the international acclaim of Maupassant's work and reflects his universal relevance, speaking to the timelessness of his themes and the universality of his insights into the human condition. This comprehensive collection is an indispensable addition for both scholars and enthusiasts of classic literature. It serves not only as a window into 19th-century French society but also as a bridge between language and culture, offering a unique opportunity to experience Maupassant's works in the original French with the convenience of English translation. The volume is an invitation to both connoisseurs of Maupassant and newcomers alike, encouraging a deeper appreciation of one of literature's most proficient storytellers whose narratives continue to resonate well beyond their time.

First Readings in French Literature

The short stories of the present collection represent the work of the French authors of the latter part of the nineteenth century and the early twentieth century. Most of the authors are well known. All the stories are new to most American readers and offer fresh interest. The stories are exceedingly varied as to subject matter and type. They provide an introduction to representative writers of the period and interesting material for students of French. -- From preface.

Hegel and Schelling in Early Nineteenth-Century France

French Tales is a collection of twenty-two translated stories associated with the twenty-two regions of France. The book, which includes both well-known and little-known writers, for example Prosper Mérimée in the nineteenth century and Anne-Marie Garat in the twenty-first, affords readers a panoramic view of French society and culture, reflecting, as it does, its variety and diversity from Brittany to Corsica. Writers include among others Maupassant, Zola, Annie Saumont, Marcel Aymé, Didier Daeninckx and Stéphane Mendonça. The subject-matter ranges from stories about marriage, the First World War and homelessness to house-buying, childhood and honour-killing. Following the model of *Paris Tales*, also translated by Helen Constantine, each story is illustrated with a striking photograph and there is a map indicating the position of the French regions. There is an introduction and notes to accompany the stories and a selection of Further Reading. The book will appeal to people who love travelling or are armchair travellers, as much as to those who love France and things French.

Great Italian Short Stories of the Twentieth Century / I grandi racconti italiani del Novecento: A Dual-Language Book

"From the fine old Italian tradition of narrative art come these two imaginative tales by the grand storyteller Stendhal. Vanina Vanini traces the fortunes of a Roman aristocrat's daughter who falls in love with a wounded soldier, and L'Abbesse de Castro recounts the illicit liaison and subsequent trial of an abbess. Both stories abound in the qualities for which the French author remains enduringly popular: his strong-willed, impulsive characters, his dry wit and keen irony, and the sweeping drama of his historical settings. The only dual-language edition of these stories, this volume features an informative introduction and ample footnotes."--Publisher.
