Eat food that's good for you. Good food helps your bones to grow. It makes you strong and it stops you getting sick.

Everyone needs food to live. It gives you energy to work and play. It also gives you nutrients to grow well and stay healthy. Do you eat a balanced diet with lots of different nutrients ?

Your body needs proteins to build muscles. Proteins are also important for healthy hair and fingernails. You can get lots of proteins from meat, fish and eggs. Dairy products, like milk, cheese and yogurt,

also contain proteins. Many people don't eat animal products, but they can get proteins from plant products. Pulses, like beans and lentils, are rich in proteins. Many grains, nuts and seeds have proteins, too. Which of these foods do you eat?

of meat and fish have a lot of fats. Dairy products, like butter and cheese, have fats, too. You can also get fats from plant products like nuts, seeds and vegetable oils. Be careful! Too many fats can make you fat.

Your body also needs minerals. You need calcium for strong bones and healthy teeth. Dairy products, like milk and yogurt, are good sources of calcium. You also need iron for healthy blood. You can get iron from red meat and eggs, or from vegetables like broccoli and spinach. Salt is also an important mineral, but be careful! Too much salty food is bad for you.

Most waste materials decompose. They break down into very small pieces. Food waste decomposes fast, but some waste materials decompose slowly. Paper materials take from two to five months to decompose. Some metal materials take from eighty to one hundred years, and plastic materials take maybe up to one thousand years. Some materials, like glass, never decompose.

The sun is a star. It's very, very hot! The sun has lots of heat and light. Heat and light from the sun come to Earth. The heat and light make Earth warm so we can live here. Light from the sun comes to Earth in eight minutes.

Some places are warm and sunny all year, and they have no seasons. Some places have seasons. In summer, there's more light from the sun, so it's warm. In winter, there's less light from the sun, so it's cold. Is it warm and sunny where you live?

Covenant Bible Study guides small groups through a comprehensive, in-depth study of the whole Bible over twenty-four sessions broken into three eight-session modules. Unlike the learning participants may have experienced in other groups, this study emphasizes the biblical concept of covenant as a unifying theme through both the Old and New Testaments. It underscores the unique relationship that God chooses to have with us as God's people. This relationship is grounded in the faithfulness of God's love and on our ongoing commitment to stay in relationship with God while we share signs of God's love with others. Each Covenant Bible Study participant needs a Participant Guide and a Bible. The CEB Study Bible is preferred, but not required. The Participant Guide walks study participants through the daily scripture readings and offers space to interact personally with the readings, the group experience, and the weekly meditations. This single volume Participant Guide contains the materials required for all three modules: Creating, Living and Trusting. Creating: God establishes the covenant to be in relationship with us. This first module, Creating the Covenant, examines how the covenant community is created and established, by focusing on several books of the Bible. It discusses the story of our origins in Genesis, the Exodus narrative, the teachings of Moses, the Gospels of Matthew and Mark, as well as other books from each Testament that focus on the foundation of Christian faith. In doing so, it lays out the framework for a life lived in concert with God and others. Living: Living within the covenant translates into action--into how we behave in our everyday lives. That's why the second module, Living the Covenant, focuses on how the community lives out the covenant in faithful love--how it is applied to actual relationships in daily life. The scripture readings included in these episodes examine the practical challenges of faithful covenant life. Participants explore leadership challenges among tribal chieftains, kings and prophets, and spiritual and political crises. They look for practical wisdom and guidance in the teachings of Israel's sages, the letters of Paul, and more. By demonstrating how people of vastly different cultures came together in a common purpose, the study shows how faithful love is the root of the covenant life. Trusting: Life often presents significant challenges. Difficulties are inevitable. That's why the final module, Trusting the Covenant, looks at the crises that sometimes call covenant life into question, and how we are restored to trust in God when troubling things happen. It how hope is restored by faithfulness in the midst of suffering. From the story of Job, to the Hebrew exile, to the apocalyptic visions in Daniel and Revelation, we learn how God's faithful love is at work in everything--to restore hope, freedom, and wholeness to our lives.
