Migration, Homeland, and Belonging in Eurasia

Migration, a force throughout the world, has special meanings in the former Soviet lands. Soviet successor countries, each with strong ethnic associations, have pushed some racial groups out and pulled others back home. Forcible relocations of the Stalin era were reversed, and areas previously closed for security reasons were opened to newcomers. These countries represent a fascinating mix of the motivations and achievements of migration in Russia and Central Asia. Migration, Homeland, and Belonging in Eurasia examines patterns of migration and sheds new light on government interests, migrant motivations, historical precedents, and community identities. The contributors come from a variety of disciplines: political science, sociology, history, and geography. Initial chapters offer overall assessments of contemporary migration debates in the region. Subsequent chapters feature individual case studies that highlight continuity and change in migration debates in imperial and Soviet periods. Several chapters treat specific topics in Central Eurasia and the Far East, such as the movement of ethnic Kazakhs from Mongolia to Kazakhstan and the continuing attractiveness to migrants of supposedly uneconomical cities in Siberia.

Danger on the Train

This is a true story of two siblings, Sophie and David, who are separated by the Bolshevik Revolution and World War I. Sophie and her family immigrated to America in 1913, but David stayed in Russia, and was drafted into the tsar's army. Their families stayed in touch until the mid 30s, when one could be arrested for receiving mail or packages from America or Germany. Then silence. For a long time, the relatives in America thought their cousins were dead. The silence was broken sixty years later, when Donna and Lilli, granddaughters of Sophie and David, providentially met in Germany. Born only one day apart, the two cousins have each exchanged information about what happened during those years of separation and silence. They write, visit back and forth, and even took a frightening trip to Russia, where Donna began to understand what the family had to endure under Communism. In these pages, you will meet Russian rulers from Catherine the Great to Mikhail Gorbachev, and see how their decisions impacted our cousins who still lived in Russia. The Iron Curtain lifts for us to get a glimpse of what life was like in Russia after Sophie immigrated before WWI and the Berlin Wall came down

in 1989. Donna and Lilli have joined together to tell the many dramatic stories in the family's fight for survival.

The Years of Great Silence

This monograph provides a detailed yet concise narrative of the history of the ethnic Germans in the Russian Empire and USSR. It starts with the settlement in the Russian Empire by German colonists in the Volga, Black Sea, and other regions in 1764, tracing their development and Tsarist state policies towards them up until 1917. After the Bolshevik Revolution, Soviet policy towards its ethnic Germans varied. It shifted from a generally favorable policy in the 1920s to a much more oppressive one in the 1930s, i.e. already before the Soviet-German war. J. Otto Pohl traces the development of Soviet repression of ethnic Germans. In particular, he focuses on the years 1941 to 1955 during which this oppression reached its peak. These years became known as "the Years of Great Silence" ("die Jahre des grossen Schweigens"). In fact, until the era of glasnost (transparency) and perestroika (rebuilding) in the late 1980s, the events that defined these years for the Soviet Germans could not be legally researched, written about, or even publicly spoken about, within the USSR.

The Germans of the Soviet Union

The Germans were a very substantial minority in Russia, and many leading figures, including the Empress Catherine the Great, were German. Using rarely seen archival information, this book provides an account of the experiences of the Germans living in the Soviet Union from the early post-revolution period to the post-Soviet era following the collapse of communism. Setting out the history of this minority group and explaining how they were affected by the Soviet regime's nationality policies, the book: describes the character of the ethnic Germanic groups, demonstrating their diversity before the execution of the policy of systematic deportations by the Stalinist authorities from 1937 to 1947 argues that there was not one but several episodes of deportation within this period considers the different dimensions of this policy, including the legal and economic structures of, and everyday life in, the Soviet special settlements investigates the 'women's dimension' of deportation, especially the role of women in the preservation of ethnic identity among the afflicted groups explores the long term consequences of Soviet deportations and exile on the identity of the Soviet Germans.

Journal of the American Historical Society of Germans from Russia

Inspired by recent works on Nazi empire, this book provides a framework to guide occupation research with a broad comparative angle focusing on human interactions. Overcoming national compartmentalization, it examines Nazi occupations with attention to relations between occupiers and local populations and differences among occupation regimes. This is a timely book which engages in historical and current conversations on European nationalisms and the rise of right-wing populisms.

German-occupied Europe in the Second World War

This fascinating autobiography is set against the backdrop of some of the most dramatic episodes of the twentieth century. It is the story of a stubborn struggle against unjust regimes, sustained by a deep belief in the strength of the human spirit and the transcendental power of music. It is also an account of a rich spiritual life, during which the author has built upon her Jewish roots through the study of Eastern philosophy and meditation. Born in Germany, Eva Mayer Schay's early childhood in Mallorca was an idyllic one. Her parents had emigrated to the island following the Nazi party's rise to power, but in 1936, during the Spanish Civil War, the family was repatriated to Germany. Her father was arrested and given the choice of concentration camp or departing for Italy. They managed to leave Mussolini's Italy for South Africa before the race laws were implemented. During World War II, Mayer Schay's parents were classed as "enemy aliens" in South Africa, which led to considerable hardship. Her father died in 1945, after the end of the war. She went through all her schooling and university in Johannesburg, continued her musical studies in London, and after returning to Johannesburg, taught violin, played chamber music, and became a member of the SABC Symphony Orchestra. Defying apartheid, she was fired, later reinstated, but left Johannesburg to play with the Durban Civic Orchestra in 1959. Appalled at the increasing harshness of the nationalist government and by the Sharpeville massacre in 1960, she and her mother finally emigrated to England in 1961. In London, Mayer Schay worked as freelance violinist and was married in 1967. In September 1968, she joined the orchestra of Sadler's Wells Opera at the Coliseum Theatre, later renamed English National Opera, where she remained for almost thirty years.

The Cotton Sector in Central Asia

American Book Award Winner: A “stunning” memoir of surviving WWII Latvia—and the long journey to healing that followed (The New York Times Book Review). “A heartbreaking yet inspiring memoir of tragedy and healing,” *A Woman in Amber* tells the story of how the occupation of Latvia during World War II affected a woman’s relationship with her mother and husband for years to come (Tim O’Brien). Though Agate Nesaule eventually immigrated to the United States and became successful in her professional life, she found herself suffering from depression and unable to come to terms with its cause—until she found her voice and began to share what happened to her and her family at the hands of invading Russian soldiers. In a true story that “draws the reader forward with the suspense of a novel,” Nesaule reveals the effects of hunger, both physical and emotional, in stories about begging Russian soldiers for food, the abusive relationship with her first husband, and the redemption that came when she met her second (The New York Times Book Review).

The Baltic States, Years of Dependence, 1940-1990

A study of the foreign operations of the Russian Imperial Police, commonly referred to as the Okhrana, in the late 19th and early 20th centuries. Russia had driven many revolutionaries, terrorists, and nationalists out of Russia, but Russian emigrants in the West had broad opportunities to engage in anti-regime activities. Paris became the hub for Russian revolutionary groups operating in much of Europe. These essays portray not only the officials who ran the Okhrana's foreign bureau, but also the colorful agents, double agents, and agents provocateurs who worked for and against it -- sometimes simultaneously.

Congressional Record

Asked shortly after the revolution about how she viewed the new government, Tatiana Varsher replied, "With the wide-open eyes of a historian." Her countrywoman, Zinaida Zhemchuzhnaia, expressed a similar need to take note: "I want to write about the way those events were perceived and reflected in the humble and distant corner of Russia that was the Cossack town of Korenovskaia." What these women witnessed and experienced, and what they were moved to describe, is part of the extraordinary portrait of life in revolutionary Russia presented in this book. A collection of life stories of Russian women in the

first half of the twentieth century, *In the Shadow of Revolution* brings together the testimony of Soviet citizens and émigrés, intellectuals of aristocratic birth and Soviet milkmaids, housewives and engineers, Bolshevik activists and dedicated opponents of the Soviet regime. In literary memoirs, oral interviews, personal dossiers, public speeches, and letters to the editor, these women document their diverse experience of the upheavals that reshaped Russia in the first half of this century. As is characteristic of twentieth-century Russian women's autobiographies, these life stories take their structure not so much from private events like childbirth or marriage as from great public events. Accordingly the collection is structured around the events these women see as touchstones: the Revolution of 1917 and the Civil War of 1918-20; the switch to the New Economic Policy in the 1920s and collectivization; and the Stalinist society of the 1930s, including the Great Terror. Edited by two preeminent historians of Russia and the Soviet Union, the volume includes introductions that investigate the social historical context of these women's lives as well as the structure of their autobiographical narratives.

Brecht, a Choice of Evils

Captures well the tensions and dangers of underground work in German occupied Poland. The story of the one Englishman who (initially through happenstance, but later with great heroism) served undercover in the Polish Underground during World War 2. A great testament to Anglo-Polish friendship and fellow-feeling, despite the bitterness of his conclusions - he was writing during the 1980s, before the fall of the Iron Curtain.

The story of the diverse communities of Eastern Europe's borderlands in the centuries prior to World War II "A powerful combination of history and personal memoir . . . A richly contextual, skillfully woven historical study."--Kirkus Reviews (starred review) Focusing on the former province of Galicia, this book tells the story of Europe's eastern borderlands, stretching from the Baltic to the Balkans, through the eyes of the diverse communities of migrants who settled there for centuries and were murdered or forcibly removed from the borderlands in the course of World War II and its aftermath. Omer Bartov explores the fates and hopes, dreams and disillusionment of the people who lived there, and, through the stories they told about themselves, reconstructs who they were, where they came from, and where they were heading. It was on the borderlands that the expanding great empires--German, Austro-Hungarian, Russian, and Ottoman--overlapped, clashed, and disintegrated. The civilization of these borderlands was a mix of multiple cultures, languages, ethnic groups, religions, and nations that similarly overlapped and clashed. The borderlands became the cradle of modernity. Looking back at it tells us where we came from.

Red Runs the Vistula

This hitherto unpublished first-hand witness account, written in 1968-9, tells the story of a privileged Polish woman whose life was torn apart by the outbreak of the Second World War and Soviet occupation. The account has been translated into English from the original Polish and interwoven with letters and depositions, and is supplemented with commentary and notes for invaluable historical context. Irena Protassewicz's vivid account begins with the Russian Revolution, followed by a rare insight into the life and mores of the landed gentry of northeastern Poland between the wars, a rural idyll which was to be shattered forever by the coming of the Second World War. Deported in a cattle truck to Siberia and sentenced to a future of forced labour, Irena's fortunes were to change dramatically after Hitler's attack on Russia. She charts the adventure and horror of life as a military nurse with the Polish Army, on a journey that would take her from the wastes of Soviet Central Asia, through the Middle East, to an unlikely ending in the highlands of Scotland. The story concludes with Irena's search to discover the wartime and post-war fate of her family and friends on both sides of the Iron Curtain, and the challenges of life as a refugee in Britain. *A Polish Woman's Experience in World War II* provides a compelling, personal route into understanding how the greatest conflict of the 20th century transformed the lives of the individuals who lived through it.

USSR.

The image of women in Russian culture has undergone profound changes: from the origins of modern Russian literature in the eighteenth century until the Revolution of 1917, when women were a source of fascination for Russian writers, to the socialist realism period, during which public discussion of the representation of women in literature rapidly declined and the "woman question" was declared to have been "resolved," to a reappraisal of the position of women since the 1980s. This collection of essays by leading western and Russian specialists contains new insights and updates previous research into the role of women in Russian culture in the last two centuries and contributes to two exciting and growing research areas: the feminist critique of work by Russian male authors and the study of Russian women writers. Moreover, whereas most previous studies have concentrated on the aesthetic qualities of works by women writers, this collection includes both close textual analysis and the discussion of biographical, historical, and political questions relating both to the representation of women and women's culture. The aim is not to present a unified manifesto, but rather to bring together a spectrum of approaches and positions within their common focus on the relationship between women and culture in Russia. Historical and Political Essays

A novel based on the life of Hannah Arendt.

Good Literature

The good, the true and the beautiful—it is for these that our souls long. Though they reside in unity and perfection in God alone, the written word is one place we can discover glimmers of divine light. The writings of great souls can turn our gaze toward God as he is revealed in Jesus Christ. Even authors who do not know Christ or who reject Christ can still point to him, for anyone who seeks the truth finds it; and any one who turns his back on the truth turns away from a someone whose presence can often be more keenly felt in his absence. In this volume, Lucy Beckett illuminates some of the finest writings in the Western tradition and trains our eye to discover in them the Christian vision of God. She masterfully guides us through Sophocles, Plato, Augustine, Dante, Shakespeare, Dostoyevsky and many others, deftly demonstrating each author's worth as a bearer of truth.
