

Name That Element Worksheet Answers

[#name that element answers](#) [#element identification worksheet](#) [#chemistry quiz solutions](#) [#periodic table practice](#) [#science worksheet help](#)

Access comprehensive answers for your 'Name That Element' worksheet, designed to help students master element identification and reinforce their knowledge of the periodic table. This resource provides clear solutions for chemistry practice, ensuring a solid understanding of fundamental chemical elements.

Each document reflects current academic standards and practices.

The authenticity of our documents is always ensured.

Each file is checked to be truly original.

This way, users can feel confident in using it.

Please make the most of this document for your needs.

We will continue to share more useful resources.

Thank you for choosing our service.

This document is one of the most sought-after resources in digital libraries across the internet.

You are fortunate to have found it here.

We provide you with the full version of Name That Element Answers completely free of charge.

Which of the following gases will effuse out of football bladder most quickly ?

Which of the following alkali metals has highest specific heat?

In which of the following substances all carbon atoms are quaternary in nature ?

Which of the following is a natural dye?

The ratio of pure gold in 18 carat gold is

Diamond is harder than graphite because of

Gobar gas contains mainly

Which of the following elements is non-radioactive ?

What is the element required for solar energy conversion ?

Which of the following type of coal has the lowest proportion of volatile matter?

What is the chemical name for 'Baking Soda'?

PVC is obtained by the polymerisation of

Which amongst the following is not a gem stone ?

Which of the following vegetable oils does not contain essential fatty acids ?

The metallic constituents of hard water are

Which of the following imparts deep blue colour to glass ?

Which of the following fibres catches fire least ?

Which of the following is used as filler in tyre of rubber?

Which of the following alloy is used in making magnet ?

The polymerisation of which of the following is used in manufacturing of polythene in industry?

Which of the following is the main nitrogenous waste in humans ?

Aspirin is

Cloud is a colloidal dispersion of

Which of the following is the petroleum wax?

Which variety of coal contains recognisable traces of the original plant material ?

Which is the purest form of iron ?

Which of the following metals form an amalgam with other metals ?

Radioactive disintegration of uranium ultimately results in formation of

Which of the following is used in making smoke bombs?

German silver is an alloy of

Which of the following is a supercooled liquid ?

Metal are good conductors, because

The first metal used by a man was

Which of the following is used to remove rust stains on clothes?

Curd is sour due to presence of

Tear gas is

Which of the following compounds is commonly used as an antiseptic in mouthwashes and tooth-pastes ?

Which one of the following is used to restore the colour of old oil paintings ?

Milk is a natural

A polymeric substance used to make parachute is

Drinking soda is

The cathode of a lead storage battery is made up of

Which one of the following is radioactive ?

Heat resistant variety of glass is

Aluminium can be purified by

Impure camphor is purified by

Greenhouse effect is caused by
Type metal used in printing press is an alloy of
Sour taste of 'Coca Cola' is due to the presence of
Which one of the following is not a radio-active element ?
Iodized salt is beneficial for
The acid rain destroys vegetations because it contains
Diamonds are glittering and attractive because light incident on them undergoes
Which of the following gases is most toxic ?
Alum stops bleeding in minor cuts because of
'Plaster of Paris' is made by partial dehydration of
Water can be separated from alcohol water mixture by
'Milk Sugar' is
Petroleum is a mixture of
The gas used for filling weather balloons is
Hydrogen is not found in atmosphere because
Which one of the following organic compounds has fruity smell?
What material is used to make electric heater coil ?
By-product obtained by soap industry is
Polythene is polymer of
For determination of the age of which among the following is carbon dating method used ?
The polymer used in making plastic crockery is
Vulcanization of rubber is carried out by adding
Smoke is formed due to
Which of the following chemicals is used in photography ?
What is the principal ore of aluminium ?
Which gas is used as fire extinguisher ?
Which one of the following is extensively used for sterilizing water ?
Which one of the following acids is used in battery?
The major constituent of air is
Cream gets separated out of milk when it is churned. This is due to
Rusting of iron takes place due to
The purity of gold is expressed in carats. The purest form of gold is
Petroleum consists of a mixture of
One of the following is used to dissolve noble metals. That is
An emulsion is a colloid of a
Which of the following is not present in German-silver?
The major harmful gas emitted by automobile vehicles which causes air pollution is
Which one of the following is a major green house gas?
The freezer in a refrigerator is fitted near the top
The chemical name of Common salt' is
The most abundant inert gas in the atmosphere is
Which metal is extracted from sea water?
Helium gas is used in gas balloons instead of hydrogen gas because it is
The gas used in the artificial ripening of fruits is
Ruby and sapphire are oxides of
The gas which turns into liquid at the lowest temperature among the following is
In nuclear reactors, graphite is used as
The isotope of Uranium used in atomic reactors is
Detergents clean surfaces on the principle of
Ammonia is a mixture of
Which gas does not form the part of atmosphere?
The fuel used in an atomic reactor is
White coal is

100. The major constituent of gobar gas is
