Going **vegan**, is becoming increasingly **more**, common, but is it actually good for ...

In your first few weeks, you may feel especially tired.

Without meat, vegans often have a hard time getting enough vitamin B12 and iron

You may also discover that foods don't taste the way they used to.

On the plus side, expect to lose some weight right away!

new vegans lost an average of 10 pounds over a 10 month period.

Plus, a 2009 study found that average BMI was lower for vegans than all other diets.

Another benefit that you may experience is a healthy decrease in cholesterol blood pressure, and heart disease risk.

If you're like most Americans who get their daily calcium from dairy products you may see a dip in calcium levels.

60% of humans don't have the enzyme to properly digest lactose in dairy.

The result is cramping, bloating, and even diarrhea.

Swapping dairy with high fiber veggies

Like any diet, veganism has its pros and cons.
