Palestine, Israel, and the Politics of Popular Culture

This important volume rethinks the conventional parameters of Middle East studies through attention to popular cultural forms, producers, and communities of consumers. The volume has a broad historical scope, ranging from the late Ottoman period to the second Palestinian uprising, with a focus on cultural forms and processes in Israel, Palestine, and the refugee camps of the Arab Middle East. The contributors consider how Palestinian and Israeli popular culture influences and is influenced by political, economic, social, and historical processes in the region. At the same time, they follow the circulation of Palestinian and Israeli cultural commodities and imaginations across borders and checkpoints and within the global marketplace. The volume is interdisciplinary, including the work of anthropologists, historians, sociologists, political scientists, ethnomusicologists, and Americanist and literary studies scholars. Contributors examine popular music of the Palestinian resistance, ethno-racial "passing" in Israeli cinema, Arab-Jewish rock, Euro-Israeli tourism to the Arab Middle East, Internet communities in the Palestinian diaspora, café culture in early-twentieth-century Jerusalem, and more. Together, they suggest new ways of conceptualizing Palestinian and Israeli political culture. Contributors. Culture and Conflict in Palestine/Israel

While the scholarly study of culture as a politically contested sphere in Palestine/Israel has become an established field over the past two decades, this volume highlights some particular understudied aspects of it: the relations between Arab identity, Mizrahi identity, and Israeli nationalism; the nightclub scene as a field of encounter, appropriation, and exclusion; an analysis of the institutional and political conditions of Palestinian cinema; the implications of the intersectional relationship between gender, ethnicity and national identity in the field of popular culture, and the concrete relations between particular aesthetic forms and symbolic power. The authors come from diverse disciplines, including

anthropology, architecture, ethnomusicology, history, sociology, and political science. The chapters in this book were originally published as a special issue of *Ethnic and Racial Studies*.

Culture and Resistance

In his latest book of interviews, Edward W. Said discusses the centrality of popular resistance to his understanding of culture, history, and social change. He reveals his latest thoughts on the war on terrorism, the war in Afghanistan, and the Israeli-Palestinian conflict, and lays out a compelling vision for a secular, democratic future in the Middle East--and globally. Edward W. Said, a renowned cultural and literary critic, was born in Jerusalem, Palestine, and was educated there, in Egypt, and in the United States. His books include *Orientalism*, *The Question of Palestine*, *Covering Islam*, *Culture and Imperialism*, and *The Politics of Dispossession*. He has also published a memoir, *Out of Place*. Mr. Said is University Professor of English and Comparative Literature at Columbia University. In October 2001, he received the \$200,000 Lannan Literary Award for Lifetime Achievement. David Barsamian's interview books feature conversations with luminaries such as Noam Chomsky, Howard Zinn, and Edward W. Said. A regular contributor to *The Progressive* and *Z Magazine*, Barsamian's most recent interview books include *Propaganda and the Public Mind* and *Eqbal Ahmad: Confronting Empire*, available from South End Press. He is also the author of *The Decline and Fall of Public Broadcasting*. Barsamian is the producer of the critically acclaimed program *Alternative Radio*.

Moving through Conflict

Moving through Conflict: Dance and Politics in Israel is a pioneering project in examining the Israeli-Palestinian conflict through dance. It proposes a research framework for study of the social, cultural, aesthetic and political dynamics between Jews and Arabs as reflected in dance from late 19th-century Palestine to present-day Israel. Drawing on multiple disciplines, this book examines a variety of social and theatrical venues (communities, dance groups, evening classes and staged performances), dance genres (folk dancing, social dancing and theatrical dancing) and different cultural identities (Israeli, Palestinian and American). Underlying this work is a fundamental question: can the body and dance operate as nonverbal autonomous agents to mediate change in conflicting settings, transforming the "foreign" into the "familiar"? Or are they bound to their culturally dependent significance – and thus nothing more than additional sites of an embodied politics? This anthology expounds on various studies on dance, historical periods, points of view and points of contact that help promote thinking about this fundamental issue. It will be of great interest to students and scholars of dance studies, sociology, anthropology, art history, education and cultural studies, as well as conflict and resolution studies.

Itineraries in Conflict

In *Itineraries in Conflict*, Rebecca L. Stein argues that through tourist practices—acts of cultural consumption, routes and imaginary voyages to neighboring Arab countries, culinary desires—Israeli citizens are negotiating Israel's changing place in the contemporary Middle East. Drawing on ethnographic and archival research conducted throughout the last decade, Stein analyzes the divergent meanings that Jewish and Palestinian citizens of Israel have attached to tourist cultures, and she considers their resonance with histories of travel in Israel, its Occupied Territories, and pre-1948 Palestine. Stein argues that tourism's cultural performances, spaces, souvenirs, and maps have provided Israelis in varying social locations with a set of malleable tools to contend with the political changes of the last decade: the rise and fall of a Middle East Peace Process (the Oslo Process), globalization and neoliberal reform, and a second Palestinian uprising in 2000. Combining vivid ethnographic detail, postcolonial theory, and readings of Israeli and Palestinian popular texts, Stein considers a broad range of Israeli leisure cultures of the Oslo period with a focus on the Jewish desires for Arab things, landscapes, and people that regional diplomacy catalyzed. Moving beyond conventional accounts, she situates tourism within a broader field of "discrepant mobility," foregrounding the relationship between histories of mobility and immobility, leisure and exile, consumption and militarism. She contends that the study of Israeli tourism must open into broader interrogations of the Israeli occupation, the history of Palestinian dispossession, and Israel's future in the Arab Middle East. *Itineraries in Conflict* is both a cultural history of the Oslo process and a call to fellow scholars to rethink the contours of the Arab-Israeli conflict by considering the politics of popular culture in everyday Israeli and Palestinian lives.

Moving Through Conflict

This book seeks to both showcase and further develop innovative research and debates on contemporary Arab cultural production. Popular culture in the form of cinema, popular music, literature, visual media and cyber-cultures, both local and imported, enjoy a central role in Arab cultural life, and the contributors to this innovative collection showcase the tremendous cultural output emerging from the Arab world. They present sensitive, conceptual readings whilst remaining mindful of the place of this work within a wider framework that seeks to prevent isolationist readings of cultural phenomena. Making sense of the place of culture in the Arab world, and agreeing upon a broadly recognisable and commonly accepted set of terms within which to discuss this output, is a new and urgent challenge. Arab Cultural Studies aspires to understand, communicate and theorise these forms. This book was originally published as a special issue of the Journal for Cultural Research.

Arab Cultural Studies

The state of Israel is a home for a widely diverse population from many different ethnic, religious, cultural and social backgrounds; a new society with ancient roots, which is still coalescing and developing today. Israeli sport, maybe more than any other cultural phenomenon, has changed radically since the establishment of the state of Israel in 1948. Over the past six decades, Israeli sport has evolved from an amateur hobby of a few 'sports freaks', to a passion of the masses. The transformation to a major cultural phenomenon is the result of general developments in Israeli and international society. The aim of the book is to shed light on those processes that shaped the Israeli sport arena. Following the steps of numerous research perspectives, that considers sports as "text" within a socio-historical context, this book deals with the development of Israeli sports in Palestine and, later, the State of Israel as a text (or a narrative) which was contingent on the socio-historical context. In seeking to comprehend these processes, this book is divided into three parts. The Palestine period, the early stage of statehood, and the "matured" period which began in and around the early 1980s. Each period is narrated by the major participants and the major political-economical parameters which, as it is argued, shaped Israeli sport. This book was published as a special issue of the Israeli Affairs.

Sport, Politics and Society in the Land of Israel

This book presents a psychological analysis of identity development among Israeli and Palestinian youth, developing an argument about the mutual constitution of culture and mind through narrative, as well as a compelling critique of traditional approaches to intervention with youth to promote peace and coexistence.

Narrative and the Politics of Identity

In this unique new contribution, Marcelo Svirskey asserts that no political solution currently on offer can provide the cultural marrow necessary to effect a transformation of modes of being and ways of life in the State of Israel. Controversially, Svirskey argues that the Zionist political project cannot be fixed - it is one that negatively affects the lives of its beneficiaries as well as of its victims. Instead, the book aims to generate a reflective attitude, allowing Jewish-Israelis to explore how they may divest themselves of Zionist identities by engaging with dissident rationalities, practices and institutions. Ultimately, the production of military hardware and technology that helps Israel control the lives of Palestinians, of separate policies, laws and spaces for Jews and Palestinians, are all linked with the production of Zionist subjectivities and modes of being. Overcoming these modes of being is to after Israel.

After Israel

"What if human rights were used to oppress or even harm the very populations they were intended to protect? In *The Human Right to Dominate*, Nicola Perugini and Neve Gordon challenge readers to reconsider everything that they think they know about human rights, arguing against the popular assumption that increased human rights lead to a greater degree of freedom. The book explores the subjective and politicized nature of human rights in the context of the Israel/Palestine conflict, demonstrating instances in which human rights can be used as a tool for oppression and illustrating the ways that human rights can be interpreted to justify colonialism, warfare, and even lethal violence against civilians." --Back cover.

The Human Right to Dominate

This Companion explores the Israeli-Palestinian conflict from its inception to the present day, demonstrating the depth and breadth of the many facets of the conflict, from the historical, political, and diplomatic to the social, economic, and pedagogical aspects. The contributions also engage with notions of objectivity and bias and the difficulties this causes when studying the conflict, in order to reflect the diversity of views and often contentious discussion surrounding this conflict. The volume is organized around six parts, reflecting the core aspects of the conflict: historical and scholarly context of the competing narratives contemporary evolution of the conflict and its key diplomatic junctures key issues of the conflict its local dimensions international environment of the conflict the "other images" of the conflict, as reflected in public opinion, popular culture, the boycott, divestment and sanctions (BDS) movement, and academia and pedagogy. Providing a comprehensive approach to the Israeli-Palestinian conflict, this companion is designed for academics, researchers, and students interested in the key issues and contemporary themes of the conflict.

No single book has encompassed the vast scope of Edward Said's erudition quite like *Power, Politics and Culture* - a collection of his interviews from the last three decades. In these twenty-nine interviews, Said addresses everything from Palestine to Pavarotti, from his nomadic upbringing under colonial rule to his politically active and often controversial life in America, and reflects on Austen, Beckett, Conrad, Naipaul, Mahfouz and Rushdie as well as fellow critics Bloom, Derrida and Foucault. Said speaks here with his usual candour, acuity and eloquence - confirming that he was in his lifetime among the truly most important intellects of our century.

Power, Politics, and Culture

The dream of building Jerusalem in England's green and pleasant land has long been a quintessential part of English identity and culture: but how did this vision shape the Victorian encounter with the actual Jerusalem in the Middle East? *The Holy Land in English Culture 1799-1917* offers a new cultural history of the English fascination with Palestine in the long nineteenth century, from Napoleon's failed Mediterranean campaign of 1799, which marked a new era in the British involvement in the land, to Allenby's conquest of Jerusalem in 1917. Bar-Yosef argues that the Protestant tradition of internalizing Biblical vocabulary - 'Promised Land', 'Chosen People', 'Jerusalem' - and applying it to different, often contesting, visions of England and Englishness evoked a unique sense of ambivalence towards the imperial desire to possess the Holy Land. Popular religious culture, in other words, was crucial to the construction of the orientalist discourse: so crucial, in fact, that metaphorical appropriations of the 'Holy Land' played a much more dominant role in the English cultural imagination than the actual Holy Land itself. As it traces the diversity of 'Holy Lands' in the Victorian cultural landscape - literal and metaphorical, secular and sacred, radical and patriotic, visual and textual - this study joins the

ongoing debate about the dissemination of imperial ideology. Drawing on a wide array of sources, from Sunday-school textbooks and popular exhibitions to penny magazines and soldiers' diaries, the book demonstrates how the Orientalist discourse functions - or, to be more precise, malfunctions - in those popular cultural spheres that are so markedly absent from Edward Said's work: it is only by exploring sources that go beyond the highbrow, the academic, or the official, that we can begin to grasp the limited currency of the orientalist discourse in the metropolitan centre, and the different meanings it could hold for different social groups. As such, *The Holy Land in English Culture 1799-1917* provides a significant contribution to both postcolonial studies and English social history.

The Holy Land in English Culture 1799-1917

Ten leading scholars and practitioners of politics, political science, anthropology, Israel studies, and Middle East affairs address the theme of continuity and change in political culture as a tribute to Professor Myron (Mike) J. Aronoff whose work on political culture has built conceptual and methodological bridges between political science and anthropology. Topics include the legitimacy of the two-state solution, identity and memory, denationalization, the role of trust in peace negotiations, democracy, majority-minority relations, inclusion and exclusion, Biblical and national narratives, art in public space, and avant-garde theater. Countries covered include Israel, Palestine, the United States, the Basque Autonomous Region of Spain, and Poland. The first four chapters by Yael S. Aronoff, Saliba Sarsar, Yossi Beilin, and Nadav Shelef examine aspects of the conflict and peace negotiations between Israel and the Palestinians, including alternative solutions. The contributions by Naomi Chazan, Ilan Peleg, and Joel Migdal tackle challenges to democracy in Israel, in other divided societies, and in the creation of the American public. Yael Zerubavel, Roland Vazquez, and Jan Kubik focus their analyses on aspects of national memory, memorialization, and dramatization. Mike Aronoff relates his work on various aspects of political culture to each chapter in an integrative essay in the Epilogue.

Continuity and Change in Political Culture

Based on ethnographic research in Palestine, primarily during the Arab uprisings, this book explores the intersections between new youth cultures and protest politics among Palestinian youth in the West Bank and Israel. It focuses on Palestinian hip hop and the youth movement that emerged in 2011 as overlapping sites where new cultural and political imaginaries are being produced in the Oslo generation (jil Oslo). Challenging the Oslo framework of national politics and of cultural expression, these young artists and activists are rethinking and reviving the possibility of a decolonial present. "In her perceptive, sensitive, penetrating analysis of the post-Oslo generation of Palestinian youth, Sunaina Maira paints a dynamic picture of contemporary life, art, and politics for young Palestinians under occupation and within the '48 borders of Israel-an increasingly neoliberal world in which the Palestinian Authority is the face of the occupation, where claims of political malaise are shattered by new, energetic forms of political and cultural expression-from graffiti to Hip Hop, civil disobedience to BDS. A must-read for anyone remotely interested in the future of Palestine." Robin D. G. Kelley, author of *Africa Speaks, America Answers: Modern Jazz in Revolutionary Times*. "This rich and valuable book challenges us to think in radical terms about youth resistance in Palestine in the post-Oslo generation. These young people resist the demand to normalize their life under Israeli settler colonialism, while using popular culture to speak back against the necropolitical machinery of elimination. Maira's book gives us an inspiring and compelling reading of how popular culture becomes another site to narrate and reshape a new politics." Nadera Shalhoub-Kevorkian, author of *Militarization and Violence against Women in Conflict Zones in the Middle East: A Palestinian Case-Study*.

Jil Oslo

How did a Jewish state come to resonate profoundly with Americans in the twentieth century? Since WWII, Israel's identity has been entangled with America's belief in its own exceptionalism. Turning a critical eye on the two nations' turbulent history together, Amy Kaplan unearths the roots of controversies that may well divide them in the future.

Our American Israel

There is no escaping the Jerusalem of the religious imagination. Not once but three times holy, its overwhelming spiritual significance looms large over the city's complex urban landscape and the diurnal rhythms and struggles that make up its earthbound existence. Nonetheless, writes Paola Caridi, in this intimate and hard-hitting portrayal of the city, it is possible to close one's eyes and, "like the

blind listening to sounds," discern the conflict and plurality of belonging that mark out the city' secular character. Jerusalem without God leads the reader through the streets, malls, suburbs, traffic jams, and squares of Jerusalem's present moment, into the daily lives of the men and women who inhabit it. Caridi brings contemporary Jerusalem alive by describing it as a place of sights and senses, sounds and smells, but she also shows us a city riven by the harsh asymmetry of power and control embodied in its lines, limits, walls, and borders. She explores a cruel city, where Israeli and Palestinian civilians sometimes spend hours in the same supermarkets, only to return to the confines of their respective districts, invisible to each other; a city memorable for its ancient stones and shimmering sunsets but dotted with Israeli checkpoints, "postmodern drawbridges," that control the movement of people, ideas, and potential attackers. Describing Jerusalem through the lenses of urban planners and politicians, anthropologists and archaeologists, advertisers and scholars, Jerusalem without God reveals a city that is as diverse as it is complex, and ultimately, argues its author, one whose destiny cannot be tied to any single religious faith, tradition, or political ideology.

Jerusalem without God

An investigation of Jewish identity politics and Jewish contemporary ideology using both popular culture and scholarly texts. Jewish identity is tied up with some of the most difficult and contentious issues of today. The purpose in this book is to open many of these issues up for discussion. Since Israel defines itself openly as the 'Jewish State', we should ask what the notions of 'Judaism', 'Jewishness', 'Jewish culture' and 'Jewish ideology' stand for. Gilad examines the tribal aspects embedded in Jewish secular discourse, both Zionist and anti Zionist; the 'holocaust religion'; the meaning of 'history' and 'time' within the Jewish political discourse; the anti-Gentile ideologies entangled within different forms of secular Jewish political discourse and even within the Jewish left. He questions what it is that leads Diaspora Jews to identify themselves with Israel and affiliate with its politics. The devastating state of our world affairs raises an immediate demand for a conceptual shift in our intellectual and philosophical attitude towards politics, identity politics and history.

The Wandering Who

The political conflict over the city of Jerusalem has resulted in the breach of Palestinian Jerusalemites' civil, political and social rights. While Israel claims sovereignty over East Jerusalem, it neglects to provide adequate services to the Palestinian residents of the city. The Israeli Jerusalem Municipality provides insufficient and highly politicised educational services to the Palestinians residents of the city, at the same time discriminating against the other Palestinian systems that provide educational services. Political Conflict and Exclusion in Jerusalem offers a detailed description of the structure of the education sector in East Jerusalem with its four main providers; the Palestinian Authority through Awqaf schools, the Israeli Authority through municipal schools, the United Nations Relief and Works Agency and private schools. Its study reveals that there is no single body that oversees the provision of educational services in the city to ensure that the services provided are sufficient and of quality. Employing a qualitative research strategy with semi-structured interviews and focus groups in Palestinian and Israeli schools, this book offers a comprehensive and revealing comparison of the educational services provided to both their students. It explores how Palestinian and Israeli students routinely receive vastly different learning opportunities, in terms of school funding, qualified staff, school facilities and school programmes, which as a result disempowers Palestinians and ensures an Israeli Jewish hegemony over the city. One of the few academic books on a highly pertinent topic, this book will be of interest to students and scholars of Middle East Studies, and a key resource for those studying the social impacts of the Israeli-Palestinian conflict.

Political Conflict and Exclusion in Jerusalem

Postcolonial theory is one of the main frameworks for thinking about the world and acting to change the world. Arising in academia and reshaping humanities and social sciences disciplines, postcolonial theory argues that our ideas about foreigners, 'the other,' particularly our negative ideas about them, are determined not by a true will to understand, but rather by our desire to conquer, dominate, and exploit them. According to postcolonial theory, the cause of poverty, tyranny, and misery in the world, and of failed societies around the world, is Euro-American imperialism and colonialism. Previously published as a special issue of Israel Affairs, this work examines and challenges postcolonial theory. In scholarly, research-based papers, the specialist authors examine various facets of postcolonial theory and application. First, the theoretical assumption and formulations of postcolonial theory are scrutinized

and found dubious. Second, the deleterious impact on academic disciplines of postcolonial theory is demonstrated. Third, the distorted postcolonial view of history, its obsession with current events to the exclusion of the historical basis of events, is exposed and corrected. Fourth, an examination of Middle Eastern culture challenges the assumption that these societies have been shaped entirely, and victimized, by Western intrusion. Finally, exploring the Arab-Israel conflict, the one-sided case of postcolonial Arabism is explored and found to be faulty.

Postcolonial Theory and the Arab-Israel Conflict

What is Israeli theatre? Is it only a Hebrew theatre staged in Israel? Are performances by Arab Israelis working in an Arabic theatre framework not part of the repertoire of Israeli theatre? Do they perhaps belong to the Palestinian theatre? What are the "borders" of Palestinian theatre? Are not theatrical works created in East Jerusalem by Arab Israeli playwrights and actors, and staged on occasion before Jewish Israeli audiences, part of a dialogue between Palestinian and Israeli cultures? Does "theatre" only include works staged under that title? These and other similarly absorbing questions arise in Dan Urian's wide-ranging and detailed study of the image of the Arab in Israeli drama and theatre. By the use of extensive examples to show how theatre, politics and personal perceptions intertwine, the author presents us with a model which can be used as a basis for the further discussion and study of similar social and artistic phenomena in other cultures in relation to their theatre and drama.

The Arab in Israeli Drama and Theatre

Critical Essays on Israeli Society, Politics, and Culture is the second volume in a series devoted to imaginative and critical consideration of recent books on Israel. It is a forum allowing some of the most insightful students of Israeli affairs, both in Israel and in the United States, to examine trends in Israeli literature and in scholarship pertaining to all aspects of Israeli life. Each contributor approaches Israel from a different angle, offering anthropological, religious, political, literary, and historical perspectives. Topics attracting particular attention in this volume include the psychological reactions of Israelis who emigrate from their country and the portrayal of the emigrant in Israeli literature; human rights; the role and content of the Jewish fundamentalist movement in Israel; changing relations to the Palestinian leadership in the occupied territories; the emerging issue of Israel as a binational society; psychoanalytic and political motifs in contemporary Israeli fiction; and the controversial findings of Israel's newest wave of "revisionist" historians.

The Politics of Palestinian Multilingualism: Speaking for Citizenship provides an essential contribution to understanding the politics of Israel/Palestine through the prism of sociolinguistics and discourse analysis. Arabic-speakers who also know Hebrew resort to a range of communicative strategies for their political ideas to be heard: they either accommodate or resist the Israeli institutional suppression of Arabic. They also codeswitch and borrow from Hebrew as well as from Arabic registers and styles in order to mobilise discursive authority. On political and cultural stages, multilingual Palestinian politicians and artists challenge the existing political structures. In the late capitalist market, language skills are re-packaged as commodified resources. With new evidence from recent and historical discourse, this book is about how speakers of a marginalised, contained language engage with the political system in the idioms at their disposal. The Politics of Palestinian Multilingualism: Speaking for Citizenship is key reading for advanced students and scholars of multilingualism, language contact, ideology, and policy, within sociolinguistics, anthropology, politics, and Middle Eastern studies.

The Politics of Palestinian Multilingualism

Amidst the turmoil of the Middle East, few have noticed the extent to which Israel has slowly but surely been building alliances on the African continent. Facing a growing international backlash, Israel has had to look beyond its traditional Western allies for support, and many African governments in turn have been happy to receive Israeli political support, security assistance, investments and technology. But what do these relationships mean for Africa, and for wider geopolitics? With an examination of Africa's authoritarian development politics, the rise of Born-Again Christianity and of Israel's thriving high-tech and arms industries, from the Israeli-Palestinian conflict to the migration of Africans to Israel and back again, Gidron provides a comprehensive analysis of the various forces and actors shaping Israel's controversial relationships with countries on the continent. In particular, the book demonstrates that Israel's interest in Africa forms part of a wider diplomatic effort, aimed at blocking Palestine's pursuit of

international recognition. Though the scale of Israeli-African engagements has been little appreciated until now, the book reveals how contemporary African and Middle Eastern politics and societies interact and impact each other in profound ways.

Israel in Africa

Offers a complete sociological perspective of Jews and Jewish life in Israel from 1948 to the present.

Jews in Israel

This book explores the current historical moment through works of popular culture produced in, and on, the Middle East and North Africa region, Turkey, and Iran. Essays consider gender, racial, political, and other issues in film, cartoons, talk shows, music, dance, blogs, graphic novels, fiction, fashion, and advertisements.

Popular Culture in the Middle East and North Africa

In 1948, Britain withdrew from Palestine, bringing to an end its 30 years of rule in the territory. What followed has been well-documented and is perhaps one of the most intractable problems of the post-imperial age. However, the long-standing connection between Britain and Palestine before May 1948 is also a fascinating story. This volume takes a fresh look at the years of the British mandate for Palestine; its politics, economics, and culture. Contributors address themes such as religion, mandatory administration, economic development, policy and counter-insurgency, violence, art and culture, and decolonization. This book will be valuable to scholars of the British mandate, but also more broadly to those interested in imperial history and the history of the West's involvement in the Middle East.

Britain, Palestine and Empire: The Mandate Years

This book examines political, social, and cultural changes in Palestine and Israel from the 1993 Oslo Accords through the second Palestinian uprising and the death of Yasser Arafat. It also explains the failures of the Oslo process and considers the prospects for a just and lasting peace in the region.

The Struggle for Sovereignty

This book addresses the major generators of conflict and toleration at shared holy places in Palestine and Israel. Examining the religious, political and legal issues, the authors show how the holy sites have been a focus of both conflict and cooperation between different communities. Bringing together the views of a diverse group of experts on the region, *Holy Places in the Israeli-Palestinian Conflict* provides a new and multifaceted approach to holy places, giving an in-depth analysis of relevant issues. Themes covered include legal regulation of holy places; nationalization and reproduction of holy space; sharing and contesting holy places; identity politics; and popular legends of holy sites. Chapters cover in detail how recognition and authorization of a new site come about; the influence of religious belief versus political ideology on the designation of holy places; the centrality of such areas to the surrounding political developments; and how historical background and culture affect the perception of a holy site and relations between conflicting groups. This new approach to the study of holy places and the Israeli-Palestinian conflict has great significance for a variety of disciplines, and will be of great interest in the fields of law, politics, religious studies, anthropology and sociology.

Holy Places in the Israeli-Palestinian Conflict

The invasion of Lebanon was the culmination of an extraordinary change which New Zionism created in Israel's foreign policy system. This book, first published in 1986, examines how New Zionism came to dominate Israeli politics and it investigates the implications of this new ideology for the future of the Middle East. The author agrees that after the creation of the State of Israel, the belief system of the evolving society gradually changed. After the Six-Day War the ideology of Socialist Zionism became increasingly discredited and replaced by the New Zionist quest for Eretz Israel. Hardened by the harsh experience of the continuing Arab-Israeli conflict and enhanced by the threatening image of the enemy, the political culture in Israel became less tolerant and more receptive to the language of New Zionism. As a result, Begin's Likud came to power in 1977 and quickly changed the whole basis of Israel's foreign policy. Instead of the cautious pragmatism of Socialist Zionism the Begin government pursued the 'grand design' that had enjoyed a long tradition in Revisionist thinking. Although General Sharon was responsible for the actual conduct of the war, it was the New Zionist propensity to use military force

to introduce a new order in the Middle East which was responsible for the invasion. The book suggests that it is still too early to assess the full impact of the war in Lebanon on New Zionism. Although the war failed to validate any of the 'grand design' tenets of New Zionism, the violent Shiite response in Southern Lebanon may serve to strengthen the New Zionist hard line. This could hasten the annexation of the occupied territories as the final stage of turning the State of Israel into the Land of Israel.

New Zionism and the Foreign Policy System of Israel (RLE Israel and Palestine)

This book surveys discourse and opinion in the United States toward the Arab-Israeli conflict since 1991. Contrary to popular myth, it demonstrates that U.S. support for Israel is not based on the pro-Israel lobby, but rather is deeply rooted in American political culture. That support has increased since 9/11. However, the bulk of this increase has been among Republicans, conservatives, evangelicals, and Orthodox Jews. Meanwhile, among Democrats, liberals, the Mainline Protestant Church, and non-Orthodox Jews, criticism of Israeli policies toward the Palestinians has become more vociferous. This book works to explain this paradox.

The Arab-Israeli Conflict in American Political Culture

The Gulf states. Two introductory chapters on political and economic history set the broader context. The main text focuses on the experience of everyday people from Ottoman and colonial times through the present. Rural and urban history, popular culture, music, literature, theatre and other media, women, and the many faces of Islam are the chapter topics. The Modern Middle East

A unique Israeli national culture—indeed, the very nature of "Israeliness"—remains a matter of debate, a struggle to blend vying memories and backgrounds, ideologies and wills. Identifying popular music as an important site in this wider cultural endeavor, this book focuses on the three major popular music cultures that are proving instrumental in attempts to invent Israeliness: the invented folk song repertoire known as Shirei Eretz Israel; the contemporary, global-cosmopolitan Israeli rock; and the ethnic-oriental musica mizrahit. The result is the first ever comprehensive study of popular music in Israel. Motti Regev, a sociologist, and Edwin Seroussi, an ethnomusicologist, approach their subject from alternative perspectives, producing a truly interdisciplinary, sociocultural account of music as a feature and a force in the shaping of Israeliness. A major ethnographic undertaking, describing and analyzing the particular history, characteristics, and practices of each music culture, *Popular Music and National Culture in Israel* maps not only the complex field of Israeli popular music but also Israeli culture in general.

Popular Music and National Culture in Israel

"In this interdisciplinary book, a group of international authors strives to cultivate a better future for the people of Israel-Palestine through recognition of the part that cultural products have played in the duplication of the Israeli-Palestinian conflict. While this conflict is one of the longest-lasting struggles over land and human rights in recent history, politicians and the media have largely reduced it to a series of debates over historical facts and expressions of violence. Its persistence, however, has also led to the manufacture of cultural products that challenge understandings of the conflict as a fight between two distinct peoples unified against each other. Contributors to *Visioning Israel-Palestine* analyse the content of such products alongside the work that they do within Israel-Palestine and in the Jewish and Palestinian diasporas. They largely draw on the legacy of nonconformist intellectual Edward Said, who saw culture as a participant in the perpetuation of the conflict, as well as a vehicle capable of leading the way towards its just resolution. The chapters in the volume consider Israeli and Palestinian films, art installations, street exhibitions, photographs and oral histories to expand the conflict's historical imagination and nurture suitable cultural conditions to revitalise the Israeli-Palestinian peace process."--

Visioning Israel-palestine

In the last two decades, amid the global spread of smartphones, state killings of civilians have increasingly been captured on the cameras of both bystanders and police. *Screen Shots* studies this phenomenon from the vantage point of the Israeli occupation of Palestinian territories. Here, cameras

have proliferated as political tools in the hands of a broad range of actors and institutions, including Palestinian activists, Israeli soldiers, Jewish settlers, and human rights workers. All trained their lens on Israeli state violence, propelled by a shared dream: that advances in digital photography—closer, sharper, faster—would advance their respective political agendas. Most would be let down. Drawing on ethnographic work, Rebecca L. Stein chronicles Palestinian video-activists seeking justice, Israeli soldiers laboring to perfect the military's image, and Zionist conspiracy theorists accusing Palestinians of "playing dead." Writing against techno-optimism, Stein investigates what camera dreams and disillusionment across these political divides reveal about the Israeli and Palestinian colonial present, and the shifting terms of power and struggle in the smartphone age.

Disavowals

"In May 1930, Editions Carrefour of Paris published 500 copies of a book called *Aveux non Avenus*, in which Cahun explored these same dialectics in book form. It is the nearest thing to a memoir Cahun wrote, but in fact the book is an anti-memoir, a critique of autobiography, where she uses subversive photomontages and statements to present herself as a force of genius possessed of the need to resist identification and to maintain within herself "the mania of the exception." *Disavowals* is the first appearance of that work, widely considered to be her most important text, in English."--BOOK JACKET.

Gillian Wearing and Claude Cahun

Published to accompany an exhibition held at the National Portrait Gallery, London, 9 March-29 May 2017

Don't Kiss Me

Edited by Louise Downie. Essays by James Stevenson, Katharine Conley, Gen Doy, Claire Follain, Tirza True Latimer, Jennifer Shaw and Kristine von Oehsen.

Reading Claude Cahun's Disavowals

The first monograph on a Surrealist cult classic, *Reading Claude Cahun's Disavowals* offers a comprehensive account of Cahun's most important published work, *Aveux non avenues* (Disavowals), 1930. Jennifer L. Shaw provides an encompassing interpretation of this groundbreaking work, paying careful attention to the complex interrelationship between the photomontages and writings of *Aveux non avenues*. This study argues that the texts and images of *Aveux non avenues* not only explore Cahun's own subjectivity, they formulate a trenchant social and cultural critique. Shaw explores how Cahun's work both calls into question the dominant culture of interwar France - with its traditional gender roles, religious conservatism, and pronatalism - and takes to task the era's artistic avant-garde and in particular its models of desire. This volume cuts across the disciplinary boundaries of interwar art studies, demonstrating how one artist's personal exploration intervened in wider contemporary debates about the purpose of art, the role of women in French culture, and the status of homosexuality, in the aftermath of World War I.

The Secret History of Al Qaeda

Drawing on unparalleled access to Osama bin Laden and his key associates, journalist Abdel Bari Atwan gives an incisive and timely account of the rise of the notorious terrorist organization, al Qaeda.

The Unknown Heroine

THE UNKNOWN HEROINE is a limited edition artists' book made by conceptual artist Sherry Wiggins in collaboration with photographer Luís Filipe Branco. The book is comprised of text and images that are based on Wiggins's interaction with French photographer and writer Claude Cahun's essay "THE ESSENTIAL WIFE or the the Unknown Princess." The book includes this essay by Claude Cahun as well as an essay by curator and writer Cydney Payton.

Mayakovsky, Russian Poet

The Russian poet Vladimir Mayakovsky was the author Elsa Triolet's first love. This memoir of him in was written in 1939 - nine years after his suicide aged 36. It reveals a paradoxical character: an enthusiastic womaniser who remained deeply in love with one woman until the day he died; a genius who often played the buffoon; a joyful extrovert so raw and prone to despair that he shot himself through the heart. This volume also includes some verses by Mayakovsky not translated into English.

Islamic State

Islamic State (also known as ISIS, ISIL, and Daesh) stunned the world when it overran an area the size of Great Britain on both sides of the Iraq-Syria border in a matter of weeks and proclaimed the birth of a new Caliphate. In this timely and important book, Abdel Bari Atwan draws on his unrivaled knowledge of the global jihadi movement and Middle Eastern geopolitics to reveal the origins and modus operandi of Islamic State. Based on extensive field research and exclusive interviews with IS insiders, Islamic State outlines the group's leadership structure, as well as its strategies, tactics, and diverse methods of recruitment. Atwan traces the Salafi-jihadi lineage of IS, its ideological differences with al Qaeda and the deadly rivalry that has emerged between their leaders. He also shows how the group's rapid growth has been facilitated by its masterful command of social media platforms, the "dark web," Hollywood blockbuster-style videos, and even jihadi computer games, producing a powerful paradox where the ambitions of the Middle Ages have reemerged in cyberspace. As Islamic State continues to dominate the world's media headlines with horrific acts of ruthless violence, Atwan considers the movement's chances of survival and expansion and offers indispensable insights on potential government responses to contain the IS threat.

Guarding Bin Laden: My Life in Al-Qaeda

In the turmoil of the 1920s and '30s, Claude Cahun challenged gender stereotypes with her powerful photographs, montages, and writings, works that appear to our twenty-first-century eyes as utterly contemporary, or even from the future. She wrote poetry and prose for major French literary magazines, worked in avant-garde theater, and was both comrade of and critical outsider to the Surrealists. *Exist Otherwise* is the first work in English to tell the full story of Claude Cahun's art and life, one that celebrates and makes accessible Cahun's remarkable vision. Jennifer L. Shaw embeds Cahun within the exciting social and artistic milieu of Paris between the wars. She examines her relationship with Marcel Moore--Cahun's stepsister, lover, and life partner--who was a central collaborator helping make

some of the most compelling photographs and photomontages of Cahun's oeuvre, dreamscapes of disassembled portraiture and scenes that simultaneously fascinate and terrify. Shaw follows Cahun into the horrors of World War II and the Nazi occupation of the island of Jersey off the coast of Normandy, and she explores the powerful and dangerous ways Cahun resisted it. Reading through her letters and diaries, Shaw brings Cahun's ideas and feelings to the foreground, offering an intimate look at how she thought about photography, surrealism, the histories of women artists, and queer culture. Offering some of Cahun's writings never before translated into English alongside a wide array of her artworks and those of her contemporaries, this book is a must-have for any fan of this iconic artist or anyone interested in this crucial period in artistic and cultural history.

Exist Otherwise

This is the first single-authored book in English on the photographer Claude Cahun, whose work was rediscovered in the 1980s. Doy moves beyond standard postmodern approaches, instead repositioning the artist, born Lucy Schwob, in the context of the turbulent times in which she lived and seeing the photographs as part of Cahun's wider life as an artist and writer, a woman and lesbian and as a political activist in the early twentieth century. Doy rethinks Cahun's approach to dress and masquerade, looking at the images in light of the situation of women at the time and within the prevailing 'beauty' culture. Addressing Cahun's ambivalent relationship with Symbolism and later relationship with Surrealism, this highly readable book also looks at Cahun's unusual approach to the domestic object.

Claude Cahun

These sixteen illustrated essays present an important revision of surrealism by focusing on the works of women surrealists and their strategies to assert positions as creative subjects within a movement that regarded woman primarily as an object of masculine desire or fear. While the male surrealists attacked aspects of the bourgeois order, they reinforced the traditional patriarchal image of woman. Their emphasis on dreams, automatic writing, and the unconscious reveal some of the least inhibited masculine fantasies. The first resistance to the male surrealists' projection of the female figure arose in the writings and paintings of marginalized woman artists and writers associated with Surrealism. The essays in this collection explore the complexity of these women's works, which simultaneously employ and subvert the dominant discourse of male surrealists. Surrealism and Women

Exploring more than a dozen personal collections of contemporary artists, this unique and revealing book probes the aesthetic and psychological dimensions of collecting and shows how objects can influence and reflect their owners' work. A lead essay examines the reasons why artists collect, attempting to understand the relationship between the objects artists amass and the works they make, and contributions by or on each of the artists reflect on the personal significance of collecting habits.

American Porn

Beginning with Paul Strand's landmark *From the Viaduct* in 1916 and continuing through the present day, *Photography's Last Century* examines defining moments in the history of the medium. Featuring nearly 100 masterworks from one of the most important private holdings of photography, the book includes works by Diane Arbus, Richard Avedon, Walker Evans, László Moholy-Nagy, Man Ray, and Cindy Sherman, as well as a diverse group of important lesser-known practitioners. A fascinating interview with Ann Tenenbaum provides a personal account of the works, while the main text offers an essential history of photography that addresses the implications of calling this period the medium's "last" century.

Magnificent Obsessions

In this illuminating book, art historian Thomas Puttfarcken examines how pictorial composition and attitudes toward it changed between the early Renaissance and the beginning of the nineteenth century. Before 1600, a painting's overall composition was hardly ever discussed. As far as art theory and criticism were concerned, pictorial composition was a "discovery" of the seventeenth century, the author explains. In the first part of the book, Puttfarcken investigates why pictorial composition did not figure in earlier accounts of the art. In Italy artists and patrons focused on large-scale wall paintings or altarpieces and on the presentation of life-size saints or protagonists whose physical proportions and interactions in narratives were considered more important than notions of overall effect or pictorial format. The second part of the book discusses the discovery of composition and its consequences for both the theory and practice of painting, understood as the production of tableaux, or easel pictures. Puttfarcken considers the effects on paintings of size, location, perspective, and relief, the relationship between ground and figures and between image and frame, and the different traditions defining Italian and Northern art. For readers with an interest in the theory and history of European art, this book is full of rich insights and fresh analyses.

Perspective of Nudes

Award-winning artist and illustrator Sara Fanelli's inspiration lies not only in the visual arts but also in literature and the theatre. *"Sometimes I Think, Sometimes I Am"* is a remarkable creation, in which Fanelli takes the quotations and aphorisms that inspire her work. This book contains five 'chapters' that make up this unique work.

Photography's Last Century

Experience the glamor and excitement of the Jazz Age, through the lives of the women who defined it. It was a time of unimagined new freedoms. From the cafés of Paris to Hollywood's silver screen, women were exploring new modes of expression and new lifestyles. In countless aspects of life, they dared to challenge accepted notions of a "fairer sex," and opened new doors for the generations to come. What's more, they did it with joy, humor, and unapologetic charm. Exploring the lives of seventeen artists, writers, designers, dancers, adventurers, and athletes, this splendidly illustrated book brings together dozens of photographs with an engaging text. In these pages, readers will meet such iconoclastic women as the lively satirist Dorothy Parker, the avant-garde muse and artist Kiki de Montparnasse, and aviation pioneer Amelia Earhart, whose stories continue to offer inspiration for our time. *Women of the 1920s* is a daring and stylish addition to any bookshelf of women's history.

The Discovery of Pictorial Composition

The first monograph on a Surrealist cult classic, *Reading Claude Cahun's Disavowals* offers a comprehensive account of Cahun's most important published work, *Aveux non avenues* (Disavowals), 1930. Sometimes I Think, Sometimes I Am

This open access book offers innovative and wide-ranging responses to the continuously flourishing literary phenomenon of autofiction. The book shows the insights that are gained in the shift from the genre descriptor to the adjective, and from a broad application of "the autofictional" as a theoretical lens and aesthetic strategy. In three sections on "Approaches," "Affordances," and "Forms," the volume proposes new theoretical approaches for the study of autofiction and the autofictional, offers fresh perspectives on many of the prominent authors in the discussion, draws them into a dialogue with autofictional practice from across the globe, and brings into view texts, forms, and media that have not traditionally been considered for their autofictional dimensions. The book, in sum, expands the parameters of research on autofiction to date to allow new voices and viewpoints to emerge.

Women of the 1920s

From the abundance of Post-Modern photographic strategies currently in use this book focuses upon what is surely the most spectacular: the "constructed" photograph. The term refers to works of photography in which the motif has been staged especially for the picture and in which the respective artist, in addition to his role as a photographer, also plays the part of director, stage and costume designer, make-up artist and from time to time of performer as well. The main section of the book is followed by a selection of works that recapitulates the pre-history of the "arranged and staged" photograph beginning in the late 1960s and recreates the climate in which the photographer-stagecrafters of the 1980s found their point of departure.

Reading Claude Cahun's Disavowals

This is the first time Aragon's seminal French surrealist text has been published in English as a single volume and the translation is accompanied by a CD of eight spoken extracts set to music by Tymon Dogg and Alex Thomas. Aragon's extraordinary prose-poem-essay *A Wave of Dreams* (*Une vague de rêves*), is a compelling, lyrical, first-hand account of the early days of surrealist experimentation in Paris. Writing in 1924, Aragon vividly describes, and philosophically evaluates, the inner adventures, the hallucinations and encounters with the 'Marvellous' which took the young surrealists to the brink of insanity as a revolutionary new era in Art History was born."

The Autofictional

A talented writer and especially photographer, Claude Cahun (1894-1954) was often mistaken for a man and was thought to have died as a resistance activist during World War II. Her work has been rediscovered recently and exhibited in London, New York, and Paris. Exploring every aspect of bisexuality and androgyny, Cahun's photography has a powerful contemporary resonance. 100 photos.

Constructed Realities

A Wave of Dreams

Photography has transformed the way we picture ourselves. Although photographs seem to "prove" our existence at a given point in time, they also demonstrate the impossibility of framing our multiple and fragmented selves. As Linda Haverty Rugg convincingly shows, photography's double take on self-image mirrors the concerns of autobiographers, who see the self as simultaneously divided (in observing/being) and unified by the autobiographical act. Rugg tracks photography's impact on the formation of self-image through the study of four literary autobiographers concerned with the transformative power of photography. Obsessed with self-image, Mark Twain and August Strindberg both attempted (unsuccessfully) to integrate photographs into their autobiographies. While Twain encouraged photographers, he was wary of fakery and kept a fierce watch on the distribution of his photographic image. Strindberg, believing that photographs had occult power, preferred to photograph himself. Because of their experiences under National Socialism, Walter Benjamin and Christa Wolf feared the dangerously objectifying power of photographs and omitted them from their autobiographical

writings. Yet Benjamin used them in his photographic conception of history, which had its testing ground in his often-ignored Berliner Kindheit um 1900. And Christa Wolf's narrator in *Patterns of Childhood* attempts to reclaim her childhood from the Nazis by reconstructing mental images of lost family photographs. Confronted with multiple and conflicting images of themselves, all four of these writers are torn between the knowledge that texts, photographs, and indeed selves are haunted by undecidability and the desire for the returned glance of a single self.

Claude Cahun

What does it mean to look like a lesbian? Though it remains impossible to conjure a definitive image that captures the breadth of this highly nuanced term, today at least we are able to consider an array of visual representations that have been put into circulation by lesbians themselves over the last six or seven decades. In the early twentieth century, though, no notion of lesbianism as a coherent social or cultural identity yet existed. In *Women Together/Women Apart*, Tirza True Latimer explores the revolutionary period between World War I and World War II when lesbian artists working in Paris began to shape the first visual models that gave lesbians a collective sense of identity and allowed them to recognize each other. Flocking to Paris from around the world, artists and performers such as Romaine Brooks, Claude Cahun, Marcel Moore, and Suzy Solidor used portraiture to theorize and visualize a "new breed" of feminine subject. The book focuses on problems of feminine and lesbian self-representation at a time and place where the rights of women to political, professional, economic, domestic, and sexual autonomy had yet to be acknowledged by the law. Under such circumstances, same-sex solidarity and relative independence from men held important political implications. Combining gender theory with visual, cultural, and historical analysis, Latimer draws a vivid picture of the impact of sexual politics on the cultural life of Paris during this key period. The book also illuminates the far-reaching consequences of lesbian portraiture on contemporary constructions of lesbian identity.

Looking in

A serious and independent contribution to the literature of autobiography. -- John Sturrock
French Studies
Clearly a landmark study. It seems certain to provoke a great deal of productive debate among those concerned with any of the many issues it raises. -- Comparative Literature
The literary self-portrait, often considered to be an ill-formed autobiography, is receiving more attention as a result of the current obsession with personal narrative, but little progress has been made toward an understanding of its specific features. With *Poetics of the Literary Self-Portrait*, Michel Beaujour reveals the hidden ambitions of this genre. From St. Augustine to Montaigne, from Nietzsche to Malraux, Leiris and Barthes, individual self-portraits are analyzed jointly with the enduring cultural matrix from which self-portrayal derives its disconcerting non-narrative structure, and many of its recurrent topics.

Picturing Ourselves

The development of Internet art has been short and rapid and dates from the introduction of web browsers in the mid-1990s. Artists realized the potential of a medium and system of delivery that side-stepped the mainstream art institutions and allowed them to make direct contact with an audience. Their interventions have ranged from works that deconstruct the browser itself, to works that shade into political activism. Internet art has been international, with distinct contributions emerging from the US, the Far East, Europe, the countries of the former Eastern Bloc, and the Third World.

Women Together/Women Apart

"This fascinating and well-researched book explores a little-examined side of Surrealism with rigor and style. Lyford has delved into little-known archives, finding means to put pressure on the gendered relationships within the movement and, most important, on the Surrealists' conceptions and experiences of masculinity. *Surrealist Masculinities* will become a classic resource for all scholars of Surrealism and the highly gendered literary and artistic subcultures of early twentieth-century Europe and North America."--Amelia Jones, Professor and Pilkington Chair, University of Manchester

Poetics of the Literary Self-Portrait

In 1921, an up-and-coming artist named Man Ray convinced his patron, Ferdinand Howald, to pay his fare from New York to Paris and to support him there for a year. He quickly fell in with the Dadaists, and his art changed. He pioneered a new art form, a cameraless photograph he called the 'Rayograph'.

Champs délicieux documents that year in Paris by reproducing the correspondence between Man Ray and Howald and by publishing Howald's personal copy of Ray's album (also Champs délicieux) from that year - the first significant body of Ray's work. By placing these images in the context of the letters, Champs délicieux recreates an important turning point in Ray's career and a definitive moment in art history. This collection, exhibited in the fall of 2000 by co-publisher University of Toronto Art Centre, was edited by Steven Manford, who is currently assembling, with Timothy Baum, a catalogue raisonné of the Rayographs.

Surrealist Masculinities

The classic Photofile series brings together the best work of the world's greatest photographers in an attractive format and at a reasonable price. Handsome and collectible, the books each contain reproductions in color and/or duotone, plus a critical introduction and a bibliography. Paris in the early 1920s saw the growth of a new art form called surrealism. Both a formal movement and a spiritual orientation, surrealism embraced ethics and politics as well as the arts. Surrealists sought to create a medium that liberated the subconscious mind, and many artists and photographers captured this revolution through photographic images. This new survey includes works by Max Ernst, Dora Maar, Lee Miller, René Magritte, Meret Oppenheim, and more.

Champs Délicieux

Claude Cahun is the most important artist you've never heard of - until now. Writer, photographer, lesbian; revolutionary activist, surrealist, resistance fighter - Cahun witnessed the birth of the Paris avant-garde, lived through two World Wars and, as 'Der Soldat ohne Namen', risked death by inciting mutiny on Nazi-occupied Jersey. And yet, she's until recently been merely a peripheral figure in these world-shaping events, relegated by academics to the footnotes in the history of art, sexual politics and revolutionary movements of the last century. Now more so than ever, Cahun demands a significant presence in the history of surrealism and the avant-garde - even, in the literary canon of early twentieth-century literature. Indeed her one major book, *Disavowals*, is a masterpiece of anti-memoir writing. Much has been made of her as a photographer, but Claude Cahun 'the writer' was one of the most radical and prescient leftists of the century. At a time when her star is rising like never before *Claude Cahun: The Soldier With No Name* represents the first explicit attempt in English to posit Cahun as an important figure in her own right, and to popularise one of the most prescient and influential artists of her generation.

Surrealist Photography

In this highly illustrated survey, art historian and critic James Hall brilliantly maps the history of self-portraiture, from the earliest myths of Narcissus to the prolific self-image-making of contemporary artists. This intelligent and vivid account shows how artists' depictions of themselves have been part of a continuing tradition that reaches back for centuries. It reveals the importance of the medieval 'mirror craze'; the explosion of the genre during the Renaissance; the confessional self-portraits of Titian and Michelangelo; the role of biography for serial self-portraitists such as Courbet and van Gogh; themes of sex and genius in works by Munch, Bonnard and Modersohn-Becker; and the latest developments of the genre in the era of globalization. 'There is never a dull passage in this book: the detail is crisply imparted; the content richly arcane at times, but more usually profoundly human; the ideas come freshly coined.' - The Guardian
