Terms in Context applies the methodology that has been developed over the last two decades in corpus linguistics to the relatively new and still little developed field of corpus-based terminography. While corpora are already being used by some terminologists for the identification of terms and retrieval of contextual fragments, this book describes the first attempt to use corpora for terminography in much the same way as large general reference corpora are already being used for general language lexicography. The author goes beyond the standard problem of identifying terms as opposed to non-terminological lexical items in text and focuses on identifying metalanguage patterns which point to the presence in text of (parts of) reusable definitions of terms. The author examines these patterns and shows how the information which they contain can be retrieved and used as input for terminological entries. Terms in Context should be of interest to 'traditional' terminologists who have not previously considered adopting a corpus-based approach to their work or at least not on the scale proposed here; to 'modern'

terminologists who use text primarily for the identification of terms and the retrieval of contextual examples; to those in the corpus linguistic community who have hitherto used general language corpora for the purposes of lexicography and have not previously considered using special purpose corpora for more specific lexicography studies; and to academics in the ESP/LSP community who are interested in showing students how to use text as a means of ascertaining the meaning of terms.

Since the advent of the computer, terminology management can be carried out by almost anyone who has learnt to use a computer. Terminology management has proved to be an efficient tool in international communications in industry, education and international organisations. Software packages are readily available and international corporations often have their own terminology database. Following these developments, translators and terminologists are confronted with a specialised form of information management involving compilation and standardisation of vocabulary, storage, retrieval and updating. A Practical Course in Terminology Processing provides the key to methods of terminology management for the English language, for general and specific purposes. This unique course has been developed on the basis of years of teaching experience and research at the University of Manchester Institute of Science and Technology (UMIST, UK) and is particularly suitable for translation courses, freelance translators, technical writers, as well as for non-linguists who are confronted with terminology processing as part of their profession. The 1996 reprint of the paperback edition includes an index.

In the era of information technology, the need to communicate data effectively and precisely has given a boost to research in terminology. This collection of 14 articles by experts from different backgrounds deals with linguistic problems and technical aspects of terminology; in addition, there are articles relating to terminology in specific subject fields – lexicography, physical sciences, chemistry, social sciences and medicine. By presenting various approaches and applications, the volume raises fundamental questions about the use of concepts and the ordering of knowledge. Moreover, important new insights into the principles and methods employed in terminology management are offered by the ways in which contributors have tackled problems of communication in their specific subject fields.

Best Short Stories

The Large Print Edition of "Best Short Stories Book One" by AZ Writers contains over 40 captivating stories written by 37 different authors possessing an outstanding range of talent. Unlike many other Short Story collections, in this book, the reader will experience the writing voice and style of many authors. Whereas in most other collections the reader is confronted with a dozen or more stories written by one author who writes stories with the same voice, the same style, and with the same plot, which after a story or two, becomes quite boring. Or, as in many other collections, the reader will find stories written 100 years ago by authors who are no longer with us. In "Best Short Stories Book One" by AZ Writers, the reader will find a contemporary multi-genre collection of stories by dozens of authors who are still, as of this writing, on the green side of the grass. AZ Writers "Best Short Stories Book One" includes memoir stories, historical fiction, creative non-fiction, and many other well-written pieces that will amuse, intrigue, and captivate the reader. A few of these stories may make you laugh, and a few may bring a tear to your eye. In this collection, you will find well-crafted stories with irony, sarcasm, adventure, mystery, crime, and a couple of stories with a bit of romance.

The Complete Short Stories

The Complete Short Stories of Roald Dahl in the first of two unsettling and sinister volumes. 'They are brutal, these stories, and yet you finish reading each one with a smile, or maybe even a hollow laugh, certainly a shiver of gratification, because the conclusion always seems so right' Charlie Higson, from his introduction. Roald Dahl is one of the most popular writers of the modern age, effortlessly writing for children and adults alike. In this, the first of two volumes chronologically collecting all his published adult short stories, we see how Dahl began by using his experiences in the war to write fiction but quickly turned to his powerful and dark imagination to pen some of the most unsettling and disquieting tales ever written. In 27 stories, written between 1944 and 1953, we encounter such classic tales as 'Man from the South', featuring a wager with appalling consequences; 'Lamb to the Slaughter', in which a wife murders her husband yet has a novel idea for throwing the police off the scent; and in 'The Sound Machine', the horrific truth about plants is revealed. Enter the sinister, twisted world of Roald Dahl: whether you're young or old, you'll never want to leave. 'Roald Dahl is one of the few writers I know whose work can accurately be described as addictive' Irish Times 'The great magician' Spectator Look out for Volume Two, introduced by Anthony Horowitz Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

The Penguin Book of Modern British Short Stories

This anthology is in many ways a 'best of the best', containing gems from thirty-four of Britain's outstanding contemporary writers. It is a book to dip into, to read from cover to cover, to lend to friends and read again. It includes stories of love and crime, stories touched with comedy and the supernatural, stories set in London, Los Angeles, Bucharest and Tokyo. Above all, as you will discover, it satisfies Samuel Butler's anarchic pleasure principle: 'I should like to like Schumann's music better than I do; I daresay I could make myself like it better if I tried; but I do not like having to try to make myself like things; I like things that make me like them at once and no trying at all ...'

The Collected Short Stories of Roald Dahl

(Book Jacket Status: Jacketed) The only hardcover edition of Roald Dahl's stories for adults, the "Collected Stories" amply showcases his singular gifts as a fabulist and a born storyteller. Later known for his immortal children's books, including "Charlie and the Chocolate Factory, James and the Giant Peach, "and "The BFG, "Dahl"also had a genius for adult short fiction, which he wrote throughout his life. Whether fictionalizing his dramatic exploits as a Royal Air Force pilot during World War II or concocting the ingeniously plotted fables that were dramatized on television as "Tales of the Unexpected," Dahl was brilliant at provoking in his readers the overwhelming desire to know what happens next--and at satisfying that desire in ways that feel both surprising and inevitable. Filled with devilish plot twists, his tales display a tantalizing blend of macabre humor and the absurdly grotesque. From "The Landlady," about an unusual boardinghouse that features a small but very permanent clientele, to "Pig," a brutally funny look at vegetarianism, to "Man from the South," in which a fanatical gambler does his betting with hammer, nails, and a butcher's knife, Dahl's creations amuse and shock us in equal measure, gleefully reminding us of what might lurk beneath the surface of the ordinary.

Claiming One

"You run or you fight. Pick either one, but do something." The distinct characters in Claiming One are both incredibly loving and tragically flawed: far from finding what they seek, and an even longer way from peace. Often, we arrive to their story on the heels of a major change, whether actual or symbolic, and each story offers a glimpse into the characters' moment of choice. We witness perilous options, discoveries and decisions, all while considering the flawless humanity presented to us. This

powerful collection brings together 17 short stories linked together by flight or denial. Author E.J. Runyon masterfully intertwines a lop-sided trail of hope, found in the hearts of the characters, to thread these tales together. ----- "Runyon tells her stories with an unashamed truthfulness--what seems to be almost an unaware truthfulness. The work is edgy, but never for the sake of edginess. At the same there exists a compelling emotional accessibility. If you are willing to risk reading, this will challenge you, capture your attention, and dare you to continue till the very last." -Catherine Ryan Hyde, acclaimed author of *Pay It Forward*, *Jumpstart the World*, and 16 other novels.

Russian Short Stories from Pushkin to Buida

From the reign of the Tsars in the early 19th century to the collapse of the Soviet Union and beyond, the short story has long occupied a central place in Russian culture. Included are pieces from many of the acknowledged masters of Russian literature - including Pushkin, Turgenev, Dostoyevsky, Tolstoy, and Solzhenitsyn - alongside tales by long-suppressed figures such as the subversive Kryzhanowsky and the surrealist Shalamov. Whether written in reaction to the cruelty of the bourgeoisie, the bureaucracy of communism or the torture of the prison camps, they offer a wonderfully wide-ranging and exciting representation of one of the most vital and enduring forms of Russian literature.

Jesus' Son

Eleven stories narrated by a young recovering alcoholic, whose dependency has led him to crime, cruelty, and loss in the Midwest, depict the disparity of emotions that constitute the American experience.

The Collected Short Stories

The Collected Short Stories brings together three of Jeffrey Archer's classic collections of short stories: *A Quiver Full of Arrows*, *A Twist in the Tale* and *Twelve Red Herrings*. Every reader will have their own favourites: the choices run from an imprisoned man who is certain that his supposed murder victim is very much alive, to a female driver pursued relentlessly by a menacing figure in another vehicle. An offhand remark is taken seriously by a Chinese sculptor in one tale, while a British diplomat unexpectedly becomes the owner of a priceless work of art in another . . . And over three of the stories, discover a hauntingly written, atmospheric account of two undergraduates at Oxford in the thirties: a tale of bitter rivalry that ends in a memorable love story. These stories are packed full of the master storyteller's unexpected twists, richly drawn characters and ingenious, witty denouements – some will make you laugh, others will bring you to tears. And, as always, every one of them will keep you spellbound.

A Love So True

London – 1940 As German bombs rain down upon the city of London, Emma Bradley hastily packs a suitcase, cradles her newborn son in her arms, and boards a train with two evacuee children she's agreed to chaperone in exchange for a job in the south of England. Although she's only one of thousands leaving the city, Emma is fleeing more than the horrors of war. Her greatest fear is that the father of her child will track her down and exact revenge for what she's stolen from him. World renowned Dutch concert pianist Andrej Van der Hoosen is a man who cherishes his privacy above all else. His wealth and privilege have afforded him the luxury of avoiding being around children because of a painful loss from his own past. So, when he meets the woman and children he'll reside with for the duration of the war, he's instantly on guard. The children are boisterous and full of life, the cottage they're assigned to live in is small, and he finds himself intrigued by the secret Emma is so clearly trying to hide. Despite their reluctance to trust each other, Emma and Andrej soon find themselves drawn together in a world torn apart by war.

The last 50 years have proved a particularly lively period in the history of the short story form. This new collection gives a full picture of the richness and diversity of this most American of genres from its very beginnings to the present day. The collection offers a freshly stimulating combination of old favourites such as Mark Twain's 'Jim Smiley's Jumping Frog' and Edgar Allan Poe's 'The Tell-Tale Heart', unfamiliar works by well-known authors, such as Ernest Hemingway's 'Out of Season', Stephen Crane's 'An Episode of War' and F. Scott Fitzgerald's 'The Lost Decade', and some remarkable stories by wonderful but less well known writers such as Mary Wilkins Freeman and Charles W. Chestnutt who deserve a wider audience. It's a compact book but it covers a lot of ground. There are 31 stories, covering 199 years (that is, the first story was published in 1807; the last is from 2006). The final three authors are Lorrie Moore, Jhumpa Lahiri and Lydia Davis. 'The stories here will provoke, delight and impress. Joost Zwagerman's selection forms a fascinating guidebook to a landscape you'll surely want to wander in again.' Clare Lowden, TLS 'There is a lot of northern European melancholy in the collection, though often tinged with wry humour...an excellent book' Jonathan Gibbs, Minor Literatures 'We were kids - but good kids. Blending unforgettable snapshots of the realities of everyday life with surrealism, fantasy and subversion, this collection shows Dutch writing to be an integral part of world literary history. Joost Zwagerman (1963-2015) was a novelist, poet, essayist and editor of several anthologies. He started his career as a writer with bestselling novels, describing the atmosphere of the 1980s and 1990s, such as Gimmick!(1988) and False Light (1991). In later years, he concentrated on writing essays - notably on pop culture and visual arts - and poetry. Suicide was the theme of the novel Six Stars (2002). He took his own life just after having published a new collection of essays on art, The Museum of Light.

Shorts Volume One

A spectacular treasury of the best British short stories published in the last twenty years We are living in a particularly rich period for British short stories. Despite the relative lack of places in which they can be published, the challenge the medium represents has attracted a host of remarkable, subversive, entertaining and innovative writers. Philip Hensher, following the success of his definitive Penguin Book of British Short Stories, has scoured a vast trove of material and chosen thirty great stories for this new volume of works written between 1997 and the present day.

The Penguin Book of the Contemporary British Short Story

Angus Wilson's first volume of short stories, The Wrong Set was first published in 1949 to immense critical acclaim. The collection is a brilliantly funny exposure of the protective devices with which people seek to mask deep-laid egotism. There is the wallowing in self-adulation on the part of the 'crazy Cockshott family', as they delight to dub themselves. There is the search for really nice standards on the part of Vi, singer at the 'Passion Fruit' nightclub - as hopelessly bemused a spirit as ever lived in sin at Earl's Court and attempted to lecture a young Communist nephew with untidy hair and spectacles.

There is the humbug of the bullying new curator at the provincial Art Gallery. And the staff dance at the South Kensington hotel, where lives the lady who spends her life trying to achieve 'a Knightsbridge appearance on a Kensington purse', and where, as the evening progresses and the drinks begin to tell, the lady-like façades and gentlemanly courtesy of the clientele crack up with a vengeance.

Bringing together six short stories – two of which are previously unpublished – *One Last Dram Before Midnight* is the perfect Christmas gift for fans of Denzil Meyrick. These tales take us from Jim Daley's early days pounding the beat in Glasgow as a young constable to a light-hearted whisky smuggling romp involving Hamish and some ghostly pipers. Includes four previously eBook exclusive stories: 'Single End', 'Two One Three', 'Dalintober Moon' and 'Empty Nets and Promises'.

One Last Dram Before Midnight

In Our Time is the title of Ernest Hemingway's first collection of short stories, published in 1925 by Boni & Liveright, New York, and of a collection of vignettes published in 1924 in France titled *In our time*. Its title is derived from the English Book of Common Prayer, "Give peace in our time, O Lord". The stories's themes – of alienation, loss, grief, separation – continue the work Hemingway began with the vignettes, which include descriptions of acts of war, bullfighting and current events. The collection is known for its spare language and oblique depiction of emotion, through a style known as Hemingway's "theory of omission" (iceberg theory). According to his biographer Michael Reynolds, among Hemingway's canon, "none is more confusing ... for its several parts – biographical, literary, editorial, and bibliographical – contain so many contradictions that any analysis will be flawed."

Goodbye to Ribbons is a historical biography that follows the incredible story of a remarkable woman growing up in rural Britain in the 1950s. Rosie only wants one thing-her mother's love. But for reasons she is yet to discover, her popular, bolshy, and brash mother treats her no better than a servant. Like a cat toying with a shrew, she doesn't miss any opportunity to dig her claws in and ridicule her daughter, taking advantage of her willingness and desperation to please. When Rosie happens upon a situation that she wishes for all the world she could unsee, her mother is left with no choice but to coax her deeper into the secret and more unsavoury parts of her life. And soon enough, Rosie becomes more than just her servant-she becomes her confidant, her accomplice, and her alibi. Having finally achieved what she always wanted, Rosie must decide if the price is worth paying as she finds herself teetering on the

precipice of a moral conflict that threatens the very moral fabric of her family life. Then, upon reaching her lowest ebb, the confident and fast-living Teddy Miller sets his sights on young Rosie, and with the gift of the gab and his heart on his sleeve, Teddy always gets what he wants. And so, Rosie soon finds herself caught in an emotional, manipulative, and sometimes violent tug-of-war, in which it appears there can only ever be one loser. Based on an incredible true story, Rosie recounts her traumatic life in a unique way, unlike any voice you will have heard before, with truly inspirational positivity that can only reaffirm your confidence in the tenacity of the human spirit to conquer all that life dares to throw before us. (This literary fiction, historical biography contains several strong themes regarding the female protagonist's family life, including domestic abuse, domestic violence, and adultery.)

The Balkan Trilogy

Late one night, exploring her father's library, a young woman finds an ancient book and a cache of yellowing letters addressed ominously to 'My dear and unfortunate successor'. Her discovery plunges her into a world she never dreamed of - a labyrinth where the secrets of her father's past and her mother's mysterious fate connect to an evil hidden in the depths of history. In those few quiet moments, she unwittingly assumes a quest she will discover is her birthright - a hunt for the truth about Vlad the Impaler, the medieval ruler whose barbarous reign formed the basis of the Dracula myth. Deciphering obscure signs and hidden texts, reading codes worked into the fabric of medieval monastic traditions, and evading terrifying adversaries, one woman comes ever closer to the secret of her own past and a confrontation with the very definition of evil. Elizabeth Kostova's debut novel is an adventure of monumental proportions - a captivating tale that blends fact and fantasy, history and the present with an assurance that is almost unbearably suspenseful - and utterly unforgettable.

The Historian

INTRODUCED BY JAN MORRIS '[This] gloriously ornate account of that epic journey is a classic' ROBERT MACFARLANE 'The feeling of being lost in time and geography with months and years hazily sparkling ahead is a prospect of inconjecturable magic.' In 1933, aged eighteen, Patrick Leigh Fermor set out on his 'great trudge', a year-long journey by foot from the Hook of Holland to Istanbul. Three decades later he wrote *A Time of Gifts*, the sparkingly original account of the first part of this youthful adventure, which took him through the Low Countries, up the Rhine, through Germany, down the Danube, through Austria and Czechoslovakia, and as far as Hungary. Alone, carrying only a rucksack and with a small allowance of only a pound a week, Fermor had planned to sleep rough - to live 'like a tramp, a pilgrim, or a wandering scholar' - but a chance introduction in Bavaria led to comfortable stays in castles, and provided a glimpse of the old Europe of princes and peasants. Hailed as a masterpiece, *A Time of Gifts* is in part a coming-of-age memoir, but it is also a rich and compelling portrait of a continent that - despite its resplendent domes and monasteries, its great rivers and grand cities - was soon to be swept away by war, modernisation and profound social change. 'Not only is this journey one of physical adventure but of cultural awakening. Architecture, art, genealogy, quirks of history and language are all devoured -- and here passed on -- with a gusto uniquely his' COLIN THUBRON, SUNDAY TIMES 'One of the most romantic books of the twentieth century, Patrick Leigh Fermor's account of a long walk across Europe is also a literary treasure, a rich blend of action and observation' GUARDIAN

In *The Levant Trilogy* Olivia Manning returns to the story of the young English couple Guy and Harriet Pringle, last seen, at the end of *The Balkan Trilogy*, departing from Athens ahead of the invading Nazi army. Now, in the spring of 1941, they arrive in Egypt as Rommel's forces slowly but surely approach Cairo across the Sahara from the west. Will the city fall? In the streets the people contemplate welcoming a new set of occupiers, while European refugees and well-heeled Anglo-Egyptians prepare to pack their bags. And at night, everyone who is anyone flocks to the city's famed hotels and seedy cabarets, seeking one last dance before the tanks roll in. Manning describes the Pringles' ever complicated marriage and their motley group of friends and foes with the same sharp eye that earned *The Balkan Trilogy* a devoted following. And she also traces the fortunes of a marvelously drawn new character, Simon Boulderstone, a twenty-year-old recruit who must grapple with the boredom, chaos, and fleeting exhilaration of war.

A Time of Gifts

With this rich masterfully written extravaganza of myth and magic, the internationally acclaimed author of the *Fionavar* trilogy has created an epic that will change forever the boundaries of fantasy fiction.

Fortunes of War: The Levant Trilogy

This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Working medievalists are often the only scholar of the Middle Ages in a department, a university, or a hundred-mile radius. While working to build a body of focused scholarly work, the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return. As a result, overtasked and single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our intellectual passion. An insidious isolation even from one another creeps in, and soon, even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work - the work to which we've dedicated our careers. *The Lone Medievalist* (the collaborative community and the book) is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals (if not always the realities) of so many of the communities we study - agricultural, professional, national, notional, and of course, monastic. *The Ballad of the Lone Medievalist* isn't only about scholarship, or teaching, or institutional life, or the pursuit of new learning - it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as voces clamantium; they are offered to provide

strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand - and, above all, a reminder that we are not alone.

Fire in the Minds of Men

The long-awaited final volume of the trilogy by Patrick Leigh Fermor. *A Time of Gifts* and *Between the Woods and the Water* were the first two volumes in a projected trilogy that would describe the walk that Patrick Leigh Fermor undertook at the age of eighteen from the Hook of Holland to Constantinople. 'When are you going to finish Vol. III?' was the cry from his fans; but although he wished he could, the words refused to come. The curious thing was that he had not only written an early draft of the last part of the walk, but that it predated the other two. It remains unfinished but *The Broken Road* - edited and introduced by Colin Thubron and Artemis Cooper - completes an extraordinary journey.

The Ballad of the Lone Medievalist

In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of the international movement we call Modernism. At the same time a vast amount of non- and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. *A History of American Literature and Culture of the First World War* explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.

The Broken Road

An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it—to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism, recorded sound, noise, silence, the fluid sounds of immersion and dripping, and the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aurality at the center of the history of the arts, he revisits key artistic questions, listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.

A History of American Literature and Culture of the First World War

First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.

Noise, Water, Meat

In this unique work, Henry Miller gives an utterly candid and self-revealing account of the reading he did during his formative years.

The End and the Beginning

The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In *The Sleepwalkers* Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings, *Sunday Times* 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' *Washington Post* 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading *The Sleepwalkers*], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, *New York Times Book Review* 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' *Sunday Times Books of the Year* 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' *Mail Online* 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' *Boston Globe* 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly sketching the context driving them ... A magisterial work' *Wall Street Journal* About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of *The Politics of Conversion*, *Kaiser Wilhelm II and Iron Kingdom*. Widely praised around the world, *Iron Kingdom* became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

The Books in My Life

Patrick Leigh Fermor was only 18 when he set off to walk from the Hook of Holland to Constantinople, described many years later in *A Time of Gifts* and *Between the Woods and the Water*. It was during these early wanderings that he started to pick up languages, and where he developed his extraordinary sense of the continuity of history: a quality that deepens the colours of every place he writes about, from the peaks of the Pyrenees to the cell of a Trappist monastery. His experiences in wartime Crete sealed the deep affection he had already developed for Greece, a country whose character and customs he celebrates in two books, *Mani* and *Roumeli*, and where he has lived for over forty years. Whether he is drawing portraits in Vienna or sketching Byron's slippers in Missolonghi, the Leigh Fermor touch is unmistakable. Its infectious enthusiasm is driven by an insatiable curiosity and an omnivorous mind - all inspired by a passion for words and language that makes him one of the greatest prose writers of his generation.

Balkanization (territorial fragmentation) is becoming a significant urban and geopolitical pursuit in contemporary times. Countries, cities and regions are ever increasingly voicing the desire for independence and balkanization from the nation or union they are a part of. This monograph generally maps the historical and theoretical emergence of balkanization, as well its more recent spread into fields as far ranging as law, medicine, data and security studies, sociology, architecture and the urban. The spatialization of balkanization is particularly addressed in terms of destruction and renewal through a detailed sociopolitical interrogation of architecture and the urban, including their changing symbolic, ideological and functional forms. The spatial connections between balkanization, violent remaking (destruction and renewal) and global politics have predominantly been analyzed via the former Yugoslav context and the Balkans, however, spotlight has also been directed to the current political climate of the UK, Australia and the Anglo-Saxon geopolitics. The analysis helps in understanding broader emergent patterns of sociospatial polarization across various scales, and in respect to global geoeconomic and geopolitical restructuring. This is particularly important because drawing connections between balkanization, economics, law, media and technology is to gain an awareness of - and engagement with - the emerging implications of spatial remaking and global politics. This monograph is a valuable resource and will be relevant to academics and students interested in spatial politics; including architecture, urbanism, geography, sociology, politics, international development, conflict, and cultural studies.

The second volume of *The Cambridge History of Communism* explores the rise of Communist states and movements after World War II. Leading experts analyze archival sources from formerly Communist states to re-examine the limits to Moscow's control of its satellites; the de-Stalinization of 1956; Communist reform movements; the rise and fall of the Sino-Soviet alliance; the growth of Communism in Asia, Africa and Latin America; and the effects of the Sino-Soviet split on world Communism. Chapters explore the cultures of Communism in the United States, Western Europe and China, and the conflicts engendered by nationalism and the continued need for support from Moscow. Acoustic Properties: Radio, Narrative, and the New Neighborhood of the Americas discovers the prehistory of wireless culture. It examines both the coevolution of radio and the novel in Argentina, Cuba, and the United States from the early 1930s to the late 1960s, and the various populist political climates in which the emerging medium of radio became the chosen means to produce the voice of the people. Based on original archival research in Buenos Aires, Havana, Paris, and the United States, the book develops a literary media theory that understands sound as a transmedial phenomenon and radio as a transnational medium. Analyzing the construction of new social and political relations in the wake of the United States' 1930s Good Neighbor Policy, *Acoustic Properties* challenges standard narratives of hemispheric influence through new readings of Richard Wright's cinematic work in Argentina, Severo Sarduy's radio plays in France, and novels by John Dos Passos, Manuel Puig, Raymond Chandler, and Carson McCullers. Alongside these writers, the book also explores Che Guevara and Fidel Castro's *Radio Rebelde*, FDR's fireside chats, Félix Caignet's invention of the radionovela in Cuba, Evita Perón's populist melodramas in Argentina, Orson Welles's experimental New Deal radio, Cuban and U.S. "radio wars," and the 1960s African American activist Robert F. Williams's proto-black power *Radio Free Dixie*. From the doldrums of the Great Depression to the tumult of the Cuban Revolution, *Acoustic Properties* illuminates how novelists in the radio age converted writing into a practice of listening, transforming realism as they struggled to channel and shape popular power.

For well over two hundred years, Joseph Haydn has been by turns lionized and misrepresented - held up as celebrity, and disparaged as mere forerunner or point of comparison. And yet, unlike many other canonic composers, his music has remained a fixture in the repertoire from his day until ours. What do we need to know now in order to understand Haydn and his music? With over eighty entries focused on ideas and seven longer thematic essays to bring these together, this distinctive and richly illustrated encyclopedia offers a new perspective on Haydn and the many cultural contexts in which he worked and left his indelible mark during the Enlightenment and beyond. Contributions from sixty-seven scholars and performers in Europe, the Americas, and Oceania, capture the vitality of Haydn studies today - its variety of perspectives and methods - and ultimately inspire further exploration of one of western music's most innovative and influential composers.

Liberty is not, as the German precursors of Nazism asserted, a negative ideal. Whether a concept is presented in an affirmative or in a negative form is merely a question of idiom. Freedom from want is tantamount to the expression striving after a state of affairs under which people are better supplied with necessities. Freedom of speech is tantamount to a state of affairs under which everybody can say what he wants to say. At the bottom of all totalitarian doctrines lies the belief that the rulers are wiser and loftier than their subjects and that they therefore know better what benefits those ruled than they themselves. Werner Sombart, for many years a fanatical champion of Marxism and later a no less fanatical advocate of Nazism, was bold enough to assert frankly that the Führer gets his orders from God, the supreme Führer of the universe, and that Führertum is a permanent revelation.* Whoever admits this, must, of course, stop questioning the expediency of government omnipotence. Those disagreeing with this theocratical justification of dictatorship claim for themselves the right to discuss freely the problems involved. They do not write state with a capital S. They do not shrink from analyzing the metaphysical notions of Hegelianism and Marxism. They reduce all this high-sounding oratory to the simple question: are the means suggested suitable to attain the ends sought? In answering this question, they hope to render a service to the great majority of their fellow men.

This succinct, accessible two-volume set covers all aspects of Celtic historical life, from prehistory to the present day. The study of Celtic history has a wide international appeal, but unfortunately many of the available books on the subject are out-of-date, narrowly specialized, or contain incorrect information. Online information on the Celts is similarly unreliable. This two-volume set provides a well-written, up-to-date, and densely informative reference on Celtic history that is ideal for high school or college-aged students as well as general readers. The Celts: History, Life, and Culture uses a cross-disciplinary approach to explore all facets of this ancient society. The book introduces the archaeology, art history, folklore, history, linguistics, literature, music, and mythology of the Celts and examines the global influence of their legacy. Written entirely by acknowledged experts, the content is accessible without being simplistic. Unlike other texts in the field, The Celts: History, Life, and Culture celebrates all of the cultures associated with Celtic languages at all periods, providing for a richer and more comprehensive examination of the topic.

The Great Fortune

This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.

Companion to Historiography

Set during World War I, this monumental philosophical novel about human despair inspired Albert Camus' own writing and prefigured the greater existential movement. *Blood Dark* tells the story of a brilliant philosopher trapped in a provincial town and of his spiraling descent into self-destruction. Cripure, as his students call him—the name a mocking contraction of *Critique of Pure Reason*—despises his colleagues, despairs of his charges, and is at odds with his family. The year is 1917, and the slaughter of the First World War goes on and on, with French soldiers not only dying in droves but also beginning to rise up in protest. Still haunted by the memory of the wife who left him long ago, Cripure turns his fury and scathing wit on everyone around him. Before he knows it, a trivial dispute with a complacently patriotic colleague has embroiled him in a duel.

You are Being Lied to

A Shepherd to Fools is the second of Drew Mendelson's trilogy of Vietnam War novels that began with *Song Ba To* and will conclude with *Poke the Dragon*. *Shepherd*: It is the ragged end of the Vietnam war. With the debacle of a failing South Vietnamese invasion of Northern Laos as background, *A Shepherd to Fools* tells the harrowing tale of a covert Hatchet Team of US soldiers and Montagnard mercenaries. They are ordered to find and capture or kill a band of American deserters, called Longshadows, before the world learns of their paralyzing rebellion. An earlier attempt to capture them failed disastrously, the facts of it buried. Captain Hugh Englander commands the Hatchet Team. He is a humorless bastard, sneering and discourteous to every regular army soldier. He cares little for the welfare of his own men and nothing for the lives of the deserters. The conflict between him and Captain David Weisman, the artillery officer assigned to the mission for artillery support, threatens to tear the team apart. Deep in the Laotian jungle, the team is caught in a final, horrific battle facing an enemy armed with Sarin nerve gas, the "worst of the worst" of the war's clandestine weapons.

Blood Dark

Blackstar Theory takes a close look at David Bowie's ambitious last works: his surprise 'comeback' project *The Next Day* (2013), the off-Broadway musical *Lazarus* (2015) and the album that preceded the artist's death in 2016 by two days, *Blackstar*. The book explores the swirl of themes that orbit and entangle these projects from a starting point in musical analysis and features new interviews with key collaborators from the period: producer Tony Visconti, graphic designer Jonathan Barnbrook, musical director Henry Hey, saxophonist Donny McCaslin and assistant sound engineer Erin Tonkon. These works tackle the biggest of ideas: identity, creativity, chaos, transience and immortality. They enact a process of individuation for the Bowie meta-persona and invite us to consider what happens when a star dies. In our universe, dying stars do not disappear - they transform into new stellar objects, remnants and gravitational forces. The radical potential of the *Blackstar* is demonstrated in the rock star supernova that creates a singularity resulting in cultural iconicity. It is how a man approaching his own death can create art that illuminates the immortal potential of all matter in the known universe.

The sense of difficulty, and indeed of awe, with which a scholar approaches the task of translating the *Agamemnon* depends directly on its greatness as poetry. It is in part a matter of diction. The language of Aeschylus is an extraordinary thing, the syntax stiff and simple, the vocabulary obscure, unexpected, and steeped in splendour. Its peculiarities cannot be disregarded, or the translation will be false in character. Yet not Milton himself could produce in English the same great music, and a translator who should strive ambitiously to represent the complex effect of the original would clog his own powers of expression and strain his instrument to breaking. But, apart from the diction in this narrower sense, there is a quality of atmosphere surrounding the *Agamemnon* which seems almost to defy reproduction.

in another setting, because it depends in large measure on the position of the play in the historical development of Greek literature.

Literary Theory: A Guide for the Perplexed

Strauss's *Radetzky March*, signature tune of one of Europe's most powerful regimes, presides over Joseph Roth's account of three generations of the Trotta family in the years preceding the Austro-Hungarian collapse in 1918. Grandfather, son and grandson are equally dependent on the empire: the first for his ennoblement; the second for the civil virtues that make him a meticulous servant of an administration whose failure he can neither comprehend nor survive; the third for the family standards of conduct which he cannot attain but against which he is too enfeebled to rebel.
