Revealing hidden secrets about leadership, offers a five-point plan based on examples from the world's most effective leaders--all of whom led by serving others, in a revised edition that includes a self-assessment and FAQs.

The Secret

This updated, second edition of the bestselling book "The Secret" answers a question most leaders ask at some point in their career, What do I need to do to be a great leader?

The Secret

By Ken Blanchard, coauthor of The One Minute Manager, the bestselling business book of all time. Uses the popular business fable format that Ken pioneered. Explains the five essential practices exhibited by the best leaders and provides practical ideas on how to make these a reality in your life At one time or another, everyone in a position of authority whether in a multinational corporation or a local volunteer group wonders what the key to great leadership is. And who better to answer that question than the team of Ken Blanchard, whose books on leadership have sold over 20 million copies, and Mark Miller, who worked his way up from line worker to vice president of one of the largest fast food chains in the country. In The Secret, Blanchard and Miller use the uniquely accessible business fable format that Blanchard pioneered to get at the heart of what makes a leader truly able to inspire and motivate people. Debbie Brewster, recently promoted and struggling, finds herself about to lose her job due to poor performance. In an attempt to save her career, she enrolls in a new mentoring program offered by her company. Much to her surprise, Debbie finds her mentor is none other than Jeff Brown, the president of the company. Debbie decides that she is going to ask her new mentor the one question she feels she desperately needs answered; What is the secret of great leaders? Jeff's immediate answer that

great leaders serve their followers completely flummoxes Debbie. Over the next 18 months, Jeff helps Debbie discover and explore five fundamental ways that leaders lead through service. The Secret puts what Blanchard and Miller have learned about leadership in a form that anyone can easily understand, embrace, and pursue.

The Secret

In this new edition of their classic business fable, Ken Blanchard and Mark Miller get at the heart of what makes a leader successful. Newly promoted but struggling young executive Debbie Brewster asks her mentor the one question she desperately needs answered: "What is the secret of great leaders?" His reply - "great leaders serve" - flummoxes her, but over time he reveals the five fundamental ways that leaders succeed through service. Along the way she learns: • Why great leaders seem preoccupied with the future • How people on the team ultimately determine your success or failure • What three arenas require continuous improvement • Why true success in leadership has two essential components • How to knowingly strengthen - or unwittingly destroy - leadership credibility. The tenth anniversary edition includes a leadership self - assessment so readers can measure to what extent they lead by serving and where they can improve. The authors also have added answers to the most frequently asked questions about how to apply the SERVE model in the real world. As practical as it is uplifting, The Secret shares Blanchard's and Miller's wisdom about leadership in a form that anyone can easily understand and implement. This book will benefit not only those who read it but also the people who look to them for guidance and the organizations they serve.

The Secret

The authors of Great Leaders Grow use a fable to lay out what is the secret to great leadership in this internationally bestselling guide. It's a question that everyone in a position of authority—whether in a multinational corporation or a local volunteer group—wonders sooner or later. Here Ken Blanchard, whose books on leadership have sold over twenty million copies, and Mark Miller, who worked his way up from line worker to vice president of Chick-Fil-A, one of the largest fast-food restaurant chains in the country, uncover the secret that great leaders already know and detail what you need to do to truly inspire and motivate others. Know Can Do!

Attempting to better themselves—learn new skills, break bad habits, realize their potential—people read books, attend seminars, take training courses. And companies pitch in too, spending billions of dollars every year on professional development programs aimed at helping their employees become more effective. But in spite of what people sincerely believe are their best efforts, all too often their behavior doesn't change. The fact that it seems to be so hard to make new learning stick is an endless source of frustration for both individuals and organizations. For years Ken Blanchard has been troubled by the gap between what people know—all the good advice they've digested intellectually—and what

they actually do. In this new book he and his coauthors, Paul J. Meyer and Dick Ruhe, use the fable format Blanchard made famous to lay out a straightforward method for learning more, learning better, and making sure you actually use what you learn. This engaging story identifies three key reasons people don't make the leap from knowing to doing and then moves on to the solution. It teaches you how to avoid information overload by learning "less more, not more less." You'll find out how to adjust your brain's filtering system to learn many, many times more than ever before, ignite your creativity and resourcefulness with Green Light Thinking, master what you've learned using spaced repetition, and more. At last, an answer to the question, "Why don't I do what I know I should do?" Read this book and you will!

Servant Leadership in Action

"The only way to create great relationships and results is through servant leadership. It's all about putting other people first." – from the foreword by John Maxwell We've all seen the negative impact of self-serving leaders in every sector of our society. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

The Leadership Pill

How can you become a more successful manager, a stronger team leader and a motivator who gets the best results from a group? Ken Blanchard's inspiring new book provides the answer. In a beguiling, sometimes humorous fashion, THE LEADERSHIP PILL conjures up a tantalizing possibility: What if there was a pill that could stimulate the natural powers of the mind and body to provide leadership? In the story, an amazing new pill heightens one leader's powers, but contains the wrong ingredients, stimulating him in a short-sighted direction. He is coercive, obsessed with immediate results and drives his team relentlessly until, after a brief spike in performance, they suffer early burnout. In contrast, the 'Effective Leader', working without a pill, inspires and supports his team. He supplies the right ingredients, earning the respect and trust of his team with a blend of integrity, partnership and affirmation. Ultimately it is recognised that there is more to effective leadership than a wonder 'pill'. Destined to be a transforming experience for thousands of readers, THE LEADERSHIP PILL shows how to apply the right techniques, no matter how pressured a business situation.

Great Leaders Grow

Successful leaders don't rest on their laurels because leadership is not a title on a business card. Leadership is a living process—and life means growth. As Ken Blanchard and Mark Miller write in the introduction, "the path to increased influence, impact, and leadership effectiveness is paved with personal growth.... Our capacity to grow determines our capacity to lead. It's really that simple." Great Leaders Grow shows leaders and aspiring leaders precisely which areas to focus on so they can remain effective throughout their lives. Debbie Brewster—the protagonist from Blanchard and Miller's international bestseller *The Secret*—returns in this book to mentor her mentor's son, Blake, as he begins his career. Now an accomplished leader herself, Debbie shows Blake how growing as a leader and as a human being are inextricably linked. "How well you and I serve will be determined by the decision to grow or not," she says. "Will you be a leader who is always ready to face the next challenge? Or will you be a leader who tries to apply yesterday's solutions to today's problems?" As Blake confronts the challenges of business in the real world, he turns to Debbie for guidance. Step by step, Debbie and Blake explore the GROW model—four ways that leaders must challenge and stretch themselves, both on the job and off, to fulfill their highest potential. Whether you're a CEO or an entry-level employee, this book will inspire you to reflect on your life and design your own long-term growth plan—a plan that can lead not only to continuing professional success but to personal fulfillment as well.

The Secret of Teams

Teams are critical to the success of every organization. Departmental, interdepartmental, cross-functional, ad hoc, task-specific—teams do everything from planning the office party to setting the annual

budget to establishing performance goals. But what separates the teams that really deliver from the ones that simply spin their wheels? What is the secret of high-performance teams? As he did in *The Secret*, Mark Miller uses a compelling business fable to reveal profound yet easily grasped truths that can dramatically transform any organization. Debbie Brewster, the heroine of *The Secret*, has been promoted and is now struggling with taking her new team to the next level. Her old mentor, Jeff Brown, the company's CEO, sends her out to find the secret of teams. On her journey she learns from three very different teams—the Special Forces, NASCAR, and a local restaurant. Debbie and her team discover the three elements that all successful teams have in common. But that's just the beginning. The devil is in the details, as the story of Debbie's efforts to actually implement the three elements shows. You'll learn how to change entrenched ways of thinking and acting, what you have to do to optimize each of the three elements of a successful team, how to measure your progress, and more. Creating high-performance teams does more than just give your organization a competitive advantage. It can be a performance multiplier that significantly improves results while honoring and developing people. It may be the ultimate win-win-win that your organization is seeking.

Great Leaders Grow

Successful leaders don't rest on their laurels. Leadership must be a living process, not a title on a business card, and life means growth. As Ken Blanchard and Mark Miller write in the introduction, "the path to increased influence, impact, and leadership effectiveness is paved with personal growth.... Our capacity to grow determines our capacity to lead. It's really that simple." *Great Leaders Grow* shows leaders and aspiring leaders precisely which areas to focus on so they can remain effective throughout their lives. As the book opens, Debbie Brewster, an accomplished leader herself, becomes a mentor to Blake, her late mentor's son, as he begins his career. Debbie tells Blake, "How well you and I serve will be determined by the decision to grow or not. Will you be a leader who is always ready to face the next challenge? Or will you be a leader who tries to apply yesterday's solutions to today's problems? The latter will ultimately fail. The difference: the decision to grow. And not a short-term decision but a decision to grow throughout your career and throughout your life. This single decision is a game changer for leaders." Over the next several weeks Debbie reveals what this means in practical terms. She and Blake explore four ways that leaders must continue to grow, both on the job and off, because who you are as a leader is inextricably connected to who you are as a person. Whether you're a CEO or an entry-level employee, you'll be inspired to reflect on your own life and to design your own unique long-term growth plan, leading to not only continuing professional success but personal fulfillment as well.

Helping People Win at Work

Ken Blanchard's *Leading at a Higher Level* techniques are inspiring thousands of leaders to build high-performing organizations that make life better for everyone. Now, in *Helping People Win at Work*, Blanchard and WD-40 Company leader Garry Ridge reveal how WD-40 has used Blanchard's techniques of *Partnering for Performance* with every employee--achieving levels of engagement and commitment that have fortified the bottom line. Ridge introduces WD-40 Company's year-round performance review system, explaining its goals, features, and the cultural changes it requires. Next, he shares his leadership point of view: what he expects of people, what they can expect of him, and where his beliefs about leadership and motivation come from. Finally, Blanchard explains why WD-40 Company's *Partnering for Performance* system works so well--and how to leverage its high-value techniques in your organization. In this book, you'll learn how to:

- Stop building failure into your mentoring of employees
- Set goals using the SMART approach: specific, motivational, attainable, relevant and trackable
- Help people move through all four stages of mastery
- Create a culture that shares knowledge and encourages nonstop learning

"I'm thrilled that the first book in our *Leading at a Higher Level* series is with Garry Ridge, president of WD-40 Company. For years I've been concerned about how people's performance is evaluated. People are often forced into a normal distribution curve, or even worse, rank ordered. Not only does this not build trust, it also does not hold managers responsible for coaching people and helping them win. The manager's responsibility is focused on sorting people out. When I was a college professor, I always gave my students the final exam at the beginning of the course and spent the rest of the semester helping them answer the questions so that they could get an A. Life is all about getting As, not some stupid normal distribution curve. Garry Ridge got this, and wow! What a difference it has made in WD-40 Company's performance." --Ken Blanchard

"When I first heard Ken talk about giving his final exam at the beginning of the course and then teaching students the answers so they could get an A, it blew me away. Why don't we do that in business? So that's exactly what I did at WD-40 Company when we set up our 'Don't Mark My Paper, Help Me Get an A' performance management system. Has it made a difference? You'd better believe it. Ever since we began the system, our company's annual sales have more than tripled, from \$100 million to more than \$339 million. And we've accomplished this feat while making the company a great place to work." --Garry Ridge

The Heart of Leadership

Are you the type of leader people want to follow? You can be—but first, you've got to understand what sets great leaders apart from all the rest. Certainly, leaders need people skills, execution skills, a deep knowledge of industry trends, the ability to articulate a vision, and more—they must be competent—but that's just the tip of the iceberg. What's below the waterline? What's deep inside the best leaders that makes them different? Mark Miller contends it is their leadership character. In his latest enlightening and entertaining business fable, he describes the five unique character traits exhibited by exceptional leaders and how to cultivate them. The Heart of Leadership begins with young and ambitious Blake Brown being passed over for a desperately wanted promotion, despite an outstanding individual performance. Confused and frustrated, he turns to his former mentor, Debbie Brewster. Rather than attempting to solve Blake's problem for him, she sends him on a quest to meet with five of his late father's colleagues, each of whom holds a piece of the puzzle he's trying to solve. As Blake puts the pieces together, he discovers that in the final analysis, a lack of skills isn't what holds most leaders back; skills are too easy to learn. Without demonstrated leadership character, however, a skill set will never be enough. Most often, when leaders fail to reach their full potential, it is an issue of the heart. This is Blake's ultimate revelation. This book shows us that leadership needn't be the purview of the few—it is within reach for millions around the world. The Heart of Leadership is a road map for every person who desires to make a difference in the lives of others and become a leader people want to follow.

Chess Not Checkers

As organizations grow in volume and complexity, the demands on leadership change. The same old moves won't cut it any more. In Chess Not Checkers, Mark Miller tells the story of Blake Brown, newly appointed CEO of a company troubled by poor performance and low morale. Nothing Blake learned from his previous roles seems to help him deal with the issues he now faces. The problem, his new mentor points out, is Blake is playing the wrong game. The early days of an organization are like checkers: a quickly played game with mostly interchangeable pieces. Everybody, the leader included, does a little bit of everything; the pace is frenetic. But as the organization expands, you can't just keep jumping from activity to activity. You have to think strategically, plan ahead, and leverage every employee's specific talents—that's chess. Leaders who continue to play checkers when the name of the game is chess lose. On his journey, Blake learns four essential strategies from the game of chess that transform his leadership and his organization. The result: unprecedented performance!

One Minute Mentoring

The bestselling co-author of the legendary The One Minute Manager® and a former Twitter executive join forces to create the ultimate guide to creating powerful mentoring relationships While most people agree that having a mentor is a good thing, they don't know how to find one or use one. And despite widespread approval for the idea of being a mentor, most people don't think they have the time or skills to do so. Positive mentoring relationships can change the way we lead and help us succeed. In One Minute Mentoring, legendary management guru Ken Blanchard and Claire Diaz-Ortiz, a former Twitter executive and early employee, combine their knowledge to provide a systematic approach to intergenerational mentoring, giving readers great insight into the power and influence of mentoring and encouraging them to pursue their own mentoring relationships. Using his classic parable format, Blanchard explains why developing effective communication and relationships across generations can be a tremendous opportunity for companies and individuals alike. One Minute Mentoring is the go-to source for learning why mentoring is the secret ingredient to professional and personal success.

Follow the Leader?

In a democracy, we generally assume that voters know the policies they prefer and elect like-minded officials who are responsible for carrying them out. We also assume that voters consider candidates' competence, honesty, and other performance-related traits. But does this actually happen? Do voters consider candidates' policy positions when deciding for whom to vote? And how do politicians' performances in office factor into the voting decision? In *Follow the Leader?*, Gabriel S. Lenz sheds light on these central questions of democratic thought. Lenz looks at citizens' views of candidates both before and after periods of political upheaval, including campaigns, wars, natural disasters, and episodes of economic boom and bust. Noting important shifts in voters' knowledge and preferences as a result of these events, he finds that, while citizens do assess politicians based on their performance, their policy positions actually matter much less. Even when a policy issue becomes highly prominent, voters rarely shift their votes to the politician whose position best agrees with their own. In fact, Lenz shows, the reverse often takes place: citizens first pick a politician and then adopt that politician's policy views. In other words, they follow the leader. Based on data drawn from multiple countries, *Follow the Leader?* is the most definitive treatment to date of when and why policy and performance matter at the voting booth, and it will break new ground in the debates about democracy.

Most leadership models start with trying to identify what great leaders do. In *Follow the Leader*, global speaker, consultant and leadership expert Emmanuel Gobillot answers a much more fundamental

question to anyone wanting to become a great leader: 'what do great followers want?'. In this fast-paced and well-researched book, he identifies the key elements of leadership success and the proven pathways to developing the charisma we all seek in the leaders who truly inspire and motivate us. He breaks down the all-important 'charisma' into eight critical elements, explaining how each component works and offering practical development steps for each. Getting these steps right will transform good leaders into magnets for great followers, harnessing an unstoppable power for business achievement.

What is true political leadership, and how do we get it? What qualities should we wish for in our leaders? And why is it killing season for prime ministers? In this wise and timely essay, Laura Tingle argues that democratic leaders build a consensus for change, rather than bludgeon the system or turn politics into a popularity contest. They mobilise and guide, more than impose a vision. Tingle offers acute portraits – profiles in courage and cunning – of leaders ranging from Merkel and Howard to Macron and Obama. She discusses the rise of the strongman, including Donald Trump, for whom there is no map, only sentiment and power. And she analyses what has gone wrong with politics in Australia, arguing that successful leaders know what they want to do, and create the space and time to do it. After the Liberal Party's recent episode of political madness, where does this leave the nation's new prime minister, Scott Morrison? "The Liberal Party has been ripped apart and our polity is the worse off for having one of its major political parties rendered largely ungovernable ... Malcolm Turnbull's fate came down to a series of judgements made not just by him, but by his colleagues, who spent much of his prime ministership failing to follow the leader and also failing in their own collective responsibility for leadership." —Laura Tingle, *Follow the Leader*

*Follow The Leader: A Journey to Self Realization is a body, mind and soul book with a difference. It is designed to guide readers towards their highest potential through stories. * This fascinating book includes stories of personal experiences of self discovery, stories from different cultures including Native American like Geronimo and Australian aboriginal Dreamtime stories. This book explains the different religions and how they develop strong faith which is the positive aspect of religion whilst the opposite produces a blind faith or a faith seeped in prejudice that makes us judge ourselves as being holier than others. * The chakras are explained in stories as well, like the deeply moving story of Raicharan. The seven chakras are explained using scientific evidence to verify this amazing power of the body's secret healing system and how this energy allows one to reach their highest potential. "Our sole purpose for being here is to develop our soul, and this can only be done when we consciously change all those negative traits of our inherited and conditioned personality by controlling the mind using the energy from within. This energy gives us the will-power to resist and control the weaker aspects of our human nature and allows our thoughts and actions to be guided by our higher self (personality)." * Shri Patanjali, one of the earliest and greatest of Indian philosophers said, "Concentrate on another's mind know that mind. Concentrate on strength like that of the elephant, get that strength. Concentrate on friendship, mercy, joy, excel in them."

As competition among the traditional great powers in the Asia region intensifies, Canada faces a stark choice: Should it align its foreign policy with the US-led free and open Indo-Pacific strategy? Shared values give Canada a clear incentive to follow the lead of the United States and Western-aligned

democracies, but Jeffrey Reeves presents the case for a foreign policy based on understanding how Asia sees itself. He draws on Asian sources to demonstrate Western misunderstandings of regional developments and to outline alternative, regionally based policy options. Follow the Leader, Lose the Region urges the Canadian government to pivot away from the policies of its Western allies in order to chart an independent course that better serves its interests.

Are you a ministry leader who needs to reignite your fire and passion for leading God's people? Author Crystal L. Williams seeks to help you light your flame and discover what godly leadership should look like. Learning to Follow the Leader When the Leader Is You offers a journey through the Word, citing the many examples of leadership—beginning with God himself, who is the ultimate leader. Leaders of all kinds can gain insight and practical knowledge from this easy-to-read guide, which combines experience, education in leadership, and the revelation of Word through the Spirit of God. This collision of theories and the Living Word presents a framework that not only will promote effective leadership in the church but can also be applied to leadership of any kind for a believer. Examining leadership from a biblical standpoint, this guide uses scripture to address the many areas of struggle that leaders often face, and offers assistance to those who want lead by following God.

Learning to Follow the Leader When the Leader Is You!

A leader is more than someone who is in charge. A true leader is someone who understands how important it is to empower others. One of the greatest privileges you can have is the opportunity to be the leader of leaders. There are plenty of bosses but very few true leaders. What of success? I have come up with three truths about success. The first is that it is never a constant, second it is relative and third it is circumstantial. As to its lack of consistency, success may be held one moment and taken away the next. Success is relative to a focus. You may be great at business but fail as a husband/wife, father/mother or friend. And not everyone holds success to the same standard. In any set of circumstances you may be a huge winner in their eyes or you may be a loser. In this book you will find truths about leadership that make it more than a rung on a ladder and much more than a position. Not everyone was designed to be a leader and that is not a bad thing. But if you feel that you are a true leader then you will want to equip yourself with every tool available so that you may be where you are supposed to be when destiny shows up. The choice is yours, lead on.

"Attention all would-be leaders: Look behind you. If only a few are committed to voluntarily following you, maybe it's time to re-evaluate your leadership abilities. All too often, leaders lose their effectiveness simply because they lack the key principles upon which to grow. Dr. J.L. Williams, author of *Follow the Leader: Marks of Authentic Leadership*, is an undisputed true leader of God's people. Look behind J.L. and you will find a multitude of voluntary, absolutely committed followers. Over years of working with Dr. Williams, I have been amazed at his ability to rally his Christian troops to action. When J.L. asks for help or declares a call, people from all over the world are there to answer the call. If your desire is to be able to lead a larger number of followers, the leadership principles of J.L. Williams contained in this book will undoubtedly make it happen for you."

Carter, for example, emerges as "the median president": average in activity, success in Congress, and public support. *Follow the Leader* shows that presidents often do make Faustian bargains on behalf of their popularity, but they get surprisingly little in return. For example, while it is true that the use of force by the United States abroad has followed bad economic times at home much more frequently than would be expected by chance, the use of force itself does not boost a president's popularity. In fact, foreign policy activities show a variety of different effects. There is an uneasy balance at best between being liked and being president. Conventional wisdom suggests that popular presidents are strong leaders. But Brace and Hinckley demonstrate that things are not so simple. Indeed, presidents who structured their agendas solely on the basis of public approval would often be making choices the American people would not support.

With unique access to Chinese leaders at all levels of the party and government, best-selling author David M. Lampton tells the story of China's political elites from their own perspectives. Based on over five hundred interviews, *Following the Leader* offers a rare glimpse into how the attitudes and ideas of those at the top have evolved over the past four decades. Here China's rulers explain their strategies and ideas for moving the nation forward, share their reflections on matters of leadership and policy, and discuss the challenges that keep them awake at night. As the Chinese Communist Party installs its new president, Xi Jinping, for a presumably ten-year term, questions abound. How will the country move forward as its explosive rate of economic growth begins to slow? How does it plan to deal with domestic and international calls for political reform and to cope with an aging population, not to mention an increasingly fragmented bureaucracy and society? In this insightful book we learn how China's leaders see the nation's political future, as well as about its global strategic influence.

Leaders are always looking for an edge. That often sends many of them looking for the next big thing. Although leadership approaches and trendy management fads come and go, what remains the same? The Easy to Follow Leader

After sixty years of church life, Floyd Schwanz had a reoccurring idea that would not go away: Jesus gave his primary energy to the twelve, not the multitudes. So he devoted an entire summer to the careful study of Mark's gospel and there it was on almost every page! What Jesus did with the twelve was not an academic exercise--it was an apprentice model! Jesus' discipling was training, not just telling. Relational small groups provide the Jesus design for believers to become Christ-followers. Each chapter reveals a 'Jesus method' that church and small group leaders can reproduce even in our culture and our twenty-first century. Any group that meets together "in the name of Jesus" can learn and love and counsel and serve and grow and multiply just like Jesus' small group. Let's follow the Leader!

Following the Leader

Why does Jesus call us to follow Him? Following seems like such a mundane activity. We usually think of followers as people who cannot think for themselves. Most people would rather be seen as leaders, or at least as active participants who do more than merely follow. Despite our initial reaction to Christ's call to follow, when we engage in the practice of following Him, we find that the call to follow is a key principle that leads us to a satisfying walk with God. Following Christ is far from boring. It is a life-transforming process that will guide you to fulfill your God-given purpose. *Follow the Leader* will give you a clear picture of what Christ means when He says, *Follow Me*.

We understand the importance of great leadership, but what about its counterpart--great followership? *Lead & Follow* reveals the overlooked strength and subtlety of the follower's role through the striking metaphor of tango, a dance of one leader and one follower. Learning to follow well can give employees a deep sense of purpose, bring out the best in managers and supervisors, and accelerate creative innovation. When paired with familiar aspects of leadership, skillful followership can help teams synchronize quickly and produce superior results. In her three-part coaching model, dancer Sharna Fabiano demonstrates how to bring the powerful and complementary leader/follower principles of tango into the workplace. An abundance of practical strategies and self-inquiry exercises will help professionals, educators, and teams collaborate more successfully.

You aspire to lead with greater impact. The problem is you're busy executing on today's demands. You know you have to carve out time from your day job to build your leadership skills, but it's easy to let immediate problems and old mind-sets get in the way. Herminia Ibarra—an expert on professional leadership and development and a renowned professor at INSEAD, a leading international business school—shows how managers and executives at all levels can step up to leadership by making small but crucial changes in their jobs, their networks, and themselves. In *Act Like a Leader, Think Like a Leader*, she offers advice to help you:

- Redefine your job in order to make more strategic contributions
- Diversify your network so that you connect to, and learn from, a bigger range of stakeholders
- Become more playful with your self-concept, allowing your familiar—and possibly outdated—leadership

style to evolve Ibarra turns the usual “think first and then act” philosophy on its head by arguing that doing these three things will help you learn through action and will increase what she calls your **outsight**—the valuable external perspective you gain from direct experiences and experimentation. As opposed to insight, **outsight** will then help change the way you think as a leader: about what kind of work is important; how you should invest your time; why and which relationships matter in informing and supporting your leadership; and, ultimately, who you want to become. Packed with self-assessments and practical advice to help define your most pressing leadership challenges, this book will help you devise a plan of action to become a better leader and move your career to the next level. It’s time to learn by doing.

Follow the Leader

Do you want to be a great leader? Do you know what it takes to be a great leader? Someone said if a leader is leading out front and there is no one behind him, then he is just taking a walk. This book is designed to help leaders be the best they can be using biblical principles as a guideline. These guidelines are direct and practical. It also has illustrations that will give the reader a picture in their mind because a picture is worth a thousand words. Dr. Godbolt also uses examples of leaders who he has learned from while serving as a leader. These guidelines will help leaders become a leader who everyone wants to follow. The book *A Leader that Everyone Wants to Follow* teaches leaders how to: be swift to hear and slow to speak; know them that labor among you; keep the vision alive; be friendly and kind; be equipped; and encourage others. Whether you are an inexperienced leader or an experienced leader, this book will help you become a great leader that everyone wants to follow.

Act Like a Leader, Think Like a Leader

A leader is someone people follow. But why do people follow? Books abound on leaders, but much less is known about followers. In *The Leaders We Need*, Maccoby steps into this yawning gap in the literature. This insightful book shows that followers have their own powerful motivations to follow. Many relate to their leader as to some important person from the past—a parent, a sibling, a close friend. With major shifts in family structure and other social changes (especially transformations in technology and work life), these “**transferences**” have grown complex—making leaders’ work more challenging. The key for modern-day leaders? Being sensitive to how a group’s collective psychology and social context shape its leadership needs. For example, factory workers in a large city during a period of relative calm would need very different leaders than people working in a star management consultancy during a time of stiffening competition. The author outlines the profound shift from a more bureaucratic society and leadership model to an interactive, collaborative one—and provides crucial advice on how to become a “**leader we need**.” Offering provocative psychological insight and thoughtful analysis of social and cultural changes, this book examines leadership through an entirely new lens.
