What Makes You Grateful?

What began as a personal pick-me-up quickly became a feel-good phenomenon, tapping into the power of gratitude. In October 2011, Kubitsky began asking, "What makes you grateful?" and invited people to write or draw a glimmer of gladness on a postcard and mail it back to her. Placing blank invitation cards in public places like college cafeterias, post offices, parks, community centers, libraries, and cafes, she attempted to engage the community at large. Since then, she has received thousands of responses from all over the globe. In this beautiful book, Kubitsky shares a selection of submissions, including stunning artwork, heartbreaking stories, and sincere expressions of gratitude. From cupcakes to lightning strikes, this feel-good book gives voice to gratitude and the simple pleasures that make life great. If you like PostSecret, The Book of Awesome, or Chicken Soup for the Soul, start smiling. This book is all three wrapped into one!

The Voice That Changed Everything

Who has been the most powerful VOICE in your life? It's time to thank them! "The Voice That Changed Everything" is a book designed to inspire, to encourage, and to THANK that person who impacted your life! For all of us there are many people who made us who we are--for you it may be a friend, or a teacher, or a relative. It could have been a pastor or a business partner. Maybe a coach or counselor. Who saw greatness in you and helped you develop it? Who reached down to help you when you needed it most? This book is dedicated to the voices in our lives that mattered the most! In this incredible book collaboration, twenty-four authors come together from around the world to say "thank you" to that person, that "voice" who spoke greatness into their lives. These stories will inspire, motivate, and equip YOU to "be the voice" in someone else's life! The words that we speak are powerful, and these collective stories come together to form a book of gratitude!

For This I Am Grateful

I remember going home to an empty house to try to digest my doctor's news, "You have vascular dementia." I thought to myself, I'm only 55 and I'm already a widow, the worst thing that could ever happen to me. But during my career working in Dementia Care, my co-workers and I had always felt that getting any type of dementia diagnosis would be the worst news a person could receive. Having witnessed the progression in so many people, I knew being a widow was nothing compared to what I was going to have to face. I soon discovered those past experiences would, in fact, help me forge through the coming losses. The diagnosis itself was not the worst of it, finding no help or resources was. I had to try to figure out 'what's next' on my own. I got my affairs in order, and came to terms with the fact that my career and the life I had known both were gone. I gave up my home, my car, my ability to drive, my hopes, and my dreams. Yet a stubborn streak remained in me. I decided, 'I'm not done yet,' and made it my new motto. Then I set out to find help, to find my new self. My search led me to Dementia Alliance International. At DAI, I found hope and purpose; this was life-changing and life-saving. I stepped onto a path of a whole new understanding of dementia, advocating, speaking engagements, and learning that life can be beautiful, even with dementia.

Congressional Record

One recent December, at age 53, John Kralik found his life at a terrible, frightening low: his small law firm was failing; he was struggling through a painful second divorce; he had grown distant from his two older children and was afraid he might lose contact with his young daughter; he was living in a tiny apartment where he froze in the winter and baked in the summer; he was 40 pounds overweight; his girlfriend had just broken up with him; and overall, his dearest life dreams—including hopes of upholding idealistic legal principles and of becoming a judge--seemed to have slipped beyond his reach. Then, during a desperate walk in the hills on New Year's Day, John was struck by the belief that his life might become at least tolerable if, instead of focusing on what he didn't have, he could find some way to be grateful for what he had. Inspired by a beautiful, simple note his ex-girlfriend had sent to thank him for his Christmas gift, John imagined that he might find a way to feel grateful by writing thank-you notes. To keep himself going, he set himself a goal--come what may--of writing 365 thank-you notes in the coming year. One by one, day after day, he began to handwrite thank yous--for gifts or kindnesses he'd received from loved ones and coworkers, from past business associates and current foes, from college

friends and doctors and store clerks and handymen and neighbors, and anyone, really, absolutely anyone, who'd done him a good turn, however large or small. Immediately after he'd sent his very first notes, significant and surprising benefits began to come John's way--from financial gain to true friendship, from weight loss to inner peace. While John wrote his notes, the economy collapsed, the bank across the street from his office failed, but thank-you note by thank-you note, John's whole life turned around. 365 Thank Yous is a rare memoir: its touching, immediately accessible message--and benefits--come to readers from the plainspoken storytelling of an ordinary man. Kralik sets a believable, doable example of how to live a miraculously good life. To read 365 Thank Yous is to be changed.

Marginalized by Colonialism, Forced Out by Climate Change As climate change reshapes the Earth's habitability, millions are forced to migrate . . . while millions more are constrained from escaping environmental hardship. **Shifting Climates, Shifting People** grapples with the disparate impacts of climate change on nations impoverished by colonialism: What happens when people have no choice but to leave their homes due to environmental devastation? What happens when they cannot leave or are prevented from leaving? Whose stories are shared and whose imaginations are empowered—and whose are erased from public knowledge—as communities are endangered or uprooted? How has White colonialism undermined the indigenous protectors of ecosystems? How is White capitalism usurping green industries? **Shifting Climates, Shifting People** centers the experiences of Black, Indigenous, and non-white communities for perspective on environmental destruction and the wellbeing of humanity. Contributing writers are scholars and pastors, preachers and organizers; they come to this work from Fiji and from the Osage Nation, from Ghana and from Canada, from the United States and from Indonesia, and many places in between.

In the international press, East Africa is depicted as a region mired in civil war, child abduction, rebel militias, Muslim-Christian violence, and grinding poverty. Joseph Kony's Lord's Resistance Army (LRA) of northern Uganda has become a symbol for the troubles of contemporary Africa. Seen from within, however, an altogether different reality is visible—one in which local communities and their leaders work together to resolve conflict and rebuild their communities. Little known beyond northern Uganda, The Acholi Religious Leaders' Peace Initiative (ARLPI) is an inspiring example of one such community organization. The story of ARLPI, examined in this book by philosopher David Hoekema, demonstrates just how much can be accomplished by a small group of dedicated community leaders in a situation where a decade of military force and international pressure have had little discernible effect. Drawing on published sources and interviews with organization leaders and LRA survivors, Hoekema illuminates how both the depredations of the LRA and the healing work of ARLPI are rooted in modern East African history. He documents the courageous work of the Catholic, Protestant, and Muslim leaders who constitute the ARLPI to overcome centuries of mistrust and help bring an end to one of the most horrific conflicts in recent history. Their work, he argues, puts philosophical and theological ideas into practice and in so doing sheds new light on how religion relates to politics, how brutal conflicts can be resolved, and how a community can reclaim its future through locally-initiated initiatives against overwhelming obstacles.
