Reddy, Remington, Master, Desa... They're all pretty much the same heater!

What can go wrong with these heaters? Click the time stamp to find out!

One tool you may need to purchase. (Link above) Keep watching and I'll show you how I adjust these heaters without this tool!

What's wrong with the heater I'm working on... Click the time stamp to find out!

Disassembly - It's really this easy!

Where is the second filter located? Click the time stamp to find out!

Where is the pump and how does it work? How should you clean the pump? Click the time stamp to find out!

What else should you look for? Click the time stamp to find out!

Common parts you may need - Link above!

Where do you adjust the pressure and how does it work? Click the time stamp to find out!

How to assemble the back cover and pressure adjustment screw. Click the time stamp to find out how!

Initial start-up and testing procedure after reassembly. Click the time stamp to find out how!

How to adjust the pressure if you DO NOT have a pressure gauge. Click the time stamp to find out how!

What happens if your pressure is too low? Click the time stamp to find out!

What should you look for when adjusting the pump pressure? Click the time stamp to find out!

How to check or set the pump pressure with a proper gauge. Click the time stamp to find out how!

I forgot to mention this in the video, but the pressure is listed on the tag right on the side of these heaters. It is different for each heater, so don't use the same pressure I mention in this video without checking the proper setting for your heater.

What should the front of the heater look like when the heater is running and set correctly? Click the time stamp to find out!

Final checks and reassembly, and testing with the cover back on.

Closing comments, my opinion, and other options that work well for heating and/or cooling your workshop.
