Richard Smythe-Phillips, Charles Dawud-Phillips and Abdou Dhanka understand what is both sad and great about Africa. As they pursue the women they are coming to love, they provide understanding into what makes Africa unique and beautiful. Contemporary Arab American Women Writers: Hyphenated Identities and Border Crossings

Late in World War II, Adolf Hitler is about to achieve his greatest victory: the capture of Solomon's Treasure, the world's most sacred treasure trove, representing both gold and precious gems as well as ancient knowledge. He believes it will guarantee his dream of a thousand-year Reich. Jim Marrs presents an edgy combination of fact and fiction in this wide-reaching story of ancient secrets uncovered in the midst of war. The first novel from Marrs, this book follows his bestseller *The Rise of the Fourth Reich*. He uses his factual research into the Nazis' fascination with the occult and their search for iconic treasures as a basis for this novel. Can Giselle Tchaikovsky, a young American woman who achieved fame as a teenage ballet dancer in the 1930s, stop Hitler's dream of world conquest? Can the secret sisterhood she creates do anything against the Nazi juggernaut of men and machines? Will the sisterhood bring about a resurgence of the feminine goddess aspect of humanity in time to spare the world this madman's holocaust? Jim Marrs presents an edgy combination of fact and fiction in this wide-reaching story of ancient secrets uncovered in the midst of war. It's a tale of love and war, ancient mysteries, and the struggle to balance the human soul. The first novel from Marrs, this book follows his New York Times bestseller *The Rise of the Fourth Reich*. He uses his factual research into the Nazis' fascination with the occult and their search for iconic treasures as a basis for the novel.

The Hyphen

With this purported new "era of high-profile, mega successful, black women who are changing the face of every major field worldwide" and growing socioeconomic diversity among black women as the backdrop, *Embracing Sisterhood* seeks to determine where contemporary black women's ideas of black womanhood and sisterhood merge with social class status to shape certain attachments and detachments among them. Similarities as well as variations in how black women of different social backgrounds perceive and live black womanhood are interpreted for a range of social contexts. This book confirms what many of today's African-American women and interested observers have known for some time: Conceptions and experience of black womanhood are quite diverse and appear to have grown more diverse over time. However, the potential for a pervasive and polarizing black "step-sisterhood" is considerably undermined by the passion with which these women cling to the promises of cross-class gender/ethnic "community" and of group determination. *Embracing Sisterhood* draws its analysis from in-depth interviews with eighty-eight contemporary black women aged 18 to 89 covering a variety of issues prompted by a survey questionnaire capturing various dimensions of gender/ethnic identity and consciousness.

The Sisterhood

The Inner Sisterhood: A Social Study in High Colors by Douglass Shirley is about the simple reflections of a high-born young gentlewoman after an evening ball. Excerpt: "The storm door closes with a bang! My escort, a stupid fellow, has said "Good night!" He drives down the street in his old rattletrap of a coupe. I am so glad he is gone! And yet I am always afraid of burglars—or—something dreadful, whenever I go into the house alone so late at night. I bolt the inside door. I mount the hall chair, left waiting by papa, and, trembling with a nameless fear, turn out the gas and leave myself in darkness. I make two vain dashes for the stair; a third, and I have found it. I grope for the heavy rail and go rapidly up, two steps at a time, and finally, out of breath, badly frightened, reach my room."

The Sisterhood of the Rose

In sisterhood always remember that you are loved, you never have to stand alone, and you always have someone who has your back. Along the way she was given this vision to write this book and here we are. She hopes this book helps other girls know that they are not alone in the world even if they don't have a sibling.

A Treatise On English Punctuation

This powerful collection from an international mix of respected academics, newer voices and political activists explores the place of Israel as a Jewish state in today's modern world – a world in which identities, citizenship and human rights are defined in increasingly cosmopolitan and inclusive ways. Offering compelling and comprehensive arguments as to why Israel falls into the category of an ethnocentric state, the contributions to this volume explore four central themes. They reveal the reality behind Israel's founding myths. They document the experiences of some of those who have fallen victim to this ethnic state. Then, they draw comparisons with other ethnic states, notably South Africa, and finally, they point towards the radical hope of achieving a single nation, united, peaceful and just. Unpacking both Jewish and Palestinian nationalism, the nation-state, and ethnic nationalism, this fascinating collection offers new insights into one of the world's most intractable conflicts. It will appeal not only to scholars and teachers, but to anyone interested in the history, politics, anthropology and legal standing of Palestine-Israel. Contributors: Ali Abunimah, Neville Alexander, Max du Plessis, Steven Friedman, Daryl Glaser, Ran Greenstein, Heidi Grunebaum, Adam Habib, Na'eem Jeenah, Ronnie Kasrils, Smadar Lavie, Fouad Moughrabi, Nadim N Rouhana, Shlomo Sand, Avi Shlaim, Azzam Tamimi, Salim Vally, Oren Yiftachel, Andre Zaaiman

Between Identity and Location

In this literary, co-constructed narrative, two Brazilian scholars explore the spaces “in-between”—between their own biographies, one raised privileged, the other poor; between the experience of being raised in Brazil and finding acceptance in United States universities; between their lives in the academic establishment and their studies of poverty in Latin America; between the constraints of apolitical scholarship and the need to promote social justice; between contrasting styles of researching, theorizing, and writing. Their dialogue seeks to decolonize the world of American scholarship and promote the use of research toward inclusive social justice.

The Second Summer of the Sisterhood

Psychologists, as well as the general public, have recognized the importance of female friendships. Scientists call this bond the tending instinct- a kind of female relaxation response that has salutary effects. Such special attachment shields women from isolation and provides an enhanced sense of wellbeing. Intimate friends can therefore act as sisters of the heart to promote connection, solace, wholeness, and longevity. Moreover, women friends frequently provide emotional, social, physical, and spiritual benefits. Indeed, sisters of the heart constitute an unparalleled bond that encourages women to connect with themselves, with others, and with the world at large. In this book, twelve women therapists, who are diverse in age-- young, middle, and older women; as well as in ethnicity--White, African American, Latina, Asian American, Native American, and multiracial women---examine the psychological and physical aspects of this unique female bonding. Through their narratives we hear their distinctive voices as women and as healers. In this fashion, they reflect on both the functional and dysfunctional dynamics occurring between intimate female friends. Finally, these women therapists examine how their experience with a sister of the heart informed their development as healers, and discuss how they use this special bond in psychotherapy with women. This book was originally published as a special issue of *Women & Therapy*. 'This enlightening, iconic book is for anyone who wants to understand more about the powerful roles of friendships—including challenges--among women that facilitate their ability to survive and thrive. It is special in that the chapter authors are psychotherapists who describe the impact of female bonding, from scientific as well as personal bases. The descriptions are rooted in theory, research, extensive clinical experience and personal lives. Refreshing and much needed, this book will prove useful to professionals as well as any women or men who want to understand the value and salience of female relationships.' Melba Vasquez, PhD, ABPP Past President, American Psychological Association Independent Practice, Austin, Texas

Collects 14 articles on women's suffrage. Papers presented at the Tenth International Conference on Patristic Studies held in Oxford 1987 (see also *Studia Patristica* 20, 21, 22 and 23). The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies, which meet for a week once every four years in Oxford; they are held under the aegis of the Theology Faculty of the University. Members of these conferences come from all over the world and most offer papers. These range over the whole field, both East and West, from the second century to a section on the *Nachleben* of the Fathers. The majority are short papers dealing with some small and manageable point; they raise and sometimes resolve questions about the authenticity of documents, dates of events, and such like, and some unveil new texts. The smaller number of longer papers put such matters into context and indicate wider trends. The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject.

Betweenner Talk

This book intertwines academic and activist voices to engage with more than three decades of lesbian activism in the Yugoslav space. The empirically rich contributions uncover a range of lesbian initiatives and the fundamental, but rarely acknowledged, role that lesbian alliances have played in articulating a feminist response to the upsurge of nationalism, widespread violence against women, and high levels of lesbophobia and homophobia in all of the post-Yugoslav states. By offering a distinctly intergenerational

and transnational perspective, this collection does not only shed new light on a severely marginalised group of people, but constitutes a pioneering effort in accounting for the intricacies – solidarities, joys, and tensions – of lesbian activist organising in a post-conflict and post-socialist environment. With a plethora of authorial standpoints and innovative methodological approaches, the volume challenges the systematic absence of (post-)Yugoslav lesbian activist enterprises from recent social science scholarship. Lesbian Activism in the (Post-)Yugoslav Space will be of interest to students and scholars across a range of disciplines, including gender studies, history, politics, anthropology, and sociology.

Transnational Matrilineage offers a novel approach to Asian American literature, including texts by Maxine Hong Kingston, Amy Tan, Mei Ng, Nora Okja Keller and Vineeta Vijayaraghavan, with particular attention to depictions of transnational solidarity (that is the sense of community between women of different cultures or cultural affiliations) between Asian-born mothers and their American-born daughters. While focusing on the mother-daughter conflicts these texts portray, this book also contributes to ongoing debates in transnational feminism by scrutinizing the representation of Asia in Asian American literature.
