Eva Trammel, plagued by her own insecurities, is drawn into an intense, obsessive relationship with the wealthy and arrogant Gideon Cross.

Crossfire Novels

There's nothing more romantic than Valentine's Day...except Sylvia Day. Now in one deluxe box set, the first four novels in the Crossfire series. The #1 New York Times bestselling author. The #1 worldwide phenomenon. *Bared to You* He was beautiful and brilliant, jagged and white-hot. I was drawn to him as I'd never been to anything or anyone in my life. I craved his touch like a drug, even knowing it would weaken me. I was flawed and damaged, and he opened those cracks in me so easily... Gideon knew. He had demons of his own. And we would become the mirrors that reflected each other's most private wounds... and desires. The bonds of his love transformed me, even as I prayed that the torment of our pasts didn't tear us apart... *Reflected in You* Gideon Cross. As beautiful and flawless on the outside as he was damaged and tormented on the inside. He was a bright, scorching flame that singed me with the darkest of pleasures. I couldn't stay away. I didn't want to. He was my addiction... my every desire... mine. My past was as violent as his, and I was just as broken. We'd never work. It was too hard, too painful... except when it was perfect. Those moments when the driving hunger and desperate love were the most exquisite insanity. We were bound by our need. And our passion would take us beyond our limits to the sweetest, sharpest edge of obsession... *Entwined with You* From the moment I first met Gideon Cross, I recognized something in him that I needed. Something I couldn't resist. I also saw the dangerous and damaged soul inside so much like my own. I was drawn to it. I needed him as surely as I needed my heart to beat. No one knows how much he risked for me. How much I'd been threatened, or just how dark and desperate the shadow of our pasts would become. Entwined by our secrets, we tried to defy the odds. We made our own rules and surrendered completely to the exquisite power of possession... *Captivated by You* Gideon calls me his angel, but he's the miracle in my life. My gorgeous, wounded warrior, so determined to slay my demons while refusing to face his own. The vows we'd exchanged should have bound us tighter than blood and flesh. Instead they opened old wounds, exposed pain and insecurities, and lured bitter enemies out of the shadows. I felt him slipping from my grasp, my greatest fears becoming my reality, my love tested in ways I wasn't sure I was strong enough to bear. At the brightest time in our lives, the darkness of his past encroached and threatened everything we'd worked so hard for. We faced a terrible choice: the familiar safety of the lives we'd had before each other or the fight for a future that suddenly seemed an impossible and hopeless dream...

Blindsight

Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight*. Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Spanish Love Deception

A wedding. A trip to Spain. The most infuriating man. And three days of pretending. Or in other words, a plan that will never work. Catalina Martín, finally, not single. Her family is happy to announce that she will bring her American boyfriend to her sister's wedding. Everyone is invited to come and witness the most magical event of the year. That would certainly be tomorrow's headline in the local newspaper of the small Spanish town I came from. Or the epitaph on my tombstone, seeing the turn my life had taken in the span of a phone call. Four weeks wasn't a lot of time to find someone willing to cross the Atlantic—from NYC and all the way to Spain—for a wedding. Let alone, someone eager to play along with my charade. But that didn't mean I was desperate enough to bring the 6'4 blue eyed pain in my ass standing before me, Aaron Blackford. The man whose main occupation was making my blood boil had just offered himself to be my date. Right after inserting his nose in my business, calling me delusional, and calling himself my best option. See? Outrageous. Aggravating. Blood boiling. And much to my total despair, also right. Which left me with a surly and extra large dilemma in my hands. Was it worth the suffering to bring my colleague and bane of my existence as my fake boyfriend to my sister's wedding?

Or was I better off coming clean and facing the consequences of my panic induced lie? Like my abuela would say, que dios nos pille confesados. The Spanish Love Deception is an enemies-to-lovers, fake-dating.

Found in You

The groundbreaking novel from the Pulitzer Prize–winning author of *American Pastoral* that originally propelled its author to literary stardom: told in a continuous monologue from patient to psychoanalyst, this masterpiece draws us into the turbulent mind of one lust-ridden young Jewish bachelor named Alexander Portnoy. "Deliciously funny...absurd and exuberant, wild and uproarious...a brilliantly vivid reading experience." —The New York Times Book Review "Touching as well as hilariously lewd.... Roth is vibrantly talented." —New York Review of Books Portnoy's Complaint n. [after Alexander Portnoy (1933-)] A disorder in which strongly-felt ethical and altruistic impulses are perpetually warring with extreme sexual longings, often of a perverse nature. Spielvogel says: 'Acts of exhibitionism, voyeurism, fetishism, auto-eroticism and oral coitus are plentiful; as a consequence of the patient's "morality," however, neither fantasy nor act issues in genuine sexual gratification, but rather in overriding feelings of shame and the dread of retribution, particularly in the form of castration.' (Spielvogel, O. "The Puzzled Penis," *Internationale Zeitschrift für Psychoanalyse*, Vol. XXIV, p. 909.) It is believed by Spielvogel that many of the symptoms can be traced to the bonds obtaining in the mother-child relationship.

Ever After

The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande With millions of copies in print around the world, Gregory Maguire's *Wicked* is established not only as a commentary on our time but as a novel to revisit for years to come. *Wicked* relishes the inspired inventions of L. Frank Baum's 1900 novel, *The Wonderful Wizard of Oz*, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz's most promising young citizens. But Elphaba's Oz is no

utopia. The Wizard's secret police are everywhere. Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance. Ever wiser in guilt and sorrow, she can find herself grateful when the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel's distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire's *Wicked* is as unique as its green-skinned witch.

Three things I never expected to experience in the month of giving thanks, but that is just what I received. Wes had survived Hell on Earth, and was back where he was meant to be...in my arms and my bed. For good. There would be no breaking us apart after the trauma we experienced up to this point. My new job with Century Production sent me to the big apple to interview celebrities for a special segment on being thankful. What is a girl to do when she has an entire host of celebrity friends from her past year of travels? You better believe I called up my friends Mason Murphy, all-star pitcher for the Red Sox, and Anton Santiago, the Latin Lov-ah, to participate. They were all too happy to oblige, only my guy's feathers were a bit ruffled by the ease with which they came running. Add in my new family and you've got a fairytale Thanksgiving. Except for one tiny detail...the single seat at the table, left open by the hole in my heart that only one person could fill. *** In the eleventh book of the Calendar Girl serial, Mia is off to New York City to film a segment for her new job. He'd only been part of my life for five short weeks two years ago. But now he was back. Walking into a deal I'd worked hard to close. And God, he was magnificent. There was nothing soft about Jackson Rutledge. He was a hard and jaded man, cut from a ruthless cloth. In that moment I understood how badly I wanted to unravel the mystery of Jax. Bad enough that I didn't mind how much it was going to cost me... *AFTERSHOCK* When it came to playing games, my lover Jax was a master strategist. In sixteenth-century Europe, young Niccolo travels from Florence to Trebizond on the Black Sea, where the West and the Orient meet and where he finds both opportunity and danger

The Spring of the Ram

In 1461, the mysterious enigmatic Nicholas is in Florence. Backed by none other than Cosimo de' Medici, he will sail the Black Sea to Trebizond, last outpost of Byzantium, and the last jewel missing from the crown of the Ottoman Empire. But trouble lies ahead. Nicholas's step-daughter - at the tender age of thirteen - has eloped with his rival in trade: a Machiavellian Genoese who races ahead of Nicholas, sowing disaster at every port. And time is of the essence: Trebizond may fall to the Turks at any moment. Crackling with wit, breathtakingly paced, *THE SPRING OF THE RAM* is a pyrotechnic blend of scholarship and narrative shimmering with the scents, sounds, colors and combustible emotions of the 15th century.

Niccolo Rising

In this first book of *The House of Niccolò* series, the author of the *Lymond Chronicles* introduces a new hero, Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed *Lymond Chronicles*, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges. *Niccolò Rising*, Book One of the series, finds us in Bruges, 1460. Jousting is the genteel pastime, and successful merchants are, of necessity, polyglot. Street smart, brilliant at figures, adept at the subtleties of diplomacy and the well-timed untruth, Dunnett's hero rises from wastrel to prodigy in a breathless adventure that wins him the hand of the strongest woman in Bruges and the hatred of two powerful enemies. From a riotous and potentially murderous carnival in Flanders, to an avalanche in the Alps and a pitched battle on the outskirts of Naples, *Niccolò Rising* combines history, adventure, and high romance in the tradition stretching from Alexandre Dumas to Mary Renault.

Race of Scorpions

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed Lymond Chronicles, Dorothy Dunnett presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. In 1462, Nicholas is a wealthy 21-year-old. His beloved wife has died. His stepchildren have locked him out of the family business. He and his private army are the target of multiple conspiracies. And both contenders for the throne of Cyprus, the brilliant Queen Carlotta and her charismatic, sexually ambivalent brother James, are demanding his support. Walking a tightrope of intrigue, Dunnett's hero juggles adversaries and allies, from the delectable courtesan Primaflora to the Mameluke commander Tzani-Bey al Ablak, a man of undiluted evil. Masterfully paced, alive with sensual delights, *Race of Scorpions* confirms Dorothy Dunnett as the grande dame of the genre.

Scales of Gold

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed Lymond Chronicles, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. The year 1464 finds Nicholas back in Venice. Plagued by enemies bent on dissolving his assets and smearing his character, he sets sail for Africa, legendary location of the Fountain of Youth, home to a descendant of Sheba and Solomon, and the source of gold in such abundance that men prefer to barter in shells. He will learn firsthand the brutality and grandeur of the Dark Continent, from the horror of the slave trade to the austere nobility of Islamic Timbuktu. He will discover, too, the charms of the beautiful Gelis van Borselen--a woman whose passion for Nicholas is rivaled only by her desire to punish him for his role in her sister's death. Erotic and lush with detail, *Scales of Gold* embraces the complexity of the Renaissance, where mercantile adventure couples with more personal quests behind the silken curtains of the Age of Discovery.

The Unicorn Hunt

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed Lymond Chronicles, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. Scotland, 1468: a nation at the edge of Europe, a civilization on the threshold of the Modern Age. Merchants, musicians, politicians, and pageantry fill the court of King James III. In its midst, Nicholas seeks to avenge his bride's claim that she carries the bastard of his archenemy, Simon St. Pol. When she flees before Nicholas can determine whether or not the rumored child is his own—or exists at all—Nicholas gives chase. So begins the deadly game of cat and mouse that will lead him from the infested cisterns of Cairo to the misted canals of Venice at carnival. Breathlessly paced, sparkling with wit. *The Unicorn Hunt* confirms Dorothy Dunnett as the genre's finest practitioner.

Two Birds in a Tree

The health of business is inextricably linked with the health of humanity and nature. But our current approaches to leadership treat business as entirely separate—and the result has been recurring economic, environmental, and human crises. In this extraordinary book, Ram Nidumolu uses evocative parables and stories from the ancient Indian wisdom texts, the Upanishads, to introduce Being-centered leadership. This new kind of leadership is anchored in the concept of Being, the fundamental reality that underlies all phenomena. Being-centered leaders are guided by an innate sense of interconnection—the good of the whole becomes an integral part of their decisions and actions. Using the experiences of over twenty trailblazing CEOs, as well as those from his own life, Nidumolu describes a four-stage road map every aspiring leader can use to reconnect business to the wider world—to the benefit of all.

Heroism in the Harry Potter Series

Taking up the various conceptions of heroism that are conjured in the Harry Potter series, this collection examines the ways fictional heroism in the twenty-first century challenges the idealized forms of a somewhat simplistic masculinity associated with genres like the epic, romance and classic adventure story. The collection's three sections address broad issues related to genre, Harry Potter's development as the central heroic character and the question of who qualifies as a hero in the Harry Potter series. Among the topics are Harry Potter as both epic and postmodern hero, the series as a modern-day example of psychomachia, the series' indebtedness to the Gothic tradition, Harry's development in the first six film adaptations, Harry Potter and the idea of the English gentleman, Hermione Granger's explicitly female version of heroism, adult role models in Harry Potter, and the complex depictions of heroism exhibited by the series' minor characters. Together, the essays suggest that the Harry Potter novels rely on established generic, moral and popular codes to develop new and genuine ways of expressing what a globalized world has applauded as ethically exemplary models of heroism based on responsibility, courage, humility and kindness.

To Lie with Lions

Merchant-banker Nicholas de Fleury, having wrested his infant son from the boy's formidable mother, pauses en route to the land of golden light to set in train a deception that will ensnare nations in the triumphant ruin of his enemies. This is volume six in the "House of Niccolo".

The Book of the Courtier

"The Book of the Courtier" by Baldassarre conte Castiglione is a lengthy philosophical dialogue on the topic of what constitutes an ideal courtier or court lady, worthy to befriend and advise a Prince or political leader. Castiglione set the narrative of the book in his years as a courtier in his native Duchy of Urbino. It offers a poignantly nostalgic evocation with a reverent tribute to the friends of Castiglione's youth.

Blockchain Chicken Farm

A New York Times Book Review Editors' Choice "A brilliant and empathetic guide to the far corners of global capitalism." --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Venus and the Arts of Love in Renaissance Florence

In this volume, Rebekah Compton offers the first survey of Venus in the art, culture, and governance of Florence from 1300 to 1600. Organized chronologically, each of the six chapters investigates one of the goddess's alluring attributes – her golden splendor, rosy-hued complexion, enchanting fashions, green gardens, erotic anatomy, and gifts from the sea. By examining these attributes in the context of the visual arts, Compton uncovers an array of materials and techniques employed by artists, patrons, rulers, and lovers to manifest Venusian virtues. Her book explores technical art history in the context of love's protean iconography, showing how different discourses and disciplines can interact in the

creation and reception of art. *Venus and the Arts of Love in Renaissance Florence* offers new insights on sight, seduction, and desire, as well as concepts of gender, sexuality, and viewership from both male and female perspectives in the early modern era.

A History of Orgies

An orgy, the dictionary tells us, is "a wild gathering, marked by promiscuous sexual activity, excessive drinking, etc." Burgo Partridge tells us precisely what that has meant down through the ages. He begins with the Greeks, who celebrated sexuality at Dionysian festivals, and the Romans, who imported unwholesome brutalities into their orgiastic celebrations. We then learn of the penchant for group sex displayed by medieval popes, the junketings of Restoration England, the aristocratic hedonists of the Hellfire Club and Scotland's notorious Wig Club, the orgiastic tastes of Casanova and the Marquis de Sade, right into the 20th century and the bizarre excesses of Aleister Crowley.

Checkmate

A revolutionary rethinking of everything we know about power It shapes every interaction we have, whether we're trying to get a two-year-old to eat green vegetables or ask for a promotion at work. But how do we really gain power? And what does it do to us? As renowned psychologist Dacher Keltner reveals, the new science of power shows that our Machiavellian view of status is wrong. Influence comes not to those who are ruthless, but to those with socially intelligence and empathy. Yet, ironically, the seductions of success lead us to lose those very qualities that made us powerful in the first place. Keltner draws on fascinating case studies to illuminate this 'power paradox', revealing how it shapes not just companies and elections but everyday relationships. As his myth-busting research shows, power - and powerlessness - distorts our behaviour, affecting whether or not we will have an affair, break the law, drive recklessly or find our purpose in life. In twenty original 'power principles', Keltner shows how we can retain power by maintaining a focus on others. By redefining power as the ability to do good, The Power Paradox turns everything we know about influence, status and inequality upside down.

The 33 Strategies Of War

This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives. The period was one of extraordinary upheaval and change, as the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions – political, economic and intellectual – of the Dutch

Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of human activity; between culture and history. The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. In continually crossing disciplinary, linguistic and national boundaries, while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus, this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements.

The Spring of the Ram

This second book in the legendary Lymond Chronicles follows Francis Crawford of Lymond who has been abruptly called into the service of Mary Queen of Scots. Though she is only a little girl, the Queen is already the object of malicious intrigues that extend from her native country to the court of France. It is to France that Lymond must travel, exercising his sword hand and his agile wit while also undertaking the most unlikely of masquerades, all to make sure that his charge's royal person stays intact.

From Revolt to Riches

Since publication in 1979 Isabel Rivers' sourcebook has established itself as the essential guide to English Renaissance poetry. It provides an account of the main classical and Christian ideas, outlining their meaning, their origins and their transmission to the Renaissance; illustrates the ways in which Renaissance poetry drew on classical and Christian ideas; contains extracts from key classical and Christian texts and relates these to the extracts of the English poems which draw on them; includes suggestions for further reading, and an invaluable bibliographical appendix.

Queens' Play

This third volume in The Lymond Chronicles, the highly renowned series of historical novels takes place in 1551, when Francis Crawford of Lymond is dispatched to embattled Malta, to assist the Knights of Hospitallers in defending the island against the Turks. But shortly the swordsman and scholar discovers that the greatest threat to the Knights lies within their own ranks, where various factions vie secretly for master.

Classical and Christian Ideas in English Renaissance Poetry

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
