... **Crime**, or **Countering Transnational**, Organized **Crime**, ...

Come Up in the Research and the Policy Discussions about What's Going On There So I Think in the Sense that You Have Conflict Related Displacement in the Region this Just Magnifies Risks People Are at Increasing Risk of either Opting into a Human Smuggling Scheme for Hope of a Better Life or in Addition You Know There's There's a Greater Risk for Trafficking in Persons in those Kinds of Difficult Situations so I Think in Terms of Refugees There You Have It and Then in Terms of the Impact of Talk on Vulnerable Populations More Generally I Mean We See in Places Where We Have Weak State Control in Places That Are I Guess Geographically Far from the Capital

Part of What Allows Talk To Flourish Is that There's Already a Sense of Marginalization or Vulnerability Not Always There Are Certainly Counter Points but that's Often the Case and I Think that You Can See in You Know Dr Kelly Had Mentioned Lord's Resistance Army and Their Illicit Trafficking Networks throughout the Region You Can Also See that this Impacts the Local Communities in Which They Are Engaged Has a Higher Susceptibility to Sexual and Gender-Based Violence

... Levels To **Combat Transnational**, Organized **Crime**, in ...

We Initially Did an Investigation To Look at the Crime Networks That Were Trafficking in Ivory and Timber Later Discovering that They Were Also Engaged To Like Many of Them Also They Were Also Engaged in Human Trafficking and Drug Trafficking and What We Realized Was that once We Completed Our Investigation into the Crime Networks We Had To Then Conduct an Entirely Separate Investigation into that Government's Own Corrupt Officials That Were Protecting all of those Activities and and that Was a Much Harder Issue To Fight I Actually Recently Spoke to that Commander of the Unit That I Had Been Advising and Working with and Asked Him What Was His Biggest Challenge to this Day Was It Was It Crime or Corruption and He Said without a Doubt It's Corruption

And They Don't Have Very Capable Expertise To Investigate of Corruption Cases and There Is Sometimes a Political Interference When a Corruption Case Is Started To Investigate by Investigative Authorities Therefore Building a Professional Institution and Giving some Kinds of Autonomy and Independence Is an Important Should Prevent and Combat Corruption or the Whole in the East African Region in Addition to this We Have To Wear Our Society That Is Creating of Awareness among the Police an Important Issue It's Prevent and Combats Corruption

So I'd Like To Give each of Our Four Expert Speakers 60 Seconds To Leave Us with a Final Thought so Katherine We'll Start with You Okay Great I'll Come Back to the Importance of Rule of Law inside and outside of the Security Sector for Countering Toc so Research Shows We Need

To Focus Not Just on a Securitized Response but Also on Developmental and Governance Related Elements of Long-Term Solutions To Toc but if There Are Militarized or Law Enforcement Elements in a State's Response the Officials Involved Need To Work To Ensure that They'Re Minimizing Security Force Abuses in Counter Toc Efforts and that They'Re Addressing Head on this Issue of High-Level Government Corruption and Enabling Toc Acts

Therefore this African Policymakers As Well as this African Committee as Part Must Be Wake Up that They Have To Consider that Transnational Organized Crime Special the Illicit Networks Now That Grows and Expanded on the Horn on the East Africa Region Is a Strategic Challenge for the Governance for Political Stability for Economic Integrity the Four Kind as Policymakers Must Wake Up and They Put Their Hand Together and They Have To Come Together and Fight Their this Growth and Expansions of Elisany's Work and this African Region Thank You Very Much Messi Brooke Over to You Please I Think My Final Point in Addition to Echoing in the Last the Last Two Would Would Be that We Need To Ensure that Our Response Is Informed by a Clear Understanding and Analysis of the Dynamic of Which We Are Addressing

We Need To Ensure that Our Response Is Informed by a Clear Understanding and Analysis of the Dynamic of Which We Are Addressing One Great Tool for that Is the Africa Crime Index from the Annette Project That Is within a You Fund of Activity with Interpol International News Super Security Studies and in Affiliation with the Global Initiative against Transnational Organized Crime Has a 2019 Africa Crime Index That Really Helps Lay the Groundwork and that Type of Analysis As Well as Really Understanding the Political Economy in Which We'Re Working Is Going To Be Imperative

In Informing Our Responses To Really Understand the Dynamics That Are at Play Including the Issue as We'Ve all Been Talking about of State Capture or High-Level Corruption and the Second Point Is To Look for the Bright Spots There Are Efforts Where Progress Is Being Made There Are Centers of Gravity within African Communities and within African Regional Organizations and Being Able To Support and Engage in those and Weaken Governments Being Able To Support and Engage those Efforts Where There Is Traction Is Going To Be Critical in Terms of Long-Term Success

A novel image encryption approach using matrix reordering

24 May 2016 — A novel approach for encrypting digital images using Matrix Reordering (MR), a kind of scanning, and simple XOR operation is proposed in this paper. The MR is applied to permute the pixel positions and the XOR operation is done to diffuse the pixel values.

A Novel Image Encryption Approach Using Matrix Reordering

A novel approach for encrypting digital images using Matrix Reordering (MR), a kind of scanning, and simple XOR operation is proposed in this paper. The MR is ...

A Novel Image Encryption Approach using Matrix Reordering

by T SIVAKUMAR · Cited by 27 — Abstract: - Transmission and storage of multimedia data like audio, video, and images over the Internet has increased in today's digital communication. Among the different multimedia data, images are transmitted and used very often. It is essential to protect the multimedia data from unauthorized ...

A Novel Image Encryption Approach using Matrix Reordering

The analysis shows that the proposed system for encrypting digital images using Matrix Reordering (MR), a kind of scanning, and simple XOR operation is resistant to statistical and differential attacks, and could be used in real-time applications to provide confidentiality service for images with less computational ...

A novel image encryption algorithm based on the extracted ...

by MA Fadhil Al-Husainy · 2016 · Cited by 5 — This paper presents a non-traditional encryption algorithm that uses a large key size (256 bytes) = 2048 bits, to achieve a high degree of protection for the image.

(PDF) Image Encryption using Block Permutation and XOR ...

A novel approach for encrypting digital images using Matrix Reordering (MR), a kind of scanning, and simple XOR operation is proposed in this paper. The MR is applied to permute the pixel positions and the XOR operation is done to diffuse the pixel values. The bitwise XOR operation is performed using pseudorandom ...

Image Encryption Based on Matrix Factorization

16 Oct 2020 — In this paper, we present a matrix decomposition-based approach for image cryptography. The proposed method consists of decomposing the image into different component and scrambling the components to form the image encryption technique. We use two different type of matrix decomposition techniques to ...

A novel image encryption algorithm based on the extracted ...

Megha, Reader and S. Kaminee, Image Encryption and Decryption Using Selective Block Encryption Technique. Int. J. Comput. Sci. Eng. Tech. (IJCSET) 5 ... Sivakumar and R. USENIX Enigma 2017 — Understanding and Designing for End Users' Security Expectations -

USENIX Enigma 2017 — Understanding and Designing for End Users' Security Expectations by

USENIX Enigma Conference 2,493 views 7 years ago 23 minutes - Franziska Roesner, University of

Washington As technology **designers**, we must do two things to build systems that are both ...

Intro

Journalists can benefit from security tools...

but don't often use these tools in practice.

Interviews with Journalists

Choice of communication technology is often driven by the source - and many sources are not tech-savvy.

Long-term sources are common, with trust built over time, truly anonymous sources are rare.

Interviews with Journalistic Orgs

Journalists and organizational stakeholders share some concerns and perspectives but differ on others.

Tool Design and Prototype

Usable Encrypted Email?

Towards (More) Usable Encrypted Email

Our Tool: Confidante

Usability Study

Using Keybase for automated key management is promising: easy to use, many errors avoided.

Security concerns and usability challenges remain...

Journalists and lawyers have different operational constraints and different threat models.

Conclusion

Acknowledgements
